SUMMARY:

House Bill 6098 would amend the Michigan Zoning Enabling Act to revise signature requirements for certain protest petitions submitted in response to proposed zoning ordinance amendments.

Under the act, an amendment to a zoning ordinance by a city or village is subject to a protest petition. If a protest petition is submitted, then approval of the amendment requires a 2/3 vote of the legislative body (unless a larger vote of up to 3/4 is required by ordinance or charter).

A protest petition has to be signed by either or both of the following:

- The owners of at least 20% of the area of land (excluding publicly owned land) included in the proposed change.
- The owners of at least 20% of the area of land (excluding publicly owned land) included in an area extending outward 100 feet from any point on the boundary of the land included in the proposed change.

The bill would change the boundary extension distance from 100 feet to 200 feet in determining the second area described above.

In addition, if the zoning ordinance amendment increases the authorized intensity of development, the bill would require a protest petition to be signed by either or both of the following:

- The owners and any tenants of at least 50% of the area of land (excluding publicly owned land) included in the proposed change.
- The owners and any tenants of at least 50% of the area of land (excluding publicly owned land) included within an area extending outward 200 feet from any point on the boundary of the land included in the proposed change.

MCL 15.3403

FISCAL IMPACT:

The bill would have no fiscal impact on the state or local units of government.
