Dcn. Curtis Chambers, Deacon of Cheboygan, Pellston, and Riggsville Catholic Parishes in Cheboygan, offered the following invocation:

“God is love. In the desire to make us share in this love, He sent His son into the world to come to our aid and in gentle kindness to help those who were weak, sick, or unfortunate. In His great love for all of us, Christ said that whatever we do for the least among us we do for Him. He called those who show Mercy, ‘blessed of his Father,’ and promise them eternal life. Let us then pray for the Lord’s richest blessings on the members of this house, who are devoted to helping their brothers and sisters indeed all the citizens of Michigan.

Almighty and eternal God, You have revealed Your glory to all nations. God of power and might, wisdom and justice, through You Authority is rightly administered, laws are enacted, and judgment is decreed.

We pray for (Gretchen Whitmer) the governor of this great state, for the members of the legislature, for judges, elected civil officials, and all others who are entrusted to guard our political welfare. May they be enabled by Your powerful protection to discharge their duties with honesty, integrity, and ability.

We likewise commend to Your unbounded mercy all citizens of the state of Michigan that we may be blessed in the knowledge and Sanctified in the observance of Your Holy Law. May we be preserved in union and that peace which the world cannot give; and, after enjoying the blessings of this life, be admitted to those which are eternal.

We pray to You, Who are Lord and God, forever and ever.
Amen.”

Whereas, Huntington's disease is a progressive degenerative neurological disease affecting 41,000 Americans while another 200,000 are genetically at risk of inheriting the expanded gene responsible for causing the disease; and

Whereas, Each child of a parent with Huntington's disease has a 50 percent chance of inheriting the Huntington's disease gene; and

Whereas, Huntington's disease typically occurs in mid-life, between the ages of 30 and 50, though onset has been known to occur in children as young as 2 years of age; and

Whereas, The average lifespan after onset of Huntington's disease is 10-20 years, and the younger the age of onset, the more rapid the progression of the disease, resulting in children who develop the juvenile form of the disease rarely living to adulthood; and

Whereas, Since the discovery of the gene that causes Huntington's disease in 1993, the pace of HD research has accelerated. Scientists across the nation are conducting important research into Huntington's Disease, which at present has no effective treatment or cure; and

Whereas, It is critical to the success of research and support services to raise awareness in the general public and the medical community about Huntington's disease; now, therefore, be it

Announcements by the Clerk

The Clerk received the following dissent on **House Bill No. 5434**, from Rep. Zorn:

“I’ve never missed a vote in my career as a public official. I believe it is my duty as a representative of my constituents to express their voice every time I am called to vote on legislation.

Unfortunately, the presiding officer rushed the vote today and I was not given ample time to vote. I am disappointed as I was present here today and wanted the opportunity to vote in support of this measure.”

Rep. Arbit moved that the House adjourn.

The motion prevailed, the time being 3:45 p.m.

The Speaker Pro Tempore declared the House adjourned until Wednesday, May 8, at 12:00 Noon.

RICHARD J. BROWN
Clerk of the House of Representatives
