333.5110 Expedited partner therapy.

Sec. 5110. (1) To protect and promote the public health of individuals in this state, expedited partner therapy is authorized as provided in this section. Expedited partner therapy is authorized to protect individuals in this state from the spread of sexually transmitted infections, which can cause infertility and ectopic pregnancies. The department may promulgate rules under the administrative procedures act of 1969 that it determines necessary to implement and administer this section. In addition to the requirements of section 5111, the department shall include in the list of reportable diseases, infections, and disabilities a separate list of sexually transmitted infections for which expedited partner therapy as authorized in this section is appropriate. In developing the list, the department shall consult with the federal centers for disease control and prevention and health professionals in this state.

(2) In addition to treating his or her patient, a health professional may provide expedited partner therapy if all of the following requirements are met:

(a) The patient has a laboratory-confirmed or suspected clinical diagnosis of a sexually transmitted infection.

(b) The patient indicates that he or she has a partner with whom the patient has engaged in sexual activity within the 60-day period immediately before the diagnosis of a sexually transmitted infection.

(c) The patient indicates that his or her partner is unable or is unlikely to seek clinical services in a timely manner.

(3) A health professional who provides expedited partner therapy as authorized in this section shall do all of the following:

(a) Dispense or prescribe the therapy in the name of the partner, if known, without the physical examination of the partner by the health professional. (b) Convey to the patient that it is important to notify his or her partner of his or her diagnosis and that it is important for the partner to obtain medical care for a complete evaluation, testing for sexually transmitted infections, counseling, and treatment.

(c) Distribute to the patient the information sheet developed under subsection (4).

(4) The department shall develop and distribute to local health departments and, upon request, distribute to health professionals subject to this section an information sheet that includes all of the following information:

(a) A description of expedited partner therapy and its purpose.

(b) A statement that a common therapy for certain sexually transmitted infections is antibiotic therapy and that, if the expedited partner therapy dispensed or prescribed for the reader includes antibiotic therapy, the information sheet contains important warnings and information of which the reader should be aware.

(c) A warning that identifies contraindications for expedited partner therapy.

(d) A warning about the dangers of administering certain antibiotic therapies to a pregnant individual.

(e) Information about antibiotics dispensed or prescribed in antibiotic therapy and dosages of those antibiotics dispensed or prescribed.

(l) A statement that the cost of drugs dispensed pursuant to a prescription issued in the name of expedited partner therapy must be paid by the individual filling the prescription if that individual does not have prescription drug coverage under a health benefit plan or third-party reimbursement arrangement.

(5) This section does not require a health benefit plan or third-party reimbursement arrangement to pay for or provide reimbursement for expedited partner therapy authorized under this section unless the partner who receives the therapy is listed as a member, subscriber, contract holder, or beneficiary under the health benefit plan or third-party reimbursement arrangement.

(6) Except as otherwise provided in this subsection, a health professional who provides expedited partner therapy as authorized in this section is not liable for damages in a civil action or subject to administrative action under sections 16221 and 16226 for personal injury, death, or other consequences arising from or related in any way to the provision of expedited partner therapy by the health professional. This subsection does not apply if the action of the health professional in providing expedited partner therapy is gross negligence.

(7) As used in this section:

(a) "Expedited partner therapy" is the indirect treatment of a partner of a patient who has been diagnosed as having a sexually transmitted infection through the dispensing or prescribing of antibiotic drug or other treatment that is the standard of care for sexually transmitted infections in accordance with guidelines established by the federal centers for disease control and prevention for the treatment of the partner without the physical examination of the partner by a health professional.

333.5131 Serious communicable diseases or infections of HIV infection and acquired immunodeficiency syndrome; confidentiality of reports, records, data, and information; test results; limitations and restrictions on disclosures in response to court order and subpoena; information released to legislative body; applicability of subsection (1); immunity; identification of individual; violation as misdemeanor; penalty.

Sec. 5131. (1) All reports, records, and data pertaining to testing, care, treatment, reporting, and research, and information pertaining to partner notification under section 5114a, that are associated with the serious communicable diseases or infections of HIV infection and acquired immunodeficiency syndrome are confidential. A person shall release reports, records, data, and information described in this subsection only pursuant to this section.

(2) Except as otherwise provided by law, the test results of a test for HIV infection or acquired immunodeficiency syndrome and the fact that such a test was ordered is information that is subject to section 2157 of the revised judicature act of 1961, 1961 PA 236, MCL 600.2157.

(3) The disclosure of information pertaining to HIV infection or acquired immunodeficiency syndrome in response to a court order and subpoena is limited to only the following cases and is subject to all of the following restrictions:

(a) A court that is petitioned for an order to disclose the information shall determine both of the following:

(i) That other ways of obtaining the information are not available or would not be effective.

(ii) That the public interest and need for the disclosure outweigh the potential for injury to the patient.

(b) If a court issues an order for the disclosure of the information, the order shall do all of the following:

(i) Limit disclosure to those parts of the patient's record that are determined by the court to be essential to fulfill the objective of the order.

(ii) Limit disclosure to those persons whose need for the information is the basis for the order.

(iii) Include such other measures as considered necessary by the court to limit disclosure for the protection of the patient.

(4) A person who releases information pertaining to HIV infection or acquired immunodeficiency syndrome to a legislative body shall not identify in the information a specific individual who was tested or is being treated for HIV infection or acquired immunodeficiency syndrome.

(5) Subject to subsection (7), subsection (1) does not apply to the following:

(a) Information pertaining to an individual who is HIV infected or has been diagnosed as having acquired immunodeficiency syndrome, if the information is disclosed to the department, a local health department, or other health care provider for 1 or more of the following purposes:

(i) To protect the health of an individual.

(ii) To prevent further transmission of HIV.

(iii) To diagnose and care for a patient.

(b) Information pertaining to an individual who is HIV infected or has been diagnosed as having acquired immunodeficiency syndrome, if the information is disclosed by a physician or local health officer to an individual who is known by the physician or local health officer to be a contact of the individual who is HIV infected or has been diagnosed as having acquired immunodeficiency syndrome, if the physician or local health officer determines that the disclosure of the information is necessary to prevent a reasonably foreseeable risk of further transmission of HIV. This subdivision imposes an affirmative duty upon a physician or local health officer to disclose information pertaining to an individual who is HIV infected or has been diagnosed as having acquired immunodeficiency syndrome to an individual who is known by the

physician or local health officer to be a contact of the individual who is HIV infected or has been diagnosed as having acquired immunodeficiency syndrome. A physician or local health officer may discharge the affirmative duty imposed under this subdivision by referring the individual who is HIV infected or has been diagnosed as having acquired immunodeficiency syndrome to the appropriate local health department for assistance with partner notification under section 5114a. The physician or local health officer shall include as part of the referral the name and, if available, address and telephone number of each individual known by the physician or local health officer to be a contact of the individual who is HIV infected or has been diagnosed as having acquired immunodeficiency syndrome.

(c) Information pertaining to an individual who is HIV infected or has been diagnosed as having acquired immunodeficiency syndrome, if the information is disclosed by an authorized representative of the department or by a local health officer to an employee of a school district, and if the department representative or local health officer determines that the disclosure is necessary to prevent a reasonably foreseeable risk of transmission of HIV to pupils in the school district. An employee of a school district to whom information is disclosed under this subdivision is subject to subsection (1).

(d) Information pertaining to an individual who is HIV infected or has been diagnosed as having acquired immunodeficiency syndrome, if the disclosure is expressly authorized in writing by the individual. This subdivision applies only if the written authorization is specific to HIV infection or acquired immunodeficiency syndrome. If the individual is a minor or incapacitated, the written authorization may be executed by the parent or legal guardian of the individual.

(e) Information disclosed under section 5114, 5114a, 5119(3), 5129, 5204, or 20191 or information disclosed as required by rule promulgated under section 5111.

(f) Information pertaining to an individual who is HIV infected or has been diagnosed as having acquired immunodeficiency syndrome, if the information is part of a report required under the child protection law, 1975 PA 238, MCL 722.621 to 722.638.

(g) Information pertaining to an individual who is HIV infected or has been diagnosed as having acquired immunodeficiency syndrome, if the information is disclosed by the department of human services, the probate court, or a child placing agency in order to care for a minor and to place the minor with a child care organization licensed under 1973 PA 116, MCL 722.111 to 722.128. The person disclosing the information shall disclose it only to the director of the child care organization or, if the child care organization is a private home, to the individual who holds the license for the child care organization. An individual to whom information is disclosed under this subdivision is subject to subsection (1). As used in this subdivision, "child care organization" and "child placing agency" mean those terms as defined in section 1 of 1973 PA 116, MCL 722.111.

(6) A person who releases the results of an HIV test or other information described in subsection (1) in compliance with subsection (5) is immune from civil or criminal liability and administrative penalties including, but not limited to, licensure sanctions, for the release of that information.

(7) A person who discloses information under subsection (5) shall not include in the disclosure information that identifies the individual to whom the information pertains, unless the identifying information is determined by the person making the disclosure to be reasonably necessary to prevent a foreseeable risk of transmission of HIV. This subsection does not apply to information disclosed under subsection (5)(d), (f), or (g).

(8) A person who violates this section is guilty of a misdemeanor, punishable by imprisonment for not more than 1 year or a fine of not more than \$5,000.00, or both, and is liable in a civil action for actual damages or \$1,000.00, whichever is greater, and costs and reasonable attorney fees. This subsection also applies to the employer of a person who violates this section, unless the employer had in effect at the time of the violation reasonable precautions designed to prevent the violation.

333.5133 Information; pretest information; informed consent to HIV test; documentation; distribution of information; HIV test performed on anonymous basis; partner notification; HIV test performed for purpose of research; inapplicability of section; conditions; informing patient of test results.

Sec. 5133. (1) Except as otherwise provided in this section, a physician who orders an HIV test or a health

facility that performs an HIV test shall provide information appropriate to the test subject both before and after the test is administered.

(2) Except as otherwise provided in this part, a physician, or an individual to whom the physician has delegated authority to perform a selected act, task, or function under section 16215, shall not order an HIV test for the purpose of diagnosing HIV infection without first providing the test subject with pretest information and receiving the informed consent of the test subject. For purposes of this section, informed consent means a written or verbal consent to the test by the test subject or the legally authorized representative of the test subject. The physician or health facility shall document the provision of informed consent, including pretest information, and whether the test subject or the legally authorized representative of the test subject declined the offer of HIV testing. Informed consent for HIV testing shall be maintained in the patient's medical records.

(3) Beginning January 1, 2011, pretest information shall include all of the following:

(a) An explanation of the test, including, but not limited to, the purpose of the test, the potential uses and limitations of the test, and the meaning of test results.

(b) An explanation of how HIV is transmitted and how HIV can be prevented.

(c) An explanation of the rights of the test subject, including, but not limited to, all of the following:

(i) The right to decline the test at any time before the administration of the test and the circumstances under which the test subject does not have the right to decline the test.

(ii) The right to confidentiality of the test results under this part and under the health insurance portability and accountability act of 1996, Public Law 104-191.

(iii) The right under this part to consent to and participate in the test on an anonymous basis.

(iv) The person or class of persons to whom the test results may be disclosed under this part and under the health insurance portability and accountability act of 1996, Public Law 104-191.

(4) The department, the Michigan board of medicine, and the Michigan board of osteopathic medicine and surgery shall make the information required under subsection (3) available to physicians. The Michigan board of medicine and the Michigan board of osteopathic medicine and surgery shall notify in writing all physicians subject to this section of the requirements of this section and the availability of the information by January 1, 2011. Upon request, the Michigan board of medicine and the Michigan board of osteopathic medicine and surgery shall provide copies of the information, free of charge, to a physician who is subject to this section.

(5) A test subject who executes a signed writing pursuant to subsection (2) as that subsection read before September 1, 2010 is barred from subsequently bringing a civil action based on failure to obtain informed consent for the HIV test against the physician who ordered the HIV test.

(6) The department shall develop the information required under subsection (3) in clear, nontechnical English and Spanish, and provide the information upon request and free of charge, to a physician or other person or a governmental entity that is subject to this section. Nothing in this section prohibits a physician or health facility from combining a form used to obtain informed consent for HIV testing with forms used to obtain consent for general medical care or any other medical tests or procedures if the forms make clear that the subject may consent to general medical care, tests, or medical procedures without being required to consent to HIV testing and, if applicable, that the subject may decline HIV testing at any time before the administration of the test.

(7) In addition to complying with the duties imposed under subsection (6), the department shall provide copies of the information required under subsection (3) to the Michigan board of medicine and the Michigan board of osteopathic medicine and surgery. The department shall provide copies of the information to other persons upon written request, at cost, and shall also provide copies of the information free of charge, upon request, to public or private schools, colleges, and universities.

(8) An individual who undergoes an HIV test at a department approved testing site may request that the HIV test be performed on an anonymous basis. If an individual requests that the HIV test be performed on an anonymous basis, the staff of the department approved testing site shall administer the HIV test anonymously or under the condition that the test subject not be identified, and shall obtain consent to the test using a coded system that does not link the individual's identity with the request for the HIV test or the HIV test results. If the test results of an HIV test performed under this subsection indicate that the test subject is HIV infected, the staff of the department approved testing site shall proceed with partner notification in the same manner in which a local health department would proceed as described in section 5114a(3) to (5).

(9) This section does not apply to an HIV test performed for the purpose of research, if the test is performed in such a manner that the identity of the test subject is not revealed to the researcher and the test results are not made known to the test subject.

(10) Except as otherwise provided in subsection (12), this section does not apply to an HIV test performed upon a patient in a health facility if the conditions in subdivisions (a) and (b) or the conditions in subdivisions

(a) and (c) are met:

(a) The patient is informed in writing upon admission to the health facility that an HIV test may be performed upon the patient without his or her right to decline under circumstances described in subdivision (b) or (c). As used in this subdivision, "admission" means the provision of an inpatient or outpatient health care service in a health facility.

(b) The HIV test is performed after a health professional, health facility employee, police officer, or fire fighter, or a medical first responder, emergency medical technician, emergency medical technician specialist, or paramedic licensed under section 20950 or 20952 sustains in the health facility, while treating the patient before transport to the health facility, or while transporting the patient to the health facility, a percutaneous, mucous membrane, or open wound exposure to the blood or other body fluids of the patient.

(c) The HIV test is performed pursuant to a request made under section 20191(2).

(11) Except as otherwise provided in subsection (12), this section does not apply if the test subject is unable to receive or understand the information described in subsections (1) to (3) or to decline the test as described in subsection (2), and the legally authorized representative of the test subject is not readily available to receive the information or decline for the test subject.

(12) If the results of an HIV test performed under this section indicate that the patient is HIV infected, the health facility shall inform the patient of the positive test results and provide the patient with appropriate counseling regarding HIV infection and acquired immunodeficiency syndrome. If the results of an HIV test performed under this section indicate that the patient is not HIV infected, that information shall be provided to the patient through normal health care provider procedures, including, but not limited to, a patient visit, mail, or telephone communication.

(2) A police officer, a fire fighter, a local correctional officer or other county employee, a court employee, or an individual making a lawful arrest who has received the training described in subsection (1) and who, while performing his or her official duties or otherwise performing the duties of his or her employment, determines that he or she has sustained a percutaneous, mucous membrane, or open wound exposure to the blood or body fluids of an arrestee, correctional facility inmate, parolee, or probationer may request that the arrestee, correctional facility inmate, parolee, or probationer be tested for HIV infection, HBV infection, HCV infection, or all 3 infections, pursuant to this section.

(3) An officer or employee or an individual making a lawful arrest who desires to make a request described in subsection (2) shall make the request to his or her employer in writing on a form provided by the department as soon as possible, but not later than 72 hours, after the exposure occurs. PART 56A TERMINAL ILLNESS

333.5651 Short title of part.

Sec. 5651. This part shall be known and may be cited as the "Michigan dignified death act".

History: Add. 1996, Act 594, Eff. Mar. 31, 1997.

Popular name: Act 368

333.5652 Legislative findings; Michigan dignified death act.

Sec. 5652. (1) The legislature finds all of the following:

(a) That patients face a unique set of circumstances and decisions once they have been diagnosed as having a reduced life expectancy due to advanced illness.

(b) That published studies indicate that patients with reduced life expectancy due to advanced illnesses fear that in end-of-life situations they could receive unwanted aggressive medical treatment.

(c) That patients with reduced life expectancy due to advanced illnesses are often unaware of their legal rights, particularly with regard to controlling end-of-life decisions.

(d) That the free flow of information among health care providers, patients, and patients' families can give patients and their families a sense of control over their lives, ease the stress involved in coping with a reduced life expectancy due to advanced illness, and provide needed guidance to all involved in determining the appropriate variety and degree of medical intervention to be used.

(e) That health care providers should be encouraged to initiate discussions with their patients regarding advance medical directives during initial consultations, annual examinations, and hospitalizations, at diagnosis of a chronic illness, and when a patient transfers from 1 health care setting to another.

(2) In affirmation of the tradition in this state recognizing the integrity of patients and their desire for a humane and dignified death, the Michigan legislature enacts the "Michigan dignified death act". In doing so, the legislature recognizes that a well-considered body of common law exists detailing the relationship between health care providers and their patients. This act is not intended to abrogate any part of that common law. This act is intended to increase awareness of the right of a patient who has a reduced life expectancy due

to advanced illness to make decisions to receive, continue, discontinue, or refuse medical treatment. It is hoped that by doing so, the legislature will encourage better communication between patients with reduced life expectancy due to advanced illnesses and health care providers to ensure that the patient's final days are meaningful and dignified.

Sec. 7113. (1) The controlled substances advisory commission shall monitor indicators of controlled substance abuse and diversion. If that data shows that Michigan exceeds the average national per capita consumption of a controlled substance, the controlled substances advisory commission shall investigate and determine if there is a legitimate reason for the excess consumption. If the controlled substances advisory commission determines there is not a legitimate reason for the excess consumption, the controlled substances advisory commission shall recommend to the administrator a plan of action to overcome the problem. The controlled substances advisory commission may also recommend action to the administrator if other indicators show that a special problem is developing with any controlled substance available by prescription.

(2) The controlled substances advisory commission shall publicly issue an annual report to the administrator, the governor, and the legislature on the current status of the abuse and diversion of controlled substances in this state. The report shall also identify existing efforts to overcome the abuse and diversion of controlled substances in this state and make recommendations for needed legislative, administrative, and interagency activities.

(3) The controlled substances advisory commission may include in the report required by subsection (2) recommendations for action that involve licensing, law enforcement, substance abuse treatment and prevention, education, professional associations, pharmaceutical manufacturers, and other relevant individuals and agencies.

(4) By December 31, 1993, the department of commerce, in consultation with the Michigan pharmacists association, shall establish a standardized data base format consistent with the standards of the national council for prescription drug programs that may be used by dispensing pharmacies or a practitioner described in section 7334(2) to transmit the prescription-related information required under section 7334 to the department of commerce electronically or on storage media including, but not limited to, disks, tapes, and cassettes. 333.7306 License to be granted unless inconsistent with public interest; factors in determining public interest; scope of licensure; license to dispense, prescribe, or conduct research with controlled substances in schedules 2 to 5; registration under federal law to conduct research with schedule 1 substances; effect of compliance with federal law as to registration; limitation on licensure.

Sec. 7306. (1) The administrator shall grant a license to an applicant to manufacture or distribute controlled substances included in sections 7212 to 7220, unless the administrator determines that the issuance of that license would be inconsistent with the public interest. In determining the public interest, the administrator shall consider all of the following factors:

(a) Maintenance of effective controls against diversion of controlled substances to other than legitimate and professionally recognized therapeutic, scientific, or industrial channels.

(b) Compliance with applicable state and local law.

- (c) A conviction of the applicant under a federal or state law relating to a controlled substance.
 - (d) Past experience in the manufacture or distribution of controlled substances, and the existence in the applicant's establishment of effective controls against diversion.
 - (e) Furnishing by the applicant of false or fraudulent material in an application filed under this article.

- (3) A practitioner shall be licensed to dispense or prescribe any controlled substances or to conduct research with controlled substances in schedules 2 to 5 if the practitioner is authorized to dispense, prescribe, or conduct research under the laws of this state. The administrator need not require separate licensure under this article for a practitioner engaging in research with nonnarcotic controlled substances in schedules 2 to 5 if the licensee is licensed under this article in another capacity. A practitioner registered under federal law to conduct research with schedule 1 substances may conduct research with schedule 1 substances in this state upon furnishing the administrator evidence of that federal registration.
- (4) Compliance by a manufacturer or distributor with the provisions of the federal law as to registration, excluding fees, entitles the manufacturer or distributor to be licensed under this article.
- (5) Licensure under subsection (1) does not authorize a licensee to dispense, manufacture, distribute, or prescribe a controlled substance if the dispensing, manufacture, distribution, or prescribing is not for legitimate and professionally recognized therapeutic, scientific, or industrial purposes or is not in the scope of practice of a practitioner-licensee.

Sec. 7311. (1) A license under section 7306 to manufacture, distribute, prescribe, or dispense a controlled substance may be denied, suspended, or revoked or a licensee may be fined, reprimanded, ordered to perform community service or make restitution, or placed on probation by the disciplinary subcommittee upon a finding that an applicant for licensure or a licensee is subject to any of the following:

- (a) The applicant or licensee has furnished false or fraudulent material information in an application filed under this article.
- (b) The applicant's or licensee's federal registration to manufacture, distribute, or dispense controlled substances has been surrendered, suspended, or revoked.
- (c) The applicant or licensee has promoted a controlled substance to the general public.
- (d) The applicant or licensee is not a practitioner, manufacturer, or distributor.

- (h) The applicant or licensee has violated or attempted to violate, directly or indirectly, assisted in or abetted the violation of, or conspired to violate this article or rules of the administrator promulgated under this article.

(2) The disciplinary subcommittee may limit a license under subsection (1) to a particular controlled substance.

(3) A license under section 7306 to manufacture, distribute, prescribe, or dispense a controlled substance shall be denied or revoked by the disciplinary subcommittee if the applicant or licensee has been convicted of a felony under a state or federal law relating to a controlled substance.

(4) If the disciplinary subcommittee suspends or revokes a license or if a license is void under subsection

(6), all controlled substances owned or possessed by the licensee at the time of suspension or the effective date of the revocation order may be placed under seal or seized at the discretion of the disciplinary subcommittee. The department shall not dispose of controlled substances under seal or seizure until the time for taking an appeal has elapsed or until all appeals have been concluded, unless a court, upon application therefor, orders the sale of perishable controlled substances and the deposit of the proceeds of the sale with the court. Upon a revocation order becoming final or after a license becomes void under subsection (6) because the licensee's license to practice is revoked under article 15 and that revocation order becomes final, the disciplinary subcommittee may order all controlled substances under seal or seizure to be forfeited to this state.

(5) The disciplinary subcommittee shall promptly notify the bureau of all orders suspending or revoking a license and all forfeitures of controlled substances.

(6) A license under section 7306 to manufacture, distribute, prescribe, or dispense a controlled substance is automatically void if the licensee's license to practice is suspended or revoked under article 15.

(7) Subject to subsection (8), if the administrator or the disciplinary subcommittee finds that an applicant or licensee has been convicted of a misdemeanor or a felony under a state or federal law relating to a controlled substance, the applicant or licensee shall not have a direct financial interest in or be employed by a person who is licensed under this article to manufacture, distribute, prescribe, or dispense a controlled substance in a capacity in which the individual has direct access to controlled substances for a period of not less than 3 years after the date of conviction. An individual who violates this subsection is subject to a civil fine of not more than \$25,000.00 in a proceeding in the circuit court.

(8) Subsection (7) applies only to a conviction for a misdemeanor that is directly related to the manufacture, delivery, possession, possession with intent to manufacture or deliver, use, distribution, prescription, or dispensing of a controlled substance. Subsection (7) does not apply to a conviction for a misdemeanor based upon an unintentional error or omission involving a clerical or record-keeping function.

333.7314 Denial, suspension, revocation, or limitation of license; order to show cause; service of order; conduct of proceedings; effect of proceeding on existing license; suspension of license on finding of imminent danger; duration of suspension; applicability of subsection (1).

Sec. 7314. (1) Before the disciplinary subcommittee suspends or revokes or limits a license or denies an application or a renewal of a license, the disciplinary subcommittee shall serve on the applicant or licensee an order to show cause why the application or license should not be denied, limited, revoked, or suspended, or why the renewal should not be denied. The order to show cause shall contain a statement of the basis for the order and shall call upon the applicant or licensee to appear before the disciplinary subcommittee or a hearings examiner at a time and place not less than 30 days after the date of service of the order. A show cause order for a denial of renewal of a license shall be served not later than 30 days before expiration of the license. The proceedings described in this subsection shall be conducted without regard to any criminal prosecution or other proceeding. A proceeding to deny renewal of a license does not abate the existing license, which remains in effect pending the outcome of the administrative hearing.

(2) Pursuant to procedural guidelines adopted by the department, the department may suspend a license, without an order to show cause, simultaneously with the institution of proceedings under section 7311 or if renewal of licensure is refused, if the department finds that there is an imminent danger to the public health or safety that warrants this action. The suspension shall continue in effect until conclusion of the proceedings, including judicial review, unless sooner withdrawn by a hearings examiner or dissolved by a court of competent jurisdiction.

(3) Subsection (1) does not apply to the suspension or revocation of a license by the administrator pursuant to section 7311(6).

Sec. 7333. (1) As used in this section, "good faith" means the prescribing or dispensing of a controlled substance by a practitioner licensed under section 7303 in the regular course of professional treatment to or for an individual who is under treatment by the practitioner for a pathology or condition other than that individual's physical or psychological dependence upon or addiction to a controlled substance, except as provided in this article. Application of good faith to a pharmacist means the dispensing of a controlled substance pursuant to a prescriber's order which, in the professional judgment of the pharmacist, is lawful. The pharmacist shall be guided by nationally accepted professional standards including, but not limited to, all of the following, in making the judgment:

- (a) Lack of consistency in the doctor-patient relationship.
- (b) Frequency of prescriptions for the same drug by 1 prescriber for larger numbers of patients.
- (c) Quantities beyond those normally prescribed for the same drug.
- (d) Unusual dosages.
- (e) Unusual geographic distances between patient, pharmacist, and prescriber.

(2) Except as otherwise provided in this section, a practitioner, in good faith, may dispense a controlled substance included in schedule 2 upon receipt of a prescription of a practitioner licensed under section 7303 on a prescription form. A practitioner may issue more than 1 prescription for a controlled substance included in schedule 2 on a single prescription form.

(3) In an emergency situation, as described in R 338.3165 of the Michigan administrative code, a controlled substance included in schedule 2 may be dispensed upon the oral prescription of a practitioner if the prescribing practitioner promptly fills out a prescription form and forwards the prescription form to the dispensing pharmacy within 7 days after the oral prescription is issued. Except for a terminally ill patient whose terminal illness the pharmacist documents pursuant to rules promulgated by the administrator, a prescription for a controlled substance included in schedule 2 shall not be filled more than 90 days after the date on which the prescription was issued. A prescription for a controlled substance included in schedule 2 for a terminally ill patient whose terminal illness the pharmacist documents pursuant to rules promulgated by the administrator may be partially filled in increments for not more than 60 days after the date on which the prescription was issued.

(4) A practitioner, in good faith, may dispense a controlled substance included in schedule 3, 4, or 5 that is a prescription drug as determined under section 503(b) of the federal food, drug, and cosmetic act, 21 USC 353, or section 17708, upon receipt of a prescription on a prescription form or an oral prescription of a practitioner. A prescription for a controlled substance included in schedule 3 or 4 shall not be filled or refilled without specific refill instructions noted by the prescriber. A prescription for a controlled substance included in schedule 3 or 4 shall not be filled or refilled later than 6 months after the date of the prescription or be refilled more than 5 times, unless renewed by the prescriber in accordance with rules promulgated by the administrator.

(5) A controlled substance included in schedule 5 shall not be distributed or dispensed other than for a medical purpose, or in any manner except in accordance with rules promulgated by the administrator.

(6) If a prescription is required under this section, the prescription shall contain the quantity of the controlled substance prescribed in both written and numerical terms. A prescription is in compliance with this subsection if, in addition to containing the quantity of the controlled substance prescribed in written terms, it contains preprinted numbers representative of the quantity of the controlled substance prescribed next to which is a box or line the prescriber may check.

(7) A prescribing practitioner shall not use a prescription form for a purpose other than prescribing. A prescribing practitioner shall not postdate a prescription form that contains a prescription for a controlled substance. A prescriber may transmit a prescription by facsimile of a printed prescription form and by electronic transmission of a printed prescription form, if not prohibited by federal law. If, with the patient's consent, a prescription is electronically transmitted, it shall be transmitted directly to a pharmacy of the patient's choice by the prescriber or the prescriber's authorized agent, and the data shall not be altered, modified, or extracted in the transmission process.

333.7333a Electronic monitoring system.

Sec. 7333a. (1) The department shall establish, by rule, an electronic system for monitoring schedule 2, 3, 4, and 5 controlled substances dispensed in this state by veterinarians, and by pharmacists and dispensing prescribers licensed under part 177 or dispensed to an address in this state by a pharmacy licensed in this state. The rules shall provide an appropriate electronic format for the reporting of data including, but not limited to, patient identifiers, the name of the controlled substance dispensed, date of dispensing, quantity dispensed, prescriber, and dispenser. The department shall require a veterinarian, pharmacist, or dispensing prescriber to utilize the electronic data transmittal process developed by the department or the department's contractor. A veterinarian, pharmacist, or dispensing prescriber shall not be required to pay a new fee dedicated to the operation of the electronic monitoring system and shall not incur any additional costs solely related to the transmission of data to the department. The rules promulgated under this subsection shall exempt both of the following circumstances from the reporting requirements:

(a) The administration of a controlled substance directly to a patient.

(b) The dispensing from a health facility or agency licensed under article 17 of a controlled substance by a dispensing prescriber in a quantity adequate to treat a patient for not more than 48 hours.

(2) Notwithstanding any practitioner-patient privilege, the director of the department may provide data obtained under this section to all of the following:

(a) A designated representative of a board responsible for the licensure, regulation, or discipline of a practitioner, pharmacist, or other person who is authorized to prescribe, administer, or dispense controlled substances.

(b) An employee or agent of the department.

(c) A state, federal, or municipal employee or agent whose duty is to enforce the laws of this state or the United States relating to drugs.

(g) An individual with whom the department has contracted under subsection (8).

(h) A practitioner or other person who is authorized to prescribe controlled substances for the purpose of determining if prescriptions written by that practitioner or other person have been dispensed.

(i) Until December 31, 2016, the health care payment or benefit provider for the purposes of ensuring patient safety and investigating fraud and abuse.

(3) Except as otherwise provided in this part, information submitted under this section shall be used only for bona fide drug-related criminal investigatory or evidentiary purposes or for the investigatory or evidentiary purposes in connection with the functions of a disciplinary subcommittee or 1 or more of the licensing or registration boards created in article 15.

(4) A person who receives data or any report under subsection (2) containing any patient identifiers of the system from the department shall not provide it to any other person or entity except by order of a court of competent jurisdiction.

(5) Except as otherwise provided in this subsection, reporting under subsection (1) is mandatory for a veterinarian, pharmacist, and dispensing prescriber. However, the department may issue a written waiver of the electronic reporting requirement to a veterinarian, pharmacist, or dispensing prescriber who establishes grounds that he or she is unable to use the electronic monitoring system. The department shall require the applicant for the waiver to report the required information in a manner approved by the department.

(6) In addition to the information required to be reported annually under section 7112(3), the controlled substances advisory commission shall include in the report information on the implementation and

effectiveness of the electronic monitoring system.

(7) The department, in consultation with the controlled substances advisory commission, the Michigan board of pharmacy, the Michigan board of medicine, the Michigan board of osteopathic medicine and surgery, the Michigan state police, and appropriate medical professional associations, shall examine the need for and may promulgate rules for the production of a prescription form on paper that minimizes the potential for forgery. The rules shall not include any requirement that sequential numbers, bar codes, or symbols be affixed, printed, or written on a prescription form or that the prescription form be a state produced prescription form. In examining the need for rules for the production of a prescription form on paper that minimizes the potential for forgery, the department shall consider and identify the following:

(a) Cost, benefits, and barriers.

(b) Overall cost-benefit analysis.

(c) Compatibility with the electronic monitoring system required under this section.

(8) The department may enter into 1 or more contractual agreements for the administration of this section.

(9) The department, all law enforcement officers, all officers of the court, and all regulatory agencies and officers, in using the data for investigative or prosecution purposes, shall consider the nature of the prescriber's and dispenser's practice and the condition for which the patient is being treated.

(10) The data and any report containing any patient identifiers obtained from the data are not public records and are not subject to the freedom of information act, 1976 PA 442, MCL 15.231 to 15.246.

(11) Beginning February 1, 2013 and through February 1, 2016, the department may issue a written request to a health care payment or benefit provider to determine if the provider has accessed the electronic system as provided in subsection (2)(i) in the previous calendar year and, if so, to determine the number of inquiries the provider made in the previous calendar year and any other information the department requests in relation to the provider's access to the electronic system. A health care payment or benefit provider shall respond to the written request on or before the March 31 following the request. The department shall collaborate with health care payment or benefit providers to develop a reasonable request and reporting form for use under this subsection.

Sec. 7341. (1) As used in this section:

(a) "Distribute" means the actual, constructive, or attempted transfer, sale, delivery, or dispensing from one person to another of an imitation controlled substance.

(b) "Imitation controlled substance" means a substance that is not a controlled substance or is not a drug for which a prescription is required under federal or state law, which by dosage unit appearance including color, shape, size, or markings, and/or by representations made, would lead a reasonable person to believe that the substance is a controlled substance. However, this subsection does not apply to a drug that is not a controlled substance if it was marketed before the controlled substance that it physically resembles. An imitation controlled substance does not include a placebo or registered investigational drug that was manufactured, distributed, possessed, or delivered in the ordinary course of professional practice or research. All of the following factors shall be considered in determining whether a substance is an imitation controlled substance:

(i) Whether the substance was approved by the federal food and drug administration for over-the-counter sales and was sold in the federal food and drug administration approved packaging along with the federal food and drug administration approved labeling information.

(ii) Any statements made by an owner or another person in control of the substance concerning the nature, use, or effect of the substance.

(iii) Whether the substance is packaged in a manner normally used for illicit controlled substances.

(iv) Whether the owner or another person in control of the substance has any prior convictions under state or federal law related to controlled substances or fraud.

(v) The proximity of the substance to controlled substances.

(vi) Whether the consideration tendered in exchange for the substance substantially exceeds the reasonable

value of the substance considering the actual chemical composition of the substance and, if applicable, the price at which the over-the-counter substances of like chemical composition sell.

(c) "Manufacture" means the production, preparation, compounding, conversion, encapsulating, packaging, repackaging, labeling, relabeling, or processing of an imitation controlled substance, directly or indirectly.

(2) In addition to all logically relevant factors, the following factors as related to "representations made" shall be considered in determining whether a substance is an imitation controlled substance:

(a) Any express or implied representation made that the nature of the substance or its use or effect is similar to that of a controlled substance.

(b) Any express or implied representation made that the substance may be resold for an amount considerably in excess of the reasonable value of the composite ingredients and the cost of processing.

(c) Any express or implied representation made that the substance is a controlled substance.

(d) Any express or implied representation that the substance is of a nature or appearance that the recipient of the substance will be able to distribute the substance as a controlled substance.

(e) That the substance's package, label, or name is substantially similar to that of a controlled substance.

(f) The proximity of the substance to a controlled substance.

(g) That the physical appearance of the substance is substantially identical to a specific controlled substance, including any numbers or codes thereon, and the shape, size, markings, or color.

(3) Except as provided in subsection (7), a person shall not manufacture, distribute, or possess with intent to distribute, an imitation controlled substance.

(4) A person shall not use, or possess with intent to use, an imitation controlled substance, except under the direction of a person authorized pursuant to subsection (7). A person who violates this subsection is subject to a civil fine of not more than \$100.00 and costs. Upon a second or subsequent violation of this subsection, a person is guilty of a misdemeanor punishable by imprisonment for not more than 90 days, or a fine of not more than \$100.00, or both.

(5) A default in the payment of a civil fine or costs ordered under subsection (4) or an installment thereof may be collected by any means authorized for the enforcement of a judgment under chapter 40 or chapter 60 of the revised judicature act of 1961, 1961 PA 236, MCL 600.4001 to 600.4065 and 600.6001 to 600.6098.

(6) A person shall not place an advertisement or solicitation in this state to be distributed by any electronic media in this state, or place an advertisement or solicitation in this state in any newspaper, magazine, handbill, or other publication; or post or distribute an advertisement or solicitation in any public place in this state, knowing or having reason to know that the purpose of the advertisement or solicitation is to promote the distribution of an imitation controlled substance. A person who violates this subsection is guilty of a misdemeanor, punishable by imprisonment for not more than 1 year, or a fine of not more than \$5,000.00, or both.

(7) This section does not apply to any person who is authorized by the administrator or the federal food and drug administration to manufacture, distribute, prescribe, or possess an imitation controlled substance for use as a placebo for legitimate medical, therapeutic, or research purposes.

(8) Except as provided in subsections (4) and (6), a person who violates this section is guilty of a felony, punishable by imprisonment for not more than 2 years, or by a fine of not more than \$10,000.00, or both.

Constitutionality: A mandatory sentence of life without parole does not violate the prohibition against cruel and unusual punishments of the Eighth Amendment to the United States Constitution, because the Eighth Amendment contains no proportionality guarantee. Neither does the Eighth Amendment prohibit the imposition of mandatory sentences -- "severe, mandatory penalties may be cruel, but they are not unusual in the constitutional sense ... " -- nor does it require consideration of individualized, mitigating circumstances beyond those cases in which a capital sentence is imposed. Harmelin v Michigan, 501 US 957; 111 S Ct 2680; 115 L Ed2d 836 (1991).

In People v Bullock, 440 Mich 15; 485 NW2d 866 (1992), the Michigan Supreme Court held that the Michigan Constitution prohibits cruel or unusual punishment while the Eighth Amendment to the US Constitution bars only punishment that is both cruel and unusual. Basing its decision on the textual difference, the Michigan Supreme Court held that the statutory penalty of mandatory life in prison without parole for possession of 650 grams or more of any mixture containing cocaine is so grossly disproportionate as to be cruel or unusual, the result being that those portions of the statutes denying parole consideration are struck down.

Sec. 7408a. (1) As part of the sentence or juvenile disposition for an attempt to violate, a conspiracy to violate, or a violation of this part or of a local ordinance that prohibits conduct prohibited under this part, the court shall consider all prior convictions currently entered upon the criminal history record and Michigan driving record of the person, except those convictions which, upon motion of the defendant, are determined by the court to be constitutionally invalid, and, subject to subsection (11), shall impose the following licensing sanctions in addition to any other penalty or sanction imposed for the violation:

(a) If the court finds that the person does not have a prior conviction within 7 years of the violation, the court shall order the secretary of state to suspend the operator's or chauffeur's license of the person for 6 months. (b) If the court finds that the person has 1 or more prior convictions within 7 years of the violation, the court shall order the secretary of state to suspend the operator's or chauffeur's license of the person for 1 year. If the court finds compelling circumstances under subsection (8) sufficient to warrant the issuance of a restricted license, the court may order the secretary of state to issue to the person a restricted license during all or any portion of the period of suspension, except that a restricted license shall not be issued during the first 60 days of the period of suspension.

If the judgment is appealed to circuit court, the court may, ex parte, order the secretary of state to stay the suspension or license restriction issued under this section pending the outcome of the appeal.

(3) Except as otherwise provided in subsection (5), before imposing sentence or entering a juvenile disposition, other than court-ordered license sanctions under this section, for an attempt to violate, a conspiracy to violate, or a violation of this part or of a local ordinance that prohibits conduct prohibited under this part, the court may order the person to undergo screening and assessment by a person or agency as designated by a department-designated community mental health entity or a community mental health services program under the mental health code, 1974 PA 258, MCL 330.1001 to 330.2106, to determine whether the person is likely to benefit from rehabilitative services, including alcohol or drug education and alcohol or drug treatment programs. Sec. 9709. (1) Except as otherwise provided by law or in this part, a prescriber shall obtain prior authorization for drugs that are being provided to medicaid beneficiaries directly through the department on a fee for service basis or pursuant to a contract for such pharmaceutical services and that are not included on the department's preferred drug list. If the prescriber's prior authorization request is denied, the department or the department's agent shall inform the requesting prescriber of his or her option to speak to the agent's physician on duty regarding his or her request. If immediate contact with the agent's physician on duty cannot be arranged, the department or the department's agent shall inform the requesting prescriber of his or her right to request a 72-hour supply of the nonauthorized drug. If contact with the agent's physician on duty cannot be arranged within 72 hours due to a legal holiday, the requesting prescriber may request a longer supply of the nonauthorized drug.

(2) The department or the department's agent shall provide authorization for prescribed drugs that are not on its preferred drug list if any of the following are satisfied:

(a) The prescribing physician telephones the department's agent or certifies in writing on a form as provided by the department that the drugs are being prescribed consistent with its licensed indications, that no other drugs included on the preferred drug list, in the physician's professional opinion, would offer a comparable benefit to the patient, and that the drugs are necessary for the continued stabilization of the patient's medical condition.

(b) The prescribing physician telephones the department's agent or certifies in writing on a form as provided by the department that following documented failures on earlier prescription regimens, in the physician's professional opinion, no other drug or drugs included on the preferred drug list can provide a comparable benefit.

(c) The prescribing physician telephones the department's agent or certifies in writing on a form as provided by the department that no other drugs included on the preferred drug list, in the physician's professional opinion, would offer a comparable benefit to the patient and that the drugs are being prescribed to a patient for the treatment of any symptoms or side effects that are a direct result of treatment received for

any of the following:

(i) Human immunodeficiency virus infections or the complications of the human immunodeficiency virus or acquired immunodeficiency syndrome.

(ii) Cancer.

(iii) Organ replacement therapy.

(iv) Epilepsy or seizure disorder.

(3) The department or the department's agent shall provide authorization for a prescribed drug that is not on its preferred drug list if each of the following is met:

(ii) The prescribed drug is being used to treat a condition that is normally treated within the prescribing physician's specialty field.

(iii) In the physician's professional opinion, no other drug or drugs included on the preferred drug list can provide a comparable benefit.

(4) Documentation of necessity or failures under subsection (2) or (3) may be provided by telephone, facsimile, or electronic transmission.

(5) A patient who is under a court order for a particular prescription drug before becoming a recipient of medicaid is exempt from the prior authorization process and may continue on that medication for the duration of the order.

(6) Except as otherwise provided under this subsection, a patient who is currently under medical treatment and whose condition has been stabilized under a given prescription regimen before becoming a recipient of medicaid is exempt from the prior authorization process and may continue on that medication for the current course of treatment if without that prescription regimen the patient would suffer serious health consequences. Unless a controlled substance is currently being prescribed under a patient's hospice plan of care, a continuing prescription for a controlled substance under this subsection requires prior authorization. The department or the department's agent shall not deny a request for prior authorization of a controlled substance under this subsection unless the department or the department's agent determines that the controlled substance or the dosage of the controlled substance being prescribed is not consistent with its licensed indications or with generally accepted medical practice as documented in a standard medical reference.

(7) This section does not apply to drugs being provided under a contract between the department and a health maintenance organization.

This activity is concerned with the existence of substances, conditions, or facilities in quantities, of characteristics, and under conditions, circumstances, or duration which are or can be injurious to human health.

(2) In addition, article 1 contains general definitions and principles of construction applicable to all articles in this code.

History: 1978, Act 368, Eff. Sept. 30, 1978.

Compiler's note: For transfer of powers and duties of the division of environmental health, with the exception of the food service sanitation program and the shelter environment program, from the director of the department of public health to the director of the department of environmental quality, see E.R.O. The fact that property or a dwelling has been used as a site for illegal drug manufacturing shall be treated by the department of community health as prima facie evidence of likely contamination that may constitute a hazard to the health or safety of those who may occupy those premises. If the property or dwelling, or both, is determined likely to be contaminated under this subsection, the local health department or the department of community health shall issue an order requiring the property or dwelling to be vacated until the property owner establishes that the property is decontaminated or the risk of likely contamination ceases to exist. The connection to available public sanitary sewer systems at the earliest, reasonable date is a matter for the protection of the public health, safety, and welfare and necessary in the public interest which is declared as a matter of legislative determination.

333.13403 Statement; contents; display of poster; claim or distribution of promotional materials; prohibition.

Sec. 13403. (1) Before allowing an individual to use a tanning device in any tanning facility, the owner, operator, or an employee of the tanning facility shall provide the individual with a written statement that contains all of the following information:

(a) Not wearing either his or her own eye protection or eye protection made available to the individual by the tanning facility while using a tanning device may cause damage to the eyes.

(b) Overexposure to the ultraviolet radiation produced by the tanning devices used in the tanning facility causes burns.

(c) Repeated exposure to the ultraviolet radiation produced by the tanning devices used in the tanning facility may cause premature aging of the skin or skin cancer, or both.

(d) Abnormal skin sensitivity to ultraviolet radiation or burning may be caused by certain foods, cosmetics, and medication. The medication includes, but is not limited to, all of the following:

(i) Tranquilizers.

(ii) Diuretics.

(iii) Antibiotics.

(iv) High blood pressure medication.

(v) Birth control medication.

(e) An individual who is taking a prescription drug or over-the-counter drug should consult a physician before using a tanning device.

(f) An individual that suffers an injury while using a tanning device at a tanning facility must report the injury to the owner or operator of the tanning facility.

(g) That any skin-related treatment involving microdermabrasion, including, but not limited to, facials, waxing, or skin peels, may cause abnormal sensitivity to ultraviolet radiation.

(2) The owner or operator of a tanning facility shall conspicuously display a poster in an area frequented by customers. The poster shall be printed in at least 32-point boldfaced type and in substantially the following form:

"DANGER: ULTRAVIOLET RADIATION

1. Follow instructions.

2. Avoid too frequent or too lengthy exposure. As with natural sunlight, exposure can cause eye and skin injury and allergic reactions. Repeated exposure may cause chronic sun damage, characterized by wrinkling, dryness, fragility, and bruising of the skin, and skin cancer.

3. Wear protective eyewear.

FAILURE TO USE PROTECTIVE EYEWEAR MAY RESULT IN SEVERE
BURNS AND LONG-TERM INJURY TO THE EYES

4. Ultraviolet radiation from sunlamps will intensify the effects of the sun. Therefore, do not sunbathe before or after exposure to ultraviolet radiation.

5. Some oral or skin medications or cosmetics may increase your sensitivity to ultraviolet radiation. Consult your physician before using a tanning device if you are using medications, have a history of skin problems, or believe you are especially sensitive to sunlight. Pregnant women or women on birth control pills who use this tanning device may develop discolored skin.

6. If you do not tan in the sun, you are unlikely to tan from use of this tanning device.

7. If you suffered an injury while using a tanning device at this tanning facility, you must report the injury to the owner or operator.

8. Any skin-related treatment involving microdermabrasion, including, but not limited to, facials, waxing, or skin peels, may cause abnormal sensitivity to ultraviolet radiation."

(3) The owner or operator of a tanning facility shall not claim or distribute printed promotional materials that claim or otherwise advertise that using a tanning device is safe, nonburning, or free from risk.

(2) The rules shall not limit the intentional exposure of patients to radiation for the purpose of lawful therapy or research conducted by licensed health professionals.

(3) The department shall promulgate rules specifying the minimum training and performance standards for an individual using a radiation machine for mammography as set forth in section 13523.

History: 1978, Act 368, Eff. Sept. 30, 1978;—Am. 1989, Act 56, Imd. Eff. June 16, 1989.

333.13522 Rules; avoiding dual licensing; recognition of other state or federal licenses; schedule of fees; deposit of fees; nonrefundable fees in connection with mammography authorization; waiver of fee; waiver prohibited; adjustment of fees.

Sec. 13522. (1) In promulgating rules pursuant to this part, the department shall avoid requiring dual

licensing, insofar as practical. Rules promulgated by the department may provide for recognition of other state or federal licenses as the department considers desirable, subject to registration requirements prescribed by the department. A person who, on the effective date of an agreement under Act No. 54 of the Public Acts of 1965, being sections 3.801 to 3.802 of the Michigan Compiled Laws, possesses a license issued by the federal government for a source of ionizing radiation of the type for which the state assumes regulatory responsibility under the agreement, is considered to possess an identical license issued pursuant to this part, which license expires either 90 days after receipt of a written notice of termination from the department or on the date of expiration stated in the federal license, whichever occurs first.

(2) The department may promulgate rules to establish a schedule of fees to be paid by applicants for licenses for radioactive materials and devices and equipment utilizing the radioactive materials.

(3) Except as otherwise provided in this subsection, the department may promulgate rules to establish a schedule of fees to be paid by an applicant for a license for other sources of ionizing radiation and the renewal of the license, and by a person possessing sources of ionizing radiation that are subject to registration. The registration or registration renewal fee for a radiation machine registered under this part is \$45.00 for the first veterinary or dental x-ray or electron tube and \$25.00 for each additional veterinary or dental x-ray or electron tube annually, or \$75.00 annually per nonveterinary or nondental x-ray or electron tube. The department shall not assess a fee for the amendment of a radiation machine registration certificate. In addition, the department shall assess a fee of \$100.00 for each follow-up inspection due to noncompliance during the same year. The department may accept a written certification from the licensee or registrant that the items of noncompliance have been corrected instead of performing a follow-up inspection. If the department does not inspect a source of ionizing radiation for a period of 5 consecutive years, the licensee or registrant of the source of ionizing radiation does not have to pay further license or registration fees as to that source of ionizing radiation until the first license or registration renewal date following the time an inspection of the source of ionizing radiation is made.

(4) A fee collected under this part shall be deposited in the state treasury and credited to the general fund of this state.

(5) Except as otherwise provided in subsection (6), the department shall assess the following nonrefundable fees in connection with mammography authorization:

(a) Inspection, per radiation machine.....	\$ 100.00
(b) Reinspection for reinstatement of mammography authorization, per radiation machine.....	\$ 100.00
(c) Department evaluation of compliance with section 13523(2)(a), per radiation machine.....	\$ 700.00
Each reevaluation of a radiation machine due to failure during the previous evaluation, relocation of the radiation machine, or similar changes that could affect earlier evaluation results.....	\$ 300.00.

(6) If an applicant for mammography authorization submits an evaluation report issued by the American college of radiology that evidences compliance with section 13523(2)(a), the department shall waive the fee under subsection (5) for department evaluation of compliance with that provision.

(7) Except as otherwise provided in subsections (3) and (6), the department shall not waive a fee required under this section.

(8) The department shall adjust on an annual basis the fees prescribed by subsections (3) and (5) by an amount determined by the state treasurer to reflect the cumulative annual percentage change in the Detroit consumer price index, not to exceed 5%. As used in this subsection, "Detroit consumer price index" means the most comprehensive index of consumer prices available for the Detroit area from the bureau of labor statistics of the United States department of labor.

333.13523 Radiation machine; registration; temporary authorization; authorization; standards; application; certificate; inspections; denial or withdrawal of authorization; hearing; emergency order; reinstatement of authorization; fine; notice; rules; definitions.

Sec. 13523. (1) Beginning August 16, 1989, a person shall not use a radiation machine to perform mammography unless the radiation machine is registered with the department under department rules for registration of radiation machines and is specifically authorized under this section for use for mammography.

(2) The department shall authorize a radiation machine for use for mammography if the radiation machine, the personnel operating the radiation machine, and the facility in which the radiation machine is used meet all of the following standards:

(a) The radiation machine and the facility in which the radiation machine is used meet the criteria for the American college of radiology mammography accreditation program dated August, 1993 and published by the American college of radiology in the documents entitled "overview, mammography accreditation program, and ACR standards for the performance of screening mammography", which documents and criteria are incorporated by reference, excluding the physician interpreter and the accreditation fee schedule. The department shall make copies of those criteria available to the public and may by rule adopt modified criteria. The department may accept an evaluation report issued by the American college of radiology as evidence that a radiation machine, the personnel operating the radiation machine, and the facility in which the radiation machine is used meet those criteria. If at any time the department determines that it will not accept any evaluation reports issued by the American college of radiology as evidence that a radiation machine, the personnel operating the radiation machine, and the facility in which the radiation machine is used meet those criteria, the department shall promptly notify each person who has registered a radiation machine used exclusively to perform mammography under this part and the rules promulgated under this part.

(b) The radiation machine, the film or other image receptor used in the radiation machine, and the facility in which the radiation machine is used meet the requirements set forth in department rules for radiation machines.

(c) The radiation machine is specifically designed to perform mammography.

(d) The facility in which the radiation machine is used does all of the following:

(i) At least annually has a qualified radiation physicist provide on-site consultation to the facility, including, but not limited to, a complete evaluation of the entire mammography system to ensure compliance with this part and the rules promulgated under this part.

(ii) Maintains for at least 7 years records of the consultation required in subparagraph (i) and the findings of the consultation.

(iii) Designates a physician or osteopathic physician licensed under article 15 to provide medical direction for the delivery of mammography services and to be responsible for the clinical aspects of the x-ray examinations and other procedures related to mammography. The physician designated under this subparagraph is responsible for conducting an on-site visit to each mammography station within the facility at least monthly for the purpose of providing professional feedback regarding clinical image quality and quality assurance procedures, for review of quality control documentation, and for ensuring that safe operating procedures are used in the delivery of mammographic services. If the physician designated under this subparagraph practices primarily outside of the facility, the physician shall keep a log of each on-site visit signed by the physician. The chief administrative officer of the facility or his or her designee may request to view the log at any time. The physician designated under this subparagraph shall meet the requirements of subdivision (g)(i) and (ii) or, until January 1, 1996, the requirements of subdivision (g)(ii) and (iii).

(e) The radiation machine is used according to department rules on patient radiation exposure and radiation dose levels.

(f) Each individual who operates the radiation machine can demonstrate to the department that he or she is specifically trained in mammography or an individual who is a physician or an osteopathic physician, and beginning 60 days after the rules required under section 13521(3) are promulgated, each individual who operates the radiation machine can demonstrate to the department that he or she meets the standards required by those rules or an individual who is a physician or an osteopathic physician.

(g) The x-ray images of each mammographic examination performed with the radiation machine are interpreted by a mammography interpreter who is a physician or osteopathic physician licensed under article 15 and who meets the requirements of subparagraphs (i), (ii), (iii), (iv), and (v):

(i) Except as otherwise provided in this subparagraph, is certified in radiology or diagnostic radiology by the American board of radiology or the American osteopathic board of radiology, has been eligible for certification in radiology or diagnostic radiology for not more than 2 years, or is certified or determined to be qualified in radiology or diagnostic radiology by another professional organization approved by the radiation advisory board appointed under section 13531. Until the expiration of 2 years after the effective date of the amendatory act that added this subdivision, a physician or osteopathic physician licensed under article 15 who has been eligible for certification in radiology or diagnostic radiology for more than 2 years shall be considered to meet the requirement of this subparagraph.

(ii) Shall successfully complete or teach not less than 15 hours of continuing medical education every 3 years after the effective date of the amendatory act that added this subdivision in the technical aspects or clinical aspects, or both, of mammography in courses or programs approved by the individual's respective

specialty organization and licensing board and has documentation of successful completion or teaching that is satisfactory to the department.

(iii) Shall have successfully completed not less than 2 months of formal training in reading mammograms with instruction in medical radiation physics, radiation effects, and radiation protection and has documentation of successful completion of the training that is satisfactory to the department. For purposes of this subparagraph, the department may accept time spent in a residency program that includes specific training in mammography if the individual has documentation of the residency program that is satisfactory to the department.

(iv) Interprets not less than 520 mammographic examinations each year.

(v) Maintains annual records concerning outcome data for correlation of positive mammograms to biopsies done, and the number of cancers detected.

(3) The department may issue a nonrenewable temporary authorization for a radiation machine for use for mammography if additional time is needed to allow submission of evidence satisfactory to the department that the radiation machine, the personnel operating the radiation machine, and the facility in which the radiation machine is used meet the standards set forth in subsection (2) for approval for mammography. A temporary authorization granted under this subsection after February 16, 1991 is effective for no more than 12 months. The department may withdraw a temporary authorization before its expiration if the radiation machine, the personnel operating the radiation machine, or the facility in which the radiation machine is used does not meet 1 or more of the standards set forth in subsection (2).

(4) To obtain authorization from the department to use a radiation machine for mammography, the person who owns or leases the radiation machine or an authorized agent of the person shall apply to the department for mammography authorization on an application form provided by the department and shall provide all of the information required by the department as specified on the application form. A person who owns or leases more than 1 radiation machine used for mammography shall obtain authorization for each radiation machine. The department shall process and respond to an application within 30 days after the date of receipt of the application. Upon determining to grant mammography authorization for a radiation machine, the department shall issue a certificate of registration specifying mammography authorization for each authorized radiation machine. A mammography authorization is effective for 3 years contingent upon the radiation machine, the personnel operating the radiation machine, and the facility in which the radiation machine is operated for which the mammography authorization is issued meeting 1 of the following requirements:

(a) Maintaining continued accreditation by the American college of radiology.

(b) Having an active accreditation application in process with the American college of radiology.

(c) Maintaining approval or being in the process of obtaining approval under a department evaluation process equivalent to that described in subdivisions (a) and (b).

(5) No later than 60 days after initial mammography authorization of a radiation machine under this section, the department shall inspect the radiation machine. After that initial inspection, the department shall annually inspect the radiation machine and may inspect the radiation machine more frequently. The department shall make reasonable efforts to coordinate the inspections under this section with the department's other inspections of the facility in which the radiation machine is located.

(6) After each satisfactory inspection by the department, the department shall issue a certificate of radiation machine inspection or a similar document identifying the facility and radiation machine inspected and providing a record of the date the radiation machine was inspected. The facility shall post the certificate or other document near the inspected radiation machine.

(7) The department may withdraw the mammography authorization for a radiation machine if it does not meet 1 or more of the standards set forth in subsection (2).

(8) The department shall provide an opportunity for a hearing in connection with a denial or withdrawal of mammography authorization.

(9) Upon a finding that a deficiency in a radiation machine used for mammography or a violation of this part or the rules promulgated under this part seriously affects the health, safety, and welfare of individuals upon whom the radiation machine is used for mammography, the department may issue an emergency order summarily withdrawing the mammography authorization of the radiation machine. The department shall incorporate its findings in the order and shall provide an opportunity for a hearing within 5 working days after issuance of the order. The order is effective during the proceedings.

(10) If the department withdraws the mammography authorization of a radiation machine, the radiation machine shall not be used for mammography. An application for reinstatement of a mammography authorization shall be filed and processed in the same manner as an application for mammography authorization under subsection (4), except that the department shall not issue a reinstated certificate of mammography registration until the department receives the reinspection fee required under section 13522(5),

inspects the radiation machine, and determines that it meets the standards set forth in subsection (2). The department shall conduct an inspection required under this subsection no later than 60 days after receiving a proper application for reinstatement of a mammography authorization.

(11) In addition to the penalties provided in section 13535 and the reinspection fee required under section 13522(5), if a person violates subsection (1), the department may impose an administrative fine against the owner of the radiation machine or, if a lessee of the radiation machine has effective control of the radiation machine, the lessee, of not more than \$500.00 for each calendar week in which a mammography is performed in violation of subsection (1). If a person continues to violate subsection (1) for a period of 2 weeks after a fine is imposed under this subsection, the department shall post a conspicuous notice on the unauthorized radiation machine and at the entry to the facility where the radiation machine is located warning the public that the facility is performing mammography using a radiation machine that is a substantial hazard to the public health.

(12) The department may promulgate rules necessary to implement this section after consultation with the radiation advisory board established under section 13531.

(13) As used in this section:

(a) "Radiation machine" means a machine, other than those exempted by department rule, that emits ionizing radiation.

(b) "Mammography system" means the radiation machine used for mammography; automatic exposure control devices; films, screens, and cassettes; image processor; darkroom; and viewboxes.

333.13524.added Mammogram demonstrating dense breast tissue; notification to patient; information to be provided in report; "dense breast tissue" defined.

Sec. 13524. (1) If a patient's mammogram demonstrates dense breast tissue, a person who provides mammography services in this state shall provide notification to the patient that includes, but is not limited to, the following information, in the summary of the written report of the results of a mammography examination that is sent directly to a patient pursuant to 42 USC 263b:

"Your mammogram shows that your breast tissue is dense. Dense breast tissue is very common and is not abnormal. However, dense breast tissue can make it harder to find cancer through a mammogram. Also, dense breast tissue may increase your risk for breast cancer. This information about the result of your mammogram is given to you to raise your awareness. Use this information to discuss with your health care provider whether other supplemental tests in addition to your mammogram may be appropriate for you, based on your individual risk. A report of your results was sent to your ordering physician. If you are self-referred, a report of your results was sent to you in addition to this summary."

(2) As used in this section, "dense breast tissue" means heterogeneously or extremely dense breast tissue as defined in nationally recognized guidelines or systems for breast imaging reporting of mammography screening including, but not limited to, the breast imaging reporting and data system established by the American college of radiology. If, after the effective date of this section, new terms are defined in revised guidelines or systems for breast imaging reporting of mammography screening, and the department determines that those new terms are more appropriate for the purposes of the information required to be provided under this section, the department, by order, may update the definition of dense breast tissue under this subsection to use those new terms. Upon issuance, the department shall forward an order issued under this subsection to the legislature.

Following the issuance of a construction and operating license under this part, the director with the written concurrence of the authority may grant or deny an application for a waiver of the requirement that waste be disposed of only in the disposal site if either of the following occurs:

(a) If this state has obtained full agreement state status with the federal government, the department approves the disposal of the waste in a location other than the disposal site and concludes that the waiver will not harm the public health, safety, or welfare, or the environment and will not substantially impact on the volume of waste available for disposal in the disposal site or the financial solvency of the disposal site.

(b) If this state has not obtained a full agreement state status with the federal government, the department concludes that any waiver granted by the nuclear regulatory commission will not harm the public health, safety, or welfare, or the environment and will not substantially impact on the volume of waste available for disposal in the disposal site or the financial solvency of the disposal site.

(4) The department shall assure that waste that is not generated in this state or in a state with which this state may elect to enter a compact shall not be accepted for disposal at the disposal site. In addition, if this state is a member of a compact the department shall assure that this state does not accept waste for disposal from any member of the compact that does either of the following:

Sec. 13714. The authority shall file as a part of the application for a construction and operating license a surety bond, secured trust fund, or other suitable secured instrument or mechanism that shall be approved by the department and shall cover the cost of site closure and stabilization. In addition, the authority shall file a surety bond, secured trust fund, or other suitable secured instrument or mechanism that shall be approved by the department, and shall cover the cost of the postclosure observation and maintenance of the disposal site and institutional control. Sec. 13716. (1) Upon receipt of an application for a construction and operating license, the department shall do all of the following:

(a) Within 45 days, determine whether the application is complete. If the application is not complete, the department shall notify the authority of all deficiencies and request that the additional information that the department considers necessary to make the application complete be supplied by the authority within 15 days. If the authority is unable to supply the requested information within 15 days, the authority shall notify the department in writing of the reason for any delay and when the requested information will be forwarded.

(b) Immediately notify the local monitoring committee of the host site community, the governing body of the county in which the host site is located, and impacted state departments and agencies as determined by the department of the receipt of an application for a construction and operating license and the procedure by which the license may be approved or denied.

(c) Publish a notice in a newspaper that has statewide circulation, and a newspaper that has major circulation in the municipality in the immediate vicinity of the host site, and a newspaper that is circulated in the county in which the host site is located. The published notice shall contain a map indicating the location of the host site and shall contain a description of the host site and the location where the complete application package may be reviewed and where copies may be obtained. The notice shall describe the procedure by which the construction and operating license may be granted or denied. The director shall provide an opportunity for public comment at least 60 days before making a final decision to grant or deny an application for a construction and operating license.

(d) Along with other impacted state departments and agencies as determined by the department, review the entire application for a construction and operating license. The review shall include, but not be limited to, considerations pertaining to air quality, water quality, waste management, hydrogeology, and proposed waste transportation routes, and the protection of the public health, safety, and welfare, and the environment. The review shall be completed within 140 days after a complete application is received. Following the completion of the 140-day review, the department shall prepare a draft version of a construction and operating license that the department is considering issuing. Before the department prepares a draft construction and operating license, the department shall assure that all concerns expressed by the review board created in section 13 of the low-level radioactive waste authority act, the local monitoring committee of the host site community, the governing body of the county in which the host site is located, and impacted state departments and agencies during the review process are considered. A written and signed review by each person representing a department who reviews the application and plans shall be reviewed and recorded by the department before a draft license is prepared by the department. In addition, before a draft license is prepared, but following the completion of the 140-day review, the department shall prepare a responsive summary that describes any public comments received by the department and describes how those comments have been evaluated and addressed by the department.

(e) Insure that the draft construction and operating license, written and signed reviews, and the responsive summary provided for in subdivision (d) are submitted to impacted state agencies as determined by the director and to the department of environmental quality.

(2) The director shall make a decision to issue a construction and operating license or deny the application for a construction and operating license as soon as practicable but not later than 12 months after the receipt of a complete application that is in compliance with this part. If the director denies the authority's application for

a construction and operating license, the director shall state his or her reason or reasons in writing. If the construction and operating license application meets the requirements of this part and the rules promulgated under this part, the department shall, after preparing a draft version, prepare and issue to the authority a construction and operating license.

(3) The departments of agriculture, natural resources, environmental quality, state police, the state transportation department, and other state departments and agencies shall consult and cooperate with the department in a timely manner in the review of an application for a construction and operating license. The department may also seek the assistance of any other person in evaluating the application for a construction and operating license and in the development of a draft or final construction and operating license, or both.

(4) Except as provided in this subsection, the issuance of a construction and operating license by the director pursuant to this part shall exempt the authority from obtaining other permits, licenses, or registrations which may be required under other applicable state laws, but shall not exempt the authority from meeting other standards and requirements of applicable state laws or federal laws or from obtaining an operating license pursuant to part 111 (hazardous waste management) of the natural resources and environmental protection act, Act No. 451 of the Public Acts of 1994, being sections 324.11101 to 324.11152 of the Michigan Compiled Laws, before construction commences.

(5) A local ordinance or permit requirement or other local requirement shall not prohibit, restrict, or regulate the construction or operation of the disposal site.

(3) A generator, processor, or collector who is arranging the transport of waste to the disposal site shall submit to the authority an application for a disposal shipment certificate for each shipment of waste to be delivered to the disposal site. The application shall be made on a form provided by or approved by the authority. The generator, processor, or collector shall submit the application at least 15 days, but not more than 30 days, prior to the date requested by the generator, processor, or collector for a carrier to transport the waste shipment to the disposal site.

(4) A generator, processor, or collector who is arranging the transport of waste to the disposal site shall ensure that a carrier who transports waste to the disposal site has been supplied with the information required in subsection (2).

(5) A carrier delivering a shipment of waste to the disposal site shall comply with the requirements of the disposal shipment certificate.

(6) The authority shall approve or deny within 10 days each complete application for a disposal shipment certificate that is submitted by a generator, processor, or collector who is arranging the transport of waste to the disposal site. An application shall not be approved unless the authority has signed the certificate and has assigned to it a disposal shipment certificate number. The disposal shipment certificate number shall be placed on each manifest that is a part of the waste shipment approved on the disposal shipment certificate.

Sec. 13723. (1) The disposal site shall be operated in accordance with this part, the rules promulgated under this part, and in compliance with the terms and conditions of the construction and operating license and any applicable federal requirements.

(2) Each shipment of waste that arrives at the disposal site shall not proceed into the unloading area until inspected by both the authority and the department and found by the authority and the department to be in compliance with this part, the rules promulgated under this part, the manifest, and any applicable provisions of the construction and operating license. Shipments that are not in compliance shall proceed to a controlled area for appropriate action to remedy the noncompliance or the authority may refuse to accept the waste. If the authority refuses to accept the waste, the authority may order the waste returned by the carrier to the generator or processor who contracted with the carrier to transport the waste to the disposal site. If the waste is ordered to be returned, the authority shall specify on the manifest the address of the generator or processor to whom the waste shall be returned. The authority may seize and impound a vehicle and the contents of that vehicle if it transports waste in a manner that is not in compliance with this part or the rules promulgated under this part or if the contents of the truck are not in compliance with this part or the rules promulgated under this part. The authority or his or her authorized agent shall notify the department and the local monitoring committee of the host site community of the noncomplying shipment. Shipments that are found to be in compliance shall proceed to the unloading area. After a transport vehicle is unloaded, or leaves the unloading area without being unloaded, it shall not leave the disposal site until it is inspected by the authorized agent of the authority and the department and is decontaminated, if necessary.

(3) The authority shall promptly inform the department of any violation of this part, the rules promulgated under this part, a permit issued under this part, or the low-level radioactive waste authority act, that is committed or that the authority suspects was committed by a generator, collector, carrier, or processor.

(4) The department shall permit the authority to receive waste only from a generator, carrier, processor, or collector whose name is on the master list and who holds a valid permit issued in this state under this part or who holds a valid permit issued by a compact member state that has equivalent privileges in this state because the state in which that person generates, carries, processes, or collects waste has established and maintains to the satisfaction of the department a permitting and regulatory system, including penalties and remedies, that equals or exceeds the laws and rules of this state as they pertain to generators, carriers, processors, and collectors. If this state is a member of a compact, a compact member state that establishes and maintains a permitting and regulatory system that the department determines equals or exceeds this state's system as provided in subsection (3) shall, by accepting equivalent privileges in this state as provided in this subsection, give its consent to the requirements of this part, the rules promulgated under this part, and the provisions of the low-level radioactive waste authority act. In addition, each of the compact member states shall be considered to have consented to share with this state and any other compact member states the expenses incurred in the construction, operation, site closure and stabilization, postclosure observation and

maintenance, and institutional control of the disposal site and liabilities incurred as a result of the locating of the disposal site in this state.

(5) A carrier, processor, or collector whose primary place of business is in this state shall be eligible to seek a permit from the department under this part to transport, process, or collect waste in this state. A carrier, processor, or collector whose primary place of business is in a state that is not a compact member state shall be eligible to seek a permit from the department under this part to transport, process, or collect waste generated in this state. The department shall issue a permit only to a generator who generates waste in this state.

- (c) The location and use of storage and transfer facilities, if any.

(5) A generator's permit is not transferable, and shall state with particularity the persons and real or personal property to which it applies.

(6) Each person who submits an application for a generator's permit or permit renewal in this state under this section shall pay a permit application fee of \$500.00.

(7) If a generator requests modification of a generator's permit, or if the director determines that modifications are necessary to conform to the requirements of this part, the director may invoke permit modifications which the director considers necessary and may specify the time required to complete the modifications. The director may prescribe a fee not to exceed \$500.00 for administrative costs associated with the processing of a modification of a generator permit.

(8) The department shall automatically issue a generator's permit to an applicant who makes an initial application for a generator's permit under this part if that person holds a valid permit or other authorization to generate waste issued by the nuclear regulatory commission at the time of the initial application. A person granted a generator's permit under this subsection is subject to all the applicable provisions of this part, rules promulgated under this part, and the provisions of the permit.

333.16213 Retention of records.

Sec. 16213. (1) An individual licensed under this article shall keep and maintain a record for each patient for whom he or she has provided medical services, including a full and complete record of tests and examinations performed, observations made, and treatments provided. Unless a longer retention period is otherwise required under federal or state laws or regulations or by generally accepted standards of medical practice, a licensee shall keep and retain each record for a minimum of 7 years from the date of service to which the record pertains. The records shall be maintained in such a manner as to protect their integrity, to ensure their confidentiality and proper use, and to ensure their accessibility and availability to each patient or his or her authorized representative as required by law. A licensee may destroy a record that is less than 7 years old only if both of the following are satisfied:

(a) The licensee sends a written notice to the patient at the last known address of that patient informing the patient that the record is about to be destroyed, offering the patient the opportunity to request a copy of that record, and requesting the patient's written authorization to destroy the record.

(b) The licensee receives written authorization from the patient or his or her authorized representative agreeing to the destruction of the record.

(2) If a licensee is unable to comply with this section, the licensee shall employ or contract, arrange, or enter into an agreement with another health care provider, a health facility or agency, or a medical records company to protect, maintain, and provide access to those records required under subsection (1).

(3) If a licensee or registrant sells or closes his or her practice, retires from practice, or otherwise ceases to practice under this article, the licensee or the personal representative of the licensee, if the licensee is deceased, shall not abandon the records required under this section and shall send a written notice to the department that specifies who will have custody of the medical records and how a patient may request access to or copies of his or her medical records and shall do either of the following:

(a) Transfer the records required under subsection (1) to any of the following:

(i) A successor licensee.

(ii) If requested by the patient or his or her authorized representative, to the patient or a specific health facility or agency or other health care provider licensed under article 15.

(iii) A health care provider, a health facility or agency, or a medical records company with which the licensee had contracted or entered into an agreement to protect, maintain, and provide access to those records required under subsection (1).

(b) In accordance with subsection (1), as long as the licensee or the personal representative of the licensee, if the licensee is deceased, sends a written notice to the last known address of each patient for whom he or she has provided medical services and receives written authorization from the patient or his or her authorized representative, destroy the records required under subsection (1). The notice shall provide the patient with 30 days to request a copy of his or her record or to designate where he or she would like his or her medical

records transferred and shall request from the patient within 30 days written authorization for the destruction of his or her medical records. If the patient fails to request a copy or transfer of his or her medical records or to provide the licensee with written authorization for the destruction, then the licensee or the personal representative of the licensee shall not destroy those records that are less than 7 years old but may destroy, in accordance with subsection (4), those that are 7 years old or older.

(4) Except as otherwise provided under this section or federal or state laws and regulations, records required to be maintained under subsection (1) may be destroyed or otherwise disposed of after being maintained for 7 years. If records maintained in accordance with this section are subsequently destroyed or otherwise disposed of, those records shall be shredded, incinerated, electronically deleted, or otherwise disposed of in a manner that ensures continued confidentiality of the patient's health care information and any other personal information relating to the patient. If records are destroyed or otherwise disposed of as provided under this subsection, the department may take action including, but not limited to, contracting for or making other arrangements to ensure that those records and any other confidential identifying information related to the patient are properly destroyed or disposed of to protect the confidentiality of patient's health care information and any other personal information relating to the patient. Before the department takes action in accordance with this subsection, the department, if able to identify the licensee responsible for the improper destruction or disposal of the medical records at issue, shall send a written notice to that licensee at his or her last known address or place of business on file with the department and provide the licensee with an opportunity to properly destroy or dispose of those medical records as required under this subsection unless a delay in the proper destruction or disposal may compromise the patient's confidentiality. The department may assess the licensee with the costs incurred by the department to enforce this subsection.

(5) A person who fails to comply with this section is subject to an administrative fine of not more than \$10,000.00 if the failure was the result of gross negligence or willful and wanton misconduct.

(6) Nothing in this section shall be construed to create or change the ownership rights to any medical records.

(7) As used in this section:

(a) "Medical record" or "record" means information, oral or recorded in any form or medium, that pertains to a patient's health care, medical history, diagnosis, prognosis, or medical condition and that is maintained by a licensee in the process of providing medical services.

(b) "Medical records company" means a person who contracts for or agrees to protect, maintain, and provide access to medical records for a health care provider or health facility or agency in accordance with this section.

Patient includes a guardian, if appointed, and a parent, guardian, or person acting in loco parentis, if the individual is a minor, unless the minor lawfully obtained health care without the consent or notification of a parent, guardian, or other person acting in loco parentis, in which case the minor has the exclusive right to exercise the rights of a patient under this section with respect to his or her medical records relating to that care.

(a) "Gross negligence" means conduct so reckless as to demonstrate a substantial lack of concern for whether serious injury to a person would result.

Sec. 16222. (1) A licensee or registrant who has knowledge that another licensee or registrant has committed a violation under section 16221, article 7, or article 8 or a rule promulgated under article 7 or article 8 shall report the conduct and the name of the subject of the report to the department. Information obtained by the department under this subsection is confidential and is subject to sections 16238 and 16244. Failure of a licensee or registrant to make a report under this subsection does not give rise to a civil cause of action for damages against the licensee or registrant, but the licensee or registrant is subject to administrative action under sections 16221 and 16226. This subsection does not apply to a licensee or registrant who obtains the knowledge of a violation while providing professional services to the licensee or registrant to whom the knowledge applies, who is serving on a duly constituted ethics or peer review committee of a professional association, or who is serving on a committee assigned a professional review function in a health facility or agency.

(2) Unless the licensee or registrant making a report under subsection (1) otherwise agrees in writing, the identity of the licensee or registrant making a report under subsection (1) shall remain confidential unless disciplinary proceedings under this part are initiated against the subject of the report and the licensee or registrant making the report is required to testify in the proceedings.

(3) A licensee or registrant shall notify the department of any criminal conviction within 30 days after the date of the conviction. Failure of a licensee or registrant to notify the department under this subsection shall result in administrative action under sections 16221 and 16226.

(4) A licensee or registrant shall notify the department of any disciplinary licensing or registration action taken by another state against the licensee or registrant within 30 days after the date of the action. This subsection includes, but is not limited to, a disciplinary action that is stayed pending appeal. Failure of a

licensee or registrant to notify the department under this subsection shall result in administrative action under sections 16221 and 16226.

For purposes of this subsection, a report filed with the committee or with the program consultants described in section 16168 is considered to be filed with the department. A licensee or registrant who fails to report under this subsection is not liable in a civil action for damages resulting from the failure to report, but the licensee or registrant is subject to administrative action under sections 16221 and 16226.

(2) This section does not apply to a licensee or registrant who is in a bona fide health professional-patient relationship with a licensee, registrant, or applicant believed to be impaired.

333.16231 Allegation; review; investigation; compliance conference; duties of department following investigation; confidentiality of identity; complaint; failure to respond; conditions applicable to subsection (2)(a); "conflict of interest" defined.

Sec. 16231. (1) A person or governmental entity that believes that a violation of this article, article 7, or article 8 or a rule promulgated under this article, article 7, or article 8 exists may submit an allegation of that fact to the department in writing.

(2) Subject to subsection (3), if the department determines after reviewing an application or an allegation or a licensee's or registrant's file under section 16211(4) that there is a reasonable basis to believe that a violation of this article, article 7, or article 8 or a rule promulgated under this article, article 7, or article 8 exists, 1 of the following applies:

(a) Unless subdivision (b) applies, subject to subsection (10), with the authorization of a panel of at least 3 board members that includes the chair and at least 2 other members of the appropriate board or task force designated by the chair, the department shall investigate the alleged violation. Subject to subsection (10), if the panel fails to grant or deny authorization within 7 days after the board or task force receives a request for authorization, the department shall investigate. If the department believes that immediate jeopardy exists, the director or his or her designee shall authorize an investigation and notify the board chair of that investigation within 2 business days.

(b) If it reviews an allegation in writing under subsection (1) that concerns a licensee or registrant whose record created under section 16211 includes 1 substantiated allegation, or 2 or more written investigated allegations, from 2 or more different individuals or entities, received in the preceding 4 years, the department shall investigate the alleged violation. Authorization by a panel described in subdivision (a) is not required for an investigation by the department under this subdivision.

(3) If a person or governmental entity submits a written allegation under subsection (1) more than 4 years after the date of the incident or activity that is the basis of the alleged violation, the department may investigate the alleged violation in the manner described in subsection (2)(a) or (b), as applicable, but is not required to conduct an investigation under subsection (2)(a) or (b).

(4) If it receives information reported under section 16243(2) that indicates 3 or more malpractice settlements, awards, or judgments against a licensee in a period of 5 consecutive years or 1 or more malpractice settlements, awards, or judgments against a licensee totaling more than \$200,000.00 in a period of 5 consecutive years, whether or not a judgment or award is stayed pending appeal, the department shall investigate.

(5) At any time during an investigation or following the issuance of a complaint, the department may schedule a compliance conference under section 92 of the administrative procedures act of 1969, MCL 24.292. The conference may include the applicant, licensee, registrant, or individual, the applicant's, licensee's, registrant's, or individual's attorney, 1 member of the department's staff, and any other individuals approved by the department. One member of the appropriate board or task force who is not a member of the disciplinary subcommittee with jurisdiction over the matter may attend the conference and provide any assistance that is needed. At the compliance conference, the department shall attempt to reach agreement. If an agreement is reached, the department shall submit a written statement outlining the terms of the agreement, or a stipulation and final order, if applicable, or a request for dismissal to the appropriate disciplinary subcommittee for approval. If the agreement or stipulation and final order or request for dismissal is rejected by the disciplinary subcommittee, or if no agreement is reached, the department shall schedule a hearing before an administrative law judge. A party shall not make a transcript of the compliance conference. All records and documents of a compliance conference held before a complaint is issued are subject to section 16238.

department shall keep the identity of a person that submitted the allegation confidential until disciplinary proceedings under this part are initiated against the subject of the allegation and the person that made the allegation is required to testify in the proceedings.

(8) The department shall serve a complaint under section 16192. The department shall include in the complaint a notice that the applicant, licensee, registrant, or individual who is the subject of the complaint has 30 days from the date of receipt to respond in writing to the complaint.

(9) The department shall treat the failure of an applicant, licensee, registrant, or individual to respond to a complaint within the 30-day period set forth in subsection (8) as an admission of the allegations contained in the complaint. The department shall notify the appropriate disciplinary subcommittee of the individual's failure to respond and shall forward a copy of the complaint to that disciplinary subcommittee. The disciplinary subcommittee may then impose an appropriate sanction under this article, article 7, or article 8.

(10) All of the following apply for purposes of subsection (2)(a):

(a) If the chair of the board or task force has a conflict of interest, he or she shall appoint another member of the board or task force as his or her designee and shall not participate in the panel's decision to grant or deny authorization to the department to investigate an individual.

(b) A member of the board or task force shall not participate in the panel's decision to grant or deny authorization to the department to investigate an individual if that member has a conflict of interest. If the chair of the board or task force is notified that a member of the panel has a conflict of interest, the chair shall remove him or her from the panel and appoint another member of the board or task force to serve on the panel.

(c) A member of the board or task force who participates in or is requested to participate in the panel's decision to grant or deny authorization to the department to investigate an individual shall disclose to the department, to the chair of the board or task force, and to the other member of the panel a potential conflict of interest before those participants make that decision.

(c) Has given expert testimony in a medical malpractice action against or on behalf of the individual that the department is seeking authorization to investigate.

(d) Any other interest or relationship designated as a conflict of interest in a rule promulgated or order issued under this act.

Sec. 16231a. (1) If an agreement is not reached at a compliance conference held under section 16231(4), or if an agreement is reached but is rejected by a disciplinary subcommittee and the parties do not reach a new agreement, the department shall hold a hearing before a hearings examiner employed by or under contract to the department. If an agreement is reached but is rejected by the disciplinary subcommittee, the department shall not hold another compliance conference, but may continue to try and reach a new agreement. The hearings examiner shall conduct the hearing within 60 days after the compliance conference at which an agreement is not reached or after the agreement is rejected by the disciplinary subcommittee, unless a new agreement is reached and approved by the disciplinary subcommittee. One member of the appropriate board or task force who is not a member of the disciplinary subcommittee with jurisdiction over the matter may attend the hearing and provide such assistance as needed.

(2) The hearings examiner shall determine if there are grounds for disciplinary action under section 16221 or if the applicant, licensee, or registrant has violated this article, article 7, or article 8 or the rules promulgated under this article, article 7, or article 8. The hearings examiner shall prepare recommended findings of fact and conclusions of law for transmittal to the appropriate disciplinary subcommittee. The hearings examiner shall not recommend or impose penalties.

(3) The applicant, licensee, or registrant who is the subject of the complaint or the department of attorney

general may request and be granted not more than 1 continuance by the hearings examiner for good cause shown.

(4) The applicant, licensee, or registrant may be represented at the hearing by legal counsel. The department shall be represented at the hearing by an assistant attorney general from the department of attorney general. The assistant attorney general shall not be the same individual assigned by the department of attorney general to provide legal counsel to the board or the special assistant attorney general described in section 16237.

(5) Unless a continuance has been granted under subsection (3), failure of an applicant, licensee, or registrant to appear or be represented at a scheduled hearing shall be treated by the hearings examiner as a default and an admission of the allegations contained in the complaint. The hearings examiner shall notify the appropriate disciplinary subcommittee of the individual's failure to appear and forward a copy of the complaint and any other relevant records to the disciplinary subcommittee. The disciplinary subcommittee may then impose an appropriate sanction under any combination of this article, article 7, or article 8.

Sec. 16233. (1) The department may conduct an investigation necessary to administer and enforce this article. Investigations may include written, oral, or practical tests of a licensee's or registrant's competency. The department may establish a special paralegal unit to assist the department.

(2) The department may order an individual to cease and desist from a violation of this article, article 7, or article 8 or a rule promulgated under this article, article 7, or article 8.

(3) An individual ordered to cease and desist under subsection (2) is entitled to a hearing before a hearings examiner if the individual files a written request for a hearing within 30 days after the effective date of the cease and desist order. The department shall subsequently present the notice, if any, of the individual's failure to respond to a complaint, or attend or be represented at a hearing as described in sections 16231 and 16231a, or the recommended findings of fact and conclusions of law to the appropriate disciplinary subcommittee to determine whether the order is to remain in effect or be dissolved.

(4) Upon a violation of a cease and desist order issued under subsection (2), the department of attorney general may apply in the circuit court to restrain and enjoin, temporarily or permanently, an individual from further violating the cease and desist order.

(5) After consultation with the chair of the appropriate board or task force or his or her designee, the department may summarily suspend a license or registration if the public health, safety, or welfare requires emergency action in accordance with section 92 of the administrative procedures act of 1969, MCL 24.292. If a licensee or registrant is convicted of a felony; a misdemeanor punishable by imprisonment for a maximum term of 2 years; or a misdemeanor involving the illegal delivery, possession, or use of a controlled substance, the department shall find that the public health, safety, or welfare requires emergency action and, in accordance with section 92 of the administrative procedures act of 1969, MCL 24.292, shall summarily suspend the licensee's license or the registrant's registration. If a licensee or registrant is convicted of a misdemeanor involving the illegal delivery, possession, or use of alcohol that adversely affects the licensee's ability to practice in a safe and competent manner, the department may find that the public health, safety, or welfare requires emergency action and, in accordance with section 92 of the administrative procedures act of

1969, MCL 24.292, may summarily suspend the licensee's license or the registrant's registration.

(6) The department may summarily suspend a pharmacy license if the department has received a notice from the United States food and drug administration or the centers for disease control and prevention that there is an imminent risk to the public health, safety, or welfare and emergency action in accordance with section 92 of the administrative procedures act of 1969, MCL 24.292, is appropriate. A suspension under this subsection remains in effect for the duration of the emergency situation that poses a risk to the public health, safety, or welfare. Notwithstanding any provision of this act to the contrary, the department is not required to conduct an investigation or consult with the board of pharmacy to take emergency action under this subsection.

333.17014 Legislative findings.

Sec. 17014. The legislature recognizes that under federal constitutional law, a state is permitted to enact persuasive measures that favor childbirth over abortion, even if those measures do not further a health interest. Sections 17015 and 17515 are nevertheless designed to provide objective, truthful information, and are not intended to be persuasive. The legislature finds that the enactment of sections 17015 and 17515 is essential for all of the following reasons:

(a) The knowledgeable exercise of a woman's decision to have an abortion depends on the extent to which the woman receives sufficient information to make an informed choice regarding abortion.

(b) The decision to obtain an abortion is an important and often stressful one, and it is in the state's interest that the decision be made with full knowledge of its nature and consequences.

(c) Enactment of sections 17015 and 17515 is necessary to ensure that, before an abortion, a woman is provided information regarding her available alternatives, and to ensure that a woman gives her voluntary and informed consent to an abortion.

(d) The receipt of accurate information about abortion and its alternatives is essential to the physical and psychological well-being of a woman considering an abortion.

(e) Because many abortions in this state are performed in clinics devoted solely to providing abortions, women who seek abortions at these clinics normally do not have a prior patient-physician relationship with the physician performing the abortion nor do these women continue a patient-physician relationship with the physician after the abortion. In many instances, the woman's only actual contact with the physician performing the abortion occurs simultaneously with the abortion procedure, with little opportunity to receive counsel concerning her decision. Consequently, certain safeguards are necessary to protect a woman's opportunity to select the option best suited to her particular situation.

(f) This state has an interest in protecting women and, subject to United States constitutional limitations and supreme court decisions, this state has an interest in protecting the fetus.

(g) Providing a woman with factual, medical, and biological information about the fetus she is carrying is essential to safeguard the state's interests described in subdivision (f). The dissemination of the information set forth in sections 17015 and 17515 is necessary due to the irreversible nature of the act of abortion and the often stressful circumstances under which the abortion decision is made.

(h) Because abortion services are marketed like many other commercial enterprises, and nearly all abortion providers advertise some free services, including pregnancy tests and counseling, the legislature finds that consumer protection should be extended to women contemplating an abortion decision by delaying any financial transactions until after a 24-hour waiting period. Furthermore, since the legislature and abortion providers have determined that a woman's right to give informed consent to an abortion can be protected by means other than the patient having to travel to the abortion facility during the 24-hour waiting period, the legislature finds that abortion providers do not have a legitimate claim of necessity in obtaining payments during the 24-hour waiting period.

(i) The safeguards that will best protect a woman seeking advice concerning abortion include the following:

(i) Private, individual counseling, including dissemination of certain information, as the woman's individual circumstances dictate, that affect her decision of whether to choose an abortion.

(ii) A 24-hour waiting period between a woman's receipt of that information provided to assist her in making an informed decision, and the actual performance of an abortion, if she elects to undergo an abortion. A 24-hour waiting period affords a woman, in light of the information provided by the physician or a qualified person assisting the physician, an opportunity to reflect on her decision and to seek counsel of family and friends in making her decision.

(j) The safeguards identified in subdivision (i) advance a woman's interests in the exercise of her discretion to choose or not to choose an abortion, and are justified by the objectives and interests of this state to protect the health of a pregnant woman and, subject to United States constitutional limitations and supreme court decisions, to protect the fetus.

(2) For purposes of this section and section 17015a:

(a) "Abortion" means the intentional use of an instrument, drug, or other substance or device to terminate a woman's pregnancy for a purpose other than to increase the probability of a live birth, to preserve the life or health of the child after live birth, or to remove a fetus that has died as a result of natural causes, accidental trauma, or a criminal assault on the pregnant woman. Abortion does not include the use or prescription of a drug or device intended as a contraceptive.

(b) "Coercion to abort" means an act committed with the intent to coerce an individual to have an abortion, which act is prohibited by section 213a of the Michigan penal code, 1931 PA 328, MCL 750.213a.

(f) "Medical emergency" means that condition which, on the basis of the physician's good faith clinical judgment, so complicates the medical condition of a pregnant woman as to necessitate the immediate abortion of her pregnancy to avert her death or for which a delay will create serious risk of substantial and irreversible impairment of a major bodily function.

(g) "Medical service" means the provision of a treatment, procedure, medication, examination, diagnostic test, assessment, or counseling, including, but not limited to, a pregnancy test, ultrasound, pelvic examination, or an abortion.

(j) "Provide the patient with a physical copy" means confirming that the patient accessed the internet website described in subsection (5) and received a printed valid confirmation form from the website and including that form in the patient's medical record or giving a patient a copy of a required document by 1 or more of the following means:

(ii) By registered mail, return receipt requested.

(iii) By parcel delivery service that requires the recipient to provide a signature in order to receive delivery

of a parcel.

(iv) By facsimile transmission.

(3) Subject to subsection (10), a physician or a qualified person assisting the physician shall do all of the following not less than 24 hours before that physician performs an abortion upon a patient who is a pregnant woman:

(a) Confirm that, according to the best medical judgment of a physician, the patient is pregnant, and determine the probable gestational age of the fetus.

(b) Orally describe, in language designed to be understood by the patient, taking into account her age, level of maturity, and intellectual capability, each of the following:

(i) The probable gestational age of the fetus she is carrying.

(ii) Information about what to do and whom to contact should medical complications arise from the abortion.

(iii) Information about how to obtain pregnancy prevention information through the department of community health.

(c) Provide the patient with a physical copy of the written standardized summary described in subsection (11)(b) that corresponds to the procedure the patient will undergo and is provided by the department of community health. If the procedure has not been recognized by the department, but is otherwise allowed under Michigan law, and the department has not provided a written standardized summary for that procedure, the physician shall develop and provide a written summary that describes the procedure, any known risks or complications of the procedure, and risks associated with live birth and meets the requirements of subsection (11)(b)(iii) through (vii).

(d) Provide the patient with a physical copy of a medically accurate depiction, illustration, or photograph and description of a fetus supplied by the department of community health pursuant to subsection (11)(a) at the gestational age nearest the probable gestational age of the patient's fetus.

(e) Provide the patient with a physical copy of the prenatal care and parenting information pamphlet distributed by the department of community health under section 9161.

(f) Provide the patient with a physical copy of the prescreening summary on prevention of coercion to abort described in subsection (11)(i).

(4) The requirements of subsection (3) may be fulfilled by the physician or a qualified person assisting the physician at a location other than the health facility where the abortion is to be performed. The requirement of subsection (3)(a) that a patient's pregnancy be confirmed may be fulfilled by a local health department under subsection (18). The requirements of subsection (3) cannot be fulfilled by the patient accessing an internet website other than the internet website that is maintained and operated by the department under subsection (11)(g).

(5) The requirements of subsection (3)(c) through (f) may be fulfilled by a patient accessing the internet website that is maintained and operated by the department under subsection (11)(g) and receiving a printed, valid confirmation form from the website that the patient has reviewed the information required in subsection (3)(c) through (f) at least 24 hours before an abortion being performed on the patient. The website shall not require any information be supplied by the patient. The department shall not track, compile, or otherwise keep a record of information that would identify a patient who accesses this website. The patient shall supply the valid confirmation form to the physician or qualified person assisting the physician to be included in the patient's medical record to comply with this subsection.

(6) Subject to subsection (10), before obtaining the patient's signature on the acknowledgment and consent form, a physician personally and in the presence of the patient shall do all of the following:

(a) Provide the patient with the physician's name, confirm with the patient that the coercion to abort screening required under section 17015a was performed, and inform the patient of her right to withhold or withdraw her consent to the abortion at any time before performance of the abortion.

(b) Orally describe, in language designed to be understood by the patient, taking into account her age, level of maturity, and intellectual capability, each of the following:

(i) The specific risk, if any, to the patient of the complications that have been associated with the procedure the patient will undergo, based on the patient's particular medical condition and history as determined by the physician.

(ii) The specific risk of complications, if any, to the patient if she chooses to continue the pregnancy based on the patient's particular medical condition and history as determined by a physician.

(7) To protect a patient's privacy, the information set forth in subsection (3) and subsection (6) shall not be disclosed to the patient in the presence of another patient.

(8) If at any time before the performance of an abortion, a patient undergoes an ultrasound examination, or a physician determines that ultrasound imaging will be used during the course of a patient's abortion, the

physician or qualified person assisting the physician shall provide the patient with the opportunity to view or decline to view an active ultrasound image of the fetus, and offer to provide the patient with a physical picture of the ultrasound image of the fetus before the performance of the abortion. After the expiration of the 24-hour period prescribed under subsection (3) but before performing an abortion on a patient who is a pregnant woman, a physician or a qualified person assisting the physician shall do all of the following:

(a) Obtain the patient's signature on the acknowledgment and consent form described in subsection (11)(c) confirming that she has received the information required under subsection (3).

(c) Retain a copy of the signed acknowledgment and consent form described in subsection (11)(c) and, if applicable, a copy of the pregnancy certification form completed under subsection (18)(b), in the patient's medical record.

(9) This subsection does not prohibit notifying the patient that payment for medical services will be required or that collection of payment in full for all medical services provided or planned may be demanded after the 24-hour period described in this subsection has expired. A physician or an agent of the physician shall not collect payment, in whole or in part, for a medical service provided to or planned for a patient before the expiration of 24 hours from the time the patient has done either or both of the following, except in the case of a physician or an agent of a physician receiving capitated payments or under a salary arrangement for providing those medical services:

(a) Inquired about obtaining an abortion after her pregnancy is confirmed and she has received from that physician or a qualified person assisting the physician the information required under subsection (3)(c) and (d).

(b) Scheduled an abortion to be performed by that physician.

(10) If the attending physician, utilizing his or her experience, judgment, and professional competence, determines that a medical emergency exists and necessitates performance of an abortion before the requirements of subsections (1), (3), and (6) can be met, the physician is exempt from the requirements of subsections (1), (3), and (6), may perform the abortion, and shall maintain a written record identifying with specificity the medical factors upon which the determination of the medical emergency is based.

(11) The department of community health shall do each of the following:

(a) Produce medically accurate depictions, illustrations, or photographs of the development of a human fetus that indicate by scale the actual size of the fetus at 2-week intervals from the fourth week through the twenty-eighth week of gestation. Each depiction, illustration, or photograph shall be accompanied by a printed description, in nontechnical English, Arabic, and Spanish, of the probable anatomical and physiological characteristics of the fetus at that particular state of gestational development.

(iv) State that not all of the complications listed in subparagraph (ii) may pertain to that particular patient and refer the patient to her physician for more personalized information.

(v) Identify services available through public agencies to assist the patient during her pregnancy and after the birth of her child, should she choose to give birth and maintain custody of her child.

(vi) Identify services available through public agencies to assist the patient in placing her child in an adoptive or foster home, should she choose to give birth but not maintain custody of her child.

2. A written description of the medical procedure that will be used to perform the abortion.

3. A prenatal care and parenting information pamphlet.

D. If any of the documents listed in paragraph C were transmitted by facsimile, I certify that the documents were clear and legible.

E. I acknowledge that the physician who will perform the abortion has orally described all of the following to me:

1. The specific risk to me, if any, of the complications that have been associated with the procedure I am scheduled to undergo.

2. The specific risk to me, if any, of the complications if I choose to continue the pregnancy.

F. I acknowledge that I have received all of the following information:

1. Information about what to do and whom to contact in the event that complications arise from the abortion.

2. Information pertaining to available pregnancy related services.

G. I have been given an opportunity to ask questions about the operation(s) or procedure(s).

H. I certify that I have not been required to make any payments for an abortion or any medical service before the expiration of 24 hours after I received the written materials listed in paragraph C, or 24 hours after the time and date listed on the confirmation form if the information described in paragraph C was viewed from the state of Michigan internet website."

(d) Make available to physicians through the Michigan board of medicine and the Michigan board of osteopathic medicine and surgery, and to any person upon request, the copies of medically accurate depictions, illustrations, or photographs described in subdivision (a), the written standardized summaries described in subdivision (b), the acknowledgment and consent form described in subdivision (c), the prenatal care and parenting information pamphlet described in section 9161, the pregnancy certification form described in subdivision (f), and the materials regarding coercion to abort described in subdivision (i).

(e) The department shall not develop written standardized summaries for abortion procedures under subdivision (b) that utilize medication that has not been approved by the United States food and drug administration for use in performing an abortion.

(f) Develop, draft, and print a certification form to be signed by a local health department representative at the time and place a patient has a pregnancy confirmed, as requested by the patient, verifying the date and time the pregnancy is confirmed.

(g) Develop, operate, and maintain an internet website that allows a patient considering an abortion to review the information required in subsection (3)(c) through (f). After the patient reviews the required information, the department shall assure that a confirmation form can be printed by the patient from the internet website that will verify the time and date the information was reviewed. A confirmation form printed under this subdivision becomes invalid 14 days after the date and time printed on the confirmation form.

(h) Include on the informed consent internet website operated under subdivision (g) a list of health care providers, facilities, and clinics that offer to perform ultrasounds free of charge. The list shall be organized geographically and shall include the name, address, and telephone number of each health care provider, facility, and clinic.

(i) After considering the standards and recommendations of the joint commission on accreditation of healthcare organizations, the Michigan domestic and sexual violence prevention and treatment board, the Michigan coalition to end domestic and sexual violence or successor organization, and the American medical association, do all of the following:

(i) Develop, draft, and print or make available in printable format, in nontechnical English, Arabic, and Spanish, a notice that is required to be posted in facilities and clinics under section 17015a. The notice shall be at least 8-1/2 inches by 14 inches, shall be printed in at least 44-point type, and shall contain at a minimum all of the following:

The presumption created by this subsection may be rebutted by evidence that establishes, by a preponderance of the evidence, that the physician who relied upon the certification had actual knowledge that the certificate contained a false or misleading statement or signature.

(15) This section does not create a right to abortion.

(16) Notwithstanding any other provision of this section, a person shall not perform an abortion that is prohibited by law.

(17) If any portion of this act or the application of this act to any person or circumstances is found invalid by a court, that invalidity does not affect the remaining portions or applications of the act that can be given effect without the invalid portion or application, if those remaining portions are not determined by the court to be inoperable.

(18) Upon a patient's request, each local health department shall:

(a) Provide a pregnancy test for that patient to confirm the pregnancy as required under subsection (3)(a) and determine the probable gestational stage of the fetus. The local health department need not comply with this subdivision if the requirements of subsection (3)(a) have already been met.

(2) For purposes of subsection (1), written, informed consent consists of a signed writing executed by the test subject or the legally authorized representative of the test subject that confirms that the physician or the individual acting under the delegatory authority of the physician has explained, and the test subject or the legally authorized representative of the test subject understands, at a minimum, all of the following:

- (a) The nature and purpose of the presymptomatic or predictive genetic test.
- (b) The effectiveness and limitations of the presymptomatic or predictive genetic test.
- (c) The implications of taking the presymptomatic or predictive genetic test, including, but not limited to, the medical risks and benefits.

A genetic test must be generally accepted in the scientific and medical communities as being specifically determinative for the presence, absence, or mutation of a gene or chromosome in order to qualify under this definition. Genetic test does not include a routine physical examination or a routine analysis, including, but not limited to, a chemical analysis, of body fluids, unless conducted specifically to determine the presence,

absence, or mutation of a gene or chromosome.

(c) "Predictive genetic test" means a genetic test performed for the purpose of predicting the future probability that the test subject will develop a genetically related disease or disability.

333.17060 Duties of task force.

Sec. 17060. The task force shall:

(a) Promulgate rules necessary for the implementation of its powers and duties and may perform the acts and make the determinations necessary for the proper implementations of those powers and duties.

(b) Promulgate rules to establish the requirements for the education, training, or experience of physician's assistants for licensure in this state. The requirements shall take into account nationally recognized standards for education, training, and experience and the desired utilization of physician's assistants. (c) Develop and make public guidelines on the appropriate delegation of functions to and supervision of physician's assistants according to the level of education, training, or experience of physician's assistants. The guidelines are not binding, but shall serve to explain how the task force's training criteria coincides with the board's expectation for delegation to and supervision of physician's assistants by physicians.

(d) Direct the department to issue licenses to applicants who meet the requirements of this part and the rules promulgated under this part for practice and use of the title of physician's assistant.

A physician shall not delegate the performance of needle electromyography to another individual unless that individual is licensed under this article to engage in the practice of medicine or osteopathic medicine and surgery or that individual is otherwise authorized under this section.

(2) In accordance with section 16215, a physician may delegate the performance of nerve conduction tests to a licensed or unlicensed individual who is otherwise qualified by education, training, or experience if those tests are conducted under the direct supervision of a physician.

(3) A physical therapist who is licensed under this article and certified by the American board of physical therapy specialties as an electrophysiologic clinical specialist on the effective date of this section may perform electrodiagnostic studies that are to be interpreted by a physician if he or she has been performing electrodiagnostic studies in this state on a consistent basis within the 5 years immediately preceding the effective date of this section. A physical therapist who is licensed under this article but is not certified by the American board of physical therapy specialties as an electrophysiologic clinical specialist on the effective date of this section and who has been performing electrodiagnostic studies in this state on a consistent basis since before May 1, 2001 may continue to perform electrodiagnostic studies that are to be interpreted by a physician as long as he or she becomes certified by the American board of physical therapy specialties as an electrophysiologic clinical specialist by December 31, 2007. Sec. 17520. (1) Except as otherwise provided for a test performed under section 5431 and except as otherwise provided by law, beginning upon the expiration of 6 months after the effective date of the amendatory act that added this section, a physician or an individual to whom the physician has delegated authority to perform a selected act, task, or function under section 16215 shall not order a presymptomatic or predictive genetic test without first obtaining the written, informed consent of the test subject, pursuant to this section.

(2) For purposes of subsection (1), written, informed consent consists of a signed writing executed by the test subject or the legally authorized representative of the test subject that confirms that the physician or the individual acting under the delegatory authority of the physician has explained, and the test subject or the legally authorized representative of the test subject understands, at a minimum, all of the following:

- (a) The nature and purpose of the presymptomatic or predictive genetic test.
- (b) The effectiveness and limitations of the presymptomatic or predictive genetic test.
- (c) The implications of taking the presymptomatic or predictive genetic test, including, but not limited to, the medical risks and benefits.
- (d) The future uses of the sample taken from the test subject in order to conduct the presymptomatic or predictive genetic test and the information obtained from the presymptomatic or predictive genetic test.
- (e) The meaning of the presymptomatic or predictive genetic test results and the procedure for providing notice of the results to the test subject.
- (f) Who will have access to the sample taken from the test subject in order to conduct the presymptomatic or predictive genetic test and the information obtained from the presymptomatic or predictive genetic test, and the test subject's right to confidential treatment of the sample and the information.
- (3) Within 6 months after the effective date of the amendatory act that added this section, the department of community health, in consultation with the Michigan board of medicine, the Michigan board of osteopathic medicine and surgery, at least 1 physician who is board certified by the American board of medical genetics, and appropriate professional organizations, shall develop and distribute a model informed consent form for purposes of this section that practitioners may adopt. The department of community health shall include in the model form at least all of the information required under subsection (2). The department of community health shall distribute the model form to physicians and other individuals subject to this section upon request and at no charge. The department of community health shall review the model form at least annually for 5 years after the first model form is distributed, and shall revise the model form if necessary to make the form reflect the latest developments in medical genetics.
- (4) The department of community health, in consultation with the entities described in subsection (3), may also develop and distribute a pamphlet that provides further explanation of the information included in the model informed consent form.
- (5) If a test subject or his or her legally authorized representative signs a copy of the model informed consent form developed and distributed under subsection (3), the physician or individual acting under the delegatory authority of the physician shall give the test subject a copy of the signed informed consent form and shall include the original signed informed consent form in the test subject's medical record.
- (6) If a test subject or his or her legally authorized representative signs a copy of the model informed consent form developed and distributed under subsection (3), the test subject is barred from subsequently bringing a civil action for damages against the physician, or an individual to whom the physician delegated the authority to perform a selected act, task, or function under section 16215, who ordered the presymptomatic or predictive genetic test, based on failure to obtain informed consent for the presymptomatic or predictive genetic test.
- (7) A physician's duty to inform a patient under this section does not require disclosure of information beyond what a reasonably well-qualified physician licensed under this article would know.
- (8) Except as otherwise provided in subsection (9), as used in this section:

- (b) "Genetic test" means the analysis of human DNA, RNA, chromosomes, and those proteins and metabolites used to detect heritable or somatic disease-related genotypes or karyotypes for clinical purposes. A genetic test must be generally accepted in the scientific and medical communities as being specifically determinative for the presence, absence, or mutation of a gene or chromosome in order to qualify under this definition. Genetic test does not include a routine physical examination or a routine analysis, including, but not limited to, a chemical analysis, of body fluids, unless conducted specifically to determine the presence, absence, or mutation of a gene or chromosome.
- (c) "Predictive genetic test" means a genetic test performed for the purpose of predicting the future probability that the test subject will develop a genetically related disease or disability.
- (d) "Presymptomatic genetic test" means a genetic test performed before the onset of clinical symptoms or indications of disease.
- (9) For purposes of subsection (8)(b), the term "genetic test" does not include a procedure performed as a component of biomedical research that is conducted pursuant to federal common rule under 21 C.F.R. parts 50 and 56 and 45 C.F.R. part 46.

Sec. 17548. (1) Except as otherwise provided in this subsection and section 17549(5), a physician who is a sole practitioner or who practices in a group of physicians and treats patients on an outpatient basis shall not

supervise more than 4 physician's assistants. If a physician described in this subsection supervises physician's assistants at more than 1 practice site, the physician shall not supervise more than 2 physician's assistants by a method other than the physician's actual physical presence at the practice site.

(2) A physician who is employed by or under contract or subcontract to or has privileges at a health facility licensed under article 17 or a state correctional facility may supervise more than 4 physician's assistants at the health facility or agency or state correctional facility.

(3) To the extent that a particular selected medical care service requires extensive medical training, education, or ability or pose serious risks to the health and safety of patients, the board may prohibit or otherwise restrict the delegation of that medical care service or may require higher levels of supervision.

(4) A physician shall not delegate ultimate responsibility for the quality of medical care services, even if the medical care services are provided by a physician's assistant.

(5) A physician's assistant may make calls or go on rounds under the supervision of a physician in private homes, public institutions, emergency vehicles, ambulatory care clinics, hospitals, intermediate or extended care facilities, health maintenance organizations, nursing homes, or other health care facilities. Notwithstanding any law or rule to the contrary, a physician's assistant may make calls or go on rounds as provided in this subsection without restrictions on the time or frequency of visits by the physician or the physician's assistant.

(6) Subject to subsections (7) and (8), the board may promulgate rules for the delegation by a supervising physician to a physician's assistant of the function of prescription of drugs. Subject to subsections (7) and (8), the rules may define the drugs or classes of drugs the prescription of which shall not be delegated and other procedures and protocols necessary to promote consistency with federal and state drug control and enforcement laws.

(7) A physician's assistant may prescribe drugs as a delegated act of a supervising physician in accordance with procedures and protocol for the prescription established by rule of the appropriate board. A physician's assistant may prescribe a drug, including a controlled substance that is included in schedules 2 to 5 of part 72, as a delegated act of the supervising physician. When delegated prescription occurs, both the physician's assistant's name and the supervising physician's name shall be used, recorded, or otherwise indicated in connection with each individual prescription so that the individual who dispenses or administers the prescription knows under whose delegated authority the physician's assistant is prescribing. When delegated prescription of drugs that are included in schedules 2 to 5 occurs, both the physician's assistant's and the supervising physician's DEA registration numbers shall be used, recorded, or otherwise indicated in connection with each individual prescription.

(8) A supervising physician may delegate in writing to a physician's assistant the ordering, receipt, and dispensing of complimentary starter dose drugs including controlled substances that are included in schedules 2 to 5 of part 72. When the delegated ordering, receipt, or dispensing of complimentary starter dose drugs occurs, both the physician's assistant's name and the supervising physician's name shall be used, recorded, or otherwise indicated in connection with each order, receipt, or dispensing. When the delegated ordering, receipt, or dispensing of complimentary starter dose drugs that are included in schedules 2 to 5 occurs, both the physician's assistant's and the supervising physician's DEA registration numbers shall be used, recorded, or otherwise indicated in connection with each order, receipt, or dispensing. As used in this subsection, "complimentary starter dose" means that term as defined in section 17745. (3) The notice required under subsection (2) shall be in substantially the following form:

NOTICE TO CONSUMERS
ABOUT PRESCRIPTION DRUGS

Under Michigan law, you have the right to find out the price of a prescription drug before the pharmacist fills the prescription. You are under no obligation to have the prescription filled here and may use this price information to shop around at other pharmacies. You may request price information in person or by telephone.

Every pharmacy has the current selling prices of both generic and brand name drugs dispensed by the pharmacy.

Ask your pharmacist if a lower-cost generic drug is available to fill your prescription. A generic drug contains the same medicine as a brand name drug and is a suitable substitute in most instances.

A generic drug may not be dispensed by your pharmacist if your doctor has written "dispense as written" or the initials "d.a.w." on the prescription.

If you have questions about the drugs that have been prescribed for you, ask your doctor or pharmacist for more information.

To avoid dangerous drug interactions, let your doctor and pharmacist know about any other medications you are taking. This is especially important if you have more than 1 doctor or have prescriptions filled at more than 1 pharmacy.

(4) The notice required under subsection (2) shall also contain the address and phone number of the board and the department. The text of the notice shall be in at least 32-point bold type and shall be printed on paper at least 11 inches by 17 inches in size. The notice may be printed on multiple pages.

(5) The department shall provide a copy of the notice required under subsection (2) to each licensee. The department shall provide additional copies if needed. A person may duplicate or reproduce the notice if the duplication or reproduction is a true copy of the notice as produced by the department, without any additions or deletions.

(6) The pharmacist shall furnish to the purchaser of a prescription drug at the time the drug is delivered to the purchaser a receipt evidencing the transactions that contains all of the following:

- (a) The brand name of the drug, if applicable.
- (b) The name of the manufacturer or the supplier of the drug, if the drug does not have a brand name.
- (c) The strength of the drug, if significant.
- (d) The quantity dispensed, if applicable.
- (e) The name and address of the pharmacy.
- (f) The serial number of the prescription.
- (g) The date the prescription was originally dispensed.
- (h) The name of the prescriber or, if prescribed under the prescriber's delegatory authority, the name of the delegatee.

(i) Except as otherwise authorized under section 5110, 17744a, or 17744b, the name of the patient for whom the drug was prescribed.

(j) The price for which the drug was sold to the purchaser.

(7) The items required under subsection (6)(a), (b), and (c) may be omitted from a receipt by a pharmacist only if the omission is expressly required by the prescriber. The pharmacist shall retain a copy of each receipt

furnished under subsection (6) for 90 days. The inclusion of the items required under subsection (6) on the prescription container label is a valid receipt to the purchaser. Including the items required under subsection (6) on the written prescription form and retaining the form constitutes retention of a copy of the receipt.

(8) The board may promulgate rules to implement this section.

The information shall be provided to the person making the request before a prescription drug is dispensed to the person. A person who makes a request for price information under this subsection is not obligated to purchase the prescription drug for which the price or comparative prices are requested.

(2) A dispensing prescriber engaged in the business of selling prescription drugs shall conspicuously display the notice described in subsection (3) in the location within the dispensing prescriber's practice where the dispensing occurs.

(3) The notice required under subsection (2) shall be in substantially the following form:

NOTICE TO CONSUMERS ABOUT PRESCRIPTION DRUGS

Your doctor cannot charge you for medications marked "sample." Ask your doctor or pharmacist if a lower-cost generic drug is available to fill your prescription. A generic drug contains the same medicine as a brand name drug and is a suitable substitute in most cases. If you have questions about the drugs which have been prescribed for you, ask your doctor or pharmacist for more information. (vi) A podiatrist licensed under part 180.

(g) "Program" means the statewide unused prescription drug repository and distribution program known as the program for utilization of unused prescription drugs that is established under this section.

(3) The board shall establish, implement, and administer a statewide unused prescription drug repository and distribution program consistent with public health and safety through which unused or donated prescription drugs, other than controlled substances, may be transferred from an eligible facility or manufacturer to a pharmacy or a charitable clinic that elects to participate in the program. The program is created to dispense unused or donated prescription drugs, other than controlled substances, to eligible participants and to provide for the destruction and disposal of prescription drugs or other medications that are ineligible for dispensing under the program.

(4) Participation in the program by an eligible facility, manufacturer, pharmacy, or charitable clinic is voluntary. Nothing in this section or section 17776 requires any eligible facility, manufacturer, pharmacy, or charitable clinic to participate in the program.

(5) Pharmacies, health professionals, and charitable clinics that participate in the program shall use the following criteria in accepting unused or donated prescription drugs from eligible facilities or manufacturers for use in the program:

(a) Only prescription drugs in their original sealed, tamper-evident, and unopened unit dose packaging may be accepted for dispensing. However, prescription drugs packaged in single-unit dose packaging may be accepted for dispensing even if the outside packaging is open as long as the single-unit dose packaging is unopened.

(b) The following shall not be accepted for dispensing:

(i) Expired prescription drugs.

(ii) Controlled substances as defined in article 7 or article 8 or by federal law.

(c) A prescription drug shall not be accepted for dispensing if the person accepting the drug has reason to believe that the drug is adulterated.

(d) Subject to the limitations prescribed in this subsection, unused or donated prescription drugs dispensed for purposes of a medical assistance program or drug product donation program may be accepted for dispensing under the program.

(e) Any additional criteria established in rules promulgated under this section.

(6) A pharmacy or charitable clinic that meets the eligibility requirements for participation in the program and any rules promulgated under this section may do any of the following:

(a) Dispense prescription drugs accepted under the program to eligible participants.

(c) Dispense prescription drugs only pursuant to a prescription issued by a health professional.

(8) A pharmacy, health professional, or charitable clinic that accepts prescription drugs under the program

shall not resell the prescription drugs. Receipt of a fee from an eligible participant, if established in rules promulgated under this section, or reimbursement from a governmental agency to a charitable clinic does not constitute resale of prescription drugs under this subsection.

(9) For purposes of the lawful donation, acceptance, or dispensing of prescription drugs under the program, the following persons that are in compliance with the program, this section and section 17776, and any rules promulgated under this section and in the absence of bad faith or gross negligence are not subject to criminal or civil liability for injury other than death, or loss to person or property, or professional disciplinary action:

(10) A manufacturer is not, in the absence of bad faith, subject to criminal prosecution or liability in tort or other civil action for injury, death, or loss to person or property for matters related to the donation, acceptance, or dispensing of a prescription drug manufactured by the manufacturer that is donated by any person under the program, including, but not limited to, liability for failure to transfer or communicate product or consumer information or the expiration date of the donated prescription drug.

(11) Subject to subsection (12), the department, in consultation with the board, shall promulgate rules under the administrative procedures act of 1969 and establish procedures necessary to establish, implement, and administer the program. The board shall provide technical assistance to eligible facilities, manufacturers, pharmacies, and charitable clinics that participate in the program.

(12) The department, in consultation with the board, shall promulgate emergency rules under the administrative procedures act of 1969 on or before September 28, 2013 to establish, implement, and administer the program. The department, in consultation with the board, shall promulgate permanent rules under the administrative procedures act of 1969 as soon as practical after emergency rules have been promulgated under this subsection. The department and the board shall include all of the following in rules promulgated under this section:

(a) Eligibility criteria for pharmacies and charitable clinics authorized to accept and dispense prescription drugs for the program.

(b) Eligibility criteria for eligible participants.

(14) Pursuant to rules promulgated and standards and procedures established for the program under this section, a person may deliver to a pharmacy, health professional, or charitable clinic that participates in the program a prescription drug or any other medication that is ineligible for dispensing under the program for destruction and disposal.

(15) This section and section 17776 do not impair or supersede the provisions regarding the cancer drug repository program established in section 17780. 333.17780 Cancer drug repository program.

Sec. 17780. (1) The board shall establish and maintain a cancer drug repository program that would allow a person to donate a cancer drug or supply for use by an individual who meets the eligibility criteria specified under subsection (7). The board shall establish program guidelines, policies, and procedures addressing the cancer drug repository program. Under the cancer drug repository program, donations may be made on the premises of a health facility or pharmacy that elects to participate in the program and meets the requirements specified under subsection (2).

(2) Any health facility or pharmacy that is licensed and in compliance with all federal and state laws, rules, and regulations is eligible to participate in the cancer drug repository program. Participation in the cancer drug repository program is voluntary and a pharmacy or health facility may withdraw from participation in the cancer drug repository program at any time upon notification to the board. A notice to withdraw from participation may be given by telephone or regular mail. A pharmacy or health facility may choose to fully participate in the cancer drug repository program by accepting, storing, and dispensing or administering donated drugs and supplies or the pharmacy or health facility may limit its participation to only accepting and storing donated drugs and supplies. If a pharmacy or health facility chooses to limit its participation, the pharmacy or health facility shall distribute any donated drugs to a fully participating cancer drug repository in accordance with subsection (8). A pharmacy or health facility that elects to participate in the cancer drug repository program shall submit the following information to the board in a form provided by the board that includes, at a minimum, each of the following:

(c) A statement indicating that the pharmacy or health facility is licensed in this state and in compliance with all federal and state laws, rules, and regulations and the chosen level of participation in the cancer drug repository program.

(3) An individual who is at least 18 years of age may donate legally obtained cancer drugs or supplies to a cancer drug repository. If the donated drugs have not been previously dispensed, a pharmacy, health facility, manufacturer, or wholesale distributor may also donate cancer drugs or supplies to a cancer drug repository. Donated drugs or supplies are acceptable for donation if they are determined to be eligible by a pharmacist who is employed by or under contract with a cancer drug repository as follows:

(a) A cancer drug is eligible for donation under the cancer drug repository program only if all of the following requirements are met:

(i) The donation is accompanied by a cancer drug repository donor form that is provided by the board and states that to the best of the donor's knowledge the donated drug has been properly stored and that the drug has never been opened, used, tampered with, adulterated, or misbranded. The board shall make the cancer drug repository donor form available on the board's website. The form shall be signed by the person making the donation or that person's authorized representative.

(ii) The drug's expiration date is at least 6 months later than the date the drug was donated.

(iii) The drug is in its original, unopened, tamper-evident unit dose packaging that includes the drug's lot number and expiration date. Single unit dose drugs may be accepted if the single unit dose packaging is unopened.

(iv) The drug is not adulterated or misbranded.

(b) Cancer supplies are eligible for donation under the cancer drug repository program only if all of the following requirements are met:

(i) The supplies are not adulterated or misbranded.

(ii) The supplies are in their original, unopened, sealed package.

(iii) The donation is accompanied by a cancer drug repository donor form that is provided by the board and states that to the best of the donor's knowledge the donated supply has been properly stored and that the supply has never been opened, used, tampered with, adulterated, or misbranded. The board shall make the cancer drug repository donor form available on the board's website. The form shall be signed by the person making the donation or that person's authorized representative.

(4) Controlled substances are not eligible for donation or acceptance under the cancer drug repository program. Cancer drugs and supplies that do not meet the criteria described under subsection (3) are not eligible for donation or acceptance under the cancer drug repository program. Cancer drugs and supplies may be donated on the premises of a cancer drug repository to a pharmacist designated by the repository. A drop box shall not be used to deliver or accept donations. Cancer drugs and supplies donated under the cancer drug repository program shall be stored in a secure storage area under environmental conditions appropriate for the drugs or supplies being stored. Donated drugs and supplies may not be stored with nondonated inventory.

(5) Cancer drugs and supplies that are donated under the cancer drug repository program shall be dispensed by a pharmacist pursuant to a prescription by a prescriber or may be dispensed or administered by a dispensing prescriber. The cancer drugs and supplies shall be visually inspected by the pharmacist or dispensing prescriber before being dispensed or administered for adulteration, misbranding, and date of expiration. Cancer drugs or supplies that have expired or appear upon visual inspection to be adulterated, misbranded, or tampered with in any way may not be dispensed or administered.

(6) Before a cancer drug or supply may be dispensed or administered to an individual, the individual must provide verification that he or she has a current diagnosis of cancer, provide proof of his or her insurance, if any, and sign a cancer drug repository recipient form provided by the board acknowledging that the individual understands the information stated on the form. The form shall be made available to the public on the board's website. The form shall include, at a minimum, the following information:

(c) That the pharmacist, the dispensing or administering prescriber, the cancer drug repository, the board, and any other participant of the cancer drug repository program cannot guarantee the safety of the drug or supply being dispensed or administered and that the pharmacist or prescriber has determined that the drug or supply is safe to dispense or administer based on the accuracy of the donor's form submitted with the donated drug or supply and the visual inspection required to be performed by the pharmacist or prescriber before dispensing or administering.

(7) Any resident of this state who is diagnosed with cancer is eligible to receive drugs or supplies under the cancer drug repository program. Cancer drugs and supplies donated under the cancer drug repository program shall not be resold and shall only be dispensed or administered to residents of this state who are diagnosed with cancer. A pharmacist who dispenses those drugs and supplies donated under the cancer drug repository program shall not submit a claim or otherwise seek reimbursement from any public or private third party payer for drugs or supplies dispensed to any eligible individual in accordance with the program, nor shall a public or private third party payer be required to provide reimbursement for donated drugs or supplies dispensed by a pharmacist to an eligible individual in accordance with the program. Cancer drugs and supplies dispensed under the cancer drug repository program shall be dispensed in the following order of priority:

(a) Individuals who are uninsured or do not have insurance coverage for those cancer drugs or supplies.

(b) Individuals who are enrolled in medicaid, medicare, or any other public assistance health care program.

(c) All other individuals who are residents of this state and diagnosed with cancer.

(8) A cancer drug repository may charge the individual receiving a drug or supply a handling fee of not more than 250% of the medicaid dispensing fee or \$5.00, whichever is less, for each cancer drug or supply dispensed or administered. Cancer drug repositories may distribute drugs and supplies donated under the cancer drug repository program to other repositories if requested by a participating repository. A cancer drug

repository that has elected not to dispense donated drugs or supplies shall distribute any donated drugs and supplies to a participating repository upon request of the repository. If a cancer drug repository distributes drugs or supplies to another participating repository, the repository shall complete a cancer drug repository donor form provided by the board. The completed form and copy of the donor form that was completed by the original donor under subsection (3) shall be provided to the fully participating cancer drug repository at the time of distribution.

(9) Cancer drug repository donor and recipient forms shall be maintained for at least 5 years. A record of destruction of donated drugs and supplies that are not dispensed under subsection (7) shall be maintained by the dispensing repository for at least 5 years. For each drug or supply destroyed, the record shall include the following information:

- (a) The date of destruction.
- (b) The name, strength, and quantity of the cancer drug destroyed.
- (c) The name of the person or firm that destroyed the drug.
- (d) The source of the drugs or supplies destroyed.

(10) A manufacturer is not subject to criminal liability or liability in tort or other civil action for injury, death, or loss to a person or to property for any of the following causes of action:

(a) The intentional or unintentional adulteration or misbranding of the drug or supply by a party not under the control of the manufacturer.

(b) The failure of a party not under the control of the manufacturer to transfer or communicate product or consumer information or the expiration date of the donated drug or supply.

(c) Claims for payment to government or private payers.

(11) A health facility or pharmacy participating in the cancer drug repository program, a pharmacist dispensing a drug or supply pursuant to the program, a prescriber dispensing or administering a drug or supply pursuant to the program, or a donor of a cancer drug or supply is immune from civil liability for an act or omission that causes injury to or the death of an individual to whom the cancer drug or supply is dispensed and no disciplinary action shall be taken against a pharmacist or prescriber as long as the drug or supply is donated, accepted, distributed, and dispensed according to the requirements of this section. This immunity does not apply if the act or omission involves reckless, wanton, or intentional misconduct, or malpractice unrelated to the quality of the cancer drug or supply.

(b) The department makes a determination that the existing construction or equipment conditions, or both, within the freestanding surgical outpatient facility are adequate to preserve the health and safety of the patients and employees of the freestanding surgical outpatient facility or that the construction or equipment conditions, or both, can be modified to adequately preserve the health and safety of the patients and employees of the freestanding surgical outpatient facility without meeting the specific requirements of the rules.

(5) By January 15 each year, the department of community health shall provide the following information to the department of licensing and regulatory affairs:

(2) Except as otherwise provided in this section, a health care provider shall not knowingly reuse, recycle, refurbish for reuse, or provide for reuse a single-use device.

(3) This section does not apply to a health care provider that does any of the following:

(a) Utilizes, recycles or reprocesses for utilization, or provides for utilization a single-use device that has been reprocessed by an entity that is registered as a reprocessor and is regulated by the United States food and drug administration.

(b) Utilizes an opened, but unused single-use device for which the sterility has been breached or compromised and that meets all of the following requirements:

(i) The single-use device has not been used on a human patient and has not been in contact with blood or bodily fluids.

(ii) The single-use device has been resterilized.

(c) Utilizes a used single-use device on the same human patient in an emergency situation.

(4) A health care provider that violates this section is guilty of a felony punishable by imprisonment for not more than 10 years or a fine of not more than \$50,000.00, or both. A violation of this section by a health professional is considered a violation of article 15 and that health professional is subject to administrative action under sections 16221(h) and 16226.

Popular name: Act 368

333.20155 Visits to health facilities and agencies, clinical laboratories, nursing homes, hospices, and hospitals; purposes; waiver; confidentiality of accreditation information; limitation and effect; consultation engineering survey; summary of substantial noncompliance or deficiencies and hospital response; investigations or inspections; prior notice as misdemeanor; record; periodic reports; access to documents; confidentiality; disclosure; delegation of functions; voluntary inspections; forwarding evidence of violation to licensing agency; reports; clarification of terms; quarterly meeting; clinical process guidelines; definitions.

Sec. 20155. (1) Except as otherwise provided in this section and section 20155a, the department shall make annual and other visits to each health facility or agency licensed under this article for the purposes of survey, evaluation, and consultation. A visit made according to a complaint shall be unannounced. Except for a county medical care facility, a home for the aged, a nursing home, or a hospice residence, the department shall determine whether the visits that are not made according to a complaint are announced or unannounced. Beginning June 20, 2001, the department shall ensure that each newly hired nursing home surveyor, as part of his or her basic training, is assigned full-time to a licensed nursing home for at least 10 days within a 14-day period to observe actual operations outside of the survey process before the trainee begins oversight responsibilities.

(2) The state shall establish a process that ensures both of the following:

(a) A newly hired nursing home surveyor shall not make independent compliance decisions during his or her training period.

(b) A nursing home surveyor shall not be assigned as a member of a survey team for a nursing home in which he or she received training for 1 standard survey following the training received in that nursing home.

(3) Beginning November 1, 2012, the department shall perform a criminal history check on all nursing home surveyors in the manner provided for in section 20173a.

(4) A member of a survey team shall not be employed by a licensed nursing home or a nursing home management company doing business in this state at the time of conducting a survey under this section. The department shall not assign an individual to be a member of a survey team for purposes of a survey, evaluation, or consultation visit at a nursing home in which he or she was an employee within the preceding 3 years.

(5) Representatives from all nursing home provider organizations and the state long-term care ombudsman or his or her designee shall be invited to participate in the planning process for the joint provider and surveyor training sessions. The department shall include at least 1 representative from nursing home provider organizations that do not own or operate a nursing home representing 30 or more nursing homes statewide in internal surveyor group quality assurance training provided for the purpose of general clarification and interpretation of existing or new regulatory requirements and expectations.

(6) The department shall make available online the general civil service position description related to the required qualifications for individual surveyors. The department shall use the required qualifications to hire, educate, develop, and evaluate surveyors.

(7) The department shall ensure that each annual survey team is composed of an interdisciplinary group of professionals, 1 of whom must be a registered nurse. Other members may include social workers, therapists, dietitians, pharmacists, administrators, physicians, sanitarians, and others who may have the expertise necessary to evaluate specific aspects of nursing home operation.

(8) Except as otherwise provided in this section and section 20155a, the department shall make at least a biennial visit to each licensed clinical laboratory, each nursing home, and each hospice residence for the purposes of survey, evaluation, and consultation. The department shall semiannually provide for joint training with nursing home surveyors and providers on at least 1 of the 10 most frequently issued federal citations in this state during the past calendar year. The department shall develop a protocol for the review of citation patterns compared to regional outcomes and standards and complaints regarding the nursing home survey process. The review will be included in the report required under subsection (20). Except as otherwise provided in this subsection, beginning with his or her first full relicensure period after June 20, 2000, each member of a department nursing home survey team who is a health professional licensee under article 15 shall earn not less than 50% of his or her required continuing education credits, if any, in geriatric care. If a member of a nursing home survey team is a pharmacist licensed under article 15, he or she shall earn not less than 30% of his or her required continuing education credits in geriatric care.

(9) The department shall make a biennial visit to each hospital for survey and evaluation for the purpose of licensure. Subject to subsection (12), the department may waive the biennial visit required by this subsection if a hospital, as part of a timely application for license renewal, requests a waiver and submits both of the following and if all of the requirements of subsection (11) are met:

(a) Evidence that it is currently fully accredited by a body with expertise in hospital accreditation whose hospital accreditations are accepted by the United States department of health and human services for purposes of section 1865 of part C of title XVIII of the social security act, 42 USC 1395bb.

(b) A copy of the most recent accreditation report for the hospital issued by a body described in subdivision (a), and the hospital's responses to the accreditation report.

(10) Except as provided in subsection (14), accreditation information provided to the department under subsection (9) is confidential, is not a public record, and is not subject to court subpoena. The department shall use the accreditation information only as provided in this section and shall return the accreditation information to the hospital within a reasonable time after a decision on the waiver request is made.

(11) The department shall grant a waiver under subsection (9) if the accreditation report submitted under subsection (9)(b) is less than 2 years old and there is no indication of substantial noncompliance with licensure standards or of deficiencies that represent a threat to public safety or patient care in the report, in complaints involving the hospital, or in any other information available to the department. If the accreditation report is 2 or more years old, the department may do 1 of the following:

(a) Grant an extension of the hospital's current license until the next accreditation survey is completed by the body described in subsection (9)(a).

(b) Grant a waiver under subsection (9) based on the accreditation report that is 2 or more years old, on condition that the hospital promptly submit the next accreditation report to the department.

(c) Deny the waiver request and conduct the visits required under subsection (9).

(12) This section does not prohibit the department from citing a violation of this part during a survey, conducting investigations or inspections according to section 20156, or conducting surveys of health facilities or agencies for the purpose of complaint investigations or federal certification. This section does not prohibit the bureau of fire services created in section 1b of the fire prevention code, 1941 PA 207, MCL 29.1b, from conducting annual surveys of hospitals, nursing homes, and county medical care facilities.

(13) At the request of a health facility or agency, the department may conduct a consultation engineering survey of a health facility and provide professional advice and consultation regarding health facility construction and design. A health facility or agency may request a voluntary consultation survey under this subsection at any time between licensure surveys. The fees for a consultation engineering survey are the same as the fees established for waivers under section 20161(10).

(14) If the department determines that substantial noncompliance with licensure standards exists or that deficiencies that represent a threat to public safety or patient care exist based on a review of an accreditation report submitted under subsection (9)(b), the department shall prepare a written summary of the substantial noncompliance or deficiencies and the hospital's response to the department's determination. The department's written summary and the hospital's response are public documents.

(15) The department or a local health department shall conduct investigations or inspections, other than inspections of financial records, of a county medical care facility, home for the aged, nursing home, or hospice residence without prior notice to the health facility or agency. An employee of a state agency charged with investigating or inspecting the health facility or agency or an employee of a local health department who directly or indirectly gives prior notice regarding an investigation or an inspection, other than an inspection of the financial records, to the health facility or agency or to an employee of the health facility or agency, is guilty of a misdemeanor. Consultation visits that are not for the purpose of annual or follow-up inspection or survey may be announced.

(16) The department shall maintain a record indicating whether a visit and inspection is announced or unannounced. Survey findings gathered at each health facility or agency during each visit and inspection, whether announced or unannounced, shall be taken into account in licensure decisions.

(17) The department shall require periodic reports and a health facility or agency shall give the department access to books, records, and other documents maintained by a health facility or agency to the extent necessary to carry out the purpose of this article and the rules promulgated under this article. The department shall not divulge or disclose the contents of the patient's clinical records in a manner that identifies an individual except under court order. The department may copy health facility or agency records as required to document findings. Surveyors shall use electronic resident information, whenever available, as a source of survey-related data and shall request facility assistance to access the system to maximize data export.

(18) The department may delegate survey, evaluation, or consultation functions to another state agency or to a local health department qualified to perform those functions. However, the department shall not delegate survey, evaluation, or consultation functions to a local health department that owns or operates a hospice or hospice residence licensed under this article. The delegation shall be by cost reimbursement contract between the department and the state agency or local health department. Survey, evaluation, or consultation functions shall not be delegated to nongovernmental agencies, except as provided in this section. The department may accept voluntary inspections performed by an accrediting body with expertise in clinical laboratory accreditation under part 205 if the accrediting body utilizes forms acceptable to the department, applies the same licensing standards as applied to other clinical laboratories, and provides the same information and data usually filed by the department's own employees when engaged in similar inspections or surveys. The voluntary inspection described in this subsection shall be agreed upon by both the licensee and the department.

(19) If, upon investigation, the department or a state agency determines that an individual licensed to practice a profession in this state has violated the applicable licensure statute or the rules promulgated under that statute, the department, state agency, or local health department shall forward the evidence it has to the appropriate licensing agency.

(20) The department may consolidate all information provided for any report required under this section and section 20155a into a single report. The department shall report to the appropriations subcommittees, the senate and house of representatives standing committees having jurisdiction over issues involving senior citizens, and the fiscal agencies on March 1 of each year on the initial and follow-up surveys conducted on all nursing homes in this state. The report shall include all of the following information:

(a) The number of surveys conducted.

(b) The number requiring follow-up surveys.

(c) The average number of citations per nursing home for the most recent calendar year.

- (d) The number of night and weekend complaints filed.
 - (e) The number of night and weekend responses to complaints conducted by the department.
 - (f) The average length of time for the department to respond to a complaint filed against a nursing home.
 - (g) The number and percentage of citations disputed through informal dispute resolution and independent informal dispute resolution.
 - (h) The number and percentage of citations overturned or modified, or both.
 - (i) The review of citation patterns developed under subsection (8).
 - (j) Implementation of the clinical process guidelines and the impact of the guidelines on resident care.
 - (k) Information regarding the progress made on implementing the administrative and electronic support structure to efficiently coordinate all nursing home licensing and certification functions.
 - (l) The number of annual standard surveys of nursing homes that were conducted during a period of open survey or enforcement cycle.
 - (m) The number of abbreviated complaint surveys that were not conducted on consecutive surveyor workdays.
 - (n) The percent of all form CMS-2567 reports of findings that were released to the nursing home within the 10-working-day requirement.
 - (o) The percent of provider notifications of acceptance or rejection of a plan of correction that were released to the nursing home within the 10-working-day requirement.
 - (p) The percent of first revisits that were completed within 60 days from the date of survey completion.
 - (q) The percent of second revisits that were completed within 85 days from the date of survey completion.
 - (r) The percent of letters of compliance notification to the nursing home that were released within 10 working days of the date of the completion of the revisit.
 - (s) A summary of the discussions from the meetings required in subsection (24).
 - (t) The number of nursing homes that participated in a recognized quality improvement program as described under section 20155a(3).
- (21) The department shall report March 1 of each year to the standing committees on appropriations and the standing committees having jurisdiction over issues involving senior citizens in the senate and the house of representatives on all of the following:
- (a) The percentage of nursing home citations that are appealed through the informal dispute resolution process.
 - (b) The number and percentage of nursing home citations that are appealed and supported, amended, or deleted through the informal dispute resolution process.
 - (c) A summary of the quality assurance review of the amended citations and related survey retraining efforts to improve consistency among surveyors and across the survey administrative unit that occurred in the year being reported.
- (22) Subject to subsection (23), a clarification work group comprised of the department in consultation with a nursing home resident or a member of a nursing home resident's family, nursing home provider groups, the American medical directors association, the state long-term care ombudsman, and the federal centers for medicare and medicaid services shall clarify the following terms as those terms are used in title XVIII and title XIX and applied by the department to provide more consistent regulation of nursing homes in this state:
- (a) Immediate jeopardy.
 - (b) Harm.
 - (c) Potential harm.
 - (d) Avoidable.
 - (e) Unavoidable.
- (23) All of the following clarifications developed under subsection (22) apply for purposes of subsection (22):
- (a) Specifically, the term "immediate jeopardy" means a situation in which immediate corrective action is necessary because the nursing home's noncompliance with 1 or more requirements of participation has caused or is likely to cause serious injury, harm, impairment, or death to a resident receiving care in a nursing home.
 - (b) The likelihood of immediate jeopardy is reasonably higher if there is evidence of a flagrant failure by the nursing home to comply with a clinical process guideline adopted under subsection (25) than if the nursing home has substantially and continuously complied with those guidelines. If federal regulations and guidelines are not clear, and if the clinical process guidelines have been recognized, a process failure giving rise to an immediate jeopardy may involve an egregious widespread or repeated process failure and the absence of reasonable efforts to detect and prevent the process failure.
 - (c) In determining whether or not there is immediate jeopardy, the survey agency should consider at least all of the following:

(i) Whether the nursing home could reasonably have been expected to know about the deficient practice and to stop it, but did not stop the deficient practice.

(ii) Whether the nursing home could reasonably have been expected to identify the deficient practice and to correct it, but did not correct the deficient practice.

(iii) Whether the nursing home could reasonably have been expected to anticipate that serious injury, serious harm, impairment, or death might result from continuing the deficient practice, but did not so anticipate.

(iv) Whether the nursing home could reasonably have been expected to know that a widely accepted high-risk practice is or could be problematic, but did not know.

(v) Whether the nursing home could reasonably have been expected to detect the process problem in a more timely fashion, but did not so detect.

(d) The existence of 1 or more of the factors described in subdivision (c), and especially the existence of 3 or more of those factors simultaneously, may lead to a conclusion that the situation is one in which the nursing home's practice makes adverse events likely to occur if immediate intervention is not undertaken, and therefore constitutes immediate jeopardy. If none of the factors described in subdivision (c) is present, the situation may involve harm or potential harm that is not immediate jeopardy.

(e) Specifically, "actual harm" means a negative outcome to a resident that has compromised the resident's ability to maintain or reach, or both, his or her highest practicable physical, mental, and psychosocial well-being as defined by an accurate and comprehensive resident assessment, plan of care, and provision of services. Harm does not include a deficient practice that only may cause or has caused limited consequences to the resident.

(f) For purposes of subdivision (e), in determining whether a negative outcome is of limited consequence, if the "state operations manual" or "the guidance to surveyors" published by the federal centers for medicare and medicaid services does not provide specific guidance, the department may consider whether most people in similar circumstances would feel that the damage was of such short duration or impact as to be inconsequential or trivial. In such a case, the consequence of a negative outcome may be considered more limited if it occurs in the context of overall procedural consistency with an accepted clinical process guideline adopted under subsection (25), as compared to a substantial inconsistency with or variance from the guideline.

(g) For purposes of subdivision (e), if the publications described in subdivision (f) do not provide specific guidance, the department may consider the degree of a nursing home's adherence to a clinical process guideline adopted under subsection (25) in considering whether the degree of compromise and future risk to the resident constitutes actual harm. The risk of significant compromise to the resident may be considered greater in the context of substantial deviation from the guidelines than in the case of overall adherence.

(h) To improve consistency and to avoid disputes over avoidable and unavoidable negative outcomes, nursing homes and survey agencies must have a common understanding of accepted process guidelines and of the circumstances under which it can reasonably be said that certain actions or inactions will lead to avoidable negative outcomes. If the "state operations manual" or "the guidance to surveyors" published by the federal centers for medicare and medicaid services is not specific, a nursing home's overall documentation of adherence to a clinical process guideline with a process indicator adopted under subsection (25) is relevant information in considering whether a negative outcome was avoidable or unavoidable and may be considered in the application of that term.

(24) The department shall conduct a quarterly meeting and invite appropriate stakeholders. Appropriate stakeholders shall include at least 1 representative from each nursing home provider organization that does not own or operate a nursing home representing 30 or more nursing homes statewide, the state long-term care ombudsman or his or her designee, and any other clinical experts. Individuals who participate in these quarterly meetings, in conjunction with the department, may designate advisory workgroups to develop recommendations on the discussion topics that should include, at a minimum, all of the following:

(a) Opportunities for enhanced promotion of nursing home performance, including, but not limited to, programs that encourage and reward providers that strive for excellence.

(b) Seeking quality improvement to the survey and enforcement process, including clarifications to process-related policies and protocols that include, but are not limited to, all of the following:

(i) Improving the surveyors' quality and preparedness.

(ii) Enhanced communication between regulators, surveyors, providers, and consumers.

(iii) Ensuring fair enforcement and dispute resolution by identifying methods or strategies that may resolve identified problems or concerns.

(c) Promoting transparency across provider and surveyor communities, including, but not limited to, all of the following:

(i) Applying regulations in a consistent manner and evaluating changes that have been implemented to

resolve identified problems and concerns.

(ii) Providing consumers with information regarding changes in policy and interpretation.

(iii) Identifying positive and negative trends and factors contributing to those trends in the areas of resident care, deficient practices, and enforcement.

(d) Clinical process guidelines.

(25) Subject to subsection (27), the department shall develop and adopt clinical process guidelines. The department shall establish and adopt clinical process guidelines and compliance protocols with outcome measures for all of the following areas and for other topics where the department determines that clarification will benefit providers and consumers of long-term care:

(a) Bed rails.

(b) Adverse drug effects.

(c) Falls.

(d) Pressure sores.

(e) Nutrition and hydration including, but not limited to, heat-related stress.

(f) Pain management.

(g) Depression and depression pharmacotherapy.

(h) Heart failure.

(i) Urinary incontinence.

(j) Dementia.

(k) Osteoporosis.

(l) Altered mental states.

(m) Physical and chemical restraints.

(n) Culture-change principles, person-centered caring, and self-directed care.

(26) The department shall biennially review and update all clinical process guidelines as needed and shall continue to develop and implement clinical process guidelines for topics that have not been developed from the list in subsection (25) and other topics identified as a result of the meetings required in subsection (24). The department shall consider recommendations from an advisory workgroup created under subsection (24) on clinical process guidelines. The department shall include training on new and revised clinical process guidelines in the joint provider and surveyor training sessions as those clinical process guidelines are developed and revised.

(27) Beginning November 1, 2012, representatives from each nursing home provider organization that does not own or operate a nursing home representing 30 or more nursing homes statewide and the state long-term care ombudsman or his or her designee shall be permanent members of any clinical advisory workgroup created under subsection (24). The department shall issue survey certification memorandums to providers to announce or clarify changes in the interpretation of regulations.

(28) The department shall maintain the process by which the director of the division of nursing home monitoring or his or her designee or the director of the division of operations or his or her designee reviews and authorizes the issuance of a citation for immediate jeopardy or substandard quality of care before the statement of deficiencies is made final. The review shall be to assure that the applicable concepts, clinical process guidelines, and other tools contained in subsections (25) to (27) are being used consistently, accurately, and effectively. As used in this subsection, "immediate jeopardy" and "substandard quality of care" mean those terms as defined by the federal centers for medicare and medicaid services.

(29) Upon availability of funds, the department shall give grants, awards, or other recognition to nursing homes to encourage the rapid implementation or maintenance of the clinical process guidelines adopted under subsection (25).

(30) The department shall instruct and train the surveyors in the clinical process guidelines adopted under subsection (25) in citing deficiencies.

(31) A nursing home shall post the nursing home's survey report in a conspicuous place within the nursing home for public review.

(32) Nothing in this amendatory act shall be construed to limit the requirements of related state and federal law.

(33) As used in this section:

(a) "Consecutive days" means calendar days, but does not include Saturday, Sunday, or state- or federally-recognized holidays.

(b) "Form CMS-2567" means the federal centers for medicare and medicaid services' form for the statement of deficiencies and plan of correction or a successor form serving the same purpose.

(c) "Title XVIII" means title XVIII of the social security act, 42 USC 1395 to 1395kkk.

(d) "Title XIX" means title XIX of the social security act, 42 USC 1396 to 1396w-5.

Administrative rules: R 325.3801 et seq. of the Michigan Administrative Code.

333.20155a Nursing home health survey tasks; electronic system; determination of open survey cycle; grants; reports of survey findings; nursing home's plan of correction; notifications of acceptance or rejection; revisit; evidence of substantial compliance; informal dispute resolution; citation levels.

Sec. 20155a. (1) Nursing home health survey tasks shall be facilitated by the licensing and regulatory affairs bureau of health systems to ensure consistent and efficient coordination of the nursing home licensing and certification functions for standard and abbreviated surveys. The department shall develop an electronic system to support the coordination of these activities and shall submit a report on the development of an electronic system, including a proposed budget for implementation, to the senate and house appropriations subcommittees for the department, the senate and house of representatives standing committees having jurisdiction over issues involving senior citizens, and the senate and house fiscal agencies by November 1, 2012. If funds are appropriated for the system, the department shall implement the system within 120 days of that appropriation.

(2) When preparing to conduct an annual standard survey, the department shall determine if there is an open survey cycle and make every reasonable effort to confirm that substantial compliance has been achieved by implementation of the nursing home's accepted plan of correction before initiating the annual standard survey while maintaining the federal requirement for standard annual survey interval and state survey average of 12 months.

(3) The department shall seek approval from the centers for medicare and medicaid services to develop a program to provide grants to nursing homes that have achieved a 5-star quality rating from the centers for medicare and medicaid services. The department shall seek approval from the centers for medicare and medicaid services for nursing homes to be eligible to receive a grant, up to \$5,000.00 per nursing home from the civil monetary fund for nursing homes that meet the centers for medicare and medicaid services standards for the 5-star quality rating. Grants to nursing homes shall be used to implement evidence-based quality improvement programs within the nursing home. Each nursing home that receives a grant shall submit a report to the department that describes the final outcome from implementing the program.

(4) All abbreviated complaint surveys shall be conducted on consecutive days until complete. All form CMS-2567 reports of survey findings shall be released to the nursing home within 10 consecutive days after completion of the survey.

(5) Departmental notifications of acceptance or rejection of a nursing home's plan of correction shall be reviewed and released to the nursing home within 10 consecutive days of receipt of that plan of correction.

(6) A nursing-home-submitted plan of correction in response to any survey must have a completion date not to exceed 40 days from the exit date of survey. If a nursing home has not received additional citations before a revisit occurs, the department shall conduct the first revisit not more than 60 days from the exit date of the survey.

(7) Letters of compliance notification to nursing homes shall be released to the nursing home within 10 consecutive days of all survey revisit completion dates.

(8) The department may accept a nursing home's evidence of substantial compliance instead of requiring a post survey on-site first or second revisit as the department considers appropriate in accordance with the centers for medicare and medicaid services survey protocols. A nursing home requesting consideration of evidence of substantial compliance in lieu of an on-site revisit must include an affidavit that asserts the nursing home is in substantial compliance as shown by the submitted evidence for that specific survey event. There may be no deficiencies with a scope and severity originating higher than level D. If there is no enforcement action, the nursing home's evidence of substantial compliance may be reviewed administratively and accepted as evidence of deficiency correction.

(9) Informal dispute resolution conducted by the Michigan peer review organization shall be given strong consideration upon final review by the department. In the annual report to the legislature, the department shall include the number of Michigan peer review organization-referred reviews and, of those reviews, the number of citations that were overturned by the department.

(10) Citation levels used in this section mean citation levels as defined by the centers for medicare and medicaid services' survey protocol grid defining scope and severity assessment of deficiency.

- (d) Homes for the aged.....\$6.27 per licensed bed.
- (e) Clinical laboratories.....\$475.00 per laboratory.
- (f) Hospice residences.....\$200.00 per license survey; and \$20.00 per licensed bed.
- (g) Subject to subsection (13), quality assurance assessment for nursing homes and hospital long-term care units.....an amount resulting in not more than 6% of total industry revenues.
- (h) Subject to subsection (14), quality assurance assessment for hospitals.....at a fixed or variable rate that generates funds not more than the

maximum allowable under the federal matching requirements, after consideration for the amounts in subsection (14)(a) and (i).

(2) If a hospital requests the department to conduct a certification survey for purposes of title XVIII or title XIX of the social security act, the hospital shall pay a license fee surcharge of \$23.00 per bed. As used in this subsection, "title XVIII" and "title XIX" mean those terms as defined in section 20155.

(3) All of the following apply to the assessment under this section for certificates of need:

(a) The base fee for a certificate of need is \$3,000.00 for each application. For a project requiring a projected capital expenditure of more than \$500,000.00 but less than \$4,000,000.00, an additional fee of \$5,000.00 is added to the base fee. For a project requiring a projected capital expenditure of \$4,000,000.00 or more but less than \$10,000,000.00, an additional fee of \$8,000.00 is added to the base fee. For a project requiring a projected capital expenditure of \$10,000,000.00 or more, an additional fee of \$12,000.00 is added to the base fee.

(b) In addition to the fees under subdivision (a), the applicant shall pay \$3,000.00 for any designated complex project including a project scheduled for comparative review or for a consolidated licensed health facility application for acquisition or replacement.

(c) If required by the department, the applicant shall pay \$1,000.00 for a certificate of need application that receives expedited processing at the request of the applicant.

(d) The department shall charge a fee of \$500.00 to review any letter of intent requesting or resulting in a waiver from certificate of need review and any amendment request to an approved certificate of need.

(e) A health facility or agency that offers certificate of need covered clinical services shall pay \$100.00 for each certificate of need approved covered clinical service as part of the certificate of need annual survey at the time of submission of the survey data.

(f) The department of community health shall use the fees collected under this subsection only to fund the certificate of need program. Funds remaining in the certificate of need program at the end of the fiscal year shall not lapse to the general fund but shall remain available to fund the certificate of need program in subsequent years.

(4) If licensure is for more than 1 year, the fees described in subsection (1) are multiplied by the number of years for which the license is issued, and the total amount of the fees shall be collected in the year in which the license is issued.

(5) Fees described in this section are payable to the department at the time an application for a license, permit, or certificate is submitted. If an application for a license, permit, or certificate is denied or if a license, permit, or certificate is revoked before its expiration date, the department shall not refund fees paid to the department.

(6) The fee for a provisional license or temporary permit is the same as for a license. A license may be issued at the expiration date of a temporary permit without an additional fee for the balance of the period for which the fee was paid if the requirements for licensure are met.

(7) The department may charge a fee to recover the cost of purchase or production and distribution of proficiency evaluation samples that are supplied to clinical laboratories under section 20521(3).

(8) In addition to the fees imposed under subsection (1), a clinical laboratory shall submit a fee of \$25.00 to the department for each reissuance during the licensure period of the clinical laboratory's license.

(9) The cost of licensure activities shall be supported by license fees.

(10) The application fee for a waiver under section 21564 is \$200.00 plus \$40.00 per hour for the professional services and travel expenses directly related to processing the application. The travel expenses shall be calculated in accordance with the state standardized travel regulations of the department of technology, management, and budget in effect at the time of the travel.

(11) An applicant for licensure or renewal of licensure under part 209 shall pay the applicable fees set forth in part 209.

(12) Except as otherwise provided in this section, the fees and assessments collected under this section shall be deposited in the state treasury, to the credit of the general fund. The department may use the unreserved fund balance in fees and assessments for the criminal history check program required under this article.

(13) The quality assurance assessment collected under subsection (1)(g) and all federal matching funds attributed to that assessment shall be used only for the following purposes and under the following specific circumstances:

(a) The quality assurance assessment and all federal matching funds attributed to that assessment shall be used to finance medicaid nursing home reimbursement payments. Only licensed nursing homes and hospital long-term care units that are assessed the quality assurance assessment and participate in the medicaid program are eligible for increased per diem medicaid reimbursement rates under this subdivision. A nursing home or long-term care unit that is assessed the quality assurance assessment and that does not pay the assessment required under subsection (1)(g) in accordance with subdivision (c)(i) or in accordance with a written payment agreement with the state shall not receive the increased per diem medicaid reimbursement rates under this subdivision until all of its outstanding quality assurance assessments and any penalties assessed pursuant to subdivision (f) have been paid in full. Nothing in this subdivision shall be construed to authorize or require the department to overspend tax revenue in violation of the management and budget act, 1984 PA 431, MCL 18.1101 to 18.1594.

(b) Except as otherwise provided under subdivision (c), beginning October 1, 2005, the quality assurance assessment is based on the total number of patient days of care each nursing home and hospital long-term care unit provided to nonmedicare patients within the immediately preceding year and shall be assessed at a uniform rate on October 1, 2005 and subsequently on October 1 of each following year, and is payable on a quarterly basis, the first payment due 90 days after the date the assessment is assessed.

(c) Within 30 days after September 30, 2005, the department shall submit an application to the federal centers for medicare and medicaid services to request a waiver pursuant to 42 CFR 433.68(e) to implement this subdivision as follows:

(i) If the waiver is approved, the quality assurance assessment rate for a nursing home or hospital long-term care unit with less than 40 licensed beds or with the maximum number, or more than the maximum number, of licensed beds necessary to secure federal approval of the application is \$2.00 per nonmedicare patient day of care provided within the immediately preceding year or a rate as otherwise altered on the application for the waiver to obtain federal approval. If the waiver is approved, for all other nursing homes and long-term care units the quality assurance assessment rate is to be calculated by dividing the total statewide maximum allowable assessment permitted under subsection (1)(g) less the total amount to be paid by the nursing homes and long-term care units with less than 40 or with the maximum number, or more than the maximum number, of licensed beds necessary to secure federal approval of the application by the total number of nonmedicare patient days of care provided within the immediately preceding year by those nursing homes and long-term care units with more than 39, but less than the maximum number of licensed beds necessary to secure federal approval. The quality assurance assessment, as provided under this subparagraph, shall be assessed in the first quarter after federal approval of the waiver and shall be subsequently assessed on October 1 of each following year, and is payable on a quarterly basis, the first payment due 90 days after the date the assessment is assessed.

(ii) If the waiver is approved, continuing care retirement centers are exempt from the quality assurance assessment if the continuing care retirement center requires each center resident to provide an initial life interest payment of \$150,000.00, on average, per resident to ensure payment for that resident's residency and services and the continuing care retirement center utilizes all of the initial life interest payment before the resident becomes eligible for medical assistance under the state's medicaid plan. As used in this subparagraph, "continuing care retirement center" means a nursing care facility that provides independent living services, assisted living services, and nursing care and medical treatment services, in a campus-like setting that has shared facilities or common areas, or both.

(d) Beginning May 10, 2002, the department of community health shall increase the per diem nursing home medicaid reimbursement rates for the balance of that year. For each subsequent year in which the quality assurance assessment is assessed and collected, the department of community health shall maintain the medicaid nursing home reimbursement payment increase financed by the quality assurance assessment.

(e) The department of community health shall implement this section in a manner that complies with federal requirements necessary to assure that the quality assurance assessment qualifies for federal matching funds.

(f) If a nursing home or a hospital long-term care unit fails to pay the assessment required by subsection (1)(g), the department of community health may assess the nursing home or hospital long-term care unit a penalty of 5% of the assessment for each month that the assessment and penalty are not paid up to a maximum of 50% of the assessment. The department of community health may also refer for collection to the department of treasury past due amounts consistent with section 13 of 1941 PA 122, MCL 205.13.

(g) The medicaid nursing home quality assurance assessment fund is established in the state treasury. The department of community health shall deposit the revenue raised through the quality assurance assessment with the state treasurer for deposit in the medicaid nursing home quality assurance assessment fund.

(h) The department of community health shall not implement this subsection in a manner that conflicts

with 42 USC 1396b(w).

(i) The quality assurance assessment collected under subsection (1)(g) shall be prorated on a quarterly basis for any licensed beds added to or subtracted from a nursing home or hospital long-term care unit since the immediately preceding July 1. Any adjustments in payments are due on the next quarterly installment due date.

(j) In each fiscal year governed by this subsection, medicaid reimbursement rates shall not be reduced below the medicaid reimbursement rates in effect on April 1, 2002 as a direct result of the quality assurance assessment collected under subsection (1)(g).

(k) The state retention amount of the quality assurance assessment collected pursuant to subsection (1)(g) shall be equal to 13.2% of the federal funds generated by the nursing homes and hospital long-term care units quality assurance assessment, including the state retention amount. The state retention amount shall be appropriated each fiscal year to the department of community health to support medicaid expenditures for long-term care services. These funds shall offset an identical amount of general fund/general purpose revenue originally appropriated for that purpose.

(l) Beginning October 1, 2015, the department shall no longer assess or collect the quality assurance assessment or apply for federal matching funds. The quality assurance assessment collected under subsection (1)(g) shall no longer be assessed or collected after September 30, 2011, in the event that the quality assurance assessment is not eligible for federal matching funds. Any portion of the quality assurance assessment collected from a nursing home or hospital long-term care unit that is not eligible for federal matching funds shall be returned to the nursing home or hospital long-term care unit.

(14) The quality assurance dedication is an earmarked assessment collected under subsection (1)(h). That assessment and all federal matching funds attributed to that assessment shall be used only for the following purpose and under the following specific circumstances:

(a) To maintain the increased medicaid reimbursement rate increases as provided for in subdivision (c).

(b) The quality assurance assessment shall be assessed on all net patient revenue, before deduction of expenses, less medicare net revenue, as reported in the most recently available medicare cost report and is payable on a quarterly basis, the first payment due 90 days after the date the assessment is assessed. As used in this subdivision, "medicare net revenue" includes medicare payments and amounts collected for coinsurance and deductibles.

(c) Beginning October 1, 2002, the department of community health shall increase the hospital medicaid reimbursement rates for the balance of that year. For each subsequent year in which the quality assurance assessment is assessed and collected, the department of community health shall maintain the hospital medicaid reimbursement rate increase financed by the quality assurance assessments.

(d) The department of community health shall implement this section in a manner that complies with federal requirements necessary to assure that the quality assurance assessment qualifies for federal matching funds.

(e) If a hospital fails to pay the assessment required by subsection (1)(h), the department of community health may assess the hospital a penalty of 5% of the assessment for each month that the assessment and penalty are not paid up to a maximum of 50% of the assessment. The department of community health may also refer for collection to the department of treasury past due amounts consistent with section 13 of 1941 PA 122, MCL 205.13.

(f) The hospital quality assurance assessment fund is established in the state treasury. The department of community health shall deposit the revenue raised through the quality assurance assessment with the state treasurer for deposit in the hospital quality assurance assessment fund.

(g) In each fiscal year governed by this subsection, the quality assurance assessment shall only be collected and expended if medicaid hospital inpatient DRG and outpatient reimbursement rates and disproportionate share hospital and graduate medical education payments are not below the level of rates and payments in effect on April 1, 2002 as a direct result of the quality assurance assessment collected under subsection (1)(h), except as provided in subdivision (h).

(h) The quality assurance assessment collected under subsection (1)(h) shall no longer be assessed or collected after September 30, 2011 in the event that the quality assurance assessment is not eligible for federal matching funds. Any portion of the quality assurance assessment collected from a hospital that is not eligible for federal matching funds shall be returned to the hospital.

(i) The state retention amount of the quality assurance assessment collected pursuant to subsection (1)(h) shall be equal to 13.2% of the federal funds generated by the hospital quality assurance assessment, including the state retention amount. The state retention percentage shall be applied proportionately to each hospital quality assurance assessment program to determine the retention amount for each program. The state retention amount shall be appropriated each fiscal year to the department of community health to support medicaid

expenditures for hospital services and therapy. These funds shall offset an identical amount of general fund/general purpose revenue originally appropriated for that purpose.

(15) The quality assurance assessment provided for under this section is a tax that is levied on a health facility or agency.

(16) As used in this section, "medicaid" means that term as defined in section 22207.

Enacting section 1 was enacted into law as follows:

"Enacting section 1. This amendatory act takes effect October 1, 2013."

Popular name: Act 368

Administrative rules: R 325.3801 et seq. of the Michigan Administrative Code.

333.20162 License; receipt of completed application; issuance of license within certain period of time; nonrenewable temporary permit; provisional license; procedure for closing facility; order to licensee upon finding of noncompliance; notice, hearing, and status requirements; report; "completed application" defined.

Sec. 20162. (1) Beginning on the effective date of the amendatory act that added section 20935, upon a determination that a health facility or agency is in compliance with this article and the rules promulgated under this article, the department shall issue an initial license within 6 months after the applicant files a completed application. Receipt of the application is considered the date the application is received by any agency or department of this state. If the application is considered incomplete by the department, the department shall notify the applicant in writing or make the notice electronically available within 30 days after receipt of the incomplete application, describing the deficiency and requesting additional information. If the department identifies a deficiency or requires the fulfillment of a corrective action plan, the 6-month period is tolled until either of the following occurs:

(a) Upon notification by the department of a deficiency, until the date the requested information is received by the department.

(b) Upon notification by the department that a corrective action plan is required, until the date the department determines the requirements of the corrective action plan have been met.

(2) The determination of the completeness of an application does not operate as an approval of the application for the license and does not confer eligibility of an applicant determined otherwise ineligible for issuance of a license.

(3) Except as otherwise provided in this subsection, if the department fails to issue or deny a license within the time period required by this section, the department shall return the license fee and shall reduce the license fee for the applicant's next licensure application, if any, by 15%. Failure to issue or deny a license within the time period required under this section does not allow the department to otherwise delay processing an application. The completed application shall be placed in sequence with other completed applications received at that same time. The department shall not discriminate against an applicant in the processing of the application based upon the fact that the application fee was refunded or discounted under this subsection. The department may issue a nonrenewable temporary permit for not more than 6 months if additional time is needed to make a proper investigation or to permit the applicant to undertake remedial action related to operational or procedural deficiencies or items of noncompliance. A temporary permit shall not be issued to cover deficiencies in physical plant requirements.

(4) Except as provided in part 217, the department may issue a provisional license for not more than 3 consecutive years to an applicant who temporarily is unable to comply with the rules as to the physical plant

owned, maintained, or operated by a health facility or agency except as otherwise provided in this article. A provisional license shall not be issued to a new health facility or agency or a facility or agency whose ownership is transferred after September 30, 1978, unless the facility or agency was licensed and operating under this article or a prior law for not less than 5 years. Provisional licensure under acts repealed by this code shall be counted against the 3-year maximum for licensure.

(5) The department, in order to protect the people of this state, shall provide a procedure for the orderly closing of a facility if it is unable to maintain its license under this section.

(6) Except as provided in part 217, the department, upon finding that a health facility or agency is not operating in accord with the requirements of its license, may:

(a) Issue an order directing the licensee to:

(i) Discontinue admissions.

(ii) Transfer selected patients out of the facility.

(iii) Reduce its licensed capacity.

(iv) Comply with specific requirements for licensure or certification as appropriate.

(b) Through the office of the attorney general, initiate misdemeanor proceedings against the licensee as provided in section 20199(1).

(7) An order issued under subsection (6) shall be governed by the notice and hearing requirements of section 20168(1) and the status requirements of section 20168(2).

(8) Beginning October 1, 2005, the director of the department shall submit a report by December 1 of each year to the standing committees and appropriations subcommittees of the senate and house of representatives concerned with public health issues. The director shall include all of the following information in the report concerning the preceding fiscal year:

(a) The number of initial applications the department received and completed within the 6-month time period required under subsection (1).

(b) The number of applications requiring a request for additional information.

(c) The number of applications denied.

(d) The average processing time for initial licenses granted after the 6-month period.

(e) The number of temporary permits issued under subsection (3).

(f) The number of initial license applications not issued within the 6-month period and the amount of money returned to applicants under subsection (3).

(9) As used in this section, "completed application" means an application complete on its face and submitted with any applicable licensing fees as well as any other information, records, approval, security, or similar item required by law or rule from a local unit of government, a federal agency, or a private entity but not from another department or agency of this state.

A license for a facility licensed under part 215 shall be valid for 2 years, except that provisional and limited licenses may be valid for 1 year.

(2) A license, certification, or certificate of need is not transferable and shall state the persons, buildings, and properties to which it applies. licensee to deny, limit, suspend, or revoke the applicant's or licensee's license or certification and an opportunity for a hearing, the department may deny, limit, suspend, or revoke the license or certification or impose an administrative fine on a licensee if 1 or more of the following exist:

(a) Fraud or deceit in obtaining or attempting to obtain a license or certification or in the operation of the licensed health facility or agency.

(h) Failure to comply with part 222 or a term, condition, or stipulation of a certificate of need issued under part 222, or both.

(i) A violation of section 20197(1).

(2) The department may deny an application for a license or certification based on a finding of a condition or practice that would constitute a violation of this article if the applicant were a licensee.

(3) Denial, suspension, or revocation of an individual emergency medical services personnel license under part 209 is governed by section 20958.

(4) If the department determines under subsection (1) that a health facility or agency has violated section 20197(1), the department shall impose an administrative fine of \$5,000,000.00 on the health facility or agency.

Sec. 20165a. (1) Except in the case of gross negligence or willful misconduct as determined by the department, a health facility's cooperation in a treatment recommended by a health professional as authorized under the right to try act, alone, is not grounds for the department to take any action against a licensee under section 20165.

(2) As used in this section:

(a) "Gross negligence" means conduct so reckless as to demonstrate a substantial lack of concern for whether serious injury to a person would result.

(b) "Willful misconduct" means conduct committed with an intentional or reckless disregard for the safety of others, as by failing to exercise reasonable care to prevent a known danger.

(1) Notice of intent to deny, limit, suspend, or revoke a license or certification shall be given by certified mail or personal service, shall set forth the particular reasons for the proposed action, and shall fix a date, not less than 30 days after the date of service, on which the applicant or licensee shall be given the opportunity for a hearing before the director or the director's authorized representative. The hearing shall be conducted in accordance with the administrative procedures act of 1969 and rules promulgated by the department. A full and complete record shall be kept of the proceeding and shall be transcribed when requested by an interested party, who shall pay the cost of preparing the transcript.

(2) On the basis of a hearing or on the default of the applicant or licensee, the department may issue, deny, limit, suspend, or revoke a license or certification. A copy of the determination shall be sent by certified mail or served personally upon the applicant or licensee. The determination becomes final 30 days after it is mailed or served, unless the applicant or licensee within the 30 days appeals the decision to the circuit court in the county of jurisdiction or to the Ingham county circuit court.

(3) The department may establish procedures, hold hearings, administer oaths, issue subpoenas, or order testimony to be taken at a hearing or by deposition in a proceeding pending at any stage of the proceeding. A person may be compelled to appear and testify and to produce books, papers, or documents in a proceeding.

(4) In case of disobedience of a subpoena, a party to a hearing may invoke the aid of the circuit court of the

jurisdiction in which the hearing is held to require the attendance and testimony of witnesses. The circuit court may issue an order requiring an individual to appear and give testimony. Failure to obey the order of the circuit court may be punished by the court as a contempt.

This subsection and subsection (1) do not apply to any of the following:

This exception includes, but is not limited to, an individual who is under an independent contract with the covered facility to provide utility, maintenance, construction, or communications services.

(3) An individual who applies for employment either as an employee or as an independent contractor or for clinical privileges with a staffing agency or covered facility and who has not been the subject of a criminal history check conducted in compliance with this section shall give written consent at the time of application for the department of state police to conduct a criminal history check under this section, along with identification acceptable to the department of state police. If the applicant has been the subject of a criminal history check conducted in compliance with this section, the applicant shall give written consent at the time of application for the covered facility or staffing agency to obtain the criminal history record information as prescribed in subsection (4) from the relevant licensing or regulatory department and for the department of state police to conduct a criminal history check under this section if the requirements of subsection (10) are not met and a request to the federal bureau of investigation to make a determination of the existence of any national criminal history pertaining to the applicant is necessary, along with identification acceptable to the department of state police. Upon receipt of the written consent to obtain the criminal history record information and identification required under this subsection, the staffing agency or covered facility that has made a good faith offer of employment or an independent contract or clinical privileges to the applicant shall request the criminal history record information from the relevant licensing or regulatory department and shall make a request regarding that applicant to the relevant licensing or regulatory department to conduct a check of all relevant registries in the manner required in subsection (4). If the requirements of subsection (10) are not met and a request to the federal bureau of investigation to make a subsequent determination of the existence of any national criminal history pertaining to the applicant is necessary, the covered facility or staffing agency shall proceed in the manner required in subsection (4). A staffing agency that employs an individual who regularly has direct access to or provides direct services to patients or residents under an independent contract with a covered facility shall submit information regarding the criminal history check conducted by the staffing agency to the covered facility that has made a good faith offer of independent contract to that applicant.

(4) Upon receipt of the written consent to conduct a criminal history check and identification required under subsection (3), a staffing agency or covered facility that has made a good faith offer of employment or an independent contract or clinical privileges to the applicant shall make a request to the department of state police to conduct a criminal history check on the applicant, to input the applicant's fingerprints into the automated fingerprint identification system database, and to forward the applicant's fingerprints to the federal bureau of investigation. The department of state police shall request the federal bureau of investigation to make a determination of the existence of any national criminal history pertaining to the applicant. The applicant shall provide the department of state police with a set of fingerprints. The request shall be made in a manner prescribed by the department of state police. The staffing agency or covered facility shall make the written consent and identification available to the department of state police. The staffing agency or covered facility shall make a request regarding that applicant to the relevant licensing or regulatory department to conduct a check of all relevant registries established pursuant to federal and state law and regulations for any substantiated findings of abuse, neglect, or misappropriation of property. If the department of state police or the federal bureau of investigation charges a fee for conducting the criminal history check, the staffing agency or covered facility shall pay the cost of the charge. If the department of state police or the federal bureau of investigation charges a fee for conducting the criminal history check, the department shall pay the cost of or reimburse the charge for a covered facility that is a home for the aged. The staffing agency or covered facility shall not seek reimbursement for a charge imposed by the department of state police or the federal bureau of investigation from the individual who is the subject of the criminal history check. A prospective employee or

a prospective independent contractor covered under this section may not be charged for the cost of a criminal history check required under this section. The department of state police shall conduct a criminal history check on the applicant named in the request. The department of state police shall provide the department with a written report of the criminal history check conducted under this subsection. The report shall contain any criminal history record information on the applicant maintained by the department of state police. The department of state police shall provide the results of the federal bureau of investigation determination to the department within 30 days after the request is made. If the requesting staffing agency or covered facility is not a state department or agency and if criminal history record information is disclosed on the written report of the criminal history check or the federal bureau of investigation determination that resulted in a conviction, the department shall notify the staffing agency or covered facility and the applicant in writing of the type of crime disclosed on the written report of the criminal history check or the federal bureau of investigation determination without disclosing the details of the crime. Any charges imposed by the department of state police or the federal bureau of investigation for conducting a criminal history check or making a determination under this subsection shall be paid in the manner required under this subsection. The notice shall include a statement that the applicant has a right to appeal the information relied upon by the staffing agency or covered facility in making its decision regarding his or her employment eligibility based on the criminal history check. The notice shall also include information regarding where to file and describing the appellate procedures established under section 20173b.

(5) If a covered facility determines it necessary to employ or grant clinical privileges to an applicant before receiving the results of the applicant's criminal history check or criminal history record information under this section, the covered facility may conditionally employ or grant conditional clinical privileges to the individual if all of the following apply:

(a) The covered facility requests the criminal history check or criminal history record information under this section upon conditionally employing or conditionally granting clinical privileges to the individual.

(b) The individual signs a statement in writing that indicates all of the following:

(i) That he or she has not been convicted of 1 or more of the crimes that are described in subsection (1)(a) to (g) within the applicable time period prescribed by each subdivision respectively.

(ii) That he or she is not the subject of an order or disposition described in subsection (1)(h).

(iii) That he or she has not been the subject of a substantiated finding as described in subsection (1)(i).

(iv) That he or she agrees that, if the information in the criminal history check conducted under this section does not confirm the individual's statements under subparagraphs (i) to (iii), his or her employment or clinical privileges will be terminated by the covered facility as required under subsection (1) unless and until the individual appeals and can prove that the information is incorrect.

(v) That he or she understands that the conditions described in subparagraphs (i) to (iv) may result in the termination of his or her employment or clinical privileges and that those conditions are good cause for termination.

(c) Except as otherwise provided in this subdivision, the covered facility does not permit the individual to have regular direct access to or provide direct services to patients or residents in the covered facility without supervision until the criminal history check or criminal history record information is obtained and the individual is eligible for that employment or clinical privileges. If required under this subdivision, the covered facility shall provide on-site supervision of an individual in the covered facility on a conditional basis under this subsection by an individual who has undergone a criminal history check conducted in compliance with this section. A covered facility may permit an individual in the covered facility on a conditional basis under this subsection to have regular direct access to or provide direct services to patients or residents in the covered facility without supervision if all of the following conditions are met:

(i) The covered facility, at its own expense and before the individual has direct access to or provides direct services to patients or residents of the covered facility, conducts a search of public records on that individual through the internet criminal history access tool maintained by the department of state police and the results of that search do not uncover any information that would indicate that the individual is not eligible to have regular direct access to or provide direct services to patients or residents under this section.

(ii) Before the individual has direct access to or provides direct services to patients or residents of the covered facility, the individual signs a statement in writing that he or she has resided in this state without interruption for at least the immediately preceding 12-month period.

(iii) If applicable, the individual provides to the department of state police a set of fingerprints on or before the expiration of 10 business days following the date the individual was conditionally employed or granted conditional clinical privileges under this subsection.

(6) The department shall develop and distribute a model form for the statements required under subsection (5)(b) and (c). The department shall make the model form available to covered facilities upon request at no

charge.

(7) If an individual is employed as a conditional employee or is granted conditional clinical privileges under subsection (5), and the information under subsection (3) or report under subsection (4) does not confirm the individual's statement under subsection (5)(b)(i) to (iii), the covered facility shall terminate the individual's employment or clinical privileges as required by subsection (1).

(8) An individual who knowingly provides false information regarding his or her identity, criminal convictions, or substantiated findings on a statement described in subsection (5)(b)(i) to (iii) is guilty of a misdemeanor punishable by imprisonment for not more than 93 days or a fine of not more than \$500.00, or both.

(9) A staffing agency or covered facility shall use criminal history record information obtained under subsection (3) or (4) only for the purpose of evaluating an applicant's qualifications for employment, an independent contract, or clinical privileges in the position for which he or she has applied and for the purposes of subsections (5) and (7). A staffing agency or covered facility or an employee of the staffing agency or covered facility shall not disclose criminal history record information obtained under subsection (3) or (4) to a person who is not directly involved in evaluating the applicant's qualifications for employment, an independent contract, or clinical privileges. An individual who knowingly uses or disseminates the criminal history record information obtained under subsection (3) or (4) in violation of this subsection is guilty of a misdemeanor punishable by imprisonment for not more than 93 days or a fine of not more than \$1,000.00, or both. Except for a knowing or intentional release of false information, a staffing agency or covered facility has no liability in connection with a criminal history check conducted in compliance with this section or the release of criminal history record information under this subsection.

(10) Upon consent of an applicant as required in subsection (3) and upon request from a staffing agency or covered facility that has made a good faith offer of employment or an independent contract or clinical privileges to the applicant, the relevant licensing or regulatory department shall review the criminal history record information, if any, and notify the requesting staffing agency or covered facility of the information in the manner prescribed in subsection (4). Until the federal bureau of investigation implements an automatic notification system similar to the system required of the state police under subsection (13) and federal regulations allow the federal criminal record to be used for subsequent authorized uses, as determined in an order issued by the department, a staffing agency or covered facility may rely on the criminal history record information provided by the relevant licensing or regulatory department under this subsection and a request to the federal bureau of investigation to make a subsequent determination of the existence of any national criminal history pertaining to the applicant is not necessary if all of the following requirements are met:

(a) The criminal history check was conducted during the immediately preceding 12-month period.

(b) The applicant has been continuously employed by the staffing agency or a covered facility, adult foster care facility, or mental health facility since the criminal history check was conducted in compliance with this section or meets the continuous employment requirement of this subdivision other than being on layoff status for less than 1 year from a covered facility, adult foster care facility, or mental health facility.

(c) The applicant can provide evidence acceptable to the relevant licensing or regulatory department that he or she has been a resident of this state for the immediately preceding 12-month period.

(11) As a condition of continued employment, each employee, independent contractor, or individual granted clinical privileges shall do each of the following:

(a) Agree in writing to report to the staffing agency or covered facility immediately upon being arraigned for 1 or more of the criminal offenses listed in subsection (1)(a) to (g), upon being convicted of 1 or more of the criminal offenses listed in subsection (1)(a) to (g), upon becoming the subject of an order or disposition described under subsection (1)(h), and upon being the subject of a substantiated finding of neglect, abuse, or misappropriation of property as described in subsection (1)(i). Reporting of an arraignment under this subdivision is not cause for termination or denial of employment.

(b) If a set of fingerprints is not already on file with the department of state police, provide the department of state police with a set of fingerprints.

(12) In addition to sanctions set forth in section 20165, a licensee, owner, administrator, or operator of a staffing agency or covered facility who knowingly and willfully fails to conduct the criminal history checks as required under this section is guilty of a misdemeanor punishable by imprisonment for not more than 1 year or a fine of not more than \$5,000.00, or both.

(13) In collaboration with the department of state police, the department of technology, management, and budget shall establish and maintain an automated fingerprint identification system database that would allow the department of state police to store and maintain all fingerprints submitted under this section and would provide for an automatic notification if and when a subsequent criminal arrest fingerprint card submitted into the system matches a set of fingerprints previously submitted under this section. Upon such notification, the

department of state police shall immediately notify the department and the department shall immediately contact each respective staffing agency or covered facility with which that individual is associated. Information in the database established under this subsection is confidential, is not subject to disclosure under the freedom of information act, 1976 PA 442, MCL 15.231 to 15.246, and shall not be disclosed to any person except for purposes of this act or for law enforcement purposes.

(14) The department shall maintain an electronic web-based system to assist staffing agencies and covered facilities required to check relevant registries and conduct criminal history checks of its employees, independent contractors, and individuals granted privileges and to provide for an automated notice to those staffing agencies and covered facilities for those individuals inputted in the system who, since the initial criminal history check, have been convicted of a disqualifying offense or have been the subject of a substantiated finding of abuse, neglect, or misappropriation of property. The department may charge a staffing agency a 1-time set-up fee of up to \$100.00 for access to the electronic web-based system under this section.

Sec. 20175. (1) A health facility or agency shall keep and maintain a record for each patient, including a full and complete record of tests and examinations performed, observations made, treatments provided, and in the case of a hospital, the purpose of hospitalization. Unless a longer retention period is otherwise required under federal or state laws or regulations or by generally accepted standards of medical practice, a health facility or agency shall keep and retain each record for a minimum of 7 years from the date of service to which the record pertains. A health facility or agency shall maintain the records in such a manner as to protect their integrity, to ensure their confidentiality and proper use, and to ensure their accessibility and availability to each patient or his or her authorized representative as required by law. A health facility or agency may destroy a record that is less than 7 years old only if both of the following are satisfied:

(a) The health facility or agency sends a written notice to the patient at the last known address of that patient informing the patient that the record is about to be destroyed, offering the patient the opportunity to request a copy of that record, and requesting the patient's written authorization to destroy the record.

(b) The health facility or agency receives written authorization from the patient or his or her authorized representative agreeing to the destruction of the record. Except as otherwise provided under federal or state laws and regulations, records required to be maintained under this subsection may be destroyed or otherwise disposed of after being maintained for 7 years. If records maintained in accordance with this section are subsequently destroyed or otherwise disposed of, those records shall be shredded, incinerated, electronically deleted, or otherwise disposed of in a manner that ensures continued confidentiality of the patient's health care information and any other personal information relating to the patient. If records are destroyed or otherwise disposed of as provided under this subsection, the department may take action including, but not limited to, contracting for or making other arrangements to ensure that those records and any other confidential identifying information related to the patient are properly destroyed or disposed of to protect the confidentiality of patient's health care information and any other personal information relating to the patient. Before the department takes action in accordance with this subsection, the department, if able to identify the health facility or agency responsible for the improper destruction or disposal of the medical records at issue, shall send a written notice to that health facility or agency at the last known address on file with the department and provide the health facility or agency with an opportunity to properly destroy or dispose of those medical records as required under this subsection unless a delay in the proper destruction or disposal may compromise the patient's confidentiality. The department may assess the health facility or agency with the costs incurred by the department to enforce this subsection. In addition to the sanctions set forth in section 20165, a hospital that fails to comply with this subsection is subject to an administrative fine of \$10,000.00.

(2) A hospital shall take precautions to assure that the records required by subsection (1) are not wrongfully altered or destroyed. A hospital that fails to comply with this subsection is subject to an administrative fine of \$10,000.00.

(3) Unless otherwise provided by law, the licensing and certification records required by this article are public records.

(4) Departmental officers and employees shall respect the confidentiality of patient clinical records and shall not divulge or disclose the contents of records in a manner that identifies an individual except pursuant to court order or as otherwise authorized by law.

(5) A health facility or agency that employs, contracts with, or grants privileges to a health professional licensed or registered under article 15 shall report the following to the department not more than 30 days after it occurs:

(ii) There is an agreement in which the health facility or agency agrees not to conduct an investigation into the licensee's or registrant's alleged professional incompetence or improper professional conduct.

(c) A case in which a health professional resigns or terminates a contract or whose contract is not renewed instead of the health facility taking disciplinary action against the health professional.

(6) Upon request by another health facility or agency seeking a reference for purposes of changing or granting staff privileges, credentials, or employment, a health facility or agency that employs, contracts with, or grants privileges to health professionals licensed or registered under article 15 shall notify the requesting health facility or agency of any disciplinary or other action reportable under subsection (5) that it has taken against a health professional licensed or registered under article 15 and employed by, under contract to, or granted privileges by the health facility or agency.

(7) For the purpose of reporting disciplinary actions under this section, a health facility or agency shall include only the following in the information provided:

333.20191 Emergency patient; test for presence of infectious agent; positive test results; duties of health facility; notice; request for testing; confidentiality; rules; disclosure as misdemeanor; liability; definitions.

(1) If a police officer, fire fighter, individual licensed under section 20950 or 20952, or another individual assists an emergency patient who is subsequently transported to a health facility or transports an emergency patient to a health facility, and if the emergency patient, as part of the treatment rendered by the health facility or pursuant to a request made under subsection (2), is tested for the presence in the emergency patient of an infectious agent and the test results are positive, or is tested pursuant to a request made under subsection (2) for the presence in the emergency patient of the infectious agent of HIV or HBV and the test results are positive or negative, the health facility shall do all of the following:

(a) Subject to subsection (4) and subdivision (b), if the test results are positive for an infectious agent and the individual meets 1 of the following requirements, notify the individual on a form provided by the department that he or she may have been exposed to an infectious agent and, if the test results of a test conducted pursuant to subsection (2) are negative for the infectious agent of HIV or HBV, notify the individual of that fact:

(i) The individual is a police officer, fire fighter, or individual licensed under section 20950 or 20952.

(ii) The individual demonstrates in writing to the health facility that he or she was exposed to the blood, body fluids, or airborne agents of the emergency patient or participated in providing assistance to the emergency patient or transportation of the emergency patient to the health facility. An individual who makes a request under subsection (2) is exempt from the requirements of this subparagraph.

(b) Subject to subsection (4), if the test results indicate that the emergency patient is HIV infected, the health facility shall not reveal that the infectious agent is HIV unless the health facility has received a written request for notification from an individual described in subdivision (a)(i) or (ii). This subdivision does not apply if the test results indicate that the emergency patient is not HIV infected.

(c) Subject to subsection (4), on a form provided by the department, notify the individual described in subdivision (a), at a minimum, of the appropriate infection control precautions to be taken and the approximate date of the potential exposure. If the emergency patient is tested pursuant to a request made under subsection (2) for the presence in the emergency patient of the infectious agent of HIV or HBV, or both, and if the test results are positive or negative, the health facility also shall notify the individual described in subdivision (a) on the form provided by the department that he or she should be tested for HIV infection or HBV infection, or both, and counseled regarding both infectious agents.

(2) A police officer, fire fighter, individual licensed under section 20950 or 20952, or other individual who assists an emergency patient who is subsequently transported to a health facility or who transports an emergency patient to a health facility and who sustains a percutaneous, mucous membrane, or open wound exposure to the blood or body fluids of the emergency patient may request that the emergency patient be tested for HIV infection or HBV infection, or both, pursuant to this subsection. The police officer, fire fighter, individual licensed under section 20950 or 20952, or other individual shall make a request to a health facility under this subsection in writing on a form provided by the department and before the emergency patient is discharged from the health facility. The request form shall be dated and shall contain at a minimum the name and address of the individual making the request and a description of the individual's exposure to the emergency patient's blood or other body fluids. The request form shall contain a space for the information required under subsection (3) and a statement that the requester is subject to the confidentiality requirements of subsection (5) and section 5131. The request form shall not contain information that would identify the emergency patient by name. A health facility that receives a request under this subsection shall accept as fact the requester's description of his or her exposure to the emergency patient's blood or other body fluids, unless the health facility has reasonable cause to believe otherwise. The health facility shall make a determination as to whether or not the exposure described in the request was a percutaneous, mucous membrane, or open wound exposure pursuant to R 325.70001 to R 325.70018 of the Michigan administrative code. If the health facility determines that the exposure described in the request was a percutaneous, mucous membrane, or open wound exposure, the health facility shall test the emergency patient for HIV infection or HBV infection, or both, as indicated in the request. A health facility that performs a test under this subsection may charge the individual requesting the test for the reasonable and customary charges of the test. The individual requesting

the test is responsible for the payment of the charges if the charges are not payable by the individual's employer, pursuant to an agreement between the individual and the employer, or by the individual's health care payment or benefits plan. A health facility is not required to provide HIV counseling pursuant to section 5133(1) to an individual who requests that an emergency patient be tested for HIV under this subsection, unless the health facility tests the requesting individual for HIV.

(3) A health facility shall comply with this subsection if the health facility receives a request under subsection (2) and determines either that there is reasonable cause to disbelieve the requester's description of his or her exposure or that the exposure was not a percutaneous, mucous membrane, or open wound exposure and as a result of the determination the health facility is not required to test the emergency patient for HIV infection or HBV infection, or both. A health facility shall also comply with this subsection if the health facility receives a request under subsection (2) and determines that the exposure was a percutaneous, mucous membrane, or open wound exposure, but is unable to test the emergency patient for HIV infection or HBV infection, or both. The health facility shall state in writing on the request form the reasons for disbelieving the requester's description of his or her exposure, the health facility's exposure determination, or the inability to test the emergency patient, as applicable. The health facility shall transmit a copy of the completed request form to the requesting individual within 2 days after the date the determination is made that the health facility has reasonable cause to disbelieve the requester's description of his or her exposure or that the exposure was not a percutaneous, mucous membrane, or open wound exposure or within 2 days after the date the health facility determines that it is unable to test the emergency patient for HIV infection or HBV infection, or both.

(4) The notification required under subsection (1) shall occur within 2 days after the test results are obtained by the health facility or after receipt of a written request under subsection (1)(b). The notification shall be transmitted to the potentially exposed individual or, upon request of the individual, to the individual's primary care physician or other health professional designated by the individual, as follows:

(a) If the potentially exposed individual provides his or her name and address or the name and address of the individual's primary care physician or other health professional designated by the individual to the health facility or if the health facility has a procedure that allows the health facility in the ordinary course of its business to determine the individual's name and address or the name and address of the individual's primary care physician or other health professional designated by the individual, the health facility shall notify the individual or the individual's primary care physician or other health professional designated by the individual directly at that address.

(b) If the potentially exposed individual is a police officer, fire fighter, or individual licensed under section 20950 or 20952, and if the health facility does not have the name of the potentially exposed individual or the individual's primary care physician or other health professional designated by the individual, the health facility shall notify the appropriate police department, fire department, or life support agency that employs or dispatches the individual. If the health facility is unable to determine the employer of an individual described in this subdivision, the health facility shall notify the medical control authority or chief elected official of the governmental unit that has jurisdiction over the transporting vehicle.

(c) A medical control authority or chief elected official described in subdivision (b) shall notify the potentially exposed individual or the individual's primary care physician or other health professional designated by the individual or, if unable to notify the potentially exposed individual or the individual's primary care physician or other health professional designated by the individual, shall document in writing the notification efforts and reasons for being unable to make the notification.

(5) The notice required under subsection (1) shall not contain information that would identify the emergency patient who tested positive for an infectious agent or who tested positive or negative for the presence in the emergency patient of the infectious agent of HIV or HBV. The information contained in the notice is confidential and is subject to this section, the rules promulgated under section 5111, and section 5131. A person who receives confidential information under this section shall disclose the information to others only to the extent consistent with the authorized purpose for which the information was obtained.

(6) The department shall promulgate rules to administer this section. The department shall develop and distribute the forms required under subsections (1)(a) and (c) and (2).

(7) Except as otherwise provided in this subsection, a person who discloses information regarding an infectious agent in violation of subsection (5) is guilty of a misdemeanor. This subsection does not apply to the disclosure of information regarding a serious communicable disease or infection, if the disclosure is subject to rules promulgated under section 5111 or to section 5131.

(8) A person or governmental entity that makes a good faith effort to comply with subsection (1), (2), (3), or (4) is immune from any civil liability or criminal penalty based on compliance or the failure to comply.

333.20201 Policy describing rights and responsibilities of patients or residents; adoption; posting and distribution; contents; additional requirements; discharging, harassing, retaliating, or discriminating against patient exercising protected right; exercise of rights by patient's representative; informing patient or resident of policy; designation of person to exercise rights and responsibilities; additional patients' rights; definitions.

Sec. 20201. (1) A health facility or agency that provides services directly to patients or residents and is licensed under this article shall adopt a policy describing the rights and responsibilities of patients or residents admitted to the health facility or agency. Except for a licensed health maintenance organization, which shall

comply with chapter 35 of the insurance code of 1956, 1956 PA 218, MCL 500.3501 to 500.3580, the policy shall be posted at a public place in the health facility or agency and shall be provided to each member of the health facility or agency staff. Patients or residents shall be treated in accordance with the policy.

(2) The policy describing the rights and responsibilities of patients or residents required under subsection (1) shall include, as a minimum, all of the following:

(a) A patient or resident shall not be denied appropriate care on the basis of race, religion, color, national origin, sex, age, disability, marital status, sexual preference, or source of payment.

(b) An individual who is or has been a patient or resident is entitled to inspect, or receive for a reasonable fee, a copy of his or her medical record upon request in accordance with the medical records access act, 2004 PA 47, MCL 333.26261 to 333.26271. Except as otherwise permitted or required under the health insurance portability and accountability act of 1996, Public Law 104-191, or regulations promulgated under that act, 45 CFR parts 160 and 164, a third party shall not be given a copy of the patient's or resident's medical record without prior authorization of the patient or resident.

(c) A patient or resident is entitled to confidential treatment of personal and medical records, and may refuse their release to a person outside the health facility or agency except as required because of a transfer to another health care facility, as required by law or third party payment contract, or as permitted or required under the health insurance portability and accountability act of 1996, Public Law 104-191, or regulations promulgated under that act, 45 CFR parts 160 and 164.

(d) A patient or resident is entitled to privacy, to the extent feasible, in treatment and in caring for personal needs with consideration, respect, and full recognition of his or her dignity and individuality.

(e) A patient or resident is entitled to receive adequate and appropriate care, and to receive, from the appropriate individual within the health facility or agency, information about his or her medical condition, proposed course of treatment, and prospects for recovery, in terms that the patient or resident can understand, unless medically contraindicated as documented in the medical record by the attending physician or a physician's assistant to whom the physician has delegated the performance of medical care services.

(f) A patient or resident is entitled to refuse treatment to the extent provided by law and to be informed of the consequences of that refusal. If a refusal of treatment prevents a health facility or agency or its staff from providing appropriate care according to ethical and professional standards, the relationship with the patient or resident may be terminated upon reasonable notice.

(g) A patient or resident is entitled to exercise his or her rights as a patient or resident and as a citizen, and to this end may present grievances or recommend changes in policies and services on behalf of himself or herself or others to the health facility or agency staff, to governmental officials, or to another person of his or her choice within or outside the health facility or agency, free from restraint, interference, coercion, discrimination, or reprisal. A patient or resident is entitled to information about the health facility's or agency's policies and procedures for initiation, review, and resolution of patient or resident complaints.

(h) A patient or resident is entitled to information concerning an experimental procedure proposed as a part of his or her care and has the right to refuse to participate in the experimental procedure without jeopardizing his or her continuing care.

(i) A patient or resident is entitled to receive and examine an explanation of his or her bill regardless of the source of payment and to receive, upon request, information relating to financial assistance available through the health facility or agency.

(j) A patient or resident is entitled to know who is responsible for and who is providing his or her direct care, is entitled to receive information concerning his or her continuing health needs and alternatives for meeting those needs, and to be involved in his or her discharge planning, if appropriate.

(k) A patient or resident is entitled to associate and have private communications and consultations with his or her physician or a physician's assistant to whom the physician has delegated the performance of medical care services, attorney, or any other person of his or her choice and to send and receive personal mail unopened on the same day it is received at the health facility or agency, unless medically contraindicated as documented in the medical record by the attending physician or a physician's assistant to whom the physician has delegated the performance of medical care services. A patient's or resident's civil and religious liberties, including the right to independent personal decisions and the right to knowledge of available choices, shall not be infringed and the health facility or agency shall encourage and assist in the fullest possible exercise of these rights. A patient or resident may meet with, and participate in, the activities of social, religious, and community groups at his or her discretion, unless medically contraindicated as documented in the medical record by the attending physician or a physician's assistant to whom the physician has delegated the performance of medical care services.

(l) A patient or resident is entitled to be free from mental and physical abuse and from physical and chemical restraints, except those restraints authorized in writing by the attending physician or a physician's

assistant to whom the physician has delegated the performance of medical care services for a specified and limited time or as are necessitated by an emergency to protect the patient or resident from injury to self or others, in which case the restraint may only be applied by a qualified professional who shall set forth in writing the circumstances requiring the use of restraints and who shall promptly report the action to the attending physician or physician's assistant. In case of a chemical restraint, a physician shall be consulted within 24 hours after the commencement of the chemical restraint.

(m) A patient or resident is entitled to be free from performing services for the health facility or agency that are not included for therapeutic purposes in the plan of care.

(n) A patient or resident is entitled to information about the health facility or agency rules and regulations affecting patient or resident care and conduct.

(o) A patient or resident is entitled to adequate and appropriate pain and symptom management as a basic and essential element of his or her medical treatment.

(3) The following additional requirements for the policy described in subsection (2) apply to licensees under parts 213 and 217:

(a) The policy shall be provided to each nursing home patient or home for the aged resident upon admission, and the staff of the facility shall be trained and involved in the implementation of the policy.

(b) Each nursing home patient may associate and communicate privately with persons of his or her choice. Reasonable, regular visiting hours, which shall be not less than 8 hours per day, and which shall take into consideration the special circumstances of each visitor, shall be established for patients to receive visitors. A patient may be visited by the patient's attorney or by representatives of the departments named in section 20156, during other than established visiting hours. Reasonable privacy shall be afforded for visitation of a patient who shares a room with another patient. Each patient shall have reasonable access to a telephone. A married nursing home patient or home for the aged resident is entitled to meet privately with his or her spouse in a room that assures privacy. If both spouses are residents in the same facility, they are entitled to share a room unless medically contraindicated and documented in the medical record by the attending physician or a physician's assistant to whom the physician has delegated the performance of medical care services.

(c) A nursing home patient or home for the aged resident is entitled to retain and use personal clothing and possessions as space permits, unless to do so would infringe upon the rights of other patients or residents, or unless medically contraindicated as documented in the medical record by the attending physician or a physician's assistant to whom the physician has delegated the performance of medical care services. Each nursing home patient or home for the aged resident shall be provided with reasonable space. At the request of a patient, a nursing home shall provide for the safekeeping of personal effects, funds, and other property of a patient in accordance with section 21767, except that a nursing home is not required to provide for the safekeeping of a property that would impose an unreasonable burden on the nursing home.

(d) A nursing home patient or home for the aged resident is entitled to the opportunity to participate in the planning of his or her medical treatment. The attending physician or a physician's assistant to whom the physician has delegated the performance of medical care services shall fully inform the nursing home patient of the patient's medical condition unless medically contraindicated as documented in the medical record by a physician or a physician's assistant to whom the physician has delegated the performance of medical care services. Each nursing home patient shall be afforded the opportunity to discharge himself or herself from the nursing home.

(e) A home for the aged resident may be transferred or discharged only for medical reasons, for his or her welfare or that of other residents, or for nonpayment of his or her stay, except as provided by title XVIII or title XIX. A nursing home patient may be transferred or discharged only as provided in sections 21773 to 21777. A nursing home patient or home for the aged resident is entitled to be given reasonable advance notice to ensure orderly transfer or discharge. Those actions shall be documented in the medical record.

(f) A nursing home patient or home for the aged resident is entitled to be fully informed before or at the time of admission and during stay of services available in the facility, and of the related charges including any charges for services not covered under title XVIII, or not covered by the facility's basic per diem rate. The statement of services provided by the facility shall be in writing and shall include those required to be offered on an as-needed basis.

(g) A nursing home patient or home for the aged resident is entitled to manage his or her own financial affairs, or to have at least a quarterly accounting of personal financial transactions undertaken in his or her behalf by the facility during a period of time the patient or resident has delegated those responsibilities to the facility. In addition, a patient or resident is entitled to receive each month from the facility an itemized statement setting forth the services paid for by or on behalf of the patient and the services rendered by the facility. The admission of a patient to a nursing home does not confer on the nursing home or its owner, administrator, employees, or representatives the authority to manage, use, or dispose of a patient's property.

(h) A nursing home patient or a person authorized by the patient in writing may inspect and copy the patient's personal and medical records. The records shall be made available for inspection and copying by the nursing home within a reasonable time, not exceeding 1 week, after the receipt of a written request.

(i) If a nursing home patient desires treatment by a licensed member of the healing arts, the treatment shall be made available unless it is medically contraindicated, and the medical contraindication is justified in the patient's medical record by the attending physician or a physician's assistant to whom the physician has delegated the performance of medical care services.

(j) A nursing home patient has the right to have his or her parents, if a minor, or his or her spouse, next of kin, or patient's representative, if an adult, stay at the facility 24 hours a day if the patient is considered terminally ill by the physician responsible for the patient's care or a physician's assistant to whom the physician has delegated the performance of medical care services.

(k) Each nursing home patient shall be provided with meals that meet the recommended dietary allowances for that patient's age and sex and that may be modified according to special dietary needs or ability to chew.

(l) Each nursing home patient has the right to receive representatives of approved organizations as provided in section 21763.

(4) A nursing home, its owner, administrator, employee, or representative shall not discharge, harass, or retaliate or discriminate against a patient because the patient has exercised a right protected under this section.

(5) In the case of a nursing home patient, the rights enumerated in subsection (2)(c), (g), and (k) and subsection (3)(d), (g), and (h) may be exercised by the patient's representative.

(6) A nursing home patient or home for the aged resident is entitled to be fully informed, as evidenced by the patient's or resident's written acknowledgment, before or at the time of admission and during stay, of the policy required by this section. The policy shall provide that if a patient or resident is adjudicated incompetent and not restored to legal capacity, the rights and responsibilities set forth in this section shall be exercised by a person designated by the patient or resident. The health facility or agency shall provide proper forms for the patient or resident to provide for the designation of this person at the time of admission.

(7) This section does not prohibit a health facility or agency from establishing and recognizing additional patients' rights.

(8) As used in this section:

(a) "Patient's representative" means that term as defined in section 21703.

(b) "Title XVIII" means title XVIII of the social security act, 42 USC 1395 to 1395kkk-1.

The protocols must require that the hearing is held within 3 business days after the medical control authority's determination.

(f) Protocols to ensure that if medical control has been removed from a participant in an emergency medical services system, the participant does not provide prehospital care until medical control is reinstated, and that the medical control authority that removed the medical control notifies the department within 1 business day of the removal.

(g) Protocols to ensure that a quality improvement program is in place within a medical control authority and provides data protection as provided in 1967 PA 270, MCL 331.531 to 331.534.

(h) Protocols to ensure that an appropriate appeals process is in place.

(i) Protocols to ensure that each life support agency that provides basic life support, limited advanced life support, or advanced life support is equipped with epinephrine or epinephrine auto-injectors and that each emergency services personnel authorized to provide those services is properly trained to recognize an anaphylactic reaction, to administer the epinephrine, and to dispose of the epinephrine auto-injector or vial.

(j) Protocols to ensure that each life support vehicle that is dispatched and responding to provide medical first response life support, basic life support, or limited advanced life support is equipped with an automated external defibrillator and that each emergency services personnel is properly trained to utilize the automated external defibrillator.

(2) A medical control authority shall not establish a protocol under this section that conflicts with the Michigan do-not-resuscitate procedure act, 1996 PA 193, MCL 333.1051 to 333.1067.

(3) The department shall establish procedures for the development and adoption of written protocols under this section. The procedures must include at least all of the following requirements:

(a) At least 60 days before adoption of a protocol, the medical control authority shall circulate a written draft of the proposed protocol to all significantly affected persons within the emergency medical services system served by the medical control authority and submit the written draft to the department for approval.

(b) The department shall review a proposed protocol for consistency with other protocols concerning similar subject matter that have already been established in this state and shall consider any written comments received from interested persons in its review.

(c) Within 60 days after receiving a written draft of a proposed protocol from a medical control authority, the department shall provide a written recommendation to the medical control authority with any comments or suggested changes on the proposed protocol. If the department does not respond within 60 days after receiving the written draft, the proposed protocol is considered to be approved by the department.

(d) After department approval of a proposed protocol, the medical control authority may formally adopt and implement the protocol.

(e) A medical control authority may establish an emergency protocol necessary to preserve the health or safety of individuals within its region in response to a present medical emergency or disaster without following the procedures established by the department under this subsection for an ordinary protocol. An emergency protocol established under this subdivision is effective only for a limited period and does not take permanent effect unless it is approved according to the procedures established by the department under this subsection.

(4) A medical control authority shall provide an opportunity for an affected participant in an emergency medical services system to appeal a decision of the medical control authority. Following appeal, the medical control authority may affirm, suspend, or revoke its original decision. After appeals to the medical control authority have been exhausted, the affected participant in an emergency medical services system may appeal the medical control authority's decision to the state emergency medical services coordination committee created in section 20915. The state emergency medical services coordination committee shall issue an opinion on whether the actions or decisions of the medical control authority are in accordance with the department-approved protocols of the medical control authority and state law. If the state emergency medical services coordination committee determines in its opinion that the actions or decisions of the medical control authority are not in accordance with the medical control authority's department-approved protocols or with state law, the state emergency medical services coordination committee shall recommend that the department take any enforcement action authorized under this code.

(5) If adopted in protocols approved by the department, a medical control authority may require life support agencies within its region to meet reasonable additional standards for equipment and personnel, other than medical first responders, that may be more stringent than are otherwise required under this part. If a medical control authority proposes a protocol that establishes additional standards for equipment and personnel, the medical control authority and the department shall consider the medical and economic impact on the local community, the need for communities to do long-term planning, and the availability of personnel. If either the medical control authority or the department determines that negative medical or economic impacts outweigh the benefits of those additional standards as they affect public health, safety, and welfare, the medical control authority shall not adopt and the department shall not approve protocols containing those additional standards.

(6) If adopted in protocols approved by the department, a medical control authority may require medical first response services and licensed medical first responders within its region to meet additional standards for equipment and personnel to ensure that each medical first response service is equipped with an epinephrine auto-injector, and that each licensed medical first responder is properly trained to recognize an anaphylactic reaction and to administer and dispose of the epinephrine auto-injector, if a life support agency that provides basic life support, limited advanced life support, or advanced life support is not readily available in that location.

(7) If a decision of the medical control authority under subsection (5) or (6) is appealed by an affected person, the medical control authority shall make available, in writing, the medical and economic information it considered in making its decision. On appeal, the state emergency medical services coordination committee shall review this information under subsection (4) and shall issue its findings in writing.

Sec. 21551. (1) A hospital licensed under this article and located in a nonurbanized area may apply to the

department to temporarily delicense not more than 50% of its licensed beds for not more than 5 years.

(2) A hospital that is granted a temporary delicensure of beds under subsection (1) may apply to the department for an extension of temporary delicensure for those beds for up to an additional 5 years to the extent that the hospital actually met the requirements of subsection (6) during the initial period of delicensure granted under subsection (1). The department shall grant an extension under this subsection unless the department determines under part 222 that there is a demonstrated need for the delicensed beds in the subarea in which the hospital is located. If the department does not grant an extension under this subsection, the hospital shall request relicensure of the beds pursuant to subsection (7) or allow the beds to become permanently delicensed pursuant to subsection (8).

(3) Except as otherwise provided in this section, for a period of 90 days after January 1, 1991, if a hospital is located in a distressed area and has an annual indigent volume consisting of not less than 25% indigent patients, the hospital may apply to the department to temporarily delicense not more than 50% of its licensed beds for a period of not more than 2 years. Upon receipt of a complete application under this subsection, the department shall temporarily delicense the beds indicated in the application. The department shall not grant an extension of temporary delicensure under this subsection.

(4) An application under subsection (1) or (3) shall be on a form provided by the department. The form shall contain all of the following information:

- (c) The alternative use proposed for the space occupied by the beds to be delicensed.

(5) A hospital that files an application under subsection (1) or (3) may file an amended application with the department on a form provided by the department. The hospital shall state on the form the purpose of the amendment. If the hospital meets the requirements of this section, the department shall so amend the hospital's original application.

(6) An alternative use of space made available by the delicensure of beds under this section shall not result in a violation of this article or the rules promulgated under this article. Along with the application, an applicant for delicensure under subsection (1) or (3) shall submit to the department plans that indicate to the satisfaction of the department that the space occupied by the beds proposed for temporary delicensure will be used for 1 or more of the following:

(a) An alternative use that over the proposed period of temporary delicensure would defray the depreciation and interest costs that otherwise would be allocated to the space along with the operating expenses related to the alternative use.

(b) To correct a licensing deficiency previously identified by the department.

(c) Nonhospital purposes including, but not limited to, community service projects, if the depreciation and interest costs for all capital expenditures that would otherwise be allocated to the space, as well as any operating costs related to the proposed alternative use, would not be considered as hospital costs for purposes of reimbursement.

(7) The department shall relicensure beds that are temporarily delicensed under this section if all of the following requirements are met:

(a) The hospital files with the department a written request for relicensure not less than 90 days before the earlier of the following:

- (i) The expiration of the period for which delicensure was granted.
- (ii) The date upon which the hospital is requesting relicensure.
- (iii) The last hospital license renewal date in the delicensure period.

(b) The space to be occupied by the relicensed beds is in compliance with this article and the rules promulgated under this article, including all licensure standards in effect at the time of relicensure, or the hospital has a plan of corrections that has been approved by the department.

(8) If a hospital does not meet all of the requirements of subsection (7) or if a hospital decides to allow beds to become permanently delicensed as described in subsection (2), then all of the temporarily delicensed beds shall be automatically and permanently delicensed effective on the last day of the period for which the department granted temporary delicensure.

(9) The department shall continue to count beds temporarily delicensed under this section in the department's bed inventory for purposes of determining hospital bed need under part 222 in the subarea in which the beds are located. The department shall indicate in the bed inventory which beds are licensed and which beds are temporary delicensed under this section. The department shall not include a hospital's temporarily delicensed beds in the hospital's licensed bed count.

(10) A hospital that is granted temporary delicensure of beds under this section shall not transfer the beds to another site or hospital without first obtaining a certificate of need.

(11) A hospital that has beds that are subject to a hospital bed reduction plan or to a department action to enforce this article shall not use beds temporarily delicensed under this section to comply with the bed reduction plan.

Sec. 21734. (1) Notwithstanding section 20201(2)(l), a nursing home shall give each resident who uses a hospital-type bed or the resident's legal guardian, patient advocate, or other legal representative the option of having bed rails. A nursing home shall offer the option to new residents upon admission and to other residents upon request. Upon receipt of a request for bed rails, the nursing home shall inform the resident or the resident's legal guardian, patient advocate, or other legal representative of alternatives to and the risks involved in using bed rails. A resident or the resident's legal guardian, patient advocate, or other legal representative has the right to request and consent to bed rails for the resident. A nursing home shall provide bed rails to a resident only upon receipt of a signed consent form authorizing bed rail use and a written order from the resident's attending physician that contains statements and determinations regarding medical symptoms and that specifies the circumstances under which bed rails are to be used. For purposes of this subsection, "medical symptoms" includes the following:

(a) A concern for the physical safety of the resident.

(b) Physical or psychological need expressed by a resident. A resident's fear of falling may be the basis of a medical symptom.

(2) A nursing home that provides bed rails under subsection (1) shall do all of the following:

(a) Document that the requirements of subsection (1) have been met.

(b) Monitor the resident's use of the bed rails.

(c) In consultation with the resident, resident's family, resident's attending physician, and individual who consented to the bed rails, periodically reevaluate the resident's need for the bed rails.

(3) The department of consumer and industry services shall develop clear and uniform guidelines to be used in determining what constitutes each of the following:

(a) Acceptable bed rails for use in a nursing home in this state. The department shall consider the recommendations of the hospital bed safety work group established by the United States food and drug administration, if those are available, in determining what constitutes an acceptable bed rail.

(b) Proper maintenance of bed rails.

(c) Properly fitted mattresses.

(d) Other hazards created by improperly positioned bed rails, mattresses, or beds.

(4) The department of consumer and industry services shall develop the guidelines under subsection (3) in consultation with the long-term care work group. An individual representing manufacturers of bed rails, 2 residents or family members, and an individual with expertise in bed rail installation and use shall be added to the long-term care work group for purposes of this subsection. The department shall consider as part of its report to the legislature the recommendations of the hospital bed safety work group established by the United States food and drug administration, if those recommendations are available at the time of the submission of the report. Not later than 6 months after the effective date of the amendatory act that added this section, the department of consumer and industry services shall submit its report to the legislature. The department may delay submission of its report by up to 3 months so that its report may reflect the recommendations of the hospital bed safety work group established by the United States food and drug administration.

(5) A nursing home that complies with subsections (1) and (2) and the guidelines developed under this section in providing bed rails to a resident is not subject to administrative penalties imposed by the department based solely on providing the bed rails. Nothing in this subsection precludes the department from citing specific state or federal deficiencies for improperly maintained bed rails, improperly fitted mattresses, or other hazards created by improperly positioned bed rails, mattresses, or beds.

(6) The department of consumer and industry services shall consult with representatives of the nursing home industry to expeditiously develop interim guidelines on bed rail usage that are to be used until the department develops the guidelines required under subsection (4).

(2) A licensed nursing home shall provide written notice at least 30 days before a patient is involuntarily transferred or discharged. The 30-day requirement of this subsection does not apply in any of the following instances:

- (a) If an emergency transfer or discharge is mandated by the patient's health care needs and is in accord with the written orders and medical justification of the attending physician.

the department of community health or a court of competent jurisdiction and notice of that final decision is received by the patient and the nursing home.

333.21794 Use of dining assistant to provide feeding assistance to nursing home patient.

Sec. 21794. (1) With the consent of the patient or the patient's representative a nursing home may use a dining assistant to provide feeding assistance to a patient who, based on the charge nurse's assessment of the patient and the patient's most recent plan of care, needs assistance or encouragement with eating and drinking, but does not have complicated feeding problems, including, but not limited to, difficulty swallowing, recurrent lung aspirations, tube or parenteral feedings, or behavioral issues that may compromise nutritional intake. The charge nurse's assessment and plan of care must be documented in the patient's medical record. For a patient who is assigned a dining assistant and experiences an emergent change in condition, the charge nurse shall perform a special assessment to monitor the appropriateness of continued utilization of the dining assistant.

(2) A nursing home that chooses to utilize dining assistants shall provide individuals with training through a department-approved training curriculum. The department and the long-term care stakeholder advisory workgroup designated under section 20155(24) shall develop a dining assistants training curriculum. The department shall approve a dining assistants training curriculum that meets the requirements of this subsection. In order to be approved by the department, the dining assistants training curriculum must include, at a minimum, 8 hours of course material that covers all of the following:

- (a) Dining assistants program overview.
- (b) Patient rights.
- (c) Communication and interpersonal skills.
- (d) Appropriate responses to patient behavior.
- (e) Recognizing changes in patients.

(3) An individual shall not provide feeding assistance as a dining assistant in a nursing home unless he or she has successfully completed a dining assistants training curriculum described in subsection (2). A nursing home shall not employ or allow an individual who is less than 17 years of age to provide feeding assistance as a dining assistant.

(4) A dining assistant shall work under the supervision of a nurse. A dining assistant's sole purpose is to provide feeding assistance to patients, and he or she shall not perform any other nursing or nursing-related services, such as toileting or transporting patients. A dining assistant is not nursing personnel and a nursing home shall not include a dining assistant in computing the ratio of patients to nursing personnel or use a dining assistant to supplement or replace nursing personnel. If approved by the charge nurse and subject to subsection (1), a dining assistant may provide feeding assistance in a patient's room if the patient is unable to go to or chooses not to dine in a designated dining area. A nurse is not required to be physically present within the patient's room during the feeding, but a nurse must be immediately available. A dining assistant who is providing feeding assistance to a patient in his or her room as provided under this subsection must not be assigned to assist another patient at the same time.

(5) Dining assistants are subject to the criminal history checks required under section 20173a.

(6) A nursing home that utilizes dining assistants shall maintain a written record of each individual used as a dining assistant. The nursing home shall include in the written record, at a minimum, the complete name and address of the individual, the date the individual successfully completed the dining assistants training curriculum, a copy of the written record of the satisfactory completion of the training curriculum, and documentation of the criminal history check.

(7) This section does not prohibit a family member or friend from providing feeding assistance to a patient within the nursing home or require a friend or family member to complete the training program prescribed under subsection (2). However, a nursing home may offer to provide the dining assistants training curriculum to family members and friends.

(8) As used in this section:

(a) "Dining assistant" means an individual who meets the requirements of this section and who is only paid to provide feeding assistance to nursing home patients by the nursing home or who is used under an arrangement with another agency or organization.

(b) "Immediately available" means being capable of responding to provide help if needed to the dining assistant at any time either in person or by voice or call light system, radio, telephone, pager, or other method of communication during a feeding.

(c) "Nurse" means an individual licensed as a registered professional nurse or a licensed practical nurse under article 15 to engage in the practice of nursing.

(d) "Under the supervision of a nurse" means that a nurse who is overseeing the work of a dining assistant is physically present in the nursing home and immediately available.

Sec. 21799a. (1) A person who believes that this part, a rule promulgated under this part, or a federal certification regulation applying to a nursing home may have been violated may request an investigation of a nursing home. The person may submit the request for investigation to the department as a written complaint, or the department shall assist a person in reducing an oral request made under subsection (2) to a written complaint as provided in subsection (2). A person filing a complaint under this subsection may file the complaint on a model standardized complaint form developed and distributed by the department under section 20194(3) or file the complaint as provided by the department on the internet.

(2) The department shall provide a toll-free telephone consumer complaint line. The complaint line shall be accessible 24 hours per day and monitored at a level to ensure that each priority complaint is identified and that a response is initiated to each priority complaint within 24 hours after its receipt. The department shall establish a system for the complaint line that includes at least all of the following:

(a) An intake form that serves as a written complaint for purposes of subsections (1) and (5).

(b) The forwarding of an intake form to an investigator not later than the next business day after the complaint is identified as a priority complaint.

(c) Except for an anonymous complaint, the forwarding of a copy of the completed intake form to the complainant not later than 5 business days after it is completed.

(3) The substance of a complaint filed under subsection (1) or (2) shall be provided to the licensee no earlier than at the commencement of the on-site inspection of the nursing home that takes place in response to the complaint.

(4) A complaint filed under subsection (1) or (2), a copy of the complaint, or a record published, released, or otherwise disclosed to the nursing home shall not disclose the name of the complainant or a patient named in the complaint unless the complainant or patient consents in writing to the disclosure or the investigation results in an administrative hearing or a judicial proceeding, or unless disclosure is considered essential to the

investigation by the department. If the department considers disclosure essential to the investigation, the department shall give the complainant the opportunity to withdraw the complaint before disclosure.

(5) Upon receipt of a complaint under subsection (1) or (2), the department shall determine, based on the allegations presented, whether this part, a rule promulgated under this part, or a federal certification regulation for nursing homes has been, is, or is in danger of being violated. Subject to subsection (2), the department shall investigate the complaint according to the urgency determined by the department. The initiation of a complaint investigation shall commence within 15 days after receipt of the written complaint by the department.

(6) If, at any time, the department determines that this part, a rule promulgated under this part, or a federal certification regulation for nursing homes has been violated, the department shall list the violation and the provisions violated on the state and federal licensure and certification forms for nursing homes. The department shall consider the violations, as evidenced by a written explanation, when it makes a licensure and certification decision or recommendation.

(7) In all cases, the department shall inform the complainant of its findings unless otherwise indicated by the complainant. Subject to subsection (2), within 30 days after receipt of the complaint, the department shall provide the complainant a copy, if any, of the written determination, the correction notice, the warning notice, and the state licensure or federal certification form, or both, on which the violation is listed, or a status report indicating when these documents may be expected. The department shall include in the final report a copy of the original complaint. The complainant may request additional copies of the documents described in this subsection and upon receipt shall reimburse the department for the copies in accordance with established policies and procedures.

(8) The department shall make a written determination, correction notice, or warning notice concerning a complaint available for public inspection, but the department shall not disclose the name of the complainant or patient without the complainant's or patient's consent.

(9) The department shall report a violation discovered as a result of the complaint investigation procedure to persons administering sections 21799c to 21799e. The department shall assess a penalty for a violation, as prescribed by this article.

(10) A complainant who is dissatisfied with the determination or investigation by the department may request a hearing. A complainant shall submit a request for a hearing in writing to the director within 30 days after the mailing of the department's findings as described in subsection (7). (a) The physical relocation of licensed beds from a hospital site licensed under part 215 to another hospital site licensed under the same license as the hospital seeking to transfer the beds if both hospitals are located within a 2-mile radius of each other.

(10) An applicant seeking a certificate of need for the acquisition of an existing health facility may file a single, consolidated application for the certificate of need if the project results in the acquisition of an existing health facility but does not result in an increase or relocation of licensed beds or the initiation, expansion, or replacement of a covered clinical service. Except as otherwise provided in this subsection, a person acquiring an existing health facility is subject to the applicable certificate of need review standards in effect on the date of the transfer for the covered clinical services provided by the acquired health facility. 333.22215 Duties of commission; purpose; public hearing before final action; submission of proposed final action to joint committee; approval or disapproval; review standards; revision of fees.

Sec. 22215. (1) The commission shall do all of the following:

(a) If determined necessary by the commission, revise, add to, or delete 1 or more of the covered clinical services listed in section 22203. (b) Develop, approve, disapprove, or revise certificate of need review standards that establish for purposes of section 22225 the need, if any, for the initiation, replacement, or expansion of covered clinical services, the

acquisition or beginning the operation of a health facility, making changes in bed capacity, or making covered capital expenditures, including conditions, standards, assurances, or information that must be met, demonstrated, or provided by a person who applies for a certificate of need. A certificate of need review standard may also establish ongoing quality assurance requirements including any or all of the requirements specified in section 22225(2)(c). Except for nursing home and hospital long-term care unit bed review standards, by January 1, 2004, the commission shall revise all certificate of need review standards to include a requirement that each applicant participate in title XIX of the social security act, chapter 531, 49 Stat. 620, 1396r-6 and 1396r-8 to 1396v.

(k) Consider the impact of a proposed restriction on the acquisition of or availability of covered clinical services on the quality, availability, and cost of health services in this state.

(l) If the commission determines it necessary, appoint standard advisory committees to assist in the development of proposed certificate of need review standards. A standard advisory committee shall complete its duties under this subdivision and submit its recommendations to the commission within 6 months unless a shorter period of time is specified by the commission when the standard advisory committee is appointed. An individual shall serve on no more than 2 standard advisory committees in any 2-year period. The composition of a standard advisory committee shall not include a lobbyist registered under 1978 PA 472, MCL 4.411 to 4.431, but shall include all of the following:

(b) Appropriate differential consideration of the health care needs of residents in rural counties in ways that do not compromise the quality and affordability of health care services for those residents.

(3) Not less than 30 days before final action is taken by the commission under subsection (1)(a), (b), (d), (h), or (o), the commission shall conduct a public hearing on its proposed action. In addition, not less than 30 days before final action is taken by the commission under subsection (1)(a), (b), (d), (h), or (o), the

commission chairperson shall submit the proposed action and a concise summary of the expected impact of the proposed action for comment to each member of the joint committee. The joint committee shall promptly review the proposed action and submit its recommendations and concerns to the commission.

(4) The commission chairperson shall submit the proposed final action including a concise summary of the expected impact of the proposed final action to the governor and each member of the joint committee. The governor or the legislature may disapprove the proposed final action within 45 days after the date of submission. The 45 days shall include not less than 9 legislative session days. Legislative disapproval shall be expressed by concurrent resolution which shall be adopted by each house of the legislature. The concurrent resolution shall state specific objections to the proposed final action. If the proposed final action is not disapproved under this subsection, it is effective and binding on all persons affected by this part upon the expiration of the 45-day period or on a later date specified in the proposed final action. As used in this subsection, "legislative session day" means each day in which a quorum of either the house of representatives or the senate, following a call to order, officially convenes in Lansing to conduct legislative business.

(5) The commission shall not develop, approve, or revise a certificate of need review standard that requires the payment of money or goods or the provision of services unrelated to the proposed project as a condition that must be satisfied by a person seeking a certificate of need for the initiation, replacement, or expansion of covered clinical services, the acquisition or beginning the operation of a health facility, making changes in bed capacity, or making covered capital expenditures. This subsection does not preclude a requirement that each applicant participate in title XIX of the social security act, chapter 531, 49 Stat. 620, 1396r-6 and 1396r-8 to 1396v, or a requirement that each applicant provide covered clinical services to all patients regardless of his or her ability to pay.

(6) If the reports received under section 22221(f) indicate that the certificate of need application fees collected under section 20161 have not been within 10% of 3/4 the cost to the department of implementing this part, the commission shall make recommendations regarding the revision of those fees so that the certificate of need application fees collected equal approximately 3/4 of the cost to the department of implementing this part.

(7) As used in this section, "joint committee" means the joint committee created under section 22219.

Sec. 22225. (1) In order to be approved under this part, an applicant for a certificate of need shall demonstrate to the satisfaction of the department that the proposed project will meet an unmet need in the area proposed to be served. An applicant shall demonstrate the need for a proposed project by credible documentation of compliance with the applicable certificate of need review standards. If no certificate of need review standards are applicable to the proposed project or to a portion of a proposed project that is otherwise governed by this part, the applicant shall demonstrate to the satisfaction of the department that an unmet need for the proposed project or portion of the proposed project exists by credible documentation that the proposed project will be geographically accessible and efficiently and appropriately utilized, in light of the type of project and the existing health care system. Whether or not there are applicable certificate of need review standards, in determining compliance with this subsection, the department shall consider approved projects that are not yet operational, proposed projects under appeal from a final decision of the department, or proposed projects that are pending final department decision.

(2) If, and only if, the requirements of subsection (1) are met, in order for an application to be approved under this part, an applicant shall also demonstrate to the reasonable satisfaction of the department all of the following:

(a) With respect to the method proposed to meet the unmet need identified under subsection (1), that the applicant has considered alternatives to the proposed project and that, in light of the alternatives available for consideration, the chosen alternative is the most efficient and effective method of meeting that unmet need.

(b) With respect to the financial aspects of the proposed project, that each of the following is met:

(i) The capital costs of the proposed project will result in the least costly total annual operating costs.

(ii) Funds are available to meet the capital and operating needs of the proposed project.

(iii) The proposed project utilizes the least costly method of financing, in light of available alternatives.

(iv) In the case of a construction project, the applicant stipulates that the applicant will competitively bid capital expenditures among qualified contractors or alternatively, the applicant is proposing an alternative to competitive bidding that will achieve substantially the same results as competitive bidding.

(c) The proposed project will be delivered in compliance with applicable operating standards and quality assurance standards approved under section 22215(1)(b), including 1 or more of the following:

(i) Mechanisms for assuring appropriate utilization of the project.

(ii) Methods for evaluating the effectiveness of the project.

(iii) Means of assuring delivery of the project by qualified personnel and in compliance with applicable safety and operating standards.

(iv) Evidence of the current and historical compliance with federal and state licensing and certification requirements in this state by the applicant or the applicant's owner, or both, to the degree determined appropriate by the commission in light of the subject of the review standard.

In the case of a health facility sponsored by a religious organization, or if the nature of the nonprofit health facility is such that the legal rights of its owners or sponsors might be impaired by a requirement as to the composition of its governing body, an advisory board with majority consumer membership broadly representative of the population served may be construed by the department to be equivalent to the governing board described in this subdivision, if the advisory board meets all of the following requirements:

- (i) The role assigned to the advisory board is meaningful, as determined by the department.
- (ii) The functions of the advisory board are clearly prescribed.
- (iii) The advisory board is given an opportunity to influence policy formulation by the legally recognized governing body, as determined by the department.

(c) Demonstrate a willingness and ability to conduct reviews of all proposed projects requiring a certificate of need that would be located within the review area served by the regional certificate of need review agency.

(d) Avoid conflict of interest in its review of all applications for a certificate of need.

(e) Provide data to the department to enable the department to evaluate the regional certificate of need review agency's performance. The data provided under this subdivision shall be reviewed at periodic meetings between the department and the regional certificate of need review agency.

(f) Not receive more than a designated proportion of its financial support from health facilities and health professionals, as determined by the commission.

(g) Meet other requirements established by the commission that are relevant to the functions of a regional certificate of need review agency, under this part.

(4) The designation of a regional certificate of need review agency shall be operative for a period of time

approved by the commission, but not for more than 24 months. The designation of a regional certificate of need review agency may be terminated by the department with the concurrence of the commission at any time for noncompliance with the standards approved under subsection (1). In addition, the designation may be terminated by the regional certificate of need review agency upon the expiration of 60 days after the department receives written notice of the termination.

(5) A local certificate of need review agency that was designated pursuant to a designation agreement authorized under former section 22124 and effective on October 1, 1988 is designated as the regional certificate of need review agency for its review area until the expiration of 1 year after the date of final approval of the standards developed under subsection (1), unless the designation is terminated by either the department under subsection (4) or the regional certificate of need review agency before that time.

(6) A person applying for a certificate of need under this part shall simultaneously provide a copy of any letter of intent, application, or additional information required by the department to the regional certificate of need review agency designated by the department for the review area in which the proposed project would be located, unless the regional certificate of need review agency determines that it will not review the application or other information, and notifies both the applicant and the department in writing of its determination. The regional certificate of need review agency may review the application and submit its recommendations to the department. If the regional certificate of need review agency determines that it will not review the application, then the regional certificate of need review agency shall notify both the applicant and the department in writing of its determination. In developing its recommendations, the regional certificate of need review agency shall utilize the review procedures and time frames specified for regional certificate of need review agencies in the rules continued or promulgated under this part, and shall also utilize certificate of need review standards, statutory criteria, and forms identical to those used by the department.

(7) Before developing a proposed decision on an application, the department shall review the recommendations of the regional certificate of need review agency for the review area in which the proposed project would be located, if the recommendations are submitted to the department within the time frames required under subsection (6). If the director makes a final decision that is inconsistent with the recommendations of the regional certificate of need review agency, the department shall promptly provide the regional certificate of need review agency with a detailed statement of the reasons for the director's decision. The statement shall address each instance in which the director's decision is inconsistent with the recommendation of the regional certificate of need review agency regarding a specific certificate of need review standard or criterion.

(8) A regional certificate of need review agency may convene consumers, providers, purchasers, or payers of health care, or representatives of all of those groups, related to activities in its review area for the purpose of achieving the objectives of this part.

(9) Before developing a recommendation on a certificate of need application, a regional certificate of need review agency shall hold a public hearing on the proposed project. If the department determines that local interest merits a public hearing and a regional certificate of need review agency has not been designated for the review area in which the proposed project will be located, then the department shall hold a public hearing on the proposed project.

(10) A regional certificate of need review agency shall conduct all meetings regarding its activities for the purpose of achieving the objectives of this part in compliance with the open meetings act, 1976 PA 267, MCL 15.261 to 15.275.

(11) As used in this section, "review area" means a geographic area established for a health systems agency pursuant to former section 1511 of the public health service act, or a geographic area otherwise established by the commission for a regional certificate of need review agency.

(a) Proposed projects specified as subject to comparative review in a certificate of need review standard.

(4) The commission may approve certificate of need review standards that establish comparative review or an alternative procedure for determining whether 1 or more of several qualified applicants may be approved if the level of need is not sufficient to justify approval of all qualified applicants. If an applicant involves more than 1 health facility, the applicant shall indicate on the application the proposed site or sites for the project and arrangements for the utilization and financing of the covered clinical services.

equipment that requires, but has not yet been granted, the approval of the federal food and drug administration for commercial use.

(2) The period ending 12 months after the date of federal food and drug administration approval of new technology for commercial use shall be considered the new technology review period. A person shall not acquire new technology before the end of a new technology review period, unless 1 of the following occurs:

(a) The department, with the concurrence of the commission, issues a public notice that the new technology will not be added to the list of covered medical equipment during the new technology review period. The notice may apply to specific new technology or classes of new technology.

(b) The person complies with the requirements of section 22243.

(c) The commission approves the addition of the new technology to the list of covered medical equipment, and the person obtains a certificate of need for that covered medical equipment.

(3) To assist in the identification of new medical technology or new medical services that may be appropriate for inclusion as a covered clinical service in the earliest possible stage of its development, the commission shall appoint a standing new medical technology advisory committee. A majority of the new medical technology advisory committee shall be representatives of health care provider organizations concerned with licensed health facilities or licensed health professions and other persons knowledgeable in medical technology. The commission also shall appoint representatives of health care consumer, purchaser, and third party payer organizations to the committee. (b) Is operated consistently with the research protocols established and approved by the federal food and drug administration for the investigational device exemption.

(c) Is solely related to research and testing for purposes of determining the safety and effectiveness of the new technology for use on human subjects.

(d) Is funded so that there will be no recovery of either capital or operating expenses for the use of the new technology either from patients or from third party payers. However, usual and customary charges or other payment arrangements for related services rendered to patients that are consistent with standard nonexperimental treatment, including, but not limited to, room, board, ancillary services, and outpatient services may be charged to patients or third party payers, or both, in accordance with normal billing practices. Each patient upon whom the new technology is used shall be informed of the requirements of this subdivision.

(e) Is maintained under a separate cost center that includes overhead costs, for expenditure reporting related to the research project.

(f) Is developed so that capital funding for the research project will be obtained from sources other than the Michigan state hospital finance authority or any other governmentally supported financing source. This subdivision does not prohibit a person from using grants for research activities.

(g) Is operated so as to provide, upon request of the department, data obtained from the research project that the department may use in developing certificate of need review standards relative to the new technology. Aggregate data obtained as part of a federally approved data set shall meet the requirements of this part, except that supplemental data may be requested by the department.

(h) Is not marketed or advertised to other health care providers or the public.

(2) A person acquiring new technology under this section shall deactivate and remove the new technology from service on the date of notice that federal approval under the investigational device exemption for the new technology acquired under 21 C.F.R. part 812 has expired or been withdrawn, or the date of receipt of a department compliance order alleging a violation of this section.

(3) A person may continue to utilize new technology acquired under this section beyond the period
