### SUMMARY:

House Bill 5956 would amend the Insurance Code of 1956 to prohibit insurers that deliver, issue for delivery, or renew health insurance policies in Michigan from discriminating against *health professionals* acting within the scope of their license granted under the Public Health Code, with respect to participation under a health insurance policy.

*Health professional* would mean an individual who is licensed, registered or otherwise authorized to engage in a health profession under Article 15 of the Public Health Code.<sup>1</sup>

The bill states that the above provision would not require an insurer to contract with any health professional who is willing to abide by the terms and conditions for participation established by that insurer.

The bill also would not prohibit an insurer from establishing varying reimbursement rates based on quality or performance measures.

Proposed MCL 500.3406jj

### FISCAL IMPACT:

House Bill 5956 would not have a fiscal impact on any units of state or local government.
