- **Prohibit a person from tampering with a body-camera recording that could be used in an official proceeding.**
- **Prohibit a person from knowingly and intentionally deactivating a body-worn camera used for law enforcement purposes while using excessive force.**

**Senate Bill 338 would amend the sentencing guidelines in the Code of Criminal Procedure to include the felony penalty proposed by Senate Bill 337 for intentionally deactivating a body-worn camera used for law enforcement purposes while using excessive force. A violation would be a Class G felony against a person punishable by up to two years' imprisonment.**

Senate Bill 338 is tie-barred to Senate Bill 337. Each bill would take effect 90 days after its enactment.

Senate Bill 337 is described in greater detail below.

**Senate Bill 337**

The Michigan Penal Code prohibits a person from knowingly and intentionally removing, altering, concealing, destroying, or otherwise tampering with evidence that could be offered in a present or future official proceeding. A violation is a felony punishable by up to four years' imprisonment or a maximum fine of \$5,000, or both. If the violation is committed in a criminal case for which the maximum imprisonment is more than 10 years or the violation is punishable by life in prison or any term of years, the person is guilty of a felony punishable by up to 10 years' imprisonment or a maximum fine of \$20,000, or both.

("Official proceeding" means a proceeding heard before a legislative, judicial, administrative, or other governmental agency or official authorized to hear evidence under oath including a referee, prosecuting attorney, hearing examiner, commissioner, notary, or other person taking testimony or deposition in that proceeding.)

The bill would modify the prohibition described above to specify that it would include altering, concealing, destroying, or otherwise tampering with a digital image or video or audio recording from a body-worn camera used for law enforcement purposes.

Additionally, the bill would prohibit a person from knowingly and intentionally deactivating a body-worn camera used for law enforcement purposes while using excessive force. A violation

would be a felony punishable by up to two years' imprisonment or a maximum fine of \$1,000, or both.

### **PREVIOUS LEGISLATION**

*(This section does not provide a comprehensive account of previous legislative efforts on this subject matter.)*

### **FISCAL IMPACT**

#### **Senate Bill 337**

The bill's criminal penalties could have a negative fiscal impact on the State and local government. Violations of the bill would be punishable as misdemeanors and felonies of different severity. More misdemeanor and felony arrests and convictions could increase resource demands on law enforcement, court systems, community supervision, jails, and correctional facilities. Misdemeanor convictions could increase county jail and local probation supervision costs, which vary by jurisdiction and are thus indeterminate. Based on 2023 data, the average cost to State government for felony probation supervision is approximately \$4,600 per probationer per year. For any increase in prison intakes the average annual cost of housing a prisoner in a State correctional facility is an estimated \$48,700. Per diem rates range from \$100 to \$431 per day (average per diem is \$135), depending on the security level of the facility. Additionally, any associated fine revenue would increase funding to public libraries.

#### **Senate Bill 338**

The bill would have no fiscal impact on local government and an indeterminate fiscal impact on the State, in light of the Michigan Supreme Court's July 2015 opinion in *People v. Lockridge*, in which the Court ruled that the sentencing guidelines are advisory for all cases. This means that the addition to the guidelines under the bill would not be compulsory for the sentencing judge. As penalties for felony convictions vary, the fiscal impact of any given felony conviction depends on judicial decisions.
