NATURAL RESOURCES AND ENVIRONMENTAL PROTECTION ACT
Act 451 of 1994

AN ACT to protect the environment and natural resources of the state; to codify, revise, consolidate, and classify laws relating to the environment and natural resources of the state; to regulate the discharge of certain substances into the environment; to regulate the use of certain lands, waters, and other natural resources of the state; to protect the people's right to hunt and fish; to prescribe the powers and duties of certain state and local agencies and officials; to provide for certain charges, fees, assessments, and donations; to provide certain appropriations; to prescribe penalties and provide remedies; and to repeal acts and parts of acts.

History: 1994, Act 451, Eff. Mar. 30, 1995;—Am. 1996, Act 434, Imd. Eff. Dec. 2, 1996;—Am. 2005, Act 116, Imd. Eff. Sept. 22, 2005;—Am. 2013, Act 22, Imd. Eff. May 8, 2013.

Compiler's note: Act 160 of 2004, which was approved by the governor and filed with the secretary of state on June 18, 2004, provided for the amendment of Act 451 of 1994 by amending Sec. 40103 and adding Sec. 40110a. The amended and added sections were effective June 18, 2004. On March 28, 2005, a petition seeking a referendum on Act 160 of 2004 was filed with the Secretary of State. Const 1963, art 2, sec 9, provides that no law as to which the power of referendum properly has been invoked shall be effective thereafter unless approved by a majority of the electors voting thereon at the next general election. A referendum on Act 160 of 2004 was presented to the electors at the November 2006 general election as Proposal 06-3, which read as follows:

"PROPOSAL 06-3

"A REFERENDUM ON PUBLIC ACT 160 OF 2004 — AN ACT TO ALLOW THE ESTABLISHMENT OF A HUNTING SEASON FOR MOURNING DOVES

"Public Act 160 of 2004 would:

"Authorize the Natural Resources Commission to establish a hunting season for mourning doves.

"Require a mourning dove hunter to have a small game license and a $2.00 mourning dove stamp.

"Stipulate that revenue from the stamp must be split evenly between the Game and Fish Protection Fund and the Fish and Wildlife Trust Fund.

"Require the Department of Natural Resources to address responsible mourning dove hunting; management practices for the propagation of mourning doves; and participation in mourning dove hunting by youth, the elderly and the disabled in the Department's annual hunting guide.

"Should this law be approved?

"Yes [ ]

"No [ ]"

Act 160 of 2004 was rejected by a majority of the electors voting thereon at the November 2006 general election.

For transfer of powers and duties of department of natural resources to department of natural resources and environment, and abolishment of department of natural resources, see E.R.O. No. 2009-31, compiled at MCL 324.99919.

Popular name: NREPA

The People of the State of Michigan enact:

ARTICLE I
GENERAL PROVISIONS

PART 1
SHORT TITLE AND SAVINGS CLAUSES

324.101 Short title.

Sec. 101. This act shall be known and may be cited as the "natural resources and environmental protection act".

History: 1994, Act 451, Eff. Mar. 30, 1995.

Compiler's note: For transfer of powers and duties of department of natural resources and environment to department of natural resources, see E.R.O. No. 2011-1, compiled at MCL 324.99921.

Popular name: Act 451

Popular name: NREPA

324.102 Repeal of statute; effect.

Sec. 102. The repeal of any statute by this act does not relinquish any penalty, forfeiture, or liability, whether criminal or civil in nature, and such statute shall be treated as still remaining in force as necessary for the purpose of instituting or sustaining any proper action or prosecution for the enforcement of the penalty, forfeiture, or liability.

History: 1994, Act 451, Eff. Mar. 30, 1995.

Popular name: Act 451

Popular name: NREPA

324.103 Heading or title; effect.

Sec. 103. A heading or title of an article, chapter, part, or subpart of this act shall not be considered as a part of this act or be used to construe the act more broadly or narrowly than the text of the sections of the act would indicate, but shall be considered as inserted for the convenience of the users of this act.

History: 1994, Act 451, Eff. Mar. 30, 1995.

Popular name: Act 451

Popular name: NREPA

324.104 Members of predecessor agency; powers.

Sec. 104. When a board, commission, committee, council, or other agency created by or pursuant to this act was preceded by an agency with the same or similar name and functions, members of the predecessor agency shall continue in office for the duration of the terms of office for which they were appointed and with the new members appointed shall constitute the new agency. Members shall be appointed under this act only as terms of the former members expire or vacancies occur. Members of the predecessor agency may be appointed to the new agency to succeed themselves subject to the limits for the total period of service set forth in this act.

History: 1994, Act 451, Eff. Mar. 30, 1995.

Popular name: Act 451

Popular name: NREPA

324.105 Existing rules; effect.

Sec. 105. When the department or other agency is directed to promulgate rules by this act and rules exist on the date the requirement to promulgate rules takes effect, which rules the department or agency believes adequately cover the matter, the department or agency may determine that new rules are not required or may delay the promulgation of new rules until the department or agency considers it advisable.

History: 1994, Act 451, Eff. Mar. 30, 1995.

Popular name: Act 451

Popular name: NREPA

324.106 Orders; effect.

Sec. 106. Except as otherwise provided by law, this act does not repeal or alter the content or effect of orders that were issued pursuant to an act that is repealed by this act and codified as a part of this act.

History: 1994, Act 451, Eff. Mar. 30, 1995.

Popular name: Act 451

Popular name: NREPA

324.107 Editorial changes; effect; intent.

Sec. 107. It is the intention of the legislature that editorial changes in the language of statutes codified as parts within this act not be construed as changes to the meanings of those statutes.

History: Add. 1995, Act 60, Imd. Eff. May 24, 1995.

Popular name: Act 451

Popular name: NREPA

PART 3
DEFINITIONS

324.301 Definitions.

Sec. 301. Except as otherwise defined in this act, as used in this act:

(a) "Commission" means the commission of natural resources.

(b) "Department" means the director of the department of natural resources or his or her designee to whom the director delegates a power or duty by written instrument.

(c) "Department of natural resources" means the principal state department created in section 501.

(d) "Director" means the director of the department of natural resources.

(e) "Local unit of government" or "local unit" means a municipality or county.

(f) "Michigan conservation and recreation legacy fund" means the Michigan conservation and recreation legacy fund established in section 40 of article IX of the state constitution of 1963 and provided for in section 2002.

(g) "Municipality" means a city, village, or township.

(h) "Person" means an individual, partnership, corporation, association, governmental entity, or other legal entity.

(i) "Public domain" means all land owned by this state or land deeded to this state under state law.

(j) "Rule" means a rule promulgated pursuant to the administrative procedures act of 1969, 1969 PA 306, MCL 24.201 to 24.328.

History: 1994, Act 451, Eff. Mar. 30, 1995;—Am. 2004, Act 587, Eff. Dec. 23, 2006;—Am. 2018, Act 240, Eff. Sept. 25, 2018.

Compiler's note: Enacting section 2 of Act 587 of 2004 provides:

"Enacting section 2. This amendatory act does not take effect unless House Joint Resolution Z of the 92nd Legislature becomes a part of the state constitution of 1963 as provided in section 1 of article XII of the state constitution of 1963."

Popular name: Act 451

Popular name: NREPA

PART 5
DEPARTMENT OF NATURAL RESOURCES

GENERAL POWERS AND DUTIES

324.501 Department of natural resources; creation; powers and duties; commission of natural resources; creation; powers; appointment, qualifications, and terms of members; vacancy; removal; meetings; secretary; chairperson; quorum; conducting business at public meeting; notice; appointment and employment of director; appointment of deputy director, assistants, and employees; powers and duties of persons delegated decision making authority; vacancy in office of director; compensation and expenses; offices and equipment; oath.

Sec. 501. (1) A department of natural resources for this state is created which shall possess the powers and perform the duties granted and imposed by this act and as otherwise provided by law.

(2) The commission of natural resources is created as the head of the department of natural resources and may establish general policies related to natural resources management and environmental protection for the guidance of the director. In addition, the commission has appellate authority as provided in section 1101. The commission shall be composed of 7 members, not more than 4 of whom shall be members of the same political party, appointed by the governor by and with the advice and consent of the senate. A member of the commission shall be selected with special reference to that person's training and experience related to at least 1 of the principal lines of activities vested in the department of natural resources and the ability and fitness of that person to deal with those activities. The term of office of each member of the commission shall be 4 years. The governor shall fill a vacancy occurring in the membership of the commission and may remove a member of the commission for cause after a hearing. Each member of the commission shall hold office until the appointment and qualification of that member's successor.

(3) The commission, within 30 days after having qualified and annually after that time, shall meet at its office in Lansing and organize by appointing a secretary, who need not be a member of the commission. The governor shall appoint a chairperson of the commission from among its members, who shall serve as chairperson at the pleasure of the governor. Four members of the commission constitute a quorum for the transaction of business. The business which the commission may perform shall be conducted at a public meeting of the commission held in compliance with the open meetings act, Act No. 267 of the Public Acts of 1976, being sections 15.261 to 15.275 of the Michigan Compiled Laws. Public notice of the time, date, and place of the meeting shall be given in the manner required by Act No. 267 of the Public Acts of 1976. A meeting may be called by the chairperson and shall be called on request of a majority of the members of the commission. A meeting may be held as often as necessary and at other places than the commissioners' offices at Lansing. The commission shall meet at least once each month.

(4) The commission shall appoint and employ a director who shall continue in office at the pleasure of the commission. The director shall appoint 1 or more deputy directors and other assistants and employees as are necessary to implement this part and any other law of this state affecting the powers and duties of the department of natural resources. A person to whom the director has lawfully delegated decision making authority in writing may perform a duty or exercise a power conferred by law upon the department at the time and to the extent the duty and power is delegated to that person by the director. When a vacancy in the office of director occurs, or the director is unable to perform the director's duties or is absent from the state, the powers and duties of the director as prescribed by law shall be imposed on and transferred to a deputy director until the vacancy is filled or the director's inability or absence from the state ceases.

(5) The compensation of the deputy directors, the assistants, and the employees and the number of assistants and employees shall be subject to the approval of the state administrative board. The members of the commission shall not receive compensation under this part, but each member and the other officers and employees of the department of natural resources shall be entitled to reasonable expenses while traveling in the performance of their duties prescribed by this act. The salaries and expenses authorized under this act shall be paid out of the state treasury in the same manner as the salaries of other state officers and employees are paid. The department of management and budget shall furnish suitable offices and office equipment, at Lansing, for the use of the department of natural resources. Each member of the commission and the director shall qualify by taking and subscribing to the constitutional oath of office and by filing it in the office of the secretary of state.

Administrative rules: R 323.2101 et seq. and R 324.1501 et seq. of the Michigan Administrative Code.

324.501a Jurisdiction, rights, and responsibilities of Great Lakes states and provinces.

Sec. 501a. The Great Lakes are a binational public treasure and are held in trust by the Great Lakes states and provinces. Management of the water resources of the Great Lakes and the Great Lakes basin is subject to the jurisdiction, rights, and responsibilities of the Great Lakes states and provinces. Effective management of the water resources of the Great Lakes requires the in-basin exercise of such jurisdiction, rights, and responsibilities in the interest of all the people of the Great Lakes basin.

History: Add. 2002, Act 148, Imd. Eff. Apr. 5, 2002.

Compiler's note: Enrolled House Bill No. 5118 was not signed by the Governor, but, having been presented to him at 3:44 p.m. on March 22, 2002, and not having been returned by him to the House of Representatives within the 14 days prescribed by Const 1963, art IV, sec 33, became law (2002 PA 148) on April 5, 2002, the Legislature having continued in session.

Popular name: Act 451

Popular name: NREPA

324.502 Rules; powers of department; contracts for taking and storage of mineral products; disposition and use of money; drilling operations for taking oil or gas from lake bottomlands of Great Lakes; prohibition; compliance with applicable ordinances and statutes.

Sec. 502. (1) The commission may promulgate rules, not inconsistent with law, governing its organization and procedure.

(2) The department may do 1 or more of the following:

(a) Promulgate and enforce reasonable rules concerning the use and occupancy of lands and property under its control in accordance with section 504.

(b) Provide and develop facilities for outdoor recreation.

(c) Conduct investigations it considers necessary for the proper administration of this part.

(d) Remove and dispose of forest products as required for the protection, reforestation, and proper development and conservation of the lands and property under the control of the department.

(e) Require the payment of a fee as provided by law for a daily permit or other authorization that allows the person to hunt and take waterfowl on a public hunting area managed and developed for waterfowl.

(3) Except as provided in subsection (4), the department may enter into contracts for the taking of coal, oil, gas, and other mineral products from state owned lands, upon a royalty basis or upon another basis, and upon the terms the department considers just and equitable subject to section 502a. This contract power includes authorization to enter into contracts for the storage of gas or other mineral products in or upon state owned lands, if the consent of the state agency having jurisdiction and control of the state owned land is first obtained. A contract permitted under this section for the taking of coal, oil, gas, or metallic mineral products, or for the storage of gas or other mineral products, is not valid unless the contract is approved by the state administrative board. Money received from a contract for the storage of gas or other mineral products in or upon state lands shall be transmitted to the state treasurer for deposit in the general fund of the state to be used for the purpose of defraying the expenses incurred in the administration of this act and other purposes provided by law. Other money received from a contract permitted under this subsection, except money received from lands acquired with money from the former game and fish protection fund or the game and fish protection account of the Michigan conservation and recreation legacy fund provided for in section 2010, shall be transmitted to the state treasurer for deposit in the Michigan natural resources trust fund created in section 35 of article IX of the state constitution of 1963 and provided for in part 19. However, the money

received from the payment of service charges by a person using areas managed for waterfowl shall be credited to the game and fish protection account of the Michigan conservation and recreation legacy fund provided for in section 2010 and used only for the purposes provided by law. Money received from bonuses, rentals, delayed rentals, royalties, and the direct sale of resources, including forest resources, from lands acquired with money from the former game and fish protection fund or the game and fish protection account of the Michigan conservation and recreation legacy fund provided for in section 2010 shall be credited to the Michigan game and fish protection trust fund established in section 41 of article IX of the state constitution of 1963 and provided for in part 437, except as otherwise provided by law.

(4) The department shall not enter into a contract that allows drilling operations beneath the lake bottomlands of the Great Lakes, the connected bays or harbors of the Great Lakes, or the connecting waterways as defined in section 32301, for the exploration or production of oil or gas.

(5) This section does not permit a contract for the taking of gravel, sand, coal, oil, gas, or other metallic mineral products that does not comply with applicable local ordinances and state law.

History: 1994, Act 451, Eff. Mar. 30, 1995;—Am. 1995, Act 61, Imd. Eff. May 24, 1995;—Am. 1996, Act 272, Imd. Eff. June 12, 1996;—Am. 1998, Act 114, Imd. Eff. June 9, 1998;—Am. 2002, Act 148, Imd. Eff. Apr. 5, 2002;—Am. 2004, Act 587, Eff. Dec. 23, 2006.

Compiler's note: Enrolled House Bill No. 5118 was not signed by the Governor, but, having been presented to him at 3:44 p.m. on March 22, 2002, and not having been returned by him to the House of Representatives within the 14 days prescribed by Const 1963, art IV, sec 33, became law (2002 PA 148) on April 5, 2002, the Legislature having continued in session.

Enacting section 2 of Act 587 of 2004 provides:

"Enacting section 2. This amendatory act does not take effect unless House Joint Resolution Z of the 92nd Legislature becomes a part of the state constitution of 1963 as provided in section 1 of article XII of the state constitution of 1963."

Popular name: Act 451

Popular name: NREPA

Administrative rules: R 323.2101 et seq.; R 324.1501 et seq.; and R 324.14501 et seq. of the Michigan Administrative Code.

324.502a Designation of state land reserve; petition, recommendation, or motion; eligibility for commission consideration; public testimony; issuance of commission recommendation; offer and adoption of resolution by legislature; purchase, trade, or acquisition of other holdings.

Sec. 502a. (1) Upon petition by a person, recommendation of the department, or its own motion, the commission shall place on its agenda at an upcoming meeting of the commission the question of designation of a state land reserve. The petition, recommendation, or motion shall include the land proposed for inclusion within the state land reserve and a rationale for its inclusion. A tract of land is eligible for commission consideration for designation as a state land reserve if it includes at least 640 contiguous acres of state owned land and contains 1 or more of the following:

(a) A critical dune as regulated under part 353.

(b) A high-risk area regulated under part 323.

(c) A wetland regulated under part 303.

(d) An endangered species protected under part 365.

(e) A wilderness area or natural area regulated under part 351.

(f) A natural river regulated under part 305.

(g) Any other significant surface or subsurface natural feature or area of environmental sensitivity.

(2) Prior to making its recommendation on the designation of a state land reserve, the commission shall receive public testimony on the issue. After considering the public testimony, the commission shall issue a written recommendation to the legislature on whether or not the commission believes a state land reserve should be designated. In making its recommendation, the commission shall consider the need for a buffer zone surrounding the land to eliminate the potential drainage of oil and gas. The commission may expand or restrict the land area proposed for the state land reserve. The commission shall include with the recommendation a rationale for its recommendation.

(3) Upon receipt of a recommendation from the commission under subsection (2), a member of the legislature may offer a resolution to create a state land reserve pursuant to section 5 of article X of the state constitution of 1963. The resolution is not required to conform to the recommendation of the commission. When considering this resolution, the legislature shall also consider the need for a buffer zone surrounding the land to eliminate the potential drainage of oil and gas.

(4) If the legislature adopts the resolution under subsection (3) by 2/3 of the members elected to and serving in each house, a state land reserve is designated. Pursuant to section 5 of article X of the state constitution of 1963, land within a state land reserve shall not be removed from the reserve, sold, leased, or

otherwise disposed of except by a resolution of the legislature.

(5) Upon designation of a state land reserve under subsection (4), the department shall attempt to purchase, trade, or otherwise acquire any holdings within the contiguous area of the state land reserve that improve ownership patterns, including any severed mineral rights. The owner of an inholding described in this subdivision who offers that land or interest in that land for sale or lease, if that land transfer is subject to the state transfer tax, shall first offer that land or interest in land to the state and shall give the state a right of first refusal.

History: Add. 1998, Act 114, Imd. Eff. June 9, 1998.

Popular name: Act 451

Popular name: NREPA

324.503 Duties of department; powers and jurisdiction; purchase of surface rights; limitations; record; strategic plan; managed public land strategy; volunteers; granting concessions; lease and sale of land; reservation of mineral rights; sale of economic share of royalty interests; definitions.

Sec. 503. (1) The department shall protect and conserve the natural resources of this state; provide and develop facilities for outdoor recreation; prevent the destruction of timber and other forest growth by fire or otherwise; promote the reforesting of forestlands belonging to this state; prevent and guard against the pollution of lakes and streams within this state and enforce all laws provided for that purpose with all authority granted by law; and foster and encourage the protection and propagation of game and fish. Before issuing an order or promulgating a rule under this act that will designate or classify land managed by the department for any purpose, the department shall consider, in addition to any other matters required by law, all of the following:

(a) Providing for access to and use of the public land for recreation and tourism.

(b) The existence of or potential for natural resources-based industries, including forest management, mining, or oil and gas development on the public land.

(c) The potential impact of the designation or classification on private property in the immediate vicinity.

(2) The department has the power and jurisdiction over the management, control, and disposition of all land under the public domain, except for those lands under the public domain that are managed by other state agencies to carry out their assigned duties and responsibilities. On behalf of the people of this state, the department may accept gifts and grants of land and other property and may buy, sell, exchange, or condemn land and other property, for any of the purposes of this part.

(3) If any payment under subpart 13 or 14 of part 21 or section 51106 for land located north of the Mason-Arenac line is not made in full and on time during a fiscal year, then, until the end of that fiscal year, the department shall not purchase surface rights to land located north of the Mason-Arenac line unless 1 or both of the following apply:

(a) Full payment was made later during that fiscal year.

(b) The specific acquisition is approved by resolution adopted by the following, as applicable:

(*i*) If the land is located in a single township, the township board.

(*ii*) If the land is located in 2 or more townships, the county board of commissioners of the county where the land is located.

(4) For the purposes of subsections (3) and (9), respectively, land in which the department acquires or owns surface rights does not include any of the following:

(a) Land acquired under an option agreement in effect on the date when the payment described in subsection (3) became due if the acquisition takes place within 120 days after the payment became due.

(b) Land in which the department has a conservation easement.

(c) Land that, before July 2, 2012, was platted under the land division act, 1967 PA 288, MCL 560.101 to 560.293, or a predecessor act and acquired by the department.

(d) Any of the following if acquired on or after July 2, 2012:

(*i*) Land with an area of not more than 80 acres, or a right-of-way, for accessing other land owned by the department or for accessing the waters of the state as defined in section 3101.

(*ii*) Land for a trail, subject to all of the following:

(A) If the traveled portion of the proposed trail is located within an abandoned railroad right-of-way, the land excluded is limited to the abandoned railroad right-of-way.

(B) If the traveled portion of the proposed trail is located in a utility easement, the land excluded is limited to the utility easement.

(C) If sub-subparagraphs (A) and (B) do not apply, the land excluded is limited to the traveled portion of

the proposed trail and contiguous land. For the purposes of the exclusion, the area of the contiguous land shall not exceed the product of 100 feet multiplied by the length of the proposed trail in feet.

(*iii*) Land that, on July 2, 2012 was commercial forestland as defined in section 51101 if the land continues to be used in a manner consistent with part 511.

(*iv*) Land acquired by the department by gift, including the gift of funds specifically dedicated to land acquisition.

(*v*) Land acquired by the department through litigation.

(5) The department shall maintain a record of land as described in subsection (4)(a) to (d). The record shall include the location, acreage, date of acquisition, and use of the land.

(6) By October 1, 2014, the department shall develop a written strategic plan to guide the acquisition and disposition of state lands managed by the department, submit the plan to the relevant legislative committees, and post the plan on the department's website. In developing the plan, the department shall solicit input from the public and local units of government.

(7) The strategic plan shall do all of the following:

(a) Divide this state into regions.

(b) Identify lands managed by the department in each region.

(c) Set forth for each region measurable strategic performance goals with respect to all of the following for land managed by the department:

(*i*) Maximizing availability of points of access to the land and to bodies of water on or adjacent to the land.

(*ii*) Maximizing outdoor recreation opportunities.

(*iii*) Forests.

(*iv*) Wildlife and fisheries.

(d) To assist in achieving the goals set forth in the strategic plan pursuant to subdivision (c), identify all of the following:

(*i*) Land to be acquired.

(*ii*) Land to be disposed of.

(*iii*) Plans for natural resource management.

(e) To the extent feasible, identify public lands in each region that are not managed by the department but affect the achievement of the goals set forth in the strategic plan pursuant to subdivision (c).

(f) Identify ways that the department can better coordinate the achievement of the goals set forth in the strategic plan pursuant to subdivision (c), recognizing that public lands are subject to multiple uses and both motorized and nonmotorized uses.

(g) Identify critical trail connectors to enhance motorized and nonmotorized natural-resource-dependent outdoor recreation activities for public enjoyment.

(8) The legislature approves the strategic plan entitled "Department of Natural Resources Managed Public Land Strategy" issued by the department and dated July 1, 2013. The department shall implement the most recent legislatively approved strategic plan and shall not change the plan except by a plan update proposed pursuant to subsection (10) and subsequently approved by the legislature.

(9) The department shall annually submit to the relevant legislative committees and post and annually update on the department's website all of the following:

(a) A report on the implementation of the plan.

(b) The number of acres of land in which the department owns surface rights north of the Mason-Arenac line, south of the Mason-Arenac line, and in total for this state.

(c) Information on the total number of each of the following:

(*i*) Acres of land managed by the department.

(*ii*) Acres of state park and state recreation area land.

(*iii*) Acres of state game and state waterfowl areas.

(*iv*) Acres of land managed by the department and open for public hunting.

(*v*) Acres of state-owned mineral rights managed by the department that are under a development lease.

(*vi*) Acres of state forestland.

(*vii*) Public boating access sites managed by the department.

(*viii*) Miles of motorized trails managed by the department.

(*ix*) Miles of nonmotorized trails managed by the department.

(10) For legislative consideration and approval, as provided in subsection (8), by July 1, 2021, and every 6 years thereafter, the department shall propose an update to the strategic plan, submit the proposed updated plan to the relevant legislative committees, and post the proposed updated plan on the department's website. At least 60 days before posting the proposed updated plan, the department shall prepare, submit to the relevant legislative committees, and post on the department's website a report that covers all of the following

and includes department contact information for persons who wish to comment on the report:

(a) Progress toward the goals set forth in the strategic plan pursuant to subsection (7)(c).

(b) Any proposed changes to the goals, including the rationale for the changes.

(c) The department's engagement and collaboration with local units of government.

(11) Subject to subsection (12), if land owned by this state and managed by the department, land owned by the federal government, and land that is commercial forestland as defined in section 51101 constitute 40% or more of the land in a county, the department shall not acquire land in that county if, not more than 60 days after the department sent the notice of the proposed acquisition to the board under section 2165, the department receives a copy of a resolution rejecting the proposed acquisition adopted by the following, as applicable:

(a) If the land is located in a single township, the township board.

(b) If the land is located in 2 or more townships, the county board of commissioners.

(12) Subsection (11) does not apply to land described in subsection (4)(d).

(13) The department may accept funds, money, or grants for development of salmon and steelhead trout fishing in this state from the government of the United States, or any of its departments or agencies, pursuant to the anadromous fish conservation act, 16 USC 757a to 757f, and may use this money in accordance with the terms and provisions of that act. However, the acceptance and use of federal funds does not commit state funds and does not place an obligation upon the legislature to continue the purposes for which the funds are made available.

(14) The department may appoint persons to serve as volunteers to assist the department in meeting its responsibilities as provided in this part. Subject to the direction of the department, a volunteer may use equipment and machinery necessary for the volunteer service, including, but not limited to, equipment and machinery to improve wildlife habitat on state game areas.

(15) The department may lease lands owned or controlled by the department or may grant concessions on lands owned or controlled by the department to any person for any purpose that the department determines to be necessary to implement this part. The department shall grant each concession for a term of not more than 7 years based on extension, renegotiation, or competitive bidding. However, if the department determines that a concession requires a capital investment in which reasonable financing or amortization necessitates a longer term, the department may grant a concession for up to a 15-year term. A concession granted under this subsection shall require, unless the department authorizes otherwise, that all buildings and equipment be removed at the end of the concession's term. Any lease entered into under this subsection shall limit the purposes for which the leased land is to be used and shall authorize the department to terminate the lease upon a finding that the land is being used for purposes other than those permitted in the lease. Unless otherwise provided by law, money received from a lease or a concession of tax reverted land shall be credited to the fund providing financial support for the management of the leased land. Money received from a lease of any other land shall be credited to the fund from which the land was purchased. However, money received from program-related leases on these lands shall be credited to the fund providing financial support for the management of the leased lands. For land managed by the forest management division of the department, that fund is either the forest development fund established pursuant to section 50507 or the forest recreation account of the Michigan conservation and recreation legacy fund provided for in section 2005. For land managed by the wildlife or fisheries division of the department, that fund is the game and fish protection account of the Michigan conservation and recreation legacy fund provided for in section 2010.

(16) When the department sells land, the deed may reserve all mineral, coal, oil, and gas rights to this state only if the land is in production or is leased or permitted for production, or if the department determines that the land has unusual or sensitive environmental features or that it is in the best interest of this state to reserve those rights as determined by commission policy. However, the department shall not reserve the rights to sand, gravel, clay, or other nonmetallic minerals. When the department sells land that contains subsurface rights, the department shall include a deed restriction that restricts the subsurface rights from being severed from the surface rights in the future. If the landowner severs the subsurface rights from the surface rights, the subsurface rights revert to this state. The deed may reserve to this state the right of ingress and egress over and across land along watercourses and streams. Whenever an exchange of land is made with the United States government, a corporation, or an individual for the purpose of consolidating the state forest reserves, the department may issue deeds without reserving to this state the mineral, coal, oil, and gas rights and the rights of ingress and egress. The department may sell the limestone, sand, gravel, or other nonmetallic minerals. However, the department shall not sell a mineral or nonmetallic mineral right if the sale would violate part 353, part 637, or any other provision of law. The department may sell all reserved mineral, coal, oil, and gas rights to such lands upon terms and conditions as the department considers proper and may sell oil and gas rights as provided in part 610. The owner of those lands as shown by the records shall be given

priority in case the department authorizes any sale of those lands, and, unless the landowner waives that priority, the department shall not sell such rights to any other person. For the purpose of this section, mineral rights do not include rights to sand, gravel, clay, or other nonmetallic minerals.

(17) The department may enter into contracts for the sale of the economic share of royalty interests it holds in hydrocarbons produced from devonian or antrim shale qualifying for the nonconventional source production credit determined under section 45k of the internal revenue code of 1986, 26 USC 45k. However, in entering into these contracts, the department shall ensure that revenues to the natural resources trust fund under these contracts are not less than the revenues the natural resources trust fund would have received if the contracts were not entered into. The sale of the economic share of royalty interests under this subsection may occur under contractual terms and conditions considered appropriate by the department and as approved by the state administrative board. Funds received from the sale of the economic share of royalty interests under this subsection shall be transmitted to the state treasurer for deposit in the state treasury as follows:

(a) Net proceeds allocable to the nonconventional source production credit determined under section 45k of the internal revenue code of 1986, 26 USC 45k, under this subsection shall be credited to the environmental protection fund created in section 503a.

(b) Proceeds related to the production of oil or gas from devonian or antrim shale shall be credited to the natural resources trust fund or other applicable fund as provided by law.

(18) As used in this section:

(a) "Concession" means an agreement between the department and a person under terms and conditions as specified by the department to provide services or recreational opportunities for public use.

(b) "Lease" means a conveyance by the department to a person of a portion of this state's interest in land under specific terms and for valuable consideration, thereby granting to the lessee the possession of that portion conveyed during the period stipulated.

(c) "Mason-Arenac line" means the line formed by the north boundaries of Mason, Lake, Osceola, Clare, Gladwin, and Arenac Counties.

(d) "Natural resources trust fund" means the Michigan natural resources trust fund established in section 35 of article IX of the state constitution of 1963 and provided for in section 1902.

(e) "Net proceeds" means the total receipts received from the sale of royalty interests under subsection (17) less costs related to the sale. Costs may include, but are not limited to, legal, financial advisory, geological or reserve studies, and accounting services.

(f) "Relevant legislative committees" means the senate and house committees with primary responsibility for natural resources and outdoor recreation and the corresponding appropriation subcommittees.

(g) "Strategic plan" or "plan" means the plan developed under subsection (6), as updated under subsection (10), if applicable.

324.503a Environmental protection fund.

Sec. 503a. (1) The environmental protection fund is created within the state treasury.

(2) The state treasurer may receive money or other assets from any source for deposit into the environmental protection fund. The state treasurer shall direct the investment of the environmental protection fund. The state treasurer shall credit to the environmental protection fund interest and earnings from fund investments.

(3) Money in the environmental protection fund at the close of the fiscal year shall remain in the fund and shall not lapse to the general fund.

(4) Money in the environmental protection fund shall be expended, upon appropriation, only for such purposes as are specifically provided by law.

Sec. 503b. The state treasurer shall comply with the divestment from terror act in making investments under this act.

History: Add. 2008, Act 236, Imd. Eff. July 17, 2008.

Popular name: Act 451

Popular name: NREPA

324.504 Department of natural resources; rules for protection and preservation of lands and property; copies to legislative committees; duties of department; applicability of subsection (2) to commercial forestland; public access to certain land; written resolution requesting removal of human-made barrier; expanding access to certain state land for outdoor recreation; certain rules prohibited; orders; violation as civil infraction; fine.

Sec. 504. (1) The department shall promulgate rules to protect and preserve lands and other property under its control from depredation, damage, or destruction or wrongful or improper use or occupancy. Not more than 10 days after promulgating a rule under this subsection, the department shall provide a copy of the rule to the relevant legislative committees, as defined in section 503. Within 6 months after the effective date of a rule promulgated under this subsection that limits the use of or access to more than 500 acres of state forest, the department shall, if requested by the chair of a relevant legislative committee, provide testimony to the committee on the implementation and effects of the rule.

(2) Subject to subsection (3), the department shall do all of the following:

(a) Keep land under its control open to hunting unless the department determines that the land should be closed to hunting because of public safety, fish or wildlife management, or homeland security concerns or as otherwise required by law.

(b) Manage land under its control to support and promote hunting and fishing opportunities to the extent authorized by law.

(c) Manage land under its control to prevent any net decrease in the acreage of such land that is open to hunting.

(3) Subsection (2) does not apply to commercial forestland as defined in section 51101.

(4) The department is urged to promote public enjoyment of this state's wildlife and other natural resources by providing public access to lands under the control of the department for outdoor recreation activities dependent on natural resources, providing reasonable consideration for both motorized and nonmotorized activities.

(5) If the department receives a written resolution from a recreational users organization or the legislative body of a local unit of government requesting the removal of a berm, gate, or other human-made barrier on land under the department's control, the department shall notify the requestor in writing within 60 days of 1 of the following:

(a) That the barrier will be removed. In this case, the department shall remove the barrier within 180 days after receiving the written request.

(b) The reasons the department believes the barrier should not be removed and the right of the recreational users organization or local unit of government, within 21 days after the department sends the written notice, to request in writing a public meeting on the matter. If the recreational users organization or local unit of government requests a public meeting as provided in this subdivision, the department shall conduct a public meeting within the city, village, or township where the barrier is located to explain the department's position and receive comments on the proposed removal. After the meeting, and within 180 days after receiving the request to remove the barrier, the department shall approve or deny the request and notify the requestor in writing. If the request is denied, the notice shall include the reasons for denial. If the request is approved, the department shall remove the barrier as follows:

(*i*) Unless subparagraph (*ii*) applies, within 180 days after the public meeting.

(*ii*) Within 30 days, if the recreational users organization or legislative body requesting the removal of the barrier agrees with the department to remove the barrier under the department's oversight and at the requestor's expense.

(c) That the department will not consider the request. The department is not required to consider the request if, within the 3-year period preceding the receipt of the request, the department received another request for removal of the barrier and acted or is acting on the request under subdivision (a) or (b). The notice under this subdivision shall explain why the request is not being considered and specify the date after which the department is required, if the barrier has not already been removed, to consider a new request.

(6) Upon request from a local unit of government, the department shall work with the local unit to allow

use of state land managed by the department and located within the local unit that will benefit the local community by increasing outdoor recreation opportunities and expanding access to and appropriate use of the natural resources and outdoors. The department may charge the local unit a reasonable fee for the use that does not exceed the costs incurred by the department for the use.

(7) This section does not authorize the department to promulgate a rule that applies to commercial fishing except as otherwise provided by law.

(8) The department shall not promulgate or enforce a rule that prohibits an individual who is licensed or exempt from licensure under 1927 PA 372, MCL 28.421 to 28.435, from carrying a pistol in compliance with that act, whether concealed or otherwise, on property under the control of the department.

(9) The department shall issue orders necessary to implement rules promulgated under this section. The orders are effective upon posting.

(10) In issuing an order under subsection (9), the department shall comply with the following procedures in a manner that ensures adequate public notice and opportunity for public comment:

(a) The department shall prepare the order after considering comments from department field personnel.

(b) The department shall conduct a public meeting and otherwise provide an opportunity for public comment on the order.

(c) Commencing at least 30 days before the first meeting and continuing through the public comment period under subdivision (b), the natural resources commission shall include the order on a public meeting agenda and the department shall post the order on its website. If the order will result in a loss of public land open to hunting, the agenda and website posting shall specify the number of acres affected.

(d) Not less than 30 days before issuance of an order, the department shall provide a copy of the order to the relevant legislative committees. This subdivision does not apply to an order that does not alter the substance of a lawful provision that exists in the form of a statute, rule, regulation, or order at the time the order is prepared.

(11) Subsection (10) does not apply to an order for emergency management purposes that is in effect for 90 days or less.

(12) If an order limits the use of or access to more than 500 acres of state forest, the department shall provide a copy of the order to the relevant legislative committees not more than 10 days after the order is issued. If requested by the chair of a relevant legislative committee, the department shall provide testimony on the implementation and effects of such an order at a committee hearing held within 6 months after the effective date of the order.

(13) The department may revise an order issued pursuant to subsection (9). The revision is subject to subsections (10) to (12), as applicable.

(14) A person who violates a rule promulgated under this section or an order issued under this section is responsible for a state civil infraction and may be ordered to pay a civil fine of not more than $500.00.

(15) As used in this section, "relevant legislative committees" means that term as defined in section 503.

324.508 Fees and rentals for photographic or publication products or services; disposition and use; limitation; unexpended fees and rentals.

Sec. 508. The department may establish and collect fees and rentals for any photographic or publication products or services that the department provides. The fees and rentals shall be credited to a separate fund of the state treasury and shall be available for appropriation to the department of natural resources and used to provide the photographic or publication products or services. The fees and rentals shall not exceed the material costs to the department of providing the products or services. In addition, the expenditures made in a fiscal year to provide the photographic and publication products or services shall not exceed the amount appropriated for that purpose for that fiscal year, plus any amounts carried over from previous fiscal years, or the amount of fees and rentals actually received during that fiscal year, plus any amounts carried over from previous fiscal years, whichever is less. Any unexpended fees and rentals collected pursuant to this section, along with any excess collections from prior fiscal years, shall be carried over into subsequent fiscal years and shall be available for appropriation for the purposes described in this section.

324.509 Permit for use of state parks; disposition of revenue from permit fees and concessions at state parks; use of fees for processing applications for use of state forests; creation of forest land user fund.

Sec. 509. (1) The department may require that a person obtain a permit for the use of a state park. The department may establish and collect fees for permits to use state parks. The revenue realized by the department from permit fees and concessions at state parks shall be credited to a separate fund of the state treasury and shall be available for appropriation to the department of natural resources for improvement and maintenance of state parks.

(2) The department may establish and collect fees to cover the costs to the department for the processing of applications and for monitoring of permits for the use of state forests that require extensive review. The forest land user fund is created in the state treasury. Money received under this subsection shall be credited to the fund. The state treasurer shall direct the investment of the fund. The state treasurer shall credit to the fund interest and earnings from fund investments. Money remaining in the fund at the end of a fiscal year shall be carried over in the fund to the next and succeeding fiscal year. Money in the fund may be appropriated to the department to cover the costs of reviewing applications and monitoring of permits for the use of state forests.

324.509a MacMullan conference center account; creation and establishment; deposits; purpose; annual report.

Sec. 509a. There is hereby created and established under the jurisdiction and control of the department a revolving account to be known as the MacMullan conference center account. All of the fees and other revenues generated from the operation of the MacMullan conference center shall be deposited in the MacMullan conference center account. Appropriations shall be made from the account for the support of program operations and the maintenance and operation of the facility, and shall not exceed the estimated revenues for the fiscal year in which they are made, together with any unexpended balances from prior years. The department shall submit an annual report of operations and expenditures regarding the MacMullan conference center account to the appropriations committees of the senate and house of representatives and the house and senate fiscal agencies at the end of the fiscal year.

324.509b MacMullan conference center; restrictions on availability.

Sec. 509b. The MacMullan conference center shall be available only to the following:

(a) The department.

(b) Federal, state, and local government agencies.

(c) Education institutions.

(d) Nonprofit corporations or associations organized pursuant to the nonprofit corporation act, 1962 PA 162, MCL 450.2101 to 450.3192.

(e) Community service clubs.

(f) Groups of persons with disabilities.

(g) Members of the legislature for purposes related to the business of the legislature.

(h) Entities and organizations that wish to use the conference center to host an event that has a natural resources or environmental agenda.

324.510 Disposition of certain reimbursements and other money; disposition and use of aircraft fees; limitation.

Sec. 510. (1) Money received by the department of natural resources for reimbursement of damages to department of natural resources property, reimbursement of land recording fees, sale of farm animals from Maybury state park, reimbursement for utilities for the Michigan state exposition and fairgrounds, reproduction of the agenda of the commission or other meetings of the department, reimbursement for forest fire protection services provided to the federal government or other states, and money received from forfeited cash bonds, security bonds, and court ordered reimbursements may be credited to the accounts from which these disbursements were or are to be made.

(2) The department may establish and collect fees for use of aircraft and pilots of the department of natural resources. The aircraft fees collected shall be credited to a separate fund of the state treasury and shall be available for appropriation to the department of natural resources and used to pay all operating and maintenance costs of the aircraft, including depreciation and aircraft replacement, but shall not exceed the fee revenue collected for the fiscal year together with any unexpended balances of prior years.

324.511 Fees for department of natural resources magazine, publications, and related materials; disposition and use of fees; retained earnings; disposition of unexpended fees and excess collections; annual allocation to magazine account; accounting records.

Sec. 511. The department may establish and collect fees for the department of natural resources magazine, publications, and related materials. Fees collected shall be credited to a separate fund of the state treasury and shall be available for appropriation to the department and used to pay all direct and indirect operating costs of the magazine and for the purchase of other related publications and materials. The retained earnings balance of the magazine at the end of the fiscal year shall not fall below the retained earnings balance at the end of the prior fiscal year. Any unexpended fees collected pursuant to this section, along with any excess collections from prior fiscal years, shall be carried over into subsequent fiscal years and shall be available for appropriation for the purposes described in this section. The magazine account shall receive an annual allocation of interest earned by the state treasurer's common cash fund on cash balances of the magazine pursuant to procedures established by the state treasurer. Accounting records of the magazine shall be maintained on an accrual basis consistent with generally accepted accounting principles, including the establishment of separate asset, liability, and equity accounts for the magazine.

324.512 Film production located in state; authorization by director or commission to use property; exception; cooperation with Michigan film office; definitions.

Sec. 512. (1) The director may authorize a person engaged in the production of a film in this state to use

without charge property owned by or under the control of the department for the purpose of producing a film under terms and conditions established by the director. The economic and other benefits to this state of film production located in this state shall be considered to be the value received by this state in exchange for the use of property under this section.

(2) The director or the commission shall not authorize the use of property owned by or under the control of the department for the production of a film that includes obscene matter or an obscene performance or for a production for which records are required to be maintained with respect to any performer under 18 USC 2257.

(3) The department shall cooperate with the Michigan film office in providing the office with information about potential film locations owned by or under the control of the department and the use of property owned by or under the control of the department.

(4) As used in this section:

(a) "Film" means single media or multimedia entertainment content for distribution or exhibition to the general public by any means and media in any digital media format, film, or videotape, including, but not limited to, a motion picture, a documentary, a television series, a television miniseries, a television special, interstitial television programming, long-form television, interactive television, music videos, interactive games, video games, commercials, internet programming, an internet video, a sound recording, a video, digital animation, or an interactive website.

(b) "Michigan film office" means the Michigan film office created in section 29a of the Michigan strategic fund act, 1984 PA 270, MCL 125.2029a.

(c) "Obscene matter or an obscene performance" means matter described in 1984 PA 343, MCL 752.361 to 752.374.

324.702 Duties of department.

Sec. 702. The department shall do all of the following:

(a) Provide advice and recommendations to the legislature, the governor, and executive departments to promote the development of the forestry and forest products industry and the mineral extraction and utilization industry in this state.

(b) Develop programs and coordinate existing and proposed programs to encourage innovative and competitively viable economic development of forest and mineral related industries.

(c) Review existing laws and regulations pertaining to forestry and the mineral industry and develop proposals for new laws or changes in existing law to improve this state's forest and mineral resource development as considered appropriate by the department.

(d) Promote and provide for educational programs for the general public and members of local government to increase awareness of the importance of the forestry and forest products industry and the mineral industry to this state.

(e) Consult with representatives of science, industry, labor, government, and other groups and utilize the services of public and private organizations, including colleges and universities, as the department considers necessary or helpful in the discharge of its duties under subdivisions (a) to (d).

PART 9
JOINT ENVIRONMENTAL MANAGEMENT AUTHORITIES

324.901 Definitions.

Sec. 901. As used in this part:

(a) "Articles" means the articles of incorporation of an authority.

(b) "Authority" means a joint city-state environmental management authority created pursuant to section 902.

(c) "Board" means the board of directors of the authority.

(d) "Solid waste" means solid waste as defined in part 115.

(e) "State agency" means either the department or the governing body of the state park that is participating in an authority.

History: 1994, Act 451, Eff. Mar. 30, 1995.

Popular name: Act 451

Popular name: NREPA

324.902 Environmental management authority; creation; powers; appointment, terms, and removal of members; quorum; compensation; business conducted at public meeting; writings; election of officers.

Sec. 902. (1) The governing body of any city within whose corporate boundaries a state park comprises more than 75% of the land area and the governing body of any such state park or, if there is none, the department, may create an environmental management authority for that city. An authority may contract and be contracted with, sue and be sued, and take action in the courts of this state. An authority, once created, shall exercise its powers as an autonomous entity, independent of any state department.

(2) An authority shall be governed by a board of directors consisting of 5 voting members and 2 nonvoting ex officio members who are appointed as follows:

(a) One individual appointed by the state park governing body or the department if there is no qualifying state park.

(b) One individual appointed by the chair of the state park governing body or the department if there is no qualifying state park.

(c) One individual appointed by the governing body of the city.

(d) One individual appointed by the mayor of the city.

(e) One individual appointed by agreement of at least 3 of the 4 individuals appointed pursuant to subdivisions (a), (b), (c), and (d).

(f) The director of the department of management and budget, or an employee of the department of management and budget who is designated by the director of the department of management and budget, shall serve as a nonvoting ex officio member.

(g) One member of the joint capital outlay subcommittee of the appropriations committees of the senate and house of representatives, appointed by the chair of that subcommittee, shall serve as a nonvoting ex officio member.

(3) Voting members of the board shall serve terms of 4 years. Vacancies shall be filled in the same manner as the original appointment for an unexpired term. Of the members first appointed, the members appointed by the chair of the state agency and the mayor of the city shall serve for 2 years, the members appointed by the state agency and the governing body of the city shall serve for 3 years, and the member appointed by agreement of the other members shall serve for 4 years. Ex officio nonvoting members do not have fixed terms of office.

(4) An individual appointed by the governing body of a city or by the mayor may be removed in the same manner as provided by the city's charter.

(5) A majority of the members of a board constitutes a quorum for the purpose of conducting business and exercising the powers of the authority. Official action may be taken by an authority upon the vote of a majority of the board members present, unless the bylaws of the authority require a larger number.

(6) Members of the board shall not receive compensation for services as members of an authority but are entitled to necessary expenses, including travel expenses, incurred in the discharge of their duties.

(7) The business that an authority may perform shall be conducted at a public meeting of the authority held in compliance with the open meetings act, Act No. 267 of the Public Acts of 1976, being sections 15.261 to 15.275 of the Michigan Compiled Laws. Public notice of the time, date, and place of the meeting shall be given in the manner required by Act No. 267 of the Public Acts of 1976.

(8) A writing prepared, owned, or used by an authority in the performance of an official function shall be made available in compliance with the freedom of information act, Act No. 442 of the Public Acts of 1976, being sections 15.231 to 15.246 of the Michigan Compiled Laws.

(9) At its first meeting, a board shall elect a chairperson and any other officers it considers necessary. The authority shall meet at least quarterly.

History: 1994, Act 451, Eff. Mar. 30, 1995.

Popular name: Act 451

Popular name: NREPA

324.903 Articles of incorporation; contents.

Sec. 903. (1) A board shall draft and adopt articles of incorporation and bylaws for the administration of the authority.

(2) An authority's articles shall state the name of the authority; the name of the participating city and state agency; the purposes for which the authority is formed; the powers, duties, and limitations of the authority and its board; the manner in which participating local and state governmental units shall take part in the governance of the authority; the general method of amending the articles; and any other matters that the board considers advisable.

History: 1994, Act 451, Eff. Mar. 30, 1995.

Popular name: Act 451

Popular name: NREPA

324.904 Articles of incorporation; procedure for adoption.

Sec. 904. (1) The articles of an authority shall be adopted and may be amended by an affirmative vote of a majority of the members serving on the governing body of the participating city and state agency.

(2) Before the articles or amendments to the articles are adopted, the articles or amendments to the articles shall be published by the clerk of the city at least once in a newspaper generally circulated within the participating city.

(3) The adoption of articles or amendments to the articles by the respective governing bodies shall be evidenced by an endorsement on the articles or amendments by the clerk or secretary of the governing bodies in a form substantially as follows:

"These articles of incorporation (or amendments to the articles of incorporation) were adopted by an affirmative vote of a majority of the members serving on the governing body of _____, _____ at a meeting duly held on the _____ day of _____, A.D., _____."

(4) Upon adoption of the articles or amendments to the articles, a printed copy of the articles or the amended articles shall be filed with the secretary of state, the clerk of the city, and the secretary of the state commission.

History: 1994, Act 451, Eff. Mar. 30, 1995.

Popular name: Act 451

Popular name: NREPA

324.905 Powers of authority subject to articles of incorporation.

Sec. 905. (1) The articles may authorize an authority to propose standards, criteria, and regulations.

(2) To the extent authorized in the articles, an authority may plan, promote, finance, issue bonds for, acquire, improve, enlarge, extend, own, lease, construct, replace, or contract for public improvements and services, including, but not limited to, the following:

(a) Water and sewer public improvements and services.

(b) Solid waste collection, recycling, and disposal.

(c) Other public improvements relating to environmental matters that the city and the state agency in writing agree to assume.

History: 1994, Act 451, Eff. Mar. 30, 1995.

Popular name: Act 451

Popular name: NREPA

324.906 Powers of authority generally.

Sec. 906. An authority may do 1 or more of the following:

(a) Acquire and hold, by purchase, lease, grant, gift, devise, land contract, installment purchase contract, bequest, or other legal means, real and personal property inside or outside the boundaries of the authority. The property may include franchises, easements, or rights-of-way on, under, or above any property. The authority may pay for the property, or pledge for the payment of the property, from revenue of the authority.

(b) Apply for and accept grants, loans, or contributions from the federal government or any of its agencies, this state, the city, or other public or private agencies to be used for any of the purposes of this part.

(c) Contract with the city for the provision of services of a type listed in section 905(2) for a period not exceeding 30 years. The service may be established or funded in conjunction with an existing service of a local governmental unit, and the provision of a service of a local governmental unit may be delegated to an authority. A charge specified in a contract is subject to increase by the authority if that increase is necessary to provide funds to meet the authority's obligations.

(d) Retain full-time employees to staff the authority and to implement the policies of the authority.

(e) Provide for and be responsible for the maintenance of all of the following for a public purpose, subject to the articles and bylaws of the authority:

(*i*) Potable water.

(*ii*) Sewage systems.

(*iii*) Solid waste management.

(*iv*) Other municipal functions delegated to it in writing by the respective governing bodies of the participating city and state agency.

(f) Assess and collect fees for its services and expenses.

(g) Receive revenue from any source as appropriated by the legislature or the governing body of the city.

History: 1994, Act 451, Eff. Mar. 30, 1995.

Popular name: Act 451

Popular name: NREPA

324.907 Dissolution of authority.

Sec. 907. Upon the expiration of a term agreed by the incorporating units, the authority shall be dissolved unless the city and the state agency agree to extend the existence of the authority for an additional term of years. The authority may only be dissolved during a term upon the vote of a 2/3 majority of the governing bodies of both the city and the state agency. Upon dissolution, the assets of the authority become the property of the city.

History: 1994, Act 451, Eff. Mar. 30, 1995.

Popular name: Act 451

Popular name: NREPA

PART 11
GENERAL APPELLATE RIGHTS AND PUBLIC ACCESS TO GOVERNMENT

324.1101 Review of decision.

Sec. 1101. (1) If a person has legal standing to challenge a final decision of the department under this act regarding the issuance, denial, suspension, revocation, annulment, withdrawal, recall, cancellation, or amendment of a permit or operating license, the commission, upon request of that person, shall review the decision and make the final agency decision. A preliminary, procedural, or intermediate decision of the department is reviewable by the commission only if the commission elects to grant a review. If a person is granted review by the commission under this section, the person is considered to have exhausted his or her administrative remedies with regard to that matter. The commission may utilize administrative law judges or hearing officers to conduct the review of decisions as contested case hearings and to issue proposals for decisions as provided by law or rule.

(2) In all instances, except those described in subsection (1), if a person has legal standing to challenge a final decision of the department under this act, that person may seek direct review by the courts as provided

by law. Direct review by the courts is available to that person as an alternative to any administrative remedy that is provided in this act. A preliminary, procedural, or intermediate action or ruling of the department is not immediately reviewable, except that the court may grant leave for review of a preliminary, procedural, or intermediate action or ruling if the court determines that review of the final decision would not provide an adequate remedy. If a person is granted direct review by the courts under this section, the person is considered to have exhausted his or her administrative remedies with regard to that matter.

(3) If the court does not review a decision of the department brought before the court as provided in this section, the person with legal standing retains any administrative appeal rights that are otherwise provided by law.

(4) If the court reviews a preliminary, procedural, or intermediate decision of the department brought before the court as provided in this section, the person with legal standing retains the right to judicial review of the final decision of the department as provided by law.

History: 1994, Act 451, Eff. Mar. 30, 1995.

Popular name: Act 451

Popular name: NREPA

324.1102 Violation of MCL 168.1 to 168.992 applicable to petitions; penalties.

Sec. 1102. A petition under section 4307, 4709, or 11906, including the circulation and signing of the petition, is subject to section 488 of the Michigan election law, 1954 PA 116, MCL 168.488. A person who violates a provision of the Michigan election law, 1954 PA 116, MCL 168.1 to 168.992, applicable to a petition described in this section is subject to the penalties prescribed for that violation in the Michigan election law, 1954 PA 116, MCL 168.1 to 168.992.

History: Add. 1998, Act 187, Eff. Mar. 23, 1999.

Popular name: Act 451

Popular name: NREPA

PART 13
PERMITS

324.1301 Definitions.

Sec. 1301. As used in this part:

(a) "Application period" means the period beginning when an application for a permit is received by the state and ending when the application is considered to be administratively complete under section 1305 and any applicable fee has been paid.

(b) "Department" means the department, agency, or officer authorized by this act to approve or deny an application for a particular permit. As used in sections 1315 to 1317, "department" means the department of environmental quality.

(c) "Director" means the director of the state department authorized under this act to approve or deny an application for a particular permit or the director's designee. As used in sections 1313 to 1317, "director" means the director of the department of environmental quality.

(d) "Environmental permit review commission" or "commission" means the environmental permit review commission established under section 1313(1).

(e) "Environmental permit panel" or "panel" means a panel of the environmental permit review commission, appointed under section 1315(2).

(f) "Permit", except as provided in subdivision (g), means a permit, operating license, or registration required by any of the following sections or by rules promulgated thereunder, or, in the case of section 9112, by an ordinance referred to in that section:

(*i*) Section 3104, floodplain alteration permit.

(*ii*) Section 3503, permit for use of water in mining iron ore.

(*iii*) Section 4105, sewerage system construction permit.

(*iv*) Section 6516, vehicle testing license.

(*v*) Section 6521, motor vehicle fleet testing permit.

(*vi*) Section 8310, restricted use pesticide dealer license.

(*vii*) Section 8310a, agricultural pesticide dealer license.

(*viii*) Section 8504, license to manufacture or distribute fertilizer.

(*ix*) Section 9112, local soil erosion and sedimentation control permit.

(*x*) Section 11509, solid waste disposal area construction permit.

(*xi*) Section 11512, solid waste disposal area operating license.

(*xii*) Section 11542, municipal solid waste incinerator ash landfill operating license amendment.

(*xiii*) Section 11702, septage waste servicing license or septage waste vehicle license.

(*xiv*) Section 11709, septage waste site permit.

(*xv*) Section 30104, inland lakes and streams project permit.

(*xvi*) Section 30304, state permit for dredging, filling, or other activity in wetland. Permit includes an authorization for a specific project to proceed under a general permit issued under section 30312.

(*xvii*) Section 31509, dam construction, repair, or removal permit.

(*xviii*) Section 32312, flood risk, high risk, or environmental area permit.

(*xix*) Section 32512, permit for dredging and filling bottomland.

(*xx*) Section 32603, permit for submerged log removal from Great Lakes bottomlands.

(*xxi*) Section 35304, department permit for critical dune area use.

(*xxii*) Section 36505, endangered species permit.

(*xxiii*) Section 41329, nonnative aquatic species sales registration.

(*xxiv*) Section 41702, game bird hunting preserve license.

(*xxv*) Section 42101, dog training area permit.

(*xxvi*) Section 42501, fur dealer's license.

(*xxvii*) Section 42702, game dealer's license.

(*xxviii*) Section 44513, charter boat operating permit under reciprocal agreement.

(*xxix*) Section 44516, boat livery operating permit.

(*xxx*) Section 45902, game fish propagation license.

(*xxxi*) Section 45906, game fish import license.

(*xxxii*) Section 48705, permit to take amphibians and reptiles for scientific or educational use.

(*xxxiii*) Section 61525, oil or gas well drilling permit.

(*xxxiv*) Section 62509, brine, storage, or waste disposal well drilling or conversion permit or test well drilling permit.

(*xxxv*) Section 63103a, ferrous mineral mining permit.

(*xxxvi*) Section 63514 or 63525, surface coal mining and reclamation permit or revision of the permit, respectively.

(*xxxvii*) Section 63704, sand dune mining permit.

(*xxxviii*) Section 72108, use permits for a Pure Michigan Trail.

(*xxxix*) Section 76109, sunken aircraft or watercraft abandoned property recovery permit.

(*xxxx*) Section 76504, Mackinac Island motor vehicle and land use permits.

(*xxxxi*) Section 80159, buoy or beacon permit.

(g) "Permit", as used in sections 1313 to 1317, means any permit or operating license that meets both of the following conditions:

(*i*) The applicant for the permit or operating license is not this state or a political subdivision of this state.

(*ii*) The permit or operating license is issued by the department of environmental quality under this act or the rules promulgated under this act.

(h) "Processing deadline" means the last day of the processing period.

(i) "Processing period", subject to section 1307(2) and (3), means the following time period after the close of the application period, for the following permit, as applicable:

(*i*) Twenty days for a permit under section 61525 or 62509.

(*ii*) Thirty days for a permit under section 9112 or 44516.

(*iii*) Thirty days after the department consults with the underwater salvage and preserve committee created under section 76103, for a permit under section 76109.

(*iv*) Sixty days, for a permit under section 30104 for a minor project established under section 30105(7) or 32512a(1), or an authorization for a specific project to proceed under a general permit issued under section 30105(8) or 32512a(2), or for a permit under section 32312 or 41329.

(*v*) Sixty days or, if a hearing is held, 90 days for a permit under section 35304.

(*vi*) Sixty days or, if a hearing is held, 120 days for a permit under section 30104, other than a permit or authorization described in subparagraph (*ii*) or (*iv*), or for a permit under section 31509.

(*vii*) Ninety days for a permit under section 11512, a revision of a surface coal mining and reclamation permit under section 63525, or a permit under section 72108.

(*viii*) Ninety days or, if a hearing is held, 150 days for a permit under section 3104 or 30304, or a permit under section 32512 other than a permit described in subparagraph (*iv*).

(*ix*) Ninety days after the close of the review or comment period under section 32604, or if a public hearing is held, 90 days after the date of the public hearing for a permit under section 32603.

(*x*) One hundred twenty days for a permit under section 11509, 11542, 63103a, 63514, or 63704.

(*xi*) One hundred fifty days for a permit under section 36505. However, if a site inspection or federal approval is required, the 150-day period is tolled pending completion of the inspection or receipt of the federal approval.

(*xii*) For any other permit, 150 days or, if a hearing is held, 90 days after the hearing, whichever is later.

History: Add. 2004, Act 325, Imd. Eff. Sept. 10, 2004;—Am. 2004, Act 381, Imd. Eff. Oct. 12, 2004;—Am. 2008, Act 18, Imd. Eff. Feb. 29, 2008;—Am. 2009, Act 120, Eff. Popular name: Act 451

Popular name: NREPA

324.1303 Permit application; format; documents.

Sec. 1303. (1) An application for a permit shall be submitted to the department in a format to be developed by the department, except as provided in section 30307 with respect to a state wetland permit.

(2) The department shall, upon request and without charge, provide a person a copy of all of the following:

(a) A list that specifies in detail the information required to complete the permit application.

(b) A blank permit application form.

(c) In concise form, any instructions necessary to complete the application.

(d) A complete, yet concise, explanation of the permit review process.

(3) The department shall post the documents described in subsection (2) on its website.

History: Add. 2004, Act 325, Imd. Eff. Sept. 10, 2004;—Am. 2011, Act 246, Imd. Eff. Dec. 8, 2011.

Popular name: Act 451

Popular name: NREPA

324.1305 Receipt of permit application; notice of incomplete application; time period; request for new or additional information.

Sec. 1305. (1) After a department receives an application for a permit, the department shall determine whether the application is administratively complete. Unless the department proceeds as provided under subsection (2), the application shall be considered to be administratively complete when the department makes that determination or 30 days after the state receives the application, whichever is first.

(2) If, before the expiration of the 30-day period under subsection (1), the department notifies the applicant that the application is not administratively complete, specifying the information necessary to make the application administratively complete, or notifies the applicant that a fee required to accompany the application has not been paid, specifying the amount due, the running of the 30-day period under subsection (1) is tolled until the applicant submits to the department the specified information or fee amount due. The notice shall be given in writing or by electronic notification.

(3) Subject to subsection (4), after an application for a permit is considered to be administratively complete under this section, the department shall not request from the applicant any new or additional information that is not specified in the list required under section 1303(2)(a) unless the request includes a detailed explanation of why the information is needed. The applicant is not required to provide the requested information as a condition for approval of the permit.

(4) After an application for a permit is considered to be administratively complete under this section, the department may request the applicant to clarify, amplify, or correct the information required for the application. The applicant shall provide the requested information.

History: Add. 2004, Act 325, Imd. Eff. Sept. 10, 2004;—Am. 2011, Act 246, Imd. Eff. Dec. 8, 2011.

Popular name: Act 451

Popular name: NREPA

324.1307 Approval or denial of permit application; extension of processing period; tolling of processing period; explanation of reasons for permit denial; failure of department to satisfy requirements of subsection (1); effect; notification to legislative committees.

Sec. 1307. (1) By the processing deadline, the department shall approve or deny an application for a permit.

(2) If requested by the permit applicant, the department shall extend the processing period for a permit by not more than 120 days, as specified by the applicant. If requested by the permit applicant, the department may extend the processing period beyond the additional 120 days. However, a processing period shall not be

extended under this subsection to a date later than 1 year after the application period ends.

(3) A processing period is tolled from the date that a permit applicant submits a petition under section 1315(1) until the date that a decision of the director is made under section 1315(6). If a permit applicant submits a petition under section 1315(1), the department shall not approve or deny the application for the permit under subsection (1) until after the director issues a decision under section 1315(6).

(4) The approval or denial of an application for a permit shall be in writing and shall be based upon evidence that would meet the standards in section 75 of the administrative procedures act of 1969, 1969 PA 306, MCL 24.275.

(5) Approval of an application for a permit may be granted with conditions or modifications necessary to achieve compliance with the part or parts of this act under which the permit is issued.

(6) A denial of an application for a permit or, for a permit under part 301 or 303, an approval with modification of an application for a permit shall document, and any review upholding the denial or modification shall determine, to the extent practical, all of the following:

(a) That the decision is based on specifically cited provisions of this act or rules promulgated under this act.

(b) That the decision is based upon sufficient facts or data, which are recorded in the file.

(c) To the extent applicable, all of the following:

(*i*) That the decision is the product of reliable scientific principles and methods.

(*ii*) That the decision has applied the principles and methods reliably to the facts.

(d) In the case of denial of an application for a permit under part 301 or 303, suggestions on changes to allow the permit to be approved.

(7) Except for permits described in subsection (8), if the department fails to satisfy the requirements of subsection (1) with respect to an application for a permit, the department shall pay the applicant an amount equal to 15% of the greater of the following, as applicable:

(a) The amount of the application fee for that permit.

(b) If an assessment or other fee is charged on an annual or other periodic basis by the department to a person holding the permit for which the application was submitted, the amount of the first periodic charge of that assessment or other fee for that permit.

(8) If the department fails to satisfy the requirements of subsection (1) with respect to a permit required by section 11509, 11512, 30304, or 32603, the application shall be considered to be approved and the department shall be considered to have made any determination required for approval.

(9) The failure of the department to satisfy the requirements of subsection (1) or the fact that the department is required to make a payment under subsection (7) or is considered to have approved a permit under subsection (8) shall not be used by the department as the basis for discriminating against the applicant. If the department is required to make a payment under subsection (7), the application shall be processed in sequence with other applications for the same type of permit, based on the date on which the processing period began, unless the director determines on an application-by-application basis that the public interest is best served by processing in a different order.

(10) If the department fails to satisfy the requirements of subsection (1) with respect to 10% or more of the applications for a particular type of permit received during a quarter of the state fiscal year, the department shall immediately devote resources from that program to eliminate any backlog and satisfy the requirements of subsection (1) with respect to new applications for that type of permit within the next fiscal quarter.

(11) If the department fails to satisfy the requirements of subsection (1), the director shall notify the appropriations committees of the senate and house of representatives of the failure. The notification shall be in writing and shall include both of the following:

(a) An explanation of the reason for the failure.

(b) A statement of the amount the department was required to pay the applicant under subsection (7) or a statement that the department was required to consider the application to be approved under subsection (8), as applicable.

History: Add. 2004, Act 325, Imd. Eff. Sept. 10, 2004;—Am. 2011, Act 218, Imd. Eff. Nov. 10, 2011;—Am. 2011, Act 236, Imd. Eff. Dec. 1, 2011;—Am. 2012, Act 164, Imd. Eff. June 14, 2012;—Am. 2013, Act 98, Imd. Eff. July 2, 2013;—Am. 2018, Act 268, Imd. Eff. June 29, 2018;—Am. 2018, Act 631, Eff. Mar. 29, 2019.

324.1309 Submissions of applications for more than 1 type of permit.

Sec. 1309. If a person submits applications for more than 1 type of permit for a particular development or project, the department or departments shall process the applications in a coordinated fashion to the extent

feasible given procedural requirements applicable to individual permits and, at the request of an applicant, appoint a primary contact person to assist in communications with the department or departments.

History: Add. 2004, Act 325, Imd. Eff. Sept. 10, 2004.

Popular name: Act 451

Popular name: NREPA

324.1311 Report; information.

Sec. 1311. By December 1 each year, the director shall submit a report to the standing committees and appropriations subcommittees of the senate and house of representatives with primary responsibility for issues under the jurisdiction of that department. The department shall post the current report on its website. The report shall include all of the following information for each type of permit for the preceding fiscal year:

(a) The number of applications for permits the department received.

(b) The number of applications approved, the number of applications approved by the processing deadline, the number of applications approved after the processing deadline, and the average times for the department to determine administrative completeness and to approve or disapprove applications.

(c) The number of applications denied, the number of applications denied by the processing deadline, and the number of applications denied after the processing deadline.

(d) The number of applications approved or denied after the processing deadline that, based on the director's determination of the public interest, were not processed in sequence as otherwise required by section 1307(9).

(e) The number of applications that were not administratively complete when received.

(f) The amount of money refunded and discounts granted under section 1307.

(g) The number of applications processed as provided in section 1309.

(h) If a department failed to satisfy the requirements of section 1307(1) with respect to 10% or more of the applications for a particular type of permit received during a quarter of the state fiscal year, the type of permit and percentage of applications for which the requirements were not met, how the department attempted to eliminate any backlog and satisfy the requirements of section 1307(1) with respect to new applications for that type of permit within the next fiscal quarter, and whether the department was successful.

History: Add. 2004, Act 325, Imd. Eff. Sept. 10, 2004;—Am. 2011, Act 246, Imd. Eff. Dec. 8, 2011;—Am. 2013, Act 98, Imd. Eff. July 2, 2013;—Am. 2018, Act 268, Imd. Eff. June 29, 2018.

Popular name: Act 451

Popular name: NREPA

324.1313 Environmental permit review commission; membership; limitations; term; removal; public meeting.

Sec. 1313. (1) The environmental permit review commission is established in the department of environmental quality. The commission shall advise the director on disputes related to permits and permit applications.

(2) The commission shall consist of 15 individuals, appointed by the governor. The governor shall appoint the first commission within 60 days after the effective date of the amendatory act that added this section. Each member of the commission shall meet 1 or more of the following:

(a) Have the equivalent of 6 years of full-time relevant experience as a practicing engineer, geologist, hydrologist, or hydrogeologist.

(b) Have a master's degree from an accredited institution of higher education in a discipline of engineering or science related to air or water and the equivalent of 8 years of full-time relevant experience.

(3) An individual is not eligible to be a member of the commission if any of the following apply:

(a) The individual is a current employee of any office, department, or agency of this state.

(b) The individual is a party to 1 or more contracts with the department of environmental quality and the compensation paid under those contracts in any of the preceding 3 years represented more than 5% of the individual's annual gross income in that preceding year.

(c) The individual is employed by an entity that is a party to 1 or more contracts with the department of environmental quality and the compensation paid to the individual's employer under those contracts in any of the preceding 3 years represented more than 5% of the employer's annual gross revenue in that preceding year.

(d) The individual was employed by the department of environmental quality within the preceding 3 years.

(4) An individual appointed to the commission shall serve for a term of 4 years, except as provided in this subsection, and may be reappointed. However, after serving 2 consecutive terms on the commission, the

individual is not eligible to serve on the commission for 2 years. The terms for members first appointed shall be staggered so that 5 expire in 2 years, 5 expire in 3 years, and 5 expire in 4 years. A vacancy on the commission shall be filled in the same manner as the original appointment.

(5) The governor may remove a member of the commission for incompetence, dereliction of duty, malfeasance, misfeasance, or nonfeasance in office, or any other good cause.

(6) Individuals appointed to the commission shall serve without compensation. However, members of the commission may be reimbursed for their actual and necessary expenses incurred in the performance of their official duties as members of the commission.

(7) The business that the commission may perform shall be conducted at a public meeting of the commission held in compliance with the open meetings act, 1976 PA 267, MCL 15.261 to 15.275.

324.1315 Petition for permit review; panel meeting; written recommendation; director's decision; appeal; conflict of interest.

Sec. 1315. (1) A permit applicant may seek review by a panel by submitting a petition to the director before the permit has been approved or denied. The petition shall include the issues in dispute, the relevant facts, and any data, analysis, opinion, and supporting documentation for the petitioner's position. If the director believes that the dispute may be resolved without convening a panel, the director may contact the petitioner regarding the issues in dispute and may negotiate, for a period not to exceed 45 days, a resolution of the dispute.

(2) Unless the dispute is resolved pursuant to subsection (1), the director shall convene a meeting of a panel. The meeting shall be held within 45 days after the director received the petition. The panel shall consist of 3 members of the commission selected by the director on the basis of their relevant expertise. The director may select a replacement for a member who is unable to participate in the review process. To serve as a panel member, a commission member must submit to the director on a form provided by the department an agreement not to accept employment from the petitioner before 1 year after a decision is rendered on the matter if gross income from the employment would exceed 5% of the member's gross income from all sources in any of the preceding 3 years.

(3) The members of the panel shall elect a chairperson. Two members of the panel constitute a quorum. A majority of the votes cast are required for official action of the panel. The business that the panel may perform shall be conducted at a public meeting of the panel held in compliance with the open meetings act, 1976 PA 267, MCL 15.261 to 15.275.

(4) The director shall provide the panel with a copy of the petition and its supporting documentation and a copy of all supporting documentation from the department. At the meeting of the panel, representatives of the petitioner and the department shall each be given an opportunity to present their positions.

(5) Within 45 days after hearing the petition, the panel shall make a recommendation regarding the petition and provide written notice of the recommendation to the director and the petitioner. The written recommendation shall include the specific rationale for the recommendation. The recommendation may be to adopt, modify, or reverse, in whole or in part, the department's position or decision on the dispute that is the subject of the petition.

(6) Within 60 days after receiving written notice of the panel's recommendation, the director shall issue a decision, in writing, regarding the petition. If the director agrees with the recommendation, the department shall incorporate the recommendation into the terms of the permit. If the director does not agree with the recommendation, the director shall include in the written decision the specific rationale for rejecting the recommendation. If the director fails to make a decision within the time period provided for in this subsection, the recommendation of the panel shall be considered the decision of the director. The decision of the director under this subsection regarding a dispute related to a permit or permit application is not subject to review under this act, the administrative procedures act of 1969, 1969 PA 306, MCL 24.201 to 24.328, or section 631 of the revised judicature act of 1961, 1961 PA 236, MCL 600.631. However, the decision of the director under this subsection may be included in an appeal to a final permit action. If a permit applicant declines to submit a petition for review under this section, the decision of the department regarding the approval or denial of a permit is final permit action for purposes of any judicial review or other review allowed under this act, the administrative procedures act of 1969, 1969 PA 306, MCL 24.201 to 24.328, and section 631 of the revised judicature act of 1961, 1961 PA 236, MCL 600.631.

(7) A member of the commission shall not participate in a petition review if the member has a conflict of interest. A member has a conflict of interest if any of the following apply:

(a) The applicant has hired that member or the member's employer on any environmental matter within the preceding 3 years.

(b) The member has been an employee of the applicant within the preceding 3 years.

(c) The member has more than a 1% ownership interest in the applicant.

(8) The director shall select a member of the commission to participate in a petition review in place of a member disqualified under subsection (7).

Popular name: Act 451

Popular name: NREPA

324.1317 Contested case for permit; petition for review; environmental permit panel; staffing; written opinion; final decision and order.

Sec. 1317. (1) In a contested case regarding a permit, an administrative law judge shall preside, make the final decision, and issue the final decision and order for the department. Any party to the contested case, including the department, may, within 21 days after receiving the final decision and order, seek review of the final decision and order by an environmental permit panel by submitting a request to the director and a notice to the hearing officer.

(2) On petition for review of a final decision under subsection (1), the director shall convene an environmental permit panel in the same manner as provided under section 1315(2), except that the director shall not select as a member of the panel an individual who was a member of a panel that previously reviewed any dispute regarding the permit. The panel shall meet and conduct business in the same manner as provided under section 1315(2) and (3). The panel's review of the final decision must be limited to the record established by the administrative law judge.

(3) After an environmental permit panel is convened under subsection (2), a member of the panel shall not communicate, directly or indirectly, in connection with any issue of fact, with any party or other person, or, in connection with any issue of law, with any party or the party's representative, except on notice and opportunity for all parties to participate.

(4) An environmental permit panel may adopt, remand, modify, or reverse, in whole or in part, a final decision and order described in subsection (1). The panel shall issue an opinion that becomes the final decision of the department and is subject to judicial review as provided under the administrative procedures act of 1969, 1969 PA 306, MCL 24.201 to 24.328, and other applicable law.

(5) The Michigan administrative hearing system shall provide an environmental permit panel with all staff necessary for the panel to perform its duties under this section.

(6) An opinion issued by an environmental permit panel must be in writing and clearly define the legal and technical principles being applied.

(7) If no party timely appeals a final decision and order described in subsection (1) to an environmental permit panel, the final decision and order is the final agency action for purposes of any applicable judicial review.

PART 14
CLEAN CORPORATE CITIZENS

324.1401 Definitions; A to F.

Sec. 1401. As used in this part:

(a) "Applicable environmental requirement" means an applicable federal environmental requirement, an applicable state environmental requirement, or an environmental requirement established by a local unit of government.

(b) "Applicable federal environmental requirement" means any of the following:

(*i*) The federal water pollution control act, 33 USC 1251 to 1387.

(*ii*) The clean air act, 42 USC 7401 to 7671q.

(*iii*) The resource conservation and recovery act of 1976, 42 USC 6901 to 6992k.

(*iv*) The comprehensive environmental response, compensation, and liability act of 1980, 42 USC 9601 to 9675.

(c) "Applicable state environmental requirement" means any of the following or a rule promulgated or permit, order, or other legally binding document issued under any of the following:

(*i*) Article II or chapter 1 or 3 of article III.

(*ii*) The safe drinking water act, 1976 PA 399, MCL 325.1001 to 325.1023.

(*iii*) Part 135 or 138 of the public health code, 1978 PA 368, MCL 333.13501 to 333.13536 and 333.13801 to 333.13831.

(d) "Certified", in reference to a statement, means that the statement includes an attestation signed by an authorized official of the facility that he or she has made reasonable inquiry into the basis for the statement and that it is true and correct to the best of the official's knowledge and belief.

(e) "Clean corporate citizen" means a facility that has demonstrated environmental stewardship and a strong environmental ethic by meeting the criteria in this part.

(f) "Department" means the department of environmental quality.

(g) "Director" means the director of the department or his or her designee.

(h) "Environmental management system" means the part of an overall management system that addresses environmental concerns through allocating resources, assigning responsibilities, and evaluating practices, procedures, and processes to achieve sound environmental performance.

(i) "Environmental policy" means a policy, signed by an authorized official of the facility, that does all of the following:

(*i*) Articulates the facility's environmental mission and values.

(*ii*) Promotes pollution prevention.

(*iii*) Acknowledges the importance of communication with the public with respect to environmental issues.

(*iv*) Expresses the facility's commitment to comply with environmental laws.

(*v*) Emphasizes continuous environmental improvement.

(*vi*) Recognizes that every employee can contribute to environmental improvement.

(j) "Facility" means any of the following that is situated in this state and is subject to an applicable state environmental requirement or applicable federal environmental requirement:

(*i*) A source as defined in section 5501.

(*ii*) A public institution.

(*iii*) A municipal facility.

(*iv*) A commercial, industrial, or other business establishment.

History: Add. 2012, Act 554, Imd. Eff. Jan. 2, 2013.

Popular name: Act 451

Popular name: NREPA

324.1403 Definitions; I to W.

Sec. 1403. As used in this part:

(a) "ISO 14001:2004" means the standard adopted by the international organization for standardization in 2004 to prescribe uniform requirements for the purpose of certification or registration of an environmental management system.

(b) "Pollution prevention" means eliminating or minimizing the initial generation of waste at the source, reuse of waste, or utilizing environmentally sound on-site or off-site recycling. Waste treatment, release, or disposal is not pollution prevention.

(c) "RC 2008" means the responsible care program adopted by the American chemistry council in 2008 to provide uniform requirements for the purpose of certification or registration of an environmental management system.

(d) "Supplemental environmental project" means an environmentally beneficial project that an alleged violator agrees to undertake in settlement of an enforcement action, but which the alleged violator is not otherwise legally required to undertake.

(e) "Violation notice" means a written notice or formal enforcement action by the department, the United States environmental protection agency, or the enforcing agency of a local unit of government in response to a violation of an applicable environmental requirement. A voluntary disclosure made under part 148 does not constitute a violation notice.

(f) "Waste" means any environmental pollutant, waste, discharge, or emission, regardless of how it is regulated and regardless of whether it is released to the general environment or the workplace environment.

324.1407 Clean corporate citizen designation; disqualification; conduct.

Sec. 1407. (1) To qualify for a clean corporate citizen designation, a facility shall not have been the subject of any of the following at any time within the preceding 3 years:

(a) A conviction for a criminal violation of an applicable state environmental requirement.

(b) An assessment by a court of appropriate jurisdiction, of a civil fine, penalty, or damages of $10,000.00 or more for violation of an applicable state environmental requirement.

(c) A determination, by a court of appropriate jurisdiction, of responsibility for an illegal action that substantially endangered the public health, safety, or welfare or the environment.

(d) A departmental assessment, a judicial consent decree, or an administrative consent order, imposing a fine or damages of $32,500.00 or more, excluding the cost of any supplemental environmental project used to offset a fine, for a violation of an applicable state environmental requirement.

(2) A facility does not qualify for a clean corporate citizen designation if the department determines that the facility was responsible for a pattern of illegal actions, at any time within the preceding 3 years, that endangered the public health, safety, or welfare or the environment.

(3) To qualify for a clean corporate citizen designation, a facility shall address any outstanding violation that is cited in a violation notice that, as determined by the department, substantially endangers the public health, safety, or welfare or the environment, by doing 1 or more of the following:

(a) Promptly resolving the violation.

(b) Demonstrating to the department, the United States environmental protection agency, or the local enforcing agency that issued the violation notice that the violation did not occur.

(c) Adhering to a compliance schedule that is acceptable to the department, the United States environmental protection agency, or the local enforcing agency that issued the violation notice, to correct the violation.

324.1409 Clean corporate citizen designation; requirements.

Sec. 1409. To qualify for a clean corporate citizen designation, a facility shall meet 1 of the following requirements:

(a) Obtain and operate in accordance with requirements for registration or certification under an environmental management standard, such as ISO 14001:2004, or, for the chemical industry, RC 2008, that is approved by the director.

(b) Adopt and maintain an environmental management system that is set forth in writing and is consistent with the requirements of ISO 14001:2004, or, for the chemical industry, RC 2008, and appropriate for the nature, scale, and potential environmental impact of the operation at the facility.

(c) Adopt and maintain an environmental management system that is set forth in writing, approved by the director, and applicable to a specific group or classification of facilities including that facility. The environmental management system shall be consistent with the requirements of ISO 14001:2004, or, for the chemical industry, RC 2008, and be appropriate for the nature, scale, and potential environmental impact of the operation.

(d) For a facility with 100 or fewer employees, adopt and maintain the following elements of an environmental management system, which shall be set forth in writing:

(*i*) An environmental policy.

(*ii*) The environmental aspects.

(*iii*) The objectives and targets of operations.

(*iv*) The roles and responsibilities.

(*v*) The procedures for internal and external communication.

324.1411 Duties of facility.

Sec. 1411. (1) To qualify for a clean corporate citizen designation, a facility shall do all of the following:

(a) Adopt and maintain a written environmental policy.

(b) Establish and maintain a program specific for that facility under which the operator does all of the following:

(*i*) Posts at the facility the environmental policy required in subdivision (a).

(*ii*) Conducts periodic assessments that identify opportunities for pollution prevention.

(*iii*) Establishes goals for reducing or preventing pollution, indicating the types of pollution; whether each pollutant would affect the air, water, or land; the pollution prevention measures to be undertaken; and the projected time frames.

(*iv*) Prepares and maintains reports to demonstrate progress toward attaining the goals established under subparagraph (*iii*).

(2) Facilities are encouraged, as part of the program under subsection (1)(b), to do all of the following:

(a) Initiate community-based activities.

(b) Provide for the exchange of information concerning pollution prevention activities, such as the following:

(*i*) Attend or sponsor workshops.

(*ii*) Assist in developing and disseminating case studies.

(*iii*) Establish pollution prevention supplier networks.

(*iv*) Provide the department with pollution prevention information for possible publication.

(*v*) Provide the department with access to electronic copies of the facility's emergency response plan, pollution incident plan, stormwater pollution prevention plan, and other plans as appropriate.

324.1413 Application; form; additional information; determination of completed application; publication and posting; approval or disapproval by director; time limitation; reapplication upon disapproval; withdrawal; incorporation by reference.

Sec. 1413. (1) To obtain a clean corporate citizen designation, a facility shall submit an application to the department. The application shall be submitted on a form provided by the department, together with all of the following:

(a) A list of any criminal convictions or any civil fines, penalties, or damages assessed relative to applicable federal environmental requirements arising out of operations at the facility during the past 3 years.

(b) A certified statement that the applicant meets the requirements of sections 1407, 1409, and 1411.

(c) Information demonstrating the applicant's compliance with section 1409, including a detailed summary of each required element of an environmental management system.

(d) Information demonstrating the applicant's compliance with section 1411, including a copy of the applicant's environmental policy.

(e) A list of significant goals established in the environmental management system and the environmental policy.

(f) If the facility is already designated as a clean corporate citizen with respect to that facility when the application is filed, the latest annual report required under section 1419.

(2) The department shall determine whether the application is administratively complete within 14 days after receipt of the application.

(3) If the application is administratively complete, the department shall publish in the department calendar and post on its website a notice of receipt of the application and related documentation and of the availability of the application and related documentation for public review and comment. The notice shall include the department's electronic mail and postal mailing addresses for receipt of comments. Comments shall be received for a period of at least 30 days after notice is given under this subsection.

(4) Within 90 days after receipt of an administratively complete application for a clean corporate citizen designation, unless an extension of time is requested by the applicant, the director shall approve or disapprove the application and notify the applicant. The director shall approve the application if the application meets the requirements of this part. Otherwise, the director shall disapprove the application. A notification of disapproval shall include the specific reasons for the disapproval.

(5) If the application is disapproved, the unsuccessful applicant may reapply for a clean corporate citizen designation at any time. In addition, an applicant may withdraw an application without prejudice at any time.

(6) If a document otherwise required to be submitted to the department with an application under this section or an annual report under section 1419 is already in the possession of the department, the application or annual report may incorporate the document by reference without including a copy of the document.

324.1419 Annual report.

Sec. 1419. A clean corporate citizen shall submit an annual report not later than 60 days before the annual anniversary date of the current clean corporate citizen designation. The annual report shall do all of the following:

(a) Summarize the activities undertaken over the past year to do the following:

(*i*) Identify and report on implementation of standardized pollution prevention measures consistent with the program established under section 1411, on a form provided by the department.

(*ii*) Set, revise, and attain objectives and implement measures in the clean corporate citizen's environmental management system and pollution prevention programs.

(b) Include a certified statement that the clean corporate citizen is in compliance with sections 1407, 1409, and 1411.

History: Add. 2012, Act 554, Imd. Eff. Jan. 2, 2013.

Popular name: Act 451

324.1421 Benefits.

Sec. 1421. (1) Upon request, a clean corporate citizen is entitled to each of the following benefits:

(a) The department shall give the facility priority over persons that are not clean corporate citizens in all of the following:

(*i*) Compliance assistance programs applicable to the facility, such as the retired engineers technical assistance program created in section 14511.

(*ii*) Processing permit or operating license renewal applications for the facility.

(b) The department shall provide employees of the facility with free training on performing environmental audits under part 148.

(c) The term of a permit issued by the department for the facility shall be twice the term that would otherwise apply.

(d) The facility shall receive a preference for state purchases as provided in section 261 of the management and budget act, 1984 PA 431, MCL 18.1261.

(e) The facility qualifies for any additional clean corporate citizen benefits for the facilty set forth in rules promulgated under any of the following:

(*i*) Article II or chapter 1 or 3 of article III.

(*ii*) The safe drinking water act, 1976 PA 399, MCL 325.1001 to 325.1023.

(*iii*) Part 135 or 138 of the public health code, 1978 PA 368, MCL 333.13501 to 333.13536 and 333.13801

to 333.13831.

(f) The department shall conduct routine inspections of the facilty half as frequently as the inspections would be conducted if the facility were not a clean corporate citizen.

(g) The department shall give the operator of the facility at least 72 hours' advance notice of any routine inspection of the facility.

(h) Subject to subsection (2), the facility is not subject to a civil fine for a violation of applicable state environmental requirements if all of the following conditions are met:

(*i*) The facility acted promptly to correct the violation after discovery.

(*ii*) The facility reported the violation to the department within 24 hours after the discovery or within any shorter time period otherwise required by law.

(2) Subsection (1)(h) does not apply if 1 or more of the following are established by clear and convincing evidence:

(a) The actions of the facility pose or posed a substantial endangerment to the public health, safety, or welfare.

(b) The violation was intentional or occurred as the result of the operator's gross negligence.

PART 15
ENFORCEMENT

324.1501 Conservation officers as peace officers; powers, privileges, prerogatives, and immunities.

Sec. 1501. Conservation officers appointed by the department and trained and certified pursuant to the

Michigan law enforcement officers training council act of 1965, Act No. 203 of the Public Acts of 1965, being sections 28.601 to 28.616 of the Michigan Compiled Laws, are peace officers, and except as otherwise provided by law, are vested with all the powers, privileges, prerogatives, and immunities conferred upon peace officers as provided in this act, in Act No. 109 of the Public Acts of 1986, being sections 300.21 to 300.22 of the Michigan Compiled Laws, and in the general laws of this state.

History: 1994, Act 451, Eff. Mar. 30, 1995.

Popular name: Act 451

Popular name: NREPA

324.1502 Service and execution of criminal process; fees.

Sec. 1502. Except as otherwise provided by law, conservation officers appointed by the department have the same power to serve criminal process and to require aid in executing criminal process as sheriffs, and are entitled to the same fees as sheriffs in performing those duties under this act, under Act No. 109 of the Public Acts of 1986, being sections 300.21 to 300.22 of the Michigan Compiled Laws, and under the general laws of this state.

Popular name: Act 451

Popular name: NREPA

324.1505 Inspection; sampling process; exceptions; report; explanation and reasons; opportunity to provide comments; "department" defined.

Sec. 1505. (1) The department shall use a fair and equitable sampling process to select persons whose operations or facilities will be inspected.

(2) Subsection (1) does not apply to any of the following:

(a) An inspection performed in response to a complaint from a third party.

(b) An inspection performed because the department has evidence that a violation has occurred.

(c) A follow-up inspection to determine whether violations identified in a previous inspection have been corrected.

(d) An inspection required for the issuance of a permit.

(e) Any inspection otherwise required under state or federal law.

(3) The department shall annually submit to the legislature a report on all of the following:

(a) The methods used to comply with this section.

(b) The number of inspections subject to subsection (1) and the number of inspections described in subsection (2) that were performed by the department during the prior year.

(4) Before conducting an inspection under this act, the department shall provide the person whose operation or facility will be inspected with both of the following:

(a) An explanation of the person's rights and responsibilities with respect to the inspection.

(b) The reasons for conducting the inspection.

(5) After conducting an inspection under this act, the department shall give the person whose operation or facility was inspected an opportunity to provide comments to the department on the quality of the inspection and the professionalism of the inspector.

(6) As used in this section, "department" means the department of environmental quality.

324.1511 Written list of violations; meeting to discuss potential civil enforcement action and potential resolution; requirement; exception; definitions.

Sec. 1511. (1) Subject to subsection (2) and notwithstanding any other provision of this act, before initiating a civil enforcement action under this act against a person, the department shall do both of the following:

(a) Beginning May 1, 2019, provide the person in writing a list of each specific provision of statute, rule, or permit that the person is alleged to have violated and a statement of the facts constituting the violation.

(b) Contact the person and extend an offer for staff of the department to meet with the person to discuss the potential civil enforcement action and potential resolution of the issue. If the person agrees to meet with the department, the department shall not initiate a civil enforcement action until after the meeting is held, unless the meeting is not held within a reasonable time of not less than 60 days.

(2) Subsection (1) does not apply under any of the following circumstances:

(a) The civil enforcement action is a civil infraction action.

(b) The department determines that the violation that is the subject of the potential civil enforcement action constitutes an imminent and substantial endangerment of the public health, safety, or welfare or of the environment.

(3) As used in this section:

(a) "Department" means the department, agency, or officer authorized by this act to approve or deny an application for a permit.

(b) "Permit" means a permit or operating license issued under this act.

PART 16

ENFORCEMENT OF LAWS FOR PROTECTION OF WILD BIRDS, WILD ANIMALS, AND FISH

324.1601 Duties of department and appointed officers.

Sec. 1601. The department and any officer appointed by the department shall do all of the following:

(a) Enforce the statutes and laws of this state for the protection, propagation, or preservation of wild birds, wild animals, and fish.

(b) Enforce all other laws of this state that pertain to the powers and duties of the department or the commission.

(c) Bring or cause to be brought or prosecute or cause to be prosecuted actions and proceedings in the name of the people of this state for the purpose of punishing any person for the violation of statutes or laws described in this section.

History: Add. 1995, Act 60, Imd. Eff. May 24, 1995.

Popular name: Act 451

Popular name: NREPA

324.1602 Department or officer; prosecution; search without warrant; private property; definition; common carrier not liable; issuance of warrant; seizures; probable cause.

Sec. 1602. (1) The department, or an officer appointed by the department, may file a complaint and commence proceedings against any person for a violation of any of the laws or statutes described in section 1601, without the sanction of the prosecuting attorney of the county in which the proceedings are commenced. In such a case, the officer is not obliged to furnish security for costs. The department, or an officer appointed by the department, may appear for the people in any court of competent jurisdiction in any cases for violation of any of the statutes or laws described in section 1601, may prosecute the cases in the same manner and with the same authority as the prosecuting attorney of any county in which the proceedings are commenced, and may sign vouchers for the payment of jurors' or witnesses' fees in those cases in the same manner and with the same authority as prosecuting attorneys in criminal cases. Whenever an officer appointed by the department has probable cause to believe that any of the statutes or laws mentioned in section 1601 have been or are being violated by any particular person, the officer has the power to search, without warrant, any boat, conveyance, vehicle, automobile, fish box, fish basket, game bag, game coat, or any other receptacle or place, except dwellings or dwelling houses, or within the curtilage of any dwelling house, in which nets, hunting or fishing apparatuses or appliances, wild birds, wild animals, or fish may be possessed, kept, or carried by the person, and an officer appointed by the department may enter into or upon any private or public property for that purpose or for the purpose of patrolling, investigating, or examining when he or she has probable cause for believing that any of the statutes or laws described in section 1601 have been or are being violated on that property. The term "private property" as used in this part does not include dwellings or dwelling houses or that which is within the curtilage of any dwelling house. An officer appointed by the department shall at any and all times seize and take possession of any and all nets, hunting or fishing apparatuses or appliances, or other property, wild birds, wild animals, or fish, or any part or parts thereof, which have been caught, taken, killed, shipped, or had in possession or under control, at a time, in a manner, or for a purpose, contrary to any of the statutes or laws described in section 1601, and the seizure may be made without a warrant. A common carrier is not responsible for damages or otherwise to any owner, shipper, or consignee by reason of any such seizure. When a complaint is made on oath to any magistrate authorized to issue warrants in criminal cases that any wild birds, wild animals, or fish, any part or parts of wild birds, wild animals, or fish, or any nets, hunting or fishing apparatuses or appliances, or other property have been or are

being killed, taken, caught, had in possession or under control, or shipped, contrary to the statutes or laws described in section 1601, and that the complainant believes the property to be stored, kept, or concealed in any particular house or place, the magistrate, if he or she is satisfied that there is probable cause for the belief, shall issue a warrant to search for the property. The warrant shall be directed to the department, or an officer appointed by the department, or to any other peace officer. All wild birds, wild animals, fish, nets, boats, fishing or hunting appliances or apparatuses, or automobiles or other property of any kind seized by an officer shall be turned over to the department to be held by the department subject to the order of the court as provided in this part.

(2) For the purposes of this part, "probable cause" or "probable cause to believe" is present on the part of a peace officer if there are facts that would induce any fair-minded person of average intelligence and judgment to believe that a law or statute had been violated or was being violated contrary to any of the statutes or laws described in section 1601.

324.1603 Confiscation of seized property; jurisdiction; venue.

Sec. 1603. (1) The following courts have jurisdiction to determine whether seized property shall be confiscated as provided in section 1604:

(a) The district court, if the property is seized within this state, other than in a city having a municipal court or in a village served by a municipal court, and if the property is not appraised by the officer seizing the property at more than $25,000.00 in value.

(b) A municipal court, if the property is seized in a city having a municipal court or in a village served by a municipal court and if the property is not appraised by the officer seizing the property at more than $1,500.00 in value or $3,000.00 in value if the city in which the municipal court is located has increased the jurisdictional amount under section 22 of the Michigan uniform municipal court act, 1956 PA 5, MCL 730.522.

(c) The circuit court, if the property is seized within this state and if the property exceeds the value specified in subdivision (a) or (b) as appraised by the officer seizing the property.

(2) If the circuit court has jurisdiction under subsection (1), the proceeding shall be commenced in the county in which the property is seized.

(3) If the district court has jurisdiction under subsection (1), venue for a proceeding shall be as follows:

(a) In the county in which the property is seized, if the property is seized in a district of the first class.

(b) In the district in which the property is seized, if the property is seized in a district of the second or third class.

324.1604 Complaint; filing; contents; order to show cause; service; notice; hearing; condemnation and confiscation; sale or other disposal; disposition of proceeds; signing property release; return of property.

Sec. 1604. (1) The officer seizing the property shall file a verified complaint in the court having jurisdiction and venue over the seizure of the property pursuant to section 1603. The complaint shall set forth the kind of property seized, the time and place of the seizure, the reasons for the seizure, and a demand for the property's condemnation and confiscation. Upon the filing of the complaint, an order shall be issued requiring the owner to show cause why the property should not be confiscated. The substance of the complaint shall be stated in the order. The order to show cause shall fix the time for service of the order and for the hearing on the proposed condemnation and confiscation.

(2) The order to show cause shall be served on the owner of the property as soon as possible, but not less than 7 days before the complaint is to be heard. The court, for cause shown, may hear the complaint on shorter notice. If the owner is not known or cannot be found, notice may be served in 1 or more of the following ways:

(a) By posting a copy of the order in 3 public places for 3 consecutive weeks in the county in which the seizure was made and by sending a copy of the order by registered mail to the last known address of the owner. If the last known address of the owner is not known, mailing a copy of the order is not required.

(b) By publishing a copy of the order in a newspaper once each week for 3 consecutive weeks in the

county where the seizure was made and by sending a copy of the order by registered mail to the last known address of the owner. If the last known address of the owner is not known, mailing a copy of the order is not required.

(c) In such a manner as the court directs.

(3) Upon the hearing of the complaint, if the court determines that the property mentioned in the petition was caught, killed, possessed, shipped, or used contrary to law, either by the owner or by a person lawfully in possession of the property under an agreement with the owner, an order may be made condemning and confiscating the property and directing its sale or other disposal by the department, the proceeds from which shall be paid into the state treasury and credited to the game and fish protection account of the Michigan conservation and recreation legacy fund provided for in section 2010. If the owner or person lawfully in possession of the property seized signs a property release, a court proceeding is not necessary. At the hearing, if the court determines that the property was not caught, killed, possessed, shipped, or used contrary to law, the court shall order the department to return the property immediately to its owner.

324.1605 Review or certiorari; procedure; bond.

Sec. 1605. The proceedings for the condemnation and confiscation of any property under this part are subject to review or certiorari as provided in this part. A writ of certiorari may be issued within 10 days after final judgment and determination in any condemnation proceeding for the purpose of reviewing any error in the proceeding. Notice of the certiorari shall be served upon the department within 10 days after the date of issue, in the same manner as notice is required to be given of certiorari for reviewing judgments rendered by a justice of the peace, and the writ shall be issued and served and bond given and approved in the same manner as is required for reviewing judgments by justices of the peace.

324.1606 Department and conservation officer or peace officer; powers and duties; fees; park and recreation officers; enforcement of rules, orders, and laws; powers, privileges, and immunities; arrest powers; issuance of civil infraction citation; appearances; "minor offense" defined.

Sec. 1606. (1) The department and conservation officers appointed by the department are peace officers vested with all the powers, privileges, prerogatives, and immunities conferred upon peace officers by the general laws of this state; have the same power to serve criminal process as sheriffs; have the same right as sheriffs to require aid in executing process; and are entitled to the same fees as sheriffs in performing those duties.

(2) The department may commission park and recreation officers to enforce, on property regulated under part 741 or 781, rules promulgated by the department and orders issued by the department that are authorized in those rules, including, but not limited to, rules promulgated or orders issued under section 504, and any laws of this state specified in those rules as enforceable by commissioned park and recreation officers. In performing those enforcement activities, commissioned park and recreation officers are vested with the powers, privileges, prerogatives, and immunities conferred upon peace officers under the laws of this state. However, a park and recreation officer enforcing rules, orders, or laws described in this subsection on property regulated under part 781 may arrest an individual only for a minor offense committed in the officer's presence and shall issue an appearance ticket as provided in subsection (6).

(3) In addition to the limited arrest authority granted in subsection (2), on property regulated under part 741, a commissioned park and recreation officer may arrest an individual without a warrant if 1 or more of the following circumstances exist:

(a) In the presence of the park and recreation officer, the individual commits an assault or an assault and battery in violation of section 81 or 81a of the Michigan penal code, 1931 PA 328, MCL 750.81 and 750.81a.

(b) The park and recreation officer has reasonable cause to believe that a felony has been committed and reasonable cause to believe that the individual has committed it.

(c) The park and recreation officer has received affirmative written or verbal notice from a law

enforcement officer or agency that a peace officer possesses a warrant for the individual's arrest.

(d) The person violates section 625(1), (3), or (6) or 626 of the Michigan vehicle code, 1949 PA 300, MCL 257.625 and 257.626.

(e) The person violates part 741, 811, or 821 or section 80198b.

(f) The person violates section 11(7) or 19 of the personal watercraft safety act, 1998 PA 116, MCL 281.1411 and 281.1419.

(4) In addition to the limited arrest authority granted in subsection (2), on property regulated under part 781, a commissioned park and recreation officer may arrest an individual without a warrant for a minor offense listed in subsection (3) committed in the officer's presence and shall issue an appearance ticket as provided in subsection (6).

(5) A commissioned park and recreation officer under subsection (2) may issue a civil infraction citation to an individual who violates section 626b or 627 of the Michigan vehicle code, 1949 PA 300, MCL 257.626b and 257.627.

(6) If a conservation officer or a park and recreation officer commissioned under subsection (2) arrests a person without warrant for a minor offense committed in the officer's presence, instead of immediately bringing the person for arraignment by the court having jurisdiction, the officer may issue to and serve upon the person an appearance ticket as authorized by sections 9c to 9g of chapter IV of the code of criminal procedure, 1927 PA 175, MCL 764.9c to 764.9g. However, if a park and recreation officer commissioned under subsection (2) arrests a person without a warrant for a minor offense committed on property regulated under part 781 in the officer's presence, the park and recreation officer shall issue and serve upon the person such an appearance ticket.

(7) An appearance pursuant to an appearance ticket may be made in person, by representation, or by mail. If appearance is made by representation or mail, a district judge or a municipal judge may accept a plea of guilty and payment of a fine and costs on or before the definite court date indicated on the appearance ticket, or may accept a plea of not guilty for purposes of arraignment, both with the same effect as though the person personally appeared before the court. If appearance is made by representation or mail, a district court magistrate may accept a plea of guilty upon an appearance ticket and payment of a fine and costs on or before the definite court date indicated on the appearance ticket for those offenses within the magistrate's jurisdiction, as prescribed by section 8511 of the revised judicature act of 1961, 1961 PA 236, MCL 600.8511, or may accept a plea of not guilty for purposes of arraignment, if authorized to do so by the judge of the district court district, with the same effect as though the person personally appeared before the court. The court, by giving not less than 5 days' notice of the date of appearance, may require appearance in person at the place designated in the appearance ticket.

(8) This section does not prevent the execution of a warrant for the arrest of the person as in other cases of misdemeanors if necessary.

(9) If a person fails to appear, the court, in addition to the fine assessed if the person is found guilty for the offense committed, may add to the fine and costs levied against the person additional costs incurred in compelling the appearance of the person, which additional costs shall be returned to the general fund of the unit of government incurring the costs.

(10) As used in this section, "minor offense" means that term as defined in section 1 of chapter I of the code of criminal procedure, 1927 PA 175, MCL 761.1.

324.1607 Volunteer conservation officers.

Sec. 1607. (1) The department may appoint persons to function as volunteer conservation officers. A volunteer conservation officer shall be appointed to assist a conservation officer in the performance of the conservation officer's duties. While a volunteer conservation officer is assisting a conservation officer, the volunteer conservation officer has the same immunity from civil liability as a conservation officer, and shall be treated in the same manner as an officer or employee under section 8 of Act No. 170 of the Public Acts of 1964, being section 691.1408 of the Michigan Compiled Laws. The volunteer conservation officer shall not carry a firearm while functioning as a volunteer conservation officer.

(2) As used in this section, "volunteer" means a person who provides his or her service as a conservation officer without pay.

(3) To qualify as a volunteer conservation officer, a person shall meet all of the following qualifications:

(a) Have no felony convictions. In determining whether the person has a felony conviction, the person shall

present documentation to the department that a criminal record check through the law enforcement information network has been conducted by a law enforcement agency.

(b) Have completed 10 hours of training conducted by the law enforcement division of the department.

(4) Upon compliance with subsection (3) and upon recommendation by the department, a person may be appointed as a volunteer conservation officer. An appointment shall be valid for 3 years. At the completion of the 3 years, the volunteer conservation officer shall comply with the requirements of this section in order to be reappointed as a volunteer conservation officer.

(5) A volunteer conservation officer's appointment is valid only if the volunteer conservation officer is on assignment with, and in the company of, a conservation officer.

324.1615 Wildlife violator compact.

Sec. 1615. The governor of this state may enter into a compact on behalf of this state with any of the other states of the United States legally joining in the compact in the form substantially as follows:

ARTICLE I

FINDINGS, DECLARATION OF POLICY, AND PURPOSE

(a) The participating states find that:

(1) Wildlife resources are managed in trust by the respective states for the benefit of all residents and visitors.

(2) The protection of the wildlife resources of a state is materially affected by the degree of compliance with state statutes, state laws, state regulations, state ordinances, and state administrative rules relating to the management of such resources.

(3) The preservation, protection, management, and restoration of wildlife contributes immeasurably to the aesthetic, recreational, and economic aspects of such natural resources.

(4) Wildlife resources are valuable without regard to political boundaries; therefore, every person should be required to comply with wildlife preservation, protection, management, and restoration laws, ordinances,

and administrative rules and regulations of the participating states as a condition precedent to the continuance or issuance of any license to hunt, fish, trap, or possess wildlife.

(5) Violation of wildlife laws interferes with the management of wildlife resources and may endanger the safety of persons and property.

(6) The mobility of many wildlife law violators necessitates the maintenance of channels of communication among the various states.

(7) In most instances, a person who is cited for a wildlife violation in a state other than his home state:

(*i*) Is required to post collateral or a bond to secure appearance for a trial at a later date; or

(*ii*) Is taken into custody until the collateral or bond is posted; or

(*iii*) Is taken directly to court for an immediate appearance.

(8) The purpose of the enforcement practices set forth in paragraph (7) of this article is to ensure compliance with the terms of a wildlife citation by the cited person who, if permitted to continue on his way after receiving the citation, could return to his home state and disregard his duty under the terms of the citation.

(9) In most instances, a person receiving a wildlife citation in his home state is permitted to accept the citation from the officer at the scene of the violation and immediately continue on his way after agreeing or being instructed to comply with the terms of the citation.

(10) The practices described in paragraph (7) of this article cause unnecessary inconvenience and, at times, a hardship for the person who is unable at the time to post collateral, furnish a bond, stand trial, or pay a fine, and thus is compelled to remain in custody until some alternative arrangement is made.

(11) The enforcement practices described in paragraph (7) of this article consume an undue amount of law enforcement time.

(b) It is the policy of the participating states to:

(1) Promote compliance with the state statutes, state laws, state ordinances, state regulations, and state administrative rules relating to management of wildlife resources in their respective states.

(2) Recognize the suspension of wildlife license privileges of any person whose license privileges have been suspended by a participating state and treat such suspension as if it had occurred in their state.

(3) Allow a violator, except as provided in paragraph (b) of article III, to accept a wildlife citation and, without delay, proceed on his way, whether or not a resident of the state in which the citation was issued, provided that the violator's home state is party to this compact.

(4) Report to the appropriate participating state, as provided in the compact manual, any conviction recorded against any person whose home state was not the issuing state.

(5) Allow the home state to recognize and treat convictions recorded against its residents, which convictions occurred in a participating state, as though they had occurred in the home state.

(6) Extend cooperation to its fullest extent among the participating states for enforcing compliance with the terms of a wildlife citation issued in one participating state to a resident of another participating state.

(7) Maximize effective use of law enforcement personnel and information.

(8) Assist court systems in the efficient disposition of wildlife violations.

(c) The purpose of this compact is to:

(1) Provide a means through which participating states may join in a reciprocal program to effectuate the policies enumerated in paragraph (b) of this article in a uniform and orderly manner.

(2) Provide for the fair and impartial treatment of wildlife violators operating within participating states in recognition of the violator's right to due process and the sovereign status of a participating state.

ARTICLE II

DEFINITIONS

As used in this compact, unless the context requires otherwise:

(a) "Citation" means any summons, complaint, summons and complaint, ticket, penalty assessment, or other official document issued to a person by a wildlife officer or other peace officer for a wildlife violation which contains an order requiring the person to respond.

(b) "Collateral" means any cash or other security deposited to secure an appearance for trial in connection with the issuance by a wildlife officer or other peace officer of a citation for a wildlife violation.

(c) "Compliance" with respect to a citation means the act of answering a citation through an appearance in a court or tribunal, or through the payment of fines, costs, and surcharges, if any.

(d) "Conviction" means a conviction, including any court conviction, for any offense related to the preservation, protection, management, or restoration of wildlife which is prohibited by state statute, state law, state regulation, state ordinance, or state administrative rule, and such conviction shall also include the forfeiture of any bail, bond, or other security deposited to secure appearance by a person charged with having committed any such offense, the payment of a penalty assessment, a plea of nolo contendere and the

imposition of a deferred or suspended sentence by the court.

(e) "Court" means a court of law, including magistrate's court and the justice of the peace court.

(f) "Home state" means the state of primary residence of a person.

(g) "Issuing state" means the participating state which issues a wildlife citation to the violator.

(h) "License" means any license, permit, or other public document which conveys to the person to whom it was issued the privilege of pursuing, possessing, or taking any wildlife regulated by state statute, state law, state regulation, state ordinance, or state administrative rule of a participating state.

(i) "Licensing authority" means the department or division within each participating state which is authorized by law to issue or approve licenses or permits to hunt, fish, trap, or possess wildlife.

(j) "Participating state" means any state which enacts legislation to become a member of this wildlife compact.

(k) "Personal recognizance" means an agreement by a person made at the time of issuance of the wildlife citation that such person will comply with the terms of the citation.

(*l*) "State" means any state, territory, or possession of the United States, the District of Columbia, the Commonwealth of Puerto Rico, the Provinces of Canada, and other countries.

(m) "Suspension" means any revocation, denial, or withdrawal of any or all license privileges, including the privilege to apply for, purchase, or exercise the benefits conferred by any license.

(n) "Terms of the citation" means those conditions and options expressly stated upon the citation.

(o) "Wildlife" means all species of animals including, but not limited to, mammals, birds, fish, reptiles, amphibians, mollusks, and crustaceans, which are defined as "wildlife" and are protected or otherwise regulated by state statute, state law, state regulation, state ordinance, or state administrative rule in a participating state. Species included in the definition of "wildlife" vary from state to state and determination of whether a species is "wildlife" for the purposes of this compact shall be based on state law.

(p) "Wildlife law" means any state statute, state law, state regulation, state ordinance, or state administrative rule developed and enacted for the management of wildlife resources and the uses thereof.

(q) "Wildlife officer" means any individual authorized by a participating state to issue a citation for a wildlife violation.

(r) "Wildlife violation" means any cited violation of a state statute, state law, state regulation, state ordinance, or state administrative rule developed and enacted for the management of wildlife resources and the uses thereof.

ARTICLE III

PROCEDURES FOR ISSUING STATE

(a) When issuing a citation for a wildlife violation, a wildlife officer shall issue a citation to any person whose primary residence is in a participating state in the same manner as though the person were a resident of the issuing state and shall not require such person to post collateral to secure appearance, subject to the exceptions noted in paragraph (b) of this article, if the officer receives the recognizance of such person that he will comply with the terms of the citation.

(b) Personal recognizance is acceptable (1) if not prohibited by state law or the compact manual and (2) if the violator provides adequate proof of identification to the wildlife officer.

(c) Upon conviction or failure of a person to comply with the terms of a wildlife citation, the appropriate official shall report the conviction or failure to comply to the licensing authority of the participating state in which the wildlife citation was issued. The report shall be made in accordance with procedures specified by the issuing state and shall contain information as specified in the compact manual as minimum requirements for effective processing by the home state.

(d) Upon receipt of the report of conviction or noncompliance pursuant to paragraph (c) of this article, the licensing authority of the issuing state shall transmit to the licensing authority of the home state of the violator the information in the form and with the content as prescribed in the compact manual.

ARTICLE IV

PROCEDURE FOR HOME STATE

(a) Upon receipt of a report from the licensing authority of the issuing state reporting the failure of a violator to comply with the terms of a citation, the licensing authority of the home state shall notify the violator and shall initiate a suspension action in accordance with the home state's suspension procedures and shall suspend the violator's license privileges until satisfactory evidence of compliance with the terms of the wildlife citation has been furnished by the issuing state to the home state licensing authority. Due process safeguards shall be accorded.

(b) Upon receipt of a report of conviction from the licensing authority of the issuing state, the licensing authority of the home state shall enter such conviction in its records and shall treat such conviction as though it occurred in the home state for the purposes of the suspension of license privileges.

(c) The licensing authority of the home state shall maintain a record of actions taken and shall make reports to issuing states as provided in the compact manual.

ARTICLE V

RECIPROCAL RECOGNITION OF SUSPENSION

(a) All participating states shall recognize the suspension of license privileges of any person by any participating state as though the violation resulting in the suspension had occurred in their state and would have been the basis for a mandatory suspension of license privileges in their state.

(b) Each participating state shall communicate suspension information to other participating states in the form and with the content as contained in the compact manual.

ARTICLE VI

APPLICABILITY OF OTHER LAWS

(a) Except as expressly required by provisions of this compact, nothing herein shall be construed to affect the right of any participating state to apply any of its laws relating to license privileges to any person or circumstance or to invalidate or prevent any agreement or other cooperative arrangement between a participating state and a nonparticipating state concerning wildlife law enforcement.

ARTICLE VII

COMPACT ADMINISTRATOR PROCEDURES

(a) For the purpose of administering the provisions of this compact and to serve as a governing body for the resolution of all matters relating to the operation of this compact, a board of compact administrators is established. The board shall be composed of 1 representative from each of the participating states to be known as the compact administrator. The compact administrator shall be appointed by the head of the licensing authority of each participating state and shall serve and be subject to removal in accordance with the laws of the state he represents. A compact administrator may provide for the discharge of his duties and the performance of his functions as a board member by an alternate. An alternate shall not be entitled to serve unless written notification of his identity has been given to the board.

(b) Each member of the board of compact administrators shall be entitled to 1 vote. No action of the board shall be binding unless taken at a meeting at which a majority of the total number of the board's votes are cast in favor thereof. Action by the board shall be only at a meeting at which a majority of the participating states are represented.

(c) The board shall elect annually from its membership a chairman and vice-chairman.

(d) The board shall adopt bylaws not inconsistent with the provisions of this compact or the laws of a participating state for the conduct of its business and shall have the power to amend and rescind its bylaws.

(e) The board may accept for any of its purposes and functions under this compact any and all donations and grants of moneys, equipment, supplies, materials, and services, conditional or otherwise, from any state, the United States, or any governmental agency, and may receive, utilize and dispose of the donations and grants.

(f) The board may contract with, or accept services or personnel from, any governmental or intergovernmental agency, individual, firm, or corporation, or any private nonprofit organization or institution.

(g) The board shall formulate all necessary procedures and develop uniform forms and documents for administering the provisions of this compact. All procedures and forms adopted pursuant to board action shall be contained in a compact manual.

ARTICLE VIII

ENTRY INTO COMPACT AND WITHDRAWAL

(a) This compact shall become effective at such time as it is adopted in a substantially similar form by 2 or more states.

(b) (1) Entry into the compact shall be made by resolution of ratification executed by the authorized officials of the applying state and submitted to the chairman of the board.

(2) The resolution shall substantially be in the form and content as provided in the compact manual and shall include the following:

(*i*) A citation of the authority from which the state is empowered to become a party to this compact;

(*ii*) An agreement of compliance with the terms and provisions of this compact; and

(*iii*) An agreement that compact entry is with all states participating in the compact and with all additional states legally becoming a party to the compact.

(3) The effective date of entry shall be specified by the applying state but shall not be less than 60 days after notice has been given, (a) by the chairman of the board of the compact administrators or (b) by the secretariat of the board to each participating state, that the resolution from the applying state has been received.

(c) A participating state may withdraw from participation in this compact by official written notice to each participating state, but withdrawal shall not become effective until 90 days after the notice of withdrawal is given. The notice shall be directed to the compact administrator of each member state. No withdrawal of any state shall affect the validity of this compact as to the remaining participating states.

ARTICLE IX

AMENDMENTS TO THE COMPACT

(a) This compact may be amended from time to time. Amendments shall be presented in resolution form to the chairman of the board of compact administrators and shall be initiated by one or more participating states.

(b) Adoption of an amendment shall require endorsement by all participating states and shall become effective 30 days after the date of the last endorsement.

(c) Failure of a participating state to respond to the compact chairman within 120 days after receipt of a proposed amendment shall constitute endorsement thereof.

ARTICLE X

CONSTRUCTION AND SEVERABILITY

This compact shall be liberally construed so as to effectuate the purposes stated herein. The provisions of this compact are severable and if any phrase, clause, sentence, or provision of this compact is declared to be contrary to the constitution of any participating state or of the United States, or the applicability thereof to any government, agency, individual, or circumstance is held invalid, the validity of the remainder of this compact shall not be affected thereby. If this compact is held contrary to the constitution of any participating state, the compact shall remain in full force and effect as to the remaining states and in full force and effect as to the participating state affected as to all severable matters.

ARTICLE XI

TITLE

This compact shall be known as the "wildlife violator compact".

History: Add. 2004, Act 235, Imd. Eff. July 21, 2004.

Popular name: Act 451

Popular name: NREPA

324.1616 Interstate wildlife violator compact; enforcement; duties and powers of department; suspension of license privileges; surrender of license; hearing; limitations; failure to surrender license as misdemeanor; penalty; "compact" defined.

Sec. 1616. (1) The department shall enforce the compact and shall do all things within the department's jurisdiction that are appropriate in order to effectuate the purposes and the intent of the compact.

(2) On behalf of this state, the department may do either of the following:

(a) Withdraw from the compact under article VIII of the compact.

(b) Adopt amendments to the compact under article IX of the compact.

(3) Pursuant to article IV(a) of the compact, if the department receives notice from the licensing authority of an issuing state that a resident of this state has failed to comply with the terms of a citation, the department shall suspend the license privileges of the resident.

(4) Pursuant to article IV(b) of the compact, if the department receives notice of conviction of a resident of this state from the licensing authority of an issuing state, the department shall suspend the license privileges of the resident if the conviction would have resulted in mandatory suspension of the license had it occurred in this state. The department may suspend the license privileges if the conviction could have resulted in discretionary suspension of the license had the conviction occurred in this state.

(5) Pursuant to article V(a) of the compact, if the department receives notice of the suspension of any person's license privileges by a participating state, the department shall determine whether the violation leading to the suspension would have led to the suspension of license privileges under this state's law in accordance with the compact manual. If the department determines that the person's license privileges would have been suspended, the department may suspend the person's license privileges for the same period as imposed by the participating state, but not to exceed the maximum period allowed by the law of this state.

(6) If the department suspends a person's license privileges pursuant to the compact, the department shall provide the person with an opportunity for an evidentiary hearing under the administrative procedures act of 1969, 1969 PA 306, MCL 24.201 to 24.328, limited to the following grounds:

(a) Whether, under article IV(a) of the compact, the person failed to comply with the terms of a citation in another participating state.

(b) Whether, under article IV(b) of the compact, there was a conviction in another participating state and the conviction would have led to the suspension of license privileges under this state's law, the conviction is

on appeal in the participating state, or the alleged violator is not the proper party.

(c) Whether, under article V of the compact, a participating state suspended the person's license privileges and the violation leading to the suspension would have led to the forfeiture of privileges under this state's law, the conviction is on appeal in the participating state, or the alleged violator is not the proper party.

(7) An evidentiary hearing shall be requested within 20 days after the department sends the person notice of the suspension. The person shall surrender to the department any licenses issued under part 435 to the person within 10 days after notice of the suspension is sent. The department shall, by first-class mail, send to any resident of this state at his or her last known address notice of the suspension, of the opportunity for an evidentiary hearing, and of the obligation to surrender licenses.

(8) A person who fails to surrender a license under subsection (7) is guilty of a misdemeanor punishable by imprisonment for not more than 90 days or a fine of not less than $25.00 or more than $250.00, or both.

(9) As used in this section, "compact" means the interstate wildlife violator compact provided for in section 1615. If a term defined in article II of the compact is used in this section, the definitions in article II of the compact apply to that term as used in this section.

History: Add. 2013, Act 37, Imd. Eff. May 28, 2013.

Popular name: Act 451

Popular name: NREPA

PART 17

MICHIGAN ENVIRONMENTAL PROTECTION ACT

324.1701 Actions for declaratory and equitable relief for environmental protection; parties; standards; judicial action.

Sec. 1701. (1) The attorney general or any person may maintain an action in the circuit court having jurisdiction where the alleged violation occurred or is likely to occur for declaratory and equitable relief against any person for the protection of the air, water, and other natural resources and the public trust in these resources from pollution, impairment, or destruction.

(2) In granting relief provided by subsection (1), if there is a standard for pollution or for an antipollution device or procedure, fixed by rule or otherwise, by the state or an instrumentality, agency, or political subdivision of the state, the court may:

(a) Determine the validity, applicability, and reasonableness of the standard.

(b) If a court finds a standard to be deficient, direct the adoption of a standard approved and specified by the court.

History: 1994, Act 451, Eff. Mar. 30, 1995.

Popular name: Act 451

Popular name: NREPA

324.1702 Payment of costs or judgment; posting surety bond or cash; amount.

Sec. 1702. If the court has reasonable grounds to doubt the solvency of the plaintiff or the plaintiff's ability to pay any cost or judgment that might be rendered against him or her in an action brought under this part, the court may order the plaintiff to post a surety bond or cash in an amount of not more than $500.00.

History: 1994, Act 451, Eff. Mar. 30, 1995.

Popular name: Act 451

Popular name: NREPA

324.1703 Rebuttal evidence; affirmative defense; burden of proof; referee; costs.

Sec. 1703. (1) When the plaintiff in the action has made a prima facie showing that the conduct of the defendant has polluted, impaired, or destroyed or is likely to pollute, impair, or destroy the air, water, or other natural resources or the public trust in these resources, the defendant may rebut the prima facie showing by the submission of evidence to the contrary. The defendant may also show, by way of an affirmative defense, that there is no feasible and prudent alternative to defendant's conduct and that his or her conduct is consistent with the promotion of the public health, safety, and welfare in light of the state's paramount concern for the protection of its natural resources from pollution, impairment, or destruction. Except as to the affirmative defense, the principles of burden of proof and weight of the evidence generally applicable in civil actions in the circuit courts apply to actions brought under this part.

(2) The court may appoint a master or referee, who shall be a disinterested person and technically qualified, to take testimony and make a record and a report of his or her findings to the court in the action.

(3) Costs may be apportioned to the parties if the interests of justice require.

History: 1994, Act 451, Eff. Mar. 30, 1995.

Popular name: Act 451

Popular name: NREPA

324.1704 Granting of relief; administrative, licensing, or other proceedings; adjudication; judicial review.

Sec. 1704. (1) The court may grant temporary and permanent equitable relief or may impose conditions on the defendant that are required to protect the air, water, and other natural resources or the public trust in these resources from pollution, impairment, or destruction.

(2) If administrative, licensing, or other proceedings are required or available to determine the legality of the defendant's conduct, the court may direct the parties to seek relief in such proceedings. Proceedings described in this subsection shall be conducted in accordance with and subject to the administrative procedures act of 1969, Act No. 306 of the Public Acts of 1969, being sections 24.201 to 24.328 of the Michigan Compiled Laws. If the court directs parties to seek relief as provided in this section, the court may grant temporary equitable relief if necessary for the protection of the air, water, and other natural resources or the public trust in these resources from pollution, impairment, or destruction. In addition, the court retains jurisdiction of the action pending completion of the action to determine whether adequate protection from pollution, impairment, or destruction is afforded.

(3) Upon completion of proceedings described in this section, the court shall adjudicate the impact of the defendant's conduct on the air, water, or other natural resources, and on the public trust in these resources, in accordance with this part. In adjudicating an action, the court may order that additional evidence be taken to the extent necessary to protect the rights recognized in this part.

(4) If judicial review of an administrative, licensing, or other proceeding is available, notwithstanding the contrary provisions of Act No. 306 of the Public Acts of 1969 pertaining to judicial review, the court originally taking jurisdiction shall maintain jurisdiction for purposes of judicial review.

History: 1994, Act 451, Eff. Mar. 30, 1995.

Popular name: Act 451

Popular name: NREPA

324.1705 Administrative, licensing, or other proceedings; intervenors; determinations; doctrines applicable.

Sec. 1705. (1) If administrative, licensing, or other proceedings and judicial review of such proceedings are available by law, the agency or the court may permit the attorney general or any other person to intervene as a party on the filing of a pleading asserting that the proceeding or action for judicial review involves conduct that has, or is likely to have, the effect of polluting, impairing, or destroying the air, water, or other natural resources or the public trust in these resources.

(2) In administrative, licensing, or other proceedings, and in any judicial review of such a proceeding, the alleged pollution, impairment, or destruction of the air, water, or other natural resources, or the public trust in these resources, shall be determined, and conduct shall not be authorized or approved that has or is likely to have such an effect if there is a feasible and prudent alternative consistent with the reasonable requirements of the public health, safety, and welfare.

(3) The doctrines of collateral estoppel and res judicata may be applied by the court to prevent multiplicity of suits.

History: 1994, Act 451, Eff. Mar. 30, 1995.

PART 18
UNIFORM TRANSBOUNDARY POLLUTION RECIPROCAL ACCESS

324.1801 “Reciprocating jurisdiction” defined.

Sec. 1801. As used in this part:

(a) "Reciprocating jurisdiction" means a state of the United States of America, the District of Columbia, the Commonwealth of Puerto Rico, or a territory or possession of the United States of America that has enacted a law identical to this part or provides access to its courts and administrative agencies that is substantially equivalent to the access provided in this part.

History: Add. 1995, Act 60, Imd. Eff. May 24, 1995.

Popular name: Act 451

Popular name: NREPA

324.1802 Action or other proceeding for injury caused by pollution.

Sec. 1802. An action or other proceeding for injury or threatened injury to property or person in a reciprocating jurisdiction caused by pollution originating, or that may originate, in this state may be brought in this state.

History: Add. 1995, Act 60, Imd. Eff. May 24, 1995.

Popular name: Act 451

Popular name: NREPA

324.1803 Injury caused by pollution in reciprocating jurisdiction; rights to relief.

Sec. 1803. A person who suffers, or is threatened with, injury to his or her person or property in a reciprocating jurisdiction caused by pollution originating, or that may originate, in this state has the same rights to relief with respect to the injury or threatened injury, and may enforce those rights in this state as if the injury or threatened injury occurred in this state.

History: Add. 1995, Act 60, Imd. Eff. May 24, 1995.

Popular name: Act 451

Popular name: NREPA

324.1804 Applicable law.

Sec. 1804. The law to be applied in an action or other proceeding brought pursuant to this part, including what constitutes "pollution," is the law of this state, excluding choice of law rules.

History: Add. 1995, Act 60, Imd. Eff. May 24, 1995.

Popular name: Act 451

Popular name: NREPA

324.1805 Superior rights not accorded.

Sec. 1805. This part does not accord a person injured or threatened with injury in a jurisdiction outside of this state any rights superior to those that the person would have if injured or threatened with injury in this state.

History: Add. 1995, Act 60, Imd. Eff. May 24, 1995.

Popular name: Act 451

Popular name: NREPA

324.1806 Additional right provided.

Sec. 1806. Any right provided in this part is in addition to and not in derogation of any other rights.

PART 19
NATURAL RESOURCES TRUST FUND

324.1901 Definitions.

Sec. 1901. As used in this part:

(a) "Board" means the Michigan natural resources trust fund board established in section 1905.

(b) "Local unit of government or public authority" means a county, city, township, village, school district, the Huron-Clinton metropolitan authority, or any authority composed of counties, cities, townships, villages, or school districts, or any combination of these entities, and legally constituted to provide public recreation.

(c) "Michigan state parks endowment fund" means the Michigan state parks endowment fund established in section 35a of article IX of the state constitution of 1963 and provided for in section 74119.

(d) "Trust fund" means the Michigan natural resources trust fund established in section 35 of article IX of the state constitution of 1963.

History: Add. 1995, Act 60, Imd. Eff. May 24, 1995;—Am. 2018, Act 238, Eff. Sept. 25, 2018;—Am. 2018, Act 597, Eff. Dec. 19, 2020.

Compiler's note: Enacting section 3 of Act 597 of 2018 provides:

"Enacting section 3. This amendatory act does not take effect unless Senate Joint Resolution O of the 99th Legislature becomes a part of the state constitution of 1963 as provided in section 1 of article XII of the state constitution of 1963."

Senate Joint Resolution O was agreed to by the House of Representatives and the Senate on December 21, 2018, and filed with the Secretary of State December 27, 2018. The proposed amendment to the constitution was submitted to, and approved, by the electors on November 3, 2020, and became effective December 19, 2020.

Popular name: Act 451

Popular name: NREPA

324.1902 Michigan natural resources trust fund; establishment; contents; receipts; investment; report on accounting of revenues and expenditures.

Sec. 1902. (1) In accordance with section 35 of article IX of the state constitution of 1963, the Michigan natural resources trust fund is established in the state treasury. Subject to section 1904, the trust fund shall consist of all bonuses, rentals, delayed rentals, and royalties collected or reserved by the state under provisions of leases for the extraction of nonrenewable resources from state-owned lands. However, the trust fund shall not include bonuses, rentals, delayed rentals, and royalties collected or reserved by the state from the following sources:

(a) State-owned lands acquired with money appropriated from the former game and fish protection fund or the game and fish protection account of the Michigan conservation and recreation legacy fund provided for in section 2010.

(b) State-owned lands acquired with money appropriated from the subfund account created by former section 4 of former 1976 PA 204.

(c) State-owned lands acquired with money appropriated from related federal funds made available to the state under the Pittman-Robertson wildlife restoration act, 16 USC 669 to 669i, or the Dingell-Johnson sport fish restoration act, 16 USC 777 to 777m.

(d) Money received by the state from net proceeds allocable to the nonconventional source production credit contained in section 45k of the internal revenue code of 1986, 26 USC 45k, as provided for in section 503.

(2) In addition to the revenues described in subsection (1), the trust fund may receive appropriations, money, or other things of value.

(3) The state treasurer shall direct the investment of the trust fund. The state treasurer shall have the same authority to invest the assets of the trust fund as is granted to an investment fiduciary under the public employee retirement system investment act, 1965 PA 314, MCL 38.1132 to 38.1141.

(4) The department shall annually prepare a report containing an accounting of revenues and expenditures from the trust fund. This report shall identify the interest and earnings of the trust fund from the previous year, the cumulative total amount of unexpended interest and earnings held by the trust fund, the investment performance of the trust fund during the previous year, and the total amount of appropriations from the trust fund during the previous year. This report shall be provided to the senate and house of representatives appropriations committees and the standing committees of the senate and house of representatives with jurisdiction over issues pertaining to natural resources and the environment.

History: Add. 1995, Act 60, Imd. Eff. May 24, 1995;—Am. 1996, Act 134, Imd. Eff. Mar. 19, 1996;—Am. 2002, Act 52, Eff. Sept. 21, 2002;—Am. 2004, Act 587, Eff. Dec. 23, 2006;—Am. 2012, Act 619, Imd. Eff. Jan. 9, 2013;—Am. 2018, Act 166, Imd. Eff. June 4, 2018;—Am. 2018, Act 597, Eff. Dec. 19, 2020.

Compiler's note: Enacting section 2 of Act 587 of 2004 provides:

"Enacting section 2. This amendatory act does not take effect unless House Joint Resolution Z of the 92nd Legislature becomes a part of the state constitution of 1963 as provided in section 1 of article XII of the state constitution of 1963."

Enacting section 3 of Act 597 of 2018 provides:

"Enacting section 3. This amendatory act does not take effect unless Senate Joint Resolution O of the 99th Legislature becomes a part of the state constitution of 1963 as provided in section 1 of article XII of the state constitution of 1963."

Senate Joint Resolution O was agreed to by the House of Representatives and the Senate on December 21, 2018, and filed with the Secretary of State December 27, 2018. The proposed amendment to the constitution was submitted to, and approved, by the electors on November 3, 2020, and became effective December 19, 2020.

Popular name: Act 451

Popular name: NREPA

324.1903 Expenditures; applicability of MCL 324.2132a.

Sec. 1903. (1) Subject to the limitations of this part and of section 35 of article IX of the state constitution of 1963, the interest and earnings of the trust fund in any 1 state fiscal year may be expended in subsequent state fiscal years only for the following purposes:

(a) Acquisition of land or rights in land for recreational uses or protection of the land because of its environmental importance or its scenic beauty.

(b) Development, renovation, and redevelopment of public recreation facilities.

(c) Administration of the trust fund, including payments in lieu of taxes on state-owned land purchased through the trust fund. The legislature shall make appropriations from the trust fund each state fiscal year to make full payments in lieu of taxes on state-owned land purchased through the trust fund, as provided in section 2154.

(2) An expenditure from the trust fund may be made in the form of a grant to a local unit of government or public authority, subject to all of the following conditions:

(a) The grant is used for the purposes described in subsection (1).

(b) The grant is matched by the local unit or public authority with at least 25% of the total cost of the project.

(3) Not less than 25% of the money made available for expenditure from the trust fund from any state fiscal year shall be expended for acquisition of land and rights in land for recreational uses or protection of the land because of its environmental importance or its scenic beauty, and not less than 25% of the money made available for expenditure from the trust fund from any state fiscal year shall be expended for development, renovation, and redevelopment of public recreation facilities.

(4) If property that was acquired with money from the trust fund is subsequently sold or transferred by this state to a nongovernmental entity, this state shall forward to the state treasurer for deposit into the trust fund an amount of money equal to the following:

(a) If the property was acquired solely with trust fund money, the greatest of the following:

(*i*) The net proceeds of the sale.

(*ii*) The fair market value of the property at the time of the sale or transfer.

(*iii*) The amount of money that was expended from the trust fund to acquire the property.

(b) If the property was acquired with a combination of trust fund money and other restricted funding sources governed by federal or state law, an amount equal to the percentage of the funds contributed by the trust fund for the acquisition of the property multiplied by the greatest of the amounts under subdivision (a)(*i*), (*ii*), and (*iii*).

(5) This part is subject to section 2132a.

History: Add. 1995, Act 60, Imd. Eff. May 24, 1995;—Am. 2002, Act 52, Eff. Sept. 21, 2002;—Am. 2011, Act 117, Imd. Eff. July 20, 2011;—Am. 2018, Act 166, Imd. Eff. June 4, 2018;—Am. 2018, Act 238, Eff. Sept. 25, 2018;—Am. 2018, Act 597, Eff. Dec. 19, 2020.

Compiler's note: Enacting section 3 of Act 597 of 2018 provides:

"Enacting section 3. This amendatory act does not take effect unless Senate Joint Resolution O of the 99th Legislature becomes a part of the state constitution of 1963 as provided in section 1 of article XII of the state constitution of 1963."

Senate Joint Resolution O was agreed to by the House of Representatives and the Senate on December 21, 2018, and filed with the Secretary of State December 27, 2018. The proposed amendment to the constitution was submitted to, and approved, by the electors on November 3, 2020, and became effective December 19, 2020.

Popular name: Act 451

Popular name: NREPA

324.1904 Limitation on amount accumulated in trust fund; deposit and distribution of amount.

Sec. 1904. Until the Michigan state parks endowment fund reaches an accumulated principal of $800,000,000.00, the amount accumulated in the trust fund shall not exceed $500,000,000.00, exclusive of interest and earnings and amounts authorized for expenditure under this part. Any amount of money that would be a part of the trust fund but for the limitation stated in this section shall be deposited in the Michigan state parks endowment fund created in section 74119, until the Michigan state parks endowment fund reaches an accumulated principal of $800,000,000.00. After the Michigan state parks endowment fund reaches an accumulated principal of $800,000,000.00, the accumulated principal limit for the trust fund provided in this section no longer applies and the revenues from bonuses, rentals, delayed rentals, and royalties described in section 1902 shall be deposited into the trust fund for expenditure as provided in this part.

History: Add. 1995, Act 60, Imd. Eff. May 24, 1995;—Am. 2002, Act 52, Eff. Sept. 21, 2002;—Am. 2018, Act 597, Eff. Dec. 19, 2020.

Compiler's note: Enacting section 3 of Act 597 of 2018 provides:

"Enacting section 3. This amendatory act does not take effect unless Senate Joint Resolution O of the 99th Legislature becomes a part of the state constitution of 1963 as provided in section 1 of article XII of the state constitution of 1963."

Senate Joint Resolution O was agreed to by the House of Representatives and the Senate on December 21, 2018, and filed with the Secretary of State December 27, 2018. 324.1905 Michigan natural resources trust fund board; establishment; powers and duties of transferred agency; cooperation, aid, offices, and equipment; appointment and terms of members; removal; vacancies; expenses; compensation.

Sec. 1905. (1) The Michigan natural resources trust fund board is established within the department. The board shall have the powers and duties of an agency transferred under a type I transfer pursuant to section 3 of the executive organization act of 1965, 1965 PA 380, MCL 16.103. The board shall be administered under the supervision department and the department shall offer its cooperation and aid to the board and shall provide suitable offices and equipment for the board.

(2) The board shall consist of 5 members. The members shall include the director or a member of the commission as determined by the commission, and 4 residents of the state to be appointed by the governor with the advice and consent of the senate.

(3) The terms of the appointive members shall be 4 years, except that of those first appointed, 1 shall be appointed for 1 year, 1 shall be appointed for 2 years, 1 shall be appointed for 3 years, and 1 shall be appointed for 4 years.

(4) The appointive members may be removed by the governor for inefficiency, neglect of duty, or malfeasance in office.

(5) Vacancies on the board shall be filled for the unexpired term in the same manner as the original appointments.

(6) The board may incur expenses necessary to carry out its powers and duties under this part and shall compensate its members for actual expenses incurred in carrying out their official duties.

History: Add. 1995, Act 60, Imd. Eff. May 24, 1995;—Am. 2012, Act 619, Imd. Eff. Jan. 9, 2013.

324.1906 Board; election of chairperson; administrative procedures; conducting business at public meeting; notice; meetings of board; availability of writings to public; reports.

Sec. 1906. (1) The board shall elect a chairperson and establish its administrative procedures. The business which the board may perform shall be conducted at a public meeting of the board held in compliance with the open meetings act, Act No. 267 of the Public Acts of 1976, being sections 15.261 to 15.275 of the Michigan Compiled Laws. Public notice of the time, date, and place of the meeting shall be given in the manner required by Act No. 267 of the Public Acts of 1976. The board shall meet not less than bimonthly and shall record its proceedings. A writing prepared, owned, used, in the possession of, or retained by the board in the performance of an official function shall be made available to the public in compliance with the freedom of

information act, Act No. 442 of the Public Acts of 1976, being sections 15.231 to 15.246 of the Michigan Compiled Laws.

(2) Before January 16 of each year, the board shall report to the governor and to the legislature detailing the operations of the board for the preceding 1-year period. The board shall also make special reports as requested by the governor or the legislature.

324.1907 List of lands, rights in land, and public recreation facilities to be acquired or developed; estimates of total costs; guidelines; legislative approval; "qualified conservation organization" defined.

Sec. 1907. (1) The board shall determine which lands and rights in land within this state should be acquired for recreational uses or protection of land because of its environmental importance or its scenic beauty and which public recreation facilities should be developed, renovated, and redeveloped with money from the trust fund and shall submit to the legislature in January of each year a list of those lands and rights in land and those public recreation facilities that the board has determined should be acquired or developed, renovated, and redeveloped with trust fund money, compiled in order of priority. The list prepared under this subsection shall be based upon the accounting of revenues available for expenditure as described in the report prepared under section 1902(4) and upon consideration of any consensus recommendation submitted under subsection (2) that is consistent with section 35 of article 9 of the state constitution of 1963.

(2) By December 1 of each year, the governor or his or her designee, the state treasurer or his or her designee, the senate majority leader or his or her designee, and the speaker of the house of representatives or his or her designee, and 1 member of the board selected by the board, shall meet and develop a consensus recommendation to be submitted to the board on the amount of money that should be made available to fund each of the following:

(a) Acquisitions under section 1903(1)(a).

(b) Development, renovation, and redevelopment projects under section 1903(1)(b).

(c) Administration of the trust fund under section 1903(1)(c).

(d) If there is additional money available after funding recommendations are made for subdivisions (a), (b), and (c), an amount that should be retained by the trust fund to mitigate potential future investment return fluctuations.

(3) In preparing the list under subsection (1), the board shall do all of the following:

(a) Give a preference to the following:

(*i*) A project or acquisition that is located within a city, village, township, or county that has adopted a resolution in support of the project or acquisition.

(*ii*) The acquisition of land and rights in land for recreational trails that intersect the downtown areas of cities and villages.

(b) Identify each parcel of land that is recommended for acquisition by legal description and include the estimated cost of acquisition and assessed value.

(c) Provide a scoring of each parcel of land recommended for acquisition individually.

(d) Give consideration to an acquisition that meets either or both of the following:

(*i*) Is located within a county that contains 50% or more privately owned land.

(*ii*) Allows motorized recreational use.

(4) In preparing the list of lands to be acquired or developed under subsection (1), the following apply:

(a) The board shall not include an acquisition of land or rights in land on the list if the board determines that the seller was harassed, intimidated, or coerced into selling his or her land or rights in land by the department, a local unit of government, or a qualified conservation organization.

(b) A project or acquisition may be named in honor or memory of an individual or organization.

(5) The list prepared under subsection (1) shall be accompanied by estimates of total costs for the proposed acquisitions and developments.

(6) The board shall supply with the lists prepared under subsection (1) a statement of the guidelines used in listing and assigning the priority of these proposed acquisitions and developments, renovations, and redevelopments.

(7) The legislature shall approve by law the lands and rights in land to be acquired and the public recreation facilities to be developed, renovated, or redeveloped each year with money from the trust fund.

(8) As used in this section, "qualified conservation organization" means that term as it is defined in section

7o of the general property tax act, 1893 PA 206, MCL 211.7o.

History: Add. 1995, Act 60, Imd. Eff. May 24, 1995;—Am. 2008, Act 229, Imd. Eff. July 17, 2008;—Am. 2012, Act 619, Imd. Eff. Jan. 9, 2013;—Am. 2018, Act 166, Imd. Eff. June 4, 2018;—Am. 2018, Act 597, Eff. Dec. 19, 2020.

Compiler's note: Enacting section 3 of Act 597 of 2018 provides:

"Enacting section 3. This amendatory act does not take effect unless Senate Joint Resolution O of the 99th Legislature becomes a part of the state constitution of 1963 as provided in section 1 of article XII of the state constitution of 1963."

Senate Joint Resolution O was agreed to by the House of Representatives and the Senate on December 21, 2018, and filed with the Secretary of State December 27, 2018. The proposed amendment to the constitution was submitted to, and approved, by the electors on November 3, 2020, and became effective December 19, 2020.

324.1907a Project status; report; "changes significantly" defined.

Sec. 1907a. (1) If within 2 years after a parcel of property that is approved for acquisition or development, renovation, or redevelopment by the legislature has not been acquired or developed, renovated, or redeveloped in the manner determined by the board and is not open for public use, the board shall report to the standing committees of the senate and the house of representatives with jurisdiction over issues related to natural resources and the environment on the status of the project and the reason why the property has not been purchased or developed, renovated, or redeveloped in the manner determined by the board. The department shall post on its website a bimonthly report of project status containing information described in this subsection.

(2) Following the appropriation of money from the trust fund, if the public recreation project changes significantly, the board shall submit the changes to the joint capital outlay subcommittee of the legislature to review whether the proposed changed project is consistent with the purpose of the appropriation. As used in this subsection, "changes significantly" means changes to a project such that the project would not have been funded had the change been in place during the evaluation of the project.

History: Add. 2002, Act 52, Eff. Sept. 21, 2002;—Am. 2012, Act 619, Imd. Eff. Jan. 9, 2013;—Am. 2018, Act 597, Eff. Dec. 19, 2020.

Compiler's note: Enacting section 3 of Act 597 of 2018 provides:

"Enacting section 3. This amendatory act does not take effect unless Senate Joint Resolution O of the 99th Legislature becomes a part of the state constitution of 1963 as provided in section 1 of article XII of the state constitution of 1963."

Compiler's note: The repealed sections pertained to duties of state treasurer and transfer of writings or documents by department of natural resources and department of treasury.

324.1911 Local public recreation facilities fund.

Sec. 1911. (1) The local public recreation facilities fund is created within the state treasury.

(2) The state treasurer may receive money or other assets from any source for deposit into the local public recreation facilities fund. The state treasurer shall direct the investment of the local public recreation facilities fund. The state treasurer shall credit to the local public recreation facilities fund interest and earnings from local public recreation facilities fund investments.

(3) Money in the local public recreation facilities fund at the close of the fiscal year shall remain in the local public recreation facilities fund and shall not lapse to the general fund.

(4) The department of natural resources shall be the administrator of the local public recreation facilities fund for auditing purposes.

(5) The department of natural resources shall expend money from the local public recreation facilities fund, upon appropriation, only for grants to local units of government for the development, renovation, and redevelopment of public recreation facilities pursuant to the same procedures of the board and guidelines as apply under section 1907.

History: Add. 2010, Act 32, Eff. Oct. 1, 2010;—Am. 2018, Act 597, Eff. Dec. 19, 2020.

PART 20
MICHIGAN CONSERVATION AND RECREATION LEGACY FUND

324.2001 Definitions.

Sec. 2001. As used in this part:

(a) "Forest recreation account" means the forest recreation account of the legacy fund provided for in section 2005.

(b) "Game and fish protection account" means the game and fish protection account of the legacy fund provided for in section 2010.

(c) "Legacy fund" means the Michigan conservation and recreation legacy fund established in section 40 of article IX of the state constitution of 1963 and provided for in section 2002.

(d) "Off-road vehicle account" means the off-road vehicle account of the legacy fund provided for in section 2015.

(e) "Recreation improvement account" means the recreation improvement account of the legacy fund provided for in section 2020.

(f) "Recreation passport fee" means a state park and state-operated public boating access site recreation passport fee paid under section 805 of the Michigan vehicle code, 1949 PA 300, MCL 257.805, or under rules promulgated under section 74120(2).

(g) "Snowmobile account" means the snowmobile account of the legacy fund provided for in section 2025.

(h) "State park improvement account" means the state park improvement account of the legacy fund provided for in section 2030.

(i) "Waterways account" means the waterways account of the legacy fund provided for in section 2035.

History: Add. 2004, Act 587, Eff. Dec. 23, 2006;—Am. 2010, Act 32, Eff. Oct. 1, 2010.

Compiler's note: Enacting section 2 of Act 587 of 2004 provides: "Enacting section 2. This amendatory act does not take effect unless House Joint Resolution Z of the 92nd Legislature becomes a part of the state constitution of 1963 as provided in section 1 of article XII of the state constitution of 1963."

Popular name: Act 451

Popular name: NREPA

324.2002 Michigan conservation and recreation legacy fund.

Sec. 2002. (1) In accordance with section 40 of article IX of the state constitution of 1963, the Michigan conservation and recreation legacy fund is established in the state treasury.

(2) The state treasurer shall direct the investment of the legacy fund. The state treasurer shall establish within the legacy fund restricted accounts as authorized by this part. Interest and earnings from each account shall be credited to that account. The state treasurer may accept gifts, grants, bequests, or assets from any source for deposit into a particular account or subaccount.

History: Add. 2004, Act 587, Eff. Dec. 23, 2006.

Compiler's note: Enacting section 2 of Act 587 of 2004 provides: "Enacting section 2. This amendatory act does not take effect unless House Joint Resolution Z of the 92nd Legislature becomes a part of the state constitution of 1963 as provided in section 1 of article XII of the state constitution of 1963."

Popular name: Act 451

Popular name: NREPA

324.2005 Forest recreation account.

Sec. 2005. (1) The forest recreation account is established as an account within the legacy fund.

(2) The forest recreation account shall consist of both of the following:

(a) All money in the forest recreation fund, formerly created in section 83104, immediately prior to the effective date of the amendatory act that added this section, which money is hereby transferred to the forest recreation account.

(b) Revenue from the following sources:

(*i*) Revenue derived from concessions, leases, contracts, and fees from recreational activities on state

forestlands.

(*ii*) Other revenues as authorized by law.

(3) Money in the forest recreation account shall be expended, upon appropriation, only as provided in section 2045 and part 831 and for the administration of the forest recreation account.

(4) Money in the forest recreation account may be expended pursuant to subsection (3) for grants to state colleges and universities to implement programs funded by the forest recreation account.

History: Add. 2004, Act 587, Eff. Dec. 23, 2006;—Am. 2010, Act 32, Eff. Oct. 1, 2010.

Compiler's note: Enacting section 2 of Act 587 of 2004 provides: "Enacting section 2. This amendatory act does not take effect unless House Joint Resolution Z of the 92nd Legislature becomes a part of the state constitution of 1963 as provided in section 1 of article XII of the state constitution of 1963."

Popular name: Act 451

Popular name: NREPA

324.2010 Game and fish protection account.

Sec. 2010. (1) The game and fish protection account is established as an account within the legacy fund.

(2) The game and fish protection account shall consist of all of the following:

(a) Revenue derived from hunting and fishing licenses, passbooks, permits, fees, concessions, leases, contracts, and activities.

(b) Damages paid for the illegal taking of game and fish.

(c) Revenue derived from fees, licenses, and permits related to game, game areas, and game fish.

(d) Other revenues as authorized by law.

(3) Money in the game and fish protection account shall be expended, upon appropriation, only as provided in part 435 and for the administration of the game and fish protection account, which may include payments in lieu of taxes on state-owned land purchased through the game and fish protection account or through the former game and fish protection fund. The department shall manage land acquired with money from the game and fish protection account or the former game and fish protection fund through the use of scientific game species management for the primary purpose of managing habitat and thereby enhancing recreational hunting opportunities. Unless the department can demonstrate that the expenditure is for that primary purpose, and benefits to nongame species are a result of that primary purpose, both of the following apply:

(a) Money in the game and fish protection account shall not be expended for management of nongame species.

(b) Forest treatments on lands acquired with money from the game and fish protection account or the former game and fish protection fund shall not be undertaken to benefit nongame species.

(4) Money in the game and fish protection account may be expended pursuant to subsection (3) for grants to state colleges and universities to implement programs funded by the game and fish protection account if the department does not have the appropriate staff or other resources to implement the programs itself.

324.2015 Off-road vehicle account.

Sec. 2015. (1) The off-road vehicle account is established as an account within the legacy fund.

(2) The off-road vehicle account shall consist of both of the following:

(a) All money in the trail improvement fund, formerly created in section 81117, and the safety education fund, formerly created in section 81118, immediately prior to the effective date of the amendatory act that added this section, which money is hereby transferred to the off-road vehicle account.

(b) Revenue deriving from either of the following sources:

(*i*) Revenue from fees imposed upon the use or registration of off-road vehicles.

(*ii*) Other revenues as authorized by law.

(3) Money in the off-road vehicle account shall be expended, upon appropriation, only as provided in part 811 and for the administration of the off-road vehicle account.

(4) Money in the off-road vehicle account may be expended pursuant to subsection (3) for grants to state colleges and universities to implement programs funded by the off-road vehicle account.

History: Add. 2004, Act 587, Eff. Dec. 23, 2006.

Compiler's note: Enacting section 2 of Act 587 of 2004 provides: "Enacting section 2. This amendatory act does not take effect

324.2035 Waterways account.

Sec. 2035. (1) The waterways account is established as an account within the legacy fund.

(2) The waterways account shall consist of both of the following:

(a) All money in the Michigan state waterways fund, formerly created in section 78110, the Michigan harbor development fund, formerly created in section 78110, and the marine safety fund, formerly created in section 80115, immediately prior to the effective date of the amendatory act that added this section, which money is hereby transferred to the waterways account.

(b) Revenue from the following sources:

(*i*) All revenue generated from watercraft registration fees assessed on the ownership or operation of watercraft in the state, of which not less than 49% shall be provided for law enforcement and education.

(*ii*) All revenues derived from fees charged for the moorage of watercraft at state-operated mooring facilities.

(*iii*) All revenues derived from fees charged for the use of state-operated public access sites.

(*iv*) Transfers from the recreation improvement account.

(*v*) All tax revenue derived from the sale of diesel fuel in this state that is used to generate power for the operation or propulsion of vessels on the waterways of this state.

(*vi*) Other revenues as authorized by law.

(3) Money in the waterways account shall be expended, upon appropriation, only as provided in parts 445, 781, 791, and 801 and for the administration of the waterways account, which may include payments in lieu of taxes on state owned lands purchased through the waterways account or through the former Michigan state waterways fund.

Popular name: Act 451

Popular name: NREPA

324.2045 Recreation passport fee revenue.

Sec. 2045. (1) The department shall distribute recreation passport fee revenue as follows:

(a) First, for necessary expenses incurred by the secretary of state each state fiscal year in administration and implementation of section 805 of the Michigan vehicle code, 1949 PA 300, MCL 257.805. Funds appropriated for necessary expenses shall be based upon an established cost allocation methodology that reflects actual costs. Appropriations under this subdivision in a state fiscal year shall not exceed $1,000,000.00.

(b) The next $10,700,000.00 received each fiscal year shall be deposited in the state park improvement account.

(c) The next $1,030,000.00 received each fiscal year shall be deposited in the waterways account.

(d) The remaining revenue shall be deposited as follows:

(*i*) 50% in the state park improvement account to be used for capital improvements at state parks, including state recreation areas.

(*ii*) 30% in the state park improvement account to be used for operations and maintenance at state parks, including state recreation areas.

(*iii*) 2.75% in the state park improvement account to be used for operations, maintenance, and capital improvements of state park cultural and historic resources.

(*iv*) 0.25% in the state park improvement account to be used to do all of the following:

(A) Promote, in concert with other state agencies, the use of state parks, state-operated public boating access sites, state forest campgrounds, and state forest nonmotorized trails and pathways.

(B) Promote the use of the internet for state park camping reservations and for payment of the recreation passport fee in conjunction with motor vehicle registration.

(*v*) 10% in the local public recreation facilities fund created in section 1911, to be used for development of public recreation facilities for local units of government.

(*vi*) 7% in the forest recreation account to be used for operating, maintaining, and making capital improvements to state forest campgrounds and the state forest system of pathways and nonmotorized trails, including, but not limited to, equestrian trails.

(2) For each state fiscal year, beginning with the 2011-2012 state fiscal year, the state treasurer shall adjust the amounts set forth in subsection (1)(b) and (c) by an amount determined by the state treasurer to reflect the cumulative percentage change in the consumer price index for the most recent 1-year period for which data are available. As used in this subsection, "consumer price index" means the most comprehensive index of consumer prices available for this state from the bureau of labor statistics of the United States department of labor.

(3) By January 15 of each year, the department, in consultation with the department of state, shall estimate the amount of additional revenue that would have been collected as recreation passport fees during the immediately preceding state fiscal year if owners of resident motor vehicles described in sections 74116(4)(c) and 78119(4)(b) were not exempt under those provisions from paying the recreation passport fee. The department shall estimate the amount as follows:

(a) Determine the total number of resident motor vehicles described in sections 74116(4)(c) and 78119(4)(b).

(b) Multiply the number under subdivision (a) by the percentage of resident motor vehicles with single-year registrations for which a recreation passport fee was paid during the preceding state fiscal year.

(c) Subtract from the result under subdivision (b) the number of resident motor vehicles described in sections 74116(4)(c) and 78119(4)(b) for which a recreation passport fee was paid during the preceding state fiscal year under rules promulgated under section 74120(3).

(d) Multiply the result under subdivision (c) by the current amount of the recreation passport fee during the preceding state fiscal year.

(4) The legislature shall annually appropriate from the general fund a sum equal to the amount estimated under subsection (3). The sum appropriated shall be distributed as provided in subsection (1)(d).

(5) The department shall submit a report to the standing committees and appropriations subcommittees of the legislature with jurisdiction over issues pertaining to natural resources and the environment by February 1 each year. The report shall provide information on all of the following for the preceding state fiscal year:

(a) The total amount of recreation passport fee revenue received by the department and the amounts allocated under subsection (1).

(b) The total amount of annual and daily state park motor vehicle permit fee revenue received by the department under section 74117.

(c) The total amount of seasonal or daily state-operated public boating access site revenue received by the department under section 78105(3).

(d) Details on the specific uses of the revenue described in subdivisions (a), (b), and (c) and the amounts expended for each specific use.

(e) The amount of revenue received during the preceding state fiscal year under subsection (4).

(f) The adequacy of the revenue described in subdivisions (a) and (e) for each of the purposes for which it is allocated under subsection (1).

(g) The impact of the state park revenue stream described in subdivisions (a), (b), and (d) on the Michigan state parks endowment fund created in section 35a of article IX of the state constitution of 1963 and provided for in section 74119.

(h) Other relevant issues that affect funding needs for the state park system.

(6) By February 1, 2012 and every 2 years thereafter, the department shall submit a report to the standing committees and appropriations subcommittees of the legislature with jurisdiction over issues pertaining to natural resources and the environment. The report shall provide information on how frequently motor vehicles for which the registrant declined to pay the recreation passport fee entered state parks and state-operated public boating access sites designated under section 78105 during the registration period. The information shall be based on random audits conducted by the department. A report under this subsection may be combined with a report required under subsection (5).

(7) The department may prepare a list of frequently asked questions and answers concerning the recreation

passport fee. The department and the department of state may post the information on their websites. The department of state may provide the information with any applications for registration of motor vehicles that are mailed by the department of state.

PART 21
GENERAL REAL ESTATE POWERS

SUBPART 1
SALE OR LEASE OF STATE LANDS FOR PUBLIC PURPOSES

324.2101 State lands; sale or transfer for public purpose; transfer of jurisdiction to other state agencies; reverter clause.

Sec. 2101. (1) The department may sell tax reverted state lands under its control to school districts, to churches and other religious organizations, to public educational institutions for public purposes, to the United States, and to governmental units of this state and agencies thereof. The lands shall be sold at a price determined by an appraisal, subject to section 2132a. The department may transfer jurisdiction of tax reverted state lands for public purposes to any department, board, or commission of this state. The application for the purchase or transfer of tax reverted state lands shall be made by the proper officers of a school district, church or other religious organization, public educational institution, the United States, or governmental unit or agency thereof upon forms prepared and furnished by the department for that purpose.

(2) The department may sell tax reverted lands to any entity described in subsection (1), and the transfer of the lands is not subject to a reverter clause. If a conveyance or transfer of lands is made to a governmental unit without a reverter clause, the department may convey or transfer the lands at a price determined by an appraisal, subject to section 2132a, or at a nominal fee that includes any amount paid by the department for maintaining the lands in a condition that is protective of the public health and safety. If lands are conveyed or transferred for a nominal fee and are subsequently sold by the governmental unit for a valuable consideration, the proceeds from such a sale, after deducting the fee and any amount paid by the local governmental units for maintaining the lands in a condition that is protective of the public health and safety, shall be paid to the state, county, township, and school district in which the lands are situated pro rata according to their several interests in the lands arising from the nonpayment of taxes and special assessments on the lands as the interest appears in the offices of the state treasurer or county, city, or village treasurer.

History: Add. 1995, Act 60, Imd. Eff. May 24, 1995;—Am. 2018, Act 238, Eff. Sept. 25, 2018.

Popular name: Act 451

Popular name: NREPA

324.2102 Conveyance of tax reverted land to public agency without monetary consideration; reverter.

Sec. 2102. Notwithstanding section 2101, the department may convey tax reverted land to a public agency described in section 2101 without monetary consideration but subject to a reverter to this state upon termination of the use of the land for which the conveyance was approved by the department or upon any use of the land other than the use for which the conveyance was approved.

History: Add. 1995, Act 60, Imd. Eff. May 24, 1995.

Popular name: Act 451

Popular name: NREPA

324.2102a Sale or transfer of trail or trailway; retention of rail interest and easement.

Sec. 2102a. If the state sells or transfers land containing a Michigan trailway established under part 721, an off-road vehicle trail established under part 811, or a snowmobile trail established under part 821, the state shall retain an easement for the continued use of the trail or trailway. If the trail or trailway at issue is subject to an interest by which the trail or trailway could be transformed into or reactivated as a railroad, then the sale or transfer of the trail or trailway is subject to the rail interest and any easement retained by the state on the trail or trailway is also subject to the rail interest.

History: Add. 1998, Act 17, Imd. Eff. Mar. 9, 1998.

Popular name: Act 451

SUBPART 2
DELINQUENT TAXES ON PART-PAID LANDS

324.2103 Unpaid tax list; lands patented after assessment; preparation; supervisors to reassess; collection; return.

Sec. 2103. (1) On October 1 of each year, the department shall prepare lists showing the descriptions of lands upon which taxes have been assessed for the current year while the lands were part-paid, but which had been patented by the state, and upon which taxes have not been paid, and shall forward the lists to the supervisor of the township where the lands are located.

(2) The supervisor of the township receiving a list described in subsection (1) shall reassess the taxes reported in the list for the same land.

(3) The township treasurer shall collect and return the taxes in the same manner as provided for the collection and return of other taxes.

History: Add. 1995, Act 60, Imd. Eff. May 24, 1995.

Popular name: Act 451

Popular name: NREPA

SUBPART 3
EXCHANGE OF STATE LANDS

324.2104 Exchange of lands; authorization; refund of application fee; approval or denial of application; application fee.

Sec. 2104. (1) Any of the lands under the control of the department, the title to which is in this state, and which may be sold and conveyed may be exchanged for lands of equal area or approximately equal value belonging to the United States or owned by private individuals if it is in the interest of this state to do so.

(2) If the department charged an application fee for a proposed sale of land under this part and the state land proposed for sale is instead sold to another party within 3 years after the date a completed application was received by the department from the prior applicant, the department shall refund the application fee in full to the prior applicant if the prior applicant has informed the department of his or her current address.

(3) Effective 60 days after the department receives an application from a private individual to exchange that individual's land for surplus state land, the application shall be considered to be complete unless the department proceeds as provided under subsection (4).

(4) If, before the expiration of the 60-day period under subsection (3), the department notifies the applicant, in writing, that the application is not complete, specifying the information necessary to make the application complete, or that the fee required under subsection (6) has not been paid, specifying the amount due, the running of the 60-day period under subsection (3) is tolled until the applicant submits to the department the specified information or fee amount due, at which time the application shall be considered to be complete.

(5) Within 210 days after the application is complete, or a later date agreed to by the applicant and the department, the department shall approve or deny the application and notify the applicant in writing. If the department denies the application, the notice shall set forth the specific reasons for the denial.

(6) The department shall charge a fee for an application for the exchange of state land. The fee shall be $300.00 plus, if the state land is more than 300 acres in size, the actual reasonable cost of processing the application.

History: Add. 1995, Act 60, Imd. Eff. May 24, 1995;—Am. 1998, Act 28, Imd. Eff. Mar. 18, 1998;—Am. 2018, Act 238, Eff. Sept. 25, 2018;—Am. 2022, Act 2, Eff. Mar. 29, 2023.

Popular name: Act 451

Popular name: NREPA

324.2105 Exchange of lands with United States; description; maintenance; conveyance; validity.

Sec. 2105. If the department determines that it is in the best interests of the state to relinquish or convey to the United States under the laws of the United States any part or portion of the lands described in section 2104 in exchange for other lands of equal area or approximately equal value to be selected by the department from the unappropriated public lands in this state that belong to the United States and that may be relinquished or conveyed to the state by the United States under the laws of the United States, the department shall maintain a

description of the lands belonging to the state that are to be relinquished or conveyed to the United States, and, upon making arrangements with the proper authorities of the United States, the department shall execute the proper conveyance to the United States of the lands to be relinquished or conveyed. This conveyance shall be void if the lands of an equal area or approximately equal value are not relinquished or conveyed by the United States to the state in lieu of the lands and in accordance with selections made by the department.

History: Add. 1995, Act 60, Imd. Eff. May 24, 1995.

Popular name: Act 451

Popular name: NREPA

324.2106 Availability of writings; exchange of lands with private individuals; description; maintenance; conveyance by individual; title; certification by attorney general; conveyance by state.

Sec. 2106. (1) The department shall maintain on its website and make available in writing to persons seeking to purchase land from, sell land to, or exchange land with the department under this part information about relevant requirements and procedures under this part and section 503(11) and (12).

(2) If it is in the interests of this state to exchange any of the lands described in section 2104 for lands of an equal area or of approximately equal value belonging to private individuals, the department shall maintain a description of the lands to be conveyed and a description of the lands belonging to individuals to be deeded to this state.

(3) Before any of the lands are deeded to an individual as provided in this subpart, the person or persons owning any lands to be deeded to this state shall execute a conveyance of those lands to this state. The department shall accept delivery of the deed. The attorney general shall examine the title to the lands deeded to this state and certify to the department whether or not the conveyance is sufficient to vest in this state a good and sufficient title to the land free from any liens or encumbrances. If the attorney general certifies that the deed vests in this state a good and sufficient title to the deeded lands free from any liens or encumbrances, the department shall within 30 days execute a deed to the individual of the lands to be conveyed by this state.

Popular name: NREPA

324.2107 Acquired lands; classification; control; application by private individual for exchange.

Sec. 2107. If the state acquires lands under this subpart, under former Act No. 193 of the Public Acts of 1911, or pursuant to the laws of the United States providing for an exchange of lands between the United States and the state, the lands acquired by the state shall become a part or portion of that class of lands to which the lands relinquished in lieu of the lands formerly belonged, and shall be subject to the same supervision and control and laws of the state to which the lands relinquished or conveyed by the state would have been subject had they remained the property of the state. However, an application from private individuals for the exchange of their lands for lands proposed to be acquired by the state from the United States under section 2104 shall not be received, filed, or in any manner considered or acted upon until after the state has received conveyance of the lands from the United States, and then applications from private individuals for the exchange of their lands shall be filed, considered, and acted upon only in the order in which they are received.

SUBPART 4
RECORD OF DEEDS FOR TAX HOMESTEAD LANDS

324.2109 Tax homestead lands; legal records; certified copies as evidence.

Sec. 2109. The department shall record, in a suitable book or books kept for that purpose, true copies of all deeds issued by the department for tax homestead lands under the laws of this state providing for the disposal of tax homestead lands, and these copies of deeds issued and deeds which may hereafter be issued are legal records. These legal records, or a transcript of the records, duly certified by the department or other officer having custody of the records, may be read in evidence in all courts of this state, with the same force and effect as the original tax homestead deed.

History: Add. 1995, Act 60, Imd. Eff. May 24, 1995.

Popular name: Act 451

Popular name: NREPA

324.2110 Tax homestead lands; record of copy of deed.

Sec. 2110. The registers of deeds in the several counties of this state shall receive and record all copies of tax homestead deeds, duly certified to by the department or other officer having the custody of the records, and the record of the certified copy has the same force and effect as the record of the original deed.

History: Add. 1995, Act 60, Imd. Eff. May 24, 1995.

Popular name: Act 451

Popular name: NREPA

324.2111 Records; certified copy; fee; recording conditions; perjury.

Sec. 2111. The department or other officer having charge of the records described in this subpart shall, upon application from any person, make a certified copy of any tax homestead deed, as provided in this subpart, upon the payment by the applicant of $1.50 for each certified copy. As a condition precedent to the recording of a copy of the deed, there shall be attached to the certified copy a sworn statement of the grantee named in the deed, or his or her assign, heir, trustee, or grantee, that the original deed has been lost or is not available for record, and any person swearing falsely under this subpart is subject to the penalties of perjury.

Popular name: Act 451

Popular name: NREPA

SUBPART 6
SALE AND RECLAMATION OF SWAMP LANDS

324.2120 Swamp lands; adoption of notes of surveys on file; sale; restrictions; procurement of records.

Sec. 2120. (1) The department shall adopt the notes of the surveys on file in the surveyor general's office as the basis upon which they will receive the swamp lands granted to the state by an act of congress of September 28, 1850.

(2) Swamp lands described in subsection (1) shall only be sold in the same legal subdivisions in which they are received by the state, and none of the lands are subject to private entry until the lands have been offered for sale at public auction as provided in former Act No. 187 of the Public Acts of 1851.

(3) The department may procure all necessary books, maps, or plats of swamp lands as required for the speedy and systematic transaction of the business of the department, and all proper charges for the books, maps, or plats shall be paid out of funds received from the sale of lands under former Act No. 187 of the Public Acts of 1851.

History: Add. 1995, Act 60, Imd. Eff. May 24, 1995.

Popular name: Act 451

Popular name: NREPA

324.2120a Conveyance of certain land in Calhoun County; legislative findings; identification of current de facto owner; reimbursement for expenses; conveyance to adjacent de facto owner; legal description as approximate; legal effect of interest, right, or obligation; cause of action not created; quitclaim deed; "de facto owner" defined.

Sec. 2120a. (1) This section applies and sections 2120 and 2121 do not apply to the receipt of the following lands by patent or otherwise from the United States or to the conveyance of those lands by the department as provided in this section:

Property located in Clarence Township, Calhoun County, Township 1 South, Range 4 West, Michigan

Meridian:

(a) Government lots 1 to 10 in section 23.

(b) Government lots 1 to 3 in section 24.

(c) Government lot 1 in section 25.

(d) Government lots 1 to 7 and 10 to 13 in section 26.

(e) Government lots 1 to 4 in section 27.

(f) Government lot 1 in section 35.

(2) The legislature finds all of the following:

(a) Under statutes of the United States enacted in 1850 and subsequently, the governor of this state has had the power to request the conveyance of swamplands from the United States to this state.

(b) Some conveyances described in subdivision (a) have been requested and made to this state in the past.

(c) However, although the property described in subsection (1) has been eligible for a request and conveyance as described in subdivision (a), no such request and conveyance has ever been made.

(d) A number of citizens of this state are occupants and de facto owners under color of title of portions of the property described in subsection (1). These individuals have made improvements to, maintained, and paid taxes on those portions of the property held under color of title.

(e) It is the intent of the legislature, through this section, to obtain title from the United States to the property described in subsection (1) and to convey the property to the appropriate citizens.

(3) If the governor applies to the bureau of land management of the department of the interior of the United States, or to any other official or agency of the United States that the governor determines is appropriate, for the conveyance of the lands described in subsection (1) to this state, by patent or otherwise, under an 1850 act of congress, chapter 84, 9 Stat. 519, under 43 USC 981 to 986, or under any other applicable law, and if the lands are conveyed to this state, the department shall use its best efforts to determine the identity of the current de facto owners of the lands. In making the determination required by this subsection, the department shall consult with the department of the attorney general.

(4) The department may require a person claiming to be a de facto owner of any of the lands to reimburse the department, in advance of the conveyance of the property if the department determines necessary, for any expense incurred by the department or the department of the attorney general in making the determination under subsection (3) and in conveying the property under subsection (6).

(5) The department is not required to take any steps to make a determination under subsection (3) other than the steps that the department, in its discretion, determines are reasonably necessary. If the department is unable to determine a de facto owner for a portion of the land or is unable to determine which of 1 or more potential de facto owners has the most legitimate claim to a portion of the land, the department is not required to bring or actively participate in a quiet title action or any other legal action with respect to the property. If the department determines that there is no de facto owner for a portion of the property, the department, in its sole discretion, may convey the portion to an adjacent de facto owner.

(6) After making a determination under subsection (3), the department shall convey a portion or portions of the property described in subsection (1) to a de facto owner as determined under subsections (3) and (5).

(7) The legal description in subsection (1) is approximate for purposes of this section. If the department determines that there is a discrepancy between the legal description in subsection (1) and the legal description of property received by this state under this section, the department, as directed by the department of attorney general, may adjust the description accordingly in any deeds prepared under this section.

(8) The department is not responsible for recording a deed prepared under this section or any costs or fees for or associated with the recording.

(9) Any interests or rights in, or obligations connected to, land conveyed under subsection (6) created before the conveyance under subsection (6) have the same legal effect as if the conveyance under subsection (6) preceded the creation of the interest, right, or obligation, including, but not limited to, any of the following:

(a) A street or highway right of way.

(b) A utility, drain, or other easement.

(c) A mortgage.

(d) A leasehold.

(e) Mineral rights.

(f) A construction lien.

(g) An interest resulting from an attachment, execution, or other judicial process.

(h) A tax or tax lien, whether federal, state, or local.

(i) A special assessment.

(j) Any other governmental lien.

(k) Any other lien.

(10) Subsection (9) is intended to affirm title to real property and does not create a cause of action for or otherwise constitute a basis for a tax refund or a property tax appeal.

(11) The department shall make a conveyance under subsection (6) by quitclaim deed, approved by the department of attorney general.

(12) As used in this section, "de facto owner" means a person that could reasonably be considered the owner of the land despite not having good legal title, as indicated by 1 or more of the following:

(a) A purported chain of title that would show marketable title in the person if a valid governmental patent or other conveyance had been given to the appropriate predecessor in the chain of title.

(b) Payment of property taxes on the land by the person.

(c) Possession of and improvement to or maintenance of the land by the person.

(d) Any other similar factor that the department in its discretion determines should be considered.

SUBPART 8

EASEMENTS OVER STATE OWNED LANDS

324.2123 Granting easement over state-owned land under jurisdiction of department to individual; conditions; 30-day period to consider application; notification of incomplete application; tolling of time period; time period for approval or denial of application.

Sec. 2123. (1) Subject to sections 2123a and 2124, the department may grant or otherwise provide for an easement for a road over state-owned land under the jurisdiction of the department to an individual if all of the following conditions are met:

(a) The individual applies for the easement on a form provided by the department.

(b) The individual does not have other legal access to the individual's land.

(c) The easement does not conflict with any of the following:

(*i*) An existing program or management as described in an existing plan of the department.

(*ii*) A local ordinance.

(d) The road for which the easement is granted is open to public access and not for the exclusive use of the grantee.

(e) The easement provides the logical and most feasible access to the individual's land.

(f) The width of the road is restricted to the minimum consistent with the quality of the road required.

(g) The individual agrees to construct, if necessary, and maintain the road.

(h) The individual offers a similar road easement to the department to provide public access to state-owned land across the individual's land to which the easement is to be granted by the department, where applicable. The department shall not accept a road easement under this subdivision if the road easement would end at a body of water.

(i) The individual does all of the following:

(*i*) Pays the cost of a survey.

(*ii*) Pays the department the fair market value of the easement. The fair market value of the easement granted by the department shall be offset by the fair market value of any easement granted to the department under subdivision (h).

(2) Effective 30 days after the department receives an application for an easement, the application shall be

considered to be complete unless the department proceeds as provided under subsection (3).

(3) If, before the expiration of the 30-day period under subsection (1), the department notifies the applicant, in writing, that the request is not complete, specifying the information necessary to make the request complete, the running of the 30-day period under subsection (2) is tolled until the applicant submits to the department the specified information, at which time the request shall be considered to be complete.

(4) Within 90 days after the application is considered to be complete, the department shall grant or deny the application for the easement and notify the applicant in writing. If the department denies the application, the notice shall set forth the reasons for the denial.

History: Add. 1995, Act 60, Imd. Eff. May 24, 1995;—Am. 2011, Act 323, Imd. Eff. Dec. 27, 2011.

Popular name: Act 451

Popular name: NREPA

324.2123a Granting easement over state-owned land under jurisdiction of department to individual; conditions; 30-day period to consider application; notification of incomplete application; tolling of time period; time period for approval or denial of application.

Sec. 2123a. (1) Subject to section 2124 and notwithstanding section 2123, the department shall grant or otherwise provide for an easement for a road over state-owned land under the jurisdiction of the department to an individual if all of the following conditions are met:

(a) The individual applies for the easement on a form provided by the department.

(b) The individual does not have other legal access to the individual's land.

(c) The easement does not conflict with any of the following:

(*i*) With an existing program or management as described in an existing plan of the department.

(*ii*) If the land was acquired using revenue from hunting and fishing license fees, federal funds from a wildlife or sport fish restoration program, or other state or federal program funds, with state or federal laws governing the use of lands acquired through the respective program.

(*iii*) With a local ordinance.

(d) The easement does not cross an environmentally sensitive area, including, but not limited to, a wetland as defined in section 30301 or a critical dune area as defined in section 35301.

(e) The individual offers a similar road easement to the department to provide public access to state-owned land across the individual's land to which the easement is to be granted by the department, where applicable. The department shall not accept a road easement under this subdivision if the road easement would end at a body of water.

(f) The individual does all of the following:

(*i*) Pays the cost of a survey.

(*ii*) Pays to the department the fair market value of the easement. The fair market value of the easement granted by the department shall be offset by the fair market value of any easement granted to the department under subdivision (e).

(2) Effective 30 days after the department receives an application for an easement, the application shall be considered to be complete unless the department proceeds as provided under subsection (3).

(3) If, before the expiration of the 30-day period under subsection (1), the department notifies the applicant, in writing, that the request is not complete, specifying the information necessary to make the request complete, the running of the 30-day period under subsection (2) is tolled until the applicant submits to the department the specified information, at which time the request shall be considered to be complete.

(4) Within 90 days after the application is considered to be complete, the department shall grant or deny the application for the easement and notify the applicant in writing. If the department denies the application, the notice shall set forth the reasons for the denial.

(5) The department may impose conditions on an easement granted under this section.

324.2124 Granting easement over state-owned land under jurisdiction of department prohibited.

Sec. 2124. The department shall not grant an easement over state-owned land under the jurisdiction of the department if any of the following apply:

(a) The proposed easement is over land designated as a wilderness area, wild area, or natural area under part 351.

(b) The proposed easement is over land in an area closed to vehicular traffic pursuant to management as described in an existing plan of the department.

(c) The construction or use of the new or existing road will result in unreasonable damage to or destruction of the surface, soil, animal life, fish or other aquatic life, or property.

324.2125 Granting easement over state owned land under jurisdiction of department to individual; interest in land required; "interest" defined; construction of words and phrases used to define interest.

Sec. 2125. (1) The department shall not grant an easement over state owned land under the jurisdiction of the department to an individual unless that individual has an interest, as that term is defined in this section, in the land to which the easement is to provide access.

(2) As used in this section, "interest" means an estate in possession other than a chattel interest, which may be in severalty, joint tenancy, tenancy by the entireties, or tenancy in common.

(3) The words and phrases used in subsection (2) to define interest shall be construed pursuant to chapter 62 of the Revised Statutes of 1846, being sections 554.1 to 554.46 of the Michigan Compiled Laws; Act No. 126 of the Public Acts of 1925, being section 557.81 of the Michigan Compiled Laws; and Act No. 210 of the Public Acts of 1927, being sections 557.101 to 557.102 of the Michigan Compiled Laws.

324.2126 Payment of charges by individual applying for easement; application fee.

Sec. 2126. Before the department grants an easement under this subpart, the individual applying for the easement shall pay charges as required by the department. The charges shall be the same as those charges required for the granting of an easement under subpart 9. However, the department may charge a fee for an application for the grant of an easement under this subpart. The fee shall not exceed the actual reasonable cost of processing an application for an easement or $300.00, whichever is less.

History: Add. 1995, Act 60, Imd. Eff. May 24, 1995;—Am. 2011, Act 323, Imd. Eff. Dec. 27, 2011;—Am. 2018, Act 238, Eff. Sept. 25, 2018.

324.2128 Termination of easement; hearing.

Sec. 2128. (1) If the land to which an easement is granted by the department pursuant to this subpart or former Act No. 421 of the Public Acts of 1982 is subsequently subdivided, as this term is defined by section 102 of the subdivision control act, Act No. 288 of the Public Acts of 1967, being section 560.102 of the Michigan Compiled Laws, the easement shall terminate.

(2) If an individual who obtains an easement pursuant to this subpart violates the terms of the easement, the easement shall terminate, and any rights in the easement shall terminate, after opportunity for a hearing under the administrative procedures act of 1969, Act No. 306 of the Public Acts of 1969, being sections 24.201 to 24.328 of the Michigan Compiled Laws, is provided.

SUBPART 9

324.2129 Easements for public utilities over state lands; disposition of revenue.

Sec. 2129. The department may grant easements, upon terms and conditions the department determines just and reasonable, for state and county roads and for the purpose of constructing, erecting, laying, maintaining, and operating pipelines, electric lines, telecommunication systems, and facilities for the intake, transportation, and discharge of water, including pipes, conduits, tubes, and structures usable in connection with the lines, telecommunication systems, and facilities, over, through, under, and upon any and all lands belonging to the state which are under the jurisdiction of the department and over, through, under, and upon any and all of the unpatented overflowed lands, made lands, and lake bottomlands belonging to or held in trust by this state. Except as otherwise specifically provided by law, revenue received as the result of the granting of an easement shall be deposited in the state fund from which revenues are appropriated for the payment in lieu of taxes required to be paid in relation to state land under subpart 14.

SUBPART 10
LAND EXCHANGE FACILITATION FUND

324.2130 Definitions.

Sec. 2130. As used in this subpart:

(a) "Board" means the Michigan natural resources trust fund board established in section 1905.

(b) "Fund", unless the context implies otherwise, means the land exchange facilitation and management fund created in section 2134.

(c) "Land" includes lands, tenements, and real estate and rights to and interests in lands, tenements, and real estate.

History: Add. 1995, Act 60, Imd. Eff. May 24, 1995;—Am. 2018, Act 238, Eff. Sept. 25, 2018.

Popular name: NREPA

324.2131 Designation and sale of surplus land; restrictions.

Sec. 2131. (1) Subject to subsection (2), the department may designate as surplus land any state-owned land that is under the control of the department and may, on behalf of this state, sell that land if the sale is not otherwise prohibited by law and the department has considered all of the following:

(a) Whether the sale will not materially diminish the quality or utility of other state-owned land adjoining the land to be sold.

(b) Whether the sale is in the best interests of this state, giving due regard to the variety, use, and quantity of lands then under the control of the department.

(c) Whether the sale will resolve an inadvertent trespass.

(d) Whether the sale will promote the development of the forestry or forest products industry or the mineral extraction and utilization industry or other economic activity in this state.

(2) Except as provided in section 74102b, the department shall not designate as surplus land any land within a state park, state recreation area, state fish hatchery, state game area, or state public boating access site.

History: Add. 1995, Act 60, Imd. Eff. May 24, 1995;—Am. 2001, Act 174, Imd. Eff. Dec. 11, 2001;—Am. 2006, Act 308, Imd. Eff. July 20, 2006;—Am. 2012, Act 622, Imd. Eff. Jan. 9, 2013;—Am. 2018, Act 238, Eff. Sept. 25, 2018.

Popular name: NREPA

324.2132 Sale of surplus land; price; methods; sale to highest bidder; condition to acceptance of bid; application for negotiated sale; application fee; notice; disposition of proceeds; quitclaim deed; consideration of application; local preference.

Sec. 2132. (1) Subject to subsection (2), the department may sell surplus land at a price established using the method that the department determines to be most appropriate, such as any of the following:

(a) Appraisal, subject to section 2132a.

(b) Appraisal consulting.

(c) A schedule adopted by the department for pricing property with uniform characteristics and low utility.

(d) The true cash value of nearby land as determined by the local assessor.

(2) If the department offers tax reverted land for sale and the land is not sold within 9 months, the department may sell the land to a qualified buyer who submits an offer that represents a reasonable price for the property as determined by the department.

(3) The sale of surplus land shall be conducted by the department through 1 of the following methods:

(a) A public auction sale.

(b) A negotiated sale.

(4) Subject to subsection (1), the sale of surplus land through a public auction sale shall be to the highest bidder.

(5) Effective 60 days after the department receives an application to purchase surplus land through a negotiated sale, the application shall be considered to be complete unless the department proceeds as provided under subsection (6).

(6) If, before the expiration of the 60-day period under subsection (5), the department notifies the applicant, in writing, that the application is not complete, specifying the information necessary to make the application complete, or that the fee required under subsection (8) has not been paid, specifying the amount due, the running of the 60-day period under subsection (5) is tolled until the applicant submits to the department the specified information or fee amount due, at which time the application shall be considered to be complete. Notice under this subsection shall include a statement of the requirements of subsection (12).

(7) Within 210 days after the application is considered to be complete, or a later date agreed to by the applicant and the department, the department shall approve or deny the application and notify the applicant in writing. If the department denies the application, the notice shall set forth the specific reasons for the denial.

(8) The department shall charge a fee for an application for the purchase of surplus land. The fee shall be $300.00 plus, if the surplus land is more than 300 acres in size, the actual reasonable cost of processing the application.

(9) A notice of the proposed sale of surplus land shall be given as provided in section 2165.

(10) The proceeds from the sale of surplus land shall be deposited into the fund.

(11) Surplus land that is sold under this subpart shall be conveyed by quitclaim deed approved by the attorney general.

(12) Each application, as may be later amended or supplemented, submitted by a private person under subsection (3)(b) for the purchase of land shall be considered and acted upon by the department to final decision before any other application submitted at a later date by a different private person for the purchase or exchange of the same land. However, if an application is not completed or the fee under subsection (8) is not paid within 60 days after the department notifies the applicant under subsection (6) that the application is incomplete or that the fee has not been paid, the department shall consider and act upon to final decision an application submitted at a later date that is completed and for which the fee has been paid before that previously submitted application.

(13) In a land transaction, the department may give preference to a local unit of government but shall not give preference to any other person.

324.2132a Purchase or sale based on appraised value.

Sec. 2132a. If land is proposed for purchase or sale by or exchange with the department under this act based on its appraised value, if 2 or more appraisals of the land that meet department standards are made on behalf of the parties to the proposed transaction, and if the high appraisal is less than 10% higher than the low appraisal, the accepted value for purposes of the purchase, sale, or exchange shall be the average of all the appraised values. If the high appraisal is at least 10% higher than the low appraisal, the parties may agree upon a new appraiser, whose appraisal, or determination based on review of the existing appraisals, shall be the accepted value for purposes of the purchase, sale, or exchange. The department is responsible for the new appraiser's fee.

324.2133 List of surplus lands.

Sec. 2133. (1) Upon request, the department shall furnish a list of surplus lands being offered for sale at public auction. The surplus land sale list shall include all of the following:

(a) The date, time, and place of sale.

(b) Descriptions of surplus lands being offered.

(c) The conditions of sale.

(2) Upon request, the department shall furnish a list of surplus lands being offered in a negotiated sale. The surplus land negotiated sale list shall include both of the following:

(a) The date, time, and place that the department will meet to authorize the sale.

(b) Descriptions of surplus lands being offered.

324.2134 Land exchange facilitation and management fund; creation; deposit of money or other assets; investment; administration; money carried over.

Sec. 2134. (1) A land exchange facilitation and management fund is created in the state treasury.

(2) The state treasurer may receive money or other assets from any source for deposit into the fund. The state treasurer shall direct the investment of the fund. The state treasurer shall credit to the fund interest and earnings from fund investments.

(3) The fund shall be administered by the department and shall be used only as provided in section 2135.

(4) Any money, including interest earned by the fund, remaining in the fund at the end of a fiscal year shall be carried over in the fund to the next and succeeding fiscal years and shall not lapse to the general fund.

History: Add. 1995, Act 60, Imd. Eff. May 24, 1995;—Am. 2018, Act 239, Eff. Sept. 25, 2018.

324.2135 Land exchange facilitation and management fund; use of money; purchase of land identified in recommendation; report.

Sec. 2135. (1) Money from the fund shall be used by the department only for the following purposes:

(a) The purchase of land for natural resources management if the land meets the needs outlined in the strategic plan most recently approved by the legislature under section 503.

(b) The costs of advertising, appraisals, negotiations, surveys, and closings incurred by the department in the sale of surplus land.

(c) The costs of environmental assessments, appraisals, negotiations, surveys, and closings incurred by the department in the purchase of land authorized by this subpart.

(d) The costs of managing the natural resources for public recreation activities and public recreation development projects on department-managed land.

(2) The report required by section 506 shall include a summary of all the disbursements of money from the fund for the purposes listed in subsection (1).

324.2137 Sale or exchange of land not designated as surplus land; exclusions.

Sec. 2137. (1) Upon request, the department shall consider selling or exchanging land that is not designated as surplus land. The sale or exchange of the land is subject to the same procedures as apply to the sale of land that is designated as surplus land under this subpart.

(2) Subsection (1) does not apply to land in a state park, state recreation area, state fish hatchery, state game area, or state public boating access site. Subsection (1) does not apply to a request to sell land if the request meets the requirements of section 2138.

History: Add. 2018, Act 238, Eff. Sept. 25, 2018.

324.2138 Sale or lease of certain land; notice of proposed sale or lease; disposition of proceeds.

Sec. 2138. (1) Upon request, the department shall consider selling or leasing land if both of the following requirements are met:

(a) The prospective buyer or lessee is an existing business located adjacent to state land and is limited from expansion because of adjacent state land.

(b) The sale or lease will result in a net economic benefit or other benefit for a local unit of government or region.

(2) The department shall give notice of the proposed sale or lease of the land as provided in section 2165.

(3) In making its decision on the request under subsection (1), the department shall consider both of the following:

(a) Any comments on the proposed sale or lease from local units of government or other persons.

(b) The impact on natural resources and outdoor recreation in this state, giving due regard to the variety, use, and quantity of lands then under control of the department.

(4) The price for sale of the land shall be established using a method determined appropriate by the department and agreed to by the applicant, such as those listed in section 2132(1).

(5) Proceeds from sale of the land shall be deposited in the fund that provided the revenue for the acquisition of the land by the department. If there is more than 1 such fund, the revenue shall be deposited in the funds in amounts proportionate to their respective contributions for the department's acquisition of the land. To the extent that the land was in whole or in part acquired other than with restricted fund revenue, a proportionate amount of proceeds of the sale of the land shall be deposited in the land exchange facilitation and management fund created in section 2134.

SUBPART 11
CONSERVATION AND HISTORIC PRESERVATION EASEMENT

324.2140 Definitions.

Sec. 2140. As used in this subpart:

(a) "Conservation easement" means an interest in land that provides limitation on the use of land or a body of water or requires or prohibits certain acts on or with respect to the land or body of water, whether or not the interest is stated in the form of a restriction, easement, covenant, or condition in a deed, will, or other instrument executed by or on behalf of the owner of the land or body of water or in an order of taking, which interest is appropriate to retaining or maintaining the land or body of water, including improvements on the land or body of water, predominantly in its natural, scenic, or open condition, or in an agricultural, farming, open space, or forest use, or similar use or condition.

(b) "Historic preservation easement" means an interest in land that provides a limitation on the use of a structure or site that is listed as a national historic landmark under chapter 593, 49 Stat. 593, 16 U.S.C. 461 to 467, commonly known as the historic sites, buildings, and antiquities act; is listed on the national register of historic places pursuant to the national historic preservation act of 1966, Public Law 89-665, 16 U.S.C. 470 to 470a, 470b, and 470c to 470x-6; is listed on the state register of historic sites pursuant to Act No. 10 of the Public Acts of 1955, being sections 399.151 to 399.152 of the Michigan Compiled Laws; or is recognized under a locally established historic district created pursuant to the local historic districts act, Act No. 169 of the Public Acts of 1970, being sections 399.201 to 399.215 of the Michigan Compiled Laws, or requires or prohibits certain acts on or with respect to the structure or site, whether or not the interest is stated in the form of a restriction, easement, covenant, or condition in a deed, will, or other instrument executed by or on behalf of the owner of the structure or site or in an order of taking, if the interest is appropriate to the preservation or restoration of the structure or site.

324.2141 Conservation easement; enforcement; recordation.

Sec. 2141. A conservation easement granted to a governmental entity or to a charitable or educational association, corporation, trust, or other legal entity is enforceable against the owner of the land or body of water subject to the easement despite a lack of privity of estate or contract, a lack of benefit running to particular land or a body of water, or the fact that the benefit may be assigned to another governmental entity or legal entity, including a conservation easement executed before March 31, 1981. The easement shall be recorded with the register of deeds in the county in which the land is located to be effective against a bona fide purchaser for value without actual notice.

History: Add. 1995, Act 60, Imd. Eff. May 24, 1995.

Popular name: Act 451

Popular name: NREPA

324.2142 Historic preservation easement; enforcement; recordation.

Sec. 2142. A historic preservation easement granted to a governmental entity or to a charitable or educational association, corporation, trust, or other legal entity whose purposes include the preservation or restoration of structures or sites described in section 2140(b) is enforceable against the owner of the structure or site subject to the easement despite a lack of privity of estate or contract, a lack of benefit running to the particular structure or site, or the fact that the benefit may be assigned to another governmental entity or legal entity whose purposes include the preservation or restoration of structures or sites described in section 2140(b), including a historic preservation easement executed before March 31, 1981. The easement shall be recorded with the register of deeds in the county in which the land is located to be effective against a bona fide purchaser for value without actual notice.

324.2144 Conservation easement or historic preservation easement as interest in real estate; document creating easement as conveyance; recordation; enforcement; assignment.

Sec. 2144. (1) A conservation easement or historic preservation easement is an interest in real estate, and a document creating 1 of those easements shall be considered a conveyance of real estate and shall be recorded in accord with Act No. 103 of the Public Acts of 1937, being sections 565.201 to 565.203 of the Michigan Compiled Laws, in relation to the execution and recording of instruments. The easement shall be enforced either by an action at law or by an injunction or other equitable proceedings.

(2) A conservation easement may be assigned to a governmental or other legal entity, which shall acquire that interest in the same manner as the governmental entity or legal entity acquires an interest in land.

(3) A historic preservation easement may be assigned to a governmental or other legal entity whose purposes include the preservation or restoration of structures or sites described in section 2140(b), and the governmental or legal entity shall acquire that interest in the same manner as the governmental entity or legal entity acquires an interest in land.

SUBPART 12
ACQUISITION OF SURFACE LANDS FOR WATER QUALITY CONTROL

324.2145 Iron ore mining; public interest; acquisition of property; conditions.

Sec. 2145. The business of mining and beneficiating low-grade iron ore, as defined in Act No. 77 of the Public Acts of 1951, being sections 211.621 to 211.626 of the Michigan Compiled Laws, and the business of the beneficiating and agglomerating of underground iron ore as defined in Act No. 68 of the Public Acts of

1963, being sections 207.271 to 207.279 of the Michigan Compiled Laws, are declared to be in the public interest and necessary to the public welfare, and the acquisition of private property for development of an adequate water supply, for development of the necessary storage, and for processing and treatment of liquid and solid wastes or other nonmarketable products resulting from the business is declared to be for a public purpose. The department may acquire by condemnation parcels of land that are needed for the establishment of areas, settling ponds, and basins for the storage, processing, and treatment of the wastes or other products, together with the necessary appurtenant canals, pipelines, power lines, sluiceways, roadways, dams, and dikes. The department shall lease, convey, or exchange such parcels of land to any person engaged in or proposing to engage in the business of mining and beneficiating low-grade iron ore or beneficiating and agglomerating underground iron ore, or both, upon a showing to the satisfaction of the department that the person has acquired at least 75% of the necessary land and that the person has been unable to purchase the remaining necessary parcels at a fair market value, and upon the further showing to the satisfaction of the department that the remaining parcels are necessary for the development and operation of the water supply areas, settling ponds, and basins to prevent the unlawful pollution of waters of the state or to comply with the requirements of other public agencies of the state. This subpart does not authorize the taking of any property owned by a political subdivision of the state or devoted to or used for a public or railroad purpose or the taking of any private property lying within the limits of any incorporated city or village or lands within a recorded plat in an unincorporated village.

324.2146 Condemnation of land; compensation to owners.

Sec. 2146. The department shall provide adequate compensation for any owner-occupied residences of owner-occupied or owner-operated farmland that it condemns pursuant to this subpart to enable the owners of the property to purchase like property suitable to their needs and in standard condition from the proceeds of the compensation, which shall at a minimum be equal to the valuation of the housing or agricultural land as of the date when proceedings for the condemnation were initiated by the department.

History: Add. 1995, Act 60, Imd. Eff. May 24, 1995.

Popular name: Act 451

Popular name: NREPA

324.2147 Lease or conveyance of land; conditions for issuance.

Sec. 2147. The department shall require as a condition for the issuance of any lease or conveyance authorized by this subpart the payment by the lessee of the full amount of compensation made or to be made by the department of the lands it has condemned. The lease shall contain provisions that protect the ownership of materials that are deposited upon the lands.

History: Add. 1995, Act 60, Imd. Eff. May 24, 1995.

Popular name: Act 451

Popular name: NREPA

SUBPART 13
TAX ON TAX REVERTED, RECREATION, AND FOREST LANDS

324.2150 Tax on tax reverted, recreation, and forest, or other lands; exemption; detailed statement of account; descriptions of lands; warrant; distribution; payment of tax from general fund; payment in full.

Sec. 2150. (1) Except as otherwise provided in subsection (2), on December 1 of each year the department of treasury shall pay into the treasury of each county in which are located tax reverted, recreation, forest, or other lands under the control and supervision of the department a tax in the following amount:

(a) Before December 1, 1994, $2.50 per acre or major portion of an acre.

(b) After November 30, 1994 and before January 1, 2014, $2.00 per acre or major portion of an acre.

(c) After December 31, 2013 and before January 1, 2015, $3.00 per acre or major portion of an acre.

(d) After December 31, 2014, $4.00 per acre or major portion of an acre, adjusted annually by 5% or the inflation rate, whichever is less, which shall be distributed as provided in subsection (5). As used in this subdivision, "inflation rate" means that term as defined in section 34d of the general property tax act, 1893 PA 206, MCL 211.34d.

(2) The tax levied under subsection (1) does not apply to the following:

(a) Lands purchased after January 1, 1933 for natural resource purposes.

(b) State lands on which payments in lieu of taxes are made pursuant to subpart 14.

(3) The tax levied under this section is in lieu of all other taxes and special assessments levied against the state lands under any existing law.

(4) The department of treasury shall make a detailed statement of account between this state and each county in which lands subject to the tax levied under this section are located. The statement shall include a description of the lands. The department of treasury shall submit the detailed statement of account to the county treasurer of the county. The department of treasury shall cause a warrant to be drawn payable to the county for the amount indicated on the detailed statement of account.

(5) The county treasurer of each county shall immediately make a detailed statement of account between the county and each township and school district in the county, distributing the amount received by the county proportionally based on the number of acres of the lands located in each township and school district. For disbursements made before December 1, 1994, the distribution shall be 40% to the county general fund, 40% to the township general fund, and 20% to the school operating fund. For disbursements made after November 30, 1994 and before December 1, 2022, the distribution shall be 50% to the county general fund and 50% to the township general fund. For a disbursement made on or after December 1, 2022, distributions to county boards for special assessments for lake level controls that were levied under part 307 against land described in subsection (1) but that have not been paid under this section shall receive priority. For the remaining amount of the disbursement, the distribution shall be 50% to the county general fund and 50% to the township general fund. The county treasurer shall immediately issue a warrant to each of the units consistent with the detailed statement of account.

(6) The tax on tax reverted, recreation, forest, or other lands under the control of the department on which payments are made under this subpart shall be paid from the general fund. This state shall make payment in full for the amount indicated in the statement of account prepared under subsection (4).

History: Add. 1995, Act 60, Imd. Eff. May 24, 1995;—Am. 1996, Act 585, Eff. Mar. 1, 1997;—Am. 2012, Act 603, Imd. Eff. Jan. 9, 2013;—Am. 2022, Act 1, Imd. Eff. Feb. 1, 2022.

324.2151 Tax on certain state lands; duty of department; record; warrant.

Sec. 2151. The department shall enter upon its records against each description of the land the amounts provided by this subpart and shall certify the amounts to the department of treasury, which shall draw a warrant on the state treasurer for those amounts, the tax on tax reverted, recreation, forest lands, or other lands under the control of the department to be paid out of any money in the general fund not otherwise appropriated. The amounts shall be forwarded by the department of treasury to the county treasurers.

History: Add. 1995, Act 60, Imd. Eff. May 24, 1995.

Popular name: NREPA

SUBPART 14
PAYMENT IN LIEU OF TAXES ON CERTAIN STATE LANDS

324.2152 List of certain real property owned by state and controlled by department; furnishing list to state tax commission.

Sec. 2152. For the purpose of this subpart, the department shall furnish the state tax commission with a list of all real property owned by the state and controlled by the department that was or is acquired on or after January 1, 1933 by purchase from the owner or owners of the real property and the Mason game farm, showing all descriptions.

History: Add. 1995, Act 60, Imd. Eff. May 24, 1995.

Popular name: Act 451

Popular name: NREPA

324.2153 Valuation of real property; report to assessing district; entering description upon assessment rolls; exemption; "local taxing unit" defined; adjustment; valuation established.

Sec. 2153. (1) For purposes of this subpart, the state tax commission shall determine the valuation of real property described in section 2152 before February 1 of each year. The state tax commission shall determine the valuation of real property as provided in subsection (7).

(2) Not later than February 15 of each year, the state tax commission shall make a report to the assessing districts of this state in which the real property is located, giving a description of the real property in the assessing district held by the state and the valuation as fixed by the state tax commission pursuant to subsection (7).

(3) Except as otherwise provided in subsection (7), the state tax commission shall furnish a valuation to the assessing officers that shall be at the same value as other real property is assessed in the assessment district. In fixing the valuation, the state tax commission shall not include improvements made to or placed upon that real property.

(4) Upon receipt of the valuation under subsection (3), the assessing officer shall enter upon the assessment rolls of each municipality or assessing district the respective descriptions of the real property and the fixed valuation and, except as otherwise provided in subsection (5), shall assess that real property for the purposes of this subpart at the same rate as other real property in the assessing district. A local taxing unit may by resolution permanently exempt that real property from any tax levied by that local taxing unit. As used in this subsection, "local taxing unit" means a city, village, township, county, school district, intermediate school district, community college, authority, or any other entity authorized by law to levy a tax on real property.

(5) Except as limited in subsection (6) and as otherwise provided in subsection (7), the assessing officer may adjust the valuation determined by the state tax commission. If an adjustment to the valuation certified by the state tax commission is made, the assessing officer shall certify all of the following to the department, not later than the first Wednesday after the first Monday in March:

(a) The amount and percentage of any general adjustment of assessed valuation of property located in the assessing district other than property described in section 2152.

(b) The amount and percentage of any change in the assessment roll.

(c) The relation of the total valuation to that reported by the state tax commission.

(d) The adjusted total of conservation land.

(6) The following shall not be included in an adjustment under subsection (5):

(a) Any general adjustment of assessed valuation of property located in the assessing district.

(b) The tax levied under the state education tax act, 1993 PA 331, MCL 211.901 to 211.906.

(7) Before 2012, property valuations shall be established as follows:

(a) For property valuations established under this subpart in 2004, the 2004 valuation shall be the valuation of the property in 2004 through 2008.

(b) In 2009 and each year after 2009, the valuation of property shall not increase each year by more than the increase in the immediately preceding year in the general price level or 5%, whichever is less. As used in this subdivision, "general price level" means that term as defined in section 33 of article IX of the state constitution of 1963.

(c) If property is acquired after 2004, the initial property valuation determined under this section shall be the valuation for each subsequent year until the next adjustment under subdivision (b) occurs.

(8) Beginning in 2013, property valuations shall be the greater of the following:

(a) The value of the property calculated under subsection (7).

(b) The taxable value of the property calculated under section 27a of the general property tax act, 1893 PA 206, MCL 211.27a.

History: Add. 1995, Act 60, Imd. Eff. May 24, 1995;—Am. 2004, Act 513, Imd. Eff. Jan. 3, 2005;—Am. 2012, Act 603, Imd. Eff. Jan. 9, 2013.

324.2154 Statement of assessment; review; payment; aggregate charges; failure of state to make payment; "Michigan natural resources trust fund" defined.

Sec. 2154. (1) The treasurer or other officer charged with the collection of taxes for an assessing district shall annually forward a single statement of the assessment of all property for which payment is claimed under this subpart to the respective county by December 1. The statement shall include an itemization of the valuation and assessment for each individual parcel for which payment is claimed under this subpart. The county shall annually forward the statements received from all affected assessing districts in the county to the Lansing office of the department by December 15. The Lansing office of the department shall review each statement. Subject to subsection (2), if the assessment has been determined according to this subpart, the department shall authorize the state treasurer to pay the amount of the assessment by warrant on the state treasury. Beginning in 2014, if an assessing district does not submit a statement under this subsection by January 1, the amount payable to that assessing district shall be reduced by 5% for each month or portion of a month after January 1 that the statement is late. The state treasurer shall annually forward a separate payment

in the amount of the assessment to each affected assessing district in the county by February 14 for any assessing district that has submitted a statement as provided in this subsection.

(2) The aggregate amount for all payments to all assessing districts under section 2153 shall be charged as follows:

(a) If property for which payment is claimed was not purchased with funds from the Michigan natural resources trust fund, payments shall be charged as follows:

(*i*) That portion of the payment that represents an assessment by a local school district, intermediate school district, or community college district shall be charged against the state school aid fund established in section 11 of article IX of the state constitution of 1963.

(*ii*) The balance of any payment remaining after the charge made in subparagraph (*i*) shall be charged as follows:

(A) Not more than 50% from restricted revenue sources of the department of natural resources.

(B) The remaining balance after the charge under sub-subparagraph (A), from the general fund.

(b) If the property for which payment is claimed was purchased with funds from the Michigan natural resources trust fund, the payment shall be charged against the Michigan natural resources trust fund.

(3) Beginning 2013, this state shall make payment in full to all local assessing districts under this section. Beginning 2014, if this state does not make payment in full to all local assessing districts, the delinquent amount that this state failed to pay is subject to penalty and interest as for delinquent taxes under the general property tax act, 1893 PA 206, MCL 211.1 to 211.155.

(4) As used in this section, "Michigan natural resources trust fund" means the Michigan natural resources trust fund established in section 35 of article IX of the state constitution of 1963 and provided for in section 1902.

SUBPART 15

PROTECTION OF STATE OWNED LANDS

324.2155 “Damages” defined.

Sec. 2155. As used in this subpart, "damages" means the fair market value on the stump or at the mill, whichever is greater of a forest product cut or removed, or the fair and actual value of any other property removed or damaged in trespass, plus any other damages caused before, during, or after the cutting or removal.

History: Add. 1995, Act 60, Imd. Eff. May 24, 1995.

Popular name: Act 451

Popular name: NREPA

324.2156 Removal of forest products or property from state owned land; accepting or receiving property in violation of subsection (1).

Sec. 2156. (1) Unless a person has the written permission of the department or is acting as authorized in R 299.321 or R 299.331 of the Michigan administrative code, a person shall not enter upon, or induce or direct any person to enter upon, any state owned land and cut, or induce or direct to be cut, or remove, or induce or direct to be removed, any logs, posts, poles, ties, shrubs, or trees, or any other forest product. In addition, a person shall not injure or remove, or induce or direct any other person to injure or remove, any buildings, fences, improvements, sand, gravel, marl or other minerals, or other property belonging to or appertaining to state owned land.

(2) A person shall not accept or receive by purchase or otherwise a forest product, improvement, or other property unlawfully cut or removed, or both, knowing the property to have been unlawfully cut or removed, or both, in violation of subsection (1).

History: Add. 1995, Act 60, Imd. Eff. May 24, 1995.

Popular name: Act 451

Popular name: NREPA

324.2157 Violation; penalties; determination of total value; prior convictions; prohibition.

Sec. 2157. (1) A person who violates section 2156 is guilty of a crime as follows:

(a) If the damages are less than $200.00, the person is guilty of a misdemeanor punishable by imprisonment for not more than 93 days or a fine of not more than $500.00, or 3 times the aggregate value of the forest product, improvement, or property involved, whichever is greater, or both imprisonment and a fine.

(b) If any of the following apply, the person is guilty of a misdemeanor punishable by imprisonment for not more than 1 year or a fine of not more than $2,000.00 or 3 times the value of the forest product, improvement, or property involved, whichever is greater, or both imprisonment and a fine:

(*i*) The value of the forest product, improvement, or property involved is $200.00 or more but less than $1,000.00.

(*ii*) The person violates subdivision (a) and has 1 or more prior convictions for committing or attempting to commit an offense under section 2156.

(c) If any of the following apply, the person is guilty of a felony punishable by imprisonment for not more than 5 years or a fine of not more than $10,000.00 or 3 times the value of the forest product, improvement, or property involved, whichever is greater, or both imprisonment and a fine:

(*i*) The value of the forest product, improvement, or property involved is $1,000.00 or more but less than $20,000.00.

(*ii*) The person violates subdivision (b)(*i*) and has 1 or more prior convictions for violating or attempting to violate section 2156. For purposes of this subparagraph, however, a prior conviction does not include a conviction for a violation or attempted violation of subdivision (a) or (b)(*ii*).

(d) If any of the following apply, the person is guilty of a felony punishable by imprisonment for not more than 10 years or a fine of not more than $15,000.00 or 3 times the value of the forest product, improvement, or property involved, whichever is greater, or both imprisonment and a fine:

(*i*) The forest product, improvement, or property involved has a value of $20,000.00 or more.

(*ii*) The person violates subdivision (c)(*i*) and has 2 or more prior convictions for committing or attempting to commit an offense under section 2156. For purposes of this subparagraph, however, a prior conviction does not include a conviction for a violation or attempted violation of subdivision (a) or (b)(*ii*).

(2) The values of the forest product, improvement, or property involved in separate incidents pursuant to a scheme or course of conduct within any 12-month period may be aggregated to determine the total value of the forest products, improvements, or property involved.

(3) If the prosecuting attorney intends to seek an enhanced sentence based upon the defendant having 1 or more prior convictions, the prosecuting attorney shall include on the complaint and information a statement listing the prior conviction or convictions. The existence of the defendant's prior conviction or convictions shall be determined by the court, without a jury, at sentencing or at a separate hearing for that purpose before sentencing. The existence of a prior conviction may be established by any evidence relevant for that purpose, including, but not limited to, 1 or more of the following:

(a) A copy of the judgment of conviction.

(b) A transcript of a prior trial, plea-taking, or sentencing.

(c) Information contained in a presentence report.

(d) The defendant's statement.

(4) If the sentence for a conviction under this section is enhanced by 1 or more prior convictions, those prior convictions shall not be used to further enhance the sentence for the conviction pursuant to section 10, 11, or 12 of chapter IX of the code of criminal procedure, 1927 PA 175, MCL 769.10, 769.11, and 769.12.

History: Add. 1995, Act 60, Imd. Eff. May 24, 1995;—Am. 2001, Act 155, Eff. Jan. 1, 2002.

Popular name: Act 451

Popular name: NREPA

324.2158 Violation; additional penalties.

Sec. 2158. (1) In addition to the penalties provided for in section 2157, a person convicted of violating this subpart shall forfeit in a civil action filed by the state a sum of up to 3 times the actual damages, but not less than $50.00, that were caused by the unlawful act, and court costs and attorney fees. In addition, the material or other property cut or removed shall be seized by the state, and title to the property shall be in the state. In addition, equipment used to violate this subpart may be seized and disposed of to the best advantage of the state as determined by the department as required under sections 1603 and 1604.

(2) A court in which a conviction for a violation of this subpart is obtained shall order the defendant to forfeit to the state a sum as set forth in subsection (1). If 2 or more defendants are convicted of a violation of this subpart, the forfeiture shall be declared against them jointly.

(3) If a defendant fails to pay upon conviction the sum ordered by the court to be forfeited, the court shall either impose a sentence and require the defendant, as a condition of the sentence, to satisfy the forfeiture in

the amount prescribed and fix the manner and time of payment, or make a written order permitting the defendant to pay the sum to be forfeited in installments at those times and in those amounts that in the opinion of the court the defendant is able to pay.

(4) If a defendant defaults in payment of the sum forfeited or of an installment of that sum, the court on motion of the department or upon its own motion may require the defendant to show cause why the default should not be treated as a civil contempt, and the court may issue a summons or warrant of arrest for his or her appearance. Unless the defendant shows that the default was not due to an intentional refusal to obey the order of the court or a failure to make a good faith effort to obtain the funds required for the payment, the court shall find that the default constitutes a civil contempt.

(5) If in the opinion of the court the defendant's default in the payment of the forfeiture does not constitute civil contempt, the court may enter an order allowing the defendant additional time for payment, reducing the amount of the forfeiture or of each installment, or revoking the forfeiture or the unpaid portion of the forfeiture, in whole or in part.

(6) A default in the payment of the forfeiture or an installment payment may be collected by any means authorized for the enforcement of a judgment under chapter 60 of the revised judicature act of 1961, Act No. 236 of the Public Acts of 1961, being sections 600.6001 to 600.6098 of the Michigan Compiled Laws.

(7) A court receiving forfeiture damages shall remit the damages with an abstract or register of actions to the department, which shall deposit the damages with the state treasurer, who shall deposit the damages in the fund that was used to purchase the land on which the violation occurred.

(8) All money received by the disposal of seized property under this subpart shall be deposited with the state treasurer, who shall deposit the money in the fund that was used to purchase the land on which the violation occurred.

SUBPART 16

CERTIFIED COPIES OF FIELD NOTES, MAPS, RECORDS, AND PAPERS

324.2160 Delivery of records as to land titles and surveys; certified copies admissible as evidence.

Sec. 2160. Upon receipt of an application of any person, and payment by the applicant of the fees provided for in this part, the department shall make and deliver to the applicant a true copy of any field notes, maps, records, or papers possessed by the department appertaining to land titles or to the original surveys of any of the lands in this state. Such a true copy, when certified to by the department under its seal, or the record thereof when recorded in the office of the register of deeds of the proper county, may be admitted in evidence in all courts and places in which the title or boundary of any land is in question, and shall have the same force and effect, as evidence, as though chapter XXXVI, 5 Stat. 384, had named the department as the officer to whom the surveyor general should deliver all the field notes, maps, records, and other papers appertaining to land titles.

History: Add. 1995, Act 60, Imd. Eff. May 24, 1995.

Popular name: Act 451

Popular name: NREPA

324.2161 Prices and charges; schedule.

Sec. 2161. The following schedule of prices and charges shall be observed by the department:

(a) For field and meander notes, per survey township, $8.00.

(b) For each official certificate with seal, $1.00.

(c) For township plats showing vacant state lands only, each, 25 cents.

(d) For township plats showing vacant state lands with streams, each, 50 cents.

(e) For copies of all records and papers that the department may be required to furnish by law, for each 100 words, 15 cents.

(f) For tax statements on each description of land, per year, 6 cents.

SUBPART 17
NOTICE

324.2165 Notice of acquisition, disposal, lease or development of land; requirements; public meeting; exclusions; definitions.

Sec. 2165. (1) At least 30 days before acquiring, or making a decision to dispose of, lease, or develop, lands that are more than 80 acres in size, the department shall do all of the following:

(a) Provide notice in writing to the legislative bodies of the local units of government where the land is located.

(b) Post the notice on its website.

(c) Publish the notice in a newspaper of general circulation in the county where the land is located.

(2) The notice under subsection (1) shall contain all of the following information:

(a) The acreage, the location by address or by distance and direction from specified roads or highways, and the legal description of the land.

(b) The proposed timing of the land transaction.

(c) The proposed use for the land.

(d) The opportunity for the legislative body of a local unit of government where the land is located, or 5 or more residents of or owners of land in the county where the land is located, to request a general public meeting on the proposed transaction and the date by which the request must be received by the department under subsection (3).

(e) A website address where additional information on the proposed transaction can be found.

(f) For persons who wish to comment on or ask questions about the proposed transaction, the name, telephone number, electronic mail address, and mailing address of a department contact person.

(g) For the website notice, the following additional information:

(*i*) For the acquisition, lease from another person, or development of land, the fund source that will be used.

(*ii*) For the acquisition of land, the estimated annual payments in lieu of taxes.

(*iii*) The effect the proposal is expected to have on achieving the strategic performance goals set forth in the strategic plan pursuant to section 503(7).

(3) If the legislative body of a local unit of government where the land is located or 5 or more residents of or owners of land in the county where the land is located request a general public meeting and the department receives the necessary request or requests within 15 days after providing notice under subsection (1), the department shall meet with the general public in the county where the land is located to discuss the proposed disposition, acquisition, lease, or development. The department shall send a representative to the meeting who is familiar with the proposal.

(4) The department shall provide notice of a meeting under subsection (3) by all of the following means:

(a) Written notice to the legislative body of each local unit of government where the land is located.

(b) Written notice to each resident or owner of land that requested the meeting under subsection (3).

(c) Posting of the notice on the department's website.

(5) The department shall provide an opportunity for representatives of all local units of government where the land is located to meet in person with a department representative who is familiar with the proposed disposition, acquisition, lease, or development to discuss the proposal.

(6) Subsections (1) to (5) do not apply to either of the following:

(a) A lease with a term of 10 years or less.

(b) A lease limited to exploration for and production of oil and gas.

(7) As used in this section:

(a) "Development" means development that would significantly change or impact the current use of the land subject to development. "Developing" has a corresponding meaning. The removal of a berm, gate, or other human-made barrier under section 504 is not development.

(b) "Newspaper" means that term as defined in section 1461 of the revised judicature act of 1961, 1961 PA 236, MCL 600.1461.

History: Add. 2018, Act 240, Eff. Sept. 25, 2018;—Am. 2022, Act 2, Eff. Mar. 29, 2023.

Popular name: Act 451

Popular name: NREPA

PART 23.
AGRICULTURE AND THE ENVIRONMENT

324.2301 Definitions.

Sec. 2301. As used in this part:

(a) "Department" means the department of environmental quality.

(b) "Director" means the director of the department.

(c) "Roundtable" means the agriculture and rural communities roundtable convened under section 2303.

(d) "Rural county" means a county with a population of less than 70,000.

(e) "Standing committees" means the committees of the senate and house of representatives with primary responsibility for agriculture.

History: Add. 2005, Act 47, Imd. Eff. June 16, 2005.

Popular name: Act 451

Popular name: NREPA

324.2303 Agriculture and rural communities roundtable; participants; consultation.

Sec. 2303. (1) The director shall convene an agriculture and rural communities roundtable to discuss how the laws, rules and policies administered by the department affect farmers, food processors, agribusiness, rural counties, and cities, villages, and townships in rural counties.

(2) The director shall invite at least all of the following to participate in the roundtable:

(a) Two individuals from an association representing farmers.

(b) Two individuals from an association representing food processors.

(c) Two individuals from an association representing agribusiness.

(d) One individual representing a township in a rural county.

(e) One individual representing a city or village in a rural county.

(f) One individual representing a rural county.

(3) Before extending invitations to participate in the roundtable, the director shall consult with the chairpersons of standing committees.

History: Add. 2005, Act 47, Imd. Eff. June 16, 2005.

Compiler's note: For abolishment of the agriculture and rural communities roundtable and transfer of its powers and duties to the department of environmental quality, see E.R.O. No. 2007-9, compiled at MCL 324.99909.

Popular name: Act 451

Popular name: NREPA

324.2305 Meetings.

Sec. 2305. (1) The first meeting of the roundtable shall be convened by the director within 90 days after the effective date of the amendatory act that added this section.

(2) The director shall convene the roundtable at least twice each calendar year, except that if the amendatory act that added this section takes effect after September 30, the roundtable shall convene at least once the first calendar year. The roundtable may advise the director on the need for a more frequent meeting schedule.

(3) The meetings of the roundtable shall be open to the general public and shall be held in a place available to the general public.

(4) The department shall provide notice of each meeting of the roundtable by posting on the department website and such other means as the department determines appropriate.

(5) At least 1 meeting of the roundtable each year shall be held in a rural community. At such a meeting, the public shall be provided an opportunity to address the roundtable on issues within its purview.

(6) The department shall prepare a summary of each meeting of the roundtable including a department response to issues raised during the roundtable meeting. The department shall do both of the following:

(a) Post the summary on its website.

(b) Provide a copy of the summary to the members of the roundtable, any member of the public requesting a copy, and to the standing committees.

History: Add. 2005, Act 47, Imd. Eff. June 16, 2005.

Compiler's note: For abolishment of the agriculture and rural communities roundtable and transfer of its powers and duties to the department of environmental quality, see E.R.O. No. 2007-9, compiled at MCL 324.99909.

PART 25
ENVIRONMENTAL EDUCATION

324.2501 Purpose of part.

Sec. 2501. The purpose of this part is to facilitate an understanding by citizens of this state of the natural environment including an understanding of basic sciences, ecological sciences, and of the connection between human beings, air, land, water, and other living things, as well as how these systems relate to the global environment, thus making it possible for human beings to make informed decisions regarding protection and conservation of the environment and utilization of the natural resources in a wise and prudent fashion.

History: Add. 1995, Act 60, Imd. Eff. May 24, 1995.

Popular name: Act 451

Popular name: NREPA

324.2502 Definitions.

Sec. 2502. As used in this part:

(a) "Coordinator" means the coordinator of environmental education provided for in section 2503.

(b) "Environmental education" means the teaching of factual information regarding the natural environment, including basic sciences, ecological sciences, agricultural sciences, and other relevant subject matter, and the interdisciplinary process of developing a citizenry that is knowledgeable about the total environment and has the capacity and the commitment to engage in inquiry, problem solving, decision making, and action that will assure environmental quality.

History: Add. 1995, Act 60, Imd. Eff. May 24, 1995.

Popular name: Act 451

Popular name: NREPA

324.2503 Coordinator of environmental education; appointment; responsibilities.

Sec. 2503. The department shall appoint a coordinator of environmental education within the department of natural resources. The coordinator's primary responsibilities shall be to do the following:

(a) Coordinate the efforts of the department related to environmental education.

(b) Work with the department of education and with local education institutions, not-for-profit educational and environmental organizations, broadcasting entities, and private sector interests to support development of curricula, special projects, and other activities to increase understanding of the basic sciences and of natural resources and the environment.

(c) Provide technical assistance to school districts, schools, and educators wishing to undertake projects including, but not limited to, water quality, air quality monitoring, or habitat protection.

(d) If an environmental education advisory committee is established pursuant to section 2504, coordinate with the department in staffing the advisory committee.

(e) Provide assistance to the commission in implementing statewide environmental education strategies developed by the department and the department of education.

(f) Assist in identifying grants or other sources of funding for innovative educators and students of environmental education.

(g) Recommend the appropriate mechanism for establishment of a clearinghouse of environmental education materials, which would make environmental education materials available to educators throughout the state.

(h) Provide or support existing training and professional development programs for educators.

(i) Assist in the incorporation of environmental education into curriculum objectives for the state's elementary and secondary schools and develop appropriate assessment mechanisms.

(j) Promote awareness of section 1171a of the school code of 1976, Act No. 451 of the Public Acts of 1976, being section 380.1171a of the Michigan Compiled Laws.

History: Add. 1995, Act 60, Imd. Eff. May 24, 1995.

Popular name: Act 451

Popular name: NREPA

324.2504 Repealed. 2008, Act 397, Imd. Eff. Jan. 6, 2009.

Compiler's note: The repealed section pertained to establishment of environmental education advisory committee.

324.2505 Environmental education fund; creation; disposition of assets; appropriation of civil fines to fund; money to remain in fund; administrator of fund for auditing purposes; establishment and operation of clearinghouse of environmental education materials.

Sec. 2505. (1) The environmental education fund is created within the state treasury.

(2) The state treasurer shall direct the investment of the fund. The state treasurer may receive money or other assets from any source for deposit into the fund. Interest and earnings from fund investments shall be credited to the fund.

(3) Twenty-five percent of the civil fines collected annually under the following parts or their predecessor acts, but not more than $250,000.00 in any fiscal year, shall be appropriated to the fund:

(a) Part 31.

(b) Part 111.

(c) Part 115.

(4) Money in the fund at the close of the fiscal year shall remain in the fund and shall not lapse to the general fund.

(5) The department shall be the administrator of the fund for auditing purposes.

(6) Money in the fund shall be used to implement this part and may be used for the establishment and operation of a clearinghouse of environmental education materials, which would make environmental education materials available to educators throughout the state.

History: Add. 1995, Act 60, Imd. Eff. May 24, 1995;—Am. 2008, Act 397, Imd. Eff. Jan. 6, 2009.

Popular name: Act 451

Popular name: NREPA

324.2511 Designation as "green school"; environmental stewardship designation; criteria; approval or rejection of application.

Sec. 2511. (1) A public or private school in this state may apply to be designated as a "green school" by submitting an application to the entity designated under subsection (4) by the county in which the school is located. A school is eligible to receive a green school, emerald school, or evergreen school environmental stewardship designation under this section if the school or students perform the required number of activities, with a minimum of 2 activities from each of the categories described in subsection (2), as follows:

(a) Green school - 10.

(b) Emerald school - 15.

(c) Evergreen school - 20.

(2) The activities in the following 4 categories qualify toward an environmental stewardship designation under this section:

(a) Recycling category, which includes the following activities:

(*i*) Coordinating a program for recycling at least 2 of the following: office paper, plastic, metal cans, printer cartridges, newspapers and magazines, cellular telephones, cardboard, fabric and clothing, compact discs and digital video discs, or glass.

(*ii*) Composting food and organic wastes.

(*iii*) Conducting a waste-free lunch program.

(*iv*) Implementing a policy to buy recycled, biodegradable, locally produced, or less toxic food and school supplies.

(b) Energy category, which includes the following activities:

(*i*) Offering at least 1 teaching unit on alternative energy.

(*ii*) Using alternative energy, renewable fuels, or specialized energy-efficient technology in school operations.

(*iii*) Implementing a school energy-saving program.

(*iv*) Performing energy audits at student homes and educating student families and the community.

(*v*) Taking part in a project or event to promote improved vehicle fuel efficiency.

(*vi*) Sponsoring an alternative energy presentation, project, or event.

(c) Environmental protection category, which includes the following activities:

(*i*) Participating in activities promoting the health of the Great Lakes watershed.

(*ii*) Offering a teaching unit on environmental issues facing this state.

(*iii*) Establishing or maintaining a natural Michigan garden project with native plants.

(*iv*) Establishing or maintaining an animal habitat project.

(*v*) Participating in a local community environmental issue by activities such as letter-writing, attending public hearings, raising funds, or community outreach.

(d) Miscellaneous category, which includes the following activities:

(*i*) Adopting an endangered or threatened species and publicizing the activity.

(*ii*) Hosting an environmental or energy speaker, event, or field trip.

(*iii*) Establishing a student organization that participates in environmental activities.

(*iv*) Observing earth day by participating in an earth day event in April.

(*v*) Maintaining an updated bulletin board or kiosk with information on environmental concerns and the school's actions in addressing those concerns.

(*vi*) Establishing an eco-reading program.

(*vii*) Updating the school's media center environmental materials.

(*viii*) Visiting internet sites that educate about the environment and support endangered ecosystems.

(3) In addition to the activities described in subsection (2), a school may design and propose another activity, which may qualify toward an environmental stewardship designation under this section if the entity designated under subsection (4) approves the activity by December 1 of the applicable school year.

(4) A county shall designate a department of the county or the intermediate school district of the county to accept, consider, and approve or reject an application under subsection (1).

History: Add. 2006, Act 146, Imd. Eff. May 22, 2006;—Am. 2010, Act 301, Imd. Eff. Dec. 16, 2010.

Popular name: Act 451

Popular name: NREPA

324.2521 Repealed. 2018, Act 237, Eff. Sept. 25, 2018.

Compiler's note: The repealed section pertained to a status and assessment report.

Popular name: Act 451

Popular name: NREPA

PART 26.
ENVIRONMENTAL SCIENCE ADVISORY BOARD

324.2601 "Board" defined.

Sec. 2601. As used in this part, "board" means the environmental science board created in section 2603.

History: Add. 2018, Act 269, Imd. Eff. June 29, 2018.

Popular name: Act 451

Popular name: NREPA

324.2603 Environmental science advisory board; creation; membership; eligibility.

Sec. 2603. (1) The environmental science advisory board is created in the department of technology, management, and budget.

(2) The board shall consist of 9 individuals appointed by the governor who have expertise in 1 or more of the following areas:

(a) Engineering.

(b) Environmental science.

(c) Economics.

(d) Chemistry.

(e) Geology.

(f) Physics.

(g) Biology.

(h) Human medicine.

(i) Statistics.

(j) Risk assessment.

(k) Other disciplines that the governor considers appropriate.

(3) A current legislator or a current employee of any office, department, or agency of this state or of the federal government is not eligible to serve as a member of the board.

History: Add. 2018, Act 269, Imd. Eff. June 29, 2018.

Compiler's note: For a type III transfer of the environmental science advisory board from the department of technology, management, and budget to the department of environment, Great Lakes, and energy, and abolishment of the environmental science advisory board, see E.R.O. 2019-1, compiled at 324.99923.

Popular name: Act 451

Popular name: NREPA

324.2605 Terms of members; removal; vacancies; compensation; conducting business at public meeting; availability of writings to public; expenses.

Sec. 2605. (1) A member of the board shall serve for a term of 3 years, except that of the members first appointed, 3 shall serve for a term of 2 years and 3 shall serve for a term of 1 year.

(2) A member of the board serves at the pleasure of the governor. The governor may remove a member at any time, with or without cause, and with or without prior notice. The governor shall fill any vacancies on the board.

(3) If a vacancy occurs on the board, the governor shall make an appointment for the unexpired term.

(4) The governor shall appoint a member of the board as chairperson. The governor may appoint other members of the board to other board offices. Officers of the board serve at the pleasure of the governor.

(5) Members of the board shall serve without compensation but may be reimbursed by this state for actual and necessary expenses incurred in the performance of their official duties as members.

(6) A majority of the members of the board constitute a quorum for the transaction of business at a meeting of the board. A majority of the members of the board present and serving are required for official action of the board.

(7) The business that the board may perform shall be conducted at a public meeting of the board, respectively, held in compliance with the open meetings act, 1976 PA 267, MCL 15.261 to 15.275.

(8) A writing prepared, owned, used, in the possession of, or retained by the board in the performance of an official function is subject to the freedom of information act, 1976 PA 442, MCL 15.231 to 15.246.

(9) The board may adopt operating procedures that are consistent with this part.

(10) The board may incur expenses necessary to carry out its duties under this part.

History: Add. 2018, Act 269, Imd. Eff. June 29, 2018.

Popular name: Act 451

Popular name: NREPA

324.2607 Administrative, technical, or legal staff.

Sec. 2607. If requested by the board, a department, agency, or office of state government may provide administrative, technical, or legal staff to assist the board in the performance of its duties.

History: Add. 2018, Act 269, Imd. Eff. June 29, 2018.

Popular name: Act 451

Popular name: NREPA

324.2609 Board duties and responsibilities; advice to governor.

Sec. 2609. (1) The board shall advise the governor and any state office, agency, or department specified by the governor on issues affecting the protection of the environment or the management of natural resources of this state. The board's duty to provide advice is limited to the specific advice requested from time to time by the governor. Any advice provided by the board is not legally binding on or enforceable against any individual, governmental entity, private entity, or other person.

(2) The board shall not review or advise on any application, recommendation, or decision regarding a permit, license, or environmental impact statement.

(3) Advice provided by the board shall be based on the following factors:

(a) Objective reasoning.

(b) Sound science.

(c) All of the following factors to the extent the governor specifies in the request under section 2611 that these factors are relevant to the decision for which the board's advice is sought:

(*i*) Relative and realistic risk to human health and the environment.

(*ii*) Analogous practices used or positions taken by the federal government and regulatory bodies in other states.

(*iii*) Economic reasonableness.

(d) Other relevant factors as specified by the governor in the request.

History: Add. 2018, Act 269, Imd. Eff. June 29, 2018.

Popular name: Act 451

Popular name: NREPA

324.2611 Request from governor; written advice; deliberations.

Sec. 2611. (1) Upon receipt of a request from the governor to provide advice on a particular issue, the chairperson of the board shall convene a committee of the board consisting of members with relevant

expertise. The committee shall develop a plan for formulating recommendations and make recommendations on the issue to the board.

(2) The board shall deliberate on the recommendations made under subsection (1) and provide written advice to the governor regarding the governor's request.

(3) The board or any committee of the board may make inquiries, develop studies, hold hearings, receive comments from the public, and call upon experts who are not members of the board to assist the board in its deliberations under this part.

(4) All departments, agencies, offices, officers, employees, or contractors of this state, or any political subdivision of this state, may cooperate with the board or any committee of the board, including, but not limited to, the following as requested by the board or a committee of the board:

(a) Participating in meetings.

(b) Participating in inquiries or hearings.

(c) Providing any information.

(d) Providing access to documents, books, records, databases, or other information.

(e) Any other assistance reasonably necessary and related to the board's deliberations and duties under this part.

History: Add. 2018, Act 269, Imd. Eff. June 29, 2018.

PART 27

PROGRAM REVIEW

324.2701 Definitions.

Sec. 2701. As used in this part:

(a) "Department" means the department of environmental quality.

(b) "Program" means a permit program or regulatory program administered by the department under this act.

History: Add. 2011, Act 248, Imd. Eff. Dec. 8, 2011.

Popular name: Act 451

Popular name: NREPA

324.2703 Process improvement.

Sec. 2703. (1) The department shall complete process improvement of 1 major program by February 1, 2012 and 2 major programs each year thereafter until the department has completed process improvement for all major programs. This subsection does not require the department to repeat process improvement for a program if process improvement for that program was completed before the effective date of the amendatory act that added this section.

(2) Process improvement under subsection (1) shall meet all of the following requirements:

(a) Utilize process mapping.

(b) Be conducted by a team that includes at least all of the following:

(*i*) Two certified facilitators, who shall administer the process improvement.

(*ii*) A representative of persons regulated by the program.

(*iii*) A representative of members of the general public affected by the program.

(3) The department shall consider using peer reviews by other EPA region 5 states and benchmark analyses as part of process improvement under subsection (1).

(4) The department shall post on its website a description of the process improvements made for each major program.

History: Add. 2011, Act 248, Imd. Eff. Dec. 8, 2011.

Popular name: Act 451

Popular name: NREPA

324.2705 Metrics.

Sec. 2705. (1) The department shall develop metrics for all of the following:

(a) Environmental impacts.

(b) Process performance. For a permit program, process performance shall include all of the following:

(*i*) A calculation of the department's per-permit cost to administer the program.

(*ii*) A review of the timeliness of the permit process from receipt to approval or denial of a permit

application.

(c) A review of service practices affecting regulated persons and the general public.

(2) The department shall post on its website the metrics developed for the purposes of subsection (1).

History: Add. 2011, Act 248, Imd. Eff. Dec. 8, 2011.

Popular name: Act 451

Popular name: NREPA

324.2707 Survey.

Sec. 2707. For each division of the department, the department shall survey persons regulated by that division and the general public concerning the division's service practices. By February 1, 2012, the department shall complete the surveys and post aggregate survey results for each division on the department's website. The department shall not post on its website information identifying a survey respondent.

History: Add. 2011, Act 248, Imd. Eff. Dec. 8, 2011.

Popular name: Act 451

Popular name: NREPA

ARTICLE II
POLLUTION CONTROL

CHAPTER 1
POINT SOURCE POLLUTION CONTROL

PART 31
WATER RESOURCES PROTECTION

324.3101 Definitions.

Sec. 3101. As used in this part:

(a) "Aquatic nuisance species" means a nonindigenous species that threatens the diversity or abundance of native species or the ecological stability of infested waters, or commercial, agricultural, aquacultural, or recreational activities dependent on such waters.

(b) "Ballast water" means water and associated solids taken on board a vessel to control or maintain trim, draft, stability, or stresses on the vessel, without regard to the manner in which it is carried.

(c) "Ballast water treatment method" means a method of treating ballast water and sediments to remove or destroy living biological organisms through 1 or more of the following:

(*i*) Filtration.

(*ii*) The application of biocides or ultraviolet light.

(*iii*) Thermal methods.

(*iv*) Other treatment techniques approved by the department.

(d) "Department" means the department of environmental quality.

(e) "Detroit consumer price index" means the most comprehensive index of consumer prices available for the Detroit area from the United States Department of Labor, Bureau of Labor Statistics.

(f) "Emergency management coordinator" means that term as defined in section 2 of the emergency management act, 1976 PA 390, MCL 30.402.

(g) "Great Lakes" means the Great Lakes and their connecting waters, including Lake St. Clair.

(h) "Group 1 facility" means a facility whose discharge is described by R 323.2218 of the Michigan administrative code.

(i) "Group 2 facility" means a facility whose discharge is described by R 323.2210(y), R 323.2215, or R 323.2216 of the Michigan administrative code. Group 2 facility does not include a Group 2a facility.

(j) "Group 2a facility" means a facility whose discharge is described by R 323.2210(y) or R 323.2215 of the Michigan administrative code and that meets 1 or more of the following:

(*i*) The facility's discharge is from a coin-operated laundromat.

(*ii*) The facility's discharge is from a car wash or vehicle wash open to the public.

(*iii*) The facility's discharge is a subsurface sanitary discharge of fewer than 10,000 gallons per day that does not meet the terms for authorization under R 323.2211(a) of the Michigan administrative code.

(*iv*) The facility's discharge is a seasonal sanitary discharge from a public park, public or private recreational vehicle park or campground, or recreational or vacation camp.

(k) "Group 3 facility" means a facility whose discharge is described by R 323.2211 or R 323.2213 of the Michigan administrative code.

(*l*) "Local health department" means that term as defined in section 1105 of the public health code, 1978 PA 368, MCL 333.1105.

(m) "Local unit" means a county, city, village, or township or an agency or instrumentality of any of these entities.

(n) "Municipality" means this state, a county, city, village, or township, or an agency or instrumentality of any of these entities.

(o) "National response center" means the National Communications Center established under the clean water act, 33 USC 1251 to 1387, located in Washington, DC, that receives and relays notice of oil discharge or releases of hazardous substances to appropriate federal officials.

(p) "Nonoceangoing vessel" means a vessel that is not an oceangoing vessel.

(q) "Oceangoing vessel" means a vessel that operates on the Great Lakes or the St. Lawrence waterway after operating in waters outside of the Great Lakes or the St. Lawrence waterway.

(r) "Open water disposal of contaminated dredge materials" means the placement of dredge materials contaminated with toxic substances as defined in R 323.1205 of the Michigan administrative code into the open waters of the waters of the state but does not include the siting or use of a confined disposal facility designated by the United States Army Corps of Engineers or beach nourishment activities utilizing uncontaminated materials.

(s) "Primary public safety answering point" means that term as defined in section 102 of the emergency telephone service enabling act, 1986 PA 32, MCL 484.1102.

(t) "Sediments" means any matter settled out of ballast water within a vessel.

(u) "Sewage sludge" means sewage sludge generated in the treatment of domestic sewage, other than only septage or industrial waste.

(v) "Sewage sludge derivative" means a product for land application derived from sewage sludge that does not include solid waste or other waste regulated under this act.

(w) "Sewage sludge generator" means a person who generates sewage sludge that is applied to land.

(x) "Sewage sludge distributor" means a person who applies, markets, or distributes, except at retail, a sewage sludge derivative.

(y) "St. Lawrence waterway" means the St. Lawrence River, the St. Lawrence Seaway, and the Gulf of St. Lawrence.

(z) "Threshold reporting quantity" means that term as defined in R 324.2002 of the Michigan administrative code.

(aa) "Waters of the state" means groundwaters, lakes, rivers, and streams and all other watercourses and waters, including the Great Lakes, within the jurisdiction of this state.

History: 1994, Act 451, Eff. Mar. 30, 1995;—Am. 1997, Act 29, Imd. Eff. June 18, 1997;—Am. 2001, Act 114, Imd. Eff. Aug. 6, 2001;—Am. 2004, Act 90, Imd. Eff. Apr. 22, 2004;—Am. 2004, Act 142, Imd. Eff. June 15, 2004;—Am. 2006, Act 97, Imd. Eff. Apr. 4, 2006;—Am. 2015, Act 247, Imd. Eff. Dec. 22, 2015.

Compiler's note: For transfer of authority, powers, duties, functions, and responsibilities of the Waste Management Division to the Director of the Michigan Department of Environmental Quality, see E.R.O. No. 1995-16, compiled at MCL 324.99901 of the Michigan Compiled Laws.

Popular name: Act 451

Popular name: NREPA

324.3102 Implementation of part.

Sec. 3102. The director shall implement this part.

History: 1994, Act 451, Eff. Mar. 30, 1995.

Compiler's note: For creation of the office of administrative hearings within the department of natural resources and transfer of authority to make decisions regarding administrative appeals of surface water discharge permit applications from the commission of natural resources to the office of administrative hearings, see E.R.O. No. 1995-3, compiled at MCL 299.911 of the Michigan Compiled Laws.

For transfer of authority, powers, duties, functions, and responsibilities of the Surface Water Quality Division to the Director of the Michigan Department of Environmental Quality, see E.R.O. No. 1995-16, compiled at MCL 324.99901 of the Michigan Compiled Laws.

For transfer of authority, powers, duties, functions, and responsibilities of the Waste Management Division to the Director of the Michigan Department of Environmental Quality, see E.R.O. No. 1995-16, compiled at MCL 324.99901 of the Michigan Compiled Laws.

For transfer of the Office of Administrative Hearings, including but not limited to authority, powers, duties, functions, and responsibilities, to the Director of the Michigan Department of Environmental Quality, see E.R.O. No. 1995-16, compiled at MCL 324.99901 of the Michigan Compiled Laws.

Popular name: Act 451

Popular name: NREPA

324.3103 Department of environmental quality; powers and duties generally; rules; other

actions.

Sec. 3103. (1) The department shall protect and conserve the water resources of the state and shall have control of the pollution of surface or underground waters of the state and the Great Lakes, which are or may be affected by waste disposal of any person. The department may make or cause to be made surveys, studies, and investigations of the uses of waters of the state, both surface and underground, and cooperate with other governments and governmental units and agencies in making the surveys, studies, and investigations. The department shall assist in an advisory capacity a flood control district that may be authorized by the legislature. The department, in the public interest, shall appear and present evidence, reports, and other testimony during the hearings involving the creation and organization of flood control districts. The department shall advise and consult with the legislature on the obligation of the state to participate in the costs of construction and maintenance as provided for in the official plans of a flood control district or intercounty drainage district.

(2) The department shall enforce this part and may promulgate rules as it considers necessary to carry out its duties under this part. However, notwithstanding any rule-promulgation authority that is provided in this part, except for rules authorized under section 3112(6), the department shall not promulgate any additional rules under this part after December 31, 2006.

(3) The department may promulgate rules and take other actions as may be necessary to comply with the federal water pollution control act, 33 USC 1251 to 1387, and to expend funds available under such law for extension or improvement of the state or interstate program for prevention and control of water pollution. This part shall not be construed as authorizing the department to expend or to incur any obligation to expend any state funds for such purpose in excess of any amount that is appropriated by the legislature.

(4) Notwithstanding the limitations on rule promulgation under subsection (2), rules promulgated under this part before January 1, 2007 shall remain in effect unless rescinded.

History: 1994, Act 451, Eff. Mar. 30, 1995;—Am. 2004, Act 91, Imd. Eff. Apr. 22, 2004;—Am. 2005, Act 33, Imd. Eff. June 6, 2005.

Compiler's note: For transfer of authority, powers, duties, functions, and responsibilities of the Environmental Assistance Division to the Director of the Michigan Department of Environmental Quality, see E.R.O. No. 1995-16, compiled at MCL 324.99901 of the Michigan Compiled Laws.

For transfer of authority, powers, duties, functions, and responsibilities of the Surface Water Quality Division to the Director of the Michigan Department of Environmental Quality, see E.R.O. No. 1995-16, compiled MCL 324.99901 of the Michigan Compiled Laws.

For transfer of authority, powers, duties, functions, and responsibilities of the Waste Management Division to the Director of the Michigan Department of Environmental Quality, see E.R.O. No. 1995-16, compiled at MCL 324.99901 of the Michigan Compiled Laws.

Popular name: Act 451

Popular name: NREPA

Administrative rules: R 323.1001 et seq. and R 323.2101 et seq. of the Michigan Administrative Code.

324.3103a Legislative findings; duties of department; vessel owner or operator ineligible for new grant, loan, or award.

Sec. 3103a. (1) The legislature finds both of the following:

(a) It is a goal of this state to prevent the introduction of and minimize the spread of aquatic nuisance species within the Great Lakes.

(b) That, to achieve the goal stated in subdivision (a), this state shall cooperate with the United States and Canadian authorities, other states and provinces, and the maritime industry.

(2) By March 1, 2002, the department shall do all of the following:

(a) Determine whether the ballast water management practices that were proposed by the shipping federation of Canada to the department on June 7, 2000 are being complied with by all oceangoing vessels operating on the Great Lakes and the St. Lawrence waterway. Upon request by the department, the owner or operator of an oceangoing vessel shall provide, on a form developed by the department and the shipping federation of Canada, confirmation of whether or not the vessel is complying with the ballast water management practices described in this subdivision.

(b) Determine whether the ballast water management practices that were proposed jointly by the lake carriers' association and the Canadian shipowners' association to the department on January 26, 2001 are being complied with by all nonoceangoing vessels operating on the Great Lakes and the St. Lawrence waterway. Upon request by the department, the owner or operator of a nonoceangoing vessel shall provide, on a form developed by the department and the lake carriers' association and the Canadian shipowners' association, confirmation of whether or not the vessel is complying with the ballast water management practices described in this subdivision. For a nonoceangoing vessel that is a ferry used to transport motor vehicles across Lake Michigan, if the configuration of the vessel would prohibit compliance with 1 or more of the ballast water management practices described in this section, the department shall establish alternative

ballast water management practices for the vessel and shall determine whether those practices are being complied with.

(c) Determine whether either or both of the ballast water management practices described in subdivisions (a) and (b) have been made conditions of passage on the St. Lawrence seaway by the St. Lawrence seaway management corporation and the Saint Lawrence seaway development corporation.

(d) Determine the following:

(*i*) Whether 1 or more ballast water treatment methods, which protect the safety of the vessel, its crew, and its passengers, could be used by oceangoing vessels to prevent the introduction of aquatic nuisance species into the Great Lakes.

(*ii*) A time period after which 1 or more ballast water treatment methods identified under subparagraph (*i*) could be used by all oceangoing vessels operating on the Great Lakes.

(*iii*) If the department determines under subparagraph (*i*) that a ballast water treatment method is not available, the actions needed to be taken for 1 or more ballast water treatment methods that would meet the requirements of subparagraph (*i*) to be developed, tested, and made available to vessel owners and operators and a time period after which the ballast water treatment method or methods could be used by all oceangoing vessels operating on the Great Lakes. Subsequently, if at any time the department determines that 1 or more ballast water treatment methods that meet the requirements of subparagraph (*i*) could be used by oceangoing vessels operating on the Great Lakes, the department shall determine a date after which the ballast water treatment method or methods could be used by all oceangoing vessels operating on the Great Lakes.

(e) Submit to the governor and the standing committees of the legislature with jurisdiction primarily over issues pertaining to natural resources and the environment a letter of determination that outlines the determinations made by the department under this subsection.

(3) By March 1, 2003, the department shall do all of the following:

(a) Determine whether all oceangoing vessels that are operating on the Great Lakes are using a ballast water treatment method, identified by the department under subsection (2)(d)(*i*) or (*iii*), to prevent the introduction of aquatic nuisance species into the Great Lakes. Upon request by the department, the owner or operator of an oceangoing vessel shall provide, on a form developed by the department and the shipping federation of Canada, confirmation of whether or not the vessel is using a ballast water treatment method identified by the department under subsection (2)(d)(*i*) or (*iii*). If the department determines that all oceangoing vessels that are operating on the Great Lakes are not using a ballast water treatment method by the dates identified in subsection (2)(d)(*ii*) or (*iii*), the department shall determine what the reasons are for not doing so.

(b) Determine whether the use of a ballast water treatment method has been made a condition of passage on the St. Lawrence seaway by the St. Lawrence seaway management corporation and the Saint Lawrence seaway development corporation.

(c) Submit to the governor and the standing committees of the legislature with jurisdiction primarily over issues pertaining to natural resources and the environment a letter of determination that outlines the determinations made by the department under this subsection.

(4) The department shall do all of the following:

(a) By March 1, 2002, compile and maintain a list of all oceangoing vessels and nonoceangoing vessels that it determines have complied with the ballast water management practices described in subsection (2)(a) or (b), as appropriate, during the previous 12 months. This list shall be continually updated and maintained on the department's website.

(b) By March 1, 2003, if the department has determined under subsection (2)(d)(*i*), or if the department subsequently determines under subsection (2)(d)(*iii*), that 1 or more ballast water treatment methods could be used by oceangoing vessels to prevent the introduction of aquatic nuisance species into the Great Lakes, compile and maintain a list of all oceangoing vessels that, after the date specified in subsection (2)(d)(*ii*) or the date identified by the department under subsection (2)(d)(*iii*), as appropriate, have been using 1 of these ballast water treatment methods during the previous 12 months.

(c) Continually update and post the lists provided for in subdivisions (a) and (b) on the department's website.

(d) Annually distribute a copy of the lists prepared under subdivisions (a) and (b) to persons in the state who have contracts with oceangoing or nonoceangoing vessel operators for the transportation of cargo.

(e) Provide to the governor and the standing committees of the legislature with jurisdiction primarily over issues pertaining to natural resources and the environment copies of the initial lists prepared under subdivisions (a) and (b) and the annual list distributed under subdivision (d).

(5) The owner or operator of an oceangoing vessel or a nonoceangoing vessel that is not on an applicable list prepared under subsection (4) and any persons in the state who have contracts for the transportation of

cargo with an oceangoing or nonoceangoing vessel operator that is not on an applicable list prepared under subsection (4) are not eligible for a new grant, loan, or award administered by the department.

History: Add. 2001, Act 114, Imd. Eff. Aug. 6, 2001.

Popular name: Act 451

Popular name: NREPA

324.3104 Cooperation and negotiation with other governments as to water resources; alteration of watercourses; federal assistance; formation of Great Lakes aquatic nuisance species coalition; report; requests for appropriations; recommendations; permit to alter floodplain; application; fees; disposition of fees; public hearing; minor floodplain projects; other parts subject to single highest permit fee.

Sec. 3104. (1) The department is designated the state agency to cooperate and negotiate with other governments, governmental units, and governmental agencies in matters concerning the water resources of this state, including, but not limited to, flood control, beach erosion control, water quality control planning, development, and management, and the control of aquatic nuisance species. The department shall have control over the alterations of natural or present watercourses of all rivers and streams in this state to ensure that the channels and the portions of the floodplains that are the floodways are not inhabited and are kept free and clear of interference or obstruction that will cause any undue restriction of the capacity of the floodway. The department may take steps as may be necessary to take advantage of any act of congress that may be of assistance in carrying out the purposes of this part, including the water resources planning act, 42 USC 1962 to 1962d-3, and the federal water pollution control act, 33 USC 1251 to 1388.

(2) To address discharges of aquatic nuisance species from oceangoing vessels that damage water quality, aquatic habitat, or fish or wildlife, the department shall facilitate the formation of a Great Lakes aquatic nuisance species coalition. The Great Lakes aquatic nuisance species coalition must be formed through an agreement entered into with other states in the Great Lakes basin to implement on a basin-wide basis water pollution laws that prohibit the discharge of aquatic nuisance species into the Great Lakes from oceangoing vessels. Upon entering into the agreement, the department shall notify the Canadian Great Lakes provinces of the terms of the agreement. The department shall seek funding from the Great Lakes protection fund authorized under part 331 to implement the Great Lakes aquatic nuisance species coalition.

(3) The department shall report to the governor and the legislature at least annually on any plans or projects being implemented or considered for implementation. The report must include requests for legislation needed to implement any proposed projects or agreements made necessary as a result of a plan or project, together with any requests for appropriations. The department may make recommendations to the governor on the designation of areawide water quality planning regions and organizations relative to the governor's responsibilities under the federal water pollution control act, 33 USC 1251 to 1388.

(4) A person shall not alter a floodplain except as authorized by a floodplain permit issued by the department under part 13. An application for a floodplain permit must include information required by the department to assess the proposed alteration's impact on the floodplain. If an alteration includes activities at multiple locations in a floodplain, 1 application may be filed for combined activities.

(5) Except as otherwise provided in this section, until October 1, 2025, an application for a floodplain permit must be accompanied by a fee of $500.00. Until October 1, 2025, if the department determines that engineering computations are required to assess the impact of a proposed floodplain alteration on flood stage or discharge characteristics, the department shall assess the applicant an additional $1,500.00 to cover the department's cost of review.

(6) After providing notice and an opportunity for a public hearing, the department shall establish minor project categories of activities within floodplains and floodplain projects that are similar in nature, have minimal potential for causing harmful interference when performed separately, and will have only minimal cumulative adverse effects on the environment. All other provisions of this part, except provisions applicable only to floodplain general permits, are applicable to a minor project. A minor project category must not be valid for more than 5 years, but may be re-established. Until October 1, 2025, an application for a floodplain permit for a minor project category must be accompanied by a fee of $100.00.

(7) The department, after notice and an opportunity for a public hearing, shall issue general permits on a statewide basis or within a local unit of government for floodplain projects that are similar in nature, have minimal potential for causing harmful interference when performed separately, and will have only minimal cumulative adverse effects on the environment. A general permit category must not be valid for more than 5 years, but may be re-established. Until October 1, 2025, an application for a floodplain permit for a general permit category must be accompanied by a fee of $50.00.

(8) By December 31, 2019, the department shall propose new minor project and general project categories as authorized under subsections (6) and (7).

(9) The department may issue, deny, or impose conditions on project activities authorized under a floodplain permit for a minor project category or a general permit category if the conditions are designed to remove an impairment to a river and its floodplain, or to mitigate the effects of the project. The department may also establish a reasonable time when the proposed project is to be completed or terminated.

(10) If the department determines that activity in a proposed project, although within a floodplain minor project category or a floodplain general permit category, is likely to cause more than minimal adverse environmental effects, the department may require that the application be processed according to subsection (5).

(11) If work has been done in violation of a permit requirement under this part and restoration is not ordered by the department, the department may accept an application for a permit for that work if the application is accompanied by a fee equal to 2 times the permit fee otherwise required under this section.

(12) The department shall forward fees collected under this section to the state treasurer for deposit in the land and water management permit fee fund created in section 30113.

(13) A project that requires review and approval under this part and 1 or more of the following is subject to only the single highest permit fee required under this part or the following:

(a) Part 301.

(b) Part 303.

(c) Part 323.

(d) Part 325.

(e) Section 117 of the land division act, 1967 PA 288, MCL 560.117.

324.3105 Entering property for inspections and investigations; assistance.

Sec. 3105. The department may enter at all reasonable times in or upon any private or public property for the purpose of inspecting and investigating conditions relating to the pollution of any waters of the state and the obstruction of the floodways of the rivers and streams of this state. The department may call upon any officer, board, department, school, university, or other state institution and the officers or employees thereof for any assistance considered necessary to implement this part.

Popular name: Act 451

Popular name: NREPA

324.3106 Establishment of pollution standards; permits; determination of volume of water and high and low water marks; rules; orders; pollution prevention.

Sec. 3106. The department shall establish pollution standards for lakes, rivers, streams, and other waters of the state in relation to the public use to which they are or may be put, as it considers necessary. The department shall issue permits that will assure compliance with state standards to regulate municipal, industrial, and commercial discharges or storage of any substance that may affect the quality of the waters of the state. The department may set permit restrictions that will assure compliance with applicable federal law and regulations. The department may ascertain and determine for record and in making its order what volume of water actually flows in all streams, and the high and low water marks of lakes and other waters of the state, affected by the waste disposal or pollution of any persons. The department may promulgate rules and issue orders restricting the polluting content of any waste material or polluting substance discharged or sought to be discharged into any lake, river, stream, or other waters of the state. The department shall take all appropriate steps to prevent any pollution the department considers to be unreasonable and against public interest in view of the existing conditions in any lake, river, stream, or other waters of the state.

Popular name: NREPA

324.3107 Harmful interference with streams; rules; orders; determinations for record.

Sec. 3107. The department may promulgate rules and issue orders for the prevention of harmful interference with the discharge and stage characteristics of streams. The department may ascertain and determine for record and in making its order the location and extent of floodplains, stream beds, and channels and the discharge and stage characteristics of streams at various times and circumstances.

History: 1994, Act 451, Eff. Mar. 30, 1995.

Popular name: Act 451

Popular name: NREPA

Administrative rules: R 323.1001 et seq. of the Michigan Administrative Code.

324.3108 Unlawful occupation, filling, or grading of floodplain, stream bed, or channel of stream; exceptions; construction of building with basement.

Sec. 3108. (1) A person shall not occupy or permit the occupation of land for residential, commercial, or industrial purposes or fill or grade or permit the filling or grading for a purpose other than agricultural of land in a floodplain, stream bed, or channel of a stream, as ascertained and determined for the record by the department, or undertake or engage in an activity on or with respect to land that is determined by the department to interfere harmfully with the discharge or stage characteristics of a stream, unless the occupation, filling, grading, or other activity is permitted under this part.

(2) A person may construct or cause the construction of a building that includes a basement in a floodplain that has been properly filled above the 100-year flood elevation under permit if 1 or more of the following apply:

(a) The lowest floor, including the basement, will be constructed above the 100-year flood elevation.

(b) A licensed professional engineer schooled in the science of soil mechanics certifies that the building site has been filled with soil of a type and in a manner that hydrostatic pressures are not exerted upon the basement walls or floor while the watercourse is at or below the 100-year flood elevation, that the placement of the fill will prevent settling of the building or buckling of floors or walls, and that the building is equipped with a positive means of preventing sewer backup from sewer lines and drains that serve the building.

(c) A licensed professional engineer or architect certifies that the basement walls and floors are designed to be watertight and to withstand hydrostatic pressure from a water level equal to the 100-year flood elevation and that the building is properly anchored or weighted to prevent flotation and is equipped with a positive means of preventing sewer backup from sewer lines and drains that serve the building.

(3) If the community within which a building described in subsection (2) is located is a participant in the national flood insurance program authorized under the national flood insurance act of 1968, title XIII of the housing and urban development act of 1968, Public Law 90-448, 82 Stat. 572, 42 U.S.C. 4001, 4011 to 4012, 4013 to 4020, 4022 to 4102, 4104 to 4104d, 4121 to 4127, and 4129, then the developer shall apply for and obtain a letter of map revision, based on fill, from the federal emergency management agency prior to the issuance of a local building permit or the construction of the building if 1 or both of the following apply:

(a) The floodplain will be altered through the placement of fill.

(b) The watercourse is relocated or enclosed.

324.3109 Discharge into state waters; prohibitions; exception; violation; penalties; abatement; "on-site wastewater treatment system" defined.

Sec. 3109. (1) A person shall not directly or indirectly discharge into the waters of the state a substance that is or may become injurious to any of the following:

(a) To the public health, safety, or welfare.

(b) To domestic, commercial, industrial, agricultural, recreational, or other uses that are being made or may

be made of such waters.

(c) To the value or utility of riparian lands.

(d) To livestock, wild animals, birds, fish, aquatic life, or plants or to their growth or propagation.

(e) To the value of fish and game.

(2) The discharge of any raw sewage of human origin, directly or indirectly, into any of the waters of the state shall be considered prima facie evidence of a violation of this part by the municipality in which the discharge originated unless the discharge is permitted by an order or rule of the department. If the discharge is not the subject of a valid permit issued by the department, a municipality responsible for the discharge may be subject to the remedies provided in section 3115. If the discharge is the subject of a valid permit issued by the department pursuant to section 3112, and is in violation of that permit, a municipality responsible for the discharge is subject to the penalties prescribed in section 3115.

(3) Notwithstanding subsection (2), a municipality is not responsible or subject to the remedies or penalties provided in section 3115 under either of the following circumstances:

(a) The discharge is an unauthorized discharge from a sewerage system as defined in section 4101 that is permitted under this part and owned by a party other than the municipality, unless the municipality has accepted responsibility in writing for the sewerage system and, with respect to the civil fine and penalty under section 3115, the municipality has been notified in writing by the department of its responsibility for the sewerage system.

(b) The discharge is from 3 or fewer on-site wastewater treatment systems.

(4) Unless authorized by a permit, order, or rule of the department, the discharge into the waters of this state of any medical waste, as defined in part 138 of the public health code, 1978 PA 368, MCL 333.13801 to 333.13832, is prima facie evidence of a violation of this part and subjects the responsible person to the penalties prescribed in section 3115.

(5) Unless a discharge is authorized by a permit, order, or rule of the department, the discharge into the waters of this state from an oceangoing vessel of any ballast water is prima facie evidence of a violation of this part and subjects the responsible person to the penalties prescribed in section 3115.

(6) A violation of this section is prima facie evidence of the existence of a public nuisance and in addition to the remedies provided for in this part may be abated according to law in an action brought by the attorney general in a court of competent jurisdiction.

(7) As used in this section, "on-site wastewater treatment system" means a system of components, other than a sewerage system as defined in section 4101, used to collect and treat sanitary sewage or domestic equivalent wastewater from 1 or more dwellings, buildings, or structures and discharge the resulting effluent to a soil dispersal system on property owned by or under the control of the same individual or entity that owns or controls the dwellings, buildings, or structures.

Administrative rules: R 323.1001 et seq. of the Michigan Administrative Code.

324.3109a Mixing zones for discharges of venting groundwater; conditions not requiring permit; definitions.

Sec. 3109a. (1) Notwithstanding any other provision of this part, or rules promulgated under this part, the department shall allow for a mixing zone for discharges of venting groundwater in the same manner as the department provides for a mixing zone for point source discharges. Mixing zones for discharges of venting groundwater shall not be less protective of public health or the environment than the level of protection provided for mixing zones from point source discharges.

(2) Notwithstanding any other provision of this part, if a discharge of venting groundwater is in compliance with the water quality standards provided for in this part and the rules promulgated under this part, a permit is not required under this part for the discharge if the discharge is provided for in either or both of the following:

(a) A remedial action plan that is approved by the department under part 201.

(b) A corrective action plan that is submitted to the department under part 213 that includes a mixing zone determination made by the department and that has been noticed in the department calendar.

(3) As used in this section:

(a) "Mixing zone" means that portion of a water body where a point source discharge or venting groundwater is mixed with receiving water.

(b) "Venting groundwater" means groundwater that is entering a surface water of the state from a facility,

as defined in section 20101.

324.3109d MAEAP-verified farms; applicable conditions; obligation to obtain permit not modified or limited; definitions.

Sec. 3109d. (1) Beginning 6 months after the effective date of the amendatory act that added this section, notwithstanding any other provision of this part, the following apply to MAEAP-verified farms:

(a) Except as provided in subdivision (b), if all of the following conditions are met, the owner or operator of the MAEAP-verified farm is not subject to civil fines under section 3115, but may be responsible for actual natural resources damages:

(*i*) A discharge to the waters of the state occurs from a portion or operation of the farm that is MAEAP-verified and in compliance with MAEAP standards.

(*ii*) The owner or operator acted promptly to correct the condition after discovery.

(*iii*) The owner or operator reported the discharge to the department within 24 hours of the discovery.

(b) Subdivision (a) does not apply if either of the following conditions occurs:

(*i*) The actions of the owner or operator pose or posed a substantial endangerment to the public health, safety, or welfare.

(*ii*) The director, upon advice from the interagency technical review panel provided for in section 8710, determines the owner or operator has previously committed significant violations that constitute a pattern of repeated violations of environmental laws, rules, regulations, permit conditions, settlement agreements, or orders of consent or judicial orders and that were due to separate and distinct events.

(c) If a MAEAP-verified farm is in compliance with all MAEAP standards applicable to the farming operation, the farm is considered to be implementing conservation and management practices needed to meet total maximum daily load implementation for impaired waters pursuant to 33 USC 1313.

(d) If a discharge from a MAEAP-verified farm that is in compliance with all MAEAP standards applicable to land application is caused by an act of God weather event, both of the following apply:

(*i*) The discharge shall be considered nonpoint source pollution.

(*ii*) If the discharge is determined by the director with scientific evidence provided by water quality data to have caused an exceedance of water quality standards, the farm, within 30 days of notification, shall provide to the department a report that includes details of conservation or management practice changes, if necessary, to further address the risk of discharge recurrence. The report shall state whether those conservation or management practices have already been implemented by the farm. Upon receipt of the report, the department shall review the report and respond within 30 days. The departmental response may include report acceptance with no further action required or may recommend environmentally sound and economically feasible conservation or management practices to prevent future discharges.

(2) This section does not modify or limit any obligation to obtain a permit under this part.

(3) As used in this section:

(a) "Act of God weather event" means a precipitation event that meets both of the following conditions:

(*i*) Exceeds 1/2 inch in precipitation.

(*ii*) Was forecast by the national weather service 24 hours earlier as having less than a 70% probability of exceeding 1/2 inch of precipitation.

(b) "MAEAP-verified farm" means that term as it is defined in part 87.

Popular name: Act 451

Popular name: NREPA

324.3109e Sodium or chloride in groundwater discharge permit; limitation; discharge of sodium or chloride causing groundwater concentration exceeding certain levels; duties of permittee; response activities.

Sec. 3109e. (1) Notwithstanding any other provision in this act or the rules promulgated under this act, the department shall not establish or enforce a limitation for sodium or chloride in a groundwater discharge permit that is more restrictive than the following:

(a) 400 milligrams of sodium per liter.

(b) 500 milligrams of chloride per liter.

(2) Notwithstanding any other provision of this act or the rules promulgated under this act, the department shall not establish or enforce a limitation for sodium or chloride in groundwater that is more restrictive than the following:

(a) 230 milligrams of sodium per liter.

(b) 250 milligrams of chloride per liter.

(3) Notwithstanding any other provision of this part or rules promulgated under this part, if a permittee discharges sodium or chloride, or both, into groundwater that migrates off of the property on which the discharge was made and that discharge directly causes the groundwater concentration of sodium or chloride, or both, to exceed the levels provided under subsection (2), the permittee shall do all of the following:

(a) Initiate a sampling program approved by the department to monitor downgradient water supply wells for the levels of sodium or chloride, or both, in the water supply.

(b) If the concentration of sodium in a downgradient water supply exceeds the level provided under subsection (2), the permittee shall provide and maintain, for each affected downgradient water supply, free of charge, a point-of-use treatment system approved by the department that will remove sodium from the water supply so as to be in compliance with the level provided under subsection (2).

(c) If the concentration of chloride in a downgradient water supply exceeds the level provided under subsection (2), provide to each affected water supply owner a notice of aesthetic impact with respect to chloride levels.

(4) Notwithstanding any other provision of this act, a permittee subject to the requirements of subsection (3) that complies with the requirements of subsection (3) is not subject to response activities under part 201 with respect to a discharge of sodium or chloride, or both, that is in compliance with the discharge level under subsection (1).

Popular name: Act 451

Popular name: NREPA

324.3110 Waste treatment facilities of industrial or commercial entity; exception; examination and certification of supervisory personnel; training program; fees; failure to pay fee; continuing education programs; reports; false statement; applicability of section.

Sec. 3110. (1) Each industrial or commercial entity, other than a concentrated animal feed operation, that discharges liquid wastes into any surface water or groundwater or underground or on the ground other than through a public sanitary sewer shall have waste treatment or control facilities under the specific supervision and control of individuals who are certified by the department as properly qualified to operate the facilities. The department shall examine all supervisory personnel having supervision and control of the facilities, other than a concentrated animal feed operation, and certify that the individuals are properly qualified to operate or supervise the facilities.

(2) The department may conduct a program for training individuals seeking to be certified as operators or supervisors under subsection (1), section 4104, or section 9 of the safe drinking water act, 1976 PA 399, MCL 325.1009. Until October 1, 2025, the department may charge a fee based on the costs to the department of operating this training program. The fees must be deposited into the operator training and certification fund created in section 3134.

(3) The department shall administer certification operator programs for individuals seeking to be certified

as operators or supervisors under subsection (1), section 4104, or section 9 of the safe drinking water act, 1976 PA 399, MCL 325.1009. An individual that wishes to become certified as an operator or a supervisor shall submit an application to the department that contains the information required by the department. Information submitted as part of the application must be considered part of the examination for certification. Until October 1, 2025, the department may charge a certification examination fee and a certification renewal fee in accordance with the following fee schedule:

(a) For certification examinations under subsection (1), the following fees apply:

(*i*) Industrial wastewater certification level 1 or 2 examination as described under subrule (2) of R 323.1253 of the Michigan Administrative Code, $35.00.

(*ii*) Industrial wastewater certification level 3 examination as described under subrule (2) of R 323.1253 of the Michigan Administrative Code, $40.00.

(*iii*) Industrial wastewater special classification A-1a examination or noncontact cooling water A-1h examination as described under subrule (2) of R 323.1253 of the Michigan Administrative Code, $30.00.

(*iv*) Stormwater industrial certification A-1i examination as described under subrule (2) of R 323.1253 of the Michigan Administrative Code, $30.00.

(b) For certification examinations under section 4104, the following fees apply:

(*i*) Municipal wastewater certification level A, B, C, or D examination as described under subrule (1) of R 299.2911 of the Michigan Administrative Code, $70.00.

(*ii*) Municipal wastewater certification level L2 examination as described under subrule (3)(a) of R 299.2911 of the Michigan Administrative Code, $45.00.

(*iii*) Municipal wastewater certification level L1 examination as described under subrule (3)(b) of R 299.2911 of the Michigan Administrative Code, $45.00.

(*iv*) Municipal wastewater certification level SC examination as described under subrule (4) of R 299.2911 of the Michigan Administrative Code, $45.00.

(c) For certification examinations under section 9 of the safe drinking water act, 1976 PA 399, MCL 325.1009, for operators of the following systems, the following fees apply:

(*i*) Drinking water complete treatment system classes F-1, F-2, F-3, or F-4 as described under subrule (1) of R 325.11901 of the Michigan Administrative Code, $70.00.

(*ii*) Drinking water limited treatment system classes D-1, D-2, D-3, or D-4 as described under subrule (2) of R 325.11901 of the Michigan Administrative Code, $70.00.

(*iii*) Drinking water distribution system classes S-1, S-2, S-3, or S-4 as described under R 325.11902 of the Michigan Administrative Code, $70.00.

(*iv*) Drinking water complete treatment system class F-5 as described under subrule (1) of R 325.11901 of the Michigan Administrative Code, $45.00.

(*v*) Drinking water limited treatment system class D-5 as described under subrule (2) of R 325.11901 of the Michigan Administrative Code, $45.00.

(*vi*) Drinking water distribution system class S-5 as described under R 325.11902 of the Michigan Administrative Code, $45.00.

(d) For certification renewals under subsection (1), the following fees apply:

(*i*) Stormwater industrial certification A-1i as described under subrule (2) of R 323.1253 of the Michigan Administrative Code, $95.00.

(*ii*) Stormwater construction certification A-1j as described under subrule (2) of R 323.1253 of the Michigan Administrative Code, $95.00.

(*iii*) All other industrial wastewater certification levels 1, 2, or 3 as described under subrule (2) of R 323.1253 of the Michigan Administrative Code and issued on a single certificate, $95.00.

(e) For certification renewals under section 4104 for all municipal wastewater certification levels as described under R 299.2911 of the Michigan Administrative Code and issued on a single certificate, $95.00.

(f) For certification renewals under section 9 of the safe drinking water act, 1976 PA 399, MCL 325.1009, for all drinking water certification levels as described under R 325.11901 or R 325.11902 of the Michigan Administrative Code and issued on a single certificate, $95.00.

(4) The failure to pay a required certification examination fee within 90 days after taking an examination is considered failure of the examination. The department shall not allow an individual to take a future examination within the failed examination program unless he or she pays the prior fee in full.

(5) The department shall conduct a program for persons or organizations seeking to offer approved continuing education courses to be used by certified operators and supervisors when renewing their certifications under subsection (1), section 4104, and section 9 of the safe drinking water act, 1976 PA 399, MCL 325.1009. The department may charge continuing education providers a course application fee and course renewal fee as provided in the following fee schedule:

(a) An application for approval of a training course, $75.00 for each course.

(b) An application for renewal of an approved training course, $50.00 for each course.

(6) All fees collected under this section must be deposited in the operator training and certification fund created in section 3134.

(7) An individual certified as required by subsection (1) shall file monthly, or at longer intervals as the department may designate, on forms provided by the department, reports showing the effectiveness of the treatment or control facility operation and the quantity and quality of discharged liquid wastes. If an individual knowingly makes a false statement in a report, the department may revoke his or her certificate as an approved treatment facility operator.

(8) This section does not apply to water, gas, or other material that is injected into a well to facilitate production of oil or gas or to water derived in association with oil or gas production and disposed of in a well, if the well is used either to facilitate production or for disposal purposes and is under permit by the state supervisor of wells.

324.3111 Repealed. 2012, Act 43, Imd. Eff. Mar. 6, 2012.

Compiler's note: The repealed section pertained to requirements for filing of report by person doing business with state who discharges wastewater into waters of the state or sewer system.

Popular name: Act 451

Popular name: NREPA

Administrative rules: R 299.9001 et seq. of the Michigan Administrative Code.

324.3111b Release required to be reported under R 324.2001 to R 324.2009.

Sec. 3111b. (1) If a person is required to report a release to the department under part 5 of the water resources protection rules, R 324.2001 to R 324.2009 of the Michigan administrative code, the person, via a 9-1-1 call, shall at the same time report the release to the primary public safety answering point serving the jurisdiction where the release occurred.

(2) If a person described in subsection (1) is required to subsequently submit to the department a written report on the release under part 5 of the water resources protection rules, R 324.2001 to R 324.2009 of the Michigan administrative code, the person shall at the same time submit a copy of the report to the local health department serving the jurisdiction where the release occurred.

(3) If the department of state police or other state agency receives notification, pursuant to an agreement with or the laws of another state, Canada, or the province of Ontario, of the release in that other jurisdiction of a polluting material in excess of the threshold reporting quantity and if the polluting material has entered or may enter surface waters or groundwaters of this state, the department of state police or other state agency shall contact the primary public safety answering point serving each county that may be affected by the release.

(4) The emergency management coordinator of each county shall develop and oversee the implementation of a plan to provide timely notification of a release required to be reported under subsection (1) or (3) to appropriate local, state, and federal agencies. In developing and overseeing the implementation of the plan, the emergency management coordinator shall consult with both of the following:

(a) The directors of the primary public safety answering points with jurisdiction within the county.

(b) Any emergency management coordinator appointed for a city, village, or township located in that county.

(5) If rules promulgated under this part require a person to maintain a pollution incident prevention plan, the person shall update the plan to include the requirements of subsections (1) and (2) when conducting any evaluation of the plan required by rule.

(6) If a person reports to the department a release pursuant to subsection (1), the department shall do both of the following:

(a) Notify the person of the requirements imposed under subsections (1) and (2).

(b) Request that the person, even if not responsible for the release, report the release, via a 9-1-1 call, to the primary public safety answering point serving 1 of the following, as applicable:

(*i*) The jurisdiction where the release occurred, if known.

(*ii*) The jurisdiction where the release was discovered, if the jurisdiction where the release occurred is not known.

(7) The department shall notify the public and interested parties, by posting on its website within 30 days after the effective date of the amendatory act that added this section and by other appropriate means, of all of the following:

(a) The requirements of subsections (1) and (2).

(b) The relevant voice, and, if applicable, facsimile telephone numbers of the department and the national response center.

(c) The criminal and civil sanctions under section 3115 applicable to violations of subsections (1) and (2).

(8) Failure of the department to provide a person with the notification required under subsection (6) or (7) does not relieve the person of any obligation to report a release or other legal obligation.

(9) The department shall biennially do both of the following:

(a) Evaluate the state and local reporting system established under this section.

(b) Submit to the standing committees of the senate and house of representatives with primary responsibility for environmental protection issues a written report on any changes recommended to the reporting system.

History: Add. 2004, Act 142, Imd. Eff. June 15, 2004.

Popular name: Act 451

Popular name: NREPA

324.3112 Permit to discharge waste into state waters; application determined as complete; condition of validity; modification, suspension, or revocation of permit; reissuance; application for new permit; notice; order; complaint; petition; contested case hearing; rejection of petition; oceangoing vessels engaging in port operations; permit required; compliance with federal aquatic nuisance rule; legislative intent.

Sec. 3112. (1) A person shall not discharge any waste or waste effluent into the waters of this state unless the person is in possession of a valid permit from the department.

(2) An application for a permit under subsection (1) shall be submitted to the department. Within 30 days after an application for a new or increased use is received, the department shall determine whether the application is administratively complete. Within 90 days after an application for reissuance of a permit is received, the department shall determine whether the application is administratively complete. If the department determines that an application is not complete, the department shall notify the applicant in writing within the applicable time period. If the department does not make a determination as to whether the application is complete within the applicable time period, the application shall be considered to be complete.

(3) The department shall condition the continued validity of a permit upon the permittee's meeting the effluent requirements that the department considers necessary to prevent unlawful pollution by the dates that the department considers to be reasonable and necessary and to ensure compliance with applicable federal law. If the department finds that the terms of a permit have been, are being, or may be violated, it may modify, suspend, or revoke the permit or grant the permittee a reasonable period of time in which to comply with the permit. The department may reissue a revoked permit upon a showing satisfactory to the department that the permittee has corrected the violation. A person who has had a permit revoked may apply for a new permit.

(4) If the department determines that a person is causing or is about to cause unlawful pollution of the waters of this state, the department may notify the alleged offender of its determination and enter an order requiring the person to abate the pollution or may refer the matter to the attorney general for legal action, or both.

(5) A person who is aggrieved by an order of abatement of the department or by the reissuance, modification, suspension, or revocation of an existing permit of the department executed pursuant to this section may file a sworn petition with the department setting forth the grounds and reasons for the complaint and requesting a contested case hearing on the matter pursuant to the administrative procedures act of 1969, 1969 PA 306, MCL 24.201 to 24.328. A petition filed more than 60 days after action on the order or permit may be rejected by the department as being untimely.

(6) All oceangoing vessels engaging in port operations in this state shall obtain a permit from the department. The department shall issue a permit for an oceangoing vessel only if the applicant can demonstrate that the oceangoing vessel complies with 33 CFR 151.1510 as then in effect or the oceangoing vessel will utilize environmentally sound technology and methods approved by the department that prevent the discharge of aquatic nuisance species. However, all of the following shall apply:

(a) The grant by the coast guard of an extension to the implementation schedule under 33 CFR 151.1513 or the exchange of ballast water under 33 CFR 151.1510(a)(1) or saltwater flushing under 33 CFR 401.30 alone

is not considered compliance with the federal aquatic nuisance rule for the purposes of this section.

(b) A vessel discharging ballast water must employ a ballast water management system approved pursuant to 33 CFR 151.1510(A)(3) or a ballast water treatment method approved by the department.

(c) A vessel must carry out an exchange of ballast water or saltwater flushing and comply with other applicable requirements of 33 CFR part 151, subpart C, and 33 CFR 401.30.

(d) A vessel using water from a public water system under 33 CFR 151.1510(a)(4) shall utilize a method to sufficiently clean ballast water tanks prior to using water from a public water supply system as ballast water as approved by the department.

(e) A discharge that may cause or contribute to a violation of a water quality standard is not authorized by a permit described in this subsection.

(f) If the federal aquatic nuisance rule is amended after the enactment date of the 2018 amendatory act that added subsection (7), and the director determines that the amended version of the federal aquatic nuisance rule is less protective of the waters of this state from aquatic nuisance species, the applicant shall demonstrate that the oceangoing vessel complies with the federal aquatic nuisance rule as in effect immediately before the effective date of that amendment to the federal aquatic nuisance rule.

(g) If pursuant to a compact of Great Lakes states of which this state is a part, this state adopts standards more protective of the waters of this state from aquatic nuisance species than the version of the federal aquatic nuisance rule otherwise applicable under this subsection, the standards adopted pursuant to the compact apply.

(7) The intent of the legislature in adopting in part the federal aquatic nuisance rule by reference is to help harmonize regulatory programs in Great Lakes states for preventing the introduction and spread of aquatic nuisance species in the Great Lakes, including ballast water management programs, and to allow regulatory agencies to cooperate in developing stronger programs.

(8) Permit fees for permits under subsection (6) shall be assessed as provided in section 3120. The permit fees for an individual permit issued under subsection (6) are the fees specified in section 3120(1)(a) and (5)(a). The permit fees for a general permit issued under subsection (6) are the fees specified in section 3120(1)(c) and (5)(b)(*i*). Permits under subsection (6) shall be issued in accordance with the timelines provided in section 3120. The department may promulgate rules to implement subsections (6) to (8).

(9) As used in this section, "federal aquatic nuisance rule" means 33 CFR part 151, subpart C, and applicable requirements of 33 CFR 151.2050, 151.2060, and 151.2070.

History: 1994, Act 451, Eff. Mar. 30, 1995;—Am. 2004, Act 91, Imd. Eff. Apr. 22, 2004;—Am. 2005, Act 33, Imd. Eff. June 6, 2005;—Am. 2018, Act 667, Imd. Eff. Dec. 28, 2018.

324.3112a Discharge of untreated sewage from sewer system; notification; duties of municipality; legal action by state not limited; penalties and fines; definitions.

Sec. 3112a. (1) Except for sewer systems described in subsection (8), if untreated sewage or partially treated sewage is directly or indirectly discharged from a sewer system onto land or into the waters of the state, the person responsible for the sewer system shall immediately, but not more than 24 hours after the discharge begins, notify the department; local health departments as defined in section 1105 of the public health code, 1978 PA 368, MCL 333.1105; a daily newspaper of general circulation in the county or counties in which a municipality notified pursuant to subsection (4) is located; and a daily newspaper of general circulation in the county in which the discharge occurred or is occurring of all of the following:

(a) Promptly after the discharge starts, by telephone or in another manner required by the department, that the discharge is occurring.

(b) At the conclusion of the discharge, in writing or in another manner required by the department, all of the following:

(*i*) The volume and quality of the discharge as measured pursuant to procedures and analytical methods approved by the department.

(*ii*) The reason for the discharge.

(*iii*) The waters or land area, or both, receiving the discharge.

(*iv*) The time the discharge began and ended as measured pursuant to procedures approved by the department.

(*v*) Verification of the person's compliance status with the requirements of its national pollutant discharge elimination system permit or groundwater discharge permit and applicable state and federal statutes, rules, and orders.

(2) Upon being notified of a discharge under subsection (1), the department shall promptly post the notification on its website.

(3) Each time a discharge to surface waters occurs under subsection (1), the person responsible for the sewer system shall test the affected waters for E. coli to assess the risk to the public health as a result of the discharge and shall provide the test results to the affected local county health departments and to the department. The testing shall be done at locations specified by each affected local county health department but shall not exceed 10 tests for each separate discharge event. The requirement for this testing may be waived by the affected local county health department if the affected local county health department determines that such testing is not needed to assess the risk to the public health as a result of the discharge event.

(4) A person responsible for a sewer system that may discharge untreated sewage or partially treated sewage into the waters of the state shall annually contact each municipality whose jurisdiction contains waters that may be affected by the discharge. If those contacted municipalities wish to be notified in the same manner as provided in subsection (1), the person responsible for the sewer system shall provide that notification.

(5) A person who is responsible for a discharge of untreated sewage or partially treated sewage from a sewer system into the waters of the state shall comply with the requirements of its national pollutant discharge elimination system permit or groundwater discharge permit and applicable state and federal statutes, rules, and orders.

(6) This section does not authorize the discharge of untreated sewage or partially treated sewage into the waters of the state or limit the state from bringing legal action as otherwise authorized by this part.

(7) The penalties and fines provided for in section 3115 apply to a violation of this section.

(8) For sewer systems that discharge to the groundwater via a subsurface disposal system, that do not have a groundwater discharge permit issued by the department, and the discharge of untreated sewage or partially treated sewage is not to surface waters, the person responsible for the sewer system shall notify the local health department in accordance with subsection (1)(a) and (b), but the requirements of subsections (2), (3), (4), and (5) do not apply.

(9) As used in this section:

(a) "Partially treated sewage" means any sewage, sewage and storm water, or sewage and wastewater, from domestic or industrial sources that meets 1 or more of the following:

(*i*) Is not treated to national secondary treatment standards for wastewater or that is treated to a level less than that required by the person's national pollutant discharge elimination system permit.

(*ii*) Is treated to a level less than that required by the person's groundwater discharge permit.

(*iii*) Is found on the ground surface.

(b) "Sewer system" means a public or privately owned sewer system designed and used to convey or treat sanitary sewage or sanitary sewage and storm water. Sewer system does not include an on-site wastewater treatment system serving 1 residential unit or duplex.

(c) "Surface water" means all of the following, but does not include drainage ways and ponds used solely for wastewater conveyance, treatment, or control:

(*i*) The Great Lakes and their connecting waters.

(*ii*) Inland lakes.

(*iii*) Rivers.

(*iv*) Streams.

(*v*) Impoundments.

(*vi*) Open drains.

(*vii*) Other surface bodies of water.

History: 1994, Act 451, Eff. Mar. 30, 1995;—Am. 1998, Act 3, Imd. Eff. Jan. 30, 1998;—Am. 2000, Act 286, Imd. Eff. July 10, 2000;—Am. 2004, Act 72, Imd. Eff. Apr. 20, 2004.

Popular name: Act 451

324.3112b Discharge from combined sewer system; issuance or renewal of permit; disconnection of eaves troughs and downspouts as condition; exception; “combined sewer system” defined.

Sec. 3112b. (1) When a permit for a discharge from a combined sewer system is issued or renewed under this part, the department shall require as a condition of the permit that eaves troughs and roof downspouts for the collection of storm water throughout the tributary service area are not directly connected to the sewer

system. The department may allow the permittee up to 1 year to comply with this provision for residential property and up to 5 years for commercial and industrial properties.

(2) Subsection (1) does not apply if the permittee demonstrates to the satisfaction of the department that the disconnection of downspouts and eaves troughs is not a cost-effective means of reducing the frequency or duration of combined sewer overflows or of maintaining compliance with discharge requirements.

(3) As used in this section, "combined sewer system" means a sewer designed and used to convey both storm water runoff and sanitary sewage, and which contains lawfully installed regulators and control devices that allow for delivery of sanitary flow to treatment during dry weather periods and divert storm water and sanitary sewage to surface waters during storm flow periods.

324.3112c Discharges of untreated or partially treated sewage from sewer systems; list of occurrences; “partially treated sewage” and “sewer system” defined.

Sec. 3112c. (1) The department shall compile and maintain a list of occurrences of discharges of untreated or partially treated sewage from sewer systems onto land or into the waters of the state that have been reported to the department or are otherwise known to the department. This list shall be made available on the department's website on an ongoing basis. In addition, the department shall annually publish this list and make it available to the general public. The list shall include all of the following:

(a) The entity responsible for the discharge.

(b) The waters or land area, or both, receiving the discharge.

(c) The volume and quality of the discharge.

(d) The time the discharge began and ended.

(e) A description of the actions the department has taken to address the discharge.

(f) Whether the entity responsible for the discharge is subject to a schedule of compliance approved by the department.

(g) Any other information that the department considers relevant.

(2) As used in this section:

(a) "Partially treated sewage" means any sewage, sewage and storm water, or sewage and wastewater, from domestic or industrial sources that is not treated to national secondary treatment standards for wastewater or that is treated to a level less than that required by a national pollutant discharge elimination system permit.

(b) "Sewer system" means a sewer system designed and used to convey sanitary sewage or storm water, or both.

324.3112e Permit not required; "beneficial use by-product" and "beneficial use 3" defined.

Sec. 3112e. (1) Notwithstanding sections 3112 and 3113, a permit is not required under this part for any of the following:

(a) The use of a beneficial use by-product for beneficial use 3 in compliance with part 115.

(b) The storage of a beneficial use by-product in compliance with part 115.

(2) As used in subsection (1), "beneficial use by-product" and "beneficial use 3" mean those terms as defined in section 11502.

History: Add. 2014, Act 178, Eff. Sept. 16, 2014.

Popular name: Act 451

Popular name: NREPA

324.3113 New or increased use of waters for sewage or other waste disposal purposes; filing information; permit; conditions; complaint; petition; contested case hearing; rejection of petition.

Sec. 3113. (1) A person who seeks a new or increased use of the waters of the state for sewage or other waste disposal purposes shall file with the department an application setting forth the information required by the department, including the nature of the enterprise or development contemplated, the amount of water required to be used, its source, the proposed point of discharge of the wastes into the waters of the state, the estimated amount to be discharged, and a statement setting forth the expected bacterial, physical, chemical,

and other known characteristics of the wastes.

(2) If a permit is granted, the department shall condition the permit upon such restrictions that the department considers necessary to adequately guard against unlawful uses of the waters of the state as are set forth in section 3109.

(3) If the permit or denial of a new or increased use is not acceptable to the permittee, the applicant, or any other person, the permittee, the applicant, or other person may file a sworn petition with the department setting forth the grounds and reasons for the complaint and asking for a contested case hearing on the matter pursuant to the administrative procedures act of 1969, 1969 PA 306, MCL 24.201 to 24.328. A petition filed more than 60 days after action on the permit application may be rejected by the department as being untimely.

324.3114 Enforcement of part; criminal complaint.

Sec. 3114. An employee of the department of natural resources or an employee of another governmental agency appointed by the department may, with the concurrence of the department, enforce this part and may make a criminal complaint against a person who violates this part.

History: 1994, Act 451, Eff. Mar. 30, 1995.

Popular name: Act 451

Popular name: NREPA

324.3115 Violations; civil or criminal liability; venue; jurisdiction; penalties; knowledge attributable to defendant; lien; setoff.

Sec. 3115. (1) The department may request the attorney general to commence a civil action for appropriate relief, including a permanent or temporary injunction, for a violation of this part or a provision of a permit or order issued or rule promulgated under this part. An action under this subsection may be brought in the circuit court for the county of Ingham or for the county in which the defendant is located, resides, or is doing business. If requested by the defendant within 21 days after service of process, the court shall grant a change of venue to the circuit court for the county of Ingham or for the county in which the alleged violation occurred, is occurring, or, in the event of a threat of violation, will occur. The court has jurisdiction to restrain the violation and to require compliance. In addition to any other relief granted under this subsection, the court, except as otherwise provided in this subsection, shall impose a civil fine of not less than $2,500.00 and the court may award reasonable attorney fees and costs to the prevailing party. However, all of the following apply:

(a) The maximum fine imposed by the court shall be not more than $25,000.00 per day of violation.

(b) For a failure to report a release to the department or to the primary public safety answering point under section 3111b(1), the court shall impose a civil fine of not more than $2,500.00.

(c) For a failure to report a release to the local health department under section 3111b(2), the court shall impose a civil fine of not more than $500.00.

(2) A person who at the time of the violation knew or should have known that he or she discharged a substance contrary to this part, or contrary to a permit or order issued or rule promulgated under this part, or who intentionally makes a false statement, representation, or certification in an application for or form pertaining to a permit or in a notice or report required by the terms and conditions of an issued permit, or who intentionally renders inaccurate a monitoring device or record required to be maintained by the department, is guilty of a felony and shall be fined not less than $2,500.00 or more than $25,000.00 for each violation. The court may impose an additional fine of not more than $25,000.00 for each day during which the unlawful discharge occurred. If the conviction is for a violation committed after a first conviction of the person under this subsection, the court shall impose a fine of not less than $25,000.00 per day and not more than $50,000.00 per day of violation. Upon conviction, in addition to a fine, the court in its discretion may sentence the defendant to imprisonment for not more than 2 years or impose probation upon a person for a violation of this part. With the exception of the issuance of criminal complaints, issuance of warrants, and the holding of an arraignment, the circuit court for the county in which the violation occurred has exclusive jurisdiction. However, the person shall not be subject to the penalties of this subsection if the discharge of the effluent is in conformance with and obedient to a rule, order, or permit of the department. In addition to a fine, the attorney general may file a civil suit in a court of competent jurisdiction to recover the full value of the injuries done to the natural resources of the state and the costs of surveillance and enforcement by the state resulting from the violation.

(3) Upon a finding by the court that the actions of a civil defendant pose or posed a substantial endangerment to the public health, safety, or welfare, the court shall impose, in addition to the sanctions set forth in subsection (1), a fine of not less than $500,000.00 and not more than $5,000,000.00.

(4) Upon a finding by the court that the actions of a criminal defendant pose or posed a substantial endangerment to the public health, safety, or welfare, the court shall impose, in addition to the penalties set forth in subsection (2), a fine of not less than $1,000,000.00 and, in addition to a fine, a sentence of 5 years' imprisonment.

(5) To find a defendant civilly or criminally liable for substantial endangerment under subsection (3) or (4), the court shall determine that the defendant knowingly or recklessly acted in such a manner as to cause a danger of death or serious bodily injury and that either of the following occurred:

(a) The defendant had an actual awareness, belief, or understanding that his or her conduct would cause a substantial danger of death or serious bodily injury.

(b) The defendant acted in gross disregard of the standard of care that any reasonable person should observe in similar circumstances.

(6) Knowledge possessed by a person other than the defendant under subsection (5) may be attributable to the defendant if the defendant took affirmative steps to shield himself or herself from the relevant information.

(7) A civil fine or other award ordered paid pursuant to this section shall do both of the following:

(a) Be payable to the state of Michigan and credited to the general fund.

(b) Constitute a lien on any property, of any nature or kind, owned by the defendant.

(8) A lien under subsection (7)(b) shall take effect and have priority over all other liens and encumbrances except those filed or recorded prior to the date of judgment only if notice of the lien is filed or recorded as required by state or federal law.

(9) A lien filed or recorded pursuant to subsection (8) shall be terminated according to the procedures required by state or federal law within 14 days after the fine or other award ordered to be paid is paid.

(10) In addition to any other method of collection, any fine or other award ordered paid may be recovered by right of setoff to any debt owed to the defendant by the state of Michigan, including the right to a refund of income taxes paid.

324.3115a Violation as misdemeanor; penalty; "minor offense" defined.

Sec. 3115a. (1) Except as provided in subsections (2) and (3), a person who alters or causes the alteration of a floodplain in violation of this part is guilty of a misdemeanor punishable by a fine of not more than $2,500.00 for each occurrence.

(2) A person who commits a minor offense is guilty of a misdemeanor punishable by a fine of not more than $500.00 for each violation. A law enforcement officer may issue and serve an appearance ticket upon a person for a minor offense pursuant to sections 9a to 9g of chapter IV of the code of criminal procedure, Act No. 175 of the Public Acts of 1927, being sections 764.9a to 764.9g of the Michigan Compiled Laws.

(3) A person who willfully or recklessly violates a condition of a floodplain permit issued under this part is guilty of a misdemeanor punishable by a fine of not more than $2,500.00 per day.

(4) As used in this section, "minor offense" means either of the following violations of this part if the department determines that restoration of the affected floodplain is not required:

(a) The failure to obtain a permit under this part.

(b) A violation of a permit issued under this part.

324.3116 Construction of part; exemptions.

Sec. 3116. (1) This part does not repeal any law governing the pollution of lakes and streams, but shall be held and construed as ancillary to and supplementing the other laws and in addition to the laws now in force, except as a law may be in direct conflict with this part. This part does not apply to ferrous and nonferrous mining operations subject to parts 631 and 632 with respect to mining areas, as defined in sections 63101 and 63201, with regard to the placement, removal, use, or processing of mineral tailings or mineral deposits being placed in inland waters on bottomlands owned by or under the control of the ferrous or nonferrous mineral

operator unless there is to be a discharge of waste or waste effluent from the inland waters into waters of the state. This part does not apply to the discharge of water from underground ferrous and nonferrous mining operations unless there is to be a discharge of waste or waste effluent into the waters of the state.

(2) The exemption provided in subsection (1) does not apply to inland waters owned by or under control of a ferrous or nonferrous mineral operator if there is an inland lake or stream as defined in section 30101 that flows both into those inland waters and out from those inland waters directly into the waters of the state.

324.3117 Supplemental construction.

Sec. 3117. This part is supplemental to and in addition to the drain code of 1956, Act No. 40 of the Public Acts of 1956, being sections 280.1 to 280.630 of the Michigan Compiled Laws. This part does not amend or repeal any law of the state relating to the public service commission, the department, and the department of public health relating to waters and water structures, or any act or parts of acts not inconsistent with this part.

324.3118 Stormwater discharge fees; definitions.

Sec. 3118. (1) Except as otherwise provided in this section, until October 1, 2025, the department shall collect the following stormwater discharge fees from persons that apply for or have been issued stormwater discharge permits:

(a) A 1-time fee of $400.00 for a permit related solely to a site of construction activity for each permitted site. The fee must be submitted with the application for an individual permit or for a certificate of coverage under a general permit. For a permit by rule, the fee must be submitted by the construction site permittee with the notice of coverage. A person needing more than 1 permit may submit a single payment for more than 1 permit and receive appropriate credit. Payment of the fee under this subdivision or verification of prepayment is a necessary part of a valid permit application or notice of coverage under a permit by rule.

(b) An annual fee of $260.00 for a permit related solely to a stormwater discharge associated with industrial activity or from a commercial site for which the department determines a permit is needed.

(c) Except as provided in subdivision (d), (e), or (f), an annual fee of $500.00 for a permit for a municipal separate storm sewer system.

(d) For a permit for a municipal separate storm sewer system issued to a city, village, or township, an annual fee determined by its population in an urbanized area as defined by the United States Bureau of the Census and, except as provided in subsection (11), based on the latest available decennial census, as follows:

(*i*) For a population of 1,000 people or fewer, $500.00.

(*ii*) For a population of more than 1,000 people, but fewer than 3,001 people, $1,000.00.

(*iii*) For a population of more than 3,000 people, but fewer than 10,001 people, $2,000.00.

(*iv*) For a population of more than 10,000 people, but fewer than 30,001 people, $3,000.00.

(*v*) For a population of more than 30,000 people, but fewer than 50,001 people, $4,000.00.

(*vi*) For a population of more than 50,000 people, but fewer than 75,001 people, $5,000.00.

(*vii*) For a population of more than 75,000 people, but fewer than 100,001 people, $6,000.00.

(*viii*) For a population of more than 100,000 people, $7,000.00.

(e) An annual fee of $3,000.00 for a permit for a municipal separate storm sewer system issued to a county.

(f) For a single municipal separate storm sewer systems permit authorizing a state or federal agency to operate municipal separate storm sewer systems in multiple locations statewide, an annual fee determined pursuant to a memorandum of understanding between that state or federal agency and the department and based on the projected costs of the department to administer the permit.

(2) A stormwater discharge permit is not required for a municipality that does not own or operate a separate storm sewer system. The department shall not collect stormwater discharge fees under this section from a municipality that does not own or operate a separate storm sewer system.

(3) Permit fees required under this section are nonrefundable.

(4) A person possessing a permit not related solely to a site of construction activity as of January 1 shall be assessed a fee. The department shall notify those persons of their fee assessments by February 1. Payment must be postmarked no later than March 15. Failure by the department to send a person a fee assessment notification by the deadline, or failure of a person to receive a fee assessment notification, does not relieve

that person of the obligation to pay the fee. If the department does not meet the February deadline for sending the fee assessment, the fee assessment is due not later than 45 days after the permittee receives a fee notification.

(5) If a stormwater permit is issued for a drainage district, the drainage district is responsible for the applicable fee under this section.

(6) The department shall assess interest on all fee payments submitted under this section after the due date. The permittee shall pay an additional amount equal to 0.75% of the payment due for each month or portion of a month the payment remains past due.

(7) The department shall forward fees and interest payments collected under this section to the state treasurer for deposit into the fund.

(8) The department shall require the payment of the fee assessed under this section as a condition of issuance or reissuance of a permit not related solely to a site of construction activity.

(9) In addition to any other penalty provided in this part, if a person fails to pay the fee required under this section by its due date, the person is in violation of this part and the department may undertake enforcement actions as authorized under this part.

(10) The attorney general may bring an action to collect overdue fees and interest payments imposed under this section.

(11) If the permit is for a municipal separate storm sewer system and the population served by that system is different than that determined by the latest decennial census, the permittee may appeal the annual fee determination and submit written verification of actual population served by the municipal separate storm sewer system.

(12) A person that wishes to appeal either a fee or a penalty assessed under this section is limited to an administrative appeal under section 631 of the revised judicature act of 1961, 1961 PA 236, MCL 600.631. The appeal must be filed within 30 days after the department's fee notification under subsection (4).

(13) As used in this section and section 3119:

(a) "Certificate of coverage" means a document issued by the department that authorizes a discharge under a general permit.

(b) "Clean water act" means the federal water pollution control act, 33 USC 1251 to 1388.

(c) "Construction activity" means a human-made earth change or disturbance in the existing cover or topography of land that is 5 acres or more in size, for which a national permit is required pursuant to 40 CFR 122.26(a), and which is described as a construction activity in 40 CFR 122.26(b)(14)(x). Construction activity includes clearing, grading, and excavating activities. Construction activity does not include the practice of clearing, plowing, tilling soil, and harvesting for the purpose of crop production.

(d) "Fee" means a stormwater discharge fee authorized under this section.

(e) "Fund" means the stormwater fund created in section 3119.

(f) "General permit" means a permit issued authorizing a category of similar discharges.

(g) "Individual permit" means a site-specific permit.

(h) "Municipal separate storm sewer system" means all separate storm sewers that are owned or operated by the United States or a state, city, village, township, county, district, association, or other public body created by or pursuant to state law, having jurisdiction over disposal of sewage, industrial wastes, stormwater, or other wastes, including special districts under state law, such as a sewer district, flood control district, or drainage district or similar entity, or a designated or approved management agency under section 208 of the clean water act, 33 USC 1288, that discharges to waters of the state. Municipal separate storm sewer system includes systems similar to separate storm sewer systems in municipalities, such as systems at military bases, large hospital or prison complexes, and highways and other thoroughfares. Municipal separate storm sewer system does not include separate storm sewers in very discrete areas, such as individual buildings.

(i) "Notice of coverage" means a notice that a person engaging in construction activity agrees to comply with a permit by rule for that activity. A notice of coverage is not required to include a copy of an individual permit issued under part 91 if the notice of coverage includes a copy of a permit for the construction activity issued under part 615, 625, 631, 632, or 634, along with any forms or diagrams pertaining to soil erosion and sedimentation control that were part of the application for that permit.

(j) "Permit", unless the context implies otherwise, or "stormwater discharge permit" means a permit authorizing the discharge of wastewater or any other substance to surface waters of the state under the national pollutant discharge elimination system, pursuant to the clean water act or this part and the regulations or rules promulgated under that act or this part.

(k) "Public body" means the United States, this state, a city, village, township, county, school district, public college or university, or single purpose governmental agency, or any other body that is created by federal or state law.

(*l*) "Separate storm sewer system" means a system of drainage, including, but not limited to, roads, catch basins, curbs, gutters, parking lots, ditches, conduits, pumping devices, or man-made channels, that has the following characteristics:

(*i*) The system is not a combined sewer where stormwater mixes with sanitary wastes.

(*ii*) The system is not part of a publicly owned treatment works.

(m) "Stormwater" means stormwater runoff, snowmelt runoff, and surface runoff and drainage.

(n) "Stormwater discharge associated with industrial activity" means a point source discharge of stormwater from a facility that is considered to be engaging in industrial activity under 40 CFR 122.26(b)(14)(i) to (ix) and (xi).

History: 1994, Act 451, Eff. Mar. 30, 1995;—Am. 1995, Act 169, Imd. Eff. Oct. 9, 1995;—Am. 1999, Act 35, Imd. Eff. June 3, 1999;—Am. 2004, Act 91, Imd. Eff. Apr. 22, 2004;—Am. 2008, Act 2, Imd. Eff. 324.3119 Storm water fund.

Sec. 3119. (1) The storm water fund is created within the state treasury.

(2) The state treasurer may receive money or other assets from any source for deposit into the fund. The state treasurer shall direct the investment of the fund. The state treasurer shall credit to the fund interest and earnings from fund investments.

(3) Money in the fund at the close of the fiscal year shall remain in the fund and shall not lapse to the general fund.

(4) The department shall expend money from the fund, upon appropriation, only for 1 or more of the following purposes:

(a) Review of storm water permit applications.

(b) Storm water permit development, issuance, reissuance, modification, and termination.

(c) Surface water monitoring to support the storm water permitting process.

(d) Assessment of compliance with storm water permit conditions.

(e) Enforcement against storm water permit violations.

(f) Classification of storm water control facilities.

(g) Not more than 10% of the money in the fund for training for certification of storm water operators and educational material to assist persons regulated under this part.

(h) Regional or statewide public education to enhance the effectiveness of storm water permits.

(5) Money in the fund shall not be used to support the direct costs of litigation undertaken to enforce this part.

(6) Upon the expenditure or appropriation of money raised in section 3118 for any other purpose than those specifically listed in this section, authorization to collect fees under section 3118 shall be suspended until such time as the money expended or appropriated for purposes other than those listed in this section is returned to the fund.

(7) By January 1, 2006 and by January 1 of each year thereafter, the department shall prepare and submit to the governor, the legislature, the chairs of the standing committees of the senate and house of representatives with primary responsibility for issues related to natural resources and the environment, and the chairs of the subcommittees of the senate and house appropriations committees with primary responsibility for appropriations to the department a report that details the departmental activities of the previous fiscal year in administering the department's storm water program that were funded by the fund. This report shall include, at a minimum, all of the following:

(a) The number of full-time equated positions performing each of the following functions:

(*i*) Permit issuance and development.

(*ii*) Compliance.

(*iii*) Enforcement.

(b) The number of new permit applications received by the department in the preceding year.

(c) The number of renewal permits in the preceding year.

(d) The number of permit modifications requested in the preceding year.

(e) The number of staff hours dedicated to each of the fee categories listed in section 3118.

(f) The number of permits issued for fee categories listed in section 3118.

(g) The average number of days required for review of a permit from the date the permit application is determined to be administratively complete.

(h) The number of permit applications denied.

(i) The number of permit applications withdrawn by the applicant.

(j) The percentage and number of permit applications that were reviewed for administrative completeness within 10 days of receipt by the department.

(k) The percentage and number of permit applications submitted to the department that were administratively complete as received.

(*l*) The percentage and number of new permit applications for which a final action was taken by the department within 180 days.

(m) The percentage and number of permit renewals and modifications processed within the required time.

(n) The number of permits reopened by the department.

(o) The number of unfilled positions dedicated to the department's storm water program.

(p) The amount of revenue in the fund at the end of the fiscal year.

History: 1994, Act 451, Eff. Mar. 30, 1995;—Am. 1999, Act 106, Imd. Eff. July 7, 1999;—Am. 2004, Act 91, Imd. Eff. Apr. 22, 2004.

Popular name: Act 451

Popular name: NREPA

324.3120 New, reissued, or modified permit fees; new or increased use permit; grant or denial of permit; failure to make decision within applicable time period; annual permit fees; definitions.

Sec. 3120. (1) Until October 1, 2025, an application for a new permit, a reissuance of a permit, or a modification of an existing permit under this part authorizing a discharge into surface water, other than a storm water discharge, must be accompanied by an application fee as follows:

(a) For an EPA major facility permit, $750.00.

(b) For an EPA minor facility individual permit, a CSO permit, or a wastewater stabilization lagoon individual permit, $400.00.

(c) For an EPA minor facility general permit, $75.00.

(2) Within 180 days after receipt of a complete application for a new or increased use permit, the department shall either grant or deny the permit, unless the applicant and the department agree to extend this time period.

(3) By September 30 of the year following the submittal of a complete application for reissuance of a permit, the department shall either grant or deny the permit, unless the applicant and the department agree to extend this time period.

(4) If the department fails to make a decision on an application within the applicable time period under subsection (2) or (3), all of the following apply:

(a) The department shall return to the applicant the application fee submitted under subsection (1).

(b) The applicant is not subject to an application fee.

(c) The applicant shall receive a 15% annual discount on an annual permit fee required for a permit issued based on that application.

(5) Until October 1, 2025, a person who receives a permit under this part authorizing a discharge into surface water, other than a stormwater discharge, is subject to an annual permit fee as follows:

(a) For an industrial or commercial facility that is an EPA major facility, $8,700.00.

(b) For an industrial or commercial facility that is an EPA minor facility, the following amount:

(*i*) For a general permit for a low-flow facility, $150.00.

(*ii*) For a general permit for a high-flow facility, $400.00.

(*iii*) For an individual permit for a low-flow facility, $1,650.00.

(*iv*) For an individual permit for a high-flow facility, $3,650.00.

(c) For a municipal facility that is an EPA major facility, the following amount:

(*i*) For an individual permit for a facility discharging 500 MGD or more, $213,000.00.

(*ii*) For an individual permit for a facility discharging 50 MGD or more but less than 500 MGD, $20,000.00.

(*iii*) For an individual permit for a facility discharging 10 MGD or more but less than 50 MGD, $13,000.00.

(*iv*) For an individual permit for a facility discharging less than 10 MGD, $5,500.00.

(d) For a municipal facility that is an EPA minor facility, the following amount:

(*i*) For an individual permit for a facility discharging 10 MGD or more, $3,775.00.

(*ii*) For an individual permit for a facility discharging 1 MGD or more but less than 10 MGD, $3,000.00.

(*iii*) For an individual permit for a facility discharging less than 1 MGD, $1,950.00.

(*iv*) For a general permit for a high-flow facility, $600.00.

(*v*) For a general permit for a low-flow facility, $400.00.

(e) For a municipal facility that is a CSO facility, $6,000.00.

(f) For an individual permit for a wastewater stabilization lagoon, $1,525.00.

(g) For an individual or general permit for an agricultural purpose, $600.00, unless either of the following applies:

(*i*) The facility is an EPA minor facility and would qualify for a general permit for a low-flow facility, in which case the fee is $150.00.

(*ii*) The facility is an EPA major facility that is not a farmers' cooperative corporation, in which case the fee is $8,700.00.

(h) For a facility that holds a permit issued under this part but has no discharge and is connected to and is authorized to discharge only to a municipal wastewater treatment system, an annual permit maintenance fee of $100.00. However, if a facility does have a discharge or at some time is no longer connected to a municipal wastewater treatment system, the annual permit fee must be the appropriate fee as otherwise provided in this subsection.

(6) If the person required to pay an application fee under subsection (1) or an annual permit fee under subsection (5) is a municipality, the municipality may pass on the application fee or the annual permit fee, or both, to each user of the municipal facility.

(7) The department shall send invoices for annual permit fees under subsection (5) to all permit holders by December 1 of each year. A fee must be based on the status of the facility as of October 1 of that year. A person subject to an annual permit fee shall pay the fee not later than January 15 of each year. Failure by the department to send a person an invoice by December 1, or failure of a person to receive an invoice, does not relieve that person of the obligation to pay the annual permit fee. If the department does not send invoices by December 1, the annual permit fee is due not later than 45 days after the permittee receives an invoice. The department shall forward annual permit fees received under this section to the state treasurer for deposit into the national pollutant discharge elimination system fund created in section 3121.

(8) The department shall assess a penalty on all annual permit fee payments submitted under this section after the due date. The penalty is 0.75% of the payment due for each month or portion of a month the payment remains past due.

(9) Following payment of an annual permit fee, if a permittee wishes to challenge its annual permit fee under this section, the owner or operator shall submit the challenge in writing to the department. The department shall not process the challenge unless it is received by the department by March 1 of the year the payment is due. A challenge must identify the facility and state the grounds upon which the challenge is based. Within 30 calendar days after receipt of the challenge, the department shall determine the validity of the challenge and provide the permittee with notification of a revised annual permit fee and a refund, if appropriate, or a statement setting forth the reason or reasons why the annual permit fee was not revised. If the owner or operator of a facility desires to further challenge its annual permit fee, the owner or operator of the facility has an opportunity for a contested case hearing as provided for under the administrative procedures act of 1969, 1969 PA 306, MCL 24.201 to 24.328.

(10) The attorney general may bring an action for the collection of the annual permit fee imposed under this section.

(11) As used in this section:

(a) "Agricultural purpose" means the agricultural production or processing of those plants and animals useful to human beings produced by agriculture and includes, but is not limited to, forages and sod crops, grains and feed crops, field crops, dairy animals and dairy products, poultry and poultry products, cervidae, livestock, including breeding and grazing, equine, fish and other aquacultural products, bees and bee products, berries, herbs, fruits, vegetables, flowers, seeds, grasses, nursery stock, trees and tree products, mushrooms, and other similar products, or any other product, as determined by the commission of agriculture and rural development, that incorporates the use of food, feed, fiber, or fur. Agricultural purpose includes an operation or facility that produces wine.

(b) "Combined sewer overflow" means a discharge from a combined sewer system that occurs when the flow capacity of the combined sewer system is exceeded at a point before the headworks of a publicly owned treatment works during wet weather conditions.

(c) "Combined sewer system" means a sewer designed and used to convey both storm water runoff and sanitary sewage, and that contains lawfully installed regulators and control devices that allow for delivery of sanitary flow to treatment during dry weather periods and divert stormwater and sanitary sewage to surface waters during storm flow periods.

(d) "CSO facility" means a facility whose discharge is solely a combined sewer overflow.

(e) "EPA major facility" means a major facility as defined in 40 CFR 122.2.

(f) "EPA minor facility" means a facility that is not an EPA major facility.

(g) "Farmers' cooperative corporation" means a farmers' cooperative corporation organized within the limitations of section 98 of 1931 PA 327, MCL 450.98.

(h) "General permit" means a permit suitable for use at facilities meeting eligibility criteria as specified in the permit. With a general permit, the discharge from a specific facility is acknowledged through a certificate of coverage issued to the facility.

(i) "High-flow facility" means a facility that discharges 1 MGD or more.

(j) "Individual permit" means a permit developed for a particular facility, taking into account that facility's specific characteristics.

(k) "Industrial or commercial facility" means a facility that is not a municipal facility.

(*l*) "Low-flow facility" means a facility that discharges less than 1 MGD.

(m) "MGD" means 1,000,000 gallons per day.

(n) "Municipal facility" means a facility that is designed to collect or treat sanitary wastewater, is either publicly or privately owned, and serves a residential area or a group of municipalities.

(o) "Wastewater stabilization lagoon" means a treatment system constructed of ponds or basins designed to receive, hold, and treat sanitary wastewater for a predetermined amount of time through a combination of physical, biological, and chemical processes.

History: Add. 2004, Act 91, Imd. Eff. Apr. 22, 2004;—Am. 2009, Act 102, Imd. Eff. Sept. 30, 2009;—Am. 2011, Act 90, Imd. Eff. July 15, 2011;—Am. 2015, Act 82, Eff. Oct. 1, 2015;—Am. 2019, Act 84, Imd. Eff. Sept. 30, 2019;—Am. 2021, Act 91, Imd. Eff. Oct. 20, 2021.

324.3121 National pollutant discharge elimination system fund.

Sec. 3121. (1) The national pollutant discharge elimination system fund is created within the state treasury.

(2) The state treasurer may receive money or other assets from any source for deposit into the fund. The state treasurer shall direct the investment of the fund. The state treasurer shall credit to the fund interest and earnings from fund investments.

(3) Money in the fund at the close of the fiscal year shall remain in the fund and shall not lapse to the general fund.

(4) The department shall expend money from the fund, upon appropriation, only to administer the national pollutant discharge elimination system program under this part including, but not limited to, all of the following:

(a) Water quality standards development and maintenance.

(b) Permit development and issuance.

(c) Maintenance of program data.

(d) Ambient water quality monitoring conducted to determine permit conditions and evaluate the effectiveness of permit requirements.

(e) Activities conducted to determine a discharger's permit compliance status, including, but not limited to, inspections, discharge monitoring, and review of submittals.

(f) Laboratory services.

(g) Enforcement.

(h) Program administration activities.

(5) By January 1, 2006 and by January 1 of each year thereafter, the department shall prepare and submit to the governor, the legislature, the chairs of the standing committees of the senate and house of representatives with primary responsibility for issues related to natural resources and the environment, and the chairs of the subcommittees of the senate and house appropriations committees with primary responsibility for appropriations to the department a report that details the departmental activities of the previous fiscal year in administering the department's national pollutant discharge elimination system program that were funded by the fund. This report shall include, at a minimum, all of the following as it relates to the department:

(a) The number of full-time equated positions performing each of the following functions:

(*i*) Permit issuance and development.

(*ii*) Compliance.

(*iii*) Enforcement.

(b) The number of permit applications received by the department in the preceding year, including applications for new and increased uses and reissuances.

(c) The number of staff hours dedicated to each of the fee categories listed in section 3120.

(d) The number of permits issued for fee categories listed in section 3120.

(e) The number of permit applications denied.

(f) The number of permit applications withdrawn by the applicant.

(g) The percentage and number of permit applications that were reviewed for administrative completeness within statutory time frames.

(h) The percentage and number of permit applications submitted to the department that were administratively complete as received.

(i) The percentage and number of permit applications for which a final action was taken by the department within statutory time frames for new and increased uses and reissuances.

(j) The number of permits reopened by the department.

(k) The number of unfilled positions dedicated to the national pollutant discharge elimination system program.

(*l*) The amount of revenue in the fund at the end of the fiscal year.

(6) As used in this section:

(a) "Fund" means the national pollutant discharge elimination system fund created in subsection (1).

(b) "National pollutant discharge elimination system program" means the national pollutant discharge elimination system program delegated to the department under section 402 of title IV of the federal water pollution control act, chapter 758, 86 Stat. 880, 33 U.S.C. 1342, and implemented under this part.

324.3122 Annual groundwater discharge permit fee; failure of department to grant or deny within certain time period; payment of fee by municipality; definitions.

Sec. 3122. (1) Until October 1, 2027, the department may levy and collect an annual groundwater discharge permit fee from facilities or municipalities that discharge wastewater to the ground or groundwater of this state under section 3112. The fee is as follows:

(a) For a group 1 facility, $7,500.00.

(b) For a group 2 facility or a municipality of 1,000 or fewer residents, $1,800.00.

(c) For a group 2a facility, $300.00.

(d) For a group 3 facility, $240.00.

(2) Within 180 days after receipt of a complete application for a permit to discharge wastewater to the ground or to groundwater, the department shall grant or deny a permit, unless the applicant and the department agree to extend this time period. If the department fails to make a decision on an application within the time period specified or agreed to under this subsection, an applicant subject to an annual groundwater discharge permit fee shall receive a 15% annual discount on the annual groundwater discharge permit fee.

(3) If the person required to pay the annual groundwater discharge permit fee under subsection (1) is a municipality, the municipality may pass on the annual groundwater discharge permit fee to each user of the municipal facility.

(4) As used in this section, "group 1 facility", "group 2 facility", "group 2a facility", and "group 3 facility" do not include a municipality with a population of 1,000 or fewer residents.

History: Add. 2004, Act 90, Imd. Eff. Apr. 22, 2004;—Am. 2007, Act 75, Imd. Eff. Sept. 30, 2007;—Am. 2011, Act 90, Imd. Eff. July 15, 2011;—Am. 2015, Act 82, Eff. 324.3122a Annual groundwater discharge permit fees; credit; amount.

Sec. 3122a. In any state fiscal year, if the department collects more than $2,000,000.00 under section 3122 in annual groundwater discharge permit fees, the department shall credit in the next fiscal year each permittee who paid a groundwater discharge permit fee a proportional amount of the fees collected in excess of $2,000,000.00. However, if a permit is no longer required by the permittee in the next fiscal year, the department shall do the following:

(a) If the credited amount is $50.00 or more, the department shall provide a refund to the permittee for the credited amount.

(b) If the credited amount is less than $50.00, the department shall provide a credit to the permittee for an annual groundwater discharge permit fee that may be required in a subsequent year.

History: Add. 2004, Act 114, Imd. Eff. May 21, 2004.

Popular name: Act 451

Popular name: NREPA

324.3123 Groundwater discharge permit fees; invoices; late payment; action by attorney general.

Sec. 3123. (1) The department shall send invoices for the groundwater discharge permit fees under section 3122 to all permit holders by January 15 of each year. Fees will be charged for all facilities authorized as of December 15 of each calendar year. Payment shall be postmarked no later than March 1 of each year. Failure by the department to send an invoice by the deadline, or failure of a person to receive an invoice, does not relieve that person of his or her obligation to pay the annual groundwater discharge permit fee. If the department does not meet the January 15 deadline for sending invoices, the annual groundwater discharge permit fee is due not later than 45 days after receiving an invoice. The department shall forward money collected pursuant to this section to the state treasurer for deposit into the groundwater discharge permit fund established under section 3124.

(2) The department shall assess a penalty on all fee payments submitted under this section after the due date. The penalty shall be an amount equal to 0.75% of the payment due for each month or portion of a month the payment remains past due. Failure to timely pay a fee imposed by this section is a violation of this part and is cause for revocation of a permit issued under this part and may subject the discharger to additional penalties pursuant to section 3115.

(3) The attorney general may bring an action for the collection of the groundwater discharge permit fees imposed under this section.

History: Add. 2004, Act 90, Imd. Eff. Apr. 22, 2004.

Popular name: Act 451

Popular name: NREPA

324.3124 Groundwater discharge permit fund.

Sec. 3124. (1) The groundwater discharge permit fund is created within the state treasury. The state treasurer may receive money or other assets from any source for deposit into the groundwater discharge permit fund. The state treasurer shall direct the investment of the groundwater discharge permit fund.

(2) Money in the groundwater discharge permit fund at the close of the fiscal year shall remain in the groundwater discharge permit fund and shall not lapse to the general fund.

(3) The state treasurer shall credit to the groundwater discharge permit fund the interest and earnings from groundwater discharge permit fund investments.

(4) The department shall expend money from the groundwater discharge permit fund, upon appropriation, only to implement the department's groundwater discharge program under this part. However, in any state fiscal year, the department shall not expend more than $2,000,000.00 of money from the fund.

(5) By March 1 annually, the department shall prepare and submit to the governor, the legislature, the chair of the standing committees of the senate and house of representatives with primary responsibility for issues related to natural resources and the environment, and the chairs of the subcommittees of the senate and house appropriations committees with primary responsibility for appropriations to the department a report that details the activities during the previous fiscal year in administering the department's groundwater discharge program that were funded by the groundwater discharge permit fund. This report shall include, at a minimum, all of the following as they relate to the department:

(a) The number of full-time equated positions performing groundwater permitting, compliance, and enforcement activities.

(b) The number of applications received by the department, reported as the number of applications determined to be administratively incomplete and the number determined to be administratively complete.

(c) The number of applications for groundwater permits determined to be administratively complete for which a final action was taken by the department. The number of final actions shall be reported as the number of applications approved, the number of applications denied, and the number of applications withdrawn by the applicant.

(d) The percentage and number of applications determined to be administratively complete for which a final decision was made within the statutory time frame.

(e) The number of inspections conducted at groundwater facilities.

(f) The number of violation letters sent.

(g) The number of contested case hearings and civil actions initiated and completed, the number of voluntary consent orders and administrative orders entered or issued, and the amount of fines and penalties

collected through such actions or orders.

(h) For each enforcement action that includes a penalty, a description of what corrective actions were required by the enforcement action.

(i) The number of groundwater complaints received, investigated, resolved, and not resolved by the department.

(j) The amount of revenue in the groundwater discharge permit fund at the end of the fiscal year.

324.3131 Land application of sewage sludge and derivatives; rules; applicability to bulk biosolids or bulk derivative; definitions.

Sec. 3131. (1) By October 1, 1997, the department of environmental quality in consultation with the department of agriculture and rural development shall promulgate rules to manage the land application of sewage sludge and sewage sludge derivatives. The rules shall be consistent with the minimum requirements of 40 CFR part 503 but may impose requirements in addition to or more stringent than 40 CFR part 503 to protect public health or the environment from any adverse effect from a pollutant in sewage sludge or in a sewage sludge derivative. However, the rules shall require that if monitoring of sewage sludge or a sewage sludge derivative indicates a pollutant concentration in excess of that provided in table 3 of 40 CFR 503.13, monitoring frequency shall be increased to not less than twice that provided in table 1 of 40 CFR 503.16, until pollutant concentrations are at or below those provided in table 3 of 40 CFR 503.13. The rules shall require a sewage sludge generator or sewage sludge distributor to deliver to a county, city, village, or township a copy of any record required to be created under the rules pertaining to sewage sludge or a sewage sludge derivative applied to land in that local unit. The copy shall be delivered free of charge promptly after the record is created.

(2) Notwithstanding R 323.2407(3) of the Michigan administrative code, the requirements of R 323.2408 and R 323.2410 of the Michigan administrative code in effect on the effective date of the 2012 amendatory act that added this subsection, or subsequent revisions of those requirements, do not apply to bulk biosolids or a bulk derivative that is sold or given away if all of the following requirements are met:

(a) The material is finished compost or other material that has been demonstrated to be mature and stable and to present minimal vector attraction and potential to generate a nuisance.

(b) The material is of exceptional quality.

(c) The generator or distributor provides to the person receiving the material a written record that contains all of the following information:

(*i*) The name and address of the person who prepared the material.

(*ii*) General handling guidelines and recommended application rates.

(*iii*) A current monitoring summary of nitrogen, phosphorus, and potassium concentrations.

(d) The material is used beneficially for its nutrient value in accordance with the generator's approved residuals management program.

(e) The material is utilized only for landscaping uses at 1 or more of the following locations:

(*i*) A public park.

(*ii*) An athletic field.

(*iii*) A cemetery.

(*iv*) A plant nursery.

(*v*) A turf farm.

(*vi*) A golf course.

(*vii*) A lawn.

(*viii*) A home garden.

(*ix*) Any other location approved by the director of the department or his or her designee.

(3) The requirements of R 323.2413(2)(a) through (c) and (e) through (i) of the Michigan administrative code in effect on the effective date of the 2012 amendatory act that added this subsection do not apply to bulk biosolids or a bulk derivative of exceptional quality utilized for landscaping purposes.

(4) A person who generates bulk biosolids or a bulk derivative of exceptional quality for landscaping uses shall keep a record of quantities in excess of 20 cubic yards sold or given away in a single transaction and make the record available to the department for inspection and copying. The record shall include all of the following information:

(a) The name and address of the recipient.

(b) The quantity received.

(c) The signature or initials of the recipient.

(d) A general description of the intended use consistent with subsection (2)(e).

(5) As used in this section:

(a) All of the following mean those terms as defined in R 324.2402 of the Michigan administrative code:

(*i*) "Bulk biosolids".

(*ii*) "Derivative".

(*iii*) "Exceptional quality".

(*iv*) "Generator".

(*v*) "Residuals management program".

(b) "Bulk derivative" means a derivative that is not sold or given away in a bag or other container for application to a lawn or home garden.

History: Add. 1997, Act 29, Imd. Eff. June 18, 1997;—Am. 2012, Act 563, Imd. Eff. Jan. 2, 2013.

Compiler's note: In separate opinions, the Michigan Supreme Court held that Section 45(8), (9), (10), and (12) and the second sentence of Section 46(1) ("An agency shall not file a rule ... until at least 10 days after the date of the certificate of approval by the committee or after the legislature adopts a concurrent resolution approving the rule.") of the Administrative Procedures Act of 1969, in providing for the Legislature's reservation of authority to approve or disapprove rules proposed by executive branch agencies, did not comply with the enactment and presentment requirements of Const 1963, Art 4, and violated the separation of powers provision of Const 1963, Art 3, and, therefore, were unconstitutional. These specified portions were declared to be severable with the remaining portions remaining effective. Blank v Department of Corrections, 462 Mich 103 (2000).

Popular name: Act 451

Popular name: NREPA

324.3132 Sewage sludge generators and sewage sludge distributors; fees; report; sewage sludge land application fund; local ordinance.

Sec. 3132. (1) Beginning in state fiscal year 1998, an annual sewage sludge land application fee is imposed upon sewage sludge generators and sewage sludge distributors. The sewage sludge land application fee shall be in an amount equal to the sum of an administrative fee and a generation fee. The administrative fee shall be $400.00 and the department shall set the generation fee as provided by subsection (2). The department shall set the generation fee so that the annual cumulative total of the sewage sludge land application fee to be paid in a state fiscal year is, as nearly as possible, $650,000.00 minus the amount in the fund created under subsection (5) carried forward from the prior state fiscal year. Starting with fees to be paid in state fiscal year 1999, the $650,000.00 amount shall be annually adjusted for inflation using the Detroit consumer price index.

(2) Each sewage sludge generator and sewage sludge distributor shall annually report to the department for each state fiscal year, beginning with the 1997 state fiscal year, the number of dry tons of sewage sludge it generated or the number of dry tons of sewage sludge in sewage sludge derivatives it distributed that were applied to land in that state fiscal year. The report is due 30 days after the end of the state fiscal year. By December 15 of each state fiscal year, the department shall determine the generation fee on a per dry ton basis by dividing the cumulative generation fee by the number of dry tons of sewage sludge applied to land or in sewage sludge derivatives applied to land in the immediately preceding state fiscal year. The department shall notify each sewage sludge generator and sewage sludge distributor of the generation fee on a per dry ton basis. Notwithstanding any other provision of this section, for the 1998 state fiscal year, the generation fee shall not exceed $4.00 per dry ton.

(3) By January 31 of each state fiscal year, each sewage sludge generator or sewage sludge distributor shall pay its sewage sludge land application fee. The sewage sludge generator or sewage sludge distributor shall determine the amount of its sewage sludge land application fee by multiplying the number of dry tons of sewage sludge that it reported under subsection (2) by the generation fee and adding the administrative fee.

(4) The department of environmental quality shall assess interest on all fee payments submitted under this section after the due date. The permittee shall pay an additional amount equal to 0.75% of the payment due for each month or portion of a month the payment remains past due. The failure by a person to timely pay a fee imposed by this section is a violation of this part.

(5) The sewage sludge land application fund is created in the state treasury. The department of environmental quality shall forward all fees collected under this section to the state treasurer for deposit into the fund. The state treasurer may receive money or other assets from any source for deposit into the fund. The state treasurer shall direct the investment of the fund. The state treasurer shall credit to the fund interest and earnings from fund investments. An unexpended balance within the fund at the close of the state fiscal year shall be carried forward to the following state fiscal year. The fund shall be allocated solely for the administration of this section and sections 3131 and 3133, including, but not limited to, education of the farmers, sewage sludge generators, sewage sludge distributors, and the general public about land application of sewage sludge and sewage sludge derivatives and the requirements of this section and sections 3131 and

3133. The director of the department of environmental quality may contract with a nonprofit educational organization to administer the educational components of this section. Ten percent of the fund shall be allocated to the department of agriculture to provide persons involved in or affected by land application of sewage sludge or sewage sludge derivatives with education and technical assistance relating to land application of sewage sludge or sewage sludge derivatives.

(6) A local unit may enact, maintain, and enforce an ordinance that prohibits the land application of sewage sludge or a sewage sludge derivative if monitoring indicates a pollutant concentration in excess of that provided in table 1 of 40 C.F.R. 503.13 until subsequent monitoring indicates that pollutant concentrations do not exceed those provided in table 1 of 40 C.F.R. 503.13.

324.3133 Local ordinances, regulations, or resolutions; preemption; contracts with local units; enactment and enforcement of local standards; compliance with conditions of approval; submission of resolution by local unit to department; public meeting; issuance of opinion and approval by department.

Sec. 3133. (1) Except as otherwise provided in this section, sections 3131 and 3132 preempt a local ordinance, regulation, or resolution of a local unit that would duplicate, extend, revise, or conflict with section 3131 or 3132. Except as otherwise provided for in this section, a local unit shall not enact, maintain, or enforce an ordinance, regulation, or resolution that duplicates, extends, revises, or conflicts with section 3131 or 3132.

(2) The director of the department of environmental quality may contract with a local unit to act as its agent for the purpose of enforcing this section and sections 3131 and 3132. The department shall have sole authority to assess fees. If a local unit is under contract with the department of environmental quality to act as its agent or the local unit has received prior written authorization from the department, then the local unit may pass an ordinance that is identical to section 3132 and rules promulgated under section 3131, except as prohibited in subsection (4).

(3) A local unit may enact an ordinance prescribing standards in addition to or more stringent than those contained in section 3132 or in rules promulgated under section 3131 and which regulate a sewage sludge or sewage sludge derivative land application site under either or both of the following circumstances:

(a) The operation of a sewage sludge or sewage sludge derivative land application site within that local unit will result in unreasonable adverse effects on the environment or public health within the local unit. The determination that unreasonable adverse effects on the environment or public health will exist shall take into consideration specific populations whose health may be adversely affected within the local unit.

(b) The operation of a sewage sludge or sewage sludge derivative land application site within that local unit has resulted or will result in the local unit being in violation of other existing state laws or federal laws.

(4) An ordinance enacted pursuant to subsection (2) or (3) shall not conflict with existing state laws or federal laws. An ordinance enacted pursuant to subsection (3) shall not be enforced by a local unit until approved or conditionally approved by the director of the department of environmental quality under subsection (5). The local unit shall comply with any conditions of approval.

(5) If the legislative body of a local unit submits to the department of environmental quality a resolution identifying how the requirements of subsection (3)(a) or (b) are met, the department shall hold a public meeting in the local unit within 60 days after the submission of the resolution to assist the department in determining whether the requirements of subsection (3)(a) or (b) are met. Within 45 days after the public meeting, the department shall issue a detailed opinion on whether the requirements of subsection (3)(a) or (b) are met as identified by the resolution of the local unit and shall approve, conditionally approve, or disapprove the ordinance accordingly. If the department fails to satisfy the requirements of this subsection, the ordinance is considered to be approved.

324.3134 Operator training and certification fund.

Sec. 3134. (1) The operator training and certification fund is created within the state treasury.

(2) The state treasurer may receive money or other assets from any source for deposit into the fund. The state treasurer shall direct the investment of the fund. The state treasurer shall credit to the fund interest and

earnings from fund investments.

(3) Money in the fund at the close of the fiscal year shall remain in the fund and shall not lapse to the general fund.

(4) The department shall be the administrator of the fund for auditing purposes.

(5) The department shall expend money from the fund, upon appropriation, only to administer this part, part 41, and the safe drinking water act, 1976 PA 399, MCL 325.1001 to 325.1023, including all of the following:

(a) Licensing, examination, compliance assistance, education, training, and other certification activities directly related to this part, part 41, and the safe drinking water act, 1976 PA 399, MCL 325.1001 to 325.1023.

(b) Maintenance of program data.

(c) Development of program-related databases and software.

(d) Program administration activities.

(6) By January 1 of each year until January 1, 2017, the department shall prepare and submit to the governor, the chairs of the standing committees of the senate and house of representatives with primary responsibility for issues related to natural resources and the environment, and the chairs of the subcommittees of the senate and house appropriations committees with primary responsibility for appropriations to the department a report that details the department's administration of the operator training and certification program under section 3110, section 4104, and section 9 of the safe drinking water act, 1976 PA 399, MCL 325.1009, in the previous fiscal year. This report shall include, at a minimum, all of the following as itemized for each operator training and certification program:

(a) The type and number of training programs offered by the department, including the total number of participants in each type of training program.

(b) The type and number of certification exams given.

(c) The type and number of certifications awarded.

(d) The amount of revenue in the fund at the end of the fiscal year.

PART 33
AQUATIC NUISANCE CONTROL

324.3301 Definitions; A to D.

Sec. 3301. As used in this part:

(a) "Aquatic invasive species" means an aquatic species that is nonnative to the ecosystem under consideration and whose introduction causes or is likely to cause economic or environmental harm or harm to human health.

(b) "Aquatic nuisance" means an organism that lives or propagates, or both, within the aquatic environment and that impairs the use or enjoyment of the waters of the state, including the intermediate aquatic hosts for schistosomes that cause swimmer's itch.

(c) "Certificate of coverage" means written authorization from the department to implement a project under a general permit.

(d) "Department" means the department of environmental quality.

(e) "Director" means the director of the department.

History: Add. 2004, Act 246, Eff. Oct. 1, 2004;—Am. 2014, Act 253, Imd. Eff. June 30, 2014.

Compiler's note: Former PART 33 was entitled "CONTAMINATION OF WATERS." Former MCL 324.3301, which pertained to disposal of refuse from fish catch, was repealed by Act 27 of 1996, Imd. Eff. Feb. 26, 1996.

Popular name: Act 451

Popular name: NREPA

324.3302 Definitions; G to W.

Sec. 3302. As used in this part:

(a) "General permit" means a permit for a category of activities that the department determines will not negatively impact human health and will have no more than minimal short-term adverse impacts on the natural resources and environment.

(b) "Lake management plan" means a document that contains all of the following:

(*i*) A description of the physical, chemical, and biological attributes of a waterbody.

(*ii*) A description of the land uses surrounding a waterbody.

(*iii*) A detailed description of the historical and planned future management of the waterbody.

(c) "Violation of this part" means a violation of a provision of this part or a permit, certificate of coverage, or order issued under or rule promulgated under this part.

(d) "Waters of the state" or "waterbody" means groundwaters, lakes, ponds, rivers, streams, and wetlands and all other watercourses and waters within the jurisdiction of this state including the Great Lakes bordering this state.

History: Add. 2004, Act 246, Eff. Oct. 1, 2004.

Compiler's note: Former MCL 333.3302, which pertained to nonresident license to use pound or trap net, fee, and violation, was repealed by Act 27 of 1996, Imd. Eff. Feb. 26, 1996.

Popular name: Act 451

Popular name: NREPA

324.3303 Chemical treatment of waters for aquatic nuisance control; permit or certificate of coverage required; exception; records; qualifications; authorization under part 31.

Sec. 3303. (1) Subject to subsections (2), (4), and (5), a person shall not chemically treat either of the following for purposes of aquatic nuisance control unless the person has obtained from the department an individual permit or a certificate of coverage under this part:

(a) Any waters of the state, if water is visibly present or contained in the area of impact at the time of chemical treatment.

(b) The Great Lakes or Lake St. Clair if the area of impact is exposed bottomland located below the ordinary high-water mark.

(2) Subject to subsections (3), (4), and (5), a person may chemically treat waters of the state for purposes of aquatic nuisance control without obtaining from the department an individual permit or a certificate of coverage if all of the following criteria are met:

(a) The waterbody does not have an outlet.

(b) There is no record of species on a list of endangered or threatened species referred to in part 365.

(c) The waterbody has a surface area of less than 10 acres.

(d) If the bottomlands of the waterbody are owned by more than 1 person, written permission for the proposed chemical treatment is obtained from each owner.

(e) The person posts the area of impact in the manner provided in section 3310(d).

(3) A person conducting a chemical treatment authorized under subsection (2) shall maintain any written permissions required under subsection (2) and records of treatment, including treatment date, chemicals applied, amounts applied, and a map indicating the area of impact, for 1 year from the date of each chemical treatment. The records shall be made available to the department upon request.

(4) A person shall not apply for a permit or certificate of coverage under subsection (1) or conduct a chemical treatment described in this section unless the person is 1 or more of the following:

(a) An owner of bottomland within the proposed area of impact.

(b) A lake board established under part 309 for the affected waterbody.

(c) A state or local governmental entity.

(d) A person who has written authorization to act on behalf of a person described in subdivision (a), (b), or (c).

(5) The chemical treatment of waters authorized pursuant to part 31 is not subject to this part.

History: Add. 2004, Act 246, Eff. Oct. 1, 2004.

Compiler's note: Former MCL 324.3303, which pertained to unlawful dumping into waters and molesting of nets, was repealed by Act 27 of 1996, Imd. Eff. Feb. 26, 1996.

Popular name: Act 451

Popular name: NREPA

324.3304 Lake management plan as part of permit application; proposal for whole lake evaluation treatment; placement of specific conditions in permit; scientific rationale for permit denial.

Sec. 3304. (1) An applicant shall provide a lake management plan as part of an application for permit, if a whole lake treatment is proposed.

(2) An applicant for a permit for a whole lake evaluation treatment may provide scientific evidence and documentation that the use of a specific pesticide, application rate, or means of application will selectively control an aquatic nuisance but not cause unacceptable impacts on native aquatic vegetation, other aquatic or terrestrial life, or human health. Such evaluation treatments include the use of fluridone at rates in excess of 6

parts per billion. The department may place special conditions in a permit issued under this subsection to require additional ambient monitoring to document possible adverse impacts on native aquatic vegetation or other aquatic life. If the department denies the application, the department shall provide to the applicant the scientific rationale for the denial, in writing.

History: Add. 2004, Act 246, Eff. Oct. 1, 2004.

Compiler's note: Former MCL 324.3304, which pertained to violation of part as misdemeanor and penalty, was repealed by Act 27 of 1996, Imd. Eff. Feb. 26, 1996.

Popular name: Act 451

Popular name: NREPA

324.3305 Registration of chemical used for aquatic nuisance control; evaluations; order to prohibit or suspend chemical use.

Sec. 3305. (1) A chemical shall not be used in waters of the state for aquatic nuisance control unless it is registered with the EPA, pursuant to section 3 of the federal insecticide, fungicide, and rodenticide act, 7 USC 136a, and the department of agriculture and rural development, pursuant to part 83, for the aquatic nuisance control activity for which it is used. The department shall not deny a permit or certificate of coverage because of the specific chemical proposed to be used, if the chemical is so registered, unless the department has worked with the applicant to identify an appropriate alternative chemical that satisfies the department's concern and no such chemical is available.

(2) The department may conduct evaluations of the impacts and effectiveness of any chemicals that are proposed for use for aquatic nuisance control in waters of the state. This may include the issuance of permits for field assessments of the chemicals.

(3) The director, in consultation with the director of the department of agriculture and rural development, may issue an order to prohibit or suspend the use of a chemical for aquatic nuisance control if, based on substantial scientific evidence, use of the chemical causes unacceptable negative impacts to human health or the environment. The department shall not issue permits authorizing the use of such chemicals. In addition, a person shall cease the use of such chemicals upon notification by the department.

History: Add. 2004, Act 246, Eff. Oct. 1, 2004;—Am. 2014, Act 253, Imd. Eff. June 30, 2014.

Compiler's note: Former MCL 324.3305, which pertained to civil liability for unlawful acts against property lawfully set and used to take fish, was repealed by Act 27 of 1996, Imd. Eff. Feb. 26, 1996.

Popular name: Act 451

Popular name: NREPA

324.3306 Certificate of coverage; application fee; adjustment; target; "consumer price index" defined; aquatic nuisance control fund; payment of fee.

Sec. 3306. (1) Until October 1, 2014, an application for a certificate of coverage under this part shall be accompanied by a fee of $75.00. Subject to subsection (2), an application for an individual permit under this part shall be accompanied by the following fee, based on the size of the area of impact:

(a) Less than 1/2 acre, $75.00.

(b) 1/2 acre or more but less than 5 acres, $200.00.

(c) 5 acres or more but less than 20 acres, $400.00.

(d) 20 acres or more but less than 100 acres, $800.00.

(e) 100 acres or more, $1,500.00.

(2) For the 2014-2015 state fiscal year and each subsequent fiscal year, the department shall proportionately adjust the certificate of coverage and permit application fees under subsection (1) by category to achieve a target in fee revenue under subsection (1) and shall post the adjusted fees on its website by November 1. The department shall set the target so that the annual cumulative total of the target amount plus all of the following equals, as nearly as possible, $900,000.00:

(a) The total amount of annual fees to be collected under section 3309 in the state fiscal year.

(b) The amount of general funds appropriated to the program under this part.

(c) The amount in the aquatic nuisance control fund created under subsection (4) in excess of $100,000.00 carried forward from the prior state fiscal year.

(3) Notwithstanding any other provision of this section, fees as adjusted under subsection (2) shall be proportional to and shall not exceed the amounts set forth in subsection (1). For each state fiscal year beginning with the 2015-2016 state fiscal year, the state treasurer shall adjust the $900,000.00 figure in subsection (2) by an amount determined by the state treasurer at the end of the preceding fiscal year to reflect the cumulative annual percentage change in the consumer price index. As used in this subsection, "consumer price index" means the most comprehensive index of consumer prices available for this state from the bureau

of labor statistics of the United States department of labor.

(4) The aquatic nuisance control fund is created in the state treasury. The department shall forward all fees collected under this section, section 3309, and section 3311 to the state treasurer for deposit into the fund. The state treasurer may receive money or other assets from any other source for deposit into the fund. The state treasurer shall direct the investment of the fund. The state treasurer shall credit to the fund interest and earnings from fund investments. Money in the fund at the close of the fiscal year shall remain in the fund and shall not lapse to the general fund. The department shall be the administrator of the fund for auditing purposes. The department shall expend money from the fund, upon appropriation, only for the administration of this part, including, but not limited to, the following:

(a) Issuance of certificates of coverage and permits.

(b) Technology and reasonable laboratory costs to operate the program under this part.

(c) Compliance and enforcement activities related to aquatic nuisance control.

(d) Education of aquatic herbicide applicators, local and state government agencies, lake boards, lakefront property owners, and the general public about aquatic nuisance control and the requirements of this part. The director may contract with a nonprofit educational organization to administer an educational program as described in this subdivision.

(5) A fee under this section, section 3309, or section 3311 may be paid by credit or debit card or electronic fund transfer. The department shall determine which major credit and debit cards may be used to pay a fee. If a fee is paid by credit or debit card, the department may collect a service assessment from the user of the credit or debit card. The service assessment shall not exceed the actual cost to the department of the credit or debit card transaction.

(6) The department shall not charge a fee for an amendment to an application for a certificate of coverage or permit, including an amendment to an application after that application has been resubmitted under section 3307(7).

History: Add. 2004, Act 246, Eff. Oct. 1, 2004;—Am. 2008, Act 276, Imd. Eff. Sept. 29, 2008;—Am. 2011, Act 90, Imd. Eff. July 15, 2011;—Am. 2014, Act 253, Imd. Eff. June 30, 2014.

Popular name: Act 451

Popular name: NREPA

324.3307 Application; electronic submission; approval or denial within certain time period; requirements; failure to satisfy requirements.

Sec. 3307. (1) An application for a certificate of coverage or permit may be submitted electronically.

(2) The department shall either approve or deny an application for a certificate of coverage by the latest of the following dates:

(a) April 15.

(b) 15 working days after receipt of a complete application.

(c) Any date requested by the applicant for the certificate of coverage and agreed to by the department.

(3) If the department denies an application for a certificate of coverage, the department shall notify the applicant, in writing, of the reasons for the denial.

(4) The department shall approve an application for a permit in whole or part and issue the permit, or shall deny the application, by the latest of the following dates:

(a) April 15.

(b) 30 working days after receipt of a complete application except that this approval time is reduced to 15 working days after receipt of a complete application if the waterbody is listed on the registry under section 3315 as being infested with the particular aquatic invasive species that the applicant proposes to control under the permit.

(c) Any date requested by the permit applicant and agreed to by the department.

(5) The department shall not delay processing an application for a permit or certificate of coverage because the department has not completed processing of the fee payment accompanying the application. This subsection does not apply to an applicant if a previous fee payment offered by the applicant under section 3306 or section 3309 failed because of nonsufficient funds.

(6) If the department approves the application for a permit in part or denies the application, the department shall, by the deadline for approval or denial of the application, notify the applicant, in writing, of the reasons for the partial approval or denial.

(7) The department shall not deny an application for a certificate of coverage or a permit because it was submitted after a certain date in the year in which treatment is proposed. If the department approves an application in part or denies an application, the applicant may resubmit the application with changes to

address the reasons for partial approval or denial. The resubmitted application is not subject to an additional fee.

(8) If the department fails to satisfy the requirements of subsections (2) to (7) with respect to an application for a certificate of coverage or a permit, all of the following apply:

(a) The department shall pay the applicant an amount equal to 15% of the application fee specified under section 3306 for that certificate of coverage or permit.

(b) The application shall be considered to be approved and the department shall be considered to have made any determination required for approval if all of the following apply:

(*i*) The proposed area of impact is the same as or entirely contained within the area of impact approved in a previous permit.

(*ii*) The active ingredient or trade name of each chemical proposed to be applied is the same as approved in a previous permit and each chemical is currently approved for use by the department.

(*iii*) The application rate and number of treatments do not exceed those approved in the previous permit.

(*iv*) The minimum length of time between treatments is not less than that approved in the previous permit.

History: Add. 2004, Act 246, Eff. Oct. 1, 2004;—Am. 2014, Act 253, Imd. Eff. June 30, 2014.

Popular name: Act 451

Popular name: NREPA

324.3308 Written permission from bottomland owner.

Sec. 3308. An applicant shall obtain authorization to chemically treat the proposed area of impact by obtaining written permission from each person who owns bottomlands in the area of impact. The applicant shall maintain the written permission for 1 year from the expiration date of the permit and shall make the records available to the department upon request. Written permission from each bottomland owner is not required if the applicant is providing, or has contracted to provide, chemical treatment for either of the following:

(a) A lake board established under part 309 for the waterbody for which chemical treatment is proposed.

(b) This state or a local unit of government acting under authority of state law to conduct lake improvement projects or to control aquatic vegetation.

History: Add. 2004, Act 246, Eff. Oct. 1, 2004.

Popular name: Act 451

Popular name: NREPA

324.3309 Permit; term; information to be included; authorization of chemical treatment; annual fees; additional conditions.

Sec. 3309. (1) The term of a certificate of coverage shall not be less than 3 years unless the applicant requests a shorter term.

(2) A permit under this part shall, at a minimum, include all of the following information:

(a) The active ingredient or the trade name of each chemical to be applied.

(b) The application rate of each chemical.

(c) The maximum amount of each chemical to be applied per treatment.

(d) Minimum length of time between treatments for each chemical.

(e) A map or maps that clearly delineate the approved area of impact.

(f) The term of the permit. The term shall not be less than 3 years unless the applicant requests a shorter term.

(3) A permit under this part shall authorize chemical treatment in each year covered by the permit. This subsection does not apply to a chemical if the chemical's annual use is restricted in rules that were in effect on the effective date of the amendatory act that added this subsection.

(4) By April 1 of the second and each subsequent year of a permit, the permittee shall pay the department an annual fee. The annual fee shall equal the permit application fee paid for that specific permit under section 3306 including, for annual fees due after the initial treatment of an expanded area of impact under section 3311(3), the additional fee under section 3311(3)(e). If an annual fee is not received by the department by April 1, the permit is suspended until the annual fee is paid. When the application fee for a permit is paid, an applicant may choose to also pay in advance all the annual fees that will become due under this subsection if the permit is granted for the term requested by the applicant. If the application is denied or is granted for a shorter period than the applicant requested, the department shall refund the overpayment of annual fees.

(5) The department may impose additional conditions on a permit under this part to protect the natural resources or the public health, to prevent economic loss or impairment of recreational uses, to protect

nontarget organisms, or to help ensure control of the aquatic nuisance.

History: Add. 2004, Act 246, Eff. Oct. 1, 2004;—Am. 2014, Act 253, Imd. Eff. June 30, 2014.

Popular name: Act 451

Popular name: NREPA

324.3310 Permit conditions.

Sec. 3310. As a condition of a permit under this part, the department may require the permittee to do any of the following:

(a) Notify the department not less than 2 working days in advance of chemical treatment.

(b) Proceed with chemical treatment only if a department representative is present.

(c) Allow the department or its representative to collect a sample of the chemical or chemicals used before or during any chemical treatment.

(d) Post the area of impact before chemical treatment with signs, as follows:

(*i*) Each sign shall be of a brilliant color and made of sturdy, weather-resistant material. Each sign shall be at least 8-1/2 by 11 inches and shall be attached to a supporting device with the bottom of the sign at least 12 inches above the ground surface.

(*ii*) Signs shall be posted in the following locations:

(A) Subject to sub-subparagraph (C), along the shoreline of the area of impact not more than 100 feet apart. Signs shall also be posted in riparian lands adjacent to that portion of the shoreline.

(B) Subject to sub-subparagraph (C), for an area of impact of 2 or more acres, at all access sites, boat launching areas, and private and public parks located on the waterbody in conspicuous locations, such as at the entrances, boat ramps, and bulletin boards, if permitted by managers or owners. If the access sites, launching areas, and parks are not to be treated or are not adjacent to the area of impact, then the signs shall clearly indicate the location of the area of impact.

(C) At alternative posting locations approved by the department upon a determination that the locations where signs are otherwise required to be posted are impractical or unfeasible. The department's determination shall be based on a written request from the applicant that includes an explanation of the need for alternative posting locations and a description of the proposed alternative posting locations.

(*iii*) The department shall specify by rule the information required to be on the signs.

(e) Publish a notice in a local newspaper or make an announcement on a local radio station regarding the chemical treatment. The notice or announcement shall include all of the following information:

(*i*) The permit number.

(*ii*) The name of the waterbody.

(*iii*) A list of the chemicals to be used with corresponding water use restrictions.

(*iv*) A description of the area of impact.

(*v*) The proposed treatment dates.

(f) Apply chemicals so that swimming restrictions and fish consumption restrictions are not imposed on any Saturday, Sunday, or state-declared holiday.

(g) Take special precautions to avoid or minimize potential impacts to human health, the environment, and nontarget organisms.

(h) Notify, in writing, an owner of any waterfront property within 100 feet of the area of impact, not less than 7 days and not more than 45 days before the initial chemical treatment. However, if the owner is not the occupant of the waterfront property or the dwelling located on the property, then the owner is responsible for notifying the occupant. Written notification shall include all of the following information:

(*i*) Name, address, and telephone number of the permittee.

(*ii*) A list of chemicals proposed for use with corresponding water use restrictions.

(*iii*) Approximate treatment dates for each chemical to be used.

(i) Complete and return the treatment report form provided by the department for each treatment season.

(j) Perform lake water residue analysis to verify the chemical concentrations in the waterbody according to a frequency, timing, and methodology approved by the department.

(k) Before submitting a permit application, perform aquatic vegetation surveys according to a frequency, timing, and methodology approved by the department.

(*l*) Use chemical control methods for nuisance aquatic vegetation that are consistent with the approved vegetation management plan submitted separately or as part of a lake management plan. The department may approve modifications to the vegetation management plan upon receipt of a written request from the permittee that includes supporting documentation.

(m) Perform pretreatment monitoring of the target aquatic nuisance population according to a frequency,

timing, and methodology that has been approved by the department before submittal of a permit application.

324.3311 Permit; revisions; transfer; expansion of area of impact.

Sec. 3311. (1) The department may make revisions to a permit under this part, to minimize the impacts to the natural resources, public health, and safety or to improve aquatic nuisance control, if the proposed revisions do not change the scope of the project and the permittee requests the revisions in writing. The department shall not charge a fee for a request for revisions to a permit. The department shall approve a request for revisions to a permit in whole or in part or deny the request within 3 business days after the request is received. The request shall include all of the following information:

(a) The proposed changes to the permit.

(b) An explanation of the necessity for the proposed changes.

(c) Maps that clearly delineate any proposed changes to the area of impact.

(d) Additional information that would help the department reach a decision on a permit amendment.

(2) If the permittee has written authorization to act on behalf of a person described in section 3303(4)(a), (b), or (c), upon written request of that person, the department shall transfer the permit to a new permittee with written authorization to act on behalf of that person. The department shall notify the original permittee of the transfer of the permit.

(3) Subject to subsection (4), a permittee may, without a revision to the permit or certificate of coverage, expand the area of impact beyond that authorized in the permit or certificate of coverage to include adjacent areas of the same waterbody that become infested after the application for the permit or certificate of coverage was submitted to the department. The permittee may increase the amount of chemicals used, as authorized in the permit or certificate of coverage, by an amount proportionate to the expansion in the area of impact. Before the initial treatment of the expanded area, the permittee shall notify the department. The permittee shall, within 15 business days after the initial treatment of the expanded area of impact, provide the department with all of the following:

(a) A written explanation of the necessity for the expansion of the area of impact.

(b) A map that clearly delineates the changes to the area of impact.

(c) A written statement specifying the increase in the amount of chemicals used or to be used as a result of the expansion of the area of impact.

(d) The treatment dates for the expanded area of impact.

(e) If the permit application fee under section 3306 would have been higher if the expanded area of impact had been included in the permit application, a fee equal to the difference between the application fee paid and the application fee that would have been due.

(4) If the area of impact authorized in a permit or certificate of coverage is greater than 100 acres, a permittee shall not expand the area of impact under subsection (3) by more than 50% unless both of the following apply:

(a) The permittee has notified the department in advance of the proposal to expand the area of impact. The notification shall include the information described in subsection (3)(a) and (b).

(b) The department has not, within 2 business days after receiving notification under subdivision (a), notified the permittee of specific concerns about the proposal and that the proposal requires a revision of the permit or certificate of coverage.

324.3313 Violations as misdemeanors; penalty; commencement of civil action by attorney general; revocation of permit or certificate of coverage.

Sec. 3313. (1) A person who commits a violation of this part that does not result in harm to or pose a

substantial threat to natural resources, the environment, or human health is guilty of a misdemeanor punishable by a fine of not more than $500.00 for each violation. A law enforcement officer may issue and serve an appearance ticket upon a person for that violation pursuant to sections 9a to 9g of chapter IV of the code of criminal procedure, 1927 PA 175, MCL 764.9a to 764.9g.

(2) A person who commits a violation of this part that results in harm to or poses a substantial threat to natural resources, the environment, or human health, or a corporate officer who had advance knowledge of such a violation of this part but failed to prevent the violation, is guilty of a misdemeanor and may be imprisoned for not more than 6 months and shall be fined not less than $1,000.00 or more than $2,500.00.

(3) A person who commits a violation described in subsection (2) after a first conviction for such a violation is guilty of a misdemeanor and may be imprisoned for not more than 1 year and shall be fined not less than $2,500.00 or more than $5,000.00.

(4) A person who commits a violation of this part that results in serious harm to or poses an imminent and substantial threat to natural resources, the environment, or human health and who knew or should have known that the violation could have such a result is guilty of a misdemeanor and may be imprisoned for not more than 1 year and shall be fined not less than $5,000.00 or more than $10,000.00.

(5) A person who commits a violation described in subsection (4) after a first conviction for such a violation is guilty of a misdemeanor and may be imprisoned for not more than 2 years and shall be fined not less than $7,500.00 or more than $15,000.00.

(6) A person who knowingly makes a false statement, representation, or certification in an application for a permit or a certificate of coverage or in a report required by a permit or certificate of coverage issued under or rule promulgated under this part is guilty of a misdemeanor and shall be fined not less than $1,000.00 or more than $2,500.00.

(7) A person who commits a violation described in subsection (6) after a first conviction for such a violation is guilty of a misdemeanor and may be imprisoned for not more than 1 year and shall be fined not less than $2,000.00 or more than $5,000.00.

(8) The attorney general may commence a civil action for appropriate relief for a violation of this part, including a permanent or temporary injunction restraining a violation or ordering restoration of natural resources affected by a violation and a civil fine of not more than $25,000.00. The action may be commenced in the circuit court for the county of Ingham or the county in which the violation occurred.

(9) If a person knowingly commits a violation of this part, the department may revoke a permit or certificate of coverage issued to the person under this part.

324.3315 Registry of waterbodies infested by aquatic invasive species; maintenance of website.

Sec. 3315. The department shall post, by January 1, 2016, and maintain on its website a registry of waterbodies infested by aquatic invasive species and the particular aquatic invasive species infesting each waterbody. The registry shall be based on information from all of the following:

(a) Permits and certificates of coverage issued under this part.

(b) Reports received by the department from any of the following:

(*i*) Certified applicators or registered applicators under part 83.

(*ii*) Representatives of public or private institutions of higher education.

(*iii*) Representatives of any other state, local, or federal agency with responsibility for the environment or natural resources.

PART 35
USE OF WATER IN MINING LOW-GRADE IRON ORE

324.3501 Definitions.

Sec. 3501. As used in this part:

(a) "Low-grade iron ore" means iron-bearing rock in the Upper Peninsula of this state that is not merchantable as ore in its natural state and from which merchantable ore can be produced only by beneficiation or treatment.

(b) "Low-grade iron ore mining property" includes the ore beneficiation or treatment plant and other

necessary buildings, facilities, and lands located in the Upper Peninsula of this state.

History: Add. 1995, Act 60, Imd. Eff. May 24, 1995.

Popular name: Act 451

Popular name: NREPA

324.3502 Iron ore mining in Upper Peninsula; issuance of water permits.

Sec. 3502. Substantial deposits of low-grade iron ore are located in the Upper Peninsula of this state. The development and continuation of the industry of mining and beneficiating low-grade ores will provide employment and generally improve economic conditions in that area and will be in the public interest and for the public welfare of this state. As the mining and beneficiating of the low-grade iron ore requires considerable quantities of water, it is necessary that persons engaged in or about to engage in the mining and beneficiation of low-grade iron ores be assured of an adequate and continuing supply of water for the operations to protect the large capital expenditures required for mills, plants, and other improvements. Therefore, the use of water in connection with the mining and beneficiation of low-grade iron ores is in the public interest, for the public welfare, and for a public purpose, and permits for the use of water or waters may be issued by the department in connection with the mining and beneficiation of low-grade iron ores as provided in this part.

History: Add. 1995, Act 60, Imd. Eff. May 24, 1995.

Popular name: Act 451

Popular name: NREPA

324.3503 Operation of low-grade iron ore mining property; draining, diverting, controlling, or using water; permit required; application; contents; hearing; notice; publication; findings.

Sec. 3503. A person shall not drain, divert, control, or use water for the operation of a low-grade iron ore mining property except as authorized by a permit issued by the department pursuant to part 13. An application for a permit shall include information and data as may be prescribed by the department in its rules and regulations. Not later than 60 days following receipt of an application, the department shall fix the time and place for a public hearing on the application and shall publish notice of the hearing. The notice shall be published twice in each county involved in at least 1 newspaper of general circulation in the county. At the hearing, the applicant and any other interested party may appear, present witnesses, and submit evidence. Following the hearing, the department may grant the permit and publish notice of the granting of the permit, in the manner provided for publication of notice of hearing, upon finding the following conditions:

(a) That the proposed drainage, diversion, control, or use of waters is necessary for the mining of substantial deposits of low-grade iron ore, and that other feasible and economical methods of obtaining a continuing supply of water for that purpose are not available to the applicant.

(b) That the proposed drainage, diversion, control, or use of waters will not unreasonably impair the interests of the public or of riparians in lands or waters or the beneficial public use of lands, and will not endanger the public health or safety.

History: Add. 1995, Act 60, Imd. Eff. May 24, 1995;—Am. 2004, Act 325, Imd. Eff. Sept. 10, 2004.

324.3504 Water permits; liability of state.

Sec. 3504. Neither the state nor any of its officers, agents, or employees shall incur any liability because of the issuance of a permit under this part or of any act or omission of the permittee or his or her agents or servants under or in connection with a permit issued under this part.

History: Add. 1995, Act 60, Imd. Eff. May 24, 1995.

Popular name: Act 451

Popular name: NREPA

324.3505 Water permits; term.

Sec. 3505. Every permit granted under this part shall be for a term as is necessary to permit the mining to exhaustion and beneficiation of all low-grade iron ore referred to in the permit application, but not to exceed 50 years. The department may prescribe in the permit such time as it considers reasonable for the commencement or completion of any operations or construction under the permit or the exercise of the rights granted in the permit. The original term of the permit or the time allowed for the performance of any condition in the permit may be extended by the department upon application of the permittee.

History: Add. 1995, Act 60, Imd. Eff. May 24, 1995.

Popular name: Act 451

Popular name: NREPA

324.3506 Water permits; rights; violation; revocation; emergency order for abatement.

Sec. 3506. Every permit issued by the department under this part shall give to the permittee the right to use the water specified in the permit at the times, in the manner, in the quantity, and under the circumstances as specified in the permit, subject to the conditions contained in the permit, and shall be irrevocable except for a breach or violation of the terms and conditions of the permit. If the department finds, upon consideration of the needs of the applicant, the public interest to be served by the use of the water by the applicant, and all other facts relating to the use of the water, that the public interest requires the inclusion in the permit of a provision that will authorize modification or revocation of the permit, then the department may provide for modification or revocation of the permit by including in the permit the specific grounds upon which the permit may be modified or revoked by the department in the public interest. A permit issued pursuant to this part shall not be revoked for breach or violation of the terms and conditions of the permit or be revoked or modified upon other grounds specified in the permit unless the permittee has been given an opportunity to be heard on the grounds for the proposed revocation or modification after 30 days' written notice to the permittee. A permit shall not be revoked for breach or violation of the terms and conditions of the permit unless the permittee has been given an opportunity to correct or remedy the alleged breach or violation within a reasonable time and has failed to do so. Every notice shall specify the grounds for the proposed revocation or modification and, in the event of a proposed modification, the extent of the modification. If a violation of the conditions of a permit exists that in the judgment of the department threatens the public interest in the waters involved as to require abatement without first giving 30 days' written notice to the permittee, the department may issue an emergency order for abatement, which order shall have the same validity as if a 30 days' written notice had been given and the permittee had been granted a hearing. The emergency order shall remain in force no longer than 21 days from its effective date. Failure to comply with an emergency order constitutes grounds for revocation of the permit.

PART 37
WATER POLLUTION CONTROL FACILITIES; TAX EXEMPTION

324.3701 Definitions.

Sec. 3701. As used in this part:

(a) "Facility" means any disposal system, including disposal wells, or any treatment works, appliance, equipment, machinery, or installation constructed, used, or placed in operation primarily for the purpose of reducing, controlling, or eliminating water pollution caused by industrial waste.

(b) "Industrial waste" means any liquid, gaseous, or solid waste substance resulting from any process of

industry, manufacture, trade, or business, or from the development, processing, or recovery of any paper or wood, which is capable of polluting the waters of the state.

(c) "Treatment works" means any plant, pumping station, incinerator, or other works or reservoir used primarily for the purpose of treating, stabilizing, isolating, or holding industrial waste.

(d) "Disposal system" means a system used primarily for disposing of or isolating industrial waste and includes pipelines or conduits, pumping stations and force mains, and all other constructions, devices, appurtenances, and facilities used for collecting or conducting water-borne industrial waste to a point of disposal, treatment, or isolation, except that which is necessary to the manufacture of products.

Popular name: NREPA

324.3702 Tax exemption certificate; application; filing; manner; form; notice; hearing.

Sec. 3702. (1) An application for a water pollution control tax exemption certificate shall be filed with the state tax commission in a manner and in a form as prescribed by the state tax commission. The application shall contain plans and specifications of the facility, including all materials incorporated or to be incorporated in the facility and a descriptive list of all equipment acquired or to be acquired by the applicant for the purpose of industrial waste pollution control, together with the proposed operating procedure for the control facility.

(2) Before issuing a certificate, the state tax commission shall seek approval of the department and give notice in writing by certified mail to the department of treasury and to the assessor of the taxing unit in which the facility is located or to be located, and shall afford to the applicant and the assessor an opportunity for a hearing. Tax exemption granted under this part shall be reduced to the extent of any commercial or productive value derived from any materials captured or recovered by any facility.

History: Add. 1995, Act 60, Imd. Eff. May 24, 1995.

Popular name: Act 451

Popular name: NREPA

324.3703 Issuance of certificate; grounds; effective date.

Sec. 3703. If the department finds that the facility is designed and operated primarily for the control, capture, and removal of industrial waste from the water, and is suitable, reasonably adequate, and meets the intent and purposes of part 31, the department shall notify the state tax commission, which shall issue a certificate. The effective date of the certificate is the date on which the certificate is issued.

History: Add. 1995, Act 60, Imd. Eff. May 24, 1995.

Popular name: Act 451

Popular name: NREPA

324.3704 Exemption of facility from real and personal property taxes; exemption of certain tangible personal property from sales and use taxes; statement in certificate.

Sec. 3704. (1) For the period subsequent to the effective date of the certificate and continuing as long as the certificate is in force, a facility covered by the certificate is exempt from real and personal property taxes imposed under the general property tax act, Act No. 206 of the Public Acts of 1893, being sections 211.1 to 211.157 of the Michigan Compiled Laws.

(2) Tangible personal property purchased and installed as a component part of the facility shall be exempt from both of the following:

(a) Sales taxes imposed under the general sales tax act, Act No. 167 of the Public Acts of 1933, being sections 205.51 to 205.78 of the Michigan Compiled Laws.

(b) Use taxes imposed under the use tax act, Act No. 94 of the Public Acts of 1937, being sections 205.91 to 205.111 of the Michigan Compiled Laws.

(3) The certificate shall state the total acquisition cost of the facility entitled to exemption.

324.3705 Tax exemption certificate; issuance; mailing to applicant, local tax assessors, and department of treasury; filing; notice of refusal of certificate.

Sec. 3705. The state tax commission shall send a water pollution control tax exemption certificate, when issued, by certified mail to the applicant, and certified copies by certified mail to the assessor of the taxing

unit in which any property to which the certificate relates is located or to be located and to the department of treasury, which copies shall be filed of record in their offices. Notice of the state tax commission's refusal to issue a certificate shall be sent by certified mail to the applicant, to the department of treasury, and to the assessor.

History: Add. 1995, Act 60, Imd. Eff. May 24, 1995.

Popular name: Act 451

Popular name: NREPA

324.3706 Tax exemption certificate; modification or revocation; grounds; notice and hearing; statute of limitations.

Sec. 3706. (1) The state tax commission, on notice by certified mail to the applicant and opportunity for a hearing, on its own initiative or on complaint of the department, the department of treasury, or the assessor of the taxing unit in which any property to which the certificate relates is located, shall modify or revoke the certificate if any of the following appear:

(a) The certificate was obtained by fraud or misrepresentation.

(b) The holder of the certificate has failed substantially to proceed with the construction, reconstruction, installation, or acquisition of a facility or to operate the facility for the purpose and degree of control specified in the certification or an amended certificate.

(c) The facility covered by the certificate is no longer used for the primary purpose of pollution control and is being used for a different purpose.

(2) On the mailing by certified mail to the certificate holder, the department of treasury, and the local assessor of notice of the action of the state tax commission modifying or revoking a certificate, the certificates shall cease to be in force or shall remain in force only as modified. If a certificate is revoked because it was obtained by fraud or misrepresentation, all taxes that would have been payable if a certificate had not been issued are immediately due and payable with the maximum interest and penalties prescribed by applicable law. A statute of limitations shall not operate in the event of fraud or misrepresentation.

PART 39
CLEANING AGENTS

324.3901 Definitions; selling or distributing cleaner, rinsing aid, or sanitizing agent containing more than 14% phosphorus prohibited; selling or distributing products containing more than 28% phosphorus prohibited.

Sec. 3901. (1) As used in this part:

(a) "Cleaning agent" means a laundry detergent, dishwashing compound, household cleaner, metal cleaner, degreasing compound, commercial cleaner, industrial cleaner, phosphate compound, or other substance intended to be used for cleaning purposes. Cleaning agent does not include any of the following:

(*i*) A cleaner, rinsing aid, or sanitizing agent intended primarily for use in commercial machine

dishwashers with not more than 14% phosphorus.

(*ii*) A cleaner for food processing with not more than 14% phosphorus.

(*iii*) A cleaner for industrial uses with not more than 28% phosphorus.

(b) "Nutrient" means a substance or combination of substances that, when added to the waters of this state in a sufficient quantity, provide nourishment that promotes the growth of aquatic vegetation in the waters to such a density as to interfere with or be detrimental to use of the waters by human beings or by an animal, fish, or plant useful to human beings.

(c) "Water conditioner" means a water softening chemical, antiscale chemical, corrosion inhibitor, or other substance intended to be used to treat water.

(2) Notwithstanding any other provision of this part:

(a) A person shall not sell or distribute for use in this state a cleaner, rinsing aid, or sanitizing agent intended primarily for use in commercial automatic or commercial machine dishwashers that contains phosphorus in excess of 14% by weight expressed as elemental phosphorus.

(b) A person shall not sell or distribute for use in this state a cleaner, rinsing aid, or sanitizing agent intended primarily for use in dairy agricultural and farm operations and in the manufacture, preparation, and processing of foods and food products including those used in dairy, beverage, egg, fish, brewery, poultry, meat, fruit, and vegetable processing that contains phosphorus in excess of 14% by weight expressed as elemental phosphorus.

(c) A person shall not sell or distribute for use in this state a metal cleaner, metal brightener, metal treatment compound, conversion coating agent, corrosion remover, paint remover, rust inhibitor, etchant, phosphatizer, degreasing compound, industrial cleaner, or commercial cleaner intended primarily for use in industrial and manufacturing processes that contains phosphorus in excess of 28% by weight expressed as elemental phosphorus.

History: 1994, Act 451, Eff. Mar. 30, 1995.

Popular name: Act 451

Popular name: NREPA

324.3902 Phosphorus content; cleaning agent intended for use beginning July 1, 2010.

Sec. 3902. A person shall not sell, offer for sale, or distribute for sale or use in this state any of the following:

(a) Subject to subdivision (b), a cleaning agent that contains phosphorus in any form in excess of 8.7% by weight expressed as elemental phosphorus.

(b) A cleaning agent that is intended for use in household clothes washing machines or, beginning July 1, 2010, in household dishwashers and that contains phosphorus in any form in excess of 0.5% by weight expressed as elemental phosphorus.

History: 1994, Act 451, Eff. Mar. 30, 1995;—Am. 2008, Act 426, Imd. Eff. Jan. 6, 2009;—Am. 2008, Act 427, Imd. Eff. Jan. 6, 2009.

Popular name: Act 451

Popular name: NREPA

324.3903 Rules; compliance.

Sec. 3903. The department shall promulgate rules to implement this part. The rules may further restrict the nutrient content and other contents of cleaning agents and water conditioners to prevent unlawful pollution and control nuisance growths of algae, weeds, and slimes that are or may become injurious to other lawful water uses; to prevent cleaning agents and water conditioners, separately or in combination with other substances, from rendering or tending to render any waters of this state harmful or inimical to public health, animal or aquatic life, or beneficial water uses; and to minimize any hazard to the health or safety of users of the cleaning agents or water conditioners. The burden of proof is on a manufacturer of a cleaning agent or water conditioner, before distribution for sale or use in this state, to establish that its contents comply with this part and rules promulgated under this part, and will not or is not likely to adversely affect human health or the environment. A person shall not sell or distribute for use in this state a cleaning agent or water conditioner in violation of a rule promulgated under this part.

Administrative rules: R 323.1171 et seq. of the Michigan Administrative Code.

324.3904 Prohibited sales.

Sec. 3904. A person shall not sell detergents or cleaning compounds containing any substance other than phosphorus that may cause unlawful pollution of the waters of the state when discharged into the waters of the state, if the department determines that the other substance will cause unlawful pollution under the circumstances of its expected use and disposal or will pose a hazard to human health and safety. A determination by the department does not limit, restrain, or in any way affect an action as it finds appropriate under part 31. The department may establish by rule the criteria by which it will determine the possible pollutional effect of any substance. This part does not apply to a detergent or cleaning compound contained in fuel or lubricating oil.

SEWAGE DISPOSAL AND WATERWORKS SYSTEMS

PART 41
SEWERAGE SYSTEMS

324.4101 Definitions.

Sec. 4101. As used in this part:

(a) "Conventional gravity sewer extension" means the installation of a new gravity sewer and connection to an existing collection system to provide sewer service to new areas previously not served by the public sewer system.

(b) "Expedited review" means an expedited review of an application for a construction permit under section 4112.

(c) "Fund" means the infrastructure construction fund created in section 4113.

(d) "Governmental agencies" means local units of government, metropolitan districts, or other units of government or the officers of the units of government authorized to own, construct, or operate sewerage systems to serve the public.

(e) "Licensed professional engineer" means a professional engineer licensed under article 20 of the occupational code, 1980 PA 299, MCL 339.2001 to 339.2014.

(f) "Plans and specifications" means a true description or representation of the entire sewerage system and parts of a system as the sewerage system exists or is to be constructed, and also a full and fair statement of how the system is to be operated.

(g) "Project" means a proposal to install within 1 general area a new wastewater collection system. Systems proposed for construction on separate land parcels shall be considered separate projects.

(h) "Sewerage system" means a system of pipes and structures including pipes, channels, conduits, manholes, pumping stations, sewage or waste treatment works, diversion and regulatory devices, outfall structures, and appurtenances, collectively or severally, actually used or intended for use by the public for the purpose of collecting, conveying, transporting, treating, or otherwise handling sanitary sewage or other industrial liquid wastes that are capable of adversely affecting the public health.

(i) "Simple pumping station and force main" means the installation of a duplex pumping station and a force main with only 1 high point and of length of no more than 2,000 feet that is to be connected to an existing gravity collection system to provide sewer service to new areas previously not served by the public sewer

system.

(j) "Small diameter pressure sewer and grinder pumping station" means a single project that includes the installation of new pressure sewers totaling not more than 5,000 feet and not more than 25 grinder pumping stations with each grinder pumping station serving not more than 5 separate owners and that is to be connected to an existing gravity collection system to provide sewer service to new areas previously not served by the public sewer system.

324.4103 Sewerage systems; inspection by department.

Sec. 4103. The department may enter at reasonable times the sewerage systems and other property of a person for the purpose of inspecting a sewerage system and carrying out the authority vested in the department by this part.

History: 1994, Act 451, Eff. Mar. 30, 1995.

Popular name: Act 451

Popular name: NREPA

324.4104 Sewerage systems; rules; classification of sewage treatment works; examinations; issuance and revocation of certificates; supervision by certified operator; training program for certified operator; fees.

Sec. 4104. (1) The department may promulgate and enforce rules that the department considers necessary governing and providing a method of conducting and operating all or a part of sewerage systems including sewage treatment works. The department shall classify sewage treatment works with regard to size, type, location, and other physical conditions affecting those works and according to the skill, knowledge, experience, and character that the individual who is in charge of the active operation of the sewage treatment works must possess to successfully operate the works and prevent the discharge of deleterious matter capable of being injurious to the public health or other public interests. The department shall examine or provide for the examination of individuals as to their qualifications to operate sewage treatment works. The department shall promulgate rules regarding the classification of sewage treatment works, the examinations for certification of operators for those works, and the issuance and revocation of certificates, and shall issue and revoke certificates as provided in those rules. Every sewage treatment works subject to this part must be under the supervision of a properly certified operator, except that this section does not require the employment of a certified operator in a waste treatment works that receives only wastes that are not potentially prejudicial to the public health.

(2) As provided in section 3110, the department may conduct a program for training individuals seeking to be certified as operators under subsection (1) and shall administer operator certification programs for individuals seeking to be certified as operators under subsection (1). Until October 1, 2025, the department may charge fees for these programs as provided in section 3110. The department shall transmit fees collected under this section to the state treasurer for deposit into the operator training and certification fund created in section 3134.

Popular name: Act 451

Popular name: NREPA

Administrative rules: R 299.2901 et seq. and R 299.2903 et seq. of the Michigan Administrative Code.

324.4105 Sewerage systems; plans and specifications; rules; permit for construction; minor modifications; misdemeanor.

Sec. 4105. (1) The mayor of each city, the president of each village, the township supervisor of each township, the responsible executive officer of a governmental agency, and all other persons operating sewerage systems in this state shall file with the department a true copy of the plans and specifications of the entire sewerage system owned or operated by that person, including any filtration or other purification plant or treatment works as may be operated in connection with the sewerage system, and also plans and specifications of all alterations, additions, or improvements to the systems that may be made. The plans and specifications shall, in addition to all other requirements, show all the sources through or from which water is or may be at any time pumped or otherwise permitted to enter into the sewerage system, and the drain, watercourse, river, or lake into which sewage is to be discharged. The plans and specifications shall be certified by the mayor of a city, the president of a village, a responsible member of a partnership, an individual owner, or the proper officer of any other person that operates the sewerage system, as well as by the engineer, if any are employed by any such operator. The department may promulgate and enforce rules regarding the preparation and submission of plans and specifications and for the issuance and period of validity of construction permits for the work.

(2) A person shall not construct a sewerage system or any filtration or other purification plant or treatment works in connection with a sewerage system except as authorized by a construction permit issued by the department pursuant to part 13. An application for a permit shall be submitted by the mayor of a city, the president of a village, a responsible member of a partnership, an individual owner, or the proper officer of any other person proposing the construction. If eligible, a person may request an expedited review of an application for a construction permit under section 4112. An application for a permit shall include plans and specifications as described in subsection (1). If considered appropriate by the department, the department may issue a permit with conditions to correct minor design problems.

(3) The department may verbally approve minor modifications of a construction permit issued by the department as a result of unforeseen site conditions that become apparent during construction. Minor modifications include, but are not limited to, a minor change of location of the sewer or location of manholes. The person making the request for a modification shall provide to the department all relevant information pursuant to R 299.2931 to R 299.2945 of the Michigan administrative code and the application form provided by the department related to the requested modification. Written approval from the department shall be obtained for all modifications except when the department provides verbal approval for a minor modification as provided for in this subsection. The person receiving a written or verbal approval from the department shall submit revised plans or specifications to the department within 10 days from the date of approval.

(4) If a person seeks confirmation of the department's verbal approval of a minor modification under subsection (3), the person shall notify the department electronically, at an address specified by the department, with a detailed description of the request for the modification. The department shall make reasonable efforts to respond within 2 business days, confirming whether the request has been approved or not approved. If the department has not responded within 2 business days after the department receives the detailed description, the verbal approval shall be considered confirmed.

(5) A municipal officer or an officer or agent of a person who permits or allows construction to proceed on a sewerage works without a valid permit, or in a manner not in accordance with the plans and specifications approved by the department, is guilty of a misdemeanor punishable by a fine of not more than $500.00 or imprisonment for not more than 90 days, or both.

History: 1994, Act 451, Eff. Mar. 30, 1995;—Am. 2004, Act 325, Imd. Eff. Sept. 10, 2004;—Am. 2006, Act 602, Imd. Eff. Jan. 3, 2007.

Popular name: NREPA

Administrative rules: R 299.2901 et seq. of the Michigan Administrative Code.

324.4106 Sewage treatment works; reports; false statement; penalty.

Sec. 4106. (1) A person who operates a sewage treatment works shall file with the department reports under oath as required by the department. The reports shall be sworn to by a responsible officer or person acquainted with the facts and employed by the person required to report under this part.

(2) A person making a false statement in a report under subsection (1) is guilty of perjury and subject to the penalty for that offense.

History: 1994, Act 451, Eff. Mar. 30, 1995.

Popular name: Act 451

Popular name: NREPA

324.4107 Inspection of plans and specifications; inspection of sewerage systems; recommendations or orders; compliance.

Sec. 4107. (1) The department on receipt of plans and specifications for a sewerage system shall inspect them with reference to their adequacy to protect the public health, and if the public water supply of the city or village is impure and dangerous to individuals or to the public generally, he or she shall inspect the sewerage systems or any parts of the sewerage system and the manner of its operation. If upon inspection the department finds the plans and specifications or the sewerage systems are inadequate or operated in a manner that does not adequately protect the public health, he or she may order the person owning or operating the sewerage system to make alterations in the plans and specifications or in the sewerage systems or the method of operation of the sewerage system as may be required or advisable in his or her opinion, in order that the sewage is not potentially prejudicial to the public health.

(2) The recommendations or orders of the department shall be served in writing upon the owner or operator of the sewerage system and the owner and operator shall comply with the recommendations or orders.

History: 1994, Act 451, Eff. Mar. 30, 1995.

Popular name: Act 451

Popular name: NREPA

324.4108 Sewerage system; planning, construction and operation; cooperation; compliance; "private, investor-owned wastewater utility" defined.

Sec. 4108. (1) The department shall exercise due care to see that sewerage systems are properly planned, constructed, and operated to prevent unlawful pollution of the streams, lakes, and other water resources of the state. The department shall cooperate with appropriate federal or state agencies in the determination of grants of assistance for the preparation of plans or for the construction of waterworks systems, sewerage systems, or waste treatment projects, or both.

(2) The activities of a private, investor-owned wastewater utility shall comply with all applicable provisions of this act, local zoning and other ordinances, and the construction and operation requirements of the federal water pollution control act and the national environmental policy act of 1969, 42 USC 4321, 4331 to 4335, and 4341 to 4347.

(3) As used in this section, "private, investor-owned wastewater utility" means a utility that delivers wastewater treatment services through a sewerage system and the physical assets of which are wholly owned by an individual or group of individual shareholders.

History: 1994, Act 451, Eff. Mar. 30, 1995;—2005, Act 191, Imd. Eff. Nov. 7, 2005.

324.4109 Engineers and other assistants; employment.

Sec. 4109. The department may employ engineers and other assistants as may be necessary to administer this part.

History: 1994, Act 451, Eff. Mar. 30, 1995.

Popular name: Act 451

Popular name: NREPA

324.4110 Commencement of civil action by attorney general; jurisdiction; additional relief; violation as misdemeanor; penalty; appearance ticket; enforcement; "minor offense" defined.

Sec. 4110. (1) The department may request that the attorney general commence a civil action for appropriate relief, including a permanent or temporary injunction, for a violation of this part or a provision of a permit or order issued under this part or a rule promulgated under this part. An action under this subsection may be brought in the circuit court for the county of Ingham or for the county in which the defendant is located, resides, or is doing business. The court has jurisdiction to restrain the violation and to require compliance.

(2) In addition to any other relief granted under subsection (1), a person who violates this part is subject to the following:

(a) If the person fails to obtain a permit required under this part, the court shall impose a civil fine of not less than $1,500.00 or greater than $2,500.00 for the first violation, not less than $2,500.00 or greater than $10,000.00 for the second violation, and not less than $10,000.00 or greater than $25,000.00 for each

subsequent violation.

(b) If the person violates this part or a provision of a permit or order issued under this part or rule promulgated under this part other than by failure to obtain a permit, the court shall impose a civil fine of not less than $500.00 or greater than $2,500.00 for the first violation, not less than $1,000.00 or greater than $5,000.00 for the second violation, and not less than $2,500.00 or greater than $10,000.00 for each subsequent violation. For the purposes of this subdivision, all violations of a specific construction permit are treated as a single violation.

(3) Subject to section 4105(5), a person who violates this part or a written order of the department is guilty of a misdemeanor punishable by imprisonment for not more than 90 days or a fine of not more than $500.00, or both, and payment of the costs of prosecution.

(4) A law enforcement officer may issue and serve an appearance ticket upon a person for a minor offense pursuant to sections 9c to 9g of chapter IV of the code of criminal procedure, 1927 PA 175, MCL 764.9c to 764.9g.

(5) The attorney general shall enforce this part.

(6) As used in this section, "minor offense" means a violation of a permit issued under this part that does not functionally impair the operation or capacity of a sewerage system.

History: 1994, Act 451, Eff. Mar. 30, 1995;—Am. 2006, Act 602, Imd. Eff. Jan. 3, 2007.

324.4111 Actions brought by department.

Sec. 4111. The department may bring an appropriate action in the name of the people of this state as may be necessary to carry out this part and to enforce any and all laws, rules, and regulations relating to this part.

History: 1994, Act 451, Eff. Mar. 30, 1995.

Popular name: Act 451

Popular name: NREPA

324.4112 Expedited review process for certain projects.

Sec. 4112. (1) Subject to subsection (2), the following projects are eligible for expedited review:

(a) A conventional gravity sewer extension of 10,000 feet or less of sewer line.

(b) A simple pumping station and force main.

(c) A small diameter pressure sewer and grinder pumping station.

(2) An expedited review must not be conducted for a project that is being funded by the state water pollution control revolving fund created in section 16a of the shared credit rating act, 1985 PA 227, MCL 141.1066a.

(3) To obtain an expedited review, a person shall do all of the following before October 1, 2027:

(a) At least 10 business days before submitting an application under subdivision (b), notify the department electronically, in accordance with instructions provided on the department's website, of the person's intent to request expedited review. The department may waive this 10-day notification requirement.

(b) Submit electronically a complete application for a construction permit including a request for expedited review and credit card payment of the appropriate fee under subsection (4).

(c) Provide a written copy of the construction plans and specifications for the project that is prepared, signed, and sealed by a licensed professional engineer to the department postmarked not later than the date that the application is submitted electronically.

(d) For nongovernmental entities, provide certification to the department that all necessary contractual service agreements and financial plans are in place.

(4) Except as provided in subsection (6), the fee for an expedited review is as follows:

(a) For a conventional gravity sewer extension less than 2,000 feet, $1,000.00.

(b) For a conventional gravity sewer extension equal to or greater than 2,000 feet but less than 4,000 feet of sewer line, $1,500.00, and for each incremental increase of up to 2,000 feet of sewer line, an additional $500.00.

(c) For a simple pumping station and force main, $2,000.00.

(d) For a small diameter pressure sewer and grinder pumping station consisting of not more than 2,000 feet of sewer line and not more than 10 grinder pumping stations, $2,000.00.

(e) For small diameter pressure sewer and grinder pumping station projects not covered by subdivision (d) and consisting of not more than 5,000 feet of sewer line and not more than 25 grinder pumping stations, $4,000.00.

(5) Except as provided in subsection (7), if an applicant does not comply with subsection (3), the department shall not conduct an expedited review and any submitted fee shall not be refunded. Within 10 business days after receipt of the application, the department shall notify the applicant of the reasons why the department's review of the application will not be expedited. On receipt of this notification, a person may correct the deficiencies and resubmit an application and request for an expedited review with the appropriate fee specified under subsection (6). The department shall not reject a resubmitted application and request for expedited review solely because of deficiencies that the department failed to fully identify in the original application.

(6) For a second submission of an application that originally failed to meet the requirements specified in subsection (3), the applicant shall instead include a fee equal to 10% of the fee specified in subsection (4). However, if the deficiency included failure to pay the appropriate fee, the second submission must include the balance of the appropriate fee plus either 10% of the appropriate fee or, if the applicant makes additional changes other than those items identified by the department as being deficient, an additional fee equal to the fee specified in subsection (4). For the third and each subsequent submittal of an application that failed to meet the requirements specified in subsection (3), the applicant shall include an additional fee equal to the fee specified in subsection (4).

(7) If an applicant fails to sign the application, submits construction plans and specifications that have not been prepared, signed, and sealed by a licensed professional engineer, or does not submit the required fee, the department shall notify the applicant of the deficiency within 5 business days after receiving the application. The application must not be processed until the deficient items are addressed. If the applicant does not provide the deficient items within 5 business days after notification by the department, the application must be handled as provided in subsection (5).

(8) The department shall review and make a decision on complete applications submitted with a request for expedited review within 10 business days after receipt by the department of a complete application. However, if the department waives the notification requirement of subsection (3)(a), the department shall review and make a decision on the application within 20 business days after receipt of a complete application.

(9) If the department fails to meet the deadline specified in subsection (8), both of the following apply:

(a) The department shall continue to expedite the application review process for the application.

(b) The fee required under this section for an expedited review must be refunded.

(10) The department shall transmit fees collected under this section to the state treasurer for deposit into the fund.

(11) As used in this section, "complete application" means a department-provided application form that is completed, for which all requested information has been provided, and that can be processed without additional information.

324.4113 Infrastructure construction fund.

Sec. 4113. (1) The infrastructure construction fund is created within the state treasury.

(2) The state treasurer may receive money or other assets from any source for deposit into the fund. The state treasurer shall direct the investment of the fund. The state treasurer shall credit to the fund interest and earnings from fund investments.

(3) Money in the fund at the close of the fiscal year shall remain in the fund and shall not lapse to the general fund. The department shall be the administrator of the fund for auditing purposes.

(4) The department shall expend money from the fund, upon appropriation, only to administer this part and the safe drinking water act, 1976 PA 399, MCL 325.1001 to 325.1023, including all of the following:

(a) Maintenance of program data.

(b) Development of program-related databases and software.

(c) Compliance assistance, education, and training directly related to this part and the safe drinking water act, 1976 PA 399, MCL 325.1001 to 325.1023.

(d) Program administration activities.

PART 43

WATERWORKS SYSTEMS, SEWERS, AND DISPOSAL PLANTS

324.4301 Waterworks systems, sewers, and disposal plants; acquisition, construction, equipping, operation, and maintenance; acquisition of land; powers of local units of government.

Sec. 4301. A local unit of government in this state, either individually or jointly by agreement with another local unit of government, may own, acquire, construct, equip, operate, and maintain, either within or outside of the statutory or corporate limits of the local unit or units of government, intercepting sewers, other sanitary and storm sewers, pumping stations, and a plant or plants for the treatment, processing, purification, and disposal in a sanitary manner approved by the department, of the liquid and solid wastes, refuse, sewage and night soil, storm water, and garbage of the local unit or units of government. A local unit of government, either individually or jointly by agreement with another local unit of government, may own, acquire, construct, equip, operate, and maintain either within or outside of the statutory or corporate limits of the local unit or units of government waterworks systems approved by the department of public health, including such facilities as water mains, treatment works, source facilities, pumping stations, reservoirs, storage tanks, and other appurtenances for the purpose of obtaining, treating, and delivering pure and wholesome water in adequate quantity to the local unit or units of government. They may acquire by gift, grant, purchase, or condemnation necessary lands either within or outside of the statutory or corporate limits of the local unit or units of government. However, a township shall not condemn land outside its corporate limits. For the purpose of acquiring property for the uses described in this part, the local unit of government has all the rights, powers, and privileges granted to public corporations under Act No. 149 of the Public Acts of 1911, being sections 213.21 to 213.25 of the Michigan Compiled Laws. These powers are in addition to any powers granted to the local unit of government by statute or charter.

History: 1994, Act 451, Eff. Mar. 30, 1995.

Compiler's note: For transfer of authority, powers, duties, functions, and responsibilities of the Surface Water Quality Division to the Director of the Michigan Department of Environmental Quality, see E.R.O. No. 1995-16, compiled at MCL 324.99901 of the Michigan Compiled Laws.

Popular name: Act 451

Popular name: NREPA

324.4302 Waterworks systems, sewers, and disposal plants; mortgage bonds.

Sec. 4302. (1) The waterworks system, intercepting sewers, pumping stations, sewage disposal plant and system, transfer station, and garbage and refuse processing or disposal plant and system, are public utilities within the meaning of any constitutional or statutory provisions for the purpose of acquiring, purchasing, owning, operating, constructing, equipping, and maintaining the waterworks system, intercepting sewers, pumping stations, sewage disposal plant and system, transfer station, and garbage and refuse processing or disposal plant and system. A local unit of government may issue full faith and credit bonds or mortgage bonds for the purposes described in this part beyond the general limits of the bonded indebtedness prescribed by law except as provided in this section. The mortgage bonds as provided in this section shall not impose any general liability upon the local unit of government but shall be secured only on the property and revenues of the utility as provided in this section, including a franchise, stating the terms upon which the purchaser may operate the utility in case of foreclosure. The franchise shall not extend for a longer period than 20 years from the date of the sale on foreclosure. The total amount of mortgage bonds shall not exceed 60% of the original cost of the utility except as provided in this section. Bonds shall not be issued as general obligations of the local unit of government except upon a 3/5 affirmative vote of the qualified electors of the local unit of government and except as provided in this section, not in excess of 3% of the assessed valuation of the real and personal property of the local unit of government as shown by the last preceding tax roll. Bonds shall not be issued as full faith and credit bonds or mortgage bonds of the utility except upon a 3/5 affirmative vote of the legislative body of the local unit of government.

(2) Revenue bonds issued under this section are subject to the revenue bond act of 1933, 1933 PA 94, MCL 141.101 to 141.140.

(3) Except for revenue bonds described in subsection (2), all other bonds and notes issued under this section are subject to the revised municipal finance act, 2001 PA 34, MCL 141.2101 to 141.2821.

History: 1994, Act 451, Eff. Mar. 30, 1995;—Am. 2002, Act 327, Imd. Eff. May 23, 2002.

Popular name: Act 451

Popular name: NREPA

324.4303 Waterworks systems, sewers, and disposal plants; supervision and control by local units of government; rules; establishment, certification, and assessment of rates or charges.

Sec. 4303. The legislative body of a local unit of government or the respective legislative bodies of the local units of government who have agreed to jointly own and operate waterworks systems, intercepting sewers, or sewage treatment plants, may create a separate board or may designate certain officials of the local unit or units of government to have the supervision and control of the waterworks systems, intercepting sewers, transfer stations, or sewage and refuse and garbage processing or disposal plants. The legislative body, respective legislative bodies, or the board may make all necessary rules governing the use, operation, and control of the facilities and systems. The legislative body or respective legislative bodies may establish just and equitable rates or charges to be paid to them for the use of the waterworks system or disposal or processing plant and system by each person whose premises are served, and the rates or charges may be certified to the tax assessor and assessed against the premises served and collected or returned in the same manner as other county or municipal taxes are certified, assessed, collected, and returned.

History: 1994, Act 451, Eff. Mar. 30, 1995.

Popular name: Act 451

Popular name: NREPA

324.4304 Mortgage bonds; manner of payment; sinking fund.

Sec. 4304. Bonds that are issued and secured by a mortgage on the utility as provided in this part shall not be a general obligation of the local unit of government, but shall be paid only out of revenues received from the service charges as provided in section 4303 or from a sale of the property and franchises under a foreclosure of the mortgage. If a service rate is charged, a sufficient portion shall be set aside as a sinking fund for the payment of the interest on the bonds and the principal of the bonds at maturity.

History: 1994, Act 451, Eff. Mar. 30, 1995.

Popular name: Act 451

Popular name: NREPA

324.4305 Sewers and disposal plants; granting franchise to private corporation.

Sec. 4305. Instead of owning and operating a sewer system and sewage disposal plant, transfer station, garbage or refuse collection, processing, and disposal plant or system as provided in section 4301, a local unit of government may grant a franchise for a period not to exceed 30 years to a private corporation organized under, or authorized by, the laws of this state to engage in such business, to build, construct, own, and operate a sewage or garbage and refuse processing or disposal system for the purpose of receiving and treating sewage and night soil, refuse, and garbage from the local unit or units of government. The franchise may authorize the corporation to charge each person owning property, from which the sewage, refuse, or garbage is received, a fee determined to be reasonable by the public service commission of this state, upon proper application made either by the corporation or local unit or units of government, and after holding a public hearing. The franchise may also grant to the corporation the right and privilege to provide collection services and to lay all intercepting and other sewers and connecting pipes in the streets and public alleys of the local unit or units of government as are necessary to receive, transfer, and conduct the sewage, garbage, or refuse to the processing or disposal plant and under reasonable rules, regulations, and supervision as are established by the local unit or units of government. The franchise is void unless approved by 3/5 of the electors of the local unit or units of government voting at a general or special election. This franchise shall not duplicate existing private solid waste management services or facilities that have been developed under part 115.

History: 1994, Act 451, Eff. Mar. 30, 1995.

Popular name: Act 451

Popular name: NREPA

324.4306 Contract to receive, treat, transfer, and process sewage, night soil, garbage, and refuse; charges.

Sec. 4306. The local unit or units of government may enter into a contract with a person to receive, treat, transfer, and process in the manner provided in this part, the sewage, night soil, garbage, and refuse of the local unit or units of government. The contract may authorize the person to charge the owners of the premises served a service rate determined by the local unit or units of government to be just and reasonable, or the local unit or units of government may contract to pay a flat rate for the service, paid out of their general fund or funds, or assess the owners of the property served a reasonable charge to be collected as provided in this part

and paid into a fund to be used to defray the contract charges.

History: 1994, Act 451, Eff. Mar. 30, 1995.

Popular name: Act 451

Popular name: NREPA

324.4307 Sewage system, solid waste facility, or waterworks system; bonds generally.

Sec. 4307. (1) In accordance with and to the extent authorized by law, when the department, the department of public health, or a court of competent jurisdiction in this state has ordered, or when the department has issued a permit for, the installation, construction, alteration, improvement, or operation of a sewage system, solid waste facility, or waterworks system in a local unit of government, and the plans for the facility or system have been prepared and approved by the state department or commission having the authority by law to grant the approval, the legislative body or the respective legislative bodies of the local unit or units of government may issue and sell the necessary bonds for the construction, installation, alteration, operation, or improvement, including the treatment works, and other facilities as may be ordered or set forth in the permit as being necessary to provide for the effective operation of the system. This provision shall be construed to allow a local unit of government the option of selling bonds under a department order or permit, or of taking or permitting the matter to go into court and selling bonds under a court order. The legislative body or the respective legislative bodies shall determine the denomination of the bonds and the date, time, and manner of payment. The amount of the bonds either issued or outstanding shall not be included in the amount of bonds that the local unit or units of government are authorized to issue under any statutes of this state or charters. Local units of government issuing bonds under this section may raise a sum annually by taxation as the legislative body or respective legislative bodies consider necessary to pay interest on the bonds, and to pay the principal as it falls due. The annual amount may be in excess of the authorized annual tax rate fixed by statute or charter.

(2) Except as otherwise provided in this part, all bonds issued under this section are subject to the revised municipal finance act, 2001 PA 34, MCL 141.2101 to 141.2821. Court ordered bonds do not require approval of the electors and are not subject to section 5(g) of the home rule city act, 1909 PA 279, MCL 117.5, as to publication of notice, petition, and referendum. Bonds other than court ordered bonds issued under this part require approval of the electors at a general or special election only if an appropriate petition is filed as provided by law.

324.4308 Waterworks systems, sewers, or disposal systems; court order; plans and specifications; authorization and issuance of bonds.

Sec. 4308. If an order is made by a court of competent jurisdiction pursuant to this part, the fact that the order was issued shall be recited in the official minutes of the legislative body or the respective legislative bodies. The body or bodies shall require that plans and specifications be prepared for a waterworks, sewage, garbage, or refuse transfer, processing, or disposal system, including the necessary other facilities. After the plans are approved by the legislative body or respective legislative bodies, they shall be submitted to the department of public health or the department for approval. If the plans are approved, the legislative body or respective legislative bodies shall authorize the issuance and sale of the necessary bonds to construct the proposed system or facilities in accordance with the approved plans.

PART 45

BONDS FOR PREVENTION AND ABATEMENT OF WATER POLLUTION

324.4501 “Municipality” defined.

Sec. 4501. The term "municipality" or "municipalities" as used in this part means and includes a county, city, village, township, school district, metropolitan district, port district, drainage district, authority, or other governmental authority, agency, or department within or of the state with power to acquire, construct, improve, or operate facilities for the prevention or abatement of water pollution, or any combination of such governmental agencies.

History: Add. 1995, Act 60, Imd. Eff. May 24, 1995.

Popular name: Act 451

Popular name: NREPA

324.4502 Legislative determinations.

Sec. 4502. The legislature hereby determines all of the following:

(a) That it is essential for the public health, safety, and welfare of the state and the residents of the state to undertake a complete program of construction of facilities to abate and prevent pollution of the water in and adjoining the state, the program to be undertaken by the state in cooperation with any municipalities and with such aid from the United States government or its agencies as is available.

(b) That abating and preventing pollution of the water in and adjoining the state is essential to the encouragement of business, industrial, agricultural, and recreational activities within the state.

(c) That the encouragement of business, industrial, agricultural, and recreational activities in the state by abating and preventing pollution of the water in and adjoining the state will benefit the economy of the state by encouraging businesses and industries to locate or expand within the state in order to provide more employment within the state.

(d) That abating and preventing pollution of the water in and adjoining the state is in furtherance of the purpose and the public policy of the state as expressed in sections 51 and 52 of article IV of the state constitution of 1963 and to carry out the remaining unfunded portions of the program for which electors of the state authorized the issuance of general obligation bonds.

History: Add. 1995, Act 60, Imd. Eff. May 24, 1995.

Popular name: Act 451

Popular name: NREPA

324.4503 Bond issuance; authorization; amount; purpose.

Sec. 4503. The state shall borrow the sum of $335,000,000.00 and issue the general obligation bonds of the state, pledging the faith and credit of the state for the payment of the principal and interest on the bonds, for the purpose of providing money for the planning, acquisition, and construction of facilities for the prevention and abatement of water pollution, consisting of trunk and interceptor sewers, sewage treatment plants and facilities, improvements and additions to existing sewage treatment plants and facilities, and such other structures, devices, or facilities as will prevent or abate water pollution, and for the making of grants, loans, and advances to municipalities, in accordance with conditions, methods, and procedures established by law.

History: Add. 1995, Act 60, Imd. Eff. May 24, 1995.

Popular name: Act 451

Popular name: NREPA

324.4504 Bonds; issuance in series; resolution of administrative board; sale of bonds.

Sec. 4504. (1) The bonds shall be issued in 1 or more series, each series to be in the principal amount, to be dated, to have the maturities that may be either serial, term, or term and serial, to bear interest at a rate or rates not to exceed 6% per annum if issued before September 19, 1982 and not to exceed 18% per annum if issued on or after September 19, 1982, to be subject or not subject to prior redemption and, if subject to prior redemption with call premiums, to be payable at a place or places, to have or not have the provisions for registration as to principal only or as to both principal and interest, and to be in the form and to be executed in the manner as determined by resolution to be adopted by the administrative board. The administrative board may in the resolution provide for the investment and reinvestment of bond sales proceeds and any other details for the bonds and the security of the bonds considered necessary and advisable. The bonds or any series of the bonds shall be sold for not less than the par value of the bonds and may be sold, as authorized by the state administrative board, either at a public sale or at a publicly negotiated sale.

(2) Bonds issued under this part are not subject to the revised municipal finance act, 2001 PA 34, MCL 141.2101 to 141.2821.

(3) The issuance of bonds under this part is subject to the agency financing reporting act.

History: Add. 1995, Act 60, Imd. Eff. May 24, 1995;—Am. 2002, Act 248, Imd. Eff. Apr. 30, 2002.

PART 47

SEWAGE DISPOSAL AND WATER SUPPLY DISTRICTS

324.4701 Definitions.

Sec. 4701. As used in this part:

(a) "Due notice" means notice published at least twice, with an interval of at least 7 days between the 2 publication dates, in a newspaper or other publication of general circulation within the appropriate area or, if a publication of general circulation is not available, by posting at a reasonable number of conspicuous places within the appropriate area. Posting shall include, if possible, posting at public places where it may be customary to post notices concerning county or municipal affairs. At any hearing held pursuant to the notice

and at the time and place designated in the notice, adjournment may be made without renewing the notice for an adjournment date.

(b) "Municipality" includes a metropolitan district, a water or sewer authority created by law, or a county, township, charter township, incorporated city, or incorporated village. An incorporated village, for the purposes of this part, is a governmental unit separate and distinct from the township or townships in which it is located.

(c) "Sewage disposal systems" includes all interceptor sewers, storm sewers, sanitary sewers, combined sanitary and storm sewers, sewage treatment plants, and all other plants, works, instrumentalities, and properties used or useful in connection with the collection, treatment, and disposal of sewage and industrial wastes.

(d) "United States or agencies of the United States" includes the United States of America or any bureau, department, agency, or instrumentality of the United States or otherwise created by the congress of the United States.

(e) "Water supply and sewage disposal district" means a governmental subdivision of this state and a public body corporate and politic organized in accordance with this part for the purpose, with the powers, and subject to the restrictions in this part.

(f) "Water supply system" includes all plants, work, instrumentalities, and properties used or useful in connection with obtaining a water supply, the treatment of water, and the distribution of water.

History: 1994, Act 451, Eff. Mar. 30, 1995.

Popular name: Act 451

Popular name: NREPA

324.4702 Department of natural resources; powers and duties.

Sec. 4702. The department under this part has all of the following powers and duties:

(a) To foster and encourage the organization of sewage disposal and water supply districts, to act as the administrative agency in the proceedings incident to the formation of districts, and to offer and lend appropriate assistance to the directors of districts organized as provided in this part in the carrying out of any of their powers, functions, and programs.

(b) To cooperate, negotiate, and enter into contracts with the other governments, governmental units and agencies in matters concerning water supply systems and sewage disposal systems; to take steps and perform acts and execute documents as may be necessary to take advantage of any act enacted by the congress of the United States that may make available funds for any of the purposes enumerated in this part or be otherwise of assistance in carrying out the purposes of this part; to disburse money that may be appropriated by the legislature for the use and benefit of the districts created under this part or municipalities or local units of government of this state in accordance with the formula prescribed in this part or in the acts of appropriation; and to disburse money that may be received by this state from the United States government for the purposes provided for in this part in accordance with the formula set forth by applicable acts of congress.

(c) To act as the fiscal agent for this state for the purpose of making available to local units of government and the districts as may be organized under this part money or instruments of indebtedness that may be approved by the legislature or the people of this state for the construction and operation of sewage disposal systems by local units of government or districts.

(d) To coordinate its duties and functions with similar or related duties and functions that are performed by other state agencies or governmental units to coordinate and cooperate efforts to accomplish the purposes of this part.

324.4703 Sewage disposal and water supply districts; joint municipal action to form district; filing, contents, and consolidation of petition.

Sec. 4703. (1) Two or more municipalities, by resolution of their legislative bodies, may file a petition with the department requesting that a sewage disposal district or a water supply district or a combination of both be organized to function in the area described in the petition. The petition shall set forth all of the following:

(a) The proposed name of the district.

(b) That there is need in the interests of public health and welfare for the district to function in the area described in the petition.

(c) A description of the area proposed to be organized as a district. The description is not required to be given by metes and bounds or by legal subdivision, but is sufficient if the description is generally accurate and

designates the local units of governments comprised within the proposed district. The territory shall include only area within the boundaries of the petitioning municipality.

(d) A request that a referendum be held within the defined territory on the question of creation of the district in the territory, and that the agency create the requested district.

(2) When more than 1 petition is filed covering a portion of the same territory, the agency may consolidate all or any of the petitions.

Popular name: Act 451

Popular name: NREPA

324.4704 Sewage disposal and water supply districts; petition; hearing; notice; adjournment; determination as to territory affected.

Sec. 4704. Within 30 days after a petition is filed with the department, or later if authorized by the department, but not to exceed 90 days, the department shall cause due notice to be given of a hearing upon the question of the desirability and necessity in the interests of public health and welfare of the creation of the district, upon the question of appropriate boundaries to be assigned to the district, upon the propriety of the petition and of the proceedings taken under this part, and upon all other questions relative to this matter. All interested parties have the right to attend the hearings and be heard. Due notice of the time and place of holding the hearing shall be given to all of the executive officials of the municipalities included within the involved territory. If it appears upon the hearing that it is desirable to include within the proposed district territory outside of the area within which due notice has been given, or if it is made to appear that more data or information is needed, the hearing shall be publicly adjourned and due notice of further hearing shall be given throughout the entire area considered for inclusion in the district and a further hearing held. The department shall cooperate to the fullest extent possible with the local units of government included within the territorial limits of the proposed district in the making of the necessary investigations and engineering and financial studies that may be required for the proper decisions to be made by the department upon the conclusion of the hearing. After the hearing, if the department determines upon the facts presented and upon other relevant facts and information as may be available to it that there is need in the interests of public health and welfare for a sewage disposal or water supply district, or both, to be created and to function in the territory considered at the hearing, it shall make and record this determination and shall define the boundaries of the districts by the territorial limits of municipalities included within the district or by metes and bounds. In making the determination and in defining the boundaries, the department may give due weight and consideration to the physical and topographical conditions of the area considered, availability or nonavailability of water resources, engineering and economic feasibility of the construction and management of the works required, and all other relevant and pertinent facts that may be brought to its attention or of which it may have knowledge. Such additional territory shall not be included without the approval by resolution of the legislative body of any municipality affected, including the original petitioners.

History: 1994, Act 451, Eff. Mar. 30, 1995.

Popular name: Act 451

Popular name: NREPA

324.4705 Sewage disposal and water supply districts; hearing; determination of no necessity; record; determination of necessity; referendum; rules; creation of authority; application; petitions to include additional territory; legal status of district; certificate.

Sec. 4705. (1) If the department determines after the hearing that there is no need for a district to be formed in the territory considered at the hearing and that the operation of the district within the defined boundaries is not practicable and feasible from the standpoint of engineering, administration, and financing, the department shall make and record the determination and shall deny any petition filed with it.

(2) If the department has made and recorded a determination that in the interests of public health and welfare there is a need for the formation, organization, and functioning of a district in a particular territory and has defined the boundaries of the district, it shall consider the question of whether the operation of that district within the boundaries with the powers conferred upon districts in this part is desired by a majority of the electors within the boundaries of the district. To assist the department in the determination of this question, it is the duty of the department, within a reasonable time of entry of the finding that there is need for the organization of the proposed district and the determination of the boundaries of the district, to order a referendum within the proposed district upon the proposition of the creation of the district and to order the municipalities affected to cause due notice of the referendum to be given. The department shall direct the

officials in charge of the holding of elections in the local units of government included within the district to call a special election or to place the referendum on the ballot at the next general election to be held in all of the territory comprising the district. The question shall be submitted by ballots prepared by the department that shall succinctly describe the district proposed to be formed, the area in which it shall function, and in appropriate language require those voting on the proposition to vote for or against the creation of the district, in accordance with the requirements of law for the holding of referendums on state questions. Municipalities affected are responsible for the costs of the preparation of the ballots. Only electors who have property assessed for taxes within the boundaries of the district are eligible to vote in the referendum. Upon the completion of the referendum, the department shall publish the result of the referendum.

(3) The department shall pay all expenses for the issuance of the notice and the conduct of the hearings described in this section and shall supervise the conduct of the hearings. The referendum shall be held by the regular established election officials and any costs shall be borne by the affected municipalities. The department shall promulgate rules governing the conduct of the hearings.

(4) If the results of the referendum described in subsection (3) call for the formation of the proposed district, the department shall call a conference of all the officials of all of the municipalities within the boundaries of the proposed district and the department shall make every effort to encourage the municipalities to incorporate an authority for the purpose of constructing and operating a sewage disposal system or water supply system under the terms and authority vested in the municipalities pursuant to law. If after the expiration of 180 days from the holding of the conference or within an additional period as the department may consider necessary, the municipalities have not created an authority as provided in this part, the department shall make, file, and publish as provided in this part a determination creating the district as contained in the application and as approved by the referendum.

(5) Upon the making and filing of the determination as described in subsection (4), due notice shall be served and published and the department shall appoint 5 directors who, for the purpose of this part, are electors within the territory comprising the district and who shall comprise a temporary governing body of the district. The members of the temporary governing body shall hold office until the officers of the first permanent governing body have been elected and qualified.

(6) The district shall be a governmental subdivision of this state and a public body corporate when the appointed directors present to the secretary of state an application signed by them that sets forth all of the following:

(a) That a petition for the creation of the district was filed with the department pursuant to this part, that the proceedings specified in this part were taken, that the application is being filed in order to complete the organization of the district as a governmental subdivision and a public body corporate under this part, and that the applicants are the temporary directors of the district.

(b) The name and official residence of each of the directors together with a certification of their appointment.

(c) The name which is proposed for the district.

(d) The location of the present office that has been selected for the district by the directors.

(7) The application shall be subscribed and sworn to by at least a majority of the directors before an officer authorized by the laws of the state to administer oaths. The officer shall certify upon the application that he or she personally knows the directors and that each has subscribed thereto in the officer's presence. The application shall be accompanied by a certified statement made by the department that a petition was filed, notice issued, and hearing held as required in this part; that the department determined that there is need in the interests of the public health and welfare for a district to function in the proposed territory; that the boundaries are defined; that notice was given and referendum held in the question of creation of the district; that the result of the referendum showed a majority of the votes cast in the referendum to be in favor of the creation of such a district; and that the department did determine that the operation of the proposed district is administratively practicable and feasible. In addition, the statement shall set forth the boundaries of the district.

(8) The secretary of state shall examine the application and statement and, if he or she finds that the name proposed for the district is not identical with any similar district of this state or so nearly identical as to lead to confusion or uncertainty, the secretary of state shall receive and file the application and statement and shall record them in an appropriate book of record in the office of the secretary of state. When the application and statement have been made, filed, and recorded as provided in this section, the district shall constitute a governmental subdivision of this state and a public body corporate. The secretary of state shall make and issue to the directors a certificate under the seal of the state of the due organization of the district and shall record such certificate with the application and statement.

(9) Petitions for including additional territory within a district may be filed with the department and the

proceedings provided for in this part or petitions to organize a district shall be observed in the case of petitions for inclusion. The department shall prescribe the form for the petitions, which shall be as nearly as possible to the form prescribed in this part for petitions to organize a district. The petition shall be filed with the department and upon its receipt it shall be referred to the governing body of the district to be affected by the petition and if, after due consideration, the governing body determines against the inclusion of the additional territory, the petition shall be denied.

(10) In any suit, action, or proceeding involving the validity or enforcement of or relating to any contract, proceeding, or action of the district, the district shall be considered to be legally established in accordance with this part upon proof of the issuance of the certificate by the secretary of state. The certificate of the secretary of state shall be admissible in evidence in any suit, action, or proceeding described in this subsection and shall be proof of the filing and contents of the certificate.

324.4706 Permanent governing body; nomination, election, and terms of directors; certification of election; vacancy; conducting business at public meeting; notice of meeting; quorum; concurrence of majority for determination; expenses.

Sec. 4706. (1) The first permanent governing body of the district after the district has been organized and has received the secretary of state certificate described in section 4705 shall consist of 5 directors. The directors shall be nominated and elected at the next general state election in the same manner and pursuant to the election laws applicable to members of the house of representatives.

(2) Except for the first directors, the directors shall hold office for a term of 6 years. Among the first directors to be elected, the 2 receiving the highest number of votes shall hold office for the full term of 6 years and the 3 receiving the next highest number of votes shall hold office for 4 years. The secretary of state shall be responsible for the certification of the election of the directors. A vacancy shall be filled by appointment made by the remaining directors for the unexpired term.

(3) The business which the directors may perform shall be conducted at a public meeting of the directors held in compliance with the open meetings act, Act No. 267 of the Public Acts of 1976, being sections 15.261 to 15.275 of the Michigan Compiled Laws. Public notice of the time, date, and place of the meeting shall be given in the manner required by Act No. 267 of the Public Acts of 1976. A majority of the directors constitutes a quorum for the transaction of business and the concurrence of a majority of the total number of directors in a matter shall be required for the matter's determination. A director shall not receive compensation for services, but shall be reimbursed for expenses necessarily incurred in the discharge of his or her duties.

324.4707 Employment of executive secretary, technical experts, officers, agents, and employees; qualifications, duties, and compensation; delegation of powers and duties; furnishing copies of documents and other information; availability of writings to public; execution of surety bonds; records; annual audit; designation of representatives to advise and consult on questions of program and policy.

Sec. 4707. (1) The directors may employ an executive secretary, technical experts, and other officers, agents, and employees, permanent or temporary, as required, and shall determine their qualifications, duties, and compensation. The directors may delegate to the chairperson, to 1 or more directors, or to 1 or more agents or employees, powers and duties as they consider proper.

(2) The directors shall furnish to the department upon request copies of all rules, orders, contracts, forms, minutes, proceedings, and other documents that they adopt or employ and other information concerning their activities as required by the department in the performance of the department's duties under this part. A writing prepared, owned, used, in the possession of, or retained by the directors in the performance of an official function shall be made available to the public in compliance with the freedom of information act, Act No. 442 of the Public Acts of 1976, being sections 15.231 to 15.246 of the Michigan Compiled Laws.

(3) The directors shall provide for the execution of surety bonds for employees and officers entrusted with funds or property; shall provide for the keeping of a full and accurate record of their proceedings and of rules and orders promulgated or adopted; and shall provide for an annual audit of the accounts of receipts and disbursements. The directors shall request that the legislative body and executive officers of a municipality

located within the territory comprised within the district designate a representative to advise and consult with the directors of the district on questions of program and policy that may affect the property, water supply, or sewage disposal problems, or other interests of the municipality.

324.4708 Sewage disposal and water supply districts; powers.

Sec. 4708. A district organized under this part constitutes a governmental subdivision of this state and a body corporate, exercising public powers, with power to sue and to be sued in any court of this state. A district shall possess all the powers necessary to organize itself and also shall possess powers incident to the powers enumerated in this part. The district is authorized and empowered to do all of the following:

(a) Pursuant to the terms of any contract entered into under section 4709 of this part, to construct and operate sewage disposal systems and water supply systems within the area comprising its territorial limits and to acquire, extend, and improve the systems.

(b) To make and cause to be made surveys, studies, and investigations of water resources of the area within its territorial limits for the purpose of determining the feasibility and practicability of developing new sources of water supply to municipalities, industrial and commercial establishments, and agricultural and residential lands and areas so that water is available to agricultural and residential lands in a quantity and quality necessary for the protection of the public health and the promotion of the general welfare within the areas.

(c) To make and cause to be made surveys, studies, and investigations for the purpose of ascertaining the requirements of municipalities, industrial and commercial establishments, individual and collective groups, or occupants of lands for sewage disposal systems so that sewers and sewage disposal facilities are available to the entities described in this subdivision that are situated within the territorial limits of the district and that may need or require the facilities for the protection of public health and the promotion of the general welfare.

(d) To cooperate with and enter into agreements with any person as may be necessary for the full performance of its functions and duties and to acquire by purchase, exchange, lease, gift, grant, bequest, devise, or otherwise, any property, real or personal, or rights or interests in property, either within or outside of its territorial limits; to maintain, administer, and improve any acquired properties; to receive income from same and to expend the income in implementing this part and its purposes; and to sell, lease, or otherwise dispose of any of its property or interests in property to implement this part and its purposes. The district is invested with the power of eminent domain in acquiring private property for public use. For the purposes of exercising the power, the district may proceed under Act No. 149 of the Public Acts of 1911, being sections 213.21 to 213.25 of the Michigan Compiled Laws, or any other statute that grants to any municipality or public body the authority to acquire private property for public use.

(e) To accept and receive money as may be appropriated to the district by the legislature of this state.

(f) To accept and receive any funds or money which may be appropriated by any act of congress either directly from any federal governmental agency responsible for the disbursement and allocation of the funds or through the department and for that purpose the districts are authorized to execute contracts, documents, or agreements as may be required by the congressional act as a prerequisite to the securing of the funds.

Popular name: Act 451

Popular name: NREPA

324.4709 Sewage disposal and water supply districts; contracts with municipalities; construction, improvement, enlargement, extension, operation, and financing; pledge of payment; resolution; approval by electors; issuance of bonds.

Sec. 4709. (1) The district may enter into contracts with any municipality located within its territorial limits providing for the acquisition, construction, improvement, enlargement, extension, operation, and financing of a sewage disposal system or water supply system. A contract shall provide for the allocation and payment of the share of the total cost to be borne by the municipality in annual installments for a period not exceeding 40 years. Each contracting municipality may pledge its full faith and credit for the payment of the obligation in the manner and times specified in the contract. The district shall make a reasonable charge for its services that it renders to the users in order to cover the retirement of outstanding indebtedness, costs of operation, maintenance, and replacement of its plants and reserves for capital improvements. If there is excess money in the treasury of the district after all of the contingencies have been met, the excess shall be rebated to the contracting municipalities in proportion to the total amount that the municipality paid for services it has

received from the district. No limitation in any statute or charter shall prevent the levy and collection by each of the contracting municipalities of the full amount of taxes necessary for the payment of the contractual obligation. These funds may be raised by each contracting municipality by the use of 1 or more of the following methods:

(a) The levy of special assessments on property benefited by the sewage disposal system or water supply system. The procedures relative to the levying and collection of the special assessments shall conform as near as may be to applicable charter or statutory provisions.

(b) The levy and collection of rates or charges to users and beneficiaries of the service or services furnished by the sewage disposal system or water supply system.

(c) From money received, or to be received, derived from the imposition of taxes by this state, unless the money for this purpose is expressly prohibited by the state constitution of 1963.

(d) From any other fund or funds that may be validly used for the purpose. The contract may provide for any and all matters relating to the acquisition, construction, operation, and financing of the sewage disposal system or water supply system as are considered necessary, including authorization to the district to issue bonds secured by the full faith and credit pledges of the contracting municipalities, as authorized in this part. The contract may provide for appropriate remedies in case of default, including, but not limited to, the right of the municipalities to authorize the county treasurer or other official charged with the disbursement of funds derived from the state sales tax levy under the general sales tax act, 1933 PA 167, MCL 205.51 to 205.78, to withhold sufficient funds to make up any default or deficiency in funds.

(2) A municipality desiring to enter into a contract with the district under this section shall authorize, by resolution of its governing body, the execution of the contract. The resolution shall be published in 1 or more newspapers of general circulation within the municipality, and the contract may be executed without a vote of the electors upon the expiration of 30 days after the date of the publication unless, within the 30-day period, a petition signed by not less than 10% of the registered electors residing within the limits of the municipality is filed with the clerk of the municipality requesting a referendum upon the execution of the contract. If this occurs, the contract shall not be executed until approval by the vote of a majority of the electors of the municipality qualified to vote and voting at a general or special election to be held not more than 90 days after the filing of the petition. A special election called for this purpose shall not be included in any statutory or charter limitation as to the number of special elections to be called within any period of time. Signatures on any petition shall be verified by some person under oath, as the actual signatures of the persons whose names are signed on the petition, and the clerk of the municipality has the same power to reject signatures as city clerks under section 25 of the home rule city act, 1909 PA 279, MCL 117.25. The number of registered electors in a municipality is determined by the registration books as of the date of the filing of the petition.

(3) To obtain funds to acquire, construct, improve, enlarge, or extend the sewage disposal system or water supply system authorized by this part, the district, after the execution of the contract or contracts authorized by this part, upon ordinance or resolution adopted by the district, may issue its negotiable bonds secured by the full faith and credit pledges made by each contracting municipality pursuant to authorization contained in this part and the contracts entered into pursuant to this part. Except as otherwise provided in this part, bonds are subject to the revised municipal finance act, 2001 PA 34, MCL 141.2101 to 141.2821. The ordinance or resolution authorizing the issuance of the bonds shall include the terms of the contracts.

324.4710 Sewage disposal and water supply districts; contract sewage treatment; income; application.

Sec. 4710. The district may enter into a contract for the furnishing of sewage treatment services by any sewage treatment plant owned or operated by the district as a part of its sewage disposal system or the furnishing of water service from any water facilities owned or operated by the district. This contract shall provide for reasonable charges or rates for the service furnished. Any income derived from a contract described in this section shall be applied by the district to the costs of operation and maintenance of its sewage disposal system or its water supply system, and any balances remaining after payment of its cost shall be applied in reduction of its outstanding bonded indebtedness incurred for the acquisition or improvement of its sewage disposal system or water supply system. A contract shall not exceed a period of 40 years.

Popular name: NREPA

324.4711 Detachment of territory from participating municipality; contractual obligations; bonds; redemption.

Sec. 4711. If territory that is part of a district created under this part is detached from a municipality and transferred to a municipality that is not part of the district, the territory shall remain a part of the municipality from which detached only for the purpose of carrying out any contractual obligations or for the purpose of levying a tax to retire any bonded indebtedness incurred by such district for which the territory is liable until the contractual obligations are fulfilled or the bonds are redeemed or sufficient funds are available in the district's debt retirement fund for this purpose. A territory described in this section is a part of the municipality to which transferred for all other purposes and subsequent to the redemption of the bonds or the time when sufficient funds are available to redeem the bonds, the territory is no longer a part of the district.

324.4712 Existing systems; self-liquidating revenue bonds.

Sec. 4712. If the governing body of a district formed under this part acquires, extends, improves, or operates a sewage disposal system or water supply system or provides for the sale and purchase of sewage disposal service or water supply service from an existing system or systems and executes contracts that may be necessary, the authority may, pursuant to any contract entered into under section 4709, issue self-liquidating revenue bonds in accordance with the revenue bond act of 1933, Act No. 94 of the Public Acts of 1933, being sections 141.101 to 141.140 of the Michigan Compiled Laws, or any other act providing for the issuance of revenue bonds. However, these bonds are payable solely from the revenues of the sewage disposal system or the water supply system. The charges specified in any contract are subject to increase by the district at any time if necessary to provide funds to meet its obligations and any contract authorized by this part is for a period of not more than 40 years. The legislative body of any municipality that enters into a contract with the district may raise by taxes or pay from its general funds any money required to be paid under the terms of the contract to obtain maps, plans, designs, specifications, and cost estimates of the proposed sewage disposal system or water supply system.

PART 49
CONSTRUCTION OF COLLECTING SEWERS

324.4901 Definitions.

Sec. 4901. As used in this part:

(a) "Collecting sewers" means lateral, branch, submain, and trunk sewers consisting of pipes or conduits including pumps, lift stations, force mains, and other appurtenances necessary for a system to prevent or eliminate discharges of raw or inadequately treated sewage of human origin into any waters of the state. Collecting sewers do not include pipes or conduits that carry storm water, surface water, and street wash, or that convey sewage from a building to a common public sewer except that part lying within a public right-of-way; and sewers eligible for grants under Act No. 329 of the Public Acts of 1966, being sections 323.111 to 323.128 of the Michigan Compiled Laws.

(b) "Construction" means the engineering, architectural, legal, fiscal, and economic investigations and studies, surveys, designs, plans, working drawings, specifications, procedures, and other similar actions necessary to the construction of collecting sewers; the installation, erection, and building of collecting sewers; and the inspection and supervision of the construction of such sewers. Construction does not include acquisition of lands and rights-of-way.

(c) "Local agencies" means local units of government or other public bodies created by or pursuant to state law and having jurisdiction over collecting sewers.

History: 1994, Act 451, Eff. Mar. 30, 1995.

Compiler's note: For transfer of authority, powers, duties, functions, and responsibilities of the Environmental Assistance Division to the Director of the Michigan Department of Environmental Quality, see E.R.O. No. 1995-16, compiled at MCL 324.99901 of the Michigan Compiled Laws.

Popular name: Act 451

Popular name: NREPA

324.4902 State sewer construction fund; grants; funding.

Sec. 4902. Grants to local agencies shall be funded from the state sewer construction fund for collecting sewer projects in the descending order of their priority as established by the department under sections 4909 to 4912.

History: 1994, Act 451, Eff. Mar. 30, 1995.

Popular name: Act 451

Popular name: Act 451

Popular name: NREPA

324.4904 State sewer construction fund; disposition.

Sec. 4904. The proceeds of the sale of $50,000,000.00 of the bonds authorized by former Act No. 76 of the Public Acts of 1968 or part 45, or any series of the bonds, and any premiums and accrued interest received on the delivery of the bonds, shall be deposited with the state treasurer in the state sewer construction fund. Disbursements from the fund shall be made only for specific eligible collecting sewer projects approved, as provided in section 4912, by the appropriations committees and by the legislature by concurrent resolution adopted by a roll call vote of a majority of the members elected to and serving in each house. A concurrent resolution shall include all or part of the projects on the priority list of eligible projects reported to the legislature by the department as provided in section 4912, but in case of a part only it shall be the entire part containing all projects on the list having priorities higher than those of projects not included in the resolution and shall not include projects lower in the order of priority. The income from temporary investments of the proceeds shall be deposited in the general fund.

324.4905 Grants; application; amount; limitations.

Sec. 4905. (1) A local agency may apply to the department for a grant under this part.

(2) A grant shall be made in an amount equal to 1/2 that portion of the cost of construction of collecting sewers, computed upon the cost of the current year's project only, in excess of 10% of the state equalized value of all taxable property within the political boundaries of the unit of government served by the collecting sewers certified under subsection (2) of section 4906 or $1,000,000.00, whichever is less.

(3) Grants are subject to the following limitations:

(a) A grant shall not be made for collecting sewers required under the subdivision control act of 1967, Act No. 288 of the Public Acts of 1967, being sections 560.101 to 560.293 of the Michigan Compiled Laws.

(b) A grant shall not be made for collecting sewers for which a federal grant has been made if the amount of the federal grant equals or exceeds the amount of the state grant that the collecting sewers would have received if there had been no federal grant. If the amount of the federal grant made for the collecting sewers is less than the amount of the state grant that the collecting sewers would have received if there had not been a federal grant, the amount of the state grant made for the collecting sewers shall not exceed the difference between the state grant that the collecting sewers would have received if there had not been a federal grant, and the federal grant.

(c) A grant shall not be made for collecting sewers, the construction of which would result in the discharge of untreated or inadequately treated sewage to the waters of the state.

(d) A grant shall not be made unless the local agency has received approval by the department of an official pollution control plan as required by sections 7 and 8 of Act No. 329 of the Public Acts of 1966, being sections 323.117 and 323.118 of the Michigan Compiled Laws, and the collecting sewers are in conformity with the official plan.

(e) A grant shall not be made for collecting sewers which the department determines would not meet an existing or imminent need or would constitute a noneconomic or speculative project.

(f) A local agency shall not be allotted more than 2% of the fund.

History: 1994, Act 451, Eff. Mar. 30, 1995.

Popular name: Act 451

Popular name: NREPA

324.4906 State sewer construction fund; disbursements.

Sec. 4906. (1) Disbursements from the state sewer construction fund shall be made by the director of the department of management and budget and the state treasurer in accordance with the accounting laws of the state only for the following purposes for which the bonds have been authorized:

(a) Expense of issuing the bonds.

(b) Grants to local agencies as provided in section 4905(2) and (3).

(2) Before any disbursement from the fund, as provided in subsection (3), is made to a local agency for a grant for the construction of collecting sewers, the department shall certify to the director of the department of management and budget and the state treasurer the amount of the grant which the agency is eligible to receive under this part. The certificate shall include or have attached to it a certificate by the department, or by the department of public health when so requested by the department, of the necessity and sufficiency of the collecting sewers.

(3) A disbursement from the fund to a local agency shall be made for projects on the priority list established under sections 4904 and 4912 upon certification to the director of the department of management and budget and the state treasurer by the department that the disbursement is due. A local agency may request and receive disbursement of the state grant in not more than 5 installments:

(a) An installment of 50% of the reasonable cost for preparing completed final construction plans and specifications, but not to exceed the amount of the grant, for the collecting sewers which have been certified as eligible for a state grant, on issuance of a construction permit by the department of public health for the collecting sewers for which the construction plans and specifications have been prepared and on receipt of evidence satisfactory to the department of the local agency's ability and intent to finance the local share of the project cost. A disbursement shall not be made under this subsection to a local agency which has received federal or other state grants for the preparation of final plans and specifications.

(b) An installment when not less than 25% of the cost of construction of the collecting sewers is completed.

(c) An installment when not less than 50% of the cost of construction of the collecting sewers is completed.

(d) An installment when not less than 75% of the cost of construction of the collecting sewers is completed.

(e) A final installment of the unpaid balance of the grant based upon the actual cost of the collecting sewers when construction is completed.

History: 1994, Act 451, Eff. Mar. 30, 1995.

Popular name: Act 451

324.4907 Rules.

Sec. 4907. The department may promulgate rules to implement this part.

History: 1994, Act 451, Eff. Mar. 30, 1995.

Popular name: Act 451

Popular name: NREPA

324.4908 State agencies; officers and employees; use; purpose; grant recipients; records.

Sec. 4908. (1) The department, with consent of the head of any other agency of this state, shall use the officers and employees of such agency as may be found necessary to assist in carrying out the purposes of this part.

(2) A recipient of a grant under this part shall keep records as the department prescribes, including records that fully disclose the amount and disposition by the recipient of the proceeds of the grant, the total cost of construction of the collecting sewers in connection with the grant given or used, and the amount of that portion of the cost of construction of the collecting sewers supplied by other sources, and other records as will facilitate an effective audit. The department, the auditor general, and the state treasurer or any of their duly authorized representatives shall have access, for the purpose of audit and examination, to any books, documents, papers, and records of the recipient that are pertinent to grants received under this part.

History: 1994, Act 451, Eff. Mar. 30, 1995.

Popular name: Act 451

Popular name: NREPA

324.4909 Priority establishment and project certification procedures; compliance prerequisite to grant.

Sec. 4909. Notwithstanding any other provision of this part or of any rule of the department, compliance with sections 4909 to 4912 is a prerequisite to the making of a grant under this part. Sections 4909 to 4912 provide procedures for establishing the priority of eligible projects and for certifying projects for grants for construction of collecting sewers.

History: 1994, Act 451, Eff. Mar. 30, 1995.

Popular name: Act 451

Popular name: NREPA

324.4910 Collecting sewer projects; pollution control needs; assignment of points.

Sec. 4910. (1) Points assigned to a collecting sewer project as a complete measure of pollution control needs shall not exceed 15.

(2) Two points shall be assigned for each of the following interests subject to pollution-caused injuries, which injuries will be corrected or substantially lessened by the proposed project:

(a) Public health, safety, or welfare, but not including bathing.

(b) Public water supply for domestic use.

(c) Water supply for commercial or industrial use.

(d) Irrigation or livestock water supply for agricultural use.

(e) Organized public recreational use including bathing.

(f) Aesthetic value or utility of riparian lands.

(g) Water supply for wild animals, birds, and fish and adverse effects on aquatic life or plants.

(h) Usefulness of fish or game for human consumption.

(3) Collecting sewers required to be constructed in compliance with a judgment rendered by a court of competent jurisdiction, a stipulation or an order of the department, or an agreement with the department of public health shall be assigned from 1 to 4 points in accordance with the following schedule, if the stipulation, order, or agreement specifically recites the existence of unlawful pollution and was in effect not less than 30 days before the deadline for filing applications and if the pollution abatement date is such that compliance would make it necessary to start construction during the year ending:

(a) June 30 of the fiscal year for which the application is filed, 4 points.

(b) June 30 of the first succeeding fiscal year, 3 points.

(c) June 30 of the second succeeding fiscal year, 2 points.

(d) June 30 of the third succeeding fiscal year, 1 point.

(4) An applicant in default of a performance date specified by an order, stipulation, or agreement may be assigned points under the preceding schedule only at the discretion of the department.

(5) A collecting sewer project for which construction contracts were awarded before the deadline date for filing applications shall be assigned 4 points. The combined total points assigned pursuant to subsections (3) to (5) shall not exceed 4 points.

History: 1994, Act 451, Eff. Mar. 30, 1995.

Popular name: Act 451

Popular name: NREPA

324.4911 Total priority points; computation; tied projects; assignment of priority.

Sec. 4911. (1) Total priority points for a collecting sewer project shall be the sum of the points assigned for water pollution control needs.

(2) If 2 or more projects receive the same priority point totals, the department shall assign priorities to the tied projects after considering factors such as waters affected, extent of public interests involved, relative magnitude of pollution injury, and other factors as the department considers appropriate.

History: 1994, Act 451, Eff. Mar. 30, 1995.

Popular name: Act 451

Popular name: NREPA

324.4912 Fiscal year; filing application for grant; assignment of point total; certification of projects; condition of certification; time extensions; validity of application; report to legislature; approval or rejection of projects.

Sec. 4912. (1) For the purposes of sections 4909 to 4912, the fiscal year is July 1 to June 30.

(2) Applications for collecting sewer construction grants and official pollution control plans required by sections 7 and 8 of Act No. 329 of the Public Acts of 1966, being sections 323.117 and 323.118 of the Michigan Compiled Laws, shall be filed with the department not later than September 15 preceding the period or fiscal year for which the application is filed. Applications postmarked not later than midnight of September 15 meet this requirement.

(3) A point total shall be assigned by the department to each application that has been timely filed and conforms to the requirements of this part no later than the following January 1.

(4) Projects entitled to construction grants shall be certified to the director of the department of management and budget and the state treasurer from the eligibility list established by the department and as approved by the legislature. Certification shall be made following approval by the legislature.

(5) Certification of a project for a grant is subject to the condition that construction contracts for the project be awarded not later than March 1 of the fiscal year for which application for a state grant has been filed. Failure to comply with this condition of certification is cause for the department to take any action necessary to withdraw any grant offer that may have been obligated to such project. However, on a showing satisfactory to the department that the project will proceed within an extended period, the department may allow 30-day extensions totaling not more than 90 days.

(6) Except as otherwise provided in this part, an application for a collecting sewer construction grant filed with the department is valid only for the fiscal year for which the application is filed.

(7) The department shall report to the legislature by January 15 of each year a list of collecting sewer projects eligible for grants, the points and priorities assigned to them pursuant to this part, a list of projects that are recommended to be funded, and a list of projects which failed to comply with the conditions of certifications set forth in subsection (5) and on which the department has taken action to withdraw offers of state grants. If legislative approval or rejection of eligible projects is not given each year within 45 days after receipt of the department's list of eligible projects, the department list shall be considered approved.

PART 50

WATER ASSET MANAGEMENT COUNCIL

324.5001 Definitions.

Sec. 5001. As used in this section:

(a) "Asset management" means an ongoing process of maintaining, upgrading, and operating physical assets cost-effectively, based on a continuous physical inventory and condition assessment and investment to achieve performance goals.

(b) "Asset management plan" means a set of procedures to manage assets through their life cycles, based on principles of life cycle costing.

(c) "Asset owner" means a person or agency that owns or operates an asset that meets either of the following requirements:

(*i*) Serves 1,000 or more individuals and is required by a national pollutant discharge elimination system permit to have an asset management plan.

(*ii*) Serves 1,000 or more individuals and is required by the safe drinking water act, 1976 PA 399, MCL 324.1001 to 324.1003, to have an asset management plan.

(d) "Department" means the department of environmental quality.

(e) "Drinking water assets" means a system, owned by an asset owner, of pipes and structures through which drinking water is obtained and distributed, including, but not limited to, wells and well structures, wellhead protection areas, groundwater protection areas, intakes and cribs, pumping stations, treatment plants, storage tanks, pipelines, and appurtenances, or a combination of these pipes and structures that are used or intended for use for the purpose of furnishing drinking water for drinking or household purposes.

(f) "Michigan infrastructure council" means the Michigan infrastructure council created in the Michigan infrastructure council act.

(g) "Performance goals" means standards of system performance that reflect asset management principles for asset preservation and sustainability, operations, capacity consistent with local needs, and identified levels of service.

(h) "Region" means the geographic jurisdiction of any of the following:

(*i*) A regional planning commission created pursuant to 1945 PA 281, MCL 125.11 to 125.25.

(*ii*) A regional economic development commission created pursuant to 1966 PA 46, MCL 125.1231 to

125.1237.

(*iii*) A metropolitan area council formed pursuant to the metropolitan councils act, 1989 PA 292, MCL 124.651 to 124.729.

(*iv*) A metropolitan planning organization established pursuant to federal law.

(*v*) An agency directed and funded by section 822f of article VIII of 2016 PA 268 to engage in joint decision-making practices related but not limited to community development, economic development, talent, and infrastructure opportunities.

(i) "Stormwater assets" means green or gray features, owned by an asset owner, that are located within the geographic limits of an asset service area and are designed or actively managed by an asset owner for collecting, storing, treating, conveying, or attenuating stormwater, such as catch basins, curbs, gutters, ditches and channels solely conveying stormwater, pipes, conduits, swales, bioswales, storm drains, gulches, gullies, flumes, culverts, bridges, siphons, retention, detention, or infiltration areas, floodwalls, levees, pumping stations, and other similar facilities.

(j) "Transportation asset management council" means the transportation asset management council created in section 9a of 1951 PA 51, MCL 247.659a.

(k) "Wastewater assets" means a system, owned by an asset owner, of pipes and structures, including pipes, channels, conduits, manholes, pumping stations, wastewater or wastewater treatment fixed assets, diversion and regulatory devices, outfall structures, and appurtenances, used to collect, convey, transport, treat, or otherwise handle wastewater.

History: Add. 2018, Act 324, Imd. Eff. July 2, 2018.

324.5002 Water asset management council; membership; term; removal; advisory committees.

Sec. 5002. (1) The water asset management council is created within the Michigan infrastructure council.

(2) Subject to subsection (3), the water asset management council consists of the following members:

(a) Nine voting members appointed by the Michigan infrastructure council as follows:

(*i*) One member from the department.

(*ii*) One member from the Michigan Municipal League.

(*iii*) One member from the Michigan Townships Association.

(*iv*) One member from the Michigan Association of Counties.

(*v*) One member from the Michigan Association of Drain Commissioners.

(*vi*) One member representing a regional drinking water, wastewater, or stormwater authority.

(*vii*) One member representing a water infrastructure association.

(*viii*) One member with drinking water, wastewater, or stormwater asset management experience.

(*ix*) One member representing a region.

(b) One ex officio, nonvoting member who has responsibilities related to the department of technology, management, and budget's role as the central data storage agency under section 5008, appointed by the director of the department of technology, management, and budget.

(3) The Michigan Municipal League, Michigan Townships Association, Michigan Association of Counties, and Michigan Association of Drain Commissioners shall each submit a list of 2 nominees to the Michigan infrastructure council from which the respective appointments under subsection (2) shall be made. Names shall be submitted within 60 days after the effective date of the amendatory act that added this section. The Michigan infrastructure council shall make the appointments within 30 days after the receipt of the lists.

(4) Voting members of the water asset management council serve for terms of 3 years. However, of the initial appointments to the water asset management council, 3 shall serve for 1 year, 3 shall serve for 2 years, and 3 shall serve for 3 years. A vacancy on the water asset management council shall be filled in the same manner as the original appointment.

(5) A member of the water asset management council may be removed for incompetence, dereliction of duty, malfeasance during his or her tenure in office, or any other cause considered appropriate by the Michigan infrastructure council.

(6) At the first meeting of the water asset management council, the water asset management council shall select a chairperson from among its members.

(7) The water asset management council may appoint advisory committees whose members shall serve as needed to provide research on issues and projects as determined by the water asset management council. An advisory committee member who is not a member of the water asset management council does not have voting rights on the advisory committee. A recommendation from the advisory committee appointed under this subsection is advisory only and is not binding.

(8) The department shall provide qualified administrative staff and qualified technical assistance to the

water asset management council.

History: Add. 2018, Act 324, Imd. Eff. July 2, 2018.

324.5003 Duties.

Sec. 5003. The water asset management council shall do all of the following:

(a) Advise the Michigan infrastructure council on a statewide water asset management strategy and the processes and tools needed to implement a strategy for all asset owners.

(b) Promote and oversee the implementation of the recommendations from the regional infrastructure asset management pilot program created under Executive Directive 2017-1 at a state level related to drinking water, wastewater, and stormwater infrastructure.

(c) By October 1, 2019, develop a template or templates that contain requirements for information to be included in an asset management plan submitted under section 5004. The template or templates shall allow for local asset management plan components, including, but not limited to, all of the following, but shall not require components beyond those required in an asset management plan associated with a permit:

(*i*) An asset inventory. This inventory may include the location, material, size, and condition of the assets in a format that allows for digital mapping. All quality control standards and protocols shall, at a minimum, be consistent with existing federal requirements and regulations and existing government accounting standards.

(*ii*) A level of service analysis. This analysis may include desired levels of service and performance goals of the assets to help the system achieve reliability, responsiveness, safety, capacity, environmental impacts, cost and affordability, and compliance with law. Levels of service may vary among assets under the asset owner's jurisdiction.

(*iii*) A risk of failure analysis. This analysis may identify the probability and criticality of failure of the most critical assets and any contingency plans.

(*iv*) Anticipated revenues and expenses. This component may include a description of all revenue sources and anticipated receipts for the period of the asset management plan, and expected infrastructure repair and replacement expenditures, including planned improvements or capital reconstruction.

(*v*) A performance outcomes analysis. This analysis may determine how the investment strategy achieves the desired levels of service and performance goals. The asset management plan may include steps necessary to ensure asset conditions meet or achieve stated goals, including a description and explanation for any gap between achievable condition and performance through the investment strategy and desired goals.

(*vi*) A description of any plans of the asset owner to coordinate with other entities, such as neighboring jurisdictions and utilities, to minimize duplication of effort with regard to infrastructure preservation and maintenance.

(*vii*) Proof of acceptance, certification, or adoption by the jurisdiction's governing body.

History: Add. 2018, Act 324, Imd. Eff. July 2, 2018.

324.5004 Asset management plans.

Sec. 5004. (1) By October 1, 2019, the water asset management council shall establish a schedule for submission of asset management plans that ensures that 1/3 of asset owners submit an asset management plan each year. The asset management plans are subject to all of the following:

(a) The asset management plans shall cover and be valid for a minimum of 3 years and shall be consistent with the template provided by the water asset management council.

(b) The asset management plans shall be reviewed by the water asset management council within 6 months of receipt. The water asset management council shall compare submitted asset management plans to the minimum components required by this act and the template provided by the water asset management council and shall determine if the asset management plans are in compliance with those standards. If the water asset management council determines that an asset management plan does not meet established standards, the water asset management council shall seek concurrence from the department. If the department concurs, the water asset management council shall notify the entity submitting the asset management plan of the deficiency in meeting the standards and shall require the entity to revise the asset management plan to meet the standards and resubmit the plan within 6 months of receiving the notice.

(c) An asset owner that is required under this part to have an approved asset management plan must implement the approved asset management plan by October 1, 2024.

(2) An asset owner may seek and use federal grants or loans to achieve the goals and manage the asset inventory described in its asset management plan.

History: Add. 2018, Act 324, Imd. Eff. July 2, 2018.

324.5005 Annual report.

Sec. 5005. The water asset management council shall annually submit to the Michigan infrastructure council a report on asset condition and investment that includes a summary analysis of the asset management plans received from drinking water, wastewater, and stormwater entities. The report shall also include recommendations on drinking water, wastewater, and stormwater condition goals and analysis of how the utilities are meeting those goals. The water infrastructure asset management analyses contained in the report shall be consistent with the Michigan infrastructure council's asset management process and shall be reported consistent with categories established by the Michigan infrastructure council.

History: Add. 2018, Act 324, Imd. Eff. July 2, 2018.

324.5006 State funding; capital improvement program; report.

Sec. 5006. (1) State funding may be provided to asset owners to implement this part as determined by the water asset management council. Funding necessary for the department to support the activities described in this section shall be provided by an annual appropriation.

(2) Each asset owner shall annually report to the water asset management council, consistent with current accounting procedures, how its capital improvement program for assets included in any asset management plans required under section 5004 are meeting its investment goals in a form established by the water asset management council.

(3) The department and each asset owner shall keep accurate and uniform records on all work performed and funds expended for the purposes of this section, according to the procedures developed by the Michigan infrastructure council.

(4) The water asset management council shall annually prepare a report on the activities conducted during the preceding year and the expenditure of funds related to the processes and activities identified by the water asset management council. The report shall also include an overview of the activities identified for the succeeding year. The water asset management council shall submit this report to the Michigan infrastructure council and the legislature by May 2 of each year.

History: Add. 2018, Act 324, Imd. Eff. July 2, 2018.

324.5007 Training needs; multi-asset management system.

Sec. 5007. (1) The water asset management council shall identify training needs to develop proficiency in using a multi-asset management system for asset owners, and training to identify asset system conditions based on a statewide asset condition measure.

(2) The water asset management council shall coordinate and collaborate with the transportation asset management council on planning, reporting, and training. The water asset management council shall collaborate with the transportation asset management council created in section 9a of 1951 PA 51, MCL 247.659a, on potential coordination in the submission of asset management plans.

History: Add. 2018, Act 324, Imd. Eff. July 2, 2018.

324.5008 Central data storing agency.

Sec. 5008. The department of technology, management, and budget shall serve as the central data storage agency for purposes of collecting, storing, and maintaining data under this part.

History: Add. 2018, Act 324, Imd. Eff. July 2, 2018.

PART 51
WASTEWATER DISPOSAL

324.5101 “Land disposal wastewater management program” defined.

Sec. 5101. As used in this part, "land disposal wastewater management program" means the program developed in the United States army corps of engineers southeastern Michigan survey scope wastewater management study, as authorized by section 102 of title I of the federal water pollution control act, chapter 758, 86 Stat. 817, 33 U.S.C. 1252, and the resolution of the United States house of representatives public works committee and the United States senate public works committee or any other study by the corps of engineers proposing disposal of municipal wastewater on land.

History: 1994, Act 451, Eff. Mar. 30, 1995.

Compiler's note: For transfer of authority, powers, duties, functions, and responsibilities of the Surface Water Quality Division to the Director of the Michigan Department of Environmental Quality, see E.R.O. No. 1995-16, compiled at MCL 324.99901 of the Michigan Compiled Laws.

For transfer of authority, powers, duties, functions, and responsibilities of the Waste Management Division to the Director of the Michigan Department of Environmental Quality, see E.R.O. No. 1995-16, compiled at MCL 324.99901 of the Michigan Compiled Laws.

Popular name: Act 451

Popular name: NREPA

324.5102 Submission of views as to environmental consequences, cost effectiveness, and social acceptability of program.

Sec. 5102. Upon receipt of a proposal to implement a land disposal wastewater management program as defined in this part by a federal, state, or local unit of government, the department shall submit to the governor, the legislature, and local units of government its views as to the environmental consequences, cost effectiveness, and social acceptability of the program. The department of agriculture shall present its views to the governor, the legislature, and local units of government regarding the impact of the program on agriculture.

History: 1994, Act 451, Eff. Mar. 30, 1995.

Compiler's note: For transfer of authority, powers, duties, functions, and responsibilities of the Waste Management Division to the Director of the Michigan Department of Environmental Quality, see E.R.O. No. 1995-16, compiled at MCL 324.99901 of the Michigan Compiled Laws.

Popular name: Act 451

Popular name: NREPA

324.5103 Implementation of program; approval or disapproval.

Sec. 5103. Upon receipt of the views of the department and the department of agriculture, the local units of government shall either approve or disapprove by resolution, and the legislature shall either approve or disapprove by concurrent resolution, the implementation of the program.

History: 1994, Act 451, Eff. Mar. 30, 1995.

Popular name: Act 451

Popular name: NREPA

PART 52
STRATEGIC WATER QUALITY INITIATIVES

324.5201 Definitions.

Sec. 5201. As used in this part:

(a) "Asset management program" means the program that identifies the desired level of service at the lowest life cycle cost for rehabilitating, repairing, or replacing the assets associated with a municipality's wastewater or storm water system.

(b) "Authority" means the Michigan municipal bond authority created in section 4 of the shared credit rating act, 1985 PA 227, MCL 141.1054.

(c) "Department" means the department of environmental quality.

(d) "Fund" means the strategic water quality initiatives fund created in section 5204.

(e) "Grant" means a grant from the grant program.

(f) "Grant program" means the strategic water quality initiatives grant program established under this part.

(g) "Loan" means a loan from the loan program.

(h) "Loan program" means the strategic water quality initiatives loan program established under section 5202.

(i) "Municipality" means that term as it is defined in section 5301.

(j) "On-site septic system" means a natural system or mechanical device used to store, treat, and dispose of sewage from 1 or more dwelling units that utilize a subsurface trench or bed that allows the effluent to be absorbed and treated by the surrounding soil, including a septic tank and tile field system.

(k) "State water pollution control revolving fund" means the state water pollution control revolving fund established under section 16a of the shared credit rating act, 1985 PA 227, MCL 141.1066a.

(*l*) "Wetland mitigation bank" means a site where wetlands are restored, created, or preserved for the purpose of doing both of the following:

(*i*) To provide compensatory mitigation in accordance with the provisions of part 303, in advance of authorized, unavoidable impacts to wetlands.

(*ii*) To provide storm water control, nonpoint source pollution control, or pollution treatment that improves the quality of the waters of the state.

History: Add. 2002, Act 397, Eff. Nov. 5, 2002;—Am. 2005, Act 257, Imd. Eff. Dec. 1, 2005;—Am. 2012, Act 511, Eff. Jan. 2, 2013.

Compiler's note: Enacting section 2 of Act 397 of 2002 provides:

"Enacting section 2. This amendatory act does not take effect unless the question provided for in the Great Lakes water quality bond authorization act is approved by a majority of the registered electors voting on the question at the November 2002 general election."

Act 396 of 2002, the Great Lakes water quality bond authorization act, which was approved by the Governor on May 29, 2002, and filed with the Secretary of State on May 30, 2002, provided that bonds "shall not be issued under this act unless the question set forth in section 5 [MCL 324.95205] is approved by a majority vote of the registered electors voting on the question." In accordance with Const 1963, art 9, sec 15, the question of borrowing a sum of not to exceed $1,000,000,000.00 and the issuance of general obligation bonds of the state for the purposes set forth in the act was submitted to, and approved by, the qualified electors of the state as Proposal 02-2 at the November 5, 2002, general election.

Popular name: Act 451

Popular name: NREPA

324.5202 Strategic water quality initiatives loan program; establishment; purpose; asset management program; content; criteria; interest rate.

Sec. 5202. (1) The authority in consultation with the department shall establish a strategic water quality initiatives loan program. This loan program shall provide low interest loans to municipalities to provide assistance for 1 or more of the following:

(a) Improvements to reduce or eliminate the amount of groundwater or storm water entering a sanitary sewer lead or a combined sewer lead.

(b) Upgrades or replacements of failing on-site septic systems that are adversely affecting public health or the environment, or both.

(c) Project costs of the municipality related to testing, demonstration, and construction activities as defined in section 5301(d) for innovative wastewater and storm water technologies approved by the department.

(d) Assistance for construction activities as defined in section 5301(d) designed to protect water quality, including improvements that are water or energy efficient, where feasible, when identified through an asset management program or a project identified in an approved storm water management plan.

(2) The department shall develop criteria specifying the content of an asset management program.

(3) In implementing the loan program, the department shall annually establish the interest rate that will be charged for loans.

History: Add. 2002, Act 397, Eff. Nov. 5, 2002;—Am. 2012, Act 511, Eff. Jan. 2, 2013.

Compiler's note: Enacting section 2 of Act 397 of 2002 provides:

"Enacting section 2. This amendatory act does not take effect unless the question provided for in the Great Lakes water quality bond authorization act is approved by a majority of the registered electors voting on the question at the November 2002 general election."

Act 396 of 2002, the Great Lakes water quality bond authorization act, which was approved by the Governor on May 29, 2002, and filed with the Secretary of State on May 30, 2002, provided that bonds "shall not be issued under this act unless the question set forth in section 5 [MCL 324.95205] is approved by a majority vote of the registered electors voting on the question." In accordance with Const 1963, art 9, sec 15, the question of borrowing a sum of not to exceed $1,000,000,000.00 and the issuance of general obligation bonds of the state for the purposes set forth in the act was submitted to, and approved by, the qualified electors of the state as Proposal 02-2 at the November 5, 2002, general election.

324.5203 Loan application by municipality; process; agreement; disposition of money received as repayment.

Sec. 5203. (1) A municipality that wishes to apply for a loan shall submit a loan application to the department as follows:

(a) In compliance with the application requirements provided in part 53, for activities described in section 5202(1)(a) or (b).

(b) On a form approved by the department, for activities described in section 5202(1)(c) or (d).

(2) The department shall process the loan applications submitted under this part.

(3) Prior to releasing a loan, the authority in consultation with the department shall enter into a loan agreement with the loan recipient.

(4) All money that is received for the repayment of a loan shall be forwarded to the state treasurer for deposit into the fund.

324.5204 Strategic water quality initiatives fund; creation; disposition of money or assets; investment; funds remaining at close of fiscal year; expenditures; fund as security.

Sec. 5204. (1) The strategic water quality initiatives fund is created within the state treasury.

(2) The state treasurer may receive money or other assets from any source for deposit into the fund. The state treasurer shall direct the investment of the fund. The state treasurer shall credit to the fund interest and earnings from fund investments. The authority shall act as fiscal agent for the fund in accordance with the shared credit rating act, 1985 PA 227, MCL 141.1051 to 141.1076.

(3) Money in the fund at the close of the fiscal year shall remain in the fund and shall not lapse to the general fund.

(4) The authority in consultation with the department shall expend money from the fund, upon appropriation, only for the following:

(a) Loans under section 5202.

(b) Grants under sections 5204a, 5204d, and 5204e.

(c) Response activities to address nonpoint source water pollution under section 5204b.

(d) Grants and loans for brownfield sites under section 5204c.

(e) Grants and loans for wetland mitigation banks under section 5204f.

(f) The costs of the authority and the department in administering the fund.

(5) The fund may be pledged as security for bonds to be issued by the authority for the purpose of funding loans if authorized by the state administrative board.

324.5204a Strategic water quality initiatives grant program.

Sec. 5204a. (1) The authority, in conjunction with the department, shall establish a strategic water quality initiatives grant program that provides grants totaling not more than $80,000,000.00 to eligible municipalities. The grant program shall provide assistance to municipalities to complete the loan application requirements of section 5308 or to complete the loan application requirements for other sources of financing for sewage treatment works projects, storm water treatment projects, or nonpoint source projects.

(2) The grant program is subject to all of the following:

(a) The grant program shall provide grants to cover not more than 90% of the costs incurred by a municipality to complete an application for loan assistance from the state water pollution control revolving fund or the fund or to complete an application for loan assistance from another source of financing for a sewage treatment works project, a storm water treatment project, or a nonpoint source project.

(b) The 10% local match is not eligible for loan assistance from the state water pollution control revolving fund or the fund or other source of financing for the project.

(c) Grant funds shall not be used for general local government administrative activities or activities performed by municipal employees.

(d) A municipality shall not receive more than $1,000,000.00 in total grant assistance under this section.

(e) Grants under this section shall be available for projects seeking or intending to seek loan assistance after September 30, 2006.

(3) The department shall establish an application and review process for considering grant applications under this section. The application shall contain the information required by the department and the authority. Within 60 days after receipt of an application, the department shall publish notice of the application on the department's calendar. Within 60 days after receipt of an administratively complete grant application, the department shall, in writing, notify the applicant whether the application is approved or rejected. If the

department approves a grant under this section, the department and the authority shall enter into a grant agreement with the recipient prior to transferring funds. The grant agreement shall contain terms established by the department and the authority and a requirement that the grant recipient repay the grant, within 90 days of being informed to do so, with interest at a rate not to exceed 8% per year, to the authority for deposit into the fund if any of the following occur:

(a) The applicant fails to submit an administratively complete loan application for assistance from the state water pollution control revolving fund or the fund or other source of financing for the project within 3 years of the grant award.

(b) The project has been identified as being in the fundable range or is approved for funding from another source and the applicant declines the loan assistance for 2 consecutive fiscal years unless the applicant proceeds with funding from another source.

(c) The applicant is unable to, or decides not to, proceed with constructing the project.

(4) For each year in which the department receives grant applications under this section, the department shall report by July 1 of each year to the standing committees of the senate and the house of representatives with primary jurisdiction over issues pertaining to natural resources and the environment and to the senate and house of representatives appropriations committees on the utilization of funds under this part that were received from the Great Lakes water quality bond fund created in section 19706. The report shall include, at a minimum, all of the following:

(a) The number of grant applications received under this section.

(b) The name of each municipality applying for a grant.

(c) The individual and annual cumulative amount of grant funds awarded, including an identification of whether each award was for the purpose of applying for assistance from the state water pollution control revolving fund or the fund.

(d) A summary of loan assistance, by year, tendered from the state water pollution control revolving fund and the fund.

(5) The senate and house appropriations committees shall annually review whether there is sufficient money in the fund to implement this section and section 5202.

History: Add. 2005, Act 254, Imd. Eff. Dec. 1, 2005;—Am. 2010, Act 231, Imd. Eff. Dec. 14, 2010.

Popular name: Act 451

Popular name: NREPA

324.5204b Nonpoint source water pollution; expenditures; limitation; requirements; selection of projects; expenditures subject to generally accepted accounting principles; annual report; use of fund; "facility", "release", and "response activity" defined.

Sec. 5204b. (1) Subject to section 5204c, the department may expend, upon appropriation, not more than $140,000,000.00 of the money from the fund for response activities to address nonpoint source water pollution at facilities as follows:

(a) For the state fiscal year ending September 30, 2011, not more than $50,000,000.00 may be authorized for expenditure under this section.

(b) For the state fiscal year ending September 30, 2012, not more than $50,000,000.00 may be authorized for expenditure under this section.

(c) Beginning October 1, 2012, any money not previously authorized for expenditure under this section may be expended under this section only if the department documents that it has achieved the following performance objectives:

(*i*) Increasing the level of investment in sewage collection and treatment systems.

(*ii*) Providing incentives for actions that not only improve water quality but result in pollution prevention.

(*iii*) Optimizing the cost benefit ratio of alternative designs of sewage collection and treatment systems.

(*iv*) Demonstrating progress toward maximizing risk reduction and economic development objectives identified for projects funded under this section.

(2) The department shall expend money under this section in compliance with all of the following:

(a) The expenditure is used to improve the quality of the waters of the state.

(b) The expenditure is used only for facilities in which the department does not know the identity of the person or persons who are liable under part 201 for the release resulting in the water pollution or the person or persons who are liable do not have sufficient resources to fund the required response activities.

(c) The facilities include property that is located within the identified planning area boundaries of a publicly owned sanitary sewer system eligible for funding under the state water pollution control revolving fund established in section 16a of the shared credit rating act, 1985 PA 227, MCL 141.1066a.

(d) The expenditure is used for response activities necessary to address existing or imminent unacceptable risks arising from conditions that contribute to nonpoint source water pollution, including expenses for project management activities within the department.

(3) In using funds to address nonpoint source water pollution projects under this section, the department shall select projects that, to the extent practicable, provide maximum benefit to the state in protecting public health and the environment and contributing to economic development.

(4) Money expended to support project management within the department to manage response activities at the facility shall be expended pursuant to generally accepted accounting principles.

(5) The department shall annually submit a report to the standing committees of the senate and house of representatives with jurisdiction over issues primarily pertaining to natural resources and the environment and to the senate and house of representatives appropriations subcommittees on natural resources and the environment that describes the projects funded under this section and includes an evaluation of how the expenditures, to the extent practicable, provide maximum benefit to the state in protecting public health and the environment and contributing to economic development. For each project funded under this section, the report shall include all of the following:

(a) How the project met the criteria described in this section.

(b) The extent to which the project improved water quality or prevented a risk to water quality as measured by the number of individuals who benefit from the project.

(c) The extent to which the project preserved infrastructure investments that protect public health or prevented risks to water quality as measured by the risk posed or the public health protected.

(d) The extent to which the project enhanced economic development as measured by such factors including, but not limited to, all of the following:

(*i*) A net increase to the value of the properties in the vicinity of the project.

(*ii*) The creation of jobs.

(*iii*) The extent to which the project contributed to leveraging private investment in the vicinity of the project.

(e) If the project included funding for project management within the department, a breakdown of the amount of money used to support the project management as justified using generally accepted accounting principles.

(6) The legislature finds that use of the fund for response activities to address nonpoint source water pollution at facilities is appropriate and necessary at this time. It is the intent of this legislature that money from the fund shall not be utilized for response activities to address nonpoint source water pollution at facilities when the $150,000,000.00 has been expended under this section and section 5204c.

(7) As used in this section, "facility", "release", and "response activity" mean those terms as they are defined in part 201.

324.5204c Nonpoint source water pollution; brownfield redevelopment grants and loans to municipalities and brownfield redevelopment authorities; development of materials; applications.

Sec. 5204c. (1) The department may expend $10,000,000.00 of money from the fund to provide brownfield redevelopment grants and loans to municipalities and brownfield redevelopment authorities created under the brownfield redevelopment financing act, 1996 PA 381, MCL 125.2651 to 125.2672, for response activities to address nonpoint source water pollution at facilities. Of the money expended under this section, $5,000,000.00 shall be used for grants and $5,000,000.00 shall be used for loans. However, on September 30, 2014, if any money described in this section has not been appropriated for the purposes of this section, that money may be used for the purposes of section 5204b.

(2) The department shall develop grant and loan application materials to implement this section and shall accept applications at any time throughout the year.

324.5204e Grant program; purpose; conditions; application and review process; contents; approval; agreement; terms; report.

Sec. 5204e. (1) In addition to other requirements of this part, the grant program shall provide grants to municipalities for sewage collection and treatment systems or stormwater or nonpoint source pollution control as provided for in this section.

(2) The grant program is subject to all of the following:

(a) The grant program shall provide grants to a municipality in accordance with the following:

(*i*) Subject to subparagraph (*iii*), for total grants of up to $1,000,000.00, not more than 90% of the costs incurred by the municipality.

(*ii*) Subject to subparagraph (*iii*), for total grants of more than $1,000,000.00, not more than 90% of the costs incurred by the municipality for up to $1,000,000.00 of the grant amount and not more than 75% of the remaining costs incurred by the municipality for the balance of the grant amount.

(*iii*) If any of the following conditions are met, a grant may be issued to cover 100% of the costs incurred by the municipality:

(A) The municipality is a disadvantaged community as defined in section 5301.

(B) The municipality is in receivership.

(C) The municipality is operating under an emergency manager or an emergency financial manager appointed under state law.

(D) The municipality is operating under a consent agreement as provided under the local financial stability and choice act, 2012 PA 436, MCL 141.1541 to 141.1575.

(b) A grant may be used for 1 or more of the following purposes:

(*i*) Development of an asset management program for a sewage collection and treatment system or a stormwater system. For sewage collection and treatment systems, the program shall include the development of a funding structure and implementation schedule that provides sufficient resources to implement the program. The municipality shall coordinate, as feasible, with other infrastructure activities in the same geographic area. In addition, a disadvantaged community may expend not more than $500,000.00 in grant funds to implement projects identified in the asset management program.

(*ii*) Development of management plans for the treatment of stormwater.

(*iii*) Planning and design of a sewage treatment works project or stormwater treatment project as defined in section 5301(n) or (o) or planning and design of construction activities designed to reduce nonpoint source pollution.

(*iv*) Project costs of a municipality related to the testing and demonstration of innovative wastewater and stormwater technologies approved by the department.

(*v*) For projects to address a substantial public health risk from treatment system failure, up to 50% of the project costs related to the planning, design, and construction of a sewage collection and treatment system. To be eligible for a grant under this subparagraph, a municipality shall apply on or after June 1, 2016, meet criteria developed by the department, and provide a demonstration of financial need, including an economic feasibility study with which the department of treasury concurs. Construction funding under this subparagraph shall not exceed $10,000,000.00 and shall be allocated from wetland mitigation bank funding authorized in section 5204f(1).

(c) The local match is not eligible for loan assistance from the state water pollution control revolving fund or the fund.

(d) Grant funds shall not be used for general local government administrative activities or activities performed by municipal employees that are unrelated to the project.

(e) A municipality shall not receive more than $2,000,000.00 in grant assistance for purposes described in subsection (2)(b)(*i*) to (*iv*) and not receive more than $2,000,000.00 in grant assistance for the purposes described in subsection (2)(b)(*v*).

(3) The department shall establish an application and review process for considering grant applications under this section. The application shall contain the information required by the department and the authority.

Within 60 days after receipt of an application, the department shall publish notice of the application on the department's calendar. Within 120 days after receipt of an administratively complete grant application, the department shall, in writing, notify the applicant whether the application is approved or rejected. If the department approves a grant under this section, the department and the authority shall enter into a grant agreement with the recipient prior to transferring funds. The grant agreement shall contain terms established by the department and the authority, including both of the following:

(a) A requirement that a grant recipient proceed with a project for which grant funding is provided within 3 years after the department approves the grant. For asset management programs related to sewage collection and treatment systems, this includes significant progress, as determined by the department, toward achieving the funding structure necessary to implement the program.

(b) A requirement that the grant recipient repay the grant, within 90 days of being informed to do so, with interest at a rate not to exceed 8% per year, to the authority for deposit into the fund if the applicant is unable to, or decides not to, proceed with a construction project or begin implementation of an asset management program for which grant funding is provided.

(4) For each year in which the department receives grant applications under this section, the department shall report by October 1 of that year to the standing committees of the senate and the house of representatives with primary jurisdiction over issues pertaining to natural resources and the environment and to the senate and house of representatives appropriations committees on the utilization of funds under this part that were received from the Great Lakes water quality bond fund created in section 19706. The report shall include, at a minimum, all of the following:

(a) The number of grant applications received under this section.

(b) The name of each municipality applying for a grant.

(c) The type of project being funded for each grant awarded.

(d) The number of users potentially affected by each grant awarded.

(e) The amount of the local match for each grant awarded.

(f) The individual and annual cumulative amount of grant funds awarded, including an identification of whether each award was for the purpose of applying for assistance from the state water pollution control revolving fund or the fund.

History: Add. 2012, Act 511, Eff. Jan. 2, 2013;—Am. 2016, Act 164, Imd. Eff. June 9, 2016;—Am. 2017, Act 147, Imd. Eff. Nov. 2, 2017.

324.5204f Wetland mitigation bank funding program.

Sec. 5204f. (1) The department, in conjunction with the authority, shall establish a wetland mitigation bank funding program that provides grants and loans totaling not more than $10,000,000.00 to eligible municipalities. Of the money expended under this subsection, up to $500,000.00 may be used for grants. Funding may be used for the purpose of this subsection as long as funds remain available.

(2) Grants awarded under the wetland mitigation bank funding program shall provide assistance to municipalities to complete loan application requirements for funding from the wetland mitigation bank funding program or to complete loan application requirements for other sources of financing. Grants for wetland mitigation banks are subject to the following:

(a) Grants shall not cover more than 90% of the costs incurred by a municipality to complete an application for loan assistance.

(b) Grant funding may be used for the following purposes:

(*i*) Developing an approvable wetland mitigation banking proposal.

(*ii*) Notifying affected local units of government and adjacent property owners of the proposed wetland mitigation bank, and working to resolve objections to the project.

(*iii*) Planning and designing the wetland mitigation bank.

(*iv*) Completing the wetland mitigation bank funding program loan application or loan application requirements for other sources of financing.

(c) The 10% local match is not eligible for loan assistance from the wetland mitigation funding bank program.

(d) Grant funds shall not be used for general local government administrative activities or activities performed by municipal employees that are unrelated to development of the wetland mitigation bank loan application.

(e) Applications for grants from the wetland mitigation funding bank program shall be made on a form provided by the department and shall contain the information required by the department and the authority.

Grant applications may be made at any time.

(f) The department shall establish a review process for considering grant applications under this subsection. The department shall notify the applicant in writing whether the application is approved or rejected. If the department approves a grant under this section, the department and the authority shall enter into a grant agreement with the recipient prior to transferring funds.

(g) The grant agreement shall contain terms established by the department and the authority and a requirement that the grant recipient repay the grant, within 90 days of being informed to do so, with interest at a rate not to exceed 8% per year, to the authority for deposit into the fund if any of the following occur:

(*i*) The applicant fails to submit an administratively complete loan application for assistance from the wetland mitigation bank funding program or other source of financing for the project within 1 year of the date on which the grant expires.

(*ii*) The applicant declines the loan assistance for 2 consecutive years unless the applicant proceeds with funding from another source.

(*iii*) The applicant is unable to enter into a signed wetland mitigation banking agreement with the department within 2 years of the date on which the grant expires.

(*iv*) The applicant is unable to or decides not to proceed with constructing the project.

(3) Loans under the wetland mitigation bank funding program shall provide assistance to municipalities to establish a wetland mitigation bank. Loans shall be subject to the following:

(a) Loans under the wetland mitigation bank funding program shall be for 1 or more of the following:

(*i*) Complete and execute the wetland mitigation banking agreement with the department.

(*ii*) Complete engineering and design for the wetland mitigation bank.

(*iii*) Purchase land for the wetland mitigation bank.

(*iv*) Construct the wetland mitigation bank.

(*v*) Conduct monitoring and maintenance necessary to ensure that the performance standards are or will be met.

(*vi*) In addition, the department may approve the use of loan funds for other activities needed to establish a wetland mitigation bank upon a demonstrated need by the municipality.

(b) Applications for loans from the wetland mitigation bank funding program shall be made on a form provided by the department and shall contain the information required by the department and the authority. Loan applications may be made at any time.

(4) The department shall establish a review process for considering loan applications under this subsection. The department shall notify the applicant in writing whether the loan is approved or rejected. Prior to releasing a loan, the authority in consultation with the department shall enter into a loan agreement with the loan recipient.

(5) For each year in which the department receives grant or loan applications under this section, the department shall report by October 1 to the standing committees of the senate and the house of representatives with primary jurisdiction over issues pertaining to natural resources and the environment and to the senate and house appropriations committees on the utilization of funds under this part that were received from the Great Lakes water quality bond fund created in section 19706. The report shall include, at a minimum, all of the following:

(a) The number of grant and loan applications received under this section.

(b) The name of each municipality applying for a grant or loan, or both.

(c) The amount of local match for each grant awarded.

(d) The individual and annual cumulative amount of grant and loan funds awarded, including an identification of the purpose of each grant and loan awarded.

PART 53
CLEAN WATER ASSISTANCE

324.5301 Definitions.

Sec. 5301. As used in this part:

(a) "Assistance" means 1 or more of the following activities to the extent authorized by the federal water pollution control act:

(*i*) Provision of loans to municipalities for construction of sewage treatment works projects, stormwater management projects, or nonpoint source projects.

(*ii*) Project refinancing assistance.

(*iii*) The guarantee or purchase of insurance for local obligations, if the guarantee or purchase action would improve credit market access or reduce interest rates.

(*iv*) Use of the proceeds of the fund as a source of revenue or security for the payment of principal and interest on revenue or general obligation bonds issued by this state, if the proceeds of the sale of the bonds will be deposited into the fund.

(*v*) Provision of loan guarantees for similar revolving funds established by municipalities.

(*vi*) The use of deposited funds to earn interest on fund accounts.

(*vii*) Provision for reasonable costs of administering and conducting activities under title VI of the federal water pollution control act, 33 USC 1381 to 1389.

(b) "Authority" means the Michigan municipal bond authority created in the shared credit rating act, 1985 PA 227, MCL 141.1051 to 141.1076.

(c) "Capitalization grant" means the federal grant made to this state by the United States Environmental Protection Agency for the purpose of establishing a state water pollution control revolving fund, as provided in title VI of the federal water pollution control act, 33 USC 1381 to 1389.

(d) "Construction activities" means an action undertaken to plan, design, or build sewage treatment works projects, stormwater management projects, or nonpoint source projects. Construction activities include, but are not limited to, all of the following:

(*i*) Project planning services.

(*ii*) Engineering services.

(*iii*) Legal services.

(*iv*) Financial services.

(*v*) Design of plans and specifications.

(*vi*) Acquisition of land or structural components, or both.

(*vii*) Building, erection, alteration, remodeling, or extension of any of the following:

(A) A sewage treatment works.

(B) Projects designed to control nonpoint source pollution, consistent with section 319 of the federal water pollution control act, 33 USC 1329.

(C) A stormwater management project.

(*viii*) Reasonable expenses of supervision of the project activities described in subparagraphs (*i*) to (*vii*).

(e) "Federal water pollution control act" means 33 USC 1251 to 1389.

(f) "Fund" means the state water pollution control revolving fund established under section 16a of the shared credit rating act, 1985 PA 227, MCL 141.1066a.

(g) "Fundable range" means those projects, taken in descending order on the priority lists, for which sufficient funds are estimated by the department to exist to provide assistance at the beginning of each annual funding cycle.

(h) "Municipality" means a city, village, county, township, authority, or other public body, including either of the following:

(*i*) An intermunicipal agency of 2 or more municipalities, authorized or created under state law.

(*ii*) An Indian tribe that has jurisdiction over construction and operation of sewage treatment works or other projects qualifying under section 319 of the federal water pollution control act, 33 USC 1329.

(i) "Nonpoint source project" means construction activities designed to reduce nonpoint source pollution consistent with the state nonpoint source management plan under section 319 of the federal water pollution control act, 33 USC 1329.

(j) "Priority list" means the annual ranked listing of projects developed by the department in section 5303.

(k) "Project" means a sewage treatment works project, stormwater management project, or nonpoint source project, or a combination of these and may include utilization of more efficient energy and resources as described in any of the following:

(*i*) The cost-effective governmental energy use act, 2012 PA 625, MCL 18.1711 to 18.1725.

(*ii*) Section 11c of 1851 PA 156, MCL 46.11c.

(*iii*) Section 75b of 1846 RS 16, MCL 41.75b.

(*iv*) Section 5f of the home rule city act, 1909 PA 279, MCL 117.5f.

(*v*) Section 24b of the home rule village act, 1909 PA 278, MCL 78.24b.

(*vi*) Section 36 of the general law village act, 1895 PA 3, MCL 68.36.

(*l*) "Project refinancing assistance" means buying or refinancing the debt obligations of municipalities within this state if construction activities commenced after March 7, 1985 and the debt obligation was incurred after March 7, 1985.

(m) "Sewage treatment works project" means construction activities on any device or system for the treatment, storage, collection, conveyance, recycling, or reclamation of the sewage of a municipality, including combined sewer overflow correction and major rehabilitation of sewers.

(n) "Stormwater management project" means construction activities of a municipality on any device or system for the treatment, storage, recycling, or reclamation of storm water that is conveyed by a storm sewer that is separate from a sanitary sewer.

324.5302 Construction of part; broad interpretation of powers; prohibited grants or loans; liability for costs.

Sec. 5302. (1) This part must be construed liberally to effectuate the legislative intent. All powers granted under this part must be broadly interpreted to effectuate the intent and purposes of this part and must not be interpreted as a limitation of powers.

(2) Except as may be authorized by the federal water pollution control act, the fund must not provide grant assistance to a municipality or provide loans for the local share of projects constructed with grants provided under title II of the federal water pollution control act, 33 USC 1281, 1282 to 1293, and 1294 to 1302f.

(3) This state is not liable to a municipality, or any other person performing services for the municipality, for costs incurred in developing or submitting an application for assistance under this part.

324.5303 Cooperative regional or intermunicipal projects; planning document; public participation activities; notice; public comment; development of priority list; submission of priority list to legislature; effective date of priority list; other actions not limited.

Sec. 5303. (1) During the development of a planning document, a municipality shall consider and utilize, where possible, cooperative regional or intermunicipal projects in satisfying sewerage needs.

(2) A municipality may submit a planning document for use by the department in developing a priority list. A municipality may submit as part of the planning document for a project either of the following:

(a) Any preexisting documents or plans that were prepared for another project for other purposes.

(b) Any preexisting documents that were developed under another local, state, or federal program, as applicable.

(3) A planning document must include documentation that demonstrates all of the following:

(a) The project is needed to enable maintenance of, or to progress toward, compliance with the federal water pollution control act, part 31, or part 41, and to meet the minimum requirements of the national environmental policy act of 1969, Public Law 91-190, 42 USC 4321, 4331 to 4335, and 4341 to 4347.

(b) An analysis of alternatives that meet the requirements of part 31 or 41, including the cost of each alternative and a resolution adopted by the municipality to implement a selected alternative.

(c) A description of project costs and how the project will be paid for including, but not limited to, an explanation of how the debt will be repaid.

(d) A list of the environmental and public health implications and mitigation plans.

(e) The need for the project.

(f) That feasible alternatives to the project were evaluated, considering volume reduction opportunities and the demographic, topographic, hydrologic, and institutional characteristics of the area.

(g) That the project is implementable from a legal, institutional, financial, and management standpoint.

(h) Any other information required by the department.

(4) A planning document must describe the public participation activities conducted during planning and must include all of the following:

(a) Significant issues raised by the public and any changes to the project that were made as a result of the public participation process.

(b) A demonstration that there were adequate opportunities for making public consultation, participation, and input in the decision-making process during alternatives selection.

(c) A demonstration that before the adoption of the planning document, the municipality held a public meeting on the proposed project not less than 15 days after advertising the public meeting in local media of general circulation including, but not limited to, the municipality's website, and at a time and place conducive to maximizing public input.

(d) A demonstration that, concurrent with advertisement of the public meeting, a notice of the public meeting was sent to all affected local, state, and federal agencies and to any public or private parties that expressed an interest in the proposed project.

(e) A summary of the public meeting including a list of all attendees, and any specific concerns that were raised.

(5) After notice and an opportunity for public comment, the department shall annually develop separate priority lists for sewage treatment works projects and stormwater management projects, nonpoint source projects, and projects funded under the strategic water quality initiatives fund created in section 5204. Projects not funded during the time that a priority list developed under this section is in effect must be automatically prioritized on the next annual list using the same criteria, unless the municipality submits an amendment to its planning document that introduces new information to be used as the basis for prioritization. The priority lists must be based on the planning documents and the scoring criteria developed under section 5303a.

(6) If a municipality is an overburdened community or a significantly overburdened community, the department shall automatically award the municipality at least 20% of the total allowable points.

(7) The priority list must be submitted annually to the chair of the senate and house of representatives standing committees that primarily consider legislation pertaining to the protection of natural resources and the environment.

(8) For purposes of providing assistance, the priority list takes effect on the first day of each fiscal year.

(9) This section does not limit other actions undertaken to enforce part 31, part 41, the federal water pollution control act, or any other act.

History: 1994, Act 451, Eff. Mar. 30, 1995;—Am. 2001, Act 221, Imd. Eff. Jan. 2, 2002;—Am. 2002, Act 398, Eff. Nov. 5, 2002;—Am. 2012, Act 560, Imd. Eff. Jan. 2, 2013;—Am. Act 132, Imd. Eff. June 30, 2022.

Compiler's note: Enacting section 2 of Act 398 of 2002 provides:

"Enacting section 2. This amendatory act does not take effect unless the question provided for in the Great Lakes water quality bond authorization act is approved by a majority of the registered electors voting on the question at the November 2002 general election."

Act 396 of 2002, the Great Lakes water quality bond authorization act, which was approved by the Governor on May 29, 2002, and filed with the Secretary of State on May 30, 2002, provided that bonds "shall not be issued under this act unless the question set forth in section 5 [MCL 324.95205] is approved by a majority vote of the registered electors voting on the question." In accordance with Const 1963, art 9, sec 15, the question of borrowing a sum of not to exceed $1,000,000,000.00 and the issuance of general obligation bonds of the state for the purposes set forth in the act was submitted to, and approved by, the qualified electors of the state as Proposal 02-2 at the November 5, 2002, general election.

324.5303a Scoring criteria for the prioritization of projects; departmental duties.

Sec. 5303a. (1) The department shall develop scoring criteria that assign points to and prioritize projects under section 5303 and definitions of overburdened community and significantly overburdened community. In developing scoring criteria and the definitions under this subsection, the department shall do all of the following:

(a) Consult with members of statewide local government associations and drinking water, wastewater, stormwater, and environmental organizations regarding the content of the scoring criteria and definitions.

(b) Publish, hold at least 1 public hearing, and allow for public comment.

(c) Review the scoring criteria and definitions not more than once every 3 years, unless otherwise directed by the United States Environmental Protection Agency.

(d) Publish, hold at least 1 public hearing, and allow for public comment on any changes made after a review under subdivision (c).

(2) The scoring criteria developed under subsection (1) must address the following:

(a) Wastewater regulatory compliance.

(b) Public health.

(c) Achieving water quality standards.

(d) Improving infrastructure.

(e) Impacts on overburdened communities and significantly overburdened communities.

(3) The definitions of overburdened community and significantly overburdened community developed under subsection (1) must address the following:

(a) Income and unemployment data.

(b) Population trends.

(c) Housing costs and values.

(d) Annual user costs, allocation of costs across customer classes, and historical and projected trends in user costs.

(e) Existing public health, environmental, and affordability impacts.

(f) Other data considered relevant by the department.

324.5304 Assistance; requirements.

Sec. 5304. Subject to sections 5309 and 5310, assistance provided to municipalities to construct sewage treatment works projects, stormwater projects, and nonpoint source projects shall be in accordance with all of the following:

(a) Assistance for approved sewage treatment works projects and stormwater treatment projects shall be provided for projects in the fundable range of the priority list developed pursuant to 5303, and to other projects that may become fundable pursuant to section 5310.

(b) Assistance for approved qualified nonpoint source projects shall be provided for projects in the fundable range of the priority list developed pursuant to section 5303. The director shall annually allocate at least 2% of the available funds to the extent needed to provide assistance to projects on the nonpoint source priority list. If these funds are not awarded, the allocation shall revert to provide assistance to projects on the sewage treatment works priority list.

324.5306 Intended use plan; preparation and submission; purpose; public participation; contents of plan; notice of approval; notification of municipality; information to be provided; schedule.

Sec. 5306. (1) The department shall prepare and submit an intended use plan annually to identify proposed annual intended uses of the fund, and to facilitate the negotiation process that the department may conduct with the United States Environmental Protection Agency for the capitalization grant agreement and schedule of payments to be made to this state under the federal water pollution control act.

(2) The department must allow for a public participation process that requires not less than 1 public hearing for the intended use plan by publishing a draft of the intended use plan on the department's website at least 14 days before a final intended use plan is submitted under subsection (1). The intended use plan must describe and identify all of the following:

(a) Additional subsidization that will be allocated to projects.

(b) The projects that will receive additional subsidization identified under subdivision (a).

(c) The reasons why a project will receive additional subsidization.

(3) Upon notice from the United States Environmental Protection Agency that the intended use plan is approved, the department shall notify each municipality of its inclusion on the intended use plan and shall provide copies of the sewage treatment works projects and stormwater management projects priority list, the nonpoint source project priority list, and the intended use plan to any person that requests that information. Following notification under this subsection, the department shall establish, with the concurrence of the municipality, a schedule for planning document approval, submittal of a completed application for assistance, and approval of plans and specifications.

324.5307 Project planning documents; review; approval or disapproval; extension of review period; notice of deficiencies; review of subsequent submittals.

Sec. 5307. (1) The department shall review, generally in priority order, any planning documents for projects in the fundable range and either approve or disapprove a planning document within 120 days after notifying the municipality of its inclusion in the intended use plan submitted under section 5306. Upon determination by the department that a project is complex and warrants additional review, the department shall notify the municipality and may extend the review period described in this subsection for not more than 60 days.

(2) If a planning document is disapproved, the department shall notify the municipality of any deficiencies that need to be corrected. The municipality shall correct any deficiencies and submit an amended planning document to the department within 45 days after receiving notice under this subsection.

(3) The department shall review subsequent submittals and either approve or disapprove an amended planning document within 90 days after the amended planning document is submitted.

(4) If an amended planning document is not approved, the department shall notify the municipality of the deficiencies.

History: 1994, Act 451, Eff. Mar. 30, 1995;—Am. Act 132, Imd. Eff. June 30, 2022.

324.5307a Environmental review of planning documents; necessity of environmental assessment; issuance of findings; environmental impact statement; compliance with national environmental policy act; reevaluation; action limitation.

Sec. 5307a. (1) The department shall conduct an environmental review of the planning document for each project in the fundable range of the priority list to determine whether any significant impacts are anticipated and whether any changes can be made in the project to eliminate significant adverse impacts. As part of the environmental review, the department may require a municipality to submit additional information or meet additional public participation and coordination requirements to justify the environmental determination.

(2) Based on the environmental review completed under subsection (1), the department may determine that an environmental assessment is necessary and the department may describe any of the following in its determination:

(a) The purpose and need for the project.

(b) The project costs.

(c) The alternatives considered and the reasons for their acceptance or rejection.

(d) The existing environment.

(e) Any potential adverse impacts and mitigative measures.

(f) How mitigative measures will be incorporated into the project, as well as any proposed conditions of financial assistance and the means for monitoring compliance with the conditions.

(3) Based on an environmental assessment completed under subsection (2), the department may issue a finding of no significant impact. The finding of no significant impact must document that the potential environmental impacts will not be significant or that the environmental impacts may be mitigated without extraordinary measures.

(4) Based on an environmental assessment completed under subsection (2), the department may require a municipality to complete an environmental impact statement if the department determines any of the following:

(a) The project will have significant adverse impacts on any of the following:

(*i*) Wetlands.

(*ii*) Flood plains.

(*iii*) Threatened or endangered species or habitats.

(*iv*) Cultural resources, including any of the following:

(A) Park lands.

(B) Preserves.

(C) Other public lands.

(D) Areas of recognized scenic, recreational, agricultural, archeological, or historical value.

(b) The project will cause significant displacement of population.

(c) The project will directly or indirectly, such as through induced development, have a significant adverse effect upon any of the following:

(*i*) Local ambient air quality.

(*ii*) Public health.

(*iii*) Local noise levels.

(*iv*) Surface water and groundwater quantity or quality.

(*v*) Shellfish.

(*vi*) Fish.

(*vii*) Wildlife.

(*viii*) Wildlife natural habitats.

(d) The project will generate significant public controversy.

(5) Based on the environmental impact statement, the department shall issue a record of decision summarizing the findings of the environmental impact statement that identifies the conditions under which the project can proceed and maintain compliance with the national environmental policy act of 1969, Public Law 91-190, 42 USC 4321, 4331 to 4335, and 4341 to 4347.

(6) If 5 or more years have elapsed since a determination of compliance with the national environmental policy act of 1969, Public Law 91-190, 42 USC 4321, 4331 to 4335, and 4341 to 4347, or if significant changes in the project have occurred, the department shall reevaluate the project for compliance with the national environmental policy act of 1969, Public Law 91-190, 42 USC 4321, 4331 to 4335, and 4341 to

4347, and the department may do any of the following:

(a) Reaffirm the original finding of no significant impact or the record of decision through the issuance of a public notice or statement of finding.

(b) Issue an amendment to a finding of no significant impact or revoke a finding of no significant impact and issue a public notice that the preparation of an environmental impact statement is required.

(c) Issue a supplement to a record of decision or revoke a record of decision and issue a public notice that financial assistance will not be provided.

(7) Action regarding approval of a planning document or provision of financial assistance must not be taken during a 30-day public comment period after the issuance of a finding of no significant impact or record of decision.

324.5308 Application for assistance; requirements; revenue source; acceptance; notice of additional information required; approval or disapproval of application.

Sec. 5308. (1) To apply for assistance from the fund, a municipality shall submit the following, if applicable, as determined by the department:

(a) If assistance is in the form of a loan, financial documentation that a dedicated source of revenue is established, consistent with municipal bond obligations existing at the time assistance is requested, and pledged to both of the following purposes:

(*i*) If assistance is in the form of a loan, the timely repayment of the loan.

(*ii*) Adequate revenues from a user-based source to fund the operation and maintenance of the project.

(b) A planning document approved under section 5307.

(c) A certification by an authorized representative of a municipality affirming that the municipality has the legal, managerial, institutional, and financial capability to build, operate, and maintain the project.

(d) A letter of credit, insurance, or other credit enhancement to support the credit position of the municipality, as required by the department.

(e) A set of plans and specifications suitable for bidding.

(f) A certification from an authorized representative of the municipality that the applicant has, or will have before the start of construction, all applicable state and federal permits required for construction of the project.

(g) A certified resolution from the municipality designating an authorized representative for the project.

(h) A certification from an authorized representative of the municipality that an undisclosed fact or event, or pending litigation, will not materially or adversely affect the project, the prospects for the project's completion, or the municipality's ability to make timely loan repayments, if applicable.

(i) All executed intermunicipal service agreements, if applicable.

(j) An agreement that the municipality will operate the project in compliance with applicable state and federal laws.

(k) An agreement that the municipality will not sell, lease, abandon, or otherwise dispose of the project without an effective assignment of obligations and the written approval of the department and the authority.

(*l*) An agreement that all municipal project accounts will be maintained in accordance with generally accepted government accounting standards as defined and required under the federal water pollution control act.

(m) An agreement that the municipality will provide written authorizations to the department for the purpose of examining the physical plant and for examining, reviewing, or auditing the operational or financial records of the project, and that the municipality will require similar authorizations from all contractors, consultants, or agents with which it negotiates an agreement.

(n) An agreement that all municipal contracts with contractors will provide that the contractor and any subcontractor may be subject to a financial audit and that contractors and subcontractors shall comply with generally accepted governmental accounting standards.

(o) An agreement that all pertinent records must be retained and available to the department for a minimum of 3 years after initiation of the operation and that if litigation, a claim, an appeal, or an audit is begun before the end of the 3-year period, records must be retained and available until the 3 years have passed or until the action is completed and resolved, whichever is longer. As used in this subdivision, "initiation of the operation" means the date certain set by the municipality and accepted by the department, on which use of the project begins for the purposes for which it was constructed.

(p) If the project is segmented as provided in section 5309, a schedule for completion of the project and

adequate assurance that the project will be completed with or without assistance from the fund or that the segmented project will be operational without completion of the entire project.

(q) An agreement that the project will proceed in a timely fashion if the application for assistance is approved.

(r) An application fee, if required by the department.

(2) The requirement under subsection (1)(a) for a dedicated source of revenue may include a revenue source pledged to repay the debt to the fund from sources including, but not limited to, 1 or more of the following:

(a) Ad valorem taxes.

(b) Special assessments.

(c) User-based revenue collections.

(d) General funds of the municipality.

(e) Benefit charges.

(f) Tap-in fees, or other 1-time assessments.

(3) The department shall accept applications for assistance from municipalities in the fundable range of the priority list that have approved planning documents. The department shall determine whether an application for assistance is administratively complete and notify the applicant within 30 days after receipt of the application specifying any additional information necessary to complete the application.

(4) The department shall approve or disapprove an application within 30 days of the determination that the application is complete.

324.5309 Segmentation of a project.

Sec. 5309. When the department prepares the priority list under section 5303, to ensure that a disproportionate share of available funds for a given fiscal year is not committed to a single project, the department may segment a project if the cost of the proposed project is more than 30% of the amount available in the fund.

History: 1994, Act 451, Eff. Mar. 30, 1995;—Am. Act 132, Imd. Eff. June 30, 2022.

324.5310 Project subject to bypass; notice to municipality; extension of schedule; effect of bypass.

Sec. 5310. (1) The department may bypass a project that fails to meet the schedule established under section 5306, or that does not have an approved planning document and application 90 days before the last day of the fiscal year, whichever comes first. The department must provide a municipality with written notice of the department's intent to bypass not less than 30 days before a project is bypassed under this section.

(2) If demand exceeds funding availability, a municipality may submit a written request to the department to extend the schedule established under section 5306 for not more than 60 days. A municipality must include in its written request the reason or reasons for its noncompliance with the schedule. A municipality may submit 1 additional written request to the department to extend the schedule established under section 5306 for not more than 30 days.

(3) A project bypassed under this section must not be considered for an order of approval until all other projects in the fundable range have been funded or rejected. This section does not prohibit the inclusion of the project in the priority list of the next annual funding cycle or the resubmission of an application for assistance in the next annual funding cycle.

(4) A bypass action under this section does not modify any compliance dates established in a permit, order, or other document issued by the department or entered as part of an action brought by this state or a federal agency.

(5) After a project is bypassed under this section, the department may award assistance to projects outside the fundable range. The department shall make assistance available to projects outside the fundable range in priority order contingent on the municipality's satisfaction of all applicable requirements for assistance under section 5308 within the time period established by the department, but not to exceed 60 days from the date of notice of bypass. The department shall notify a municipality with a project outside the fundable range of bypass action, of the amount of the bypassed funds available for obligation, and of the deadline for submitting

a complete, approvable application.

History: 1994, Act 451, Eff. Mar. 30, 1995;—Am. Act 132, Imd. Eff. June 30, 2022.

Popular name: Act 451

Popular name: NREPA

324.5311 Order of approval; certification of eligibility; establishment of interest rates.

Sec. 5311. (1) The department shall review a complete application for assistance for a project in the fundable range. If the department approves the application for assistance, the department shall issue, subject to section 5310, an order of approval to establish the specific terms of the assistance. The order of approval must include, but is not limited to, all of the following:

(a) The term of the assistance.

(b) The maximum principal amount of the assistance.

(c) The maximum rate of interest or method of calculation of the rate of interest that will be used, or the premium charged.

(2) The order of approval must incorporate all requirements, provisions, or information included in the application and other documents submitted to the department during the application process.

(3) After issuance of the order, the department shall certify to the authority that the municipality is eligible to receive assistance.

(4) The department shall annually establish the interest rates to be assessed for projects receiving assistance under this part. In establishing interest rates under this section, the department may provide for a different level of subsidy. The interest rates must be in effect for loans made during the next state fiscal year.

History: 1994, Act 451, Eff. Mar. 30, 1995;—Am. Act 132, Imd. Eff. June 30, 2022.

Popular name: Act 451

Popular name: NREPA

324.5312 Termination of assistance; determination; causes; notice; repayment of outstanding loan balance; requirements under state or federal law.

Sec. 5312. (1) The department may make a determination that assistance should be terminated and may issue an order recommending that the authority take appropriate action to terminate assistance.

(2) Cause for making a determination under subsection (1) includes, but is not limited to, 1 or more of the following:

(a) Substantial failure to comply with the terms and conditions of the agreement providing assistance.

(b) A legal finding or determination that the assistance was obtained by fraud.

(c) Practices in the administration of the project that are illegal or that may impair the successful completion or organization of the project.

(d) Misappropriation of assistance for uses other than those set forth in the agreement providing assistance.

(3) The department shall give written notice to the municipality by certified letter of the intent to issue an order recommending that assistance be terminated. This notification must be issued not less than 30 days before the department forwards the order recommending that the authority take appropriate action to terminate assistance.

(4) The termination of assistance by the authority shall not excuse or otherwise affect the municipality's requirement for repayment of the outstanding loan balance to the fund.

(5) Termination of assistance under this section does not relieve the municipality of any requirements that may exist under state or federal law to construct the project.

History: 1994, Act 451, Eff. Mar. 30, 1995.

Popular name: Act 451

Popular name: NREPA

324.5313 Petition; orders; repayment of outstanding loan balance; requirements under state or federal law.

Sec. 5313. (1) A municipality may petition the department to make a determination and issue an order under section 5312(1) for cause.

(2) The department may issue an order to terminate the project for cause that is effective on the date the project ceases activities.

(3) Subject to the termination of assistance by the authority and payment of any appropriate termination settlement costs, the department shall issue an order to the authority recommending appropriate action.

(4) The termination of assistance by the authority shall not excuse or otherwise affect the municipality's

requirement for repayment of the outstanding loan balance to the fund.

(5) Termination of the loan under this section does not relieve the municipality of any requirements that may exist under state or federal law to construct the project.

History: 1994, Act 451, Eff. Mar. 30, 1995.

Popular name: Act 451

Popular name: NREPA

324.5313b Project responsibilities of municipality; departmental guidance.

Sec. 5313b. (1) A municipality is responsible for obtaining any federal, state, or local permits necessary for the project and shall perform any surveys or studies that are required under the permits.

(2) A municipality shall incorporate all appropriate provisions, conditions, and mitigative measures included in the studies, surveys, permits, and licenses into the construction documents. The construction documents are subject to review by the department for conformity with environmental determinations and coordination requirements.

(3) All applicable and appropriate conditions and mitigative measures must be enforced by the municipality or its designated representative and apply to all construction and post-construction activities, including disposal of all liquid or solid spoils, waste material, and residuals from construction.

(4) A municipality may seek guidance from the department regarding the requirements under this part or the rules promulgated under this part.

324.5313c State revolving administration fund.

Sec. 5313c. (1) The state revolving administration fund is created within the state treasury. The state treasurer may receive money or other assets for any source for deposit into the state revolving administration fund. The state treasurer shall direct the investment of the state revolving administration fund and credit to the fund interest and earnings from fund investments. Money in the state revolving administration fund at the end of the fiscal year remains in the fund and does not lapse to the general fund. The department is the administrator of the state revolving administration fund for auditing purposes.

(2) Not more than 0.25% of the interest charged on a loan issued under this part or part 54 may be deposited into the state revolving administration fund.

(3) The department shall expend money from the fund only for the reasonable costs of administering and conducting activities under this part and part 54.

History: Add. 2022, Act 132, Imd. Eff. June 30, 2022.

Popular name: NREPA

324.5314 Costs of administering and implementing part; payment.

Sec. 5314. The costs of administering and implementing this part by the department, the designated agents of the department, and the authority may be paid from funds annually appropriated by the legislature from 1 or more of the following sources:

(a) An amount taken from the federal capitalization grant, subject to the limitations prescribed in the federal water pollution control act.

(b) Loan fees, not to exceed the ratio that the annual appropriation for administration of this part bears to the total value of loans awarded for the fiscal year in which the appropriation was made, as estimated in the intended use plan.

(c) Interest or earnings realized on loan repayments to the fund, unless the earnings are pledged to secure or repay any indebtedness of the authority.

(d) Proceeds of bonds or notes issued pursuant to the fund and sold by the authority.

(e) Any other money appropriated by the legislature.

324.5316 Powers of department.

Sec. 5316. The department has the powers necessary or convenient to carry out and effectuate the purpose, objectives, and provisions of this part, and the powers delegated by other laws or executive orders, including, but not limited to, the power to:

(a) Make, execute, and deliver contracts, conveyances, and other instruments necessary or convenient to the exercise of his or her powers.

(b) Solicit and accept gifts, grants, loans, allocations, appropriations, and other aid, including capitalization grant awards, from any person or the federal, state, or a local government or any agency of the federal, state, or local government, to enter into agreements with any person or the federal, state, or a local government, or to participate in any other way in any federal, state, or local government program consistent with this part and the purposes of this part.

(c) Negotiate and enter into agreements and amendments to agreements with the federal government to implement establishment and operation of the fund, including capitalization grant agreements and schedules of payments.

(d) Engage personnel as is necessary and engage the services of private consultants, managers, counsel, auditors, engineers, and scientists for rendering professional management and technical assistance and advice.

(e) Charge, impose, and collect fees and charges in connection with any transaction authorized under this part and provide for reasonable penalties for delinquent payment of fees or charges.

(f) Review and approve all necessary documents in a municipality's application for assistance and issue an order authorizing assistance to the authority.

(g) Promulgate rules necessary to carry out the purposes of this part and to exercise the powers expressly granted in this part.

(h) Administer, manage, and do all other things necessary or convenient to achieve the objectives and purposes of the fund, the authority, this part, or other state and federal laws that relate to the purposes and responsibilities of the fund.

(i) Make application requesting a capitalization grant and prepare, submit, and certify any required or appropriate information with that application.

(j) Establish priority lists and fundable ranges for projects and the criteria and methods used to determine the distribution of the funds available to the fund among the various types of assistance to be offered and to select projects to be funded.

(k) Prepare and submit an annual report required by the federal water pollution control act.

PART 54
(Safe Drinking Water Assistance)

324.5401 Definitions; A to C.

Sec. 5401. As used in this part:

(a) "Act 399" means the safe drinking water act, 1976 PA 399, MCL 325.1001 to 325.1023.

(b) "Annual user costs" means an annual charge levied by a water supplier on users of the waterworks system to pay for each user's share of the cost for operation, maintenance, and replacement of the waterworks system. These costs may also include a charge to pay for the debt obligation.

(c) "Assistance" means 1 or more of the following activities to the extent authorized by the federal safe drinking water act:

(*i*) Provision of loans for the planning, design, and construction or alteration of waterworks systems.

(*ii*) Project refinancing assistance.

(*iii*) The guarantee or purchase of insurance for local obligations, if the guarantee or purchase action would

improve credit market access or reduce interest rates.

(*iv*) Use of the proceeds of the fund as a source of revenue or security for the payment of principal and interest on revenue or general obligation bonds issued by this state, if the proceeds of the sale of the bonds will be deposited into the fund.

(*v*) Provision of loan guarantees for sub-state revolving funds established by water suppliers that are municipalities.

(*vi*) The use of deposited funds to earn interest on fund accounts.

(*vii*) Provision for reasonable costs of administering and conducting activities under this part.

(*viii*) Provision of technical assistance under this part.

(*ix*) Provision of loan forgiveness for certain planning costs incurred by overburdened communities.

(d) "Authority" means the Michigan municipal bond authority created in the shared credit rating act, 1985 PA 227, MCL 141.1051 to 141.1077.

(e) "Capitalization grant" means the federal grant made to this state by the United States Environmental Protection Agency, as provided in the federal safe drinking water act.

(f) "Community water supply" means a public water supply that provides year-round service to not less than 15 living units or that regularly provides year-round service to not less than 25 residents.

(g) "Construction activities" means any actions undertaken in the planning, designing, or building of a waterworks system. Construction activities include, but are not limited to, all of the following:

(*i*) Engineering services.

(*ii*) Legal services.

(*iii*) Financial services.

(*iv*) Preparation of plans and specifications.

(*v*) Acquisition of land or structural components, or both, if the acquisition is integral to a project authorized by this part and the purchase is from a willing seller at fair market value.

(*vi*) Building, erection, alteration, remodeling, or extension of waterworks systems, providing the extension is not primarily for the anticipation of future population growth.

(*vii*) Reasonable expenses of supervision of the project activities described in subparagraphs (*i*) to (*vi*).

History: Add. 1997, Act 26, Imd. Eff. June 17, 1997;—Am. Act 132, Imd. Eff. June 30, 2022.

Popular name: Act 451

Popular name: NREPA

324.5402 Definitions; D to N.

Sec. 5402. As used in this part:

(a) "Department" means the department of environment, Great Lakes, and energy or its authorized agent or representative.

(b) "Director" means the director of the department or his or her designated representative.

(c) "Federal safe drinking water act" means the safe drinking water act, 42 USC 300f to 300j-25, and the rules promulgated under that act.

(d) "Fund" means the state drinking water revolving fund established under section 16b of the shared credit rating act, 1985 PA 227, MCL 141.1066b.

(e) "Fundable range" means those projects, taken in descending order on the priority list, for which the department estimates sufficient funds exist to provide assistance during each annual funding cycle.

(f) "Municipality" means a city, village, county, township, authority, public school district, or other public body with taxing authority, including an intermunicipal agency of 2 or more municipalities, authorized or created under state law.

(g) "Noncommunity water supply" means a public water supply that is not a community water supply, but that has not less than 15 service connections or that serves not less than 25 individuals on an average daily basis for not less than 60 days per year.

History: Add. 1997, Act 26, Imd. Eff. June 17, 1997;—Am. 2012, Act 561, Imd. Eff. Jan. 2, 2013;—Am. Act 132, Imd. Eff. June 30, 2022.

Popular name: Act 451

Popular name: NREPA

324.5403 Definitions; P to W.

Sec. 5403. As used in this part:

(a) "Priority list" means the annual ranked listing of projects developed by the department in section 5406.

(b) "Project" means a project related to the planning, design, and construction or alteration of a waterworks system and may include utilization of more efficient energy and resources as described in any of the

following:

(*i*) The cost-effective governmental energy use act, 2012 PA 625, MCL 18.1711 to 18.1725.

(*ii*) Section 11c of 1851 PA 156, MCL 46.11c.

(*iii*) Section 75b of 1846 RS 16, MCL 41.75b.

(*iv*) Section 5f of the home rule city act, 1909 PA 279, MCL 117.5f.

(*v*) Section 24b of the home rule village act, 1909 PA 278, MCL 78.24b.

(*vi*) Section 36 of the general law village act, 1895 PA 3, MCL 68.36.

(c) "Project refinancing assistance" means buying or refinancing the debt obligations of water suppliers if construction activities commenced, and the debt obligation was incurred, after June 17, 1997.

(d) "Public water supply" means a waterworks system that provides water for drinking or household purposes to persons other than the water supplier, except for those waterworks systems that supply water to only 1 house, apartment, or other domicile occupied or intended to be occupied on a day-to-day basis by an individual, family group, or equivalent.

(e) "State drinking water standards" means rules promulgated under section 5 of Act 399, MCL 325.1005, that establish water quality standards necessary to protect public health or that establish treatment techniques to meet these water quality standards.

(f) "Water supplier" or "supplier" means a municipality or its designated representative accepted by the director, a legal business entity, or any other person that owns a public water supply. However, water supplier does not include a water hauler.

(g) "Waterworks system" or "system" means a system of pipes and structures through which water is obtained or distributed and includes any of the following that are actually used or intended to be used for the purpose of furnishing water for drinking or household purposes:

(*i*) Wells and well structures.

(*ii*) Intakes and cribs.

(*iii*) Pumping stations.

(*iv*) Treatment plants.

(*v*) Storage tanks.

(*vi*) Pipelines, service lines, and appurtenances.

(*vii*) A combination of any of the items specified in subparagraphs (*i*) to (*vi*).

History: Add. 1997, Act 26, Imd. Eff. June 17, 1997;—Am. 2021, Act 45, Imd. Eff. July 1, 2021;—Am. Act 132, Imd. Eff. June 30, 2022.

Popular name: Act 451

Popular name: NREPA

324.5404 Water suppliers; qualifications for assistance.

Sec. 5404. (1) Water suppliers that own the following types of public water supplies qualify to receive assistance under this part:

(a) A community water supply.

(b) A noncommunity water supply that operates as a nonprofit entity.

(2) Water suppliers identified in subsection (1) that serve 10,000 people or less may qualify for assistance from funds prescribed in section 1452(a)(2) of the federal safe drinking water act, 42 USC 300j-12.

(3) On completion and submittal of approved planning documents by an overburdened community to the department, if the overburdened community incurred planning costs related to the proposed project, the overburdened community must be directly reimbursed by the department to the extent funds are available. Technical assistance funds identified in section 1452(g)(2)(D) or section 1452(d)(1) of the federal safe drinking water act, 42 USC 300j-12, must be used to the extent available, to forgive repayment of the planning loan.

(4) Only water suppliers that have no outstanding prior year fees as prescribed in Act 399 may receive assistance under this part.

History: Add. 1997, Act 26, Imd. Eff. June 17, 1997;—Am. Act 132, Imd. Eff. June 30, 2022.

Popular name: Act 451

Popular name: NREPA

324.5405 Water suppliers; application for assistance; planning document requirements.

Sec. 5405. (1) A water supplier that is interested in applying for assistance under this part shall prepare and submit to the department a planning document as provided in this section. The department shall use the planning documents submitted under this section to develop a priority list for assistance as provided under this part. A water supplier may submit as part of the planning document for a project either of the following:

(a) Any preexisting documents or plans that were prepared for other projects or purposes.

(b) Any preexisting documents that were developed under another local, state, or federal program, as applicable.

(2) During the development of a planning document, a water supplier that is a municipality shall consider and utilize, where practicable, cooperative regional or intermunicipal projects, and a water supplier that is not a municipality shall consider and utilize, where practicable, connection to, or ownership by, a water supplier that is a municipality.

(3) A planning document must include documentation that demonstrates all of the following:

(a) The project is needed to ensure maintenance of or progress toward compliance with the minimum requirements of the national environmental policy act of 1969, Public Law 91-190, 42 USC 4321, 4331 to 4335, and 4341 to 4347.

(b) An analysis of alternatives including the cost of each alternative.

(c) A description of project costs and how the project will be paid for including, but not limited to, an explanation of how the debt will be repaid.

(d) A list of the environmental and public health implications and mitigation plans.

(e) Consideration of opportunities to utilize more efficient energy and resources as described in any of the following:

(*i*) The cost-effective governmental energy use act, 2012 PA 625, MCL 18.1711 to 18.1725.

(*ii*) Section 11c of 1851 PA 156, MCL 46.11c.

(*iii*) Section 75b of 1846 RS 16, MCL 41.75b.

(*iv*) Section 5f of the home rule city act, 1909 PA 279, MCL 117.5f.

(*v*) Section 24b of the home rule village act, 1909 PA 278, MCL 78.24b.

(*vi*) Section 36 of the general law village act, 1895 PA 3, MCL 68.36.

(4) A planning document must describe the public participation activities conducted during planning and must include all of the following:

(a) Significant issues raised by the public and any changes to the project that were made as a result of the public participation process.

(b) A demonstration that there were adequate opportunities for public consultation, participation, and input in the decision-making process during alternative selection.

(c) A demonstration that before the adoption of the planning document, the water supplier held a public meeting on the proposed project not less than 10 days after advertising the public meeting in local media of general circulation including, but not limited to, the water supplier's website, and at a time and place conducive to maximizing public input.

(d) A demonstration that, concurrent with advertisement of the public meeting, a notice of public meeting was sent to all affected local, state, and federal agencies and to any public or private parties that expressed an interest in the proposed project.

(e) A summary of the public meeting, including a list of all attendees and any specific concerns that were raised.

(5) A planning document must include either of the following, as appropriate:

(a) For a water supplier that is a municipality, a resolution adopted by the governing board of the municipality approving the planning document.

(b) For a water supplier that is not a municipality, a statement of intent to implement the planning document.

(6) A planning document must not have as a primary purpose the construction of or expansion of a waterworks system to accommodate future development or fire protection.

History: Add. 1997, Act 26, Imd. Eff. June 17, 1997;—Am. 2021, Act 45, Imd. Eff. July 1, 2021;—Am. Act 132, Imd. Eff. June 30, 2022.

Popular name: Act 451

Popular name: NREPA

324.5406 Priority list of projects eligible for assistance; effective first day of fiscal year.

Sec. 5406. (1) The department shall annually develop a priority list of projects eligible for assistance under this part. The priority list must be based on planning documents and the scoring criteria developed under section 5406a.

(2) For purposes of providing assistance, the priority list takes effect on the first day of each fiscal year.

History: Add. 1997, Act 26, Imd. Eff. June 17, 1997;—Am. 2012, Act 561, Imd. Eff. Jan. 2, 2013;—Am. Act 132, Imd. Eff. June 30, 2022.

Popular name: Act 451

Popular name: NREPA

324.5406a Scoring criteria for the prioritization of projects; departmental duties.

Sec. 5406a. (1) The department shall develop scoring criteria that assign points to and prioritize projects under section 5406 and definitions of overburdened community and significantly overburdened community. In developing scoring criteria and the definitions under this subsection, the department shall do all of the following:

(a) Consult with members of statewide local government associations and drinking water, wastewater, stormwater, and environmental organizations regarding the content of the scoring criteria and definitions.

(b) Publish, hold at least 1 public hearing, and allow for public comment.

(c) Review the scoring criteria and the definitions not more than once every 3 years, unless otherwise directed by the United States Environmental Protection Agency.

(d) Publish, hold at least 1 public hearing, and allow for public comment on any changes made after a review under subdivision (c).

(2) The scoring criteria developed under subsection (1) must address the following:

(a) Drinking water regulatory compliance.

(b) Public health.

(c) Drinking water quality.

(d) Improving infrastructure.

(e) Impacts on overburdened communities and significantly overburdened communities.

(3) The definitions of overburdened community and significantly overburdened community developed under subsection (1) must address the following:

(a) Income and unemployment data.

(b) Population trends.

(c) Housing costs and values.

(d) Annual user costs, allocation of costs across customer classes, and historical and projected trends in user costs.

(e) Existing public health, environmental, and affordability impacts.

(f) Other data considered relevant by the department.

History: Add. 2022, Act 132, Imd. Eff. June 30, 2022.

Popular name: Act 451

Popular name: NREPA

324.5407 Identification of projects in fundable range.

Sec. 5407. The department shall annually identify those projects in the fundable range of the priority list. Following the identification of projects in the fundable range, the department shall review, generally in priority order, the planning documents for these projects and, following completion of the environmental review process described in section 5408, either approve or disapprove the planning documents.

History: Add. 1997, Act 26, Imd. Eff. June 17, 1997;—Am. Act 132, Imd. Eff. June 30, 2022.

Popular name: Act 451

Popular name: NREPA

324.5407a Segmentation of a project.

Sec. 5407a. When the department prepares the priority list under section 5406, to ensure that a disproportionate share of available funds for a given fiscal year is not committed to a single project, the department may segment the project if the cost of the proposed project is more than 30% of the amount available in the fund.

History: Add. 2022, Act 132, Imd. Eff. June 30, 2022.

Popular name: Act 451

Popular name: NREPA

324.5408 Planning documents; environmental review; categorical exclusion; criteria; environmental assessment; finding of no significant impact; environmental impact statement; record of decision; project reevaluation for compliance with national environmental policy act requirements; action prohibited during public comment period.

Sec. 5408. (1) The department shall conduct an environmental review of the planning documents of each project in the fundable range of the priority list to determine whether any significant impacts are anticipated and whether any changes can be made in the project to eliminate significant adverse impacts. As part of this

review, the department may require the water supplier to submit additional information or meet additional public participation and coordination requirements to justify the environmental determination.

(2) Based on the environmental review under subsection (1), the department may issue a categorical exclusion for categories of actions that do not individually, cumulatively over time, or in conjunction with other federal, state, local, or private actions have a significant adverse effect on the quality of the human environment or public health. Additional environmental information documentation, environmental assessments, and environmental impact statements will not be required for excluded actions.

(3) Following receipt of the planning document, the director shall determine if the proposed project qualifies for a categorical exclusion and document the decision.

(4) The director may revoke a categorical exclusion and require a complete environmental review if, after the determination, the director finds any of the following:

(a) The proposed project no longer qualifies for a categorical exclusion due to changes in the proposed plan.

(b) New evidence exists documenting a serious health or environmental issue.

(c) Federal, state, local, or tribal laws will be violated by the proposed project.

(5) The proposed project must not qualify for a categorical exclusion if the director determines any of the following criteria are applicable:

(a) The proposed project will result in an increase in residuals and sludge generated by drinking water processes, either volume or type, that would negatively impact the performance of the waterworks system or the disposal methods, or would threaten an aquifer recharge zone.

(b) The proposed project will provide service to a population greater than 30% of the existing population.

(c) The proposed project is known, or expected, to directly or indirectly affect cultural areas, fauna or flora habitats, endangered or threatened species, or environmentally important natural resource areas.

(d) The proposed project directly or indirectly involves the extension of transmission systems to new service areas.

(e) The proposed project is shown not to be the cost-effective alternative.

(f) The proposed project will cause significant public controversy.

(6) If, based on the environmental review under subsection (1), the department determines that an environmental assessment is necessary, the department may describe the following:

(a) The purpose and need for the project.

(b) The project, including its costs.

(c) The alternatives considered and the reasons for their acceptance or rejection.

(d) The existing environment.

(e) Any potential adverse impacts and mitigative measures.

(f) How mitigative measures will be incorporated into the project, as well as any proposed conditions of financial assistance and the means for monitoring compliance with the conditions.

(7) The department may issue a finding of no significant impact, based on an environmental assessment that documents that potential environmental impacts will not be significant or that they may be mitigated without extraordinary measures.

(8) An environmental impact statement may be required when the department determines any of the following:

(a) The project will have a significant impact on the pattern and type of land use or the growth and distribution of the population.

(b) The effects of the project's construction or operation will conflict with local or state laws or policies.

(c) The project will have significant adverse impacts on any of the following:

(*i*) Wetlands.

(*ii*) Flood plains.

(*iii*) Threatened or endangered species or habitats.

(*iv*) Cultural resources, including any of the following:

(A) Park lands.

(B) Preserves.

(C) Other public lands.

(D) Areas of recognized scenic, recreational, agricultural, archeological, or historical value.

(d) The project will cause significant displacement of population.

(e) The project will directly or indirectly, such as through induced development, have a significant adverse effect on any of the following:

(*i*) Local ambient air quality.

(*ii*) Public health.

(*iii*) Local noise levels.
(*iv*) Surface water and groundwater quantity or quality.
(*v*) Shellfish.
(*vi*) Fish.
(*vii*) Wildlife.
(*viii*) Wildlife natural habitats.
(f) The project will generate significant public controversy.
(9) Based on the environmental impact statement, a record of decision summarizing the findings of the environmental impact statement must be issued identifying those conditions under which the project can proceed and maintain compliance with the national environmental policy act of 1969, Public Law 91-190, 42 USC 4321, 4331 to 4335, and 4341 to 4347.
(10) If 5 or more years have elapsed since a determination of compliance with the national environmental policy act of 1969, Public Law 91-190, 42 USC 4321, 4331 to 4335, and 4341 to 4347, or if significant changes in the project have taken place, the department shall reevaluate the project for compliance with the national environmental policy act of 1969, Public Law 91-190, 42 USC 4321, 4331 to 4335, and 4341 to 4347, requirements. The department may do any of the following:
(a) Reaffirm the original finding of no significant impact or the record of decision through the issuance of a public notice or statement of finding.
(b) Issue an amendment to a finding of no significant impact or revoke a finding of no significant impact and issue a public notice that the preparation of an environmental impact statement is required.
(c) Issue a supplement to a record of decision or revoke a record of decision and issue a public notice that financial assistance will not be provided.
(11) Action regarding approval of a planning document or provision of financial assistance must not be taken during a 30-day public comment period after the issuance of a finding of no significant impact or record of decision.

324.5409 Application for fund assistance; contents; availability of revenue sources; acceptance of applications by department; liability for incurred costs.

Sec. 5409. (1) A water supplier whose planning document is approved or under review by the department under section 5407 may apply for assistance from the fund by submitting an application to the department. A completed application must include all of the following, if applicable, as determined by the department:
(a) If assistance is in the form of a loan, financial documentation that a dedicated source of revenue is established, consistent with obligations of debt instruments existing at the time assistance is requested, and pledged to both of the following purposes:
(*i*) The timely repayment of principal and interest.
(*ii*) Adequate revenues to fund the operation and maintenance of the project.
(b) Evidence of an approved planning document.
(c) A certified resolution from a water supplier that is a municipality, or a letter of appointment from a water supplier that is not a municipality, designating an authorized representative for the project.
(d) A certification by an authorized representative of the water supplier affirming that the water supplier has the legal, institutional, technical, financial, and managerial capability to build, operate, and maintain the project.
(e) A letter of credit, insurance, or other credit enhancement to support the credit position of the water supplier, as required by the department.
(f) A set of plans and specifications developed in accordance with Act 399 that is suitable for bidding.
(g) A certification from an authorized representative of the water supplier that it has, or will have before the start of construction, all applicable state and federal permits required for construction of the project.
(h) A certification from an authorized representative of the water supplier that an undisclosed fact or event, or pending litigation, will not materially or adversely affect the project, the prospects for its completion, or the water supplier's ability to make timely loan repayments, if applicable.
(i) If applicable, all executed service contracts or agreements.
(j) An agreement that the water supplier will operate the waterworks system in compliance with applicable state and federal laws.
(k) An agreement that the water supplier will not sell, lease, abandon, or otherwise dispose of the

waterworks system without an effective assignment of obligations and prior written approval of the department and the authority.

(*l*) An agreement that:

(*i*) For water suppliers that are municipalities, all accounts must be maintained in accordance with generally accepted accounting practices, generally accepted government auditing standards, and 31 USC 7501 to 7507, as required by the federal safe drinking water act.

(*ii*) For water suppliers that are not municipalities, all accounts must be maintained in accordance with generally accepted accounting practices and generally accepted auditing standards.

(m) An agreement that all water supplier contracts with contractors will require them to maintain project accounts in accordance with the requirements of this subsection and provide notice that any subcontractor may be subject to a financial audit as part of an overall project audit.

(n) An agreement that the water supplier will provide written authorizations to the department for the purpose of examining the physical plant and for examining, reviewing, or auditing the operational or financial records of the project, and that the water supplier will require similar authorizations from all contractors, consultants, or agents with which it negotiates an agreement.

(o) An agreement that all pertinent records must be retained and available to the department for a minimum of 3 years after initiation of the operation and that if litigation or a claim, appeal, or audit is begun before the end of the 3-year period, records must be retained and available until the 3 years have passed or until the action is completed and resolved, whichever is longer. As used in this subdivision, "initiation of the operation" means the date certain set by the water supplier and accepted by the department, on which use of the project begins for the purposes for which it was constructed.

(p) An agreement that the project will proceed in a timely fashion if the application for assistance is approved.

(q) An application fee, if required by the department.

(2) A demonstration that a dedicated source of revenue will be available for operating and maintaining the waterworks system and repaying the incurred debt.

(3) The department shall accept applications for assistance from water suppliers in the fundable range of the priority list and determine whether an application for assistance is complete.

(4) This state is not liable to a water supplier, or any other person performing services for the water supplier, for costs incurred in developing or submitting an application for assistance under this part.

324.5410 Water suppliers; responsibility to obtain permits or clearances; incorporation of provisions, conditions, and mitigative measures; review of documents by department; enforcement.

Sec. 5410. (1) A water supplier who receives assistance under this part is responsible for obtaining any federal, state, or local permits or clearances required for the project and shall perform any surveys or studies that are required in conjunction with the permits or clearances.

(2) A water supplier who receives assistance under this part shall incorporate all appropriate provisions, conditions, and mitigative measures included in the applicable studies, surveys, permits, clearances, and licenses into the construction documents. These documents are subject to review by the department for conformity with environmental determinations and coordination requirements.

(3) All applicable and appropriate conditions and mitigative measures shall be enforced by the water supplier or its designated representative and shall apply to all construction and post-construction activities, including disposal of all liquid or solid spoils, waste material, and residuals from construction.

324.5411 Application for assistance; review by department; order of approval; incorporation of other documents; use of project assistance as matching requirements; eligibility certification.

Sec. 5411. (1) The department shall review a complete application for assistance for a proposed project submitted under section 5409. If the department approves the application for assistance, the department shall issue an order of approval to establish the specific terms of the assistance. The order of approval shall include,

but need not be limited to, all of the following:

(a) The term of the assistance.

(b) The maximum principal amount of the assistance.

(c) The maximum rate of interest or method of calculation of the rate of interest that will be used, or the premium charged.

(2) The order of approval under subsection (1) shall incorporate all requirements, provisions, or information included in the application and other documents submitted to the department during the application process.

(3) The department shall not prohibit a water supplier from using assistance for a project to meet match requirements for federal loans or grants for that project.

(4) After issuance of the order of approval under subsection (1), the department shall certify to the authority that the water supplier is eligible to receive assistance.

Popular name: NREPA

324.5412 Bypassed projects.

Sec. 5412. (1) The department may bypass projects that fail to meet the schedule negotiated and agreed upon between the water supplier and the department, or that do not have approved planning documents and specifications and an approvable application 90 days before the last day of the state fiscal year, whichever comes first.

(2) A water supplier may submit a written request to the department to extend a project schedule for not more than 60 days. The request must provide the reason for the noncompliance with the schedule. A water supplier may file 1 additional 30-day extension request to its schedule.

(3) A project bypassed under this section must not be considered for an order of approval until all other projects have either been funded or rejected. This section does not prohibit the inclusion of the project in the priority list of the next annual funding cycle or the resubmission of an application for assistance in the next annual funding cycle.

(4) The department shall provide affected water suppliers with a written notice of intent to bypass not less than 30 days before the bypass action.

(5) For projects bypassed under this section, the department shall transmit to the water supplier an official notice of bypass for the fundable project.

(6) A bypass action under this section does not modify any compliance dates established under a permit, order, or other document issued by the department or entered as part of an action brought by this state or a federal agency.

(7) After a project is bypassed, the department may award assistance to projects outside the fundable range. Assistance must be made available to projects outside the fundable range in priority order contingent upon the water supplier's satisfaction of all applicable requirements for assistance within the time period established by the department, but not to exceed 60 days from the date of notification. The department shall notify water suppliers with projects outside the fundable range of bypass action, of the amount of bypassed funds available for obligation, and of the deadline for submittal of a complete, approvable application.

324.5413 Determination to terminate assistance; issuance of order by department; cause; written notice to water supplier; repayment of outstanding loan balance not affected; other state and federal requirements not relieved; responsibility for settlement costs.

Sec. 5413. (1) The department may make a determination that assistance should be terminated and may issue an order recommending that the authority take appropriate action to terminate assistance.

(2) Cause for making a determination under subsection (1) includes, but is not limited to, 1 or more of the following:

(a) Substantial failure to comply with the terms and conditions of the agreement providing assistance.

(b) A legal finding or determination that the assistance was obtained by fraud.

(c) Practices in the administration of the project that are illegal or that may impair the successful completion or organization of the project.

(d) Misappropriation of assistance for uses other than those set forth in the agreement providing assistance.

(e) Failure to accept an offer of assistance from the fund within a period of 30 days after receipt of a proposed loan agreement from the authority.

(3) The department shall give written notice to the water supplier by certified letter of the intent to issue an order of termination. This notification shall be issued not less than 30 days before the department forwards the order recommending that the authority take appropriate action to terminate assistance.

(4) The termination of assistance by the authority shall not excuse or otherwise affect the water supplier's requirement for repayment of the outstanding loan balance to the fund. The water supplier shall repay the outstanding loan proceeds according to a schedule established by the authority.

(5) Termination of assistance under this section does not relieve the water supplier of any requirements that may exist under state or federal law to construct the project.

(6) Any settlement costs incurred in the termination of project assistance are the responsibility of the water supplier.

History: Add. 1997, Act 26, Imd. Eff. June 17, 1997.

Popular name: Act 451

Popular name: NREPA

324.5414 Determination to terminate assistance; petition by water supplier; issuance of order by department; cause; repayment of outstanding loan balance not affected; other state or federal laws not relieved; responsibility for settlement costs.

Sec. 5414. (1) A water supplier may petition the department to make a determination that assistance to that water supplier should be terminated.

(2) Upon receipt of a petition under subsection (1), the department may issue an order recommending the authority to take appropriate action to terminate the assistance for a project for cause. The order is effective on the date the project ceases activities.

(3) Subject to the termination of assistance by the authority and payment of any appropriate termination settlement costs, the department shall issue an order of termination to the authority recommending appropriate action.

(4) The termination of assistance by the authority does not excuse or otherwise affect the water supplier's requirement for repayment of the outstanding loan balance to the fund. The water supplier shall repay the outstanding loan proceeds according to a schedule established by the authority.

(5) Termination of assistance under this section does not relieve the water supplier of any requirements that may exist under state or federal law to construct the project.

(6) Any settlement costs incurred in the termination of project assistance are the responsibility of the water supplier.

324.5415a Project responsibilities of water supplier; departmental guidance.

Sec. 5415a. (1) A water supplier is responsible for obtaining any federal, state, or local permits necessary for the project and shall perform any surveys or studies that are required under the permits.

(2) A water supplier shall incorporate all appropriate provisions, conditions, and mitigative measures included in the studies, surveys, permits, and licenses into the construction documents. The construction documents are subject to review by the department for conformity with environmental determinations and coordination requirements.

(3) All applicable and appropriate conditions and mitigative measures must be enforced by the municipality or its designated representative and apply to all construction and post-construction activities, including disposal of all liquid or solid spoils, waste material, and residuals from construction.

(4) A water supplier may seek guidance from the department regarding the requirements under this part or the rules promulgated under this part.

324.5416 Administration and implementation costs; payment sources.

Sec. 5416. The costs of administering and implementing this part by the department, the designated agents of the department, and the authority may be paid from funds annually appropriated by the legislature from 1 or more of the following sources:

(a) An amount allowed under the federal safe drinking water act.

(b) A local match provided by the water supplier receiving assistance not to exceed the department's administrative costs associated with providing the assistance.

(c) Interest or earnings realized on loan repayments to the fund, unless the earnings are pledged to secure or repay any indebtedness of the authority.

(d) Proceeds of bonds or notes issued pursuant to the fund and sold by the authority.

(e) Collection of fees and charges by the department in connection with a transaction authorized under this part.

(f) Any other money appropriated by the legislature.

324.5417 Powers of department.

Sec. 5417. In implementing this part, the department may do 1 or more of the following:

(a) Make, execute, and deliver contracts, conveyances, and other instruments necessary or convenient for the implementation of this part.

(b) Solicit and accept gifts, grants, loans, allocations, appropriations, and other aid, including capitalization grant awards, from any person or the federal, state, or a local government or any agency of the federal, state, or local government, enter into agreements with any person or the federal, state, or a local government, or participate in any other way in any federal, state, or local government program consistent with this part and the purposes of this part.

(c) Expend federal and state money allocated under the federal safe drinking water act for any of the following purposes, in accordance with that act:

(*i*) Fund activities authorized under section 1452(g)(2) of the federal safe drinking water act, 42 USC 300j-12, which may include fund administration and the provision of set-asides annually identified as part of an intended use plan.

(*ii*) Fund implementation of a technical assistance program created in Act 399 and used by the state to provide technical assistance to public water systems serving not more than 10,000 persons.

(*iii*) Fund activities authorized under section 1452(k) of the federal safe drinking water act, 42 USC 300j-12, which may include the lending of money for certain source water protection efforts, assisting in the implementation of capacity development strategies, conducting source water assessments, and implementing wellhead protection programs.

(d) Negotiate and enter into agreements and amendments to agreements with the federal government to implement establishment and operation of the fund, including capitalization grant agreements and schedules of payments.

(e) Employ personnel as is necessary, and contract for the services of private consultants, managers, counsel, auditors, engineers, and scientists for rendering professional management and technical assistance and advice.

(f) Charge, impose, and collect fees and charges in connection with any transaction authorized under this part and provide for reasonable penalties for delinquent payment of fees or charges.

(g) Review and approve all necessary documents in a water supplier's application for assistance and issue an order authorizing assistance to the authority.

(h) Promulgate rules necessary to carry out the purposes of this part and to exercise the powers expressly granted in this part.

(i) Administer, manage, and do all other things necessary or convenient to achieve the objectives and purposes of the fund, the authority, this part, or other state and federal laws that relate to the purposes and

responsibilities of the fund.

(j) Apply for a capitalization grant and prepare, submit, and certify any required or appropriate information with that application.

(k) Establish priority lists and fundable ranges for projects and the scoring criteria and methods used to determine the distribution of the funds available to the fund among the various types of assistance to be offered and select projects to be funded.

(*l*) Prepare and submit an annual intended use plan and an annual report as required under the federal safe drinking water act. The department shall annually invite stakeholders including, but not limited to, representatives of water utilities, local units of government, agricultural interests, industry, public health organizations, medical organizations, environmental organizations, consumer organizations, and drinking water consumers who are not affiliated with any of the other represented interests, to 1 or more public meetings to provide recommendations for the development of the annual intended use plan as it relates to the set-asides allowed under the federal safe drinking water act. The intended use plan must describe and identify all of the following:

(*i*) Additional subsidization that will be allocated to projects.

(*ii*) The projects that will receive additional subsidization identified under subparagraph (*i*).

(*iii*) The reasons why a project will receive additional subsidization.

(m) Perform other functions necessary or convenient for the implementation of this part.

AIR RESOURCES PROTECTION

PART 55
AIR POLLUTION CONTROL

324.5501 Definitions.

Sec. 5501. As used in this part:

(a) "Air contaminant" means a dust, fume, gas, mist, odor, smoke, vapor, or any combination thereof.

(b) "Air pollution" means the presence in the outdoor atmosphere of air contaminants in quantities, of characteristics, under conditions and circumstances, and of a duration that are or can become injurious to human health or welfare, to animal life, to plant life, or to property, or that interfere with the enjoyment of life and property in this state. Air pollution does not mean any health or safety hazard that is an aspect of employer-employee relationships. With respect to any mode of transportation, nothing in this part or in the rules promulgated under this part shall be inconsistent with the federal regulations, emission limits, standards, or requirements on various modes of transportation. Air pollution does not mean those usual and ordinary odors associated with a farm operation if the person engaged in the farm operation is following generally accepted agricultural and management practices.

(c) "Air pollution control equipment" means any method, process, or equipment that removes, reduces, or renders less noxious air contaminants discharged into the atmosphere.

(d) "Category A facility" means a fee-subject facility that is an electric provider and is any of the following:

(*i*) A major stationary source as defined in 42 USC 7602.

(*ii*) An affected source as defined pursuant to 42 USC 7651a.

(*iii*) A major stationary source as defined in 42 USC 7491.

(e) "Category B facility" means a fee-subject facility that is not an electric provider and is any of the following:

(*i*) A major stationary source as defined in 42 USC 7602.

(*ii*) An affected source as defined pursuant to 42 USC 7651a.

(*iii*) A major stationary source as defined in 42 USC 7491.

(f) "Category C facility" means a fee-subject facility that is not a category A or category B facility and that is a major source as defined in 42 USC 7412.

(g) "Category D facility" means a fee-subject facility that is not a category A, category B, or category C facility and that is subject to requirements of 42 USC 7411.

However, a source is not a category D facility if any of the following apply:

(*i*) All equipment at the source meets a permit to install exemption in R 336.1280 to R 336.1291 of the Michigan Administrative Code and does not have an active permit to install.

(*ii*) The source is stripper well property as defined in 26 USC 613A(c)(6)(E).

(h) "Category E facility" means a fee-subject facility that is not a category A, category B, category C, or category D facility and that has an active title V opt-out permit.

(*i*) "Category F facility" means a fee-subject facility that is not a category A, category B, category C, category D, or category E facility.

(j) "Clean air act" means chapter 360, 69 Stat 322, 42 USC 7401 to 7671q, and regulations promulgated under the clean air act.

(k) "Electric provider" means that term as defined in section 5 of the clean and renewable energy and energy waste reduction act, 2008 PA 295, MCL 460.1005.

(*l*) "Emission" means the emission of an air contaminant.

(m) "Farm operation" means that term as defined in section 2 of the Michigan right to farm act, 1981 PA 93, MCL 286.472.

(n) "Fee-subject air pollutant" means particulates, expressed as PM-10 pursuant to R 336.1116(k) of the Michigan Administrative Code, sulfur dioxide, volatile organic compounds, nitrogen oxides, ozone, lead, and any pollutant regulated under 42 USC 7411 or 7412 or title III of the clean air act, chapter 360, 77 Stat 400, 42 USC 7601 to 7628.

(o) "Fee-subject emissions" means emissions of fee-subject air pollutants.

(p) "Fee-subject facility" means the following sources:

(*i*) Any major source as defined in 40 CFR 70.2.

(*ii*) Any source, including an area source, subject to a standard, limitation, or other requirement under 42 USC 7411, when the standard, limitation, or other requirement becomes applicable to that source.

(*iii*) Any source, including an area source, subject to a standard, limitation, or other requirement under 42 USC 7412, when the standard, limitation, or other requirement becomes applicable to that source. However, a source is not a fee-subject facility solely because it is subject to a regulation, limitation, or requirement under 42 USC 7412(r).

(*iv*) Any affected source under title IV.

(*v*) Any other source in a source category designated by the administrator of the United States Environmental Protection Agency as required to obtain an operating permit under title V, when the standard, limitation, or other requirement becomes applicable to that source.

(*vi*) Any source with an active title V opt-out permit.

(q) "Fund" means the emissions control fund created in section 5521.

(r) "General permit" means a permit to install, permit to operate authorized pursuant to rules promulgated under section 5505(6), or an operating permit under section 5506, for a category of similar sources, processes, or process equipment. General provisions for issuance of general permits shall be provided for by rule.

(s) "Generally accepted agricultural and management practices" means that term as defined in section 2 of the Michigan right to farm act, 1981 PA 93, MCL 286.472.

(t) "Major emitting facility" means a stationary source that emits 100 tons or more per year of any of the following:

(*i*) Particulates.

(*ii*) Sulfur dioxides.

(*iii*) Volatile organic compounds.

(*iv*) Oxides of nitrogen.

(u) "Process", unless the context requires a different meaning, means an action, operation, or a series of actions or operations at a source that emits or has the potential to emit an air contaminant.

(v) "Process equipment" means all equipment, devices, and auxiliary components, including air pollution

control equipment, stacks, and other emission points, used in a process.

(w) "Responsible official" means, for the purposes of signing and certifying as to the truth, accuracy, and completeness of permit applications, monitoring reports, and compliance certifications, any of the following:

(*i*) For a corporation: a president, secretary, treasurer, or vice-president in charge of a principal business function, or any other person who performs similar policy or decision making functions for the corporation, or an authorized representative of that person if the representative is responsible for the overall operation of 1 or more manufacturing, production, or operating facilities applying for or subject to a permit under this part and either the facilities employ more than 250 persons or have annual sales or expenditures exceeding $25,000,000.00, or if the delegation of authority to the representative is approved in advance by the department.

(*ii*) For a partnership or sole proprietorship: a general partner or the proprietor.

(*iii*) For a county or municipality or a state, federal, or other public agency: a principal executive officer or ranking elected official. For this purpose, a principal executive officer of a federal agency includes the chief executive officer having responsibility for the overall operations of a principal geographic unit of the agency.

(*iv*) For sources affected by the acid rain program under title IV: the designated representative insofar as actions, standards, requirements, or prohibitions under that title are concerned.

(x) "Schedule of compliance" means, for a source not in compliance with all applicable requirements of this part, rules promulgated under this part, and the clean air act at the time of issuance of an operating permit, a schedule of remedial measures including an enforceable sequence of actions or operations leading to compliance with an applicable requirement and a schedule for submission of certified progress reports at least every 6 months. Schedule of compliance means, for a source in compliance with all applicable requirements of this part, rules promulgated under this part, and the clean air act at the time of issuance of an operating permit, a statement that the source will continue to comply with these requirements. With respect to any applicable requirement of this part, rules promulgated under this part, and the clean air act effective after the date of issuance of an operating permit, the schedule of compliance shall contain a statement that the source will meet the requirements on a timely basis, unless the underlying applicable requirement requires a more detailed schedule.

(y) "Source" means a stationary source as defined in 42 USC 7602, and has the same meaning as stationary source when used in comparable or applicable circumstances under the clean air act. A source includes all the processes and process equipment under common control that are located within a contiguous area, or a smaller group of processes and process equipment as requested by the owner or operator of the source, if in accordance with the clean air act.

(z) "Title IV" means title IV of the clean air act, pertaining to acid deposition control, 42 USC 7651 to 7651o.

(aa) "Title V" means title V of the clean air act, 42 USC 7661 to 7661f.

(bb) "Title V opt-out permit" means a permit to install that includes all of the following:

(*i*) Specified emission limits below thresholds for title V applicability.

(*ii*) Operational restriction.

(*iii*) Monitoring or record-keeping requirements to make subparagraphs (*i*) and (*ii*) practically enforceable through a permit.

History: 1994, Act 451, Eff. Mar. 30, 1995;—Am. 1998, Act 245, Imd. Eff. July 8, 1998;—Am. 2019, Act 119, Imd. Eff. Nov. 15, 2019.

Compiler's note: In this section, the reference to "(*i*) "Category F facility" evidently should read "(i) "Category F facility"."

Popular name: Act 451

Popular name: NREPA

324.5502 Issuance of permit to install or operating permit to municipal solid waste incinerator; applicability of subsection (1); municipal solid waste incinerator existing prior to June 15, 1993.

Sec. 5502. (1) Except as provided in subsection (2), the department shall not issue a permit to install or an operating permit to a municipal solid waste incinerator unless the municipal solid waste incinerator is located at least 1,000 feet from all of the following:

(a) A residential dwelling.

(b) A public or private elementary or secondary school.

(c) A preschool facility for infants or children.

(d) A hospital.

(e) A nursing home.

(2) Subsection (1) does not apply to a municipal solid waste incinerator that existed prior to June 15, 1993, or to the modification; alteration; expansion, including, but not limited to, the addition of 1 or more combustion units and any accompanying features or fixtures; or retrofit of such a municipal solid waste incinerator after June 15, 1993, regardless of whether the activity requires a permit.

(3) For the purposes of this section, a municipal solid waste incinerator existed prior to June 15, 1993 if either of the following applies:

(a) It was issued a permit to operate or a permit to install for installation, construction, modification, alteration, or retrofit prior to June 15, 1993, unless it was denied a permit to operate prior to June 15, 1993.

(b) It is located at a geographical site at which 1 or more incinerator units incinerated waste during the 6 months prior to June 15, 1993.

History: 1994, Act 451, Eff. Mar. 30, 1995;—Am. 1995, Act 227, Imd. Eff. Dec. 14, 1995;—Am. 1998, Act 6, Imd. Eff. Feb. 6, 1998.

Popular name: Act 451

Popular name: NREPA

324.5503 Powers of department.

Sec. 5503. The department may do 1 or more of the following:

(a) Promulgate rules to establish standards for ambient air quality and for emissions.

(b) Issue permits for the construction and operation of sources, processes, and process equipment, subject to enforceable emission limitations and standards and other conditions reasonably necessary to assure compliance with all applicable requirements of this part, rules promulgated under this part, and the clean air act.

(c) In accordance with this part and rules promulgated under this part, deny, terminate, modify, or revoke and reissue permits for cause. If an application for a permit is denied or is determined to be incomplete by the department, the department shall state in writing with particularity the reason for denial or the determination of incompleteness, and, if applicable, the provision of this part or a rule promulgated under this part that controls the decision.

(d) Compel the attendance of witnesses at proceedings of the department upon reasonable notice.

(e) Make findings of fact and determinations.

(f) Make, modify, or cancel orders that require, in accordance with this part, the control of air pollution.

(g) Enforce permits, air quality fee requirements, and the requirements to obtain a permit.

(h) Institute in a court of competent jurisdiction proceedings to compel compliance with this part, rules promulgated under this part, or any determination or order issued under this part.

(i) Enter and inspect any property as authorized under section 5526.

(j) Receive and initiate complaints of air pollution in alleged violation of this part, rules promulgated under this part, or any determination, permit, or order issued under this part and take action with respect to the complaint as provided in this part.

(k) Require reports on sources and the quality and nature of emissions, including, but not limited to, information necessary to maintain an emissions inventory.

(*l*) Prepare and develop a general comprehensive plan for the control or abatement of existing air pollution and for the control or prevention of any new air pollution.

(m) Encourage voluntary cooperation by all persons in controlling air pollution and air contamination.

(n) Encourage the formulation and execution of plans by cooperative groups or associations of municipalities, counties or districts, or other governmental units, industries, and others who severally or jointly are or may be the source of air pollution, for the control of pollution.

(o) Cooperate with the appropriate agencies of the United States or other states or any interstate or international agencies with respect to the control of air pollution and air contamination or for the formulation for the submission to the legislature of interstate air pollution control compacts or agreements.

(p) Conduct or cause to be conducted studies and research with respect to air pollution control, abatement, or prevention.

(q) Conduct and supervise programs of air pollution control education including the preparation and distribution of information relating to air pollution control.

(r) Determine by means of field studies and sampling the degree of air pollution in the state.

(s) Provide advisory technical consultation services to local communities.

(t) Serve as the agency of the state for the receipt of money from the federal government or other public or private agencies and the expenditure of that money after it is appropriated for the purpose of air pollution control studies or research or enforcement of this part.

(u) Do such other things as the department considers necessary, proper, or desirable to enforce this part, a

rule promulgated under this part, or any determination, permit, or order issued under this part, or the clean air act.

History: 1994, Act 451, Eff. Mar. 30, 1995.

Compiler's note: For transfer of authority, powers, duties, functions, and responsibilities of the Air Quality Division to the Director of the Michigan Department of Environmental Quality, see E.R.O. No. 1995-16 , compiled at MCL 324.99901 of the Michigan Compiled Laws.

Popular name: Act 451

Popular name: NREPA

Administrative rules: R 336.1101 et seq.; R 336.1122; and R 336.1201 et seq. of the Michigan Administrative Code.

324.5504 Medical waste incineration facility; operating permit required; form and contents of application; compliance; validity and renewal of permit; review of operating permits; retrofitting facility; interim operating permit; rules; receipt of pathological or medical wastes generated off-site; records; definitions.

Sec. 5504. (1) Beginning on June 6, 1991 or on the effective date of the rules promulgated under subsection (5), whichever is later, a facility that incinerates medical waste shall not be operated unless the facility has been issued an operating permit by the department.

(2) An application for an operating permit under subsection (1) shall be submitted in the form and contain the information required by the department. The department shall issue an operating permit only if the facility is in compliance with this part and the rules promulgated under this part.

(3) A permit issued under this section shall be valid for 5 years. Upon expiration, a permit may be renewed.

(4) Within 2 years after the effective date of the rules promulgated under subsection (5), the department shall review all operating permits issued under this part for facilities that incinerate medical waste that were issued permits prior to the promulgation of the rules under subsection (5). If, upon review, the department determines that the facility does not meet the requirements of the rules promulgated under subsection (5) and cannot be retrofitted to comply with these rules, the department shall issue an interim operating permit that is valid for 2 years only. If the facility only needs retrofitting in order to comply with the rules, the facility shall be granted an interim permit that is valid for 1 year only. However, in either case the facility shall comply with this part and all other rules promulgated under this part for the interim period. An interim operating permit shall provide that if the facility is within 50 miles of another facility that is in compliance with the rules promulgated under subsection (5), the facility operating under the interim operating permit may receive only medical waste that is generated on the site of that facility, at a facility owned and operated by the person who owns and operates that facility, or at the private practice office of a physician who has privileges to practice at that facility, if the facility is a hospital. The department shall renew an operating permit for a facility only if the facility is in compliance with this part and the rules promulgated under this part.

(5) The department shall promulgate rules to do both of the following:

(a) Regulate facilities that incinerate medical waste. These rules shall cover at least all of the following areas:

(*i*) Incinerator design and operation.

(*ii*) Ash handling and quality.

(*iii*) Stack design.

(*iv*) Requirements for receiving medical waste from generators outside the facility.

(*v*) Air pollution control requirements.

(*vi*) Performance monitoring and testing.

(*vii*) Record keeping and reporting requirements.

(*viii*) Inspection and maintenance.

(b) Regulate the operation of facilities that incinerate only pathological waste and limited other permitted solid waste.

(6) A permit issued under this section may allow a facility to receive pathological or medical wastes that were generated off the site of the facility. However, the owner or operator of the facility shall keep monthly records of the source of the wastes and the approximate volume of the wastes received by the facility.

(7) As used in this section:

(a) "Medical waste" means that term as it is defined in part 138 of the public health code, Act No. 368 of the Public Acts of 1978, being sections 333.13801 to 333.13831 of the Michigan Compiled Laws.

(b) "Pathological waste" means that term as it is defined in part 138 of the public health code.

History: 1994, Act 451, Eff. Mar. 30, 1995.

Popular name: Act 451

Popular name: NREPA

Administrative rules: R 336.1901 et seq. of the Michigan Administrative Code.

324.5505 Installation, construction, reconstruction, relocation, alteration, or modification of process or process equipment; permit to install or operate required; rules; trial operation; rules for issuance of general permit or certain exemptions; temporary locations; nonrenewable permits; failure of department to act on applications; appeal of permit actions.

Sec. 5505. (1) Except as provided in subsection (4), a person shall not install, construct, reconstruct, relocate, alter, or modify any process or process equipment without first obtaining from the department a permit to install, or a permit to operate authorized pursuant to rules promulgated under subsection (6) if applicable, authorizing the conduct or activity.

(2) The department shall promulgate rules to establish a permit to install program to be administered by the department. Except as provided in subsections (4) and (5), the permit to install program is applicable to each new or modified process or process equipment that emits or may emit an air contaminant. The start date for emissions offsets eligible to be applied to a permit to install shall be the date established by federal rule or, if a date is not established by federal rule, January 1 of the year after the emissions baseline year used for the purpose of preparing the relevant state implementation plan. The department shall make available information in the permit database and the air emissions inventory established under section 5503(k), to identify emissions reductions that may be used as emissions offsets. This subsection does not authorize the department to seek permit changes to make emissions reductions available for use as emissions offsets.

(3) A permit to install may authorize the trial operation of a process or process equipment to demonstrate that the process or process equipment is operating in compliance with the permit to install issued under this section.

(4) The department may promulgate rules to provide for the issuance of general permits and to exempt certain sources, processes, or process equipment or certain modifications to a source, process, or process equipment from the requirement to obtain a permit to install or a permit to operate authorized pursuant to rules promulgated under subsection (6). However, the department shall not exempt any new source or modification that would meet the definition of a major source or major modification under parts C and D of title I of the clean air act, 42 USC 7470 to 7515.

(5) The department may issue a permit to install, a general permit, or a permit to operate authorized under rules promulgated under subsection (6) if applicable, that authorizes installation, operation, or trial operation, as applicable, of a source, process, or process equipment at numerous temporary locations. Such a permit shall do both of the following:

(a) Include terms and conditions necessary to ensure compliance with all applicable requirements of this part, the rules promulgated under this part, and the clean air act, including those necessary to ensure compliance with all applicable ambient air standards, emission limits, and increment and visibility requirements pursuant to part C of title I of the clean air act, 42 USC 7470 to 7492, at each location.

(b) Require the owner or operator of the process, source, or process equipment to notify the department at least 10 days in advance of each change in location. However, if electronic notification is used, the notification shall be given at least the following number of business days before the change of location:

(*i*) 5 business days unless subparagraph (*ii*) applies.

(*ii*) 2 business days, if, at least 10 days before the change of location, the owner provided the department a list of anticipated operating locations for that calendar year and if the change of location is on that list.

(6) The department may promulgate rules to establish a program that authorizes issuance of nonrenewable permits to operate for sources, processes, or process equipment that are not subject to the requirement to obtain a renewable operating permit pursuant to section 5506.

(7) The failure of the department to act on an administratively and technically complete application for a permit to install, a general permit, or a permit to operate authorized under rules promulgated under subsection (6), in accordance with a time requirement established pursuant to this part, rules promulgated under this part, or the clean air act may be treated as a final permit action solely for the purposes of obtaining judicial review in a court of competent jurisdiction to require that action be taken by the department on the application without additional delay.

(8) Any person may appeal the issuance or denial by the department of a permit to install, a general permit, or a permit to operate authorized in rules promulgated under subsection (6), for a new source in accordance with section 631 of the revised judicature act of 1961, 1961 PA 236, MCL 600.631. Petitions for review shall be the exclusive means to obtain judicial review of such a permit and shall be filed within 90 days after the

final permit action, except that a petition may be filed after that deadline only if the petition is based solely on grounds arising after the deadline for judicial review. Such a petition shall be filed no later than 90 days after the new grounds for review arise. Appeals of permit actions for existing sources are subject to section 5506(14).

History: 1994, Act 451, Eff. Mar. 30, 1995;—Am. 2005, Act 57, Imd. Eff. June 30, 2005;—Am. 2019, Act 120, Eff. Feb. 13, 2020.

Popular name: Act 451

Popular name: NREPA

324.5506 Operating permit.

Sec. 5506. (1) After the date established pursuant to subsections (3) and (4)(n), if an application for an operating permit is required to be submitted, a person shall not operate a source that is required to obtain an operating permit under section 502a of title V of the clean air act, chapter 360, 104 Stat. 2641, 42 U.S.C. 7661a, and which is thereby subject to the requirements of this section except in compliance with an operating permit issued by the department. A permit issued under this section does not convey a property right or an exclusive privilege.

(2) If a person who owns or operates a source has submitted a timely and administratively complete application for an operating permit, including an application for renewal of an operating permit, but final action has not been taken on the application, the source's failure to have an operating permit is not a violation of subsection (1) unless the delay in final action is due to the failure of the person owning or operating the source to submit information required or requested to process the application. A source required to have a permit under this section is not in violation of subsection (1) before the date on which the source is required to submit an application pursuant to subsections (3) and (4)(n). Except as otherwise provided in subsection (5), expiration of an operating permit terminates a person's right to operate a source. This subsection does not waive an applicable requirement to obtain a permit under section 5505.

(3) A person who owns or operates a source required to have an operating permit pursuant to this section shall submit to the department within 12 months after the date on which the source becomes subject to the requirement to obtain a permit under subsection (1), or on an earlier date specified by rule, a compliance plan and an administratively complete application for an operating permit signed by a responsible official, who shall certify the accuracy of the information submitted. The department shall approve or disapprove a timely and administratively complete application, and shall issue or deny the operating permit within 18 months after the date of receipt of the compliance plan and an administratively complete operating application, except that the department shall establish a phased schedule for acting on the timely and administratively complete operating permit applications submitted within the first full year after the operating permit program becomes effective. The schedule shall assure that at least 1/3 of the applications will be acted on by the department annually over a period not to exceed 3 years after the operating permit program becomes effective.

(4) The department shall promulgate rules to establish an operating permit program required under title V to be administered by the department. This permit program shall include all of the following and, at a minimum, shall be consistent with the requirements of title V:

(a) Provisions defining the categories of sources that are subject to the operating permit requirements of this section. Operating permits under this section are not required for any source category that is not required to obtain an operating permit under section 502(a) of the clean air act, title V of chapter 360, 104 Stat. 2641, 42 U.S.C. 7661a.

(b) Requirements for operating permit applications, including standard application forms, the minimum information that must be submitted with an administratively complete application, and criteria for determining in a timely fashion the administrative completeness of an application.

(c) A requirement that each operating permit application include a compliance plan describing how the source will comply with all applicable requirements of this part, rules promulgated under this part, and the clean air act.

(d) Provisions for inspection, entry, monitoring, record keeping, and reporting applicable to each operating permit issued under this section.

(e) Requirements and provisions for expeditiously determining when applications are technically complete, for processing applications.

(f) Provisions for transmitting copies of each operating permit application and proposed and final permits, including each modification or renewal, to the administrator of the United States environmental protection agency, and for notifying all other states whose air quality may be affected and are contiguous to this state and for providing an opportunity for those states to provide written recommendations on each operating permit application and proposed permit, pursuant to the requirements of section 505(a) and (d) of the clean air

act, title V of chapter 360, 104 Stat. 2643, 42 U.S.C. 7661d.

(g) Provisions for issuance of operating permits and, in accordance with this part and rules promulgated under this part, for denial, termination, modification, revocation, renewal, and revision of operating permits for cause.

(h) Provisions to allow for changes within a permitted source without a revision to the operating permit, if the changes are not modifications under any provision of title I of the clean air act, chapter 360, 77 Stat. 392, 42 U.S.C. 7401 to 7431, 7470 to 7479, 7491 to 7492, 7501 to 7509a, and 7511 to 7515, and the changes do not exceed the emissions allowed under the operating permit, if the owner or operator of the source provides the department and the administrator of the United States environmental protection agency with written notification at least 7 days in advance of the proposed changes. However, the department may provide a different time frame for an emergency as defined in section 5527. The emissions allowed under the operating permit include any enforceable emission limitation, standard, or other condition, including a work practice standard, determined by the department to be required by an applicable requirement of this part, rules promulgated under this part, or the clean air act, or that establishes an emission limit or an enforceable emissions cap that the source has assumed to avoid an applicable requirement of this part, rules promulgated under this part, or the clean air act, to which the source would otherwise be subject. These provisions shall include the following:

(*i*) Changes that contravene an express permit condition. Such changes shall not include changes that would violate any applicable requirement of this part, the rules promulgated under this part, or the clean air act, or changes that would contravene any applicable requirement for monitoring, record keeping, reporting, or compliance certification.

(*ii*) Changes that involve emissions trading if trading has been approved by the administrator of the United States environmental protection agency as a part of the state implementation plan.

(i) Provisions to allow changes within a permitted source, pursuant to 40 C.F.R. 70.4(b)(14), that are not addressed or prohibited by the operating permit, if all of the following criteria are met:

(*i*) The change meets all applicable requirements of this part, the rules promulgated under this part, and the clean air act and does not violate any existing emission limitation, standard, or other condition of the operating permit.

(*ii*) The change does not affect any applicable requirement of the acid rain program under title IV and is not a modification under any provision of title I of the clean air act, chapter 360, 77 Stat. 392, 42 U.S.C. 7401 to 7431, 7470 to 7479, 7491 to 7492, 7501 to 7509a, and 7511 to 7515.

(*iii*) The source provides prompt written notice to the department and the administrator of the United States environmental protection agency, except for changes that qualify as insignificant processes or activities pursuant to section 5507(2).

(j) Provisions to allow changes within a permitted source, pursuant to 40 C.F.R. 70.7(e)(2), that may be made immediately after the source files an application with the department, if all of the following criteria are met:

(*i*) The change does not violate any applicable requirement of this part, the rules promulgated under this part, or the clean air act.

(*ii*) The change does not significantly affect an existing monitoring, record keeping, or reporting requirement in the operating permit.

(*iii*) The change does not require or modify a case-by-case determination of an emission limitation or other standard, or a source-specific determination, for temporary sources, of ambient air impacts, or a visibility or increment analysis.

(*iv*) The change does not seek to establish or modify an emission limitation, standard, or other condition of the operating permit that the source has assumed to avoid an applicable requirement of this part, the rules promulgated under this part, or the clean air act, to which the source would otherwise be subject.

(*v*) The change is not a modification under any provision of title I of the clean air act, chapter 360, 77 Stat. 392, 42 U.S.C. 7401 to 7431, 7470 to 7479, 7491 to 7492, 7501 to 7509a, and 7511 to 7515.

(k) Provisions for expeditiously handling administrative changes within a permitted source, pursuant to 40 C.F.R. 70.7(d). These changes are limited to the following:

(*i*) Correction of a typographical error.

(*ii*) A change in the name, address, or phone number of any person identified in the permit, or other similar minor administrative change.

(*iii*) A change that requires more frequent monitoring or reporting by the person owning or operating the source.

(*iv*) A change in ownership or operational control of the source, if the department determines that no other change in the operating permit is necessary, and if a written agreement containing a specific date for transfer

of operating permit responsibility, coverage, and liability between the current and new owners or operators has been submitted to the department.

(*v*) Incorporation into the operating permit of the requirements of a permit to install issued pursuant to section 5505, if the permit to install has met procedural requirements that are substantially equivalent to the requirements of this section, including the content of the permit, and the provisions for participation by the United States environmental protection agency and other affected states and participation of the public under section 5511.

(*l*) Provisions for including reasonably anticipated alternate operating scenarios in an operating permit, pursuant to 40 C.F.R. 70.6(a)(9).

(m) Provisions to allow for the trading of emission increases and decreases within a permitted source solely for the purpose of complying with an enforceable emissions cap that is established in the permit pursuant to 40 C.F.R. part 70.4(b)(12)(*iii*), independent of any otherwise applicable requirements of this part, the rules promulgated under this part, or the clean air act.

(n) A schedule of the dates when submittal of an application for an operating permit is required for the source categories subject to this section and a phased schedule for taking final action on those applications.

(5) Each operating permit issued under this section shall be for a fixed term not to exceed 5 years. A permit applicant shall submit a timely application for renewal of an operating permit at least 6 months, but not more than 18 months, prior to the expiration of the term of the existing operating permit. If a timely and administratively complete application is submitted, but the department has not approved or denied the renewal permit before the expiration of the term of the existing permit, the existing permit shall not expire until the renewal permit is approved or denied.

(6) Each operating permit issued pursuant to this section shall include those enforceable emissions limitations and standards applicable to the source, if any, and other conditions necessary to assure compliance with the applicable requirements of this part, rules promulgated under this part, and the clean air act, a schedule of compliance, and a requirement that the owner or operator of a source submit to the department, at least every 6 months, a report summarizing the results of any required monitoring. Each operating permit issued pursuant to this section shall also include a severability clause to ensure the continued validity of the unchallenged terms and conditions of the operating permit if any portion of a permit is challenged.

(7) The department shall require revision of an operating permit prior to the expiration of the permit consistent with section 5506(4)(g), for any of the following reasons or to do any of the following:

(a) To incorporate new applicable emissions limitations, standards, or rules promulgated under this part or regulations promulgated under the clean air act, issued or promulgated after the issuance of the permit, if 3 or more years remain in the term of the permit. A revision shall occur as expeditiously as practicable, but not later than 18 months after the promulgation of the emission limitation, standard, rule, or regulation. A revision is not required if the effective date of the emission limitation, standard, rule, or regulation is after the expiration date of the permit.

(b) To incorporate new applicable standards and requirements of the acid rain program under title IV into the operating permits of sources affected by that program.

(c) If the department determines that the permit contains a material mistake; that information required by this part, rules promulgated under this part, or the clean air act was omitted; or that an inaccurate statement was made in establishing the emissions limitations, standards, or conditions of the permit.

(d) If the department determines that the permit must be revised to assure compliance with the applicable requirements of this part, rules promulgated under this part, or the clean air act.

(8) At the request of the permit holder, a permit revision under subsection (7) may be treated as a permit renewal if it complies with the applicable requirements for permit renewals of this part, rules promulgated under this part, and the clean air act.

(9) A person who owns or operates a source subject to an operating permit issued pursuant to this section shall promptly report to the department any deviations from the emissions limitations, standards, or conditions of the permit and shall annually certify to the department that the source has been and is in compliance with all emissions limitations, standards, and conditions of the permit, except for those deviations reported to the department, during the reporting period. A responsible official shall sign all reports submitted pursuant to this subsection.

(10) The department shall not approve or otherwise issue any operating permit for a source required to obtain an operating permit pursuant to section 502(a) of title V of the clean air act, chapter 360, 104 Stat. 2641, 42 U.S.C. 7661a, if the administrator of the United States environmental protection agency objects to issuance of the permit in a timely manner pursuant to section 505(b) of title V of the clean air act, chapter 360, 104 Stat. 2643, 42 U.S.C. 7661d.

(11) Each operating permit shall contain a statement that compliance with an operating permit issued in

accordance with this section is compliance with subsection (1). In addition, the statement shall provide that compliance with the operating permit is compliance with other applicable requirements of this part, rules promulgated under this part, and the clean air act, as of the date of permit issuance if either of the following requirements is met:

(a) The permit specifically includes the applicable requirement.

(b) The permit includes a determination that any other requirements that are specifically referred to in the determination are not applicable.

(12) An application for an operating permit may include a request that the permit include reference to specific requirements of this part, rules promulgated under this part, or the clean air act that the person owning or operating the source believes are not applicable to the source. The operating permit shall include a determination of applicability for the requirements included in the request.

(13) Subsection (11) does not apply to a change at a source made pursuant to subsection (4)(h), (i), or (j). Subsection (11) does not apply to a change in a source made pursuant to subsection (4)(k) until the change is incorporated into the operating permit.

(14) A person who owns or operates an existing source that is required to obtain an operating permit under this section, a general permit, or a permit to operate authorized under rules promulgated under section 5505(6) may file a petition with the department for review of the denial of his or her application for such a permit, the revision of any emissions limitation, standard, or condition, or a proposed revocation of his or her permit. This review shall be conducted pursuant to the contested case and judicial review procedures of the administrative procedures act of 1969, Act No. 306 of the Public Acts of 1969, being sections 24.201 to 24.328 of the Michigan Compiled Laws. Any person may appeal the issuance or denial of an operating permit in accordance with section 631 of the revised judicature act of 1961, Act No. 236 of the Public Acts of 1961, being section 600.631 of the Michigan Compiled Laws. A petition for judicial review is the exclusive means of obtaining judicial review of a permit and shall be filed within 90 days after the final permit action. Such a petition may be filed after that deadline only if it is based solely on grounds arising after the deadline for judicial review and if the appeal does not involve applicable standards and requirements of the acid rain program under title IV. Such a petition shall be filed within 90 days after the new grounds for review arise.

(15) The failure of the department to act on a technically and administratively complete application or renewal application for an operating permit in accordance with a time requirement established pursuant to subsection (3) and rules promulgated under subsection (4)(n) is final permit action solely for the purposes of obtaining judicial review in a court of competent jurisdiction to require that action be taken by the department without additional delay on the application or renewal application.

(16) The department may, after notice and opportunity for public hearing, pursuant to the requirements of section 5511, issue a general permit covering numerous similar sources, processes, or process equipment, or a permit that authorizes operation of a source at numerous temporary locations. A general permit or a permit that authorizes operation of a source at numerous temporary locations shall comply with all requirements applicable to operating permits pursuant to this section. A permit that authorizes operation of a source at numerous temporary locations shall include terms and conditions necessary to assure compliance with all applicable requirements of this part, rules promulgated under this part, and the clean air act, including those necessary to assure compliance with all applicable ambient air standards, applicable emission limits, and applicable increment and visibility requirements pursuant to part C of title I of the clean air act, chapter 360, 91 Stat. 731, 42 U.S.C. 7470 to 7479 and 7491 to 7492, at each authorized location and shall require the owner or operator of the source to notify the department at least 10 days in advance of each change in location. A source covered by a general permit is not relieved from the obligation to file an application for a permit pursuant to subsections (3) and (5).

(17) As used in this section, "technically complete" means, for the purposes of an application for an operating permit required by this section, all of the information required for an administratively complete application and any other specific information requested by the department that may be necessary to implement and enforce all applicable requirements of this part, the rules promulgated under this part, or the clean air act, or to determine the applicability of those requirements. An application is not technically complete if it omits information needed to determine the applicability of any lawful requirement or to enforce any lawful requirement or any information necessary to evaluate the amount of the annual air quality fee for the source.

324.5507 Administratively complete action; exemption from information requirements;

“compliance plan” defined.

Sec. 5507. (1) An administratively complete application means an application for an operating permit required in section 5506 that is submitted on standard application forms provided by the department and includes all of the following:

(a) Source identifying information, including company name and address, owner's name, and the names, addresses, and telephone numbers of the responsible official and permit contact person.

(b) A description of the source's processes and products using the applicable standard industrial classification codes.

(c) A description of all emissions of air contaminants emitted by the source that are regulated under this part, the rules promulgated under this part, and the clean air act.

(d) A schedule for submission of annual compliance certifications during the permit term, unless more frequent certifications are specified by an underlying applicable requirement.

(e) A certification by a responsible official of the truth, accuracy, and completeness of the application. The certification shall state that, based on information and belief formed after reasonable inquiry, the statements and information in the application are true, accurate, and complete.

(f) For each process, except for any insignificant processes listed by the department pursuant to subsection (2), all of the following:

(*i*) A description of the process using the standard classification code.

(*ii*) Citation and description of all applicable requirements, including any applicable test method for determining compliance with each applicable requirement.

(*iii*) Actual and allowable emission rates in tons per year and in terms that are necessary to establish compliance with all applicable emission limitations and standards, including all calculations used to determine those emission rates. Actual emission information shall be used for verifying the compliance status of the process with all applicable requirements. Actual emission information shall not be used, except at the request of the permit applicant, to establish new emission limitations or standards or to modify existing emission limitations or standards unless such limitation or standard is required to assure compliance with a specific applicable requirement.

(*iv*) Information on fuels, fuel use, raw materials, production rates, and operating schedules, to the extent it is needed to determine or regulate emissions.

(*v*) Limitations on source operation affecting emissions or any work practice standards, if applicable.

(*vi*) Identification and description of air pollution control equipment and compliance monitoring devices or activities.

(*vii*) Identification and description of all emission points in sufficient detail to establish the basis for fees or to determine applicable requirements.

(*viii*) Other information required by any applicable requirement.

(*ix*) A statement of the methods proposed to be used for determining compliance with the applicable requirements under the operating permit, including a description of monitoring, record keeping, and reporting requirements and test methods.

(*x*) An explanation of any proposed exemptions from otherwise applicable requirements.

(*xi*) Information necessary to define any alternative operating scenarios that are to be included in the operating permit or to define permit terms and conditions implementing section 5506(4)(*l*).

(*xii*) A compliance plan.

(*xiii*) A schedule of compliance.

(2) The department shall promulgate a list of insignificant processes or activities, which are exempt from all or part of the information requirements of this section. For any insignificant processes or activities that are exempt because of size or production rate, the application shall include a list of the insignificant processes and activities.

(3) As used in section 5506 and this section, "compliance plan" means a description of the compliance status of the source with respect to all applicable requirements for each process as follows:

(a) For applicable requirements with which the source is in compliance, a statement that the source will continue to comply with such requirements.

(b) For applicable requirements that will become effective during the permit term, a statement that the source will meet these requirements on a timely basis.

(c) For requirements for which the source is not in compliance at the time of permit issuance, a narrative description of how the source will achieve compliance with such requirements.

324.5508 "Section 112" defined; source, process, or process equipment not subject to best available control technology for toxics requirements or health based screening level requirements.

Sec. 5508. (1) As used in this section, "section 112" means section 112 of part A of title I of the clean air act, 84 Stat. 1685, 42 U.S.C. 7412.

(2) A new, modified, or existing source, process, or process equipment for which standards have been promulgated under section 112(d) or for which a control technology determination has been made pursuant to section 112(g) or 112(j) is not subject to the best available control technology for toxics (T-BACT) requirements of rules promulgated under this part for any of the following:

(a) The hazardous air pollutants listed in section 112(b).

(b) Other toxic air contaminants that are volatile organic compounds, if the standard promulgated under section 112(d) or the determination made under section 112(g) or 112(j) controls similar compounds that are also volatile organic compounds.

(c) Other toxic air contaminants that are particulate matter, if the standard promulgated under section 112(d) or the determination made under section 112(g) or 112(j) controls similar compounds that are also particulate matter.

(d) Other toxic air contaminants that are similar to the compounds controlled by the standard promulgated under section 112(d) or controlled by the determination made under section 112(g) or 112(j).

(3) A new, modified, or existing source, process, or process equipment for which standards have been promulgated under section 112(f) is not subject to the health based screening level requirements in rules promulgated under this part for the hazardous air pollutants listed in section 112(b).

Popular name: Act 451

Popular name: NREPA

324.5509 "Malfunction" defined; rules; prohibition; actions taken by department; enforcement; conditions for applicability of subsections (3) to (5).

Sec. 5509. (1) As used in this section, "malfunction" means any sudden failure of a source, air pollution control equipment, process, or process equipment to operate in a normal or usual manner. A malfunction exists only for the time reasonably necessary to implement corrective measures. Malfunction does not include failures arising as a result of substandard maintenance that does not conform to industry standards, or periods when the source is being operated carelessly or in a manner that is not consistent with good engineering practice or judgment.

(2) By May 13, 1995, the department shall promulgate general rules, and may promulgate rules that pertain to specific categories of sources, that are consistent with, but are not limited to, the requirements of the clean air act, to establish standards of performance, emission standards, and requirements for monitoring, record keeping, and reporting that will apply during start-up, shutdown, and malfunction of a source, process, or process equipment. The rules shall require that during periods of start-up, shutdown, and malfunction, the operator shall to the extent reasonably possible operate a source, process, or process equipment in a manner consistent with good air pollution control practices for minimizing emissions.

(3) During periods of start-up, shutdown, or malfunction of a source, process, or process equipment, the emission of an air contaminant in excess of a standard or emission limitation, or a violation of any other requirement, established by this part, a rule promulgated under this part, or specified in a permit to install, a permit to operate authorized pursuant to rules promulgated under section 5505(6), or an operating permit under section 5506, is prohibited unless the following applicable requirements and any applicable rules promulgated pursuant to subsection (2) are complied with:

(a) At all times, including periods of start-up, shutdown, and malfunction, owners and operators shall, to the extent practicable, operate a source, process, or process equipment in a manner consistent with good air pollution control practice for minimizing emissions.

(b) Notice of a malfunction of a source, process, or process equipment that results in excess emissions of an air contaminant shall be provided to the department if the malfunction results in excess emissions that continue for more than 2 hours. Notice by any reasonable means includes but is not limited to oral, telephonic, or electronic notice, and shall be provided as soon as reasonably possible, but no later than 2 business days after the discovery of the malfunction. Written notice of malfunction shall be provided within 10 days after the malfunction has been corrected. Written notice shall specify all of the following:

(*i*) The cause of the malfunction, if known.

(*ii*) The date, time, location, and duration of the malfunction.

(*iii*) The actions taken to correct and prevent the reoccurrence of the malfunction.

(*iv*) Actions taken to minimize emissions during the malfunction, if any.

(*v*) The type and, where known or where it is reasonably possible to estimate, the quantity of any excess emissions of air contaminants.

(*vi*) Contemporaneous operational logs and continuous emission monitoring information where continuous emission monitoring is required by the clean air act or rules promulgated under this part or is specified as a condition of a permit issued under this part or an order entered under this part.

(c) The malfunctioning source, process, or process equipment shall have been maintained and operated in a manner consistent with the applicable provisions of a malfunction abatement plan approved under this part, if any.

(d) During start-up or shutdown, the source, process, or process equipment shall be operated in accordance with applicable start-up or shutdown provisions of its installation permit, nonrenewable permit to operate, or operating permit, if any.

(4) Notwithstanding the provisions of subsection (3), the department may take action under section 5518(1) to immediately discontinue and take action to contain an imminent and substantial endangerment to public health, safety, or welfare.

(5) Notwithstanding the provisions of subsection (3), enforcement action may be taken against a person who violates section 5531(4), (5), or (6).

(6) Subsections (3) to (5) do not apply upon the effective date of the general rules required under subsection (2) or November 13, 1996, whichever is first.

History: 1994, Act 451, Eff. Mar. 30, 1995.

Compiler's note: The general rules referenced in subsection (6) were promulgated and became effective July 26, 1995.

Popular name: Act 451

324.5510 Denial or revocation of permit; circumstances.

Sec. 5510. In accordance with this part and rules promulgated under this part, the department may, after notice and opportunity for public hearing, deny or revoke a permit issued under this part if any of the following circumstances exist:

(a) Installation, modification, or operation of the source will violate this part, rules promulgated under this part, or the clean air act, unless the source is in compliance with a legally enforceable schedule of compliance contained in a permit or order.

(b) Installation, construction, reconstruction, relocation, alteration, or operation of the source presents or may present an imminent and substantial endangerment to human health, safety, or welfare, or the environment.

(c) The person applying for the permit makes a false representation or provides false information during the permit review process.

(d) The source has not been installed, constructed, reconstructed, relocated, altered, or operated in a manner consistent with the application for a permit or as specified in a permit.

(e) The person owning or operating the source fails to pay an air quality fee assessed under this part.

(f) The person proposes a major offset source or the owner or operator of a proposed major offset modification that owns or operates another source in the state that has the potential to emit 100 tons or more per year of any air contaminant regulated under the clean air act and that source is in violation of this part, rules promulgated under this part, the clean air act, or a permit or order issued under this part, unless the source is in compliance with a legally enforceable schedule of compliance contained in a permit or order.

324.5511 List of permit applications; list of consent order public notices; notice, opportunity for public comment and public hearing required for certain permit actions.

Sec. 5511. (1) The department shall establish and maintain a list of all applications for permits submitted pursuant to sections 5505 and 5506. The list shall report the status of each application. The information on the list shall be updated by the department on a monthly basis. The department shall send a copy of the pertinent sections of the list to the chairperson of the county board of commissioners of each county. Any other person may subscribe to this list on a countywide or statewide basis and shall reimburse the department for the costs

of copying, handling, and mailing. The department shall make the list available at district offices selected by the department. The department may also develop an electronic data base that includes the capability of making this list available to the public. This list shall include all of the following information:

(a) The name of the permit applicant.

(b) The street address, if available, the county, and the municipality in which the source is located or proposed to be located.

(c) The type of application, such as installation, operation, renewal, or general permit.

(d) The date the permit application was received by the department.

(e) The date when the permit application is determined to be administratively complete, if applicable.

(f) A brief description of the source, process, or process equipment covered by the permit application.

(g) Brief pertinent comments regarding the progress of the permit application, including the dates of public comment periods and public hearings, if applicable.

(2) The department shall establish and maintain a list of all proposed consent order public notices. This information shall be updated by the department on a monthly basis. Any other person may subscribe to this list on a countywide or statewide basis and shall reimburse the department for the costs of copying, handling, and mailing. The department shall make the list available at district offices selected by the department. This list shall include all of the following information:

(a) The name of the parties to the proposed consent order.

(b) The street address, if available, and the county and municipality in which the source is located.

(c) A brief description of the source.

(d) A brief description of the alleged violation to be resolved by the proposed consent order.

(e) A brief description of the respondent's position regarding the alleged violation if the respondent requests such inclusion and supplies to the department a brief statement of the respondent's position regarding the alleged violation.

(3) The department shall not issue a permit to install or a nonrenewable permit to operate pursuant to section 5505 for a major source or for a major modification under title I of the clean air act, chapter 360, 77 Stat. 392, 42 U.S.C. 7401 to 7431, 7470 to 7479, 7491 to 7492, 7501 to 7509a, and 7511 to 7515, or issue, renew, or significantly modify any operating permit issued under section 5506, or enter into a consent order, without providing public notice, including offering an opportunity for public comment and a public hearing on the draft permit or proposed consent order. In addition, the department shall not issue a permit for which there is a known public controversy without providing public notice including an opportunity for public comment and public meeting. For the purposes of an operating permit issued under section 5506, a significant modification does not include any modifications to a permit made pursuant to section 5506(4)(h), (i), (j), or (k). For a general permit issued pursuant to section 5505(4) or section 5506(16), public notice and opportunity for public comment and a public hearing shall only be provided before the base general permit is approved, not as individual sources apply for coverage under that general permit. Public notice and an opportunity for public comment and a public hearing as required under this section shall be provided as follows:

(a) Public notice shall be provided by publication in a newspaper of general circulation in the area where the source is located or in a state publication designed to give general public notice, and by other means determined to be necessary by the department to assure adequate notice to the public. Notice shall also be provided to persons on a mailing list, developed by the department, including those persons who request in writing to be on that list, and to any other person who requests in writing to be notified of a permit action involving a specific source.

(b) The notice shall identify the source; the name and address of the responsible official; the mailing address of the department; the activity or activities involved in the proposed permit action or consent order; the emissions change involved in any significant permit modification; the name, address, and telephone number of a representative of the department from whom interested persons may obtain additional information, including copies of the draft permit or proposed consent order, the application, all relevant supporting material, and any other materials available to the department that are relevant to the permit or consent order decision; a brief description of the comment procedures required by this section; and the time and place of any hearing that may be held, including a statement of the procedures to request a hearing.

(c) The department shall provide at least 30 days for public comment and shall give notice of any public hearing at least 30 days in advance of the hearing.

(d) The department shall keep a record of the commenters and the issues raised during the public comment period and public hearing, if held, and these records shall be available to the public.

324.5512 Rules.

Sec. 5512. (1) Subject to section 5514, the department shall promulgate rules for purposes of doing all of the following:

(a) Controlling or prohibiting air pollution.

(b) Complying with the clean air act.

(c) Controlling any mode of transportation that is capable of causing or contributing to air pollution.

(d) Reviewing proposed locations of stationary emission sources.

(e) Reviewing modifications of existing emission sources.

(f) Prohibiting locations or modifications of emission sources that impair the state's ability to meet federal ambient air quality standards.

(g) Establishing suitable emission standards consistent with federal ambient air quality standards and factors including, but not limited to, conditions of the terrain, wind velocities and directions, land usage of the region, and the anticipated characteristics and quantities of potential air pollution sources. This part does not prohibit the department from denying or revoking a permit to operate a source, process, or process equipment that would adversely affect human health or other conditions important to the life of the community.

(h) Implementing sections 5505 and 5506.

(2) Unless otherwise provided in this part, each rule, permit, or administrative order promulgated or issued under this part prior to November 13, 1993 shall remain in effect according to its terms unless the rule or order is inconsistent with this part or is revised, amended, or repealed.

(3) Section 11522 applies to open burning.

History: 1994, Act 451, Eff. Mar. 30, 1995;—Am. 2012, Act 102, Imd. Eff. Apr. 19, 2012;—Am. 2014, Act 417, Eff. Mar. 31, 2015.

324.5514 Department of environmental quality; prohibited acts; "wood heater" defined.

Sec. 5514. (1) The department of environmental quality shall not do any of the following:

(a) Promulgate a rule limiting emissions from wood heaters.

(b) Enforce against a manufacturer, distributor, or consumer a federal regulation limiting emissions from wood heaters and adopted after May 1, 2014.

(2) As used in this section, "wood heater" means a wood stove, pellet stove, wood-fired hydronic heater, wood burning forced-air furnace, or masonry wood heater designed for heating a home or business.

History: Add. 2014, Act 417, Eff. Mar. 31, 2015.

Popular name: Act 451

Popular name: NREPA

324.5515 Investigation; voluntary agreement; order; petition for contested case hearing; final order or determination; review.

Sec. 5515. (1) If the department believes that a person is violating this part, a rule promulgated under this part, a permit issued under this part, or a determination other than an order issued under this part, the department shall make a prompt investigation. If after this investigation the department finds that a violation of this part, a rule promulgated under this part, a permit issued under this part, or a determination other than an order issued under this part exists, the department shall attempt to enter into a voluntary agreement with the person.

(2) If the department believes that a person is violating an order issued under this part, the department shall

make a prompt investigation. If after this investigation the department finds that a person has failed to comply with the terms of an order issued under this part, the department may attempt to enter into a voluntary agreement with the person.

(3) If a voluntary agreement is not entered into under subsection (1), the department may issue an order requiring a person to comply with this part, a rule promulgated under this part, a determination made under this part, or a permit issued under this part. If the department issues an order it shall be accompanied by a statement of the facts upon which the order is based.

(4) A person aggrieved by an order issued under subsection (3) may file a petition for a contested case hearing pursuant to the administrative procedures act of 1969, Act No. 306 of the Public Acts of 1969, being sections 24.201 to 24.328 of the Michigan Compiled Laws. A petition shall be submitted to the department within 30 days of the effective date of the order. The department shall schedule the matter for hearing within 30 days of receipt of the petition for a contested case hearing. A final order or determination of the department upon the matter following the hearing is conclusive, unless reviewed in accordance with Act No. 306 of the Public Acts of 1969, in the circuit court for the county of Ingham or for the county in which the person resides.

Popular name: Act 451

Popular name: NREPA

324.5516 Public hearing; information available to the public; use of confidential information.

Sec. 5516. (1) A public hearing with reference to pollution control may be held before the department. Persons designated to conduct the hearing shall be described as presiding officers and shall be disinterested and technically qualified persons.

(2) A copy of each permit, permit application, order, compliance plan and schedule of compliance, emissions or compliance monitoring report, sample analysis, compliance certification, or other report or information required under this part, rules promulgated under this part, or permits or orders issued under this part shall be available to the public to the extent provided by the freedom of information act, Act No. 442 of the Public Acts of 1976, being sections 15.231 to 15.246 of the Michigan Compiled Laws.

(3) A person whose activities are regulated under this part may designate a record or other information, or a portion of a record, permit application, or other information furnished to or obtained by the department or its agents, as being only for the confidential use of the department. The department shall notify the person asserting confidentiality of a request for public records under section 5 of the freedom of information act, Act No. 442 of the Public Acts of 1976, being section 15.235 of the Michigan Compiled Laws, the scope of which includes information that has been designated by the regulated person as being confidential. The person asserting confidentiality has 25 days after the receipt of the notice to demonstrate to the department that the information designated as confidential should not be disclosed because the information is a trade secret or secret process, or is production, commercial, or financial information the disclosure of which would jeopardize the competitive position of the person from whom the information was obtained, and make available information not otherwise publicly available. The department shall grant the request for the information unless the person regulated under this part demonstrates to the satisfaction of the department that the information should not be disclosed. If there is a dispute between the person asserting confidentiality and the person requesting information under Act No. 442 of the Public Acts of 1976, the department shall make the decision to grant or deny the request. After the department makes a decision to grant a request, the information requested shall not be released until 8 business days after the regulated person's receipt of notice of the department's decision. This does not prevent the use of the information by the department in compiling or publishing analyses or summaries relating to ambient air quality if the analyses or summaries do not identify the person or reveal information which is otherwise confidential under this section. This section does not render data on the quantity, composition, or quality of emissions from any source confidential. Data on the amount and nature of air contaminants emitted from a source shall be available to the public.

324.5517 Petition for relief from rule.

Sec. 5517. Application for relief from a rule promulgated by the department shall be made by petition to the circuit court for the county of Ingham or for the county in which the petitioner resides. The petition shall be verified as in a civil action. Each petition shall contain a plain and concise statement of the material facts on which the petitioner relies, shall set forth the rule or part of the rule that the petitioner claims is

unreasonable or prejudicial to the petitioner, and shall specify the grounds for the claim. The petition may be accompanied by affidavits or other written proof and shall demand the relief to which the petitioner alleges he or she is entitled, in the alternative or otherwise. The petition may be made by 1 or more persons, jointly or severally, who are aggrieved by a rule, whether or not the petitioner is or was a party to the proceeding in which the rule was promulgated by the department.

324.5518 Notice to discontinue pollution; hearing; suit brought by attorney general in circuit court; effectiveness and duration of order; notice to county emergency management coordinator.

Sec. 5518. (1) If the department finds that a person is discharging or causing to be discharged into the atmosphere, directly or indirectly, an air contaminant and the discharge constitutes an imminent and substantial endangerment to the public health, safety, or welfare, or to the environment, and it appears to be prejudicial to the interests of the people of the state to delay action, the department shall notify the person by written notice that he or she must immediately discontinue the air pollution or take such other action as may be necessary to contain the imminent and substantial endangerment, or both. The written notice shall specify the facts that are the basis of the allegation. Within 7 days, the department shall provide the person the opportunity to be heard and to present any proof that the discharge does not constitute an imminent and substantial endangerment to the public health, safety, or welfare, or to the environment.

(2) Notwithstanding any other provision of this part, upon receipt of evidence that a person is discharging or causing to be discharged into the atmosphere, directly or indirectly, an air contaminant and the discharge constitutes an imminent and substantial endangerment to the public health, safety, or welfare, or to the environment, and it appears to be prejudicial to the interests of the people of the state to delay action, the attorney general may bring suit on behalf of the state in the appropriate circuit court to immediately discontinue the air pollution or take such other action as may be necessary to contain the imminent and substantial endangerment, or both.

(3) An order issued by the department under subsection (1) is effective upon issuance and shall remain in effect for a period of not more than 7 days, unless the attorney general brings a civil action to restrain the alleged endangerment pursuant to subsection (2) or section 5530 before the expiration of that period. If the attorney general brings such an action within the 7-day period, the order issued by the department shall remain in effect for an additional 7 days or such other period as is authorized by the court in which the action is brought.

(4) Prior to taking an action under subsection (1), the department shall attempt to notify the emergency management coordinator for the county in which the source is located who is appointed pursuant to the emergency management act, Act No. 390 of the Public Acts of 1976, being sections 30.401 to 30.420 of the Michigan Compiled Laws.

324.5519.added Asbestos emissions program; inspections; fees.

Sec. 5519. (1) The department shall establish a program to implement the National Emission Standard for Asbestos, 40 CFR part 61, subpart M.

(2) Each year, the department shall complete inspections for compliance with 40 CFR part 61, subpart M, of at least the following applicable percentage of asbestos renovations and demolitions for which original notice of intention was received under 40 CFR 61.145:

(a) 15% for 2025 and 2026.

(b) 20% for 2027 and 2028.

(c) 25% for 2029 and thereafter.

(3) An owner or operator that submits a notice of intention of asbestos removal or demolition is responsible for payment of a notification fee of $100.00. In addition, the owner or operator is responsible for payment of a $10.00 modification fee each time the submitted notice is modified. Fees under this subsection shall be paid electronically in the manner provided for by the department. A public entity may pass through

the cost for the notice fee and any modification fee to the asbestos abatement contractor, unless the pass through would violate the terms of a contract entered into before the effective date of the amendatory act that added this section. The department shall assess and collect the fees and shall transmit fee revenue to the state treasurer for deposit in the asbestos inspection fund created in section 5519a.

(4) As used in this section, "asbestos abatement contractor" means that term as defined in section 103 of the asbestos abatement contractors licensing act, 1986 PA 135, MCL 338.3103.

History: Add. 2024, Act 56, Eff. (sine die).

***** *324.5519b.added THIS ADDED SECTION IS EFFECTIVE 91 DAYS AFTER ADJOURNMENT OF THE 2024 REGULAR SESSION SINE DIE* *****

324.5519b.added Annual asbestos program report.

Sec. 5519b. (1) Subject to subsection (3), by March 1 annually, the department shall prepare and submit to the legislature a report that includes the following related to the department's asbestos program:

(a) For the previous calendar year, all of the following:

(*i*) The number of inspectors employed by the department.

(*ii*) The number of inspections conducted.

(*iii*) The percentage of original notices of intention received for which inspections were conducted.

(*iv*) The number of enforcement actions taken.

(b) An evaluation and recommendation based on the evaluation of whether the department has a sufficient number of inspectors to carry out National Emission Standard for Asbestos, 40 CFR part 61, subpart M. The evaluation shall be based on metrics established by the department for the percentage of original notices of intention under 40 CFR 61.145 for renovations or demolitions received during a calendar year for which inspections were conducted during that calendar year. The minimum percentage set by the department for a determination of sufficiency shall be at least 15%.

(2) The report prepared under subsection (1) shall be posted on the department's website and published in the Michigan Register.

(3) The report required under subsection (1) may be combined with the report required under section 5522.

324.5521 Emissions control fund.

Sec. 5521. (1) The emissions control fund is created within the state treasury. The state treasurer may

receive money from any source for deposit into the fund. The state treasurer shall direct the investment of the fund. The state treasurer shall credit to the fund interest and earnings from fund investments.

(2) Money in the fund at the close of the fiscal year shall remain in the fund and shall not lapse to the general fund.

(3) Upon the expenditure or appropriation of funds raised through fees in this part for any purpose other than those specifically listed in this part, authorization to collect fees under this part is suspended until such time as the funds expended or appropriated for purposes other than those listed in this part are returned to the emissions control fund.

(4) Beginning October 1, 1994 and thereafter money shall be expended from the fund, upon appropriation, only for the following purposes as they relate to implementing the operating permit program required by title V:

(a) Preparing generally applicable rules or guidance regarding the operating permit program or its implementation or enforcement.

(b) Reviewing and acting on any application for a permit, permit revision, or permit renewal, the development of an applicable requirement as part of the processing of a permit, or permit revision or renewal.

(c) General administrative costs of running the operating permit program, including the supporting and tracking of permit applications, compliance certification, and related data entry.

(d) Implementing and enforcing the terms of any operating permit, not including any court costs or other costs associated with an enforcement action.

(e) Emissions and ambient monitoring.

(f) Modeling, analysis, or demonstration.

(g) Preparing inventories and tracking emissions.

(h) Providing direct and indirect support to facilities under the small business clean air assistance program created in part 57.

***** *324.5522 THIS SECTION MAY NOT APPLY: See subsection (11)* *****

324.5522 Fee-subject facility; air quality fees; calculation of emissions charge and facility charge; annual report detailing activities of previous fiscal year; action by attorney general for collection of fees; applicability of section; condition.

Sec. 5522. (1) Until October 1, 2027, the owner or operator of each fee-subject facility shall pay air quality fees as required and calculated under this section. The department may levy and collect an annual air quality fee from the owner or operator of each fee-subject facility in this state. The legislature intends that the fees required under this section meet the minimum requirements of the clean air act and that this expressly stated fee system serve as a limitation on the amount of fees imposed under this part on the owners or operators of fee-subject facilities in this state.

(2) The annual air quality fee is calculated for each fee-subject facility, according to the following procedure:

(a) Except as provided in subdivisions (g) and (h), for category A facilities, the annual air quality fee is the sum of an emissions charge as specified in subdivision (i) and a facility charge. The facility charge is as follows, based on the amount of fee-subject emissions:

(*i*) If the amount of fee-subject emissions is capped under subdivision (i), $45,000.00.

(*ii*) For 1,000 or more tons, $30,000.00.

(*iii*) For 100 or more tons but less than 1,000 tons, $15,750.00.

(*iv*) For 60 or more tons but less than 100 tons, $12,500.00.

(*v*) For 6 or more tons but less than 60 tons, $10,500.00.

(*vi*) For zero or more tons but less than 6 tons, $5,250.00.

(b) For category B facilities, the annual air quality fee is the sum of an emissions charge as specified in subdivision (j) and a facility charge. The facility charge is as follows, based on the amount of fee-subject emissions:

(*i*) For 2,000 or more tons, $21,000.00.

(*ii*) For 200 or more tons but less than 2,000 tons, $15,750.00.

(*iii*) For 60 or more tons but less than 200 tons, $10,500.00.

(*iv*) For 6 or more tons but less than 60 tons, $7,500.00.

(*v*) For zero or more tons but less than 6 tons, $5,250.00.

(c) For category C facilities, the annual air quality fee is the sum of an emissions charge as specified in subdivision (j) and a facility charge. The facility charge is as follows, based on the amount of fee-subject emissions:

(*i*) For 60 or more tons, $4,500.00.

(*ii*) For 6 or more tons but less than 60 tons, $3,500.00.

(*iii*) For zero or more tons but less than 6 tons, $2,500.00.

(d) For category D facilities, the annual air quality fee is the sum of an emissions charge as specified in subdivision (j) and a facility charge. The facility charge is as follows, based on the amount of fee-subject emissions:

(*i*) For 60 or more tons, $2,500.00.

(*ii*) For 6 or more tons but less than 60 tons, $2,000.00.

(*iii*) For zero or more tons but less than 6 tons, $1,795.00.

(e) For category E facilities, the annual air quality fee is as follows, based on the amount of fee-subject emissions:

(*i*) For 60 or more tons, $1,795.00.

(*ii*) For zero or more tons but less than 60 tons, $250.00.

(f) For category F facilities, the annual air quality fee is $250.00.

(g) For municipal electric generating facilities with 646 or more tons of fee-subject air emissions, the annual air quality fee is $50,000.00.

(h) For municipal electric generating facilities with less than 646 tons of fee-subject emissions, the annual air quality fee is determined in the same manner as provided in subdivision (b).

(i) The emissions charge for a category A facility that is not covered by subdivision (g) or (h) equals the emission charge rate multiplied by the actual tons of fee-subject emissions. The emission charge rate for fee-subject air pollutants is $53.00. A pollutant that qualifies as a fee-subject air pollutant under more than 1 class is charged only once. The actual tons of fee-subject emissions is considered to be the sum of all fee-subject emissions at the fee-subject facility for the calendar year 2 years preceding the year of billing, but not more than the lesser of the following:

(*i*) 6,100 tons.

(*ii*) 1,500 tons per pollutant, if the sum of all fee-subject emissions except carbon monoxide at the fee-subject facility is less than 6,100 tons.

(j) The emissions charge for facilities that are not electric providers must be calculated in the same manner as provided in subdivision (i). However, the actual tons of fee-subject emissions is considered to be the sum of all fee-subject emissions at a fee-subject facility for the calendar year 2 years preceding the year of billing, but not more than the lesser of the following:

(*i*) 4,500 tons.

(*ii*) 1,250 tons per pollutant, if the sum of all fee-subject emissions except carbon monoxide at the fee-subject facility is less than 4,500 tons.

(3) After January 1, but before January 15 of each year, the department shall notify the owner or operator of each fee-subject facility of its assessed annual air quality fee. Payment is due within 90 calendar days after the mailing date of the air quality fee notification. If an assessed fee is challenged under subsection (5), payment is due within 90 calendar days after the mailing date of the air quality fee notification or within 30 days after receipt of a revised fee or statement supporting the original fee, whichever is later. However, to combine fee assessments, the department may adjust the billing date and due date under this subsection for category F facilities that are dry cleaning facilities also subject to the licensing requirements of section 13305 of the public health code, 1978 PA 368, MCL 333.13305, or the certification requirements of section 5i of the fire prevention code, 1941 PA 207, MCL 29.5i. The department shall deposit all fees collected under this section to the credit of the fund.

(4) If the owner or operator of a fee-subject facility fails to submit the amount due within the time period specified in subsection (3), the department shall assess the owner or operator a penalty of 5% of the amount of the unpaid fee for each month that the payment is overdue up to a maximum penalty of 25% of the total fee owed. However, to combine fee assessments, the department may waive the penalty under this subsection for dry cleaning facilities described in subsection (3).

(5) To challenge its assessed fee, the owner or operator of a fee-subject facility shall submit the challenge in writing to the department. The department shall not process the challenge unless it is received by the department within 45 calendar days after the mailing date of the air quality fee notification described in subsection (3). A challenge must identify the facility and state the grounds on which the challenge is based. Within 30 calendar days after receipt of the challenge, the department shall determine the validity of the challenge and provide the owner with notification of a revised fee or statement setting forth the reason or

reasons why the fee was not revised. Payment of the challenged or revised fee is due within the time frame described in subsection (3). If the owner or operator of a facility desires to further challenge its assessed fee, the owner or operator of the facility has an opportunity for a contested case hearing as provided for under chapter 4 of the administrative procedures act of 1969, 1969 PA 306, MCL 24.271 to 24.288.

(6) If requested by the department, by March 15 of each year, or within 45 days after the request, whichever is later, the owner or operator of each fee-subject facility shall submit to the department information regarding the facility's previous year's emissions. The information must be sufficient for the department to calculate the facility's emissions for that year and meet the requirements of 40 CFR 51.320 to 51.327.

(7) By July 1 of each year, the department shall provide the owner or operator of each fee-subject facility required to pay an emission charge under this section with a copy of the department's calculation of the facility emissions for the previous year. Within 60 days after this notification, the owner or operator of the facility may provide corrections to the department. The department shall make a final determination of the emissions by December 15 of that year. If the owner or operator disagrees with the determination of the department, the owner or operator may request a contested case hearing as provided for under chapter 4 of the administrative procedures act of 1969, 1969 PA 306, MCL 24.271 to 24.288.

(8) By March 1 each year, the department shall prepare and submit to the governor, the legislature, the chairpersons of the standing committees of the senate and house of representatives with primary responsibility for environmental protection issues related to air quality, and the chairpersons of the subcommittees of the senate and house of representatives appropriations committees with primary responsibility for appropriations to the department a report that details the department's activities of the previous fiscal year funded by the fund. This report must include, at a minimum, all of the following as it relates to the department:

(a) The number of full-time equated positions performing title V and non-title V air quality enforcement, compliance, or permitting activities.

(b) All of the following information related to the permit to install program authorized under section 5505:

(*i*) The number of permit to install applications received by the department.

(*ii*) The number of permit to install applications for which a final action was taken by the department. The number of final actions must be reported as the number of applications approved, the number of applications denied, and the number of applications withdrawn by the applicant.

(*iii*) The number of permits to install approved that were required to complete public participation under section 5511(3) before final action and the number of permits to install approved that were not required to complete public participation under section 5511(3) before final action.

(*iv*) The average number of final permit actions per permit to install reviewer full-time equivalent position.

(*v*) The percentage and number of permit to install applications that were reviewed for administrative completeness within 10 days after receipt by the department.

(*vi*) The percentage and number of permit to install applications submitted to the department that were administratively complete as received.

(*vii*) The percentage and number of permit to install applications for which a final action was taken by the department within 180 days after receipt for those applications not required to complete public participation under section 5511(3) before final action, or within 240 days after receipt for those applications required to complete public participation under section 5511(3) before final action.

(*viii*) The percentage and number of permit to install applications for which a processing period extension was requested and granted.

(c) All of the following information for the renewable operating permit program authorized under section 5506:

(*i*) The number of renewable operating permit applications received by the department.

(*ii*) The number of renewable operating permit applications for which a final action was taken by the department. The number of final actions must be reported as the number of applications approved, the number of applications denied, and the number of applications withdrawn by the applicant.

(*iii*) The percentage and number of initial permit applications processed within the required time.

(*iv*) The percentage and number of permit renewals and modifications processed within the required time.

(*v*) The number of permit applications reopened by the department.

(*vi*) The number of general permits issued by the department.

(d) The number of letters of violation sent.

(e) The amount of penalties collected from all consent orders and judgments.

(f) For each enforcement action that includes payment of a penalty, a description of what corrective actions were required by the enforcement action.

(g) The number of inspections done on sources required to obtain a permit under section 5506 and the

number of inspections of other sources.

(h) The number of air pollution complaints received, investigated, not resolved, and resolved by the department.

(i) The number of contested case hearings and civil actions initiated, the number of contested case hearings and civil actions completed, and the number of voluntary consent orders, administrative penalty orders, and emergency orders entered or issued, for sources required to obtain a permit under section 5506.

(j) The amount of revenue in the fund at the end of the fiscal year.

(9) A report under subsection (8) must also include the amount of revenue for programs under this part received during the prior fiscal year from fees, from federal funds, and from general fund appropriations. Each of these amounts must be expressed as a dollar amount and as a percent of the total annual cost of programs under this part.

(10) The attorney general may bring an action for the collection of the fees imposed under this section.

(11) This section does not apply if the administrator of the United States Environmental Protection Agency determines that the department is not adequately administering or enforcing the renewable operating permit program and the administrator promulgates and administers a renewable operating permit program for this state.

324.5523 Issuance of permits and administration and enforcement of part, rules, and state implementation plan; delegation granted by department to certain counties.

Sec. 5523. (1) A county in which a city with a population of 750,000 or more is located may apply for a delegation from the department to issue state permits and administer and enforce the applicable provisions of this part, rules promulgated under this part, the clean air act, and the state implementation plan. After a public hearing, the department shall grant the delegation if the department finds that the county's application demonstrates all of the following:

(a) That the county program complies with the applicable provisions of this part, the rules promulgated under this part, the clean air act, and the state implementation plan.

(b) That the county has, and will continue to have, the capacity to carry out the applicable provisions of this part, rules promulgated under this part, the clean air act, and the state implementation plan including, but not limited to, adequate and qualified staff to do all of the following:

(*i*) Monitor ambient air at locations specified by the department using equipment and procedures specified by the department.

(*ii*) Process and review applications for installation permits, operating permits, tax exemptions, and construction waivers pursuant to sections 5505 and 5506, part 59, and the clean air act, demonstrating a thorough knowledge of permit applicability, procedures, and regulations by developing permits that are free of significant errors and inaccuracies as defined in the performance standards section of the annual contract between the department and participating counties.

(*iii*) Perform necessary sampling and laboratory analyses.

(*iv*) Conduct regular and complete inspections and record reviews of all significant sources of air pollution.

(*v*) Respond to citizen complaints related to air pollution.

(*vi*) Notify sources of identified violations of applicable provisions of this part, rules promulgated under this part, the clean air act, and the state implementation plan and conduct appropriate enforcement, up to and including administrative, civil, and criminal enforcement.

(*vii*) Perform dispersion modeling analyses, collect emissions release information, and develop necessary state implementation plan demonstrations.

(*viii*) Carry out other activities required by this part, rules promulgated under this part, the clean air act, and the state implementation plan.

(c) That the county has adequate funding to carry out the applicable provisions of this part, rules promulgated under this part, the clean air act, and the state implementation plan. This shall include identification of funding from air quality fees and any federal, state, or county funds along with an identification of the activities that are funded by each funding source. The county funding shall be sufficient to provide the required grantee match for any federal air pollution grant.

(d) That the county has performed in accordance with the terms of the most recent contract, if any, between

the state and the county that describes the work activities and program to be carried out by the county. This shall be demonstrated through state audit reports and the county's prompt and permanent correction of any deficiencies identified in state audit reports.

(e) That the county program contains provisions for public notice and public participation consistent with this part, the rules promulgated under this part, and the clean air act.

(f) That the county has the capacity to administer the state air quality fee program in the manner prescribed in section 5522 for all fee-subject facilities subject to this part, located within the county, and subject to the delegated program of the county. This shall include an ability to identify fee-subject facilities, calculate and assess fees, implement collections, maintain a dedicated account, and process fee challenges.

(2) A delegation under this section shall be for a term of not more than 5 years and not less than 2 years, and may be renewed by the department. The delegation shall be in the form of a written contract that does all of the following:

(a) Describes the activities the county shall carry out during the term of the delegation.

(b) Provides for the delegated program to be consistent with implementation of the state's air program, using state procedures, forms, databases, and other means.

(c) Provides for ongoing communication between the county and state to assure consistency under subdivision (b).

(3) One hundred eighty days prior to the expiration of the term of delegation, the county may submit an application to the department for renewal of their delegation of authority. The department shall hold a public hearing and following the public hearing make its decision on a renewal of delegation at least 60 days prior to the expiration of the term of the delegation. The department shall deny the renewal of a delegation of authority upon a finding that the county no longer meets the criteria described in subsection (1) or provisions of the delegation contract. The county may appeal a finding under subsection (1) or this subsection to a court of competent jurisdiction.

(4) A county delegated authority under this section annually shall submit a report to the department that documents the county's ability to meet the criteria described in subsection (1) and the delegation contract during the past 12 months.

(5) In addition to the report of the county under subsection (4), the auditor general of the state shall annually submit to the governor, the legislature, and the department an independent report regarding whether a county meets the criteria provided in subsection (1) and a review of the fiscal integrity of a county delegated authority under this section. The auditor general's report shall also determine the county's pro rata share of the state's support services for title V programs that are attributable to and payable by a county.

(6) Within 60 days after a county delegated authority under this section submits its annual report as required under subsection (4), the department shall notify the county, in writing, whether the report of the county meets the requirements of this section or states, with particularity, the deficiencies in that report or any findings in the auditor general's report that render the county in noncompliance with the criteria in subsection (1). The county shall have 90 days to correct any stated deficiencies. If the department finds that the deficiencies have not been corrected by the county, the department shall notify the county, in writing, within 30 days of the submission of the county's corrections and may terminate a county's delegation. The county shall have 21 days from receipt of the decision of termination in which to appeal the department's decision to a court of competent jurisdiction. If the department fails to notify the county within 60 days, the report shall be considered satisfactory for the purposes of this subsection.

(7) Notwithstanding any other statutory provision, rule, or ordinance, a county delegated authority under this section to administer and enforce this part shall issue state permits and implement its responsibilities only in accordance with its delegation, the delegation contract, this part, rules promulgated under this part, the clean air act, and the applicable provisions of the state implementation plan. State permits issued by a county that is delegated authority under this section have the same force and effect as permits issued by the department, and if such a county issues a state permit pursuant to section 5505 or 5506, no other state or county permit is required pursuant to section 5505 or 5506, respectively.

(8) Upon receipt of a permit application, prior to taking final action to issue a state permit or entering into a consent order, the county shall transmit to the department a copy of each administratively complete permit application, application for a permit modification or renewal, proposed permit, or proposed consent order. The county shall transmit to the department a copy of each state permit issued by the county and consent order entered within 30 days of issuance of the state permit or entry of the consent order.

(9) Notwithstanding a delegation under this part, the department retains the authority to bring any appropriate enforcement action under sections 5515, 5516, 5518, 5526, 5527, 5528, 5529, 5530, 5531, and 5532 as authorized under this part and the rules promulgated under this part to enforce this part and the rules promulgated under this part. The department may bring any appropriate action to enforce a state permit issued

or a consent order entered into by a county to which authority is delegated.

(10) Notwithstanding any other provision of this part, in a county that has been delegated authority under this section, that county shall impose and collect fees in the manner prescribed in section 5522 on all fee-subject facilities subject to this part and located within the corporate boundaries and subject to the delegated program of the county. The department shall not levy or collect an annual air quality fee from the owner or operator of a fee-subject facility who pays fees pursuant to this section. A county that is delegated authority under this section shall not assess a fee for a program or service other than as provided for in this part or title V or assess a fee covered by this part or title V greater than the fees set forth in section 5522. A county that is delegated authority under this section shall pay to the state the pro rata share of the state's support services for title V programs attributable to the county.

(11) Fees imposed and collected by a county with delegated authority under this section shall be paid to the county treasury.

(12) The county treasurer of a county delegated authority under this section shall create a clean air implementation account in the county treasury, and the county treasurer shall deposit all fees received pursuant to the delegation authorized under this section in the account. The fees shall be expended only in accordance with section 5521(6), the rules promulgated under this part, and the clean air act.

324.5524 Fugitive dust sources or emissions.

Sec. 5524. (1) The provisions of this section, including subsection (2), shall apply to any fugitive dust source at all mining operations, standard industrial classification major groups 10 through 14; manufacturing operations, standard industrial classification major groups 20 through 39; railroad transportation, standard industrial classification major group 40; motor freight transportation and warehousing, standard industrial classification major group 42; electric services, standard industrial classification group 491; sanitary services, standard industrial classification group 495; and steam supply, standard industrial classification group 496, which are located in areas listed in table 36 of R 336.1371 of the Michigan administrative code.

(2) Except as provided in subsection (8), a person responsible for any fugitive dust source regulated under this section shall not cause or allow the emission of fugitive dust from any road, lot, or storage pile, including any material handling activity at a storage pile, that has an opacity greater than 5% as determined by reference test method 9d. Except as otherwise provided in subsection (8) or this section, a person shall not cause or allow the emission of fugitive dust from any other fugitive dust source that has an opacity greater than 20% as determined by test method 9d. The provisions of this subsection shall not apply to storage pile material handling activities when wind speeds are in excess of 25 miles per hour (40.2 kilometers per hour).

(3) In addition to the requirements of subsection (2), and except as provided in subdivisions (e), (f), and (g), a person shall control fugitive dust emissions in a manner that results in compliance with all of the following provisions:

(a) Potential fugitive dust sources shall be maintained and operated so as to comply with all of the following applicable provisions:

(*i*) All storage piles of materials, where the total uncontrolled emissions of fugitive dust from all such piles at a facility is in excess of 50 tons per year and where such piles are located within a facility with potential particulate emissions from all sources including fugitive dust sources and all other sources exceeding 100 tons per year, shall be protected by a cover or enclosure or sprayed with water or a surfactant solution, or treated by an equivalent method, in accordance with the operating program required by subsection (4).

(*ii*) All conveyor loading operations to storage piles specified in subparagraph (*i*) shall utilize spray systems, telescopic chutes, stone ladders, or other equivalent methods in accordance with the operating program required by subsection (4). Batch loading operations to storage piles specified in subparagraph (*i*) shall utilize spray systems, limited drop heights, enclosures, or other equivalent methods in accordance with the operating program required by subsection (4). Unloading operations from storage piles specified in subparagraph (*i*) shall utilize rake reclaimers, bucket wheel reclaimers, under-pile conveying, pneumatic conveying with baghouse, water sprays, gravity-feed plow reclaimer, front-end loaders with limited drop heights, or other equivalent methods in accordance with the operating program required by subsection (4).

(*iii*) All traffic pattern access areas surrounding storage piles specified in subparagraph (*i*) and all traffic pattern roads and parking facilities shall be paved or treated with water, oils, or chemical dust suppressants. All paved areas, including traffic pattern access areas surrounding storage piles specified in subparagraph (*i*), shall be cleaned in accordance with the operating program required by subsection (4). All areas treated with

water, oils, or chemical dust suppressants shall have the treatment applied in accordance with the operating program required by subsection (4).

(*iv*) All unloading and transporting operations of materials collected by pollution control equipment shall be enclosed or shall utilize spraying, pelletizing, screw conveying, or other equivalent methods.

(*v*) Crushers, grinding mills, screening operations, bucket elevators, conveyor transfer points, conveyor bagging operations, storage bins, and fine product truck and railcar loading operations shall be sprayed with water or a surfactant solution, utilize choke-feeding, or be treated by an equivalent method in accordance with an operating program required under subsection (4). This subparagraph shall not apply to high-lines at steel mills.

(b) If particulate collection equipment is operated pursuant to this section, emissions from such equipment shall not exceed 0.03 grains per dry standard cubic foot (0.07 grams per cubic meter).

(c) A person shall not cause or allow the operation of a vehicle for the transporting of bulk materials with a silt content of more than 1% without employing 1 or more of the following control methods:

(*i*) The use of completely enclosed trucks, tarps, or other covers for bulk materials with a silt content of 20% or more by weight.

(*ii*) The use of tarps, chemical dust suppressants, or water in sufficient quantity to maintain the surface in a wet condition for bulk materials with a silt content of more than 5% but less than 20%.

(*iii*) Loading trucks so that no part of the load making contact with any sideboard, side panel, or rear part of the load comes within 6 inches of the top part of the enclosure for bulk materials with a silt content of more than 1% but not more than 5%.

(d) All vehicles for transporting bulk materials off-site shall be maintained in such a way as to prevent leakage or spillage and shall comply with the requirements of section 720 of the Michigan vehicle code, Act No. 300 of the Public Acts of 1949, being section 257.720 of the Michigan Compiled Laws, and with R 28.1457 of the Michigan administrative code.

(e) The provisions of subdivisions (c) and (d) do not apply to vehicles with less than a 2-ton capacity that are used to transport sand, gravel, stones, peat, or topsoil.

(f) The provisions of subdivision (c)(*i*) and (*ii*) do not apply to fly ash which has been thoroughly wetted and has the property of forming a stable crust upon drying.

(g) The provisions of subdivision (c) do not apply to the transportation of iron or steel slag if the vehicles do not leave the facility and the slag has a temperature of 200 degrees fahrenheit or greater.

(4) All fugitive dust sources subject to the provisions of this section shall be operated in compliance with both the provisions of an operating program that shall be prepared by the owner or operator of the source and submitted to the department and with applicable provisions of this section. Such operating program shall be designed to significantly reduce the fugitive dust emissions to the lowest level that a particular source is capable of achieving by the application of control technology that is reasonably available, considering technological and economic feasibility. The operating program shall be implemented with the approval of the department.

(5) The operating program required by subsection (4) is subject to review and approval or disapproval by the department and shall be considered approved if not acted on by the department within 90 days of submittal. All programs approved by the department shall become a part of a legally enforceable order or as part of an approved permit to install or operate. At a minimum, the operating program shall include all of the following:

(a) The name and address of the facility.

(b) The name and address of the owner or operator responsible for implementation of the operating program.

(c) A map or diagram of the facility showing all of the following:

(*i*) Approximate locations of storage piles.

(*ii*) Conveyor loading operations.

(*iii*) All traffic patterns within the facility.

(d) The location of unloading and transporting operations with pollution control equipment.

(e) A detailed description of the best management practices utilized to achieve compliance with this section, including an engineering specification of particulate collection equipment, application systems for water, oil, chemicals, and dust suppressants utilized, and equivalent methods utilized.

(f) A test procedure, including record keeping, for testing all waste or recycled oils used for fugitive dust control for toxic contaminants.

(g) The frequency of application, application rates, and dilution rates if applicable, of dust suppressants by location of materials.

(h) The frequency of cleaning paved traffic pattern roads and parking facilities.

(i) Other information as may be necessary to facilitate the department's review of the operating program.

(6) Except for fugitive dust sources operating programs approved by the department pursuant to R 336.1373 of the Michigan administrative code between April 23, 1985 and May 12, 1987, the owner or operator of a source shall submit the operating program required by subsection (4) to the department by August 12, 1987.

(7) The operating program required by subsection (4) shall be amended by the owner or operator so that the operating program is current and reflects any significant change in the fugitive dust source or fugitive dust emissions. An amendment to an operating program shall be consistent with the requirements of this section and shall be submitted to the department for its review and approval or disapproval.

(8) Upon request by the owner or operator of a fugitive dust source, the department may establish alternate provisions to those specified in this section, if all of the following conditions are met:

(a) The fugitive dust emitting process, operation, or activity is subject to either of the following:

(*i*) The opacity limits of subsection (2).

(*ii*) The spray requirements of subsection (3)(a)(*i*) to (*v*).

(b) An alternate provision shall not be established by the department unless the department is reasonably convinced of all of the following:

(*i*) That a fugitive dust emitting process, operation, or activity subject to the alternate provisions is in compliance or on a legally enforceable schedule of compliance with the other rules of the department.

(*ii*) That compliance with the provisions of this section is not technically or economically reasonable.

(*iii*) That reasonable measures to reduce fugitive emissions as required by this section have been implemented in accordance with or will be implemented in accordance with a schedule approved by the department.

(9) Any alternate provisions approved by the department pursuant to subsection (8) shall be submitted to the United States environmental protection agency as an amendment to the state implementation plan.

Popular name: Act 451

Popular name: NREPA

324.5525 Definitions.

Sec. 5525. As used in section 5524:

(a) "Control equipment or pollution control equipment" has the meaning ascribed to control equipment in R 336.1103 of the Michigan administrative code.

(b) "Fine product" means materials which will pass through a 20-mesh screen or those particles with aerodynamic diameters of 830 microns or less.

(c) "Fugitive dust" has the meaning ascribed to it in R 336.1106 of the Michigan administrative code.

(d) "Fugitive dust source" means any fugitive dust emitting process, operation, or activity regulated under section 5524.

(e) "Opacity" has the meaning ascribed to it in R 336.1115 of the Michigan administrative code.

(f) "Particulate" means any air contaminant existing as a finely divided liquid or solid, other than uncombined water, as measured by a reference test specified in subsection (5) of R 336.2004 of the Michigan administrative code or by an equivalent or alternative method.

(g) "Potential particulate emissions" means those emissions of particulate matter expected to occur without control equipment, unless such control equipment is, aside from air pollution control requirements, vital to the production of the normal product of the source or to its normal operation. Annual potential particulate emissions shall be based on the maximum annual-rated capacity of the source, unless the source is subject to enforceable permit conditions or enforceable orders which limit the operating rate or the hours of operation or both. Enforceable agreements or permit conditions on the type or amount of materials combusted or processed shall be used in determining the potential particulate emission rate of a source.

(h) "Process" or "process equipment" has the meaning ascribed to it in R 336.1116 of the Michigan administrative code.

(i) "Silt content" means that portion, by weight, of a particulate material which will pass through a number 200 (75 micron) wire sieve as determined by the American society of testing material, test C-136-76.

(j) "Test method 9D" means the method by which visible emissions of fugitive dust shall be determined according to test method 9 as set forth in appendix A-reference methods in 40 CFR, part 60, with the following modifications:

(*i*) The data reduction provisions of section 2.5 of method 9 shall be based on an average of 12 consecutive readings recorded at 15-second intervals.

(*ii*) For roadways and parking lots, opacity observations shall be made from a position such that the

observer's line of vision is approximately perpendicular to the plume direction and approximately 4 feet directly above the surface of the road or parking area from which the emissions are being generated. The observer shall not look continuously at the plume, but instead shall observe the plume momentarily at 15-second intervals at the point of maximum plume density. Consecutive readings must be suspended for any 15-second period if a vehicle is in the observer's line of sight. If this occurs, a "V" shall be used in lieu of a numerical value, and a footnote shall be made to indicate that "V" signifies that the observer's view was obstructed by a vehicle. Readings shall continue at the next 15-second period, and they shall be considered consecutive to the reading immediately preceding the 15-second period denoted by a "V". Consecutive readings also shall be suspended for any 15-second period if a vehicle passes through the area traveling in the opposite direction and creates a plume that is intermixed with the plume being read. If this occurs, an "I" shall be used in lieu of a numerical value, and a footnote shall be made to indicate that "I" signifies that the readings were terminated due to interference from intermixed plumes. Readings shall continue when, in the judgment of the observer, the plume created by the vehicle traveling in the opposite direction no longer interferes with the plume originally being read; and they shall be considered consecutive to the reading immediately preceding the 15-second period denoted by an "I". Intermixing of plumes from vehicles traveling in the same direction represents the road conditions, and reading shall continue in the prescribed manner. A reading encompassing an unusual condition (such as a broken bag of cement on the pavement) cannot be used to represent the entire surface condition involved. In such cases, another set of readings, encompassing the average surface condition, must be conducted. For all other fugitive dust sources except roadways and parking lots, opacity observations shall be made from a position that provides the observer a clear view of the source and the fugitive dust with the sun behind the observer. A position at least 15 feet from the source is recommended. To the extent possible, the line of sight should be approximately perpendicular to the flow of fugitive dust and to the longer axis of the emissions. Opacity observations shall be made for the point of highest opacity within the fugitive dust. Since the highest opacity usually occurs immediately above or downwind of the source, the observer should normally concentrate on the area or areas of the plume close to the source.

324.5526 Investigation; inspection; furnishing duplicate of analytical report; powers of department or authorized representative; entry or access to records refused; powers of attorney general; "authorized representative" defined.

Sec. 5526. (1) The department may, upon the presentation of credentials and other documents as may be required by law, and upon stating the authority and purpose of the investigation, enter and inspect any property at reasonable times for the purpose of investigating either an actual or suspected source of air pollution or ascertaining compliance or noncompliance with this part, rules promulgated under this part, the clean air act, a permit issued under this part, or any determination or order issued under this part. If in connection with an investigation or inspection, samples of air contaminants are taken for analysis, a duplicate of the analytical report shall be furnished promptly to the person who is suspected of causing the air pollution. In implementing this subsection, the department or its authorized representative may do any of the following:

(a) Have access to and copy, at reasonable times, any records that are required to be maintained pursuant to this part, rules promulgated under this part, the clean air act, a permit issued under this part, or any determination or order issued under this part.

(b) Inspect at reasonable times any facility, equipment, including monitoring and air pollution control equipment, practices, or operations regulated or required under this part, rules promulgated under this part, the clean air act, a permit issued under this part, or any determination or order issued under this part.

(c) Sample or monitor at reasonable times substances or parameters for the purpose of determining compliance with this part, rules promulgated under this part, the clean air act, a permit issued under this part, or any determination or order issued under this part. The department may enter into a contract with a person to sample and monitor as authorized under this subdivision.

(2) If the department, or an authorized representative of the department, is refused entry or access to records and samples under subsection (1) for the purposes of utilizing this section, the attorney general, on behalf of the state, may do either of the following:

(a) Petition the court of appropriate jurisdiction for a warrant authorizing entry or access to records and samples pursuant to this section.

(b) Commence a civil action to compel compliance with a request for entry and access to records and

samples pursuant to this section, to authorize entry and access to records and samples provided for in this section, and to enjoin interference with the utilization of this section.

(3) As used in this section, "authorized representative" means any of the following:

(a) A full- or part-time employee of the department of natural resources or other state department or agency to which the department delegates certain duties under this section.

(b) A county to which authority is delegated under section 5523.

(c) For the purpose of utilizing the powers conferred in subsection (1)(c), a contractor retained by the state or a county to which authority is delegated under section 5523.

324.5527 Emergency; definition; affirmative defense; burden of proof.

Sec. 5527. (1) As used in this section, "emergency" means a situation arising from sudden and reasonably unforeseeable events beyond the control of the source, including acts of God, war, strike, riot, catastrophe, or other condition as to which negligence on the part of the person was not the proximate cause, that requires immediate corrective action to restore normal operation, and that causes the source to exceed a technology-based emission limitation contained in an operating permit issued pursuant to section 5506, a permit to install or permit to operate issued pursuant to section 5505, or any rule promulgated under this part due to unavoidable increases in emissions attributable to the situation. An emergency does not include acts of noncompliance caused by improperly designed equipment, lack of preventative maintenance, careless or improper operation, or operator error.

(2) An emergency constitutes an affirmative defense to an action brought for noncompliance with a technology-based emission limitation contained in an operating permit issued pursuant to section 5506, a permit to install or permit to operate issued pursuant to section 5505, or any rule promulgated under this part if the emergency is demonstrated through properly signed, contemporaneous operating logs, or other relevant evidence that establishes all of the following:

(a) An emergency occurred and that the defendant can identify the cause or causes of the emergency.

(b) The source was properly operated at the time of the emergency.

(c) During the emergency the defendant took all reasonable steps to minimize levels of emissions that exceeded the emission standards, or other requirements in the permit.

(d) The defendant submitted notice of the emergency to the department within 2 working days after the emission limitation was exceeded due to the emergency. This notice must contain a description of the emergency, any steps taken to mitigate emissions, and corrective actions taken.

(3) In any enforcement proceeding, the defendant seeking to establish the occurrence of an emergency has the burden of proof.

Popular name: Act 451

Popular name: NREPA

324.5528 Violation of part, rule, terms of permit, or order; agreement to correct violation; consent order; public notice and opportunity for public comment; providing copy of proposed consent order.

Sec. 5528. (1) If the department believes that a violation of this part or a rule promulgated under this part exists, or a violation of the terms of a permit issued under this part exists, the department shall provide the person responsible for the alleged violation with the opportunity to enter into an agreement with the department to correct the alleged violation. The agreement may provide for monetary or other relief as agreed upon by the parties. The agreement shall be in the form of a consent order and shall provide for compliance with this part and rules promulgated under this part and compliance with any applicable permit issued under this part. In addition, each consent order shall contain a compliance schedule that provides for reasonable progress toward full compliance by a designated date.

(2) If the department believes that a violation of an order issued under this part exists, the department may provide the person responsible for the alleged violation with the opportunity to enter into an agreement with the department to correct the alleged violation. The agreement may provide for monetary or other relief as agreed upon by the parties. The agreement shall be in the form of a consent order and shall provide for compliance with this part and rules promulgated under this part and compliance with any applicable permit or order issued under this part. In addition, each consent order shall contain a compliance schedule that provides

for reasonable progress toward full compliance by a designated date.

(3) The department shall provide public notice and an opportunity for public comment on the terms and conditions of a consent order. Upon the request of any person the department shall provide a copy of the proposed consent order.

324.5529 Administrative fine; limitation; petition for review of fine.

Sec. 5529. (1) The department may assess an administrative fine of up to $10,000.00 for each instance of violation and, if the violation continues, for each day of continued noncompliance, if the department, on the basis of available information, finds that the person has violated or is in violation of this part or a rule promulgated under this part, has failed to obtain a permit required under this part, violates an order under this part, or has failed to comply with the terms of a permit issued under this part. If a single event constitutes an instance of violation of any combination of this part, a rule promulgated under this part, or a permit issued or order entered under this part, the amount of the administrative fine for that single event shall not exceed $10,000.00 for that violation. The assessment of an administrative fine may be either a part of a compliance order or a separate order issued by the department.

(2) The authority of the department under this section is limited to matters where the total administrative fine sought does not exceed $100,000.00 and the first alleged date of violation occurred within 12 months prior to initiation of the administrative action. Except as may otherwise be provided by applicable law, the department shall not condition the issuance of a permit on the payment of an administrative fine assessed pursuant to this section.

(3) Within 28 days of being assessed an administrative fine from the department, a person may file a petition with the department for review of this fine. Review of the fine shall be conducted pursuant to the contested case procedures of the administrative procedures act of 1969, Act No. 306 of the Public Acts of 1969, being sections 24.271 to 24.287 of the Michigan Compiled Laws. If issued as part of a consent order issued pursuant to section 5528, only the amount of the administrative fine and the alleged violation on which the fine is based are subject to the contested case procedures of Act No. 306 of the Public Acts of 1969.

324.5530 Commencement of civil action by attorney general; relief; costs; jurisdiction; defenses; fines.

Sec. 5530. (1) The attorney general may commence a civil action against a person for appropriate relief, including injunctive relief, and a civil fine as provided in subsection (2) for any of the following:

(a) Violating this part or a rule promulgated under this part.

(b) Failure to obtain a permit under this part.

(c) Failure to comply with the terms of a permit or an order issued under this part.

(d) Failure to pay an air quality fee or comply with a filing requirement under this part.

(e) Failure to comply with the inspection, entry, and monitoring requirements of this part.

(f) A violation described in section 5518(2).

(2) In addition to any other relief authorized under this section, the court may impose a civil fine of not more than $10,000.00 for each instance of violation and, if the violation continues, for each day of continued violation.

(3) In addition to other relief authorized under this section, the attorney general may, at the request of the department, file an action in a court of competent jurisdiction to recover the full value of the injuries done to the natural resources of the state.

(4) In issuing a final order in an action brought pursuant to this section, the court may award costs of litigation, including, but not limited to, reasonable attorney and expert witness fees, to the prevailing or substantially prevailing party if the court determines that such an award is appropriate.

(5) A civil action brought under this section may be brought in the county in which the defendant is located, resides, or is doing business, or in the circuit court for the county of Ingham, or in the county in which the registered office of a defendant corporation is located, or in the county where the violation occurred.

(6) General defenses and affirmative defenses, that may otherwise apply under state law may apply in an action brought under this section as determined to be appropriate by a court of competent jurisdiction.

(7) Fines imposed under this section shall be assessed for each instance of violation and, if the violation is continuous, shall be assessable up to the maximum amount for each day of violation.

324.5531 Violations as misdemeanors; violations as felonies; fines; defenses; definitions.

Sec. 5531. (1) A person who knowingly violates any requirement or prohibition of an applicable requirement of this part or a rule promulgated under this part or who fails to obtain or comply with a permit or comply with a final order or order of determination issued under this part is guilty of a misdemeanor punishable by a fine of not more than $10,000.00 per day, for each violation.

(2) A person who knowingly makes a false material statement, representation, or certification in, or omits material information from, or knowingly alters, conceals, or fails to file any notice, application, record, report, plan, or other document required to be submitted pursuant to this part or a rule promulgated under this part, or who knowingly fails to notify or report information required to be submitted under this part or a rule promulgated under this part, or who knowingly falsifies, tampers with, renders inaccurate, or knowingly fails to install any monitoring device or method required under this part or a rule promulgated under this part, is guilty of a misdemeanor punishable by imprisonment for not more than 1 year and a fine of not more than $10,000.00 per day, for each violation.

(3) A person who knowingly fails to pay any air quality fee owed under this part is guilty of a misdemeanor punishable by a fine of not more than $10,000.00.

(4) A person who knowingly releases into the ambient air any specific chemical or any hazardous air pollutant listed in 40 C.F.R. part 68, section 68.130 (January 19, 1993) pursuant to the authority of section 112(r) of part A of title I of the clean air act, 84 Stat. 1685, 42 U.S.C. 7412, or both, contrary to applicable federal, state, or local requirements, or contrary to a permit issued under this part, and because of the quantities or concentrations of the substance released knows or should have known at the time that the release places another person in imminent danger of death or serious bodily injury is guilty of a felony punishable by imprisonment for not more than 2 years or a fine of not more than $10,000.00, or both.

(5) A person who knowingly releases or causes the release into the ambient air any specific chemical or any hazardous air pollutant listed in 40 C.F.R. part 68, section 68.130 (January 19, 1993) pursuant to the authority of section 112(r) of part A of title I of the clean air act, 84 Stat. 1685, 42 U.S.C. 7412, or both, contrary to applicable federal, state, or local requirements, or contrary to a permit issued under this part, and who knows or should have known at the time that the release places another person in imminent danger of death or serious bodily injury, and the release results in death or serious bodily injury to any person is guilty of a felony punishable by imprisonment for not more than 6 years or a fine of not more than $25,000.00, or both.

(6) A person who knowingly releases into the ambient air any specific chemical or any hazardous air pollutant listed in 40 C.F.R. part 68, section 68.130 (January 19, 1993) pursuant to the authority of section 112(r) of part A of title I of the clean air act, 84 Stat. 1685, 42 U.S.C. 7412, or both, contrary to applicable federal, state, or local requirements, or contrary to a permit issued under this part, and who intended at that time to place another person in imminent danger of death or serious bodily injury, and whose actions do result in death or cause serious bodily injury to any person is guilty of a felony punishable by imprisonment for not more than 15 years or a fine of not more than $250,000.00, or both.

(7) In determining whether a defendant who is an individual knew that the violation placed another person in imminent danger of death or serious bodily injury as required under subsections (4), (5), and (6), the defendant is responsible only for actual awareness or actual belief possessed, and knowledge possessed by a person other than the defendant, but not by the defendant, may not be attributed to the defendant. However, in proving a defendant's possession of actual knowledge, circumstantial evidence may be used, including evidence that the defendant took affirmative steps to be shielded from relevant information.

(8) Fines imposed under this section shall be assessed for each instance of violation and, if the violation is continuous, shall be assessable up to the maximum amount for each day of violation.

(9) A defendant may establish an affirmative defense to a prosecution under this section by showing by a preponderance of the evidence that the conduct charged was freely consented to by the person endangered and that the danger and conduct charged were reasonably foreseeable hazards of any of the following:

(a) An occupation, a business, or a profession.

(b) Medical treatment or medical or scientific experimentation conducted by professionally approved methods if the person had been made aware of the risks involved prior to giving consent.

(10) All general defenses, affirmative defenses, and bars to prosecution that may otherwise apply with

respect to state criminal offenses may apply under this section and shall be determined by the courts of this state having jurisdiction according to the principles of common law as they may be interpreted in the light of reason and experience. Concepts of justification and excuse applicable under this section may be developed by the courts in the light of reason and experience.

(11) Fines shall not be imposed pursuant to this section for a violation that was caused by an act of God, war, strike, riot, catastrophe, or other condition to which negligence or willful misconduct on the part of the person was not the proximate cause.

(12) As used in this section:

(a) "Serious bodily injury" means bodily injury that involves a substantial risk of death, unconsciousness, extreme physical pain, protracted and obvious disfigurement or protracted loss or impairment of the function of a bodily member, organ, or mental faculty.

(b) "Specific chemical" means a hazardous air pollutant listed in section 112(b)(1) of Part A of title I of the clean air act, 84 Stat. 1685, 42 U.S.C. 7412, except for the following compounds:

(*i*) Antimony compounds.
(*ii*) Arsenic compounds (inorganic including arsine).
(*iii*) Beryllium compounds.
(*iv*) Cadmium compounds.
(*v*) Chromium compounds.
(*vi*) Cobalt compounds.
(*vii*) Coke oven emissions.
(*viii*) Cyanide compounds.
(*ix*) Glycol ethers.
(*x*) Lead compounds.
(*xi*) Manganese compounds.
(*xii*) Mercury compounds.
(*xiii*) Fine mineral fibers.
(*xiv*) Nickel compounds.
(*xv*) Polycyclic organic matter.
(*xvi*) Radionuclides (including radon).
(*xvii*) Selenium compounds.

324.5532 Civil or criminal fines; factors to be considered in determining amount.

Sec. 5532. (1) A civil or criminal fine assessed, sought, or agreed upon under this part shall be appropriate to the violation.

(2) In determining the amount of any fine levied under this part, all of the following factors shall be considered:

(a) The size of the business.

(b) The economic impact of the penalty on the business.

(c) The violator's full compliance history and good faith efforts to comply.

(d) The duration of the violation as established by any credible evidence, including evidence other than the applicable test method.

(e) Payment by the violator of penalties previously assessed for the same violation.

(f) The economic benefit of noncompliance.

(g) The seriousness of the violation.

(h) Such other factors as justice may require.

History: 1994, Act 451, Eff. Mar. 30, 1995.

Popular name: Act 451

324.5533 Award; eligibility; rules.

Sec. 5533. The department may pay an award of up to $10,000.00 to an individual who provides information resulting in the assessment of a civil fine by a court in an action brought by the attorney general pursuant to section 5530, or leading to the arrest and conviction of a person under section 5531. An officer or employee of the United States, state of Michigan, an authorized representative of the department as defined in section 5526(3), or any other state or local government who furnishes information described in this section in

the performance of an official duty is ineligible for payment under this section. In addition, an employee of the department of natural resources, a designee of the department of natural resources, or a person employed by the department of attorney general is ineligible to receive an award under this section regardless of whether the reported information came to his or her attention while functioning in an official capacity or as a private citizen. A person may not receive an award under this section for a violation of this part made by that person alone or in conjunction with others. An award shall not be made under this section until rules are promulgated by the department prescribing the criteria for making awards.

324.5534 Repealed. 1999, Act 231, Imd. Eff. Dec. 28, 1999.

Compiler's note: The repealed section pertained to certain violations exempt from penalties.

Popular name: Act 451

Popular name: NREPA

324.5535 Suspension of enforcement; reasons; variance.

Sec. 5535. Notwithstanding any other provision of this part, the department may suspend the enforcement of the whole or any part of any rule as it applies to any person who shows that the enforcement of the rule would be inequitable or unreasonable as to that person, or the department may suspend the enforcement of the rule for any reason considered by it to be sufficient to show that the enforcement of the rule would be an unreasonable hardship upon the person. Upon any suspension of the whole or any part of the rule the department shall grant to the person a variance from that rule. The department shall not suspend enforcement or grant a variance under this section that would violate the clean air act.

History: 1994, Act 451, Eff. Mar. 30, 1995.

Popular name: Act 451

Popular name: NREPA

324.5536 Variance; considerations effecting.

Sec. 5536. In determining under what conditions and to what extent a variance from a rule or regulation that would not violate the clean air act may be granted, the department shall give due recognition to the progress which the person requesting the variance has made in eliminating or preventing air pollution. The department shall consider the reasonableness of granting a variance conditioned upon the person effecting a partial control of the particular air pollution or a progressive control of the air pollution over a period of time that it considers reasonable under all the circumstances or the department may prescribe other and different reasonable requirements with which the person receiving the variance shall comply.

History: 1994, Act 451, Eff. Mar. 30, 1995.

Popular name: Act 451

Popular name: NREPA

324.5537 Variance; granting for undue hardship.

Sec. 5537. The department shall grant a variance from any rule to, and suspend the enforcement of the rule as it applies to, any person who shows in the case of the person and of the source, process, or process equipment that the person operates that his or her compliance with the rule or regulation, and that the acquisition, installation, operation and maintenance of a source or process, or process equipment required or necessary to accomplish the compliance, would constitute an undue hardship on the person and would be out of proportion to the benefits to be obtained by compliance. A variance shall not be granted under this section if the person applying for the variance is causing air pollution that is injurious to the public health or if the granting of the variance would violate the clean air act. Any variance granted shall not be construed as relieving the person who receives it from any liability imposed by other law for the maintenance of a nuisance.

History: 1994, Act 451, Eff. Mar. 30, 1995.

Popular name: Act 451

Popular name: NREPA

324.5538 Variance; period granted; report; conditions.

Sec. 5538. Any variance granted pursuant to sections 5535, 5536, and 5537 shall be granted for a period of time, that does not exceed 1 year, as is specified by the department at the time of granting it, but any variance

may be continued from year to year. Any variance granted by the department may be granted on the condition that the person receiving it shall report to the department periodically, as the department specifies, as to the progress which the person has made toward compliance with the rule of the department.

Popular name: Act 451

Popular name: NREPA

324.5539 Variance; revocation or modification of order; public hearing and notice required.

Sec. 5539. The department may revoke or modify any order permitting a variance by written order, after a public hearing held upon not less than 10 days' notice.

History: 1994, Act 451, Eff. Mar. 30, 1995.

Popular name: Act 451

Popular name: NREPA

324.5540 Purpose of part; alteration of existing rights of actions or remedies.

Sec. 5540. It is the purpose of this part to provide additional and cumulative remedies to prevent and abate air pollution. This part does not abridge or alter rights of action or remedies now or hereafter existing. This part or anything done by virtue of this part shall not be construed as estopping persons from the exercise of their respective rights to suppress nuisances or to prevent or abate air pollution.

History: 1994, Act 451, Eff. Mar. 30, 1995.

Popular name: Act 451

Popular name: NREPA

324.5541 Construction of part; evidentiary effect of determination by commission.

Sec. 5541. This part does not repeal any of the laws relating to air pollution which are not by this part expressly repealed. This part is ancillary to and supplements the laws now in force, except as they may be in direct conflict with this part. The final order or determination of the department shall not be used as evidence of presumptive air pollution in any suit filed by any person other than the department.

History: 1994, Act 451, Eff. Mar. 30, 1995.

Popular name: Act 451

Popular name: NREPA

324.5542 Effect on existing ordinances or regulations; local enforcement; cooperation with local governmental units.

Sec. 5542. (1) Nothing in this part or in any rule promulgated under this part invalidates any existing ordinance or regulation having requirements equal to or greater than the minimum applicable requirements of this part or prevents any political subdivision from adopting similar provisions if their requirements are equal to or greater than the minimum applicable requirements of this part.

(2) When a political subdivision or enforcing official of a political subdivision fails to enforce properly the provisions of the political subdivision's ordinances, laws, or regulations that afford equal protection to the public as provided in this part, the department, after consultation with the local official or governing body of the political subdivision, may take such appropriate action as may be necessary for enforcement of the applicable provisions of this part.

(3) The department shall counsel and advise local units of government on the administration of this part. The department shall cooperate in the enforcement of this part with local officials upon request.

PART 57
SMALL BUSINESS CLEAN AIR ASSISTANCE

324.5701 Definitions.

Sec. 5701. As used in this part:

(a) "Clean air act" means chapter 360, 69 Stat. 322, 42 U.S.C. 7401 to 7431, 7470 to 7479, 7491 to 7492, 7501 to 7509a, 7511 to 7515, 7521 to 7525, 7541 to 7545, 7547 to 7550, 7552 to 7554, 7571 to 7574, 7581 to 7590, 7601 to 7612, 7614 to 7617, 7619 to 7622, 7624 to 7627, 7641 to 7642, 7651 to 7651o, 7661 to 7661f, and 7671 to 7671q and the regulations promulgated under that act.

(b) "Office" means the office of the small business clean air ombudsman.

(c) "Ombudsman" means the small business clean air ombudsman.

(d) "Program" means the small business clean air assistance program.

(e) "Small business" means a business that is independently owned and operated and that is not dominant in its field as defined in 13 C.F.R. 121 and, unless adjusted as authorized under this section or section 5702, is a stationary source that meets all of the following requirements:

(*i*) Is owned or operated by a person that employs 100 or fewer individuals.

(*ii*) Is a small business concern as defined in the small business act, Public Law 85-536, 72 Stat. 384.

(*iii*) Is not a major stationary source as defined in Titles I and III of the clean air act or is a major stationary source as defined in Titles I and III of the clean air act because of its location in a nonattainment area.

(*iv*) Emits less than 50 tons per year of any air contaminant or air pollutant regulated pursuant to part 55 or the clean air act.

(*v*) Emits less than 75 tons per year of all air contaminants or air pollutants regulated pursuant to part 55 or the clean air act.

History: 1994, Act 451, Eff. Mar. 30, 1995.

Compiler's note: For transfer of authority, powers, duties, functions, and responsibilities, including budgeting procurement and management-related functions, of the office of the small business clean air ombudsman to the Michigan jobs commission, see E.R.O. No. 1995-1, compiled MCL 408.49 of the Michigan Compiled Laws.

Popular name: Act 451

Popular name: NREPA

324.5702 "Small business stationary source" explained.

Sec. 5702. (1) Upon petition by a source, the department may, after notice and opportunity for public comment, include as a small business stationary source for purposes of this section any stationary source that does not meet the criteria of subparagraph (*iii*), (*iv*), or (*v*) of section 5701(e) but which does not emit more than 100 tons per year of all air contaminants and air pollutants regulated pursuant to part 55 or the clean air act.

(2) The department, in consultation with the administrator of the United States environmental protection agency and the administrator of the United States small business administration and after providing notice and opportunity for public hearing, may exclude from the small business stationary source definition any category or subcategory of sources that the state determines to have sufficient technical and financial capabilities to meet the requirements of the clean air act and part 55 without the application of this part.

History: 1994, Act 451, Eff. Mar. 30, 1995.

Compiler's note: For transfer of authority, powers, duties, functions, and responsibilities, including budgeting procurement and management-related functions, of the office of the small business clean air ombudsman to the Michigan jobs commission, see E.R.O. No. 1995-1, compiled MCL 408.49 of the Michigan Compiled Laws.

Popular name: Act 451

Popular name: NREPA

324.5703 Office of small business clean air ombudsman; creation; exercise of powers and duties; appointment of executive officer.

Sec. 5703. (1) The office of the small business clean air ombudsman is created within the department of commerce. The office shall exercise its powers and duties independently of any state department or entity.

(2) The principal executive officer of the office is the small business clean air ombudsman, who shall be appointed by the governor.

History: 1994, Act 451, Eff. Mar. 30, 1995.

Compiler's note: For transfer of authority, powers, duties, functions, and responsibilities, including budgeting procurement and management-related functions, of the office of the small business clean air ombudsman to the Michigan jobs commission, see E.R.O. No. 1995-1, compiled at MCL 408.49 of the Michigan Compiled Laws.

For transfer of authority, powers, duties, functions, and responsibilities of the Environmental Assistance Division to the Director of the Michigan Department of Environmental Quality, see E.R.O. No. 1995-16, compiled MCL 324.99901 of the Michigan Compiled Laws.

Popular name: Act 451

Popular name: NREPA

324.5704 Office of ombudsman; responsibilities and duties.

Sec. 5704. The office of the ombudsman is responsible for assessing and ensuring that the goals of the program are being met and in addition shall coordinate or do all of the following:

(a) Conduct independent evaluations of all aspects of the program.

(b) Review and provide comments and recommendations to the United States environmental protection agency and state and local air pollution control authorities regarding the development and implementation of requirements that impact small businesses.

(c) Facilitate and promote the participation of small businesses in the development of rules that impact small businesses.

(d) Assist in providing reports to the governor and legislature and the public regarding the applicability of the requirements of this part, part 55, and the clean air act to small business.

(e) Aid in the dissemination of information, including, but not limited to, air pollution requirements and control technologies, to small businesses and other interested parties.

(f) Participate in or sponsor meetings and conferences with state and local regulatory officials, industry groups, and small business representatives.

(g) Aid in investigating and resolving complaints and disputes from small businesses against the state or local air pollution control authorities, or both.

(h) Periodically review the work and services provided by the program with trade associations and representatives of small business.

(i) Refer small businesses to the appropriate specialist in the program where they may obtain information and assistance on affordable alternative technologies, process changes, and products and operational methods to help reduce air pollution and accidental releases.

(j) Arrange for and assist in the preparation of guideline documents by the program and ensure that the language is readily understandable by laypersons.

(k) Work with trade associations and small businesses to bring about voluntary compliance with the clean air act and part 55.

(*l*) Work with regional and state offices of the small business administration, the United States department of commerce and state department of commerce, and other federal and state agencies that may have programs to financially assist small businesses in need of funds to comply with environmental requirements.

(m) Work with private sector financial institutions to assist small businesses in locating sources of funds to comply with state and local air pollution control requirements.

(n) Conduct studies to evaluate the impacts of the clean air act and part 55 on the state's economy, local economies, and small businesses.

(o) Work with other states to establish a network for sharing information on small businesses and their efforts to comply with the clean air act and the pertinent air pollution act for their state.

(p) Make recommendations to the department and the legislature concerning the reduction of any fee required under the clean air act or part 55 to take into account the financial resources of small businesses.

History: 1994, Act 451, Eff. Mar. 30, 1995.

Compiler's note: For transfer of authority, powers, duties, functions, and responsibilities, including budgeting procurement and management-related functions, of the office of the small business clean air ombudsman to the Michigan jobs commission, see E.R.O. No. 1995-1, compiled MCL 408.49 of the Michigan Compiled Laws.

For transfer of authority, powers, duties, functions, and responsibilities of the Environmental Assistance Division to the Director of the Michigan Department of Environmental Quality, see E.R.O. No. 1995-16, compiled at MCL 324.99901 of the Michigan Compiled Laws.

Popular name: Act 451

Popular name: NREPA

324.5705 Small business clean air assistance program; creation; purpose.

Sec. 5705. The program is created in the department of commerce. The program shall develop adequate mechanisms for all of the following:

(a) Developing, collecting, and coordinating information on compliance methods and technologies for small businesses.

(b) Encouraging lawful cooperation among small businesses and other persons to further compliance with the clean air act and part 55.

(c) Assisting small business with information regarding pollution prevention and accidental release detection and prevention, including, but not limited to, providing information concerning alternative technologies, process changes, and products and methods of operation that help reduce air pollution.

(d) Establishing a compliance assistance program that assists small businesses in determining applicable requirements for compliance and the procedures for obtaining permits efficiently in a timely manner under the clean air act or part 55, or both.

(e) Providing mechanisms and access to information so that small businesses receive notification of their rights under the clean air act and part 55 in a manner and form that assures reasonably adequate time for small

businesses to evaluate their compliance methods or applicable proposed or final rules or standards under the clean air act and part 55.

(f) Informing small businesses of their obligations under the clean air act and part 55, including mechanisms for referring small businesses to qualified auditors or to the state if the state elects to provide audits to determine compliance with the clean air act and part 55. To the extent permissible by state and federal law, audits shall be separate from the formal inspection and compliance program.

(g) Providing information on how to obtain consideration from the department on requests from small businesses for modifications of any work practice, technological method of compliance, or the schedule of milestones for reductions of emissions preceding an applicable compliance date.

History: 1994, Act 451, Eff. Mar. 30, 1995.

Compiler's note: For transfer of authority, powers, duties, functions, and responsibilities, including budgeting procurement and management-related functions, of the office of the small business clean air ombudsman to the Michigan jobs commission, see E.R.O. No. 1995-1, compiled at MCL 408.49 of the Michigan Compiled Laws.

For transfer of authority, powers, duties, functions, and responsibilities of the Environmental Assistance Division to the Director of the Michigan Department of Environmental Quality, see E.R.O. No. 1995-16, compiled MCL 324.99901 of the Michigan Compiled Laws.

Popular name: Act 451

Popular name: NREPA

324.5706 Access to information, records, and documents; assistance to ombudsman.

Sec. 5706. Upon request, the ombudsman shall be given access to all information, records, and documents in the possession of the commission and the department that the ombudsman considers necessary to fulfill the responsibilities of the office other than information described in section 13 of the freedom of information act, Act No. 442 of the Public Acts of 1976, being section 15.243 of the Michigan Compiled Laws. The commission and the department shall also assist the ombudsman in fulfilling his or her responsibilities under this part.

History: 1994, Act 451, Eff. Mar. 30, 1995.

Compiler's note: For transfer of authority, powers, duties, functions, and responsibilities, including budgeting procurement and management-related functions, of the office of the small business clean air ombudsman to the Michigan jobs commission, see E.R.O. No. 1995-1, compiled at MCL 408.49 of the Michigan Compiled Laws.

Popular name: Act 451

Popular name: NREPA

324.5707 Information obtained from small businesses; confidentiality.

Sec. 5707. Information obtained by the office or the program from small businesses that utilize their services shall be held in confidence by those employed by the office or the program to the extent authorized under the freedom of information act, Act No. 442 of the Public Acts of 1976, being sections 15.231 to 15.246 of the Michigan Compiled Laws, including, but not limited to, those provisions pertaining to exemptions from disclosure for trade secrets and commercial and financial information.

History: 1994, Act 451, Eff. Mar. 30, 1995.

Compiler's note: For transfer of authority, powers, duties, functions, and responsibilities, including budgeting procurement and management-related functions, of the office of the small business clean air ombudsman to the Michigan jobs commission, see E.R.O. No. 1995-1, compiled at MCL 408.49 of the Michigan Compiled Laws.

324.5708 Small business clean air compliance advisory panel.

Sec. 5708. (1) The small business clean air compliance advisory panel is created within the program.

(2) The advisory panel shall be broadly representative of the regulated small business community and shall include women members and members who are minorities. The advisory panel shall consist of the following members:

(a) Two members appointed by the governor to represent the general public and who are not owners or representatives of owners of small business stationary sources.

(b) One member appointed by the republican leader of the senate who is an owner or a representative of owners of small business stationary sources.

(c) One member appointed by the democratic leader of the senate who is an owner or a representative of owners of small business stationary sources.

(d) One member appointed by the republican leader of the house of representatives who is an owner or a representative of owners of small business stationary sources.

(e) One member appointed by the democratic leader of the house of representatives who is an owner or a representative of owners of small business stationary sources.

(f) One member appointed by the department.

(3) Members of the advisory panel shall serve for terms of 4 years, or until a successor is appointed, whichever is later. However, of the members first appointed, the members appointed by the governor shall serve for 3 years, the members appointed by the senate shall serve for 1 year, and the members appointed by the house of representatives and the member appointed by the department shall serve for 2 years.

(4) If a vacancy occurs on the advisory panel, the governor, the department, or the appropriate legislative leader who made the appointment shall make an appointment for the unexpired term in the same manner as the original appointment.

(5) The first meeting of the advisory panel shall be called within 90 days of the appointment of all advisory panel members. At the first meeting the advisory panel shall elect from among its members a chairperson and other officers as it considers necessary or appropriate.

(6) A majority of the members of the advisory panel constitutes a quorum for the transaction of business at a meeting of the advisory panel. A majority of the members present and serving are required for official action of the advisory panel.

(7) Members of the advisory panel shall serve without compensation. However, members of the advisory panel may be reimbursed for their actual and necessary expenses incurred in the performance of their official duties as members of the advisory panel.

(8) The advisory panel shall do all of the following:

(a) Consult with the ombudsman and the head of the program to plan the work of the panel, including the frequency of meetings, agenda items, and reports to be issued by the panel.

(b) Determine whether the program should utilize private contractors hired by the program or utilize expertise within the program, or both, to meet the requirements of this part that pertain to providing technical assistance to small businesses.

(c) Prepare advisory reports concerning all of the following:

(*i*) The effectiveness of the office and program.

(*ii*) The difficulties encountered and degree and severity of enforcement of part 55.

(*iii*) The costs of operating the office and the program.

(*iv*) The average costs of different categories of small businesses in complying with the air quality enforcement program of this state.

(d) Periodically report to the administrator of the United States environmental protection agency regarding compliance by the program with the broad intent of all of the following acts as may be applicable:

(*i*) Chapter 35 of title 44 of the United States Code, 44 U.S.C. 3501 to 3520, relating to paperwork reduction.

(*ii*) Sections 601 to 612 of title 5 of the United States Code, 5 U.S.C. 601 to 612, relating to regulatory flexibility.

(*iii*) Section 504 of title 5 of the United States Code, 5 U.S.C. 504, and section 2412 of title 28 of the United States Code, 28 U.S.C. 2412, relating to equal access to justice.

(e) Review information prepared by the program for small businesses to assure that the information is understandable to laypersons.

(f) Utilize the program to act as staff to develop and disseminate the work product of the advisory panel.

(9) The advisory panel shall provide copies of advisory reports prepared by the advisory panel to the United States environmental protection agency, the department, the legislature, and the department of commerce. In addition, the reports shall be made available to any person upon request.

History: 1994, Act 451, Eff. Mar. 30, 1995.

Compiler's note: For transfer of authority, powers, duties, functions, and responsibilities, including budgeting procurement and management-related functions, of the office of the small business clean air ombudsman to the Michigan jobs commission, see E.R.O. PART 59

AIR POLLUTION CONTROL FACILITY; TAX EXEMPTION

324.5901 “Facility” defined.

Sec. 5901. As used in this part, "facility" means machinery, equipment, structures, or any part or accessories of machinery, equipment, or structures, installed or acquired for the primary purpose of

controlling or disposing of air pollution that if released would render the air harmful or inimical to the public health or to property within this state. Facility includes an incinerator equipped with a pollution abatement device in effective operation. Facility does not include an air conditioner, dust collector, fan, or other similar facility for the benefit of personnel or of a business. Facility also means the following, if the installation was completed on or after July 23, 1965:

(a) Conversion or modification of a fuel burning system to effect air pollution control. The fuel burner portion only of the system is eligible for tax exemption.

(b) Installation of a new fuel burning system to effect air pollution control. The fuel burner portion only of the system is eligible for tax exemption.

(c) A process change involving production equipment made to satisfy the requirements of part 55 and rules promulgated under that part. The maximum cost allowed shall be 25% of the cost of the new process unit but shall not exceed the cost of the conventional control equipment applied on the basis of the new process production rate on the preexisting process.

History: Add. 1995, Act 60, Imd. Eff. May 24, 1995.

Popular name: Act 451

Popular name: NREPA

324.5902 Tax exemption certificate; application; contents; approval; notice; hearing; tax exemption.

Sec. 5902. (1) An application for a pollution control tax exemption certificate shall be filed with the state tax commission in a manner and in a form as prescribed by the state tax commission. The application shall contain plans and specifications of the facility, including all materials incorporated or to be incorporated in the facility and a descriptive list of all equipment acquired or to be acquired by the applicant for the purpose of pollution control, together with the proposed operating procedure for the control facility.

(2) Before issuing a certificate, the state tax commission shall seek approval of the department and give notice in writing by certified mail to the department of treasury and to the assessor of the taxing unit in which the facility is located or to be located, and shall afford to the applicant and the assessor an opportunity for a hearing. Tax exemption granted under this part shall be reduced to the extent of any commercial or productive value derived from any materials captured or recovered by any air pollution control facility as defined in this part.

History: Add. 1995, Act 60, Imd. Eff. May 24, 1995.

Popular name: Act 451

Popular name: NREPA

324.5903 Tax exemption certificate; findings of department; notice to state tax commission; issuance and effective date of certificate.

Sec. 5903. If the department finds that the facility is designed and operated primarily for the control, capture, and removal of pollutants from the air, and is suitable, reasonably adequate, and meets the intent and purposes of part 55 and rules promulgated under that part, the department shall notify the state tax commission, which shall issue a certificate. The effective date of the certificate is the date on which the certificate is issued.

History: Add. 1995, Act 60, Imd. Eff. May 24, 1995.

Popular name: Act 451

Popular name: NREPA

324.5904 Tax exemptions; statement in certificate.

Sec. 5904. (1) For the period subsequent to the effective date of the certificate and continuing as long as the certificate is in force, a facility covered by the certificate is exempt from real and personal property taxes imposed under the general property tax act, Act No. 206 of the Public Acts of 1893, being sections 211.1 to 211.157 of the Michigan Compiled Laws.

(2) Tangible personal property purchased and installed as a component part of the facility is exempt from both of the following:

(a) Sales taxes imposed under the general sales tax act, Act No. 167 of the Public Acts of 1933, being sections 205.51 to 205.78 of the Michigan Compiled Laws.

(b) Use taxes imposed under the use tax act, Act No. 94 of the Public Acts of 1937, being sections 205.91 to 205.111 of the Michigan Compiled Laws.

(3) The certificate shall state the total acquisition cost of the facility entitled to exemption.

History: Add. 1995, Act 60, Imd. Eff. May 24, 1995.

Popular name: Act 451

Popular name: NREPA

324.5905 Tax exemption certificate; issuance; mailing to applicant, local tax assessors, and treasury department; filing; notice of refusal.

Sec. 5905. The state tax commission shall send an air pollution control tax exemption certificate, when issued, by certified mail to the applicant, and certified copies by certified mail to the assessor of the taxing unit in which any property to which the certificate relates is located or to be located and to the department of treasury, which copies shall be filed of record in their offices. Notice of the state tax commission's refusal to issue a certificate shall be sent by certified mail to the applicant, to the department of treasury, and to the assessor.

History: Add. 1995, Act 60, Imd. Eff. May 24, 1995.

Popular name: Act 451

Popular name: NREPA

324.5906 Tax exemption certificate; modification or revocation; grounds; notice and hearing; statute of limitations.

Sec. 5906. (1) The state tax commission, on notice by certified mail to the applicant and opportunity for a hearing, shall, on its own initiative or on complaint of the department, the department of treasury, or the assessor of the taxing unit in which any property to which the certificate relates is located, modify or revoke the certificate if any of the following appear:

(a) The certificate was obtained by fraud or misrepresentation.

(b) The holder of the certificate has failed substantially to proceed with the construction, reconstruction, installation, or acquisition of a facility or to operate the facility for the purpose and degree of control specified in the certification or an amended certificate.

(c) The facility covered by the certificate is no longer used for the primary purpose of pollution control and is being used for a different purpose.

(d) Substantial noncompliance with part 55 or any rule promulgated under that part.

(2) On the mailing by certified mail to the certificate holder, the department of treasury, and the local assessor of notice of the action of the state tax commission modifying or revoking a certificate, the certificate shall cease to be in force or shall remain in force only as modified. If a certificate is revoked because it was obtained by fraud or misrepresentation, all taxes that would have been payable if a certificate had not been issued are immediately due and payable with the maximum interest and penalties prescribed by applicable law. A statute of limitations shall not operate in the event of fraud or misrepresentation.

PART 63
MOTOR VEHICLE EMISSIONS TESTING FOR WEST MICHIGAN

324.6301 Meanings of words and phrases.

Sec. 6301. For the purposes of this part, the words and phrases contained in sections 6302 to 6304 have the meanings ascribed to them in those sections.

History: Add. 1995, Act 60, Imd. Eff. May 24, 1995.

Popular name: Act 451

Popular name: NREPA

324.6302 Definitions; A to D.

Sec. 6302. (1) "Alternative fuel" means the following fuel sources used to propel a motor vehicle:

(a) Compressed natural gas.

(b) Diesel fuel.

(c) Electric power.

(d) Propane.

(e) Any other source as defined by rule promulgated by the department.

(2) "Certificate of compliance" means a serially numbered written instrument or document that is issued to the owner of a motor vehicle upon passing an inspection or reinspection and is evidence that the motor vehicle complies with the standards and criteria adopted by the department under this part. The department shall consult with the department of natural resources when appropriate to determine that rules and standards will comply with federal requirements and sound environmental considerations.

(3) "Certificate of waiver" means a serially numbered written document or sticker indicating that the standards and criteria of the department have been met for a motor vehicle pursuant to this part.

(4) "Clean air act" means chapter 360, 69 Stat. 322, 42 U.S.C. 7401 to 7431, 7470 to 7479, 7491 to 7492, 7501 to 7509a, 7511 to 7515, 7521 to 7525, 7541 to 7545, 7547 to 7550, 7552 to 7554, 7571 to 7574, 7581 to 7590, 7601 to 7612, 7614 to 7617, 7619 to 7622, 7624 to 7627, 7641 to 7642, 7651 to 7651o, 7661 to 7661f, and 7671 to 7671q. Clean air act includes the regulations promulgated under the clean air act.

(5) "Consumer protection" means protecting the public from unfair or deceptive practices.

(6) "Contractor" means a person who enters into a contract with the department to operate public motor vehicle inspection stations under this part.

(7) "Cut point" means the level of pollutants emitted that is used in determining whether a particular make and model of motor vehicle passes or fails all or a part of an inspection.

(8) "Department" means the state transportation department.

History: Add. 1995, Act 60, Imd. Eff. May 24, 1995.

Popular name: Act 451

Popular name: NREPA

324.6303 Definitions; E to N.

Sec. 6303. (1) "Emission control device" means a catalytic converter, thermal reactor, or other component part used by a vehicle manufacturer to reduce emissions or to comply with emission standards prescribed by regulations promulgated by the United States environmental protection agency under the clean air act.

(2) "Initial inspection" means an inspection performed on a motor vehicle for the first time in a test cycle.

(3) "Inspection" means testing of a motor vehicle for compliance with emission control requirements of this part and the clean air act.

(4) "Maintenance" means the repair or adjustment of a motor vehicle to bring that motor vehicle into compliance with emission control requirements of this part and rules promulgated under this part.

(5) "Motor vehicle" or "vehicle" means a self-propelled vehicle as defined in section 79 of the Michigan vehicle code, Act No. 300 of the Public Acts of 1949, being section 257.79 of the Michigan Compiled Laws, of 10,000 pounds or less gross vehicle weight, which is required to be registered for use upon the public streets and highways of this state under the Michigan vehicle code, Act No. 300 of the Public Acts of 1949, being sections 257.1 to 257.923 of the Michigan Compiled Laws. For purposes of this part, motor vehicle includes those vehicles owned by the government of the United States, this state, and any political subdivision of this state.

(6) "National ambient air quality standards" means the air quality standards for outside air as established in the clean air act.

History: Add. 1995, Act 60, Imd. Eff. May 24, 1995.

Popular name: Act 451

Popular name: NREPA

324.6304 Definitions; P to T.

Sec. 6304. (1) "Pollutants" means nitrogen oxides, carbon monoxide, hydrocarbons, and other toxic substances emitted from the operation of a motor vehicle.

(2) "Public inspection station" means a facility for motor vehicle inspection operated under contract with the department as provided in this part.

(3) "Tamper with" means to remove or render inoperative, to cause to be removed or rendered inoperative, or to make less operative an emission control device or an element of an emission control device that is required by the clean air act to be installed in or on a motor vehicle.

(4) "Test-only network" means a network of inspection stations that perform official vehicle emissions inspections and in which owners and employees of those stations, or companies owning those stations, are contractually or legally barred from engaging in motor vehicle repair or service, motor vehicle parts sales, and motor vehicle sale and leasing, either directly or indirectly, and are barred from referring vehicle owners to particular providers of motor vehicle repair services.

History: Add. 1995, Act 60, Imd. Eff. May 24, 1995.

Popular name: Act 451

Popular name: NREPA

324.6305 Motor vehicle emissions inspection and maintenance program fund; account.

Sec. 6305. (1) There is established a motor vehicle emissions inspection and maintenance program fund to be maintained as a separate fund in the state treasury and to be administered by the department. Money received and collected for vehicle emissions inspections under this part shall be deposited in the state treasury to the credit of the motor vehicle emissions inspection and maintenance program fund.

(2) The vehicle emissions inspection account is created in the motor vehicle emissions inspection and maintenance program fund. Money in the vehicle emissions inspection account shall be appropriated by the legislature for the purposes of a public education program to be conducted by the department, start-up costs required to implement requirements of the motor vehicle emissions inspection and maintenance program under this part, administration and oversight by the department, enforcement of the motor vehicle emissions inspection and maintenance program through the vehicle registration process by the department of state, gasoline inspection and testing, and other activities related to the motor vehicle emissions inspection and maintenance program.

(3) Funds remaining in the motor vehicle emissions inspection and maintenance program fund at the end of a fiscal year shall not lapse to the general fund but shall remain in the motor vehicle emissions inspection and maintenance program fund for appropriation in the following year.

History: Add. 1995, Act 60, Imd. Eff. May 24, 1995.

Popular name: Act 451

Popular name: NREPA

324.6306 Operation of motor vehicle; prohibition; testing; enforcement; inspection and maintenance program; implementation in Kent, Ottawa, and Muskegon counties;

exclusion; test procedures and components; vehicles subject to inspection; rules; suspension of vehicle registration; suspension of program.

Sec. 6306. (1) Each motor vehicle subject to this part shall be inspected for emissions as provided in this part. A person shall not operate a motor vehicle subject to this part whose certificate of compliance has expired or who has not received a time extension or waiver and whose vehicle fails to meet emission cut points established by the department or other emission control requirements established by the department in this part. If a vehicle subject to testing under this part has not been tested within the previous 12 months, the prospective seller of the vehicle shall have the vehicle tested and complete necessary repairs before offering the vehicle for sale.

(2) To enforce this section, the department shall implement and administer a motor vehicle emissions inspection and maintenance program designed to meet the performance standards for a motor vehicle emissions inspection and maintenance program as established by the United States environmental protection agency in 40 C.F.R. 51.351 in the counties of Kent, Ottawa, and Muskegon in those areas that are not in attainment of the national ambient air quality standards for ozone. However, those counties that would be in attainment of the national ambient air quality standards for ozone, given base line emissions for that county, but for emissions emanating from outside of the state, are excluded from implementation of such a program unless the department of environmental quality shall affirmatively determine by clear and convincing evidence, based on study of formation and transport of ozone, that the control of motor vehicle emissions would significantly contribute to the attainment of the national ambient air quality standards for ozone as promulgated under the clean air act. The motor vehicle emissions inspection and maintenance program shall include the following test procedures and components:

(a) Biennial testing.

(b) Test-only network.

(c) Transient mass-emission evaporative system, purge, and pressure testing on 1981 and later model year vehicles using the IM240 driving cycle.

(d) Two-speed idle testing, antitampering, and pressure test on 1975 to 1980 vehicles in accordance with the following:

(*i*) Visual antitampering inspection of the catalytic converter, gas cap, PCV valve, air pump, and fuel inlet restrictor on light-duty gas vehicles and light-duty gas trucks of 10,000 pounds or less gross vehicle weight.

(*ii*) Pressure test of the evaporative system for light-duty gas vehicles and light-duty gas trucks of 10,000 pounds or less gross vehicle weight.

(e) On-board diagnostic check for vehicles so equipped.

(3) The cut points set forth in test procedures, quality control requirements, and equipment specifications issued by the United States environmental protection agency are hereby adopted for the emissions testing program authorized in this part.

(4) Equipment and test procedures shall meet the requirements of appendices A through E to subpart S of 40 C.F.R. 51 and the test procedures, quality control requirements, and equipment specifications issued by the United States environmental protection agency.

(5) Vehicles shall be subject to inspection according to the following:

(a) The first initial inspection under this part for each even numbered model year vehicle shall take place within 6 months before the expiration of the vehicle registration in an even numbered calendar year.

(b) The first initial inspection under this part for each odd numbered model year vehicle shall take place within 6 months before the expiration of the vehicle registration in an odd numbered calendar year.

(6) The department, in consultation with the department of state and the department of environmental quality, may promulgate rules for the administration of the motor vehicle emissions inspection and maintenance program, including, but not limited to, all of the following:

(a) Standards for public inspection station equipment, including emission testing equipment.

(b) Emission test cut points and other emission control requirements based on the clean air act and the state implementation plan.

(c) Exemptions from inspections as authorized under this part.

(d) Standards and procedures for the issuance of certificates of compliance and certificates of waiver from inspection and maintenance program requirements.

(e) Rules to ensure that owners of motor vehicles registered in this state who temporarily reside out of state are not unduly inconvenienced by the requirements of this part. The rules may include any of the following:

(*i*) Reciprocal agreements with other states that require motor vehicle inspections that are at least as stringent as those required under this part and rules promulgated under this part.

(*ii*) Provision for time extensions of not more than 2 years for persons temporarily residing in a state, the

District of Columbia, or a territory of the United States with which this state has not entered into a reciprocal agreement for vehicle emissions inspection and maintenance. Additional time extensions shall be granted to persons temporarily residing out of state because of military service.

(7) The department may promulgate rules to require the inspection of motor vehicles through the use of remote sensing devices. These rules may provide for use of remote sensing devices for research purposes, but shall not provide for any checklanes or other measures by which motorists will be stopped on highways or other areas open to the general public.

(8) Upon receipt of documentation from the department, the department of state may suspend the registration of any vehicle that is not in compliance with this part and the rules promulgated under this part and for which the required certificate of compliance has not been obtained.

(9) If any area in this state subject to this part is redesignated by the United States environmental protection agency as being in attainment with the national ambient air quality standards for ozone, a motor vehicle emissions inspection and maintenance program authorized by this part is suspended and shall only be reimplemented if required as a contingency measure included in a maintenance plan approved by the United States environmental protection agency as part of the redesignation as an ozone attainment area. The department may only implement the contingency measure if there is observation of an actual violation of the ozone national ambient air quality standard under 40 C.F.R. 50.9 during the maintenance period.

(10) Implementation of a motor vehicle emissions inspection and maintenance program authorized by this part shall be suspended if the classification of the Grand Rapids and Muskegon ozone nonattainment areas is adjusted from moderate ozone nonattainment areas to transitional or marginal nonattainment areas by the United States environmental protection agency pursuant to its authority under section 181 of the clean air act, 42 U.S.C. 7511, or if the United States environmental protection agency determines that a motor vehicle emissions inspection and maintenance program is not applicable or is not necessary for either of these areas to meet the requirements of the clean air act.

324.6307 Registration renewal; vehicle inspection and certificate of compliance or waiver required; validity; prohibition.

Sec. 6307. (1) The department of state shall not renew the registration of a motor vehicle subject to this part unless the vehicle has been inspected as provided in this part and a certificate of compliance or a certificate of waiver has been issued.

(2) Certificates of compliance and certificates of waiver issued under this part are valid for 2 years.

(3) If not exempted by this part or rules promulgated under this part, a person shall not drive a motor vehicle registered in an area required to have a motor vehicle emissions inspection and maintenance program without a valid certificate of compliance or certificate of waiver.

324.6309 Judicial relief.

Sec. 6309. The state should pursue judicial relief, either alone or in cooperation with other states, from the requirements or penalties imposed by the clean air act.

History: Add. 1995, Act 60, Imd. Eff. May 24, 1995.

Popular name: Act 451

Popular name: NREPA

324.6310 Inspection fee; initial inspections; free reinspections; remittance and deposit of inspection fee.

Sec. 6310. (1) The department, in consultation with the department of state, may establish an inspection fee not to exceed $24.00 adjusted annually by the percentage increase or decrease in the Detroit consumer price

index rounded to the nearest whole dollar. In establishing the fee or other funding sources, the department shall include the direct and indirect costs of the vehicle emissions inspection, estimated start-up costs, estimated cost for a public information program, administration and oversight by the department, and enforcement costs by the department of state. The fee, if established, shall be paid by the motor vehicle owner to the operator of the inspection station at the time of an initial vehicle emissions inspection.

(2) Initial inspections must take place within 6 months before the expiration of the registration for the vehicle or the expiration of the certificate of compliance, time extension, or certificate of waiver issued under this part. Vehicles subject to this part that are not required to be registered in this state shall be presented for inspection during each biennial inspection period at a time set by the department.

(3) The owner of a motor vehicle subject to this part that has failed an initial vehicle emissions inspection is entitled to 1 free reinspection after the completion of necessary repairs designed to bring the vehicle into compliance with clean air act standards.

(4) By the fifteenth day of each month, each inspection station shall remit the amount of the inspection fee required for administration and oversight under the contractual agreement entered into with the department to the department of treasury for deposit in the motor vehicle emissions inspection and maintenance program fund.

324.6311 Vehicles exempt from inspection requirements of part.

Sec. 6311. The following vehicles are exempt from the inspection requirements of this part:

(a) Motor vehicles that are exempted by rules promulgated by the department because of prohibitive inspection problems or inappropriateness for inspection.

(b) A motor vehicle manufactured before the 1975 model year.

(c) Vehicles that are licensed as historic vehicles under section 803a of the Michigan vehicle code, Act No. 300 of the Public Acts of 1949, being section 257.803a of the Michigan Compiled Laws.

(d) A motor vehicle that has as its only fuel source an alternative fuel.

(e) A motorcycle.

(f) A motor vehicle used for covert monitoring of inspection facilities.

(g) A new motor vehicle, immediately after issuance of the vehicle's first title until the year of the next biennial inspection for the vehicle model year according to section 6306(5).

History: Add. 1995, Act 60, Imd. Eff. May 24, 1995.

Popular name: Act 451

Popular name: NREPA

324.6312 Public inspection stations; contracts with private entities to conduct inspections; competitive evaluation process; notice of requests for proposals and contract awards; factors to be considered during contractor evaluation process.

Sec. 6312. (1) The department shall contract with a private entity or entities for the design, construction, equipment, establishment, maintenance, and operation of public inspection stations to conduct vehicle emissions inspections as required by this part.

(2) The department shall seek to obtain the highest quality service for the lowest cost through a competitive evaluation process for contractors.

(3) The department shall provide adequate public notice of the requests for proposals by advertising in a newspaper of general circulation in the state not later than November 13, 1993. The department shall award the contract with reasonable promptness by written notice to the responsible offeror whose proposal has been evaluated and is determined to be the most advantageous to the state, taking into consideration the requirements of this part and rules promulgated under this part, or as otherwise required by the department of management and budget.

(4) In addition to the other requirements of this part, the director of the department shall give balanced consideration during the contractor evaluation process to all of the following factors:

(a) The public convenience of the inspection station, including the provisions for average mileage to an inspection station and the waiting time at a station.

(b) The unit cost per inspection.

(c) The degree of technical content of the proposal, including test-accuracy specifications and quality of testing services, and the data and methodology used to prepare the network design, and other technological

aspects of the proposal.

(d) The experience of the contractor and the probability of a successful performance by the contractor, including an evaluation of the capacity, resources, and technical and management skills to adequately construct, equip, operate, and maintain a sufficient number of public inspection stations to meet the demand.

(e) The financial stability of the contractor. The department may make reasonable inquiries to determine the financial stability of an offeror. The failure of an offeror to promptly supply information in connection with such an inquiry is grounds for a determination of nonresponsibility with respect to that offeror.

History: Add. 1995, Act 60, Imd. Eff. May 24, 1995.

Popular name: Act 451

Popular name: NREPA

324.6313 Contract provisions.

Sec. 6313. In addition to any other provisions of this part, the contract authorized by section 6312 shall contain all of the following provisions:

(a) The minimum requirements for adequate staff, equipment, management, and hours of operation of inspection stations.

(b) The submission of reports and documentation concerning the operation of official inspection stations as required by this part.

(c) Surveillance to ensure compliance with vehicular emissions standards, procedures, rules, regulations, and laws.

History: Add. 1995, Act 60, Imd. Eff. May 24, 1995.

Popular name: Act 451

Popular name: NREPA

324.6314 Public inspection stations.

Sec. 6314. (1) The number and locations of the public inspection stations shall provide convenient service for motorists and shall be consistent with all of the following:

(a) The network of stations shall be sufficient to assure short driving distances and to assure that waiting times to get a vehicle inspected do not exceed 15 minutes more than 4 times a month.

(b) When there are more than 4 vehicles in a queue waiting to be tested, spare lanes shall be opened and additional staff employed to reduce wait times.

(c) A person shall not be required to make an appointment for a vehicle inspection.

(d) There shall be adequate queuing space for each inspection lane at each inspection station to accommodate on the station property all motor vehicles waiting for inspection.

(e) There shall be at least 2 inspection stations located within each county subject to the motor vehicle emissions inspection and maintenance program under this part.

(2) Public inspection stations shall inspect and reinspect motor vehicles in accordance with this part.

(3) A public inspection station shall inspect and reinspect motor vehicles in accordance with the rules promulgated under this part by the department. The inspection station shall issue a certificate of compliance for a motor vehicle that has been inspected and determined to comply with the standards and criteria of the department pursuant to the rules promulgated under section 6305. If a certificate of compliance is not issued, the inspection station shall provide a written inspection report describing the reason for rejection and, if appropriate, the repairs needed or likely to be needed to bring the vehicle into compliance with the standards and criteria.

(4) Stations shall provide a process by which vehicles being reinspected shall be accommodated before vehicles waiting for an initial inspection.

History: Add. 1995, Act 60, Imd. Eff. May 24, 1995.

Popular name: Act 451

Popular name: NREPA

324.6315 Certificate of waiver.

Sec. 6315. (1) A certificate of waiver shall be issued for a motor vehicle that fails an initial inspection and a subsequent reinspection if the actual cost of maintenance already performed and designed to bring the vehicle into compliance with clean air act standards in accordance with the inspection report is at least $300.00, adjusted in January of each year by the increase or decrease in the Detroit consumer price index rounded to the nearest whole dollar.

(2) The costs covered by vehicle warranty and the costs necessary to repair or replace any emission control equipment that has been removed, dismantled, tampered with, misfueled, or otherwise rendered inoperative

shall not be considered in determining eligibility for a certificate of waiver pursuant to subsection (1).

(3) Owners of vehicles subject to a transient IM240 emission test may apply to the department for a certificate of waiver after failing an initial inspection and a subsequent reinspection even though the dollar limit stated in subsection (1) for the cost of maintenance already performed has not been met. The department shall perform a complete, documented physical and functional diagnosis and inspection. If the diagnosis and inspection shows that no additional emission-related repairs are needed or that the vehicle presents prohibitive inspection problems or is inappropriate for inspection, the department may issue a certificate of waiver.

(4) Issuance of a certificate of waiver shall be conditioned upon meeting the criteria established by regulations promulgated by the United States environmental protection agency in 40 C.F.R. 51.360.

(5) A temporary certificate of waiver, valid for not more than 15 days, may be issued to a motor vehicle to allow time for necessary maintenance and reinspection. A temporary certificate of waiver may be issued not more than twice for the same motor vehicle.

History: Add. 1995, Act 60, Imd. Eff. May 24, 1995.

Popular name: Act 451

Popular name: NREPA

324.6316 Implementation of continuing education programs; protection of public from fraud and abuse; ensuring proper and accurate emission inspection results; evaluation; compilation of data; report.

Sec. 6316. (1) The department, directly or by contract, shall implement continuing education programs to begin 6 months before the commencement of the public inspection program in a county. A continuing education program shall consist of a component designed to educate the general public about the motor vehicle emissions inspection and maintenance program and a component to inform those who will perform maintenance requirements under this part.

(2) The department shall institute procedures and mechanisms to protect the public from fraud and abuse by inspectors, mechanics, and others involved in the inspection and maintenance program. This shall include a challenge mechanism by which a vehicle owner can contest the results of an inspection. It shall include mechanisms for protecting whistleblowers and following up on complaints by the public or others involved in the process. It shall include a program to assist owners in obtaining warranty-covered repairs for eligible vehicles that fail a test.

(3) The department shall evaluate, inspect, and provide quality assurance for the inspection and maintenance program established under this part to ensure proper and accurate emission inspection results. The department shall be responsible for issuance of certificates of waiver and time extensions.

(4) The department shall compile data and undertake studies necessary to evaluate the cost, effectiveness, and benefits of the motor vehicle inspection program. The department shall compile data on failure rate, compliance rate, the number of certificates issued, and other similar matters in accordance with 40 C.F.R. 51.365 and 51.366. The department shall make an annual report on the operation of the motor vehicle inspection program to the standing committees of the legislature that primarily address issues pertaining to public health or protection of the environment by January 1, 1995, and each year thereafter.

324.6317 Certificate of compliance; issuance.

Sec. 6317. A contractor shall not issue a certificate of compliance for a motor vehicle that has not been inspected and has not met or exceeded emission cut points established by the department in accordance with this part and the rules promulgated under this part.

History: Add. 1995, Act 60, Imd. Eff. May 24, 1995.

Popular name: Act 451

Popular name: NREPA

324.6318 Furnishing certain information about repair facility; guidelines; failure of vehicle to pass inspection; availability of certificates of waiver.

Sec. 6318. (1) An employee, owner, or operator of a public inspection station shall not furnish information about the name or other description of a repair facility or other place where maintenance may be obtained. The department shall develop guidelines for provision of this information in cooperation with the department of state, and shall provide the house and senate standing committees dealing with transportation matters with

those guidelines before January 1, 1995.

(2) Each public inspection station shall furnish the following information upon failure of the vehicle to pass inspection:

(a) A written inspection report listing each reason that the vehicle failed the emissions inspection.

(b) A notice which states the following:

"A vehicle's failure to pass the emissions inspection may be related to a malfunction covered under warranty.".

(3) Certificates of waiver shall be available at each public inspection station pursuant to section 6315.

History: Add. 1995, Act 60, Imd. Eff. May 24, 1995.

Popular name: Act 451

Popular name: NREPA

324.6319 Tampering with motor vehicle.

Sec. 6319. A person shall not tamper with a motor vehicle that has been certified to comply with this part and the rules promulgated under this part so that the motor vehicle is no longer in compliance. For purposes of this part, tampering does not include the alteration of a motor vehicle by employees of the department for purposes of monitoring and enforcement of this part.

Popular name: Act 451

Popular name: NREPA

324.6320 Providing false information to public inspection station or department.

Sec. 6320. A person shall not provide false information to a public inspection station or the department about estimated or actual repair costs or repairs needed to bring a motor vehicle into compliance. A person shall not claim an amount spent for repair if the repairs were not made or the amount not spent.

History: Add. 1995, Act 60, Imd. Eff. May 24, 1995.

Popular name: Act 451

Popular name: NREPA

324.6321 Violations as misdemeanor; fine; separate offenses.

Sec. 6321. (1) A person who violates section 6317, forges, counterfeits, or alters an inspection certificate, or knowingly possesses an unauthorized inspection certificate is guilty of a misdemeanor, punishable by imprisonment for not more than 1 year or by a fine of not more than $1,000.00. Each violation constitutes a separate offense.

(2) Except as otherwise provided in subsection (1), a person who violates section 6318, 6319, or 6320 is guilty of a misdemeanor.

(3) A person who drives a motor vehicle in violation of this part or rules promulgated under this part is subject to a civil fine of not more than $500.00. Each violation constitutes a separate offense.

PART 65

MOTOR VEHICLE EMISSIONS TESTING FOR SOUTHEAST MICHIGAN

324.6501 Meanings of words and phrases.

Sec. 6501. For the purposes of this part, the words and phrases contained in sections 6502 to 6504 have the meanings ascribed to them in those sections.

History: Add. 1995, Act 60, Imd. Eff. May 24, 1995.

Popular name: Act 451

Popular name: NREPA

324.6502 Definitions; C, D.

Sec. 6502. (1) "Certificate of compliance" means a serially numbered written instrument or document that is issued to the owner of a motor vehicle upon passing an inspection or reinspection and is evidence that the motor vehicle complies with the standards and criteria adopted by the department under this part.

(2) "Certificate of waiver" means a serially numbered written document or sticker indicating that the standards and criteria of the department have been met for a motor vehicle pursuant to the requirements of

this part.

(3) "Clean air act" means chapter 360, 69 Stat. 322, 42 U.S.C. 7401 to 7431, 7470 to 7479, 7491 to 7492, 7501 to 7509a, 7511 to 7515, 7521 to 7525, 7541 to 7545, 7547 to 7550, 7552 to 7554, 7571 to 7574, 7581 to 7590, 7601 to 7612, 7614 to 7617, 7619 to 7622, 7624 to 7627, 7641 to 7642, 7651 to 7651o, 7661 to 7661f, and 7671 to 7671q. Clean air act includes the regulations promulgated under the clean air act.

(4) "Consumer protection" means protecting the public from unfair or deceptive practices.

(5) "Cut point" means the level of pollutants emitted that is used in determining whether a particular make and model of motor vehicle passes or fails all or a part of an inspection.

(6) "Department" means the state transportation department.

History: Add. 1995, Act 60, Imd. Eff. May 24, 1995.

Popular name: Act 451

Popular name: NREPA

324.6503 Definitions; E to N.

Sec. 6503. (1) "Emission control device" means a catalytic converter, thermal reactor, or other component part used by a vehicle manufacturer to reduce emissions or to comply with emission standards prescribed by regulations promulgated by the United States environmental protection agency under the clean air act.

(2) "Fleet testing station" means a testing station that is authorized to conduct inspections on 10 or more vehicles owned or leased by 1 person.

(3) "Initial inspection" means an annual inspection performed on a motor vehicle for the first time in a test cycle.

(4) "Inspection" means testing of a motor vehicle for compliance with emission control requirements of this part and the clean air act.

(5) "Maintenance" means the repair or adjustment of a motor vehicle to bring that motor vehicle into compliance with emission control requirements of this part and rules promulgated under this part.

(6) "Motor vehicle" means a self-propelled vehicle as defined in section 79 of the Michigan vehicle code, Act No. 300 of the Public Acts of 1949, being section 257.79 of the Michigan Compiled Laws, that has a gross vehicle weight rating of 10,000 pounds or less and which is required to be registered for use upon the public streets and highways of this state under Act No. 300 of the Public Acts of 1949, being sections 257.1 to 257.923 of the Michigan Compiled Laws. For purposes of this part, motor vehicle includes those vehicles owned by the government of the United States, this state, and any political subdivision of this state.

(7) "National ambient air quality standards" means the air quality standards for outside air as established in the clean air act.

History: Add. 1995, Act 60, Imd. Eff. May 24, 1995.

Popular name: Act 451

Popular name: NREPA

324.6504 Definitions; P to T.

Sec. 6504. (1) "Pollutants" means nitrogen oxides, carbon monoxide, hydrocarbons, and other toxic substances emitted from the operation of a motor vehicle.

(2) "Tamper with" means to remove or render inoperative, to cause to be removed or rendered inoperative, or to make less operative an emission control device or an element of an emission control device that is required by the clean air act to be installed in or on a motor vehicle.

(3) "Test cycle" means a 12-month period corresponding with the expiration date for registration of the vehicle.

(4) "Testing station" means a facility for motor vehicle inspection as provided in this part.

Popular name: Act 451

Popular name: NREPA

324.6506 Testing or repair of motor vehicles; implementation of emissions inspection test program in Wayne, Oakland, and Macomb counties.

Sec. 6506. On and after the effective date of the 1996 amendatory act that amended this section, the owner of a motor vehicle who resides in Wayne, Oakland, or Macomb county shall not be required to have the motor vehicle tested or repaired under this act unless an emissions inspection test program is implemented under the conditions described in section 6507.

History: Add. 1995, Act 60, Imd. Eff. May 24, 1995;—Am. 1996, Act 166, Imd. Eff. Apr. 17, 1996.

Popular name: Act 451

Popular name: NREPA

324.6507 Emissions inspection test program in Wayne, Oakland, and Macomb counties; conditions for implementation; contingency measures; adoption of cut points; equipment and test procedures; rules; suspension of vehicle registration.

Sec. 6507. (1) The department may implement and administer only under the conditions set forth in subsection (2) an emissions inspection test program designed to meet the performance standards for a motor vehicle emissions testing program as established by the United States environmental protection agency in 40 C.F.R. 51.352 in the counties of Wayne, Oakland, and Macomb, using bar 90 testing equipment, including a visual antitampering check, or an equivalent system approved by the United States environmental protection agency. This inspection and maintenance program, if implemented, shall be carried out by licensed testing stations as authorized by the department. The visual antitampering check described in this subsection includes visual antitampering inspection of the catalytic converter, gas cap, PCV valve, air pump, and fuel inlet restrictor on light duty gas vehicles and light duty gas trucks with a gross vehicle weight rating of 10,000 pounds or less.

(2) The decentralized test and repair program described in subsection (1) shall only be implemented as a contingency measure included in the maintenance plan approved by the United States environmental protection agency as part of the redesignation as an ozone attainment area. The contingency measure shall include authority to expand the program to Washtenaw county in addition to the counties described in subsection (1) if other measures are not sufficient to meet the maintenance plan. The department may only implement the contingency measure if there is observation of an actual violation of the ozone national ambient air quality standard under 40 C.F.R. 50.9 during the maintenance period. The department may only exercise the contingency measure set forth in this subsection if:

(a) The department notifies the legislature that the event set forth in this subsection has occurred and that the contingency will be implemented after a period of 45 days.

(b) The legislature fails to adopt any amendments to this part that alter the requirements of this section within the 45-day period.

(3) The cut points set forth in test procedures, quality control requirements, and equipment specifications issued by the United States environmental protection agency are hereby adopted for the emissions testing program authorized in this section.

(4) Equipment and test procedures for the program described in subsection (1) shall meet the requirements of appendices A through D to subpart S of 40 C.F.R. 51 and the test procedures, quality control requirements, and equipment specifications issued by the United States environmental protection agency.

(5) The department, in consultation with the department of state and the department of natural resources, may promulgate rules for the administration of the inspection and maintenance program under this section including, but not limited to:

(a) Standards for testing station equipment, including emission testing equipment.

(b) Emission test cut points and other emission control requirements based on the clean air act and the state implementation plan.

(c) Exemptions from inspections as authorized under this part.

(d) Standards and procedures for the issuance of certificates of compliance and certificates of waiver from inspection and maintenance program requirements.

(e) Rules to ensure that owners of motor vehicles registered in this state who temporarily reside out of state are not unduly inconvenienced by the requirements of this part. The rules may include any of the following:

(*i*) Reciprocal agreements with other states that require motor vehicle inspections that are at least as stringent as those required under this part and rules promulgated under this part.

(*ii*) Provision for time extensions of not more than 2 years for persons temporarily residing in a state, the

District of Columbia, or a territory of the United States with which this state has not entered into a reciprocal agreement for vehicle emissions inspection and maintenance. Additional time extensions shall be granted to persons temporarily residing out of state because of military service.

(6) Upon receipt of documentation from the department, the department of state may suspend the registration of any vehicle that is not in compliance with this section and the rules promulgated under this section and for which the required certificate of compliance has not been obtained.

History: Add. 1995, Act 60, Imd. Eff. May 24, 1995;—Am. 1996, Act 166, Imd. Eff. Apr. 17, 1996.

Popular name: Act 451

324.6508 Motor vehicle emissions testing program fund; account.

Sec. 6508. (1) There is established a motor vehicle emissions testing program fund to be maintained as a separate fund in the state treasury and to be administered by the department. Money received and collected for motor vehicle emissions inspections and for delinquency charges under this part and from any other source shall be deposited in the state treasury to the credit of the motor vehicle emissions testing program fund.

(2) The motor vehicle emissions inspection account is created in the motor vehicle emissions testing program fund. Money in this account shall be appropriated by the legislature for the purposes of a public education program to be conducted by the department, start-up costs required to implement requirements of the motor vehicle emissions testing program under this part, administration and oversight by the department and the independent third-party organization, enforcement of the motor vehicle emissions testing program through the vehicle registration process by the department of state, gasoline inspection and testing, and other activities related to the motor vehicle emissions testing program.

(3) Funds remaining in the motor vehicle emissions testing program fund at the end of a fiscal year shall not lapse to the general fund but shall remain in the motor vehicle emissions testing program fund for appropriation in the following year.

(4) If any of the funds collected from the fee in section 6511(1) for administration and oversight including reimbursement of independent third-party organizations are appropriated or expended for any purposes other than those specifically listed in subsection (2), section 6520(2), and section 6532, the authority to collect fees granted under section 6511(1) shall be suspended until the funds appropriated or expended for purposes other than those specifically listed in subsection (2), section 6520(2), and section 6532 are returned to the fund established in subsection (1).

324.6509 Renewal of registration; issuance of certificate of compliance or certificate of waiver required; validity of certificate.

Sec. 6509. (1) The department of state shall not renew the registration of a motor vehicle subject to this part unless the vehicle has been inspected as provided in this part and a certificate of compliance or a certificate of waiver has been issued.

(2) Certificates of compliance and certificates of waiver issued under this part are valid for 1 test cycle.

(3) If not exempted by this part or rules promulgated under this part, a person shall not drive a motor vehicle registered in an area required to have a vehicle emission and maintenance program without a valid certificate of compliance or certificate of waiver.

History: Add. 1995, Act 60, Imd. Eff. May 24, 1995.

Popular name: Act 451

Popular name: NREPA

324.6510 Testing station; prohibited conduct.

Sec. 6510. (1) A testing station shall not falsely represent that the motor vehicle has passed or failed an inspection or reinspection.

(2) A testing station shall not falsely represent repairs or falsely estimate the price for repairs that are necessary to allow a person to obtain a certificate of compliance or a certificate of waiver.

History: Add. 1995, Act 60, Imd. Eff. May 24, 1995.

Popular name: Act 451

Popular name: NREPA

324.6511 Testing station; fee; use of fee; conditions requiring free reinspection or issuance of certificate of compliance; initial inspections; remittance and disposition of fee.

Sec. 6511. (1) A testing station may charge a person a fee of not more than $13.00. This part or the rules promulgated under this part do not prohibit a testing station from providing inspections for a fee of less than $13.00. However, the fee charged shall not be less than $3.00. Three dollars from the fee charged under this subsection shall be remitted by the testing station to the department of treasury as provided in subsection (7) and shall be used by the department for administration and oversight. One dollar from the $3.00 shall be used by the department to reimburse the independent third-party organization pursuant to section 6520. A testing station shall not make a separate charge for issuing a certificate of compliance, notice of failure, or certificate of waiver.

(2) A testing station shall provide 1 free reinspection of a motor vehicle if the motor vehicle failed a previous inspection performed by the testing station and if the motor vehicle is presented for reinspection within 90 days of the previous inspection, except that a testing station is not obligated to perform a free reinspection if the person presenting the motor vehicle for reinspection does not present the notice of failure previously issued by the testing station.

(3) A testing station that has performed repairs to bring into compliance a motor vehicle that has failed an inspection at another testing station within the previous 90 days, as evidenced by the notice of failure, shall provide to the person presenting the motor vehicle a free reinspection and shall provide a certificate of compliance for the motor vehicle if it passes the reinspection.

(4) A testing station shall provide 1 free reinspection of a motor vehicle if a fee was charged by the testing station for an initial inspection of the motor vehicle that was not completed under any condition described in the rules.

(5) Initial inspections must take place within 6 months before the expiration of the registration for the vehicle or the expiration of the certificate of compliance, time extension, or certificate of waiver issued under this part. Vehicles subject to this part that are not required to be registered in this state shall be presented for inspection during each annual inspection test cycle at a time set by the department.

(6) By the fifteenth day of each month, each testing station shall remit the amount of the fee required for administration and oversight under subsection (1) to the department of treasury for deposit in the motor vehicle emissions testing program fund.

324.6512 Vehicles exempt from inspection requirements.

Sec. 6512. The following vehicles are exempt from the inspection requirements of this part:

(a) Motor vehicles that are exempted by rules promulgated by the department because of prohibitive inspection problems or inappropriateness for inspection.

(b) A motor vehicle manufactured before the 1975 model year.

(c) A motor vehicle that has as its only fuel source compressed natural gas, diesel fuel, propane, electric power, or any other source as defined by rule promulgated by the department.

(d) A vehicle that is licensed as a historic vehicle under section 803a of the Michigan vehicle code, Act No. 300 of the Public Acts of 1949, being section 257.803a of the Michigan Compiled Laws.

(e) A motorcycle.

(f) A motor vehicle used for covert monitoring of inspection facilities.

(g) A new motor vehicle, immediately after issuance of the vehicle's first title until the next annual inspection for the vehicle model year.

History: Add. 1995, Act 60, Imd. Eff. May 24, 1995.

Popular name: Act 451

Popular name: NREPA

324.6513 Motor vehicles subject to part and rules; exceptions.

Sec. 6513. (1) The motor vehicles subject to this part and the rules promulgated under this part include the following:

(a) Each registered motor vehicle for the model years 1975 and later that is owned by a person whose permanent place of residence is in a county subject to this part.

(b) All motor vehicles for the model years 1975 and later that belong to a fleet and that are predominately garaged, operated, or maintained in a county subject to this part.

(2) A vehicle identified on a certificate of title issued by the department of state as an assembled vehicle is not subject to this part and the rules promulgated under this part.

(3) A motor vehicle is not subject to this part and the rules promulgated under this part if its application for registration renewal is accompanied by both a memorandum of federal clean air act exemption issued pursuant to federal regulation and a certification by the applicant identifying the vehicle, and if the application for registration is filed with the department.

History: Add. 1995, Act 60, Imd. Eff. May 24, 1995;—Am. 1996, Act 166, Imd. Eff. Apr. 17, 1996.

324.6514 Motor vehicles purchased as new vehicles; evidence.

Sec. 6514. Any 1 of the following shall be accepted by the department of state as evidence that a motor vehicle was purchased as a new motor vehicle within the previous 12 months:

(a) A registration or certificate of title indicating the motor vehicle is of a model year which has been offered for sale in this state for not more than 12 months.

(b) A record of the department of state indicating that the motor vehicle was purchased as new within the previous 12 months.

(c) A seller's statement to the buyer that indicates that the motor vehicle being sold is a new motor vehicle and that is dated within the previous 12 months.

(d) A manufacturer's statement of origin showing the first retail sale as being within the previous 12 months.

(e) A bill of sale from a manufacturer or a dealer franchised to sell new motor vehicles of that particular make that indicates that the motor vehicle being sold is new and that is dated within the previous 12 months.

Popular name: Act 451

Popular name: NREPA

324.6516 Inspection of motor vehicles; license to operate testing station; separate license and fee; mobile or temporary location; remote sensing devices; use of other instruments; display of license.

Sec. 6516. (1) A person shall not engage in the business of inspecting motor vehicles under this part except as authorized by a license to operate a testing station issued by the department pursuant to part 13.

(2) A person shall not be licensed to operate a testing station unless the person has an established place of business where inspections are to be performed during regular business hours, where records required by this part and the rules promulgated under this part are to be maintained, and that is equipped with an instrument or instruments of a type that comply with and are capable of performing inspections of motor vehicles under this part.

(3) A person licensed as a testing station shall perform inspections under this part at the established place of business for which the person is licensed. A person shall inform the department immediately of a change in the address of an established place of business at which the person is licensed as a testing station.

(4) A person shall obtain a separate license and pay a separate fee for each established place of business at which a testing station is to be operated.

(5) A testing station may establish and operate mobile or temporary testing station locations if they meet all of the following conditions:

(a) The instrument used at the mobile or temporary location is capable of meeting the performance specifications for instruments set forth in rules promulgated under this part while operating in the mobile or temporary station environment.

(b) The owner of a motor vehicle inspected at the mobile or temporary location shall be provided with a free reinspection of the motor vehicle, at the established place of business of the testing station or at any

mobile or temporary testing station location operated by the testing station.

(c) Personnel at the licensed established place of business location shall, at all times, know the location and hours of operation of the mobile or temporary testing station or stations.

(d) The records required by this part and the rules promulgated under this part relating to inspections performed and the instrument or instruments used at a mobile or temporary testing station shall be maintained at a single established place of business that is licensed as a testing station.

(e) The documents printed as required by the rules promulgated under this part by an instrument used at a mobile or temporary testing station location shall contain the testing station number and the name, address, and telephone number of the testing station's established place of business.

(6) A testing station may use remote sensing devices as a complement to testing otherwise required by this part.

(7) A testing station shall not cause or permit an inspection of a motor vehicle to be performed by a person other than an emission inspector using an instrument of a type that complies with the rules promulgated under this part.

(8) A testing station shall display a valid testing station license issued by the department in a place and manner conspicuous to its customers.

324.6517 Testing station license; application; information; fee; effective date and duration of license; reinstatement of surrendered, revoked, or expired repair facility registration; resumption of operation.

Sec. 6517. (1) An application for a testing station license shall include a description of the business to be licensed. The description shall include, in addition to other information required by this part and the rules promulgated under this part, all of the following:

(a) The repair facility registration number issued to the applicant if the applicant is licensed under the motor vehicle service and repair act, 1974 PA 300, MCL 257.1301 to 257.1340.

(b) The name of the business and the address of the business location for which a testing station license is being sought.

(c) The name and address of each owner of the business in the case of a sole proprietorship or a partnership and, in the case of a corporation, the name and address of each officer and director and of each owner of 25% or more of the corporation.

(d) The name of and identification number issued by the department for each emission inspector employed by the applicant.

(e) A description, including the model and serial number, of each instrument to be used by the applicant to perform inspections or reinspections under this part and the rules promulgated under this part and the date the instrument was purchased by the applicant.

(f) The estimated capacity of the applicant to perform inspections.

(2) The fee for a testing station license is $50.00 and shall accompany the application for a license submitted to the department.

(3) A testing station license shall take effect on the date it is approved by the department and shall remain in effect until this part expires, the license is surrendered by the station, revoked or suspended by the department, or until the motor vehicle repair facility registration of the business has been revoked or suspended by the department of state, surrendered by the facility, or has expired without timely renewal.

(4) If a testing station license has expired by reason of surrender, revocation, or expiration of repair facility registration, the business shall not resume operation as a testing station until the repair facility registration has been reinstated and a new, original application for a testing station license has been received and approved by the department and a new license fee paid.

(5) When the repair facility registration has been suspended, the testing station may resume operation without a new application when the repair facility registration suspension has ended.

History: Add. 1995, Act 60, Imd. Eff. May 24, 1995;—Am. 1996, Act 166, Imd. Eff. Apr. 17, 1996;—Am. 2004, Act 325, Imd. Eff. Sept. 10, 2004.

Popular name: NREPA

324.6518 Testing station; change of ownership; notice.

Sec. 6518. (1) If the ownership of a testing station changes, a new original license and payment of a new license fee is required, and the station shall not operate until its application is approved by the department. For the purposes of this section, "change of ownership" means a change in the ownership of a station which is either a sole proprietorship or a partnership; the replacement of a sole proprietorship with a partnership, a corporation, or another sole proprietorship; the replacement of a partnership with a sole proprietorship, a corporation, or another partnership; or the replacement of a corporation with a sole proprietorship, a partnership, or another corporation.

(2) A corporation shall notify the department within 30 days of a change in ownership that involves the accumulation of 25% or more of the ownership by a person who did not previously own 25% or more of the corporation.

324.6519 Display of certain information; prohibited conduct.

Sec. 6519. (1) A testing station shall display at the established place of business an information sign that bears an identifying symbol developed by the department and is worded as follows: "OFFICIAL EMISSION TESTING STATION".

(2) The sign shall be displayed on the outside premises of the testing station so that it is clearly and readily visible and readable to persons in motor vehicles as they enter the testing station property.

(3) A testing station shall also conspicuously display the price charged by the station for an inspection preceded by a dollar sign and printed in Arabic numerals.

(4) A testing station shall maintain posted business hours during which time representatives of the independent third party required to make certifications of the equipment used by the testing station and the emission inspectors used by the testing station may conduct inspections of the station, instruments and records required by this part and the rules promulgated under this part, and the motor vehicle emission inspection procedures employed by the testing station.

(5) A testing station shall not hinder, obstruct, or otherwise prevent an inspection required by this part.

History: Add. 1995, Act 60, Imd. Eff. May 24, 1995.

Popular name: Act 451

Popular name: NREPA

324.6520 Testing station; certification by third-party organization.

Sec. 6520. (1) A testing station shall submit annually to the department evidence of certification of its testing equipment and emission inspectors by an independent third-party organization. The certification shall provide that the testing equipment and emission inspectors meet the requirements of this part and the rules promulgated under this part and the requirements of the clean air act. If deficiencies are noted by the third-party certifying organization, the testing station shall submit a written explanation of corrective action accepted by the third-party organization with the certification.

(2) The department shall contract with the third-party organization to establish a random inspection system for testing stations. Funds from the fee imposed pursuant to section 6511 shall be used for this purpose.

History: Add. 1995, Act 60, Imd. Eff. May 24, 1995.

Popular name: Act 451

Popular name: NREPA

324.6521 Fleet testing station; permit; requirements.

Sec. 6521. (1) A fleet owner or lessee shall not perform inspections under this part or the rules promulgated under this part except as authorized under a permit to operate a fleet testing station issued by the department pursuant to part 13.

(2) A person shall not receive a permit to operate a fleet testing station unless the person has an established location where inspections are to be performed, where records required by this part and the rules promulgated under this part are to be maintained, that is equipped with an instrument or instruments of a type that comply with this part or the rules promulgated under this part, and that is capable of performing inspections of motor vehicles under this part and the rules promulgated under this part.

(3) A person with a permit to operate a fleet testing station shall perform inspections under this part and the rules promulgated under this part only at the established location for which the person has the permit. A person shall inform the department immediately of a change in the address of the established location for which the person has a permit to operate a fleet testing station.

(4) A fleet testing station shall not cause or permit an inspection of a motor vehicle to be performed by a person other than an emission inspector using an instrument of a type that complies with the rules promulgated under this part.

(5) An application for a fleet testing station shall include a description of the operation to be licensed. The description shall include, in addition to other information required by this part and the rules promulgated under this part, all of the following:

(a) The name of the business and the address of the location for which a fleet testing station permit is being sought.

(b) The name and address of each owner of the business in the case of a sole proprietorship or a partnership and, in the case of a corporation, the name and address of each officer and director and of each owner of 25% or more of the corporation.

(c) The name of and identification number issued by the department for each emission inspector employed by the applicant.

(d) A description, including the model and serial number of each instrument to be used by the applicant to perform inspections or reinspections under this part and the rules promulgated under this part, and the date the equipment was purchased by the applicant.

(e) A description of the fleet to be inspected, including the number and types of motor vehicles.

(f) A statement signed by the applicant certifying that the applicant maintains and repairs, on a regular basis, the fleet vehicles owned by the applicant.

(6) A fleet testing station permit shall take effect on the date it is approved by the department and shall expire 1 year from that date. A fleet testing station permit shall be renewed automatically, unless the fleet testing station informs the department not to renew it or unless the department has revoked the permit.

(7) A person shall obtain a separate permit for each location at which fleet inspections are performed.

(8) By the fifteenth day of each month, each fleet testing station shall remit $1.00 for each vehicle inspected during the preceding month to the department of treasury for deposit in the motor vehicle emissions testing program fund.

History: Add. 1995, Act 60, Imd. Eff. May 24, 1995;—Am. 2004, Act 325, Imd. Eff. Sept. 10, 2004.

324.6522 Fleet testing station; change of ownership; notice.

Sec. 6522. (1) If the ownership of a fleet testing station changes, a new permit is required, and the fleet testing station shall not operate until its application for a new permit is approved by the department. For purposes of this section, "change of ownership" means a change in the ownership of a station that is a sole proprietorship or a partnership; the replacement of a sole proprietorship with a partnership, a corporation, or another sole proprietorship; the replacement of a partnership with a sole proprietorship, a corporation, or another partnership; or the replacement of a corporation with a sole proprietorship, a partnership, or another corporation.

(2) A corporation shall notify the department within 30 days of any change in ownership that involves the accumulation of 25% or more of the ownership by a person who did not previously own 25% or more of the corporation.

324.6527 Inspection appointment; issuance of certificate of compliance; report describing reason for rejection.

Sec. 6527. (1) A person shall not be required to make an appointment for a vehicle inspection.

(2) A testing station shall inspect and reinspect motor vehicles in accordance with this part and the rules promulgated under this part by the department. The station shall issue a certificate of compliance for a motor vehicle that has been inspected and determined to comply with the standards and criteria of the department pursuant to the rules promulgated under this part. If a certificate of compliance is not issued, the inspection station shall provide a written inspection report describing the reason for rejection.

History: Add. 1995, Act 60, Imd. Eff. May 24, 1995.

Popular name: Act 451

Popular name: NREPA

324.6528 Certificate of waiver; issuance; conditions; certain costs not considered in determining eligibility; criteria; temporary certificate; fee.

Sec. 6528. (1) A certificate of waiver shall be issued for a motor vehicle that fails an initial inspection and a subsequent reinspection if the actual cost of maintenance already performed and designed to bring the vehicle into compliance with clean air standards in accordance with the inspection report is at least $200.00, adjusted in January of each year by the increase or decrease in the Detroit consumer price index and rounded off to the nearest whole dollar.

(2) The costs covered by vehicle warranty and the costs necessary to repair or replace any emission control equipment that has been removed, dismantled, tampered with, misfueled, or otherwise rendered inoperative shall not be considered in determining eligibility for a certificate of waiver pursuant to subsection (1).

(3) Except for the program described in section 6506, issuance of a certificate of waiver shall be conditioned upon meeting the criteria established by regulations promulgated by the United States environmental protection agency in 40 C.F.R. 51.360.

(4) A temporary certificate of waiver, valid for not more than 14 days, may be issued to the owner of a motor vehicle by the secretary of state to allow time for necessary maintenance and reinspection. The secretary of state may charge the fee permitted for a temporary registration under section 802(5) of the Michigan vehicle code, Act No. 300 of the Public Acts of 1949, being section 257.802 of the Michigan Compiled Laws.

History: Add. 1995, Act 60, Imd. Eff. May 24, 1995.

Popular name: Act 451

Popular name: NREPA

324.6529 Approval as emission inspector.

Sec. 6529. (1) A person shall not perform inspections under this part or the rules promulgated under this part unless the person receives approval from the department as an emission inspector.

(2) Before a person is approved as an emission inspector, the person shall have passed an examination approved by the department that is designed to test the person's competency to perform inspections.

(3) A person who fails an examination to obtain approval as an emission inspector may retake the

examination when it is next offered.

(4) A person's approval by the department as an emission inspector shall take effect on the date it is issued by the department and shall expire upon surrender by the person or upon revocation by the department.

(5) The department, after notice and opportunity for a hearing, may deny, suspend, or revoke a person's approval as an emission inspector if the department finds that an applicant or an emission inspector does any of the following:

(a) Commits fraud, misrepresentation, trickery, or deceit in connection with the inspection or repair of a motor vehicle under this part or a rule promulgated under this part.

(b) Violates this part or a rule promulgated under this part.

(c) Improperly performs an instrument maintenance, recordkeeping, or inspection procedure required by the rules promulgated under this part.

(d) Incompetently performs an inspection.

(e) Is denied certification by the independent third party responsible for certifications under this part.

(6) Instead of proceeding under subsection (5), or as a means of settling a matter pursuant under subsection (5), the department may do any of the following:

(a) Enter into an assurance of discontinuance with an applicant or an emission inspector.

(b) Enter into a probation agreement with an applicant or an emission inspector.

(c) Enter into a suspension, revocation, or denial agreement with an applicant or an emission inspector.

(d) Require an applicant or an emission inspector to take training or an examination, or both.

History: Add. 1995, Act 60, Imd. Eff. May 24, 1995.

Popular name: Act 451

Popular name: NREPA

324.6530 Inspection; certificate of compliance or waiver obtained at licensed testing station.

Sec. 6530. Unless the person is licensed as a fleet testing station, a person who owns a motor vehicle required to be inspected under this part and the rules promulgated under this part shall have the motor vehicle inspected and shall obtain a certificate of compliance or a waiver only at a testing station licensed under this part and the rules promulgated under this part.

History: Add. 1995, Act 60, Imd. Eff. May 24, 1995.

Popular name: Act 451

Popular name: NREPA

324.6531 Compliance; determination by department; system for selection of qualified vehicles.

Sec. 6531. The department may issue a certificate of compliance for a motor vehicle when the department makes a determination that the motor vehicle complies with the requirements of this part and the rules promulgated under this part. The department shall establish a system for selecting which motor vehicles qualify for the department's determination as to compliance.

History: Add. 1995, Act 60, Imd. Eff. May 24, 1995.

Popular name: Act 451

Popular name: NREPA

324.6532 Protection of public from fraud and abuse; quality assurance; evaluation of cost; effectiveness and benefits of inspection program; report.

Sec. 6532. (1) The department shall institute procedures and mechanisms to protect the public from fraud and abuse by inspectors, mechanics, and others involved in the inspection and maintenance program. These procedures and mechanisms shall include a challenge mechanism by which a vehicle owner can contest the results of an inspection. It shall include mechanisms for protecting whistleblowers and following up on complaints by the public or others involved in the process. It shall include a program to assist owners in obtaining warranty covered repairs for eligible vehicles that fail a test.

(2) The department shall provide quality assurance for the inspection and maintenance program established under this part through certification of competency by a third party to ensure proper and accurate emission inspection results. The third party each year shall certify the testing equipment and the emission inspectors employed by a testing station.

(3) The department shall compile data and undertake studies necessary to evaluate the cost, effectiveness, and benefits of the motor vehicle inspection program. The department shall compile data on failure rate, compliance rate, the number of certificates issued, and other similar matters in accordance with 40 C.F.R.

51.365 and 51.366. The department shall make an annual report on the operation of the motor vehicle inspection program to the standing committees of the legislature that primarily address issues pertaining to public health or protection of the environment by January 1, 1995, and each year thereafter.

History: Add. 1995, Act 60, Imd. Eff. May 24, 1995.

Popular name: Act 451

Popular name: NREPA

324.6533 Testing station; fleet testing station; issuance of certificate of compliance; conditions.

Sec. 6533. A testing station or a fleet testing station shall not issue a certificate of compliance for a motor vehicle that has not been inspected and has not met or exceeded emission cut points established by the department in accordance with this part and the rules promulgated under this part.

History: Add. 1995, Act 60, Imd. Eff. May 24, 1995.

Popular name: Act 451

Popular name: NREPA

324.6534 Information to be provided by public inspection station; availability of certificate of waiver.

Sec. 6534. (1) An employee, owner, or operator of a public inspection station shall not furnish information, except information provided by the state or otherwise required by this part, about the name or other description of a repair facility or other place where maintenance may be obtained.

(2) Each testing station shall furnish the following information upon failure of the vehicle to pass inspection:

(a) A written inspection report listing each reason that the vehicle failed the emissions inspection.

(b) A notice that states the following:

"A vehicle's failure to pass the emissions inspection may be related to a malfunction covered under warranty.".

(3) Certificates of waiver shall be available at each public inspection station pursuant to section 6528.

History: Add. 1995, Act 60, Imd. Eff. May 24, 1995.

Popular name: Act 451

Popular name: NREPA

324.6535 Tampering with motor vehicle.

Sec. 6535. A person shall not tamper with a motor vehicle that has been certified to comply with this part and the rules promulgated under this part so that the motor vehicle is no longer in compliance. For purposes of this part, tampering does not include the alteration of a motor vehicle by employees of the department for purposes of monitoring and enforcement of this part.

History: Add. 1995, Act 60, Imd. Eff. May 24, 1995.

Popular name: Act 451

Popular name: NREPA

324.6536 Providing false information about repair costs prohibited.

Sec. 6536. A person shall not provide false information to a public inspection station or the department about estimated or actual repair costs or repairs needed to bring a motor vehicle into compliance. A person shall not claim an amount spent for repair if the repairs were not made or the amount not spent.

History: Add. 1995, Act 60, Imd. Eff. May 24, 1995.

Popular name: Act 451

Popular name: NREPA

324.6537 Violations as misdemeanor; fine.

Sec. 6537. (1) A person who violates section 6533 or forges, counterfeits, or alters an inspection certificate or who knowingly possesses an unauthorized inspection certificate, is guilty of a misdemeanor, punishable by imprisonment for not more than 1 year or by a fine of not more than $1,000.00. Each violation constitutes a separate offense.

(2) Except as otherwise provided in subsection (1), a person who violates section 6534, 6535, or 6536 is guilty of a misdemeanor.

(3) A person who drives a motor vehicle in violation of this part or rules promulgated under this part is subject to a civil fine of not more than $500.00. Each violation constitutes a separate offense.

History: Add. 1995, Act 60, Imd. Eff. May 24, 1995.

Popular name: Act 451

Popular name: NREPA

324.6538 Transfer and availability of vehicle emissions inspection and maintenance fund.

Sec. 6538. Funds remaining in the vehicle emissions inspection and maintenance fund created by former Act No. 83 of the Public Acts of 1980 shall be transferred on January 1, 1996 to the motor vehicle emissions testing program fund created in this part. These funds shall be available for appropriation to the department for start-up costs to implement the motor vehicle emissions testing program in this part, to conduct a public information program to educate the general public about requirements of this part, and for other activities related to the motor vehicle emissions testing program.

CHAPTER 2
NONPOINT SOURCE POLLUTION CONTROL

PART 81
GENERAL NONPOINT SOURCE POLLUTION CONTROL

PART 82
CONSERVATION PRACTICES

324.8201 Definitions.

Sec. 8201. As used in this part:

(a) "Conservation easement" means that term as it is defined in section 2140.

(b) "Conservation plan" means a plan approved by the department for all or a portion of a parcel of land that specifies the conservation practices to be undertaken and includes a schedule for implementation.

(c) "Conservation practices" means practices, voluntarily implemented by the landowner, that protect and conserve water quality, soil, natural features, wildlife, or other natural resources and that meet 1 or more of the following:

(*i*) The practices comply with United States natural resource conservation service standards and specifications as approved by the department.

(*ii*) The practices are provided in rules promulgated by the department under this part.

(*iii*) The practices have been approved by the commission of agriculture.

(d) "Department" means the department of agriculture or its authorized representatives.

(e) "Fund" means the agriculture pollution prevention fund created in section 8206.

(f) "Verification" or "verify" means a determination by the department that 1 or more conservation practices have been established and are being maintained in accordance with a conservation plan.

History: Add. 2001, Act 176, Imd. Eff. Dec. 11, 2001.

Popular name: Act 451

Popular name: NREPA

324.8202 Conservation programs; establishment; purpose; coordination with departments of natural resources and environmental quality.

Sec. 8202. (1) The department may establish conservation programs designed to encourage the voluntary use of conservation practices in the state.

(2) In implementing the conservation programs established under this part, the department, in coordination with the departments of natural resources and environmental quality, may do 1 or more of the following:

(a) Enter into contracts with 1 or more persons for the implementation of conservation practices on his or

her land.

(b) Enter into contracts or other agreements with 1 or more persons to administer or promote conservation programs, or to implement conservation practices.

(c) Provide payments, financial incentives, or, upon verification of the implementation of conservation practices, reimbursement for rental payments or for costs of conservation practice implementation, or both.

(d) Promote the use of conservation practices.

(e) Recognize and provide awards for persons who have implemented conservation practices.

(f) Monitor and verify compliance with conservation plans.

(g) Enforce contracts or other agreements entered into under this part.

(h) Terminate contracts or other agreements entered into under this part in accord with terms established in the contract or other agreement.

(3) In carrying out its responsibilities under this part, the department shall coordinate with the departments of natural resources and environmental quality and other applicable partners.

History: Add. 2001, Act 176, Imd. Eff. Dec. 11, 2001.

Popular name: Act 451

Popular name: NREPA

324.8203 Conservation practice verification; conditions; revocation; penalties and repayment.

Sec. 8203. (1) As part of a conservation program established under this part, the department may provide for conservation practice verification. Conservation practice verification may be granted to a person if all of the following conditions are met:

(a) The person has submitted a conservation plan in compliance with requirements of the department.

(b) The person has established and is maintaining all conservation practices provided for in the conservation plan, according to the plan schedule.

(c) The person has agreed to allow the department, after giving prior notice to the landowner, to conduct inspections of the applicable land and facilities.

(d) The department has conducted an on-site inspection of the conservation practices and has determined that the person has established and is maintaining all conservation practices provided for in the conservation plan, according to the plan schedule.

(2) If the department determines at any time that the conservation practices provided in a conservation plan have not been established or are not being maintained, the department may revoke a person's conservation practice verification.

(3) If a person's conservation practice verification is revoked, the person may be subject to penalties and repayment of all or a portion of the payments, financial incentives, land rental payments, and reimbursement of costs paid for implementation of the conservation practice according to the terms of the contract.

History: Add. 2001, Act 176, Imd. Eff. Dec. 11, 2001.

Popular name: Act 451

Popular name: NREPA

324.8204 Conservation easements.

Sec. 8204. (1) The department may purchase or otherwise acquire conservation easements in accordance with subpart 11 of part 21. A conservation easement purchased or otherwise acquired under this section may contain provisions for the allowable or required use of the land subject to the conservation easement, implementation of conservation practices on the land, maintenance of the conservation practices, opportunities for inspection of the land, penalties for noncompliance with the terms of the conservation easement, termination of the easement, and other terms agreed to by the department.

(2) If the department purchases or acquires a conservation easement under this section, the department shall record that conservation easement with the register of deeds for the county in which the land subject to the conservation easement is located. If that conservation easement is subsequently terminated, the department shall record a notice of that termination with the register of deeds for the county in which the land subject to the conservation easement is located.

(3) The department may enter into contracts with 1 or more persons to monitor and enforce the terms of conservation easements purchased or acquired under subsection (1).

History: Add. 2001, Act 176, Imd. Eff. Dec. 11, 2001.

Popular name: Act 451

Popular name: NREPA

324.8205 Disposition of recovered money.

Sec. 8205. Any money recovered by the department under this part, including, but not limited to, money paid to the department due to the termination of a contract, agreement, or conservation easement, shall be deposited into the fund.

History: Add. 2001, Act 176, Imd. Eff. Dec. 11, 2001.

Popular name: Act 451

Popular name: NREPA

324.8206 Agriculture pollution prevention fund.

Sec. 8206. (1) The agriculture pollution prevention fund is created in the state treasury.

(2) The state treasurer may receive money or other assets from any source for deposit into the fund, including state and federal revenues, gifts, bequests, and other donations. The state treasurer shall direct the investment of the fund and shall credit to the fund interest and earnings from fund investments.

(3) Money in the fund or in any account within the fund at the close of the fiscal year shall remain in the fund or account and shall not lapse to the general fund. The department shall be the administrator of the fund for auditing purposes.

(4) Money in the fund shall be expended, upon appropriation, only for 1 or more of the following:

(a) For payments, financial incentives, or reimbursement for rental payments for the implementation of conservation practices.

(b) For payments required under contracts entered into under this part.

(c) For the purchase of conservation easements.

(d) For monitoring and enforcement of conservation easements.

(e) For awards to participants in conservation programs established by the department under this part.

(f) For the promotion of conservation programs established by the department under this part.

(g) Not more than 20% of the annual appropriations from the fund for the administrative costs of the department in implementing this part. As used in this subdivision, administrative costs include, but are not limited to, costs incurred in doing 1 or more of the following:

(*i*) Developing and implementing conservation programs.

(*ii*) Managing payments and financial incentives.

(*iii*) Monitoring and verifying the implementation of conservation practices and enforcing contracts or agreements concerning conservation practices.

(*iv*) Coordinating conservation programs with the United States department of agriculture and other state agencies with jurisdiction over conservation programs.

History: Add. 2001, Act 176, Imd. Eff. Dec. 11, 2001;—Am. 2018, Act 237, Eff. Sept. 25, 2018.

Popular name: Act 451

Popular name: NREPA

324.8207 Confidentiality; exemption from freedom of information act.

Sec. 8207. Any information voluntarily provided by a person in connection with the development, implementation, or verification of a conservation plan or conservation practices under this part is confidential, is exempt from disclosure under the freedom of information act, 1976 PA 442, MCL 15.231 to 15.246, and is not open to public inspection without the person's consent. Any such information that is released to a legislative body shall not contain information that identifies a specific person. The exemption provided in this section does not extend to any documents, communication, data, reports, or other information required to be collected, maintained, or made available or reported to a regulatory agency or any other person by statute, rule, ordinance, permit, order, consent agreement, or as otherwise provided by law.

History: Add. 2001, Act 176, Imd. Eff. Dec. 11, 2001.

Popular name: Act 451

Popular name: NREPA

324.8208 Rules.

Sec. 8208. The department may promulgate rules to implement this part.

History: Add. 2001, Act 176, Imd. Eff. Dec. 11, 2001.

Popular name: Act 451

Popular name: NREPA

324.8301 Meanings of words and phrases.

Sec. 8301. For the purposes of this part, the words and phrases defined in sections 8302 to 8306 have the meanings ascribed to them in those sections.

History: 1994, Act 451, Eff. Mar. 30, 1995.

Popular name: Act 451

Popular name: NREPA

324.8302 Definitions; A to C.

Sec. 8302. (1) "Active ingredient" means an ingredient that will prevent, destroy, repel, or mitigate pests, or that will act as a plant regulator, defoliant, or desiccant or otherwise alter the behavior of plants or products.

(2) "Activity plan" means a plan for the mitigation of groundwater contamination at a specific location, including a time frame for implementation.

(3) "Adulterated" applies to a pesticide if its strength or purity is less than, or significantly greater than, the professed standard or quality as expressed on its labeling or under which it is sold; if any substance was substituted wholly or in part for a pesticide; or if a valuable constituent of the pesticide was wholly or in part abstracted.

(4) "Agricultural commodity" means a plant or part of a plant, or an animal or animal product, produced primarily for sale, consumption, propagation, or other use by human beings or animals.

(5) "Agricultural pesticide" means a pesticide that bears labeling that meets federal worker protection agricultural use requirements established in 40 CFR parts 156 and 170.

(6) "Agricultural pesticide dealer" means a person engaged in distributing, selling, or offering for sale an agricultural pesticide to the ultimate user.

(7) "Animal" means all vertebrate and invertebrate species, including, but not limited to, human beings and other mammals, birds, fish, and shellfish.

(8) "Antimicrobial pesticide" means a pesticide that is intended to disinfect, sanitize, reduce, or mitigate growth or development of microbial organisms, as defined under FIFRA.

(9) "Application season" means a time period of pesticide application, consistent with the category of application, within a calendar year.

(10) "Aquifer" means a geologic formation, a group of formations, or a part of a formation capable of yielding a significant amount of groundwater to wells or springs.

(11) "Aquifer sensitivity" means a hydrogeologic function representing the inherent abilities of materials surrounding the aquifer to attenuate the movement of pesticides into that aquifer.

(12) "Avicide" means a pesticide intended for preventing, destroying, repelling, or mitigating pest birds.

(13) "Building manager" means the person who is designated as being responsible for the building's pest management program and to whom any reporting and notification shall be made pursuant to this part or rules promulgated under this part.

(14) "Certified applicator" means an individual who is authorized under this part to use and supervise the use of a restricted use pesticide.

(15) "Commercial applicator" means a person who is required to be a registered or certified applicator under this part, or who holds himself or herself out to the public as being in the business of applying pesticides. A commercial applicator does not include a person using a pesticide for a private agricultural purpose.

(16) "Commercial building" means a portion of a building that is not a private residence, where a business is located, and that is frequented by the public.

(17) "Confirmed contaminant" means a contaminant that has been detected in at least 2 groundwater samples collected from the same groundwater sampling point at an interval of greater than 14 days.

(18) "Contaminant" means a pesticide originated chemical, radionuclide, ion, synthetic organic compound, microorganism, or waste that does not occur naturally in groundwater or that naturally occurs at a lower concentration than detected.

(19) "Contamination" means the direct or indirect introduction into groundwater of any contaminant caused in whole or in part by human activity.

History: 1994, Act 451, Eff. Mar. 30, 1995;—Am. 2002, Act 418, Imd. Eff. June 5, 2002;—Am. 2008, Act 18, Imd. Eff. Feb. 29, 2008.

Popular name: Act 451

Popular name: NREPA

324.8303 Definitions; D to G.

Sec. 8303. (1) "Day care center" means a facility, other than a private residence, receiving 1 or more preschool or school-age children for care for periods of less than 24 hours a day, and where the parents or guardians are not immediately available to the child, and which is licensed as a child care organization by the department of human services under 1973 PA 116, MCL 722.111 to 722.128.

(2) "Defoliant" means a substance or mixture of substances intended for causing the leaves or foliage to drop from a plant, with or without causing abscission.

(3) "Department" means the department of agriculture.

(4) "Desiccant" means a substance or mixture of substances intended for artificially accelerating the drying of plant tissue.

(5) "Device" means an instrument or contrivance, other than a firearm, which is intended for trapping, destroying, repelling, or mitigating a pest; but does not include equipment used for the application of pesticides when sold separately.

(6) "Direct supervision" means directing the application of a pesticide while being physically present during the application. However, direct supervision by a private agricultural applicator means either of the following:

(a) The private agricultural applicator is in the same field or location as an uncertified applicator, directing the application of a restricted use pesticide by the uncertified applicator.

(b) The private agricultural applicator supervises an uncertified applicator and is physically present during the initial restricted use pesticide application on an agricultural commodity or agricultural structure, including calibration, mixing, application, operator safety, and disposal.

(7) "Director" means the director of the department or his or her authorized representative.

(8) "Distribute" means to offer for sale, hold for sale, sell, barter, ship, inventory or receive for others for a period greater than 21 days, or deliver pesticides in this state.

(9) "Envelope monitoring" means monitoring of groundwater in areas adjacent to properties where groundwater is contaminated to determine the concentration and spatial distribution of the contaminant in the aquifer.

(10) "Environment" includes water, air, land, and all plants and human beings and other animals living therein, and the interrelationships that exist among them.

(11) "EPA" means the United States environmental protection agency.

(12) "FIFRA" means the federal insecticide, fungicide, and rodenticide act, 7 USC 136 to 136y.

(13) "Fungi" means all nonchlorophyll bearing thallophytes; that is, all nonchlorophyll bearing plants of a lower order than mosses and liverworts, as for example rusts, smuts, mildews, molds, yeasts, and bacteria, except those in or on other animals, and except those in or on processed foods, beverages, or pharmaceuticals.

(14) "General use pesticide" means a pesticide that is not a restricted use pesticide.

(15) "Groundwater" means underground water within the zone of saturation.

(16) "Groundwater protection rule" means a rule promulgated under this part that specifies a minimum operational standard for structures, activities, and procedures that may have contributed or may contribute to the contamination of groundwater and that specifies the standard's scope, region of implementation, and implementation period. As used in this subsection:

(a) "Structures, activities, and procedures" includes, but is not limited to, mixing, loading, and rinse pads, application equipment, application timing, application rates, crop rotation, and pest control thresholds.

(b) "Scope" means applicability to a particular pesticide, structure, activity, or procedure or pesticides containing specific ingredients.

(c) "Region of implementation" may include specific soil types or aquifer sensitivity regions or any other geographic boundary.

(17) "Groundwater resource protection level" means a maximum contaminant level, health advisory level, or, if the EPA has not established a maximum contaminant level or a health advisory level, a level established by the director of community health using risk assessment protocol established by rule under this part.

(18) "Groundwater resource response level" means 20% of the groundwater resource protection level. If 20% of the groundwater resource protection level is less than the method detection limit, the method detection limit is the groundwater resource response level.

History: 1994, Act 451, Eff. Mar. 30, 1995;—Am. 2002, Act 418, Imd. Eff. June 5, 2002;—Am. 2004, Act 24, Imd. Eff. Mar. 10, 2004;—Am. 2008, Act 18, Imd. Eff. Feb. 29, 2008.

Popular name: Act 451

Popular name: NREPA

324.8304 Definitions; I to M.

Sec. 8304. (1) "Inert ingredient" means an ingredient that is not active.

(2) "Ingredient statement" means:

(a) A statement of the name and percentage of each active ingredient together with the total percentage of the inert ingredients in the pesticide.

(b) When the pesticide contains arsenic in any form, the ingredient statement shall include percentages of total and water soluble arsenic, each calculated as elemental arsenic.

(3) "Insect" means any of the numerous small invertebrate animals generally having the body more or less obviously segmented, for the most part belonging to the class insecta, comprising 6-legged, usually winged forms, as for example beetles, bugs, bees, and flies, and to other allied classes or arthropods whose members are wingless and usually have more than 6 legs, as for example spiders, mites, ticks, centipedes, and wood lice.

(4) "Insecticide" means a pesticide intended for preventing, destroying, repelling, or mitigating an insect.

(5) "Integrated pest management" means a pest management system that uses all suitable techniques in a total management system to prevent pests from reaching unacceptable levels or to reduce existing pest populations to acceptable levels.

(6) "Integrated pest management program" means a program for integrated pest management that includes at least all of the following elements:

(a) The following integrated pest management practices and principles:

(*i*) Site evaluation, including site description, inspection, and monitoring and the concept of threshold levels.

(*ii*) Consideration of the relationship between pest biology and pest management methods.

(*iii*) Consideration of all available pest management methods, including population reduction techniques, such as mechanical, biological, and chemical techniques and pest prevention techniques, such as habitat modification.

(*iv*) Pest control method selection, including consideration of the impact on human health and the environment.

(*v*) Continual evaluation of the integrated pest management program to determine the program's effectiveness and the need for program modification.

(b) Recordkeeping which shall be maintained by the applicator and which shall include all of the following:

(*i*) The site address.

(*ii*) The date of service.

(*iii*) The target pest or pests.

(*iv*) The inspection report, including the number of pests found or reported, and the conditions conducive to pest infestation.

(*v*) The pest management recommendations made by the applicator, such as structural or habitat modification.

(*vi*) The structural or habitat modification or other measures that were initiated as a part of the pest management program.

(*vii*) The name of each pesticide used.

(*viii*) Quantity of each pesticide used.

(*ix*) The location of the area or room or rooms where pesticides were applied.

(*x*) The name of the applicator.

(*xi*) The name of the pest control firm, if a firm is employed, and the emergency telephone number.

(c) Provision of the following information to the building manager:

(*i*) The integrated pest management program and initial service inspection record, which shall be provided at the time of, or made available electronically within 48 hours after, the initial service.

(*ii*) A record that includes the information specified in subdivision (b), which shall be provided upon or made available electronically within 48 hours after the completion of each inspection, application, or service call.

(d) The acceptance of responsibility by the building manager to post signs provided by the pesticide applicator in compliance with rules promulgated under section 8325.

(7) "Label" means the written, printed, or graphic matter on or attached to the pesticide or device or any of its containers or wrappers.

(8) "Labeling" means the label and all other written, printed, or graphic matter accompanying the pesticide or device, or to which reference is made on the label or in literature accompanying the pesticide or device, and

all applicable modifications or supplements to official publications of the EPA, the United States departments of agriculture and interior, the United States departments of education and health and human services, state experiment stations, state agricultural colleges, and other similar federal or state institutions or agencies authorized by law to conduct research in the field of pesticides.

(9) "Maximum contaminant level" means that term as it is defined in title XIV of the public health service act, 42 USC 300f to 300j-25, and regulations promulgated under that act.

(10) "Method detection limit" means the minimum concentration of a substance that can be measured and reported with 99% confidence that the analyte concentration is greater than 0 and is determined from analysis of a sample in a given matrix that contains the analyte.

(11) "Minor use" means the use of a pesticide on a crop, animal, or site where any of the following exist:

(a) The total United States acreage for the crop or site is less than 300,000 acres.

(b) The acreage expected to be treated nationally as a result of that use is less than 300,000 acres annually.

(c) The use does not provide sufficient economic incentive to support the initial registration or continuing registration of the use.

(12) "Misbranded" applies to any pesticide or device if it is an imitation of or is offered for sale under the name of another pesticide, or if its labeling does not comply with labeling requirements of this part, the rules promulgated under this part, FIFRA, or regulations promulgated under FIFRA.

(13) "Molluscicide" means a pesticide intended for preventing, destroying, repelling, or mitigating a mollusk.

History: 1994, Act 451, Eff. Mar. 30, 1995;—Am. 2002, Act 418, Imd. Eff. June 5, 2002;—Am. 2004, Act 24, Imd. Eff. Mar. 10, 2004.

Popular name: Act 451

Popular name: NREPA

324.8305 Definitions; N to P.

Sec. 8305. (1) "Nematode" means invertebrate animals of the phylum nemathelminthes and class nematoda, which are unsegmented roundworms with elongated, fusiform, or sac-like bodies covered with cuticle that inhabit soil, water, plants, or plant parts. A nematode may also be called a nema or eelworm.

(2) "Person" means an individual, partnership, corporation, association, governmental entity, or other legal entity.

(3) "Pest" means an insect, rodent, nematode, fungus, weed, and other forms of terrestrial or aquatic plant or animal life or virus, bacteria, or other microorganism, or any other organism that the director declares to be a pest under section 8322, except viruses, fungi, bacteria, nematodes, or other microorganisms in or on living animals.

(4) "Pesticide" means a substance or mixture of substances intended for preventing, destroying, repelling, or mitigating pests or intended for use as a plant regulator, defoliant, or desiccant. Pesticide does not include liquid chemical sterilant products, including any sterilant or subordinate disinfectant claims on such products, for use on a critical or semi-critical device, as defined in section 201 of the federal food, drug, and cosmetic act, chapter 675, 52 Stat. 1040, 21 U.S.C. 321. As used in this subsection:

(a) "Critical device" includes any device that is introduced directly into the human body, either into or in contact with the bloodstream or normally sterile areas of the body.

(b) "Semi-critical device" includes any device that contacts intact mucous membranes but that does not ordinarily penetrate the blood barrier or otherwise enter normally sterile areas of the body.

(5) "Pesticide registration renewal" means the registration of any pesticide that was previously registered by the department.

(6) "Place of business" means a location that is staffed by at least 1 person who independently, without supervision, sells or uses pesticides within this state or where a person exercises the right to control others in the sale or use of pesticides within this state.

(7) "Plant regulator" means a substance or mixture of substances intended through physiological action for accelerating or retarding the rate of growth or rate of maturation or for otherwise altering the behavior of plants or the produce of plants. Plant regulator does not include substances to the extent that they are intended as plant nutrients, trace elements, nutritional chemicals, plant inoculants, and soil amendments.

(8) "Private agricultural applicator" means a certified applicator who uses or supervises the use of a restricted use pesticide for a private agricultural purpose.

(9) "Private agricultural purpose" means the application of a pesticide for the production of an agricultural commodity on either of the following:

(a) Property owned or rented by the person applying the pesticide or by his or her employer.

(b) Property of another person if applied without compensation, other than trading of personal services

between producers of agricultural commodities.

(10) "Protect health and environment" means protection against any unreasonable adverse effects on the environment.

(11) "Public building" means a building that is owned or operated by a federal, state, or local government, including public universities.

History: 1994, Act 451, Eff. Mar. 30, 1995;—Am. 2002, Act 418, Imd. Eff. June 5, 2002.

Popular name: Act 451

Popular name: NREPA

324.8306 Definitions; R to W.

Sec. 8306. (1) "Registered applicator" means an individual who is authorized to apply general use pesticides for a private or commercial purpose as provided in this part and in the rules promulgated under this part.

(2) "Ready-to-use pesticide" means a pesticide that is applied directly from its original container consistent with label directions, such as an aerosol insecticide or rodenticide bait pack that does not require mixing or loading prior to application.

(3) "Registrant" means a person who is required to register a pesticide pursuant to this part.

(4) "Restricted use pesticide" means a pesticide classified for restricted use by the EPA or the director.

(5) "Restricted use pesticide dealer" means a person engaged in distributing, selling, or offering for sale restricted use pesticides to the ultimate user.

(6) "Rodenticide" means a pesticide intended for preventing, destroying, repelling, or mitigating rodents.

(7) "School" means public and private schools, grades kindergarten through the twelfth grade, but does not include a home school.

(8) "Supervise" means directing the application of a pesticide with or without being physically present during the application.

(9) "Unreasonable adverse effect on the environment" means any unreasonable risk to human beings or the environment, taking into account the economic, social, and environmental costs and benefits of the use of a pesticide.

(10) "Use of a pesticide" means the loading, mixing, applying, storing, transporting, and disposing of a pesticide.

(11) "Vendor" means a person who sells or distributes pesticides.

(12) "Violates this part" or "violation of this part" means a violation of this part, a rule promulgated under this part, or an order issued under this part.

(13) "Weed" means a plant which grows where it is not wanted.

History: 1994, Act 451, Eff. Mar. 30, 1995;—Am. 2002, Act 418, Imd. Eff. June 5, 2002;—Am. 2004, Act 24, Imd. Eff. Mar. 10, 2004.

324.8307 Repealed. 2002, Act 418, Imd. Eff. June 5, 2002.

Compiler's note: The repealed section pertained to procedures for registration of pesticides.

Popular name: Act 451

Popular name: NREPA

324.8307a Pesticide; distribution, sale, exposure, or offer for sale; registration required.

Sec. 8307a. (1) Every pesticide distributed, sold, exposed, or offered for sale in this state shall be registered with the director pursuant to this part. The registration shall be submitted on a form provided by the director and shall be renewed annually before July 1. The director shall not register a pesticide under this part unless the registrant has paid all water quality protection fees and late fees required under part 87, registration fees under this part, and any administrative fines imposed under this part.

(2) A pesticide is considered distributed, sold, exposed, or offered for sale in this state when the offer to sell either originates within this state or is directed by the offeror to persons in this state and received by those persons.

(3) If a registrant distributes identical pesticides under more than 1 brand name, or distributes more than 1 pesticide formulation, each brand or formulation shall be registered as a separate product.

(4) A registrant shall not register a pesticide that contains a substance that is required to be registered with the department unless that substance is also registered with the department.

(5) A pesticide registration applicant shall submit to the director a complete copy of the pesticide labeling

and the following, in a format prescribed by the director:

(a) The name and address of the applicant and the name and address of the person whose name will appear on the label, if other than the applicant.

(b) The full product name of the pesticide and the EPA registration number.

(c) Other information considered necessary by the director.

(6) The applicant shall submit a complete formula of the pesticide proposed for registration, including the active and inert ingredients, when requested by the director and necessary for the director to execute his or her duties under this part. The director shall not use any information relative to formulas of products, trade secrets, or other information obtained under this part for his or her own advantage or reveal such information, other than to his or her authorized representative, the EPA, the department of environmental quality, the department of health and human services, a court of the state in response to a subpoena, a licensed physician, or in an emergency to a pharmacist or other persons qualified to administer antidotes.

(7) A registrant that operates from a business location outside this state shall do either of the following:

(a) Continuously maintain in this state a registered office and a resident agent, which agent may be an individual resident in this state whose business office or residence is identical with the registered office, a domestic corporation or limited liability company, or a foreign corporation or limited liability company authorized to transact business in this state and having a business office identical with the registered office. The registrant shall file with the department the name, address, and telephone number of the resident agent and shall maintain and make available records required by this part and part 87.

(b) Maintain and make available to the department records required by this part and part 87 and pay all costs incurred by the department in auditing the records if they are held at an out-of-state location.

History: Add. 2002, Act 418, Imd. Eff. June 5, 2002;—Am. 2015, Act 118, Eff. Oct. 1, 2015.

Popular name: Act 451

Popular name: NREPA

324.8307b Maintenance of registration; renewal; discontinuing registration.

Sec. 8307b. (1) A pesticide that has been registered with the department must continue to be registered as long as the pesticide remains in the channels of trade in this state. It is the registrant's responsibility to maintain the pesticide registration.

(2) It is a violation of this part to continue to distribute a pesticide for which a renewal application, including the required fee, has not been received by the director on or before the last day in June. It is the responsibility of the registrant to obtain and submit an application for renewal of a pesticide registration before the expiration date.

(3) A registrant who intends to discontinue a pesticide registration shall do either of the following:

(a) Terminate further distribution within the state and continue to register the pesticide annually for 2 successive years.

(b) Initiate a recall of the pesticide from distribution in the state prior to the expiration of the registration of the pesticide. Pesticides that do not go through a 2-year discontinuance period and that are found in the channels of trade are subject to registration penalties and all related fees since the product's last year of registration.

History: Add. 2002, Act 418, Imd. Eff. June 5, 2002.

Popular name: Act 451

Popular name: NREPA

324.8307c Registration of pesticide; exception.

Sec. 8307c. Registration is not required under this part if a pesticide is shipped from 1 plant or warehouse to another plant or warehouse operated by the same person and used to make a pesticide that is registered under this part, or if the pesticide is distributed pursuant to an EPA experimental use permit.

History: Add. 2002, Act 418, Imd. Eff. June 5, 2002.

Popular name: Act 451

324.8307d Prohibited claims.

Sec. 8307d. (1) No person who uses, distributes, exposes, or offers to sell a pesticide shall make claims that the pesticide can be used on sites that are not included in the pesticide labeling.

(2) No person who uses, distributes, exposes, or offers to sell a pesticide shall make claims that the pesticide has characteristics, ingredients, uses, benefits, or qualities that it does not have or that are not allowed under FIFRA.

History: Add. 2002, Act 418, Imd. Eff. June 5, 2002.

Popular name: Act 451

Popular name: NREPA

324.8307e Registration for special local needs.

Sec. 8307e. To register a pesticide for special local needs pursuant to section 24(c) of FIFRA, 7 U.S.C. 136v, or the regulations promulgated under that section, the director shall require the information required under section 8307a(5). A pesticide may be registered for special local needs if the director determines that all of the following conditions are met:

(a) A special local need exists.

(b) The pesticide's composition warrants the proposed claims for it.

(c) The pesticide's labeling and other submitted material comply with the labeling requirements of FIFRA or regulations promulgated under that act.

(d) It does not cause unreasonable adverse effects on the environment.

(e) The classification for general or restricted use conforms with section 3(d) of FIFRA, 7 U.S.C. 136a.

History: Add. 2002, Act 418, Imd. Eff. June 5, 2002.

Popular name: Act 451

Popular name: NREPA

324.8307f Information requirements.

Sec. 8307f. (1) Upon the director's request, a person who has registered a pesticide shall provide the information necessary to determine its mobility in the environment and its potential to contaminate groundwater. This information may include any of the following:

(a) Water solubility.

(b) Vapor pressure.

(c) Octanol-water partition coefficient.

(d) Soil absorption coefficient.

(e) Henry's law constant.

(f) Dissipation studies including the rate of hydrolysis, photolysis, or aerobic or anaerobic soil metabolism.

(g) Product formulation.

(h) Other information considered necessary by the director.

(2) Information requested under subsection (1) shall be consistent with product registration information required under FIFRA.

(3) As used in this section:

(a) "Aerobic soil metabolism" means chemical degradation in soil in the presence of oxygen.

(b) "Anaerobic soil metabolism" means chemical degradation in soil in the absence of oxygen.

(c) "Henry's law constant" means the ratio of the partial pressure of a compound in air to the concentration of the compound in water at a given temperature.

(d) "Hydrolysis" means a chemical reaction in which water combines with and splits the original chemical creating degradation products.

(e) "Octanol-water partition coefficient" means the ratio of a chemical's concentration in the water-saturated octanol phase to the chemical's concentration in the octanol-saturated water phase.

(f) "Photolysis" means a chemical reaction in which light or radiant energy serves to split the original compound creating degradation products.

(g) "Soil absorption coefficient" means the ratio of absorbed chemical per unit weight of soil or organic carbon to the aqueous solute concentration.

(h) "Vapor pressure" means the pressure exerted by the vapor of a substance when it is under equilibrium conditions.

(i) "Water solubility" means the maximum amount of a material that can be dissolved in water to give a stable solution.

History: Add. 2002, Act 418, Imd. Eff. June 5, 2002.

Popular name: Act 451

Popular name: NREPA

324.8308 Powers of director; audits.

Sec. 8308. (1) The director may do all of the following:

(a) Issue an experimental permit to a person applying for that permit if the director determines that the permit is necessary for the applicant to accumulate information necessary to register a pesticide.

(b) Prescribe terms, conditions, and the period of time the pesticide may be used under the experimental permit, which shall be under the supervision of the director.

(c) Revoke an experimental permit when its terms or conditions are violated or its terms and conditions are inadequate to avoid unreasonable adverse effects on the environment.

(2) The director may conduct audits to determine compliance with this part. In conducting audits under this part, the director may contract for the performance of the audit.

History: 1994, Act 451, Eff. Mar. 30, 1995;—Am. 2015, Act 118, Eff. Oct. 1, 2015.

Popular name: NREPA

324.8308a Access to markets for pesticides; certificate of free sale; application; fees; "certificate of free sale" defined.

Sec. 8308a. (1) To facilitate continued access to markets for pesticides, the department may do 1 or both of the following:

(a) At the request of a registrant or based upon records voluntarily supplied by a registrant, inspect, audit, or certify locations where pesticides are manufactured in this state.

(b) Issue certificates of free sale under subsection (3).

(2) A registrant shall submit an application for a certificate of free sale on a form and in a manner prescribed by the department.

(3) The department shall grant or deny an application for a certificate of free sale within 10 business days after the department receives a completed application under subsection (2) and the application fee under subsection (4). If the department determines that the application meets the requirements of this part and the rules promulgated under this part, the department shall issue a certificate of free sale. If the department determines that the application does not meet the requirements of this part or the rules promulgated under this part, the department shall deny the application and send written notice to the registrant stating the reasons for the denial.

(4) If a certificate of free sale is issued under subsection (3), the registrant shall pay the department the following fees, as applicable:

(a) An application fee, $60.00.

(b) A duplicate copy of a certificate of free sale, $10.00.

(5) A fee collected under subsection (4) must be deposited in the agriculture licensing and inspections fees fund created in section 9 of the insect pest and plant disease act, 1931 PA 189, MCL 286.209.

(6) A certificate of free sale issued under this section is valid for 1 year.

(7) As used in this section, "certificate of free sale" means a document that is issued by the department that verifies that the pesticide listed is registered with the department and is legally sold or distributed in this state and on the open market with the approval of the department.

History: Add. 2022, Act 124, Imd. Eff. June 29, 2022.

Popular name: NREPA

324.8309 Refusing, canceling, or suspending registration; circumstances.

Sec. 8309. The director may refuse to register or may cancel or suspend registration of a pesticide if any of the following circumstances exist:

(a) The pesticide does not meet its EPA registration and labeling claims.

(b) The pesticide labeling and other material required to be submitted does not comply with this part or the rules promulgated under this part.

(c) The pesticide is in violation of this part.

(d) Based on substantial scientific evidence, the director determines that the use of the pesticide is likely to cause an unreasonable adverse effect on the environment, which cannot be controlled by designating the pesticide as a restricted use pesticide, by limiting the uses for which a pesticide may be used or registered, or by other changes to the registration or pesticide label.

History: 1994, Act 451, Eff. Mar. 30, 1995;—Am. 2002, Act 418, Imd. Eff. June 5, 2002.

324.8310 Restricted use pesticide dealer's license; examination; operation of business located outside of state; sales records; summary form of information; sale or distribution

of restricted use pesticide; denial, suspension, or revocation of license; maintenance and submission of certain records; confidentiality of information; report.

Sec. 8310. (1) A person shall not engage in distributing, selling, or offering for sale restricted use pesticides to the ultimate user except as authorized under an annual license for each place of business issued by the department pursuant to part 13.

(2) The applicant for a license under subsection (1) shall be the person in charge of each business location. The applicant shall demonstrate by written examination his or her knowledge of laws and rules governing the use and sale of restricted use pesticides.

(3) A person licensed under subsection (1) that operates from a business location outside this state shall do either of the following:

(a) Continuously maintain in this state a registered office and a resident agent, which agent may be an individual resident in this state whose business office or residence is identical with the registered office, a domestic corporation or limited liability company, or a foreign corporation or limited liability company authorized to transact business in this state and having a business office identical with the registered office. The person licensed under subsection (1) shall file with the department the name, address, and telephone number of the resident agent and shall maintain and make available records required by this part and part 87.

(b) Maintain and make available to the department records required by this part and part 87 and pay all costs incurred by the department in auditing the records if they are held at an out-of-state location.

(4) A restricted use pesticide dealer shall forward to the director a record of all sales of restricted use pesticides on forms provided by the director as required by rule. A restricted use pesticide dealer shall keep copies of the records on file for 2 years. These records are subject to inspection by an authorized agent of the director. The records shall, upon request, be supplied in summary form to other state agencies. The summary shall include the name and address of the restricted use pesticide dealer, the name and address of the purchaser, the name of the pesticide sold, and, in an emergency, the quantity sold. Information may not be made available to the public if, in the discretion of the director, release of that information could have a significant adverse effect on the competitive position of the dealer, distributor, or manufacturer.

(5) A restricted use pesticide dealer shall sell or distribute restricted use pesticides for use only by applicators certified under this part.

(6) The director may deny, suspend, or revoke a restricted use pesticide dealer's license for any violation of this part or an order issued under this part, or upon conviction under this part, FIFRA, or a state pesticide law of a reciprocating state committed by the dealer or the dealer's officer, agent, or employee. The director shall inform an applicant who is denied a restricted use pesticide dealer's license of the reasons why the license was denied.

(7) A restricted use pesticide dealer shall maintain and submit to the department records of all restricted use pesticide sales to private applicators and the intended county of application for those pesticides.

(8) Information collected in subsection (7) is confidential business information and is not subject to the freedom of information act, 1976 PA 442, MCL 15.231 to 15.246.

(9) A restricted use pesticide dealer that distributes an agricultural pesticide into this state shall report to the agricultural pesticide registrant all of the following information concerning that distribution:

(a) The product name.

(b) The EPA registration number.

(c) The amount of pesticide sold or distributed.

(d) The wholesale value of pesticide sold or distributed.

(e) The date of sale or distribution.

(f) The sales or distribution invoice number.

(g) The name and address of the consignee.

324.8310a Agricultural pesticide dealer's license; distribution, sale, or offer for sale; applicant as person in charge; form; information to be provided; out-of-state business location; report; denial, suspension, or revocation of license; exemption from requirements of subsection (1).

Sec. 8310a. (1) A person that is not licensed under section 8310 shall not engage in distributing, selling, or offering for sale agricultural pesticides except as authorized under an annual license for each place of business

issued by the department pursuant to part 13.

(2) The applicant for a license under subsection (1) shall be the individual in charge of each business location.

(3) The application for a license under subsection (1) shall be on a form provided by the director and shall contain information regarding the applicant's proposed operations and other information considered pertinent by the director.

(4) A person licensed under subsection (1) who operates from a business location outside this state shall do either of the following:

(a) Continuously maintain in this state a registered office and a resident agent, which agent may be an individual resident in this state whose business office or residence is identical with the registered office, a domestic corporation or limited liability company, or a foreign corporation or limited liability company authorized to transact business in this state and having a business office identical with the registered office. The person licensed under subsection (1) shall file with the department the name, address, and telephone number of the resident agent and shall maintain and make available records required by this part and part 87.

(b) Maintain and make available to the department records required by this part and part 87 and pay all costs incurred by the department in auditing the records if they are held at an out-of-state location.

(5) An agricultural pesticide dealer who distributes an agricultural pesticide into this state shall report to the agricultural pesticide registrant all of the following information concerning that distribution:

(a) The product name.

(b) The EPA registration number.

(c) The amount of pesticide sold or distributed.

(d) The wholesale value of pesticide sold or distributed.

(e) The date of sale or distribution.

(f) The sales or distribution invoice number.

(g) The name and address of the consignee.

(6) The director may deny, suspend, or revoke an agricultural pesticide dealer's license for any violation of this part or an order issued under this part, or upon conviction under this part, FIFRA, or a state pesticide law of a reciprocating state committed by the dealer or the dealer's officer, agent, or employee. The director shall inform an applicant who is denied an agricultural pesticide dealer's license of the reasons why the license was denied.

(7) A pesticide registrant who distributes agricultural pesticides into this state is exempt from subsection (1).

History: Add. 2008, Act 18, Imd. Eff. Feb. 29, 2008;—Am. 2015, Act 118, Eff. Oct. 1, 2015.

324.8311 Certification and other requirements; identification; records of certified commercial applicator; submission of summary to director; supervision; following recommended and accepted good practices; governmental agencies subject to part and rules.

Sec. 8311. (1) A person shall not use a restricted use pesticide without first complying with the certification requirements of this part.

(2) A person is not required to be a certified applicator to apply a restricted use pesticide for a private agricultural purpose if the person is under the direct supervision of a certified applicator, unless prohibited by the pesticide label.

(3) Certification requirements for commercial applicators shall include completion of written examinations prescribed by the director. Certification requirements for private agricultural applicators shall provide optional methods of certification to include 1 of the following:

(a) Self-study and examination.

(b) Classroom training and examination.

(c) An oral fact-finding interview administered by an authorized representative of the director when a person is unable to demonstrate competence by examination or classroom training.

(4) At the time of sale, private applicators shall identify the intended county of application of a restricted use pesticide.

(5) A certified commercial applicator shall maintain records of restricted use pesticide applications for 3 years from the date of application and make those records available upon request to an authorized representative of the director during normal business hours.

(6) A commercial applicator shall keep for 3 years from the date of application a record of the pesticide

registration number, product name, the formulated amount applied, and application location for all restricted use pesticides used by the commercial applicator. A summary of this information indicating the pesticide registration number, product name, and total formulated amount of pesticide applied to each county during the previous calendar year shall be transmitted to the director before March 1. This summary shall be submitted on forms provided by or approved by the director. Information collected under this subsection is confidential business information and is not subject to the freedom of information act, 1976 PA 442, MCL 15.231 to 15.246.

(7) A certified applicator shall directly supervise the application of a restricted use pesticide if prescribed by the label, this part, or rules promulgated under this part.

(8) A commercial applicator is responsible for pesticide applications made by persons under his or her supervision.

(9) Each person shall follow recommended and accepted good practices in the use of pesticides, including, but not limited to, use of a pesticide in a manner consistent with its labeling.

(10) A federal agency, state agency, municipality, county road commission, or any other governmental agency that uses a pesticide classified for restricted use is subject to this part and the rules promulgated under this part.

History: 1994, Act 451, Eff. Mar. 30, 1995;—Am. 2002, Act 418, Imd. Eff. June 5, 2002.

324.8312 Certified applicator; completion of certification requirements; application for certified applicator certificate; fee; issuance of certificate; restrictions; grounds for refusal to issue or renew certificate; denying, revoking, or suspending certificate; reasons for denial; display of certificate.

Sec. 8312. (1) To become a certified applicator, an applicant must satisfactorily complete the certification requirements prescribed by the director and categorized according to the various types of pesticide applications prescribed by rule and consistent with the regulations of the EPA.

(2) The application for a certified applicator certificate shall contain information considered to be pertinent by the director.

(3) A certified applicator applicant shall pay the appropriate fee as provided in section 8317.

(4) The director shall issue a certificate to applicants that successfully comply with all certification requirements under this part.

(5) The director may restrict an applicant to use only a certain type of equipment or pesticide upon finding that the applicant is only qualified to use that type of equipment or pesticide.

(6) The director may refuse to issue or renew a certificate if an applicant demonstrates an insufficient knowledge of any item called for in the application or has unsatisfied judgments under this part or rules promulgated under this part against him or her or if the equipment to be used by the applicant is unsafe or inadequate to properly apply pesticides.

(7) The director may at any time deny, revoke, or suspend a private agricultural applicator certificate or a commercial applicator certificate for a violation of this part or upon conviction under section 14 of FIFRA, 7 USC 136*l*, or upon conviction under a state pesticide law of a reciprocating state in accordance with section 8320.

(8) The director shall inform an applicant who is denied an applicator certificate of the reasons why the certificate was denied.

(9) A person shall display his or her certificate upon the request of the director.

324.8313 Commercial applicator; license required; qualifications; form and contents of application; fee; proof of financial responsibility; restriction; grounds for refusal to issue or renew license; denying, revoking, or suspending license; reasons for denial; allowable pesticides; limitations; operation of business located outside of state.

Sec. 8313. (1) Commercial applicators that hold themselves out to the public as being in the business of applying pesticides shall obtain a commercial applicator license for each place of business.

(2) A commercial applicator shall be certified under section 8312 and shall have at least 1 of the following to qualify for a license:

(a) Service for not less than 2 application seasons as an employee of a commercial applicator or comparable education and experience as determined by the director.

(b) A baccalaureate degree from a recognized college or university in a discipline that provides education regarding pests and the control of pests and 1 application season of service as an employee of a commercial applicator.

(3) The commercial applicator license application shall be on a form provided by the director and shall contain information regarding the applicant's qualifications and proposed operations, the type of equipment to be used by the applicant, and other information considered pertinent by the director.

(4) An application for a commercial applicator license shall be accompanied by the appropriate fee as provided in section 8317.

(5) An application for a commercial applicator license shall be accompanied by proof of sufficient financial responsibility as prescribed by rule.

(6) The director may restrict an applicant to use only a certain type of equipment or pesticide upon finding that the applicant is qualified to use only that type.

(7) The director may refuse to issue or renew a commercial applicator license if the applicant demonstrates insufficient knowledge of an item in the application, or has unsatisfied judgments under this part or a rule promulgated under this part against him or her, or if the equipment used by the applicant is unsafe or inadequate for pesticide applications.

(8) The director may at any time deny, revoke, or suspend a commercial applicator license for a violation of this part or a violation of an order issued under this part, or upon conviction under this part, FIFRA, or a state pesticide law of a reciprocating state in accordance with section 8320.

(9) The director shall inform an applicant that is denied a commercial applicator license of the reasons why the license was denied.

(10) A person subject to the licensing requirements in this section shall only apply pesticides that are registered with the United States EPA, or subject to either the United States EPA's or this state's laws and rules.

(11) A person subject to the licensing requirements in this section shall not represent that a pesticide application has characteristics, ingredients, uses, benefits, or qualities that it does not have.

(12) A person subject to the licensing requirements in this section shall not represent that a pesticide application is necessary to control a pest if the pest is not present or likely to occur.

(13) A commercial applicator that operates from a business location outside this state shall do either of the following:

(a) Continuously maintain in this state a registered office and a resident agent, which agent may be an individual resident in this state whose business office or residence is identical with the registered office, a domestic corporation or limited liability company, or a foreign corporation or limited liability company authorized to transact business in this state and having a business office identical with the registered office. The commercial applicator shall file with the department the name, address, and telephone number of the resident agent and shall maintain and make available records required by this part and part 87.

(b) Maintain and make available to the department records required by this part and part 87 and pay all costs incurred by the department in auditing the records if they are held at an out-of-state location.

324.8314 Commercial application of pesticide; certified or registered applicator; qualifications; temporary registration; fee; program completion form; authorized applications; exemption; displaying registration certificate; training program; denial, revocation, or suspension of certification or registration; documents and forms.

Sec. 8314. (1) A person shall not apply a pesticide for a commercial purpose or in the course of his or her employment unless that person is either a certified applicator or a registered applicator. A person may apply a general use pesticide for a private agricultural purpose without being a certified applicator or registered applicator.

(2) A person who is not subject to the licensing requirement in section 8313 may apply a general use ready-to-use pesticide without being a certified applicator or a registered applicator.

(3) A commercial certified or registered applicator must be at least 18 years of age.

(4) A person who is not subject to the licensing requirements in section 8313 may apply a general use antimicrobial pesticide without being a certified or registered applicator if there is no potential for movement

of an antimicrobial pesticide to affect surface water or groundwater.

(5) A commercial applicator shall only make pesticide applications in the category for which he or she is certified or registered.

(6) A registered applicator shall do all of the following:

(a) Complete a training program that is approved by the director and conducted by a trainer who has the minimum qualifications established by rule. The training program for applicators who apply pesticides for private agricultural purposes may utilize other methods of training and testing as provided in section 8311(1).

(b) Pass a test that is approved by the director.

(c) Possess a valid registration certificate issued by the director.

(7) A trainer shall issue a temporary registration to an applicant who completes an approved training program and passes a test administered by the director. A temporary registration is valid from the time it is issued until the applicant receives a registration certificate from the director. The department shall provide the applicant with the registration certificate upon payment of the fee provided for in section 8317 and when the approved trainer completes and submits a program completion form.

(8) A registered applicator who applies general use pesticides and is not subject to commercial pesticide applicator licensing requirements is exempt from the provisions requiring supervision by a certified applicator.

(9) A person shall display his or her registration certificate upon the request of the director.

(10) A registered applicator shall complete a training program every 3 years to be eligible to renew his or her registration.

(11) The director may at any time deny, revoke, or suspend a certification or registration for a violation of this part or upon conviction under this part, FIFRA, or a state pesticide law of a reciprocating state in accordance with section 8320.

(12) The director shall develop and provide the documents and forms necessary to implement this section.

324.8315 Aerial application of pesticides; requirements.

Sec. 8315. (1) A private agricultural applicator or a commercial applicator, in addition to complying with the other requirements of this part, shall meet 1 or more of the following requirements before engaging in the aerial application of pesticides:

(a) Attainment of at least 3 years of experience with not fewer than 200 hours of agricultural aerial application under the supervision of a commercial aerial applicator.

(b) Be licensed as a commercial aerial applicator before December 27, 1988.

(c) Successfully complete an aerial applicator training program recognized by the director as sufficient to assure the protection of the public health, safety, and welfare and the environment.

(2) A private agricultural applicator or a commercial applicator authorized under this part to make aerial application of pesticides shall do either of the following once every 3 years:

(a) Demonstrate to the director the applicator's personal participation in a self-regulating application flight efficiency clinic sponsored or recognized by the Michigan cooperative extension service and approved by the department with an aircraft that the applicant operates.

(b) Retake the certification examinations and submit to an inspection of the applicator's aircraft, equipment, and spray operations by an authorized representative of the director.

324.8316 Notice of pesticide application at school or day care center.

Sec. 8316. (1) Beginning 1 year after the effective date of the amendatory act that added this subsection, a person shall not apply a pesticide in a school or day care center unless the school or day care center has an integrated pest management program in place for the building.

(2) The primary administrator of a school or day care center or his or her designee shall annually notify the parents or guardians of children attending that school or cared for at that day care center that the parents or guardians will receive advance notice of the application of a pesticide, other than a bait or gel formulation, at the school or day care center. The primary administrator of a school or his or her designee shall give the annual notification not more than 30 days after the beginning of the school year, and the primary

administrator of a day care center or his or her designee shall give the annual notification in September.

(3) An annual notification under subsection (2) shall satisfy all of the following requirements:

(a) Be in writing.

(b) Specify 2 methods by which advance notice of the application of a pesticide will be given at least 48 hours before the application. The first method shall be by posting at the entrances to the school or day care center. Subject to subdivision (c), the second method shall be 1 of the following:

(*i*) Posting in a public, common area of the school or day care center, other than an entrance.

(*ii*) E-mail.

(*iii*) A telephone call by which direct contact is made with a parent or guardian of a student of the school or a child under the care of the day care center or a message is recorded on an answering machine.

(*iv*) Providing students of the school or children under the care of the day care center with a written notice to be delivered to their parents or guardians.

(*v*) Posting on the school's or day care center's website.

(c) State that, in addition to notice under subdivision (b), parents or guardians are entitled to receive the notice by first-class United States mail postmarked at least 3 days before the application, if they so request, and the manner in which such a request shall be made.

(d) For a school, inform parents and guardians that they may review the school's integrated pest management program, if any, and records on any pesticide applications.

(e) For a school, provide the name, telephone number, and, if applicable, e-mail address of the person at the school building responsible for pesticide application procedures.

(4) An advance notice of application of a pesticide, other than a bait or gel formulation, shall contain all of the following information:

(a) A statement that a pesticide is expected to be applied.

(b) The target pest or pests.

(c) The approximate location of the application.

(d) The date of the application.

(e) The name, telephone number, and, if available, e-mail address of a contact person at the school or day care center responsible for maintaining records with specific information on pest infestation and actual pesticide application as required by rules.

(f) A toll-free telephone number for a national pesticide information center recognized by the department and a telephone number for pesticide information from the department.

(5) Before applying a pesticide, other than a bait or gel formulation, a school or day care center shall provide advance notice to parents and guardians consistent with subsections (3)(b) to (e) and (4). However, in an emergency, a school or day care center may apply a pesticide without providing advance notice to parents or guardians. Promptly after the emergency pesticide application, the school or day care center shall give parents or guardians notice of the emergency pesticide application that otherwise meets the requirements of subsection (3)(b) and (c). The notice shall contain a statement that a pesticide was applied and shall meet the requirements of subsection (4)(b) to (f).

(6) Liquid spray or aerosol insecticide applications shall not be made in a room of a school building or day care center building unless the room will be unoccupied by students or children for not less than 4 hours after the application or unless the product label requires a longer reentry period. The building manager shall be notified of the reentry restrictions by the applicator.

(7) The department shall do both of the following:

(a) Within 1 year after the effective date of the amendatory act that added this subsection, develop a model integrated pest management policy for schools, in consultation with the department of education and the pesticide advisory committee created in section 8326, and make the policy available to all school districts, intermediate school districts, public school academies, and private schools.

(b) Encourage local and intermediate school boards and boards of directors of public school academies to do both of the following:

(*i*) Adopt and follow the model integrated pest management policy developed under subdivision (a).

(*ii*) Require appropriate staff to obtain periodic updates and training on integrated pest management from experts on the subject.

(8) Subsections (1) to (7) do not apply to sanitizers, germicides, disinfectants, or antimicrobial agents.

324.8316b Pesticide notification registry; notification requirements; exclusions; definitions.

Sec. 8316b. (1) The department shall maintain a voluntary registry of individuals who, due to a medically documented condition, are required to be notified before the application of a lawn or ornamental pesticide, other than a general-use ready-to-use pesticide, but only if the application is on property adjacent to or within a physician-recommended distance from the property on which the individual's primary residence is located. The registry shall contain a list of those properties adjacent to or within a physician-recommended distance from the individual's primary residence. The notification to the individual listed in the registry shall be provided by the means provided in the registry and shall state that a pesticide application is scheduled on 1 or more of the properties listed in the registry.

(2) The notification requirements described in subsection (1) and any yard marker requirements provided by rule do not apply if the pesticide is applied only on or within 10 feet of a structure located on the property on which the pesticide application takes place and is applied to prevent, destroy, repel, or mitigate pests on the structure.

(3) As used in subsection (1):

(a) "Adjacent to" means either of the following:

(*i*) Sharing a common boundary line or property corner with.

(*ii*) Located directly across an undivided road, stream, or right-of-way from.

(b) "Physician-recommended distance" means a specified distance, not more than 100 feet from a linear boundary line, considered necessary and substantiated by a physician.

324.8317 Fees; certificate; license; registration; validity; duration; expiration; fees nonrefundable; waiver; deposit.

Sec. 8317. (1) An application submitted under this part shall be accompanied by the following application fee:

(a) For a commercial applicator certification, $75.00.

(b) For a private agricultural applicator certification, $50.00.

(c) For a commercial registered applicator, $45.00.

(d) For a private registered applicator, $50.00.

(2) Certificates for commercial applicators, private agricultural applicators, and registered applicators are valid for a period of not less than 3 years to be established by rule by the director.

(3) The license application fee for a commercial applicator license is $100.00. The license expires annually on December 31.

(4) The registration application fee for the registration of pesticides sold, offered for sale, exposed for sale, or distributed is $100.00 per product. However, if the pesticide registration fee is received by the department after June 30, the registrant shall pay an additional late fee of $100.00 for each pesticide.

(5) The license application fee for a restricted use pesticide dealer's license is $100.00. The license expires annually on December 31.

(6) The license application fee for an agricultural pesticide dealer's license is $100.00. The license expires annually on December 31.

(7) Application fees submitted under this section are not refundable.

(8) Notwithstanding any other provision of subsection (1)(b) and (d), the department shall waive any fee otherwise required under subsection (1)(b) and (d) if the individual responsible for paying the fee is, and provides proof satisfactory to the department that he or she is, an honorably discharged veteran of the armed forces of the United States.

(9) The department shall deposit application, license, registration, and administrative fees and administrative, civil, and noncriminal fines received, as well as any payment for costs or reimbursement to the department for investigation, under this part in the agriculture licensing and inspection fees fund created in section 9 of the insect pest and plant disease act, 1931 PA 189, MCL 286.209, to be used, pursuant to appropriation, by the director in administering and carrying out those duties required by law under this part.

324.8318 Repealed. 2007, Act 78, Imd. Eff. Sept. 30, 2007.

Compiler's note: The repealed section pertained to establishment of pesticide control fund.

324.8319 Exemptions; supervision by allopathic or osteopathic physician or doctor of veterinary medicine.

Sec. 8319. (1) The certification and registration of applicators and licensing requirements do not apply to any of the following:

(a) Employees of a certified private agricultural applicator while acting under the level of supervision required in this part.

(b) Persons applying general use pesticides for a private agricultural purpose.

(c) Commercial applicators applying general use microbiocides indoors where there is no potential for movement of an antimicrobial pesticide to affect surface water or groundwater. However, this subdivision does not exempt from these requirements the application of antimicrobial pesticides by commercial applicators to plants or planting medium indoors.

(d) Persons not subject to licensing requirements in section 8313 that apply general use pesticides to swimming pools.

(e) Indoor applications of general use antimicrobial pesticides by persons on their own premises or employees of those persons when making applications on those premises as a scheduled and required work assignment in the course of their employment, where there is no potential for movement of an antimicrobial pesticide to affect surface water or groundwater.

(f) Allopathic or osteopathic physicians and doctors of veterinary medicine applying pesticides during the course of their normal practice and their employees and people working under their control while acting under the level of supervision required in subsections (2) and (3).

(g) Persons conducting laboratory type research involving restricted use pesticides.

(2) An allopathic or osteopathic physician or a doctor of veterinary medicine shall supervise the application of a general use pesticide by a competent employee under his or her instruction and control during the course of the normal practice of the allopathic or osteopathic physician or the doctor of veterinary medicine even if the allopathic or osteopathic physician or the doctor of veterinary medicine is not physically present. An allopathic or osteopathic physician or a doctor of veterinary medicine shall directly supervise the application of a restricted use pesticide by an employee under his or her instruction or control during the course of the normal practice of the allopathic or osteopathic physician or doctor of veterinary medicine by being physically present at the time and place the restricted use pesticide is being applied.

(3) An allopathic or osteopathic physician or doctor of veterinary medicine is subject to the requirements, prohibitions, and penalties of this part and rules promulgated under this part for an application of pesticides by the allopathic or osteopathic physician or the doctor of veterinary medicine and for an application of pesticides by an employee directly or indirectly supervised by the allopathic or osteopathic physician or the doctor of veterinary medicine during the course of the normal practice of the allopathic or osteopathic physician or the doctor of veterinary medicine.

324.8321 Responsibility for damage resulting from misuse of pesticides; filing claim for damages; inspection of damages; collection of samples; effect of failure to file report.

Sec. 8321. (1) A certificate or license issued by the director does not exonerate the holder from responsibility for damage resulting from misuse of pesticides, such as, but not limited to, overdosing, drifting,

or misapplication.

(2) A person claiming damages from a pesticide application shall file a claim to, and on a reporting form provided by, the director. This report shall be filed within 60 days after the date of the alleged damaging application or first observation of damage by the claimant. If a growing crop is alleged to have been damaged, the report shall be filed before 25% of the crop is harvested. The director shall, within 7 days after receipt of the report, notify the applicator and the owner or lessee of the property or other persons who may be charged with the responsibility of the damages claimed, and furnish them copies of any statements that are requested. The director or his or her representative will inspect damages if the director determines that the complaint has sufficient merit. The director shall make all information pertaining to the complaint available to the person claiming damage and to the person who is alleged to have caused the damage.

(3) The claimant shall permit the director, the applicator, and their representatives, such as a bondsman or insurer, to observe within reasonable hours the property or nontarget organism alleged to have been damaged and to collect samples for further examination in order that damage may be determined.

(4) The filing of a report or the failure to file a report is not required to be alleged in any petition filed in a court of law, and the failure to file the report is not a bar to the maintenance of a criminal or civil action.

History: 1994, Act 451, Eff. Mar. 30, 1995.

Popular name: Act 451

Popular name: NREPA

324.8322 Additional powers of director; preliminary order; program on pesticide container recycling and disposal.

Sec. 8322. (1) The director may do all of the following:

(a) Declare as a pest any form of plant or animal life, except viruses, nematodes, bacteria, or other microorganisms on or in living human beings or other animals, that is injurious to health or the environment.

(b) Determine the toxicity of pesticides to human beings. The director shall use the data in support of registration and classification as a guide in this determination.

(c) Determine pesticides, and quantities of substances contained in pesticides, that are injurious to the environment. The director shall use the EPA regulations as a guide in this determination.

(d) Enter into cooperative agreements with agencies of the federal government or any other agency of this state, or an agency of another state, for the purpose of implementing this part and securing uniformity of rules.

(e) Enter and conduct inspections upon any public or private premises or other place, including vehicles of transport, where pesticides or devices are being used or held for distribution or sale, for the purposes of inspecting records, inspecting and obtaining samples of pesticides or devices, and to inspect equipment or methods of application, to assure compliance with this part and the rules promulgated under this part.

(f) Allow only certified applicators to apply a pesticide that is classified as a restricted use pesticide pursuant to subsection (2).

(g) Conduct investigations when there is reasonable cause to believe that a pesticide has been used in violation of this part or the rules promulgated under this part.

(2) In addition to any other authority provided by this part, the director, by administrative order, may:

(a) Classify a pesticide as a restricted use pesticide in accordance with any 1 of the restrictive criteria in 40 C.F.R. 152.170.

(b) Create certification categories in addition to those promulgated by rule.

(3) Prior to classifying a pesticide as a restricted use pesticide under subsection (2), the director shall issue a preliminary administrative order and provide for a 30-day period for public comment and review pertaining to the preliminary order. Prior to issuing the final administrative order, the director shall review and consider any public comments received during the 30-day period. An administrative order classifying a pesticide as a restricted use pesticide shall cite each of the provisions of subsection (2) that justify that classification.

(4) The department shall develop a program on pesticide container recycling and disposal to be approved by the commission of agriculture. The program shall be limited to licensed pesticide dealers and other persons seeking approval from the department for participation in the program.

History: 1994, Act 451, Eff. Mar. 30, 1995;—Am. 2002, Act 418, Imd. Eff. June 5, 2002.

324.8323 Confirmation of groundwater contamination; duties of director; development of activity plan by person responsible for contamination; approval or rejection by director; continuation of certain activities; order to cease or modify activities; hearing.

Sec. 8323. (1) Upon confirming contamination of groundwater by a pesticide pursuant to part 87 at a single location, the director shall do all of the following:

(a) Assist in the coordination of local activities designed to prevent further contamination of groundwater.

(b) Conduct envelope monitoring.

(c) Perform an evaluation of activities that may have contributed to the contamination.

(d) Make a determination as to the degree to which groundwater stewardship practices were being utilized.

(e) Make a determination as to the potential source or sources of the contamination.

(2) If confirmed concentrations of pesticides exceed the groundwater resource response level or a confirmed contaminant has migrated into groundwater off of the property, the director shall require a person whose action or negligence was potentially responsible for the contamination to develop an activity plan. A person required to develop an activity plan shall develop and submit the activity plan to the director within 90 days after receiving notice from the director. Upon receipt of an activity plan, the director shall approve or reject the plan within 90 days. If rejected, the director shall provide a description of reasons for rejection. Upon receipt of a rejection, the person shall within 90 days develop an acceptable activity plan.

(3) If the activities on a contamination site are determined by the director to be in accordance with all applicable components of the groundwater stewardship practices and groundwater protection rules, activities that are not responsible for or potentially responsible for the contamination incident may continue.

(4) If activities on a contamination site are determined by the director not to be in accordance with this part, the director may issue an order to cease or modify activities on the site involving pesticide use. A person aggrieved by an order issued under this section may request a hearing pursuant to the administrative procedures act of 1969, Act No. 306 of the Public Acts of 1969, being sections 24.201 to 24.328 of the Michigan Compiled Laws.

History: 1994, Act 451, Eff. Mar. 30, 1995.

Popular name: Act 451

Popular name: NREPA

324.8324 Groundwater protection rules.

Sec. 8324. (1) The director shall promulgate a groundwater protection rule that defines the scope and region of implementation of the rule if any of the following occur:

(a) A pesticide has been confirmed in groundwater at levels exceeding its groundwater resource response level in at least 3 distinct locations as a result of similar activities as determined under section 8323(1) and the director determines that voluntary adoption of the groundwater stewardship practices pursuant to part 87 has not been effective in preventing groundwater contaminant concentrations from exceeding the groundwater resource response level.

(b) The EPA proposes to suspend or cancel registration of the pesticide, prohibits or limits the pesticide's sale or use in the state, or otherwise initiates action against the pesticide because of groundwater concerns.

(2) The director may promulgate a groundwater protection rule for a specific pesticide if the pesticide contains an active ingredient with a method detection limit greater than its groundwater resource response level.

(3) In determining the need for and scope of a groundwater protection rule, the director shall consider the type of contaminant or contaminants and the extent to which any of the following apply:

(a) The source or sources of the contaminant or contaminants can be identified.

(b) An identified source or sources are associated with a specific activity or activities.

(c) Local response to the contamination is adequate to protect groundwater.

(d) There are state label restrictions as allowed under sections 18 and 24 of FIFRA, chapter 125, 86 Stat. 995 and 997, 7 U.S.C. 136p and 136v, that could adequately address the problem.

(e) Restricted use classification could adequately address the problem.

(f) The use, value, and vulnerability of the resource and whether the groundwater is a currently or reasonably expected source of drinking water.

(g) The technical and economic feasibility of any mandated practices on persons in the region.

(h) The overall productivity and economic viability of the state's agriculture.

(4) In determining the region of implementation for a groundwater protection rule, the director shall consider both of the following:

(a) The reliability and geographical distribution of groundwater sample test data.

(b) The extent to which local aquifer sensitivity conditions can be considered characteristics of a larger region.

(5) The director may approve alternative operations to those defined in a groundwater protection rule if they can be shown to provide the equivalent level of groundwater protection.

History: 1994, Act 451, Eff. Mar. 30, 1995.

Popular name: Act 451

Popular name: NREPA

324.8325 Rules.

Sec. 8325. (1) The director shall promulgate rules for implementing this part, including, but not limited to, rules providing for the following:

(a) The collection, examination, and reporting the results of examination of samples of pesticides or devices.

(b) The safe handling, transportation, storage, display, distribution, and disposal of pesticides and their containers.

(c) The designation of restricted use pesticides and agricultural pesticides for the state or for specified areas within the state. The director may include in the rule the time and conditions of sale, distribution, and use of restricted use pesticides and agricultural pesticides.

(d) The certification and licensing of applicators and the licensing of restricted use pesticide dealers and agricultural pesticide dealers.

(e) The maintenance of records by certified commercial applicators with respect to applications of restricted use pesticides.

(f) Good practice in the use of pesticides.

(g) Notification or posting, or both, designed to inform persons entering certain public or private buildings or other areas where the application of a pesticide, other than a general use ready-to-use pesticide, has occurred.

(h) Use of a pesticide in a manner consistent with its labeling including adequate supervision of noncertified applicators if appropriate.

(i) Prenotification by the building manager upon request for affected persons regarding the application of a pesticide at daycare centers and schools.

(j) Responsibility of a building manager to post signs provided to him or her by a commercial applicator.

(k) Designation of posted school bus stops as sensitive areas.

(*l*) The establishing of a schedule of civil fines for violation of local ordinances as described in section 8328(3).

(2) By December 27, 1989, the director shall submit rules to the joint committee on administrative rules pertaining to all of the following:

(a) The development of a training program for applicators who apply pesticides for private agricultural purposes on the use of appropriate procedures for the application of pesticides; safety procedures for pesticide application; clothing and protective equipment for pesticide application; the detection of common symptoms of pesticide poisoning; the means of obtaining emergency medical treatment; hazards posed by pesticides to workers, the public health, and the environment; specific categories of pesticides; and the requirements of applicable laws, rules, and labeling.

(b) The development of training programs for integrated pest management systems in schools, public buildings, and health care facilities.

(c) The duty of commercial applicators to inform customers of potential risks and benefits associated with the application of pesticides.

(3) By June 27, 1990, the director shall submit rules to the joint committee on administrative rules pertaining to the protection of agriculture employees who hand harvest agricultural commodities regarding all of the following:

(a) The establishment of field reentry periods after the application of agricultural pesticides.

(b) The posting and notification of areas where pesticides have been applied.

(c) The use of protective clothing, safety devices, hand washing, or other methods of protection from pesticide exposure.

(d) Notification of agricultural workers of poison treatment facilities.

(4) If the EPA at any time adopts and publishes agricultural worker protection standards, the federal standards shall supersede rules promulgated under subsection (3).

(5) By December 27, 1989, the director shall submit rules to the joint committee on administrative rules. These rules shall include all of the following:

(a) Minimum standards of competency and experience or expertise for trainers of certified and registered applicators.

(b) The development of a training program for applicators on the use of appropriate procedures for the application of pesticides; safety procedures for pesticide application; clothing and protective equipment for

pesticide application; the detection of common symptoms of pesticide poisoning; the means of obtaining emergency medical treatment; hazards posed by pesticides to workers, the public health, and the environment; specific categories of pesticides; and the requirements of applicable laws, rules, and labeling.

(c) The number of directly supervised application hours required before a registered applicator may apply each category of restricted use pesticide without direct supervision.

History: 1994, Act 451, Eff. Mar. 30, 1995;—Am. 2008, Act 18, Imd. Eff. Feb. 29, 2008.

Popular name: Act 451

Popular name: NREPA

Administrative rules: R 285.636.1 et seq. of the Michigan Administrative Code.

324.8326 Pesticide advisory committee; creation; appointment, qualifications, and terms of members; vacancies; meetings; quorum; duties and responsibilities; meetings open to the public.

Sec. 8326. (1) A pesticide advisory committee is created within the department. The committee shall be composed of the following members:

(a) The director.

(b) The director of the department of natural resources.

(c) A representative of the department of natural resources selected by the director of the department of natural resources who has expertise regarding water quality programs.

(d) The director of public health.

(e) The director of the Michigan cooperative extension service.

(2) The director shall appoint additional members to the committee, 1 each representing the following:

(a) The Michigan pest control association.

(b) Licensed outdoor commercial applicators.

(c) Producers of agricultural commodities.

(d) Licensed aerial applicators.

(e) Nongovernmental organizations for environmental preservation.

(f) Farm employees.

(g) Those in the medical or health science profession experienced in the toxicology of pesticides.

(h) Agricultural chemical industry.

(i) Nongovernmental organizations representing human health interests.

(3) The members of the committee may designate an authorized representative or substitute to represent them on the committee. Of the members first appointed by the director, 3 shall serve for 1 year, 3 for 2 years, and 2 for 3 years. Thereafter, an appointment shall be for 3 years. The director shall remove any member who is absent, either personally or through a designated representative or substitute, for 4 or more consecutive meetings. Vacancies shall be filled for the balance of an unexpired term. The committee shall meet on the call of the director, who shall serve as chairperson. The director shall call a meeting of the committee upon request of 2 or more members. A majority of the members of the committee constitutes a quorum.

(4) The pesticide advisory committee shall consult with and advise the director in the administration of this part and shall have the following responsibilities:

(a) To analyze and summarize information pertaining to pesticide use, including, but not limited to, the number and types of pesticide use violations and the underlying causes and circumstances involving pesticide misuse, and to develop a profile of violators of this part.

(b) To evaluate potential contamination related to the size and disposal of pesticide containers for home, agricultural, industrial, and commercial use and make recommendations to the legislature.

(c) To utilize available information pertaining to the misuse of pesticides to determine whether the training programs offered by the director are effective in curtailing misuses.

(d) To review all training requirements for applicators and persons licensed under this part, including the specific review of the components of each area tested under this part, and to make recommendations to the director regarding training and testing. Notwithstanding the responsibilities of the committee under this subdivision, the specific test questions prepared to implement the requirements of this part shall remain confidential.

(e) To annually publish a report to be submitted to the governor, the legislature, and the director. The report shall include all of the following:

(*i*) A review of the recommendations of the committee.

(*ii*) Recommendations regarding amendatory language for this part.

(*iii*) Recommendations regarding resources necessary to adequately implement this part.

(*iv*) A summary of the annual enforcement actions taken under this part.

(5) All meetings of the committee shall be conducted pursuant to the open meetings act, Act No. 267 of the Public Acts of 1976, being sections 15.261 to 15.275 of the Michigan Compiled Laws.

History: 1994, Act 451, Eff. Mar. 30, 1995.

Popular name: Act 451

324.8327 Order to cease use of, or to refrain from intended use of, pesticide; effect of noncompliance; inspection; rescission of order.

Sec. 8327. (1) When the director has probable cause to believe that an applicator is using or intending to use a pesticide in an unsafe or inadequate manner or in a manner inconsistent with its labeling, the director shall order the applicator to cease the use of or refrain from the intended use of the pesticide. The order may be either oral or written and shall inform the applicator of the reason for the order.

(2) Upon receipt of the order, the applicator shall immediately comply with the director's order. Failure to comply constitutes cause for revocation of the applicator's license or certification or registration and subjects the applicator to the penalty imposed under section 8333.

(3) The director shall rescind the order upon being satisfied that the applicator has complied with the order.

History: 1994, Act 451, Eff. Mar. 30, 1995;—Am. 2002, Act 418, Imd. Eff. June 5, 2002.

324.8328 Local governments; powers.

Sec. 8328. (1) Except as otherwise provided in this section, it is the express legislative intent that this part preempt any local ordinance, regulation, or resolution that purports to duplicate, extend, or revise in any manner the provisions of this part. Except as otherwise provided for in this section, a local unit of government shall not enact, maintain, or enforce an ordinance, regulation, or resolution that contradicts or conflicts in any manner with this part.

(2) If a local unit of government is under contract with the department to act as its agent or the local unit of government has received prior written authorization from the department, then that local unit of government may pass an ordinance that is identical to this part and rules promulgated under this part, except as prohibited in subsection (7). The local unit of government's enforcement response for a violation of the ordinance that involves the use of a pesticide is limited to issuing a cease and desist order as prescribed in section 8327.

(3) A local unit of government may enact an ordinance identical to this part and rules promulgated under this part regarding the posting and notification of the application of a pesticide. Subject to subsection (8), enforcement of such an ordinance may occur without prior authorization from the department and without a contract with the department for the enforcement of this part and rules promulgated under this part. The local unit of government shall immediately notify the department upon enactment of such an ordinance and shall immediately notify the department of any citations for a violation of that ordinance. A person who violates an ordinance enacted under this subsection is responsible for a municipal civil infraction and may be ordered to pay a civil fine of not more than $500.00.

(4) A local unit of government may enact an ordinance prescribing standards different from those contained in this part and rules promulgated under this part and which regulates the distribution, sale, storage, handling, use, application, transportation, or disposal of pesticides under either or both of the following circumstances:

(a) Unreasonable adverse effects on the environment or public health will exist within the local unit of government. The determination that unreasonable adverse effects on the environment or public health will exist shall take into consideration specific populations whose health may be adversely affected within that local unit of government.

(b) The local unit of government has determined that the use of a pesticide within that unit of government has resulted or will result in the violation of other existing state laws or federal laws.

(5) An ordinance enacted pursuant to subsections (2), (3), and (4) shall not conflict with existing state laws or federal laws. An ordinance enacted pursuant to subsection (4) shall not be enforced by a local unit of government until approved by the commission of agriculture. If the commission of agriculture denies an ordinance enacted pursuant to subsection (4), the commission of agriculture shall provide a detailed explanation of the basis of the denial within 60 days.

(6) Upon identification of unreasonable adverse effects on the environment or public health by a local unit of government as evidenced by a resolution submitted to the department, the department shall hold a local

public meeting within 60 days after the submission of the resolution to determine the nature and extent of unreasonable adverse effects on the environment or public health due to the use of pesticides. Within 30 days after the local public meeting, the department shall issue a detailed opinion regarding the existence of unreasonable adverse effects on the environment or public health as identified by the resolution of the local unit of government.

(7) The director may contract with a local unit of government to act as its agent for the purpose of enforcing this part and the rules promulgated pursuant to this part. The department shall have sole authority to assess fees, register and certify pesticide applicators, license commercial applicators and restricted use pesticide dealer firms, register pesticide products, cancel or suspend pesticide registrations, and regulate and enforce all provisions of this part pertaining to the application and use of a pesticide to an agricultural commodity or for the purpose of producing an agricultural commodity.

(8) For any ordinance enacted pursuant to this section, the local unit of government shall provide that persons enforcing the ordinance comply with the training and enforcement requirements as determined by the director. A local unit of government shall reimburse the department for actual costs incurred in training local government personnel.

324.8329 Order to stop prohibited conduct; proceeding in rem for condemnation; disposition of pesticide or device; award of court costs, fees, storage, and other expenses.

Sec. 8329. (1) When the director has reasonable suspicion that a pesticide or device is distributed, stored, transported, offered for sale, or used in violation of this part, the director may issue an order to stop the prohibited conduct. The person shall immediately comply with the order.

(2) A pesticide or device that is transported, or is in original unbroken packages, or is sold or offered for sale in this state, or is imported from a foreign country, in violation of this part, is liable to be proceeded against in any district court in the district where it is found and seized for confiscation by a process in rem for condemnation if:

(a) In the case of a pesticide, any of the following circumstances exist:

(*i*) It is adulterated or misbranded.

(*ii*) It is not registered pursuant to this part.

(*iii*) Its labeling fails to bear the information required by FIFRA or by regulations promulgated under FIFRA.

(*iv*) Its coloring is different than that required under FIFRA.

(*v*) Any claims or directions for its use differ from the representations made with its registration.

(b) In the case of a device, it is misbranded.

(c) In the case of a pesticide or device, when used in accordance with the requirements imposed under this part it causes unreasonable adverse effects on the environment.

(3) If the pesticide or device is condemned, it shall be disposed of by destruction or sale as the court directs. If the pesticide or device is sold, the proceeds less the court costs shall be credited to the general fund. A pesticide or device shall not be sold contrary to this part or the laws of the jurisdiction in which it is sold. Upon payment of the costs of the condemnation proceedings and the execution and delivery of a sufficient bond conditioned that it shall not be sold or disposed of contrary to this part or the laws of the jurisdiction in which it is sold, the court may direct that it be delivered to the owner. The proceedings of condemnation cases shall conform as nearly as possible to proceedings in admiralty, except that either party may demand trial by jury of an issue of fact joined in a case, and the proceedings shall be brought by and in the name of the people of the state.

(4) Court costs, fees, storage, and other proper expenses shall be awarded against the person, intervening as claimant of the pesticide or device upon entry of a decree of condemnation.

324.8330 Containers; labels; colored or discolored pesticides; handling, storage, display, or transportation of pesticides; adding or taking substance from pesticide; filing and inspection of shipping data.

Sec. 8330. (1) Pesticides distributed, transported, sold, or exposed or offered for sale in this state shall be

in the registrant's or manufacturer's unbroken immediate container and shall have attached to it a label conforming to the labeling requirements as prescribed under this part or the rules promulgated under this part. The unbroken container requirement of this subsection does not apply to an applicator who is transporting a pesticide between the place of storage and the area of application.

(2) A pesticide container shall be free from damage that renders the pesticide unsafe.

(3) A pesticide that is required to be colored shall not be distributed, sold, exposed, or offered for sale unless the pesticide is colored as prescribed.

(4) A pesticide shall be handled, stored, displayed, or transported so that it will not endanger human beings and the environment or endanger food, feed, or other products that are stored, displayed, or transported with the pesticide.

(5) A person shall not detach, alter, deface, or destroy any portion of a label or labeling provided for in this part or rules promulgated under this part, or add a substance to or take a substance from a pesticide in a manner that may defeat the purpose of this part or FIFRA.

(6) A pesticide vendor shall keep on file, subject to inspection by an authorized agent of the director for a period of 1 year, all invoices, freight bills, truckers' receipts, waybills, and similar shipping data pertaining to pesticides that would establish date and origin of the shipments.

324.8332 Hearings.

Sec. 8332. A person aggrieved by an order issued pursuant to this part may request a hearing pursuant to the administrative procedures act of 1969, Act No. 306 of the Public Acts of 1969, being sections 24.201 to 24.328 of the Michigan Compiled Laws.

History: 1994, Act 451, Eff. Mar. 30, 1995.

Popular name: Act 451

Popular name: NREPA

324.8333 Violation; administrative fine; warning; action to recover fine; misdemeanors; injunction; action by attorney general; compliance as affirmative defense; gross negligence; applicability of revised judicature act.

Sec. 8333. (1) A person who violates this part is subject to the penalties and remedies provided in this part regardless of whether he or she acted alone or through an employee or agent.

(2) The director, upon finding after notice and an opportunity for a hearing that a person has violated or attempted to violate any provision of this part, may impose an administrative fine of not more than $1,000.00 for each violation of this part.

(3) If the director finds that a violation or attempted violation occurred despite the exercise of due care or did not result in significant harm to human health or the environment, the director may issue a warning instead of imposing an administrative fine.

(4) The director shall advise the attorney general of the failure of a person to pay an administrative fine imposed under this section. The attorney general may bring an action in a court of competent jurisdiction for the failure to pay an administrative fine imposed under this section.

(5) A person who violates this part or attempts to violate this part is guilty of a misdemeanor punishable by imprisonment for not more than 90 days or a fine of not more than $5,000.00, or both, for each offense.

(6) The director may bring an action to enjoin a violation of this part or an attempted violation of this part in a court of competent jurisdiction of the county in which the violation occurs or is about to occur.

(7) The attorney general may file a civil action in which the court may impose on any person who violates this part or attempts to violate this part a civil fine of not more than $5,000.00 for each violation or attempted violation. In addition, the attorney general may bring an action in circuit court to recover the reasonable costs of the investigation from any person who violated this part or attempted to violate this part. Money recovered

under this subsection shall be forwarded to the state treasurer for deposit into the pesticide control fund created in section 8318.

(8) In defense of an action filed under this section, in addition to any other lawful defense, a person may present evidence as an affirmative defense that, at the time of the alleged violation of this part or attempted violation of this part, he or she was in compliance with label directions and with this part and rules promulgated under this part at the time of the alleged violation.

(9) A civil cause of action does not arise for injuries to any person or property if a private agricultural applicator, or a registered applicator who stores, handles, or applies pesticides only for a private agricultural purpose, was not grossly negligent and stored, handled, or applied pesticides in compliance with this part, rules promulgated under this part, and the pesticide labeling.

(10) Applicable provisions of the revised judicature act of 1961, 1961 PA 236, MCL 600.101 to 600.9948, apply to civil actions filed pursuant to this part.

324.8334 Exemptions from penalties.

Sec. 8334. The penalties provided for violations of this part do not apply to any of the following:

(a) A carrier while lawfully engaged in transporting a pesticide within this state, if the carrier, upon request, permits the director to copy all records showing the transactions in and movement of the pesticide or devices.

(b) Public officials of this state and the federal government while engaged in the performance of their official duties in administering the state or federal pesticide laws or regulations.

(c) A person who ships a substance or mixture of substances being tested in which the only purpose is to determine its toxicity or other properties and from the use of which the user does not expect to receive any pest control benefit.

(d) The shipment or movement of an unregistered or canceled pesticide for the specific purposes of disposal or storage.

PART 85
FERTILIZERS

324.8501 Definitions; A to T.

Sec. 8501. As used in this part:

(a) "Adulterated product" means a product that contains any deleterious or harmful substance in sufficient amount to render it injurious to beneficial plant life, animals, humans, aquatic life, soil, or water when applied

in accordance with directions for use on the label, or if adequate warning statements or directions for use that may be necessary to protect plant life, animals, humans, aquatic life, soil, or water are not shown on the label.

(b) "Agricultural use" means that term as defined in section 36101.

(c) "Aquifer" means a geologic formation, group of formations, or part of a formation capable of yielding a significant amount of groundwater to wells or springs.

(d) "Aquifer sensitivity" means a hydrogeologic function representing the inherent abilities of materials surrounding the aquifer to attenuate the movement of nitrogen fertilizers into that aquifer.

(e) "Aquifer sensitivity region" means an area in which aquifer sensitivity estimations are sufficiently uniform to warrant their classification as a unit.

(f) "Biosolids" means a product consisting in whole or in part of sewage sludge that is distributed to the public and that is disinfected by means of composting, pasteurization, wet air oxidation, heat treatment, or other means.

(g) "Brand or product name" means a term, design, or trademark used in connection with 1 or more grades of fertilizer.

(h) "Bulk fertilizer" means fertilizer distributed in a nonpackaged form.

(i) "Custom blend" means a fertilizer blended according to specifications provided to a blender in a soil test nutrient recommendation or blended as specifically requested by the consumer prior to blending.

(j) "Department" means the department of agriculture and rural development.

(k) "Director" means the director of the department or his or her designee.

(*l*) "Distribute" means to import, consign, sell, barter, offer for sale, solicit orders for sale, or otherwise supply fertilizer for sale or use in this state.

(m) "Distributor" means any person who distributes fertilizer for sale or use in this state.

(n) "Fertilizer" means a substance containing 1 or more recognized plant nutrients, which substance is used for its plant nutrient content and which is designed for use, or claimed to have value, in promoting plant growth. Fertilizer does not include unmanipulated animal and vegetable manures, marl, lime, limestone, wood ashes, and other materials exempted by rules promulgated under this part.

(o) "Fertilizer material" means a fertilizer to which 1 or more of the following apply:

(*i*) Contains not more than 1 of the following as primary nutrients:

(A) Total nitrogen (N).

(B) Available phosphate (P_2O_5).

(C) Soluble potash (K_2O).

(*ii*) Has 85% or more of its plant nutrient content present in the form of a single chemical compound.

(*iii*) Is derived from a plant or animal residue or by-product or natural material deposit that has been processed in such a way that its content of plant nutrients has not been materially changed except by purification and concentration.

(p) "Fund" means the fertilizer control fund created under section 8514.

(q) "Grade" means the percentage guarantee of total nitrogen (N), available phosphate (P_2O_5), and soluble potash (K_2O), of a fertilizer. Grade shall be stated in the same order given in this subdivision. Indication of grade does not apply to peat or peat moss or soil conditioners.

(r) "Groundwater" means underground water within the zone of saturation.

(s) "Groundwater stewardship practices" means any of a set of voluntary practices adopted by the commission of agriculture and rural development pursuant to part 87, designed to protect groundwater from contamination by fertilizers.

(t) "Guaranteed analysis" means the minimum percentage of each plant nutrient guaranteed or claimed to be present.

(u) "Impervious surface" means a paved highway, street, sidewalk, parking lot, driveway, or other outdoor structure that prevents infiltration of water into the soil.

(v) "Label" means any written, printed, or graphic matter on or attached to packaged fertilizer or used to identify fertilizer distributed in bulk or held in bulk storage.

(w) "Labeling" means all labels and other written, printed, electronic, or graphic matter upon or accompanying any fertilizer at any time, and includes advertising, sales literature, brochures, posters, and internet, television, and radio announcements used in promoting the sale of that fertilizer.

(x) "Licensee" means the person who receives a license to manufacture or distribute fertilizers under this part.

(y) "Lot" means an identifiable quantity of fertilizer that can be sampled officially according to methods adopted under section 8510, that is contained in a single vehicle, or that is delivered under a single invoice.

(z) "Manipulated manure" means animal or vegetable manure that is ground, pelletized, mechanically dried, packaged, supplemented with plant nutrients or other substances other than phosphorus, or otherwise

treated in a manner to assist with the sale or distribution of the manure as a fertilizer or soil or plant additive.

(aa) "Manufacture" means to process, granulate, compound, produce, mix, blend, or alter the composition of fertilizer or fertilizer materials.

(bb) "Natural fertilizer" means a substance composed only of natural organic, natural inorganic, or both types of fertilizer materials and natural fillers.

(cc) "Sewage sludge" means sewage sludge generated in the treatment of domestic sewage, other than only septage or industrial waste.

(dd) "Turf" means land, including residential, commercial, or industrial property, golf courses, or publicly owned land, that is planted in closely mowed, managed grass, except land used in the operation of a commercial farm.

History: Add. 1995, Act 60, Imd. Eff. May 24, 1995;—Am. 1998, Act 276, Imd. Eff. July 27, 1998;—Am. 2006, Act 503, Eff. Mar. 30, 2007;—Am. 2008, Act 13, Imd. Eff. Feb. 29, 2008;—Am. 2010, Act 299, Imd. Eff. Dec. 16, 2010;—Am. 2013, Act 151, Imd. Eff. Nov. 5, 2013.

Popular name: Act 451

Popular name: NREPA

324.8501a Definitions; M to U.

Sec. 8501a. As used in this part:

(a) "Mixed fertilizer" means a fertilizer containing any combination or mixture of fertilizer materials.

(b) "Nitrogen fertilizer" means a fertilizer that contains nitrogen as a component.

(c) "Official sample" means a sample of fertilizer taken by a representative of the department of agriculture in accordance with acceptable sampling methods under section 8510.

(d) "Order" means a cease and desist order issued under section 8511.

(e) "Package" or "packaged" means any type of product regulated by this part that is distributed in individual labeled containers.

(f) "Percent" and "percentage" mean the percentage by weight.

(g) "Person" means an individual, partnership, association, firm, limited liability company, or corporation.

(h) "Primary nutrients" means total nitrogen, available phosphate, or soluble potash, or any combination of those nutrients.

(i) "Registrant" means the person who registers a product under this part.

(j) "Soil conditioner" means any substance that is used or intended for use to improve the physical characteristics of soil, including, but not limited to, materials such as peat moss and peat products, composted products, synthetic soil conditioners, or other products that are worked into the soil or are applied on the surface to improve the properties of the soil for enhancing plant growth. Soil conditioner does not include guaranteed plant nutrients, agricultural liming materials, pesticides, unmanipulated animal or vegetable manures, hormones, bacterial inoculants, and products used in directly influencing or controlling plant growth. A soil conditioner for which claims are made of nutrient value is considered a fertilizer for the purposes of this part.

(k) "Specialty fertilizer" means any fertilizer distributed primarily for nonfarm use, such as use in connection with home gardens, lawns, shrubbery, flowers, golf courses, parks, and cemeteries, and may include fertilizers used for research or experimental purposes.

(*l*) "Ton" means a net weight of 2,000 pounds avoirdupois.

(m) "Use" means the loading, mixing, applying, storing, transporting, or disposing of a fertilizer.

History: Add. 2006, Act 503, Eff. Mar. 30, 2007.

Compiler's note: Act 451

Popular name: NREPA

324.8502 Label; invoice.

Sec. 8502. (1) A packaged fertilizer distributed in this state, including packaged mixed fertilizer and soil conditioner, shall have placed on or affixed to the package or container a label setting forth in clearly legible and conspicuous form the following:

(a) The net weight of the contents of the package, except that soil conditioners, peat, or peat moss may be designated by volume.

(b) Brand or product name.

(c) Name and address of the licensed manufacturer or distributor.

(d) Grade. However, the grade is not required when no primary nutrients are claimed. This subdivision does not apply to peat or peat moss, material sold as a soil conditioner, or fertilizer for which no primary nutrients are claimed.

(e) Guaranteed analysis. This subdivision does not apply to peat or peat moss or material sold as a soil conditioner.

(2) A fertilizer distributed in this state in bulk, except a custom blend, shall be accompanied by a written or printed invoice or statement to be furnished to the purchaser at the time of delivery containing in clearly legible and conspicuous form the following information:

(a) Name and address of the licensed manufacturer or distributor.

(b) Name and address of purchaser.

(c) Date of sale.

(d) Brand or product name.

(e) Grade. However, the grade is not required when no primary nutrients are claimed.

(f) Guaranteed analysis.

(g) Net weight.

(3) A custom blend shall be accompanied by a written or printed invoice or statement to be furnished to the purchaser at the time of delivery containing in clearly legible and conspicuous form the following information:

(a) Name and address of the licensed manufacturer or distributor.

(b) Name and address of purchaser.

(c) Date of sale.

(d) Either the net weight and guaranteed analysis of the custom blend or the guaranteed analysis and net weight of each material used in the formulation of the custom blend or both.

(4) Fertilizer in bulk storage shall be identified with a label attached to the storage bin or container giving the name and address of the licensed manufacturer or distributor and the name and grade of the product.

History: Add. 1995, Act 60, Imd. Eff. May 24, 1995;—Am. 2006, Act 503, Eff. Mar. 30, 2007.

Popular name: Act 451

Popular name: NREPA

324.8503 Order and form of guaranteed analysis; minimum percentage of plant nutrients; additional plant nutrients; other beneficial compounds or substances.

Sec. 8503. (1) The guaranteed analysis shall show the minimum percentage of plant nutrients claimed in the following order and form:

(a) Total nitrogen (N). ____%

Available phosphate (P2O5). ____%

Soluble potash (K2O). ____%

(b) When applied to mixed fertilizers, grade shall be given in whole numbers only. However, specialty fertilizers with a guarantee of less than 1% of total nitrogen, available phosphate, and soluble potash may use fractional units. Fertilizer materials, bone meal, manures, and similar materials may be guaranteed in fractional units.

(c) When applied to custom blends, grade can either be given in whole numbers or in numbers expressed to the nearest 1/10 of a percent in the form of a decimal in the analysis.

(d) For unacidulated mineral phosphatic material and basic slag, bone, tankage, and other organic phosphatic materials, the total phosphate or degree of fineness, or both, may also be guaranteed.

(2) Additional plant nutrients, other than nitrogen, phosphorus, and potassium, claimed to be present in any form or manner shall be guaranteed on the elemental basis, at levels not less than those established by rules. Other beneficial compounds or substances, determinable by laboratory methods, may be guaranteed if approved by the director.

324.8504 License to manufacture or distribute fertilizer; fee; application; beneficial use by-product intended for beneficial use 3; notice of additional distribution points; exceptions; expiration; operation of business located outside of state.

Sec. 8504. (1) A person shall not manufacture or distribute fertilizer in this state, except specialty fertilizer and soil conditioners, until the appropriate water quality protection fee provided in section 8715 has been submitted, and except as authorized by a license to manufacture or distribute issued by the department pursuant to part 13. An application for a license shall be accompanied by a fee of $100.00 for each of the following:

(a) Each fixed location at which fertilizer is manufactured in this state.

(b) Each mobile unit used to manufacture fertilizer in this state.

(c) Each location out of this state that applies labeling showing an out-of-state origin of fertilizer distributed in this state to nonlicensees.

(2) An application for a license to manufacture or distribute fertilizer shall include all of the following:

(a) The name and address of the applicant.

(b) The name and address of each bulk distribution point in this state not licensed for fertilizer manufacture or distribution. The name and address shown on the license shall be shown on all labels, pertinent invoices, and bulk storage for fertilizers distributed by the licensee in this state.

(3) If the fertilizer is a beneficial use by-product intended for beneficial use 3 under part 115, the application shall also include the information identified in section 11551(7).

(4) The licensee shall inform the director in writing of additional distribution points established during the period of the license.

(5) A distributor is not required to obtain a license if the distributor is selling fertilizer of a distributor or a manufacturer licensed under this part.

(6) All licenses to manufacture or distribute fertilizer expire on December 31 of each year.

(7) A person licensed under this section that operates from a business location outside this state shall do either of the following:

(a) Continuously maintain in this state a registered office and a resident agent, which agent may be an individual resident in this state whose business office or residence is identical with the registered office, a domestic corporation or limited liability company, or a foreign corporation or limited liability company authorized to transact business in this state and having a business office identical with the registered office. The person licensed under this section shall file with the department the name, address, and telephone number of the resident agent and shall maintain and make available records required by this part and part 87.

(b) Maintain and make available to the department records required by this part and part 87 and pay all costs incurred in auditing the records if they are held at an out-of-state location.

History: Add. 1995, Act 60, Imd. Eff. May 24, 1995;—Am. 2004, Act 325, Imd. Eff. Sept. 10, 2004;—Am. 2014, Act 178, Eff. Sept. 16, 2014;—Am. 2015, Act 118, Eff. Oct. 1, 2015.

324.8505 Distribution of specialty fertilizer or soil conditioner; registration; application; labels to accompany application; beneficial use by-product intended for beneficial use 3; copy of registration approval; expiration; fees; labeling blended soil conditioners; operation of business located outside of state.

Sec. 8505. (1) A person shall not distribute a specialty fertilizer or soil conditioner unless it is registered with the department. An application for registration listing each brand and product name of each grade of specialty fertilizer or soil conditioner shall be made on a form furnished by the director. An application shall be accompanied with the fees described in subsection (4) for each brand and product name of each grade. Labels for each brand and product name of each grade shall accompany the application.

(2) If the specialty fertilizer or soil conditioner is a beneficial use by-product intended for beneficial use 3 under part 115, the application shall also include the information identified in section 11551(7).

(3) Upon approval of an application by the director, a copy of the registration approval shall be furnished to the applicant. All registrations expire on December 31 of each year.

(4) A person applying for a registration under subsection (1) shall pay the following annual fees for each brand and product name of each grade:

(a) Registration fee of $25.00.

(b) Appropriate water quality protection fee provided for in section 8715.

(5) A distributor is not required to register a brand of fertilizer that is registered under this part by another person, if the label does not differ in any respect.

(6) A manufacturer or distributor of custom blend specialty fertilizers for home lawns, golf courses, recreational areas, or other nonfarm areas is not required to register each grade distributed but shall license their firm on an application furnished by the director for an annual fee of $100.00 and shall label the fertilizer as provided in section 8502. The label of each fertilizer distributed under this subsection shall be maintained by the manufacturer or distributor for 1 year for inspection by the director.

(7) A manufacturer or distributor of soil conditioners blended according to specifications provided to a blender or blended as specifically requested by the consumer prior to blending shall either register each brand

or blend distributed or license its firm on an application furnished by the director for an annual fee of $100.00 and shall label the soil conditioner as provided in section 8502. The label of each soil conditioner distributed under this subsection shall be maintained by the manufacturer or distributor for 1 year for inspection by the director.

(8) A registrant that operates from a business location outside this state shall do either of the following:

(a) Continuously maintain in this state a registered office and a resident agent, which agent may be an individual resident in this state whose business office or residence is identical with the registered office, a domestic corporation or limited liability company, or a foreign corporation or limited liability company authorized to transact business in this state and having a business office identical with the registered office. The registrant shall file with the department the name, address, and telephone number of the resident agent and shall maintain and make available records required by this part and part 87.

(b) Maintain and make available to the department records required by this part and part 87 and pay all costs incurred by the department in auditing the records if they are held at an out-of-state location.

History: Add. 1995, Act 60, Imd. Eff. May 24, 1995;—Am. 2006, Act 503, Eff. Mar. 30, 2007;—Am. 2014, Act 178, Eff. Sept. 16, 2014;—Am. 2015, Act 118, Eff. Oct. 1, 2015.

Popular name: Act 451

Popular name: NREPA

324.8506 Inspection fee; tonnage reports as basis of payment; waiver; penalty; unpaid fees and penalties as basis of judgment; responsibility for reporting tonnage and paying inspection fee; deposit of money collected.

Sec. 8506. (1) An inspection fee of 35 cents per ton shall be paid to the department for all fertilizers or soil conditioners sold or distributed in this state. For peat or peat moss, the inspection fee shall be 2 cents per cubic yard. This fee does not apply to registered specialty fertilizers or soil conditioners sold or distributed only in packages of 10 pounds or less.

(2) Payment of the inspection fee shall be made on the basis of tonnage reports setting forth the number of tons of each grade of fertilizer and soil conditioner and the number of cubic yards of peat or peat moss sold or distributed in this state. The reports shall cover the periods of the year and be made in a manner specified by the director in rules, and shall be filed with the department not later than 30 days after the close of each period. The time may be extended for cause for an additional 15 days only on written request to, and approval by, the department. Remittance to cover the inspection fee shall accompany each tonnage report. Payments due of less than $5.00 are waived, and refunds of less than $5.00 will not be processed, unless requested in writing. For any report not filed with the department by the due date, a penalty of $50.00 or 10% of the amount due, whichever is greater, shall be assessed. Unpaid fees and penalties constitute a debt and become the basis of a judgment against the licensee. Records upon which the statement of tonnage is based, including those described in this section and section 8715, are subject to department audit.

(3) When more than 1 person is involved in the distribution of fertilizer or soil conditioners, the last person who is licensed or has the fertilizer or soil conditioner registered and who distributes to a nonlicensee or nonregistrant is responsible for reporting the tonnage and paying the inspection fee.

(4) Money collected by the department under this section shall be forwarded to the state treasurer for deposit into the fund.

History: Add. 1995, Act 60, Imd. Eff. May 24, 1995;—Am. 2006, Act 503, Eff. Mar. 30, 2007;—Am. 2015, Act 118, Eff. Oct. 1, 2015.

324.8507 Records; disclosure of information.

Sec. 8507. (1) Each licensee and registrant shall maintain for a period of 3 years a record of quantities and grades of fertilizer and soil conditioner sold or distributed by the licensee or registrant and shall make the records available for inspection and audit during normal business hours on request of the department. Each distributor shall maintain for a period of 3 years shipping data such as invoices and freight bills pertaining to

fertilizer and soil conditioner that establish date and origin of the shipment, and shall make the records available for inspection and audit on request of the department.

(2) Tonnage payments, tonnage reports, or other information furnished or obtained under this part shall not be disclosed in a way that will divulge the business operations of any 1 person.

History: Add. 1995, Act 60, Imd. Eff. May 24, 1995;—Am. 2006, Act 503, Eff. Mar. 30, 2007.

324.8507a Access to markets for fertilizer; certificate of free sale; application; fees; "certificate of free sale" defined.

Sec. 8507a. (1) To facilitate continued access to markets for fertilizer, the department may do 1 or both of the following:

(a) At the request of a licensee or based upon records voluntarily supplied by a licensee, inspect, audit, or certify locations where fertilizer is manufactured in this state.

(b) Issue certificates of free sale under subsection (3).

(2) A licensee shall submit an application for a certificate of free sale on a form and in a manner prescribed by the department.

(3) The department shall grant or deny an application for a certificate of free sale within 10 business days after the department receives a completed application under subsection (2) and the application fee under subsection (4). If the department determines that the application meets the requirements of this part and the rules promulgated under this part, the department shall issue a certificate of free sale. If the department determines that the application does not meet the requirements of this part or the rules promulgated under this part, the department shall deny the application and send written notice to the licensee stating the reasons for the denial.

(4) A licensee shall pay the department the following fees, as applicable:

(a) An application fee, $60.00.

(b) A duplicate copy of a certificate of free sale, $10.00.

(5) A fee collected under subsection (4) must be deposited in the fertilizer control fund created in section 8514.

(6) A certificate of free sale issued under this section is valid for 1 year.

(7) As used in this section, "certificate of free sale" means a document that is issued by the department that verifies that the fertilizer listed is manufactured in this state and is legally sold or distributed in this state and on the open market with the approval of the department.

324.8508 Construction and application of part.

Sec. 8508. (1) This part does not require the payment of inspection fees for sales or exchanges of fertilizers or soil conditioners between manufacturers who mix fertilizer or soil conditioner materials for sale, or prevent the free and unrestricted shipment of fertilizers or soil conditioners for further processing to manufacturers licensed under this part.

(2) This part does not apply to a carrier in respect to a fertilizer or soil conditioner delivered or consigned to it by others for transportation in the ordinary course of its business as a carrier.

History: Add. 1995, Act 60, Imd. Eff. May 24, 1995.

Popular name: Act 451

Popular name: NREPA

324.8509 Prohibitions.

Sec. 8509. A person shall not do any of the following:

(a) Sell or distribute fertilizer or soil conditioner in violation of the requirements of this part or the rules promulgated under this part.

(b) Make a guarantee, claim, or representation in connection with the sale of fertilizer or soil conditioner, or in its labeling, which is false, deceptive, or misleading.

(c) Manufacture or distribute a fertilizer or soil conditioner without a license as required by this part or distribute a specialty fertilizer or soil conditioner unless registered as required by this part.

(d) Make a false or misleading statement in an application for a license or in an inspection fee or statistical

report or in any other statement or report filed with the department pursuant to this part.

(e) Attach or cause to be attached an analysis stating that a fertilizer contains a higher percentage of a plant nutrient than it in fact contains.

(f) Distribute an adulterated product.

History: Add. 1995, Act 60, Imd. Eff. May 24, 1995;—Am. 2006, Act 503, Eff. Mar. 30, 2007.

Popular name: Act 451

Popular name: NREPA

324.8510 Inspecting, sampling, and analyzing fertilizer and soil conditioners; methods; rules; access to premises; stopping conveyances; submission of information to department; confidentiality.

Sec. 8510. (1) The director shall inspect, sample, and analyze fertilizers and soil conditioners distributed within this state at a time and place and to the extent necessary to determine compliance with this part.

(2) The methods of sampling and analysis under subsection (1) shall be those as established by the association of American plant food control officials or the association of analytical communities, international, as those standards exist on the effective date of the amendatory act that added this subsection, and are incorporated by reference. The department may promulgate rules to update these standards. In cases not covered by such methods, or in cases where methods are available in which improved applicability has been demonstrated, the director may adopt, by rule, such other methods as are considered appropriate.

(3) Department representatives and inspectors shall have free access during regular business hours and extended operating hours to all premises where fertilizers or soil conditioners are manufactured, sold, or stored, and to all trucks or other vehicles and vessels used in the transportation of a fertilizer or soil conditioner in this state, to determine compliance with this part. Department representatives and inspectors may stop any conveyance transporting fertilizer or soil conditioner for the purpose of inspecting and sampling the products and examining their labeling.

(4) A manufacturer or distributor of fertilizer or soil conditioner shall submit to the department, upon request, product samples, copies of labeling, or any other data or information that the department may request concerning composition and claims and representations made for fertilizers and soil conditioners manufactured or distributed by the manufacturer or distributor within this state.

(5) The director may, upon reasonable notice, require a person to furnish any information relating to the identification, nature, and quantity of fertilizers that are or have been used on a particular site and to current or past practices that may have affected groundwater quality. Information required under this subsection is confidential business information and is not subject to the freedom of information act, 1976 PA 442, MCL 15.231 to 15.246.

History: Add. 1995, Act 60, Imd. Eff. May 24, 1995;—Am. 2006, Act 503, Eff. Mar. 30, 2007.

Popular name: NREPA

324.8511 Selection of sample from package or bulk lot for comparison with label; order to cease and desist; seizing, or stopping sale of, fertilizer or soil conditioner; conditions; filing action with court.

Sec. 8511. (1) The director, by a duly authorized agent, may select from any package or bulk lot of commercial fertilizer or soil conditioner exposed for sale in this state a sample to be used for the purposes of an official analysis for comparison with the label affixed to the package or bulk lot on sale. The director may at any time order a person to cease and desist from manufacturing, storing, distributing, selling, or registering a product regulated by this part, or may seize or stop the sale of a fertilizer or soil conditioner that is misbranded or adulterated, fails to meet a label claim or guarantee, is being manufactured or distributed by an unlicensed person, or otherwise fails to comply with this part.

(2) An order shall be written and shall inform the manufacturer, storage operator, distributor, seller, or registrant of the grounds for issuance of the order. The person receiving the order shall immediately comply with the order. Failure to comply shall subject the person to the penalty imposed under this part.

(3) The director shall rescind the order immediately upon being satisfied by inspection of compliance with the order. The inspection shall be conducted as soon as possible at the verbal or written request of the responsible party. The rescinding order of the director may be verbal and the person may rely on the verbal rescinding order. However, a verbal order shall be followed by a written rescinding order.

(4) The director may issue and enforce a written order prohibiting the sale, use, or removal of a product regulated by this part to the owner or custodian of any product or product lot and requiring the product to be

held by the owner or custodian at a designated place when the director finds that the product is being distributed in violation of this part. The order remains in effect until the director determines that the person is complying with the law or until the violation has been otherwise legally disposed of by written authority. The director shall release the product for sale, use, or removal upon compliance with this part and payment of all costs and expenses incurred in connection with the issuance and enforcement of the order.

(5) Any product or product lot not in compliance with this part is subject to seizure upon an action filed by the director in a court of competent jurisdiction in the county in which the product is located. If the court finds the product to be in violation of this part and orders the condemnation of the product, the product shall be disposed of in any manner consistent with the quality of the product and the laws of this state except that the disposition of the product shall not be ordered by the court without first providing the claimant an opportunity to petition the court for release of the product or for permission to process or relabel the product to bring it into compliance with this part.

324.8512 Nitrates in groundwater exceeding certain limits associated with aquifer sensitivity or fertilizer use; educational materials provided to fertilizer users; authority of department director; eligibility of regional stewardship to receive certain grants; authorization to land-apply materials containing fertilizers at agronomic rates.

Sec. 8512. (1) Upon confirming the presence of nitrate in groundwater in concentration exceeding 50% of the maximum contaminant level for nitrates in 20% of drinking water wells associated with an aquifer sensitivity region or fertilizer use activity, the director of the department shall provide educational materials to fertilizer users within that region and may do 1 or more of the following:

(a) Establish a regional stewardship team to assist in the coordination of local activities designed to prevent further contamination of groundwater and to identify all probable sources of nitrate.

(b) Conduct further monitoring to determine the concentration and spatial distribution of nitrates in the aquifer.

(c) Perform an evaluation of activities in the monitoring region to determine the sources of nitrate that may have contributed to the contamination.

(d) Implement a stewardship program in the aquifer sensitivity region pursuant to part 87.

(e) Assist the regional stewardship team in designing a regional plan to prevent further contamination of groundwater by fertilizer use activities, which plan must include an assessment of all probable sources of nitrates.

(f) Establish a program that provides incentives for users to increase nitrogen use efficiency.

(2) Upon approval of a regional plan by the director of the department, the regional stewardship team is eligible to receive grants from the freshwater protection fund established by part 87.

(3) The director of the department may, upon written request, authorize persons to land-apply materials containing fertilizers at agronomic rates. This authorization shall prescribe appropriate operational control activities to protect the application location and shall identify both the location of remediation and the location or locations where such a land application will take place.

324.8512b Fertilizer containing phosphate; application to turf; requirements.

Sec. 8512b. (1) Except as provided in subsection (2), (3), (4), or (5), a person shall not apply to turf a fertilizer labeled as containing the plant nutrient available phosphate (P_2O_5).

(2) If a tissue, soil, or other test performed within the preceding 3 years by a laboratory experienced in conducting tests for phosphorus that adhere to recognized national standards indicates that the level of available phosphate (P_2O_5) in the soil is deficient to support healthy turf grass growth or establishment, a person may apply fertilizer to the turf at an application rate for available phosphate not exceeding that necessary to correct the deficiency.

(3) If new turf is being established using seed or sod, it is the first growing season for the turf grass at the site, and a test described in subsection (2) has not been performed, a person may apply fertilizer to the turf at an application rate for available phosphate (P_2O_5) not exceeding the standard rate for new turf grass establishment, which shall be specified by the director after consultation with the Michigan state university

extension.

(4) A person may apply biosolids, a natural fertilizer, or a manipulated manure to turf at a rate of not more than 0.25 pounds of phosphorus per 1,000 square feet at any 1 time.

(5) In addition, a person may apply fertilizer labeled as containing the plant nutrient available phosphate (P_2O_5) to a golf course if 1 or more of the following apply:

(a) The golf course has been certified by an organization as a result of the golf course's staff having successfully completed a training program approved by the director. The director shall approve a training program if it is a continuing program, adequately addresses best management practices for use of turf fertilizer containing available phosphate, and requires trainees to demonstrate successful implementation of those best management practices.

(b) If a tissue, soil, or other test performed within the preceding 3 years by a laboratory experienced in conducting tests for phosphorus that adhere to recognized national standards indicates that the level of available phosphate in the soil is deficient to support healthy golf course turf grass growth or establishment, the golf course may apply fertilizer at an application rate for available phosphate not exceeding that necessary to correct the deficiency.

(c) If new turf is being established using seed or sod, it is the first growing season for the turf grass at the site, and a test described in subdivision (b) has not been performed, a golf course may apply fertilizer to the turf at an application rate for available phosphate (P_2O_5) not exceeding the rate necessary for new golf course turf grass establishment.

(6) A person shall not apply fertilizer to turf within 15 feet of any surface water, unless 1 or more of the following apply:

(a) A continuous natural vegetative buffer at least 10 feet wide separates the turf from the surface water.

(b) A spreader guard, deflector shield, or drop spreader is used when applying the fertilizer, and the fertilizer is not applied within 3 feet of the surface water.

(7) A person shall not clean a fertilizer spreader that is used to apply fertilizer to turf in a manner that allows wash water from the spreader to discharge directly into waters of this state, including, but not limited to, a drain under the drain code of 1956, 1956 PA 40, MCL 280.1 to 280.630.

(8) The department shall post information concerning the requirements of subsections (1) to (5) on its website and publicize the availability of that information by whatever means the department determines to be appropriate.

History: Add. 2010, Act 299, Imd. Eff. Dec. 16, 2010;—Am. 2013, Act 151, Imd. Eff. Nov. 5, 2013.

324.8512f Release of fertilizer on impervious turf; application of fertilizer on frozen or saturated turf.

Sec. 8512f. (1) A person who releases fertilizer on an impervious surface shall do both of the following:

(a) Promptly contain the fertilizer.

(b) Either legally apply the fertilizer to turf or another appropriate site or return the fertilizer to an appropriate container.

(2) A person shall not apply a fertilizer to turf if the soil is frozen or saturated with water.

History: Add. 2010, Act 299, Imd. Eff. Dec. 16, 2010.

324.8512g Residential uses of phosphorus; consumer information on use restrictions and recommended best practices.

Sec. 8512g. The department, in consultation with the fertilizer industry representatives, fertilizer retailers, statewide environmental organizations, lake groups, and other interested parties, may approve consumer information on use restrictions and recommended best practices for lawn fertilizer containing available phosphate (P_20_5), and on best management practices for other residential uses of phosphorus. The information shall be in a format and include content suitable for use by the general public or posting and distribution at retail points of sale of turf fertilizer.

History: Add. 2010, Act 299, Imd. Eff. Dec. 16, 2010.

324.8512h Fertilizer advisory committee; membership; terms; removal; vacancy; meetings; quorum; duties; meetings subject to open meetings act; "committee" defined.

Sec. 8512h. (1) The fertilizer advisory committee is created within the department. The committee shall be composed of the following members:

(a) The director of the department of agriculture and rural development.

(b) Two members representing the fertilizer industry.

(c) One member representing the specialty fertilizer industry.

(d) Four members representing farmers and other agricultural organizations.

(e) One member from the United States Department of Agriculture Natural Resources Conservation Service.

(f) One member who is a certified crop advisor.

(g) One member representing conservation districts.

(h) The director of Michigan State University AgBioResearch.

(i) One member representing the largest statewide land conservancy in this state.

(2) The members of the committee may designate an authorized representative or substitute to represent them on the committee. Of the members first appointed by the director, 4 shall serve for 1 year, 4 for 2 years, and 4 for 3 years. Thereafter, an appointment shall be for 3 years. The director shall remove any member who is absent, either personally or through a designated representative or substitute, for 4 or more consecutive meetings. Vacancies shall be filled for the balance of an unexpired term. The committee shall meet on the call of the director, who shall serve as chairperson. The director shall call a meeting of the committee upon request of 2 or more members. A majority of the members of the committee constitute a quorum.

(3) The committee shall advise the director on the research funded under section 8514(4)(c).

(4) All meetings of the committee shall be conducted pursuant to the open meetings act, 1976 PA 267, MCL 15.261 to 15.275.

(5) As used in this section, "committee" means the fertilizer advisory committee created in subsection (1).

324.8513 Rules; bulk storage of fertilizers; exemption.

Sec. 8513. (1) The department may promulgate rules regarding the bulk storage of fertilizers.

(2) If storage of a material used as a beneficial use by-product for beneficial use 3 under part 115 meets the storage requirements of that part, then the storage is exempt from regulation no. 641, commercial fertilizer bulk storage, R 285.641.1 to R 285.641.18 of the Michigan administrative code.

Popular name: NREPA

Administrative rules: R 285.641.1 et seq. and R 285.642.1 et seq. of the Michigan Administrative Code.

324.8514 Fertilizer control fund; creation; deposits; money remaining in fund; lapse; expenditures; grants to local government agencies, institutions of higher education, or nonprofit organizations; notice to legislature.

Sec. 8514. (1) The fertilizer control fund is created within the state treasury.

(2) The state treasurer shall receive for deposit in the fund all fees, administrative or civil fines, and payments for the costs of investigations incurred by the department collected under this part. In addition, the state treasurer may receive money or other assets from any source for deposit into the fund. The state treasurer shall direct the investment of the fund. The state treasurer shall credit to the fund interest and earnings from fund investments.

(3) Money in the fund at the close of the fiscal year shall remain in the fund and shall not lapse to the general fund.

(4) The department shall expend money from the fund, upon appropriation, only for 1 or more of the following purposes:

(a) The administration and enforcement of this part.

(b) The development of training programs to ensure the proper use and storage of fertilizer.

(c) For research necessary to ensure the adoption and implementation of practices that optimize nutrient use efficiency, ensure soil fertility, and address environmental concerns with regard to fertilizer use. Until December 31, 2019, not less than 40% of the inspection fees collected with section 8506(1) shall be used for purposes of this subdivision.

(5) The department shall not provide grants with money from the fund to local government agencies, institutions of higher education, or nonprofit organizations unless the department provides notice of the grant to the senate and house appropriations subcommittees and the senate and house fiscal agencies at least 10 days before the grant is issued.

324.8515 Revocation or refusal of license or registration; grounds; hearing; exception for refusal to sell ammonium nitrate fertilizer.

Sec. 8515. (1) The director of the department may revoke the license of a manufacturer or distributor or the registration of a fertilizer product or soil conditioner, or may refuse to license a manufacturer or distributor or to register a fertilizer product or soil conditioner, upon satisfactory evidence that the licensee has engaged in fraudulent or deceptive practices or has evaded or attempted to evade this part or the rules promulgated under this part.

(2) A license or registration shall not be revoked or refused until the licensee or applicant has been given the opportunity by the director of the department to appear for a hearing.

(3) The department shall not suspend or revoke the license of a distributor or manufacturer who refuses to sell ammonium nitrate fertilizer to a person who fails to comply with the request for information required under section 8518 or who refuses to sell ammonium nitrate fertilizer to a person who purchases that fertilizer out of season, in unusual amounts, or under a pattern or circumstances considered unusual, as described in section 8518.

History: Add. 1995, Act 60, Imd. Eff. May 24, 1995;—Am. 2005, Act 68, Imd. Eff. July 11, 2005.

Popular name: NREPA

324.8516 Enforcement; rules.

Sec. 8516. The director of the department shall enforce this part and may promulgate rules.

History: Add. 1995, Act 60, Imd. Eff. May 24, 1995.

Popular name: Act 451

Popular name: NREPA

324.8517 Local ordinance, regulation, or resolution; preemption; adoption; enforcement; identification of unreasonable adverse effects; local public meeting; contract by director with local government; compliance with training and enforcement requirements; application of fertilizer containing phosphate.

Sec. 8517. (1) Except as otherwise provided in this section, this part preempts any local ordinance, regulation, or resolution that would duplicate, extend, or revise in any manner the provisions of this part. Except as otherwise provided for in this section, a local unit of government shall not adopt, maintain, or enforce an ordinance, regulation, or resolution that contradicts or conflicts in any manner with this part.

(2) If a local unit of government is under contract with the department to act as its agent or the local unit of government has received prior written authorization from the department, that local unit of government may adopt an ordinance that is identical to this part and rules promulgated under this part, except as prohibited in subsection (6). The local unit of government's enforcement response for a violation of the ordinance that involves the manufacturing, storage, distribution, sale, or agricultural use of products regulated by this part is limited to issuing a cease and desist order in the manner prescribed in section 8511.

(3) A local unit of government may adopt an ordinance prescribing standards different from those contained in this part and rules promulgated under this part and that regulates the manufacturing, storage, distribution, sale, or agricultural use of a product regulated by this part only under either or both of the following circumstances:

(a) Unreasonable adverse effects on the environment or public health will otherwise exist within the local unit of government, taking into consideration specific populations whose health may be adversely affected within that local unit of government.

(b) The local unit of government has determined that the manufacturing, storage, distribution, sale, or agricultural use of a product regulated by this part within that unit of government has resulted or will result in the violation of other existing state or federal laws.

(4) An ordinance adopted under subsection (2) or (3) shall not conflict with existing state laws or federal laws. An ordinance adopted under subsection (3) shall not be enforced by a local unit of government until approved by the commission of agriculture. The commission of agriculture shall provide a detailed explanation of the basis of a denial within 60 days.

(5) Within 60 days after the legislative body of a local unit of government submits to the department a

resolution identifying unreasonable adverse effects on the environment or public health as provided for in subsection (3)(a), the department shall hold a local public meeting to determine the nature and extent of unreasonable adverse effects on the environment or public health due to the manufacturing, storage, distribution, sale, or agricultural use of a product regulated by this part. Within 30 days after the local public meeting, the department shall issue a detailed opinion regarding the existence of unreasonable adverse effects on the environment or public health as identified by the resolution of the local unit of government.

(6) The director may contract with a local unit of government to act as its agent for the purpose of enforcing this part and the rules promulgated under this part. The department has sole authority to assess fees, register fertilizer or soil conditioner products, cancel or suspend registrations, and administer and enforce provisions of section 8512.

(7) A local unit of government that adopts an ordinance under subsection (2) or (3) shall require persons enforcing the ordinance to comply with training and enforcement requirements determined appropriate by the director.

(8) Subsection (1) does not prohibit the maintenance or enforcement of an ordinance that regulates or prohibits the application to turf of fertilizer containing the plant nutrient available phosphate (P_2O_5), but only if the ordinance was in effect on the enactment date of the amendatory act that added this subsection.

324.8518 Ammonium nitrate fertilizer; storage methods; information to be obtained by retailers; records; refusal of retailer to sell.

Sec. 8518. (1) A retailer shall secure at all times ammonium nitrate fertilizer to provide reasonable protection against vandalism, theft, or unauthorized access. Secured storage includes, but is not limited to, the following methods:

(a) Fencing.

(b) Lighting.

(c) Locks.

(2) Retailers shall obtain the following information regarding any sale of ammonium nitrate fertilizer:

(a) Date of sale.

(b) Quantity purchased.

(c) License number of the purchaser's valid state operator's license with the appropriate endorsement, if applicable, or other picture identification card number approved for purchaser identification by the department.

(d) The purchaser's name, current address, and telephone number.

(e) The agency relationship, if any, between the purchaser and the person picking up or accepting delivery of the ammonium nitrate fertilizer.

(3) Records created pursuant to this section shall be maintained by the retailer for a minimum of 2 years on a form or using a format recommended by the department. Records shall be made available for inspection and audit upon request of the director of the department.

(4) Records generated by means of the tracking system established under subsection (2) are exempt from disclosure under the freedom of information act, 1976 PA 442, MCL 15.231 to 15.246.

(5) Any retailer of ammonium nitrate fertilizer may refuse to sell to any person attempting to purchase ammonium nitrate fertilizer out of season, in unusual patterns or circumstances, or in unusual amounts as determined by the retailer.

324.8520 Violations; penalties; remedies; injunctive action; civil action; defenses; liability for

damages; applicability of provisions of revised judicature act.

Sec. 8520. (1) A person who violates or attempts to violate this part or rules promulgated under this part is subject to the penalties and remedies provided in this part regardless of whether he or she acted directly or through an employee or agent.

(2) The director, upon finding after notice and an opportunity for an administrative hearing that a person has violated or attempted to violate any provision of this part or a rule promulgated under this part, may impose an administrative fine of not more than $1,000.00 for each violation or attempted violation. A person shall not be fined under both this subsection and subsection (7) for the same violation or attempted violation. A person shall not be fined under this subsection for a violation described in subsection (7)(b).

(3) If the director finds that a violation or attempted violation has occurred despite the exercise of due care or did not result in significant harm to human health or the environment, the director may issue a warning instead of imposing an administrative fine.

(4) The director shall advise the attorney general of the failure of any person to pay an administrative fine imposed under this section. The attorney general shall bring an action in a court of competent jurisdiction to recover the fine.

(5) A person who violates this part or a rule promulgated under this part, or attempts to violate this part or a rule promulgated under this part, is guilty of a misdemeanor punishable by imprisonment for not more than 90 days or a fine of not more than $5,000.00 for each violation or attempted violation, in addition to any administrative fines imposed. This subsection does not apply to a violation or attempted violation of section 8512b or 8512f.

(6) A person who knowingly and with malicious intent violates or attempts to violate this part or a rule promulgated under this part is guilty of a misdemeanor punishable by imprisonment for not more than 90 days or a fine of not more than $25,000.00 for each offense. This subsection does not apply to a violation or attempted violation of section 8512b or 8512f.

(7) A person who violates or attempts to violate section 8512b or 8512f is responsible for a state civil infraction and may be ordered to pay a civil fine of not more than the following for each violation or attempted violation:

(a) Except as provided in subdivision (b), not more than $1,000.00.

(b) Not more than $50.00 if all of the following apply:

(*i*) The violation or attempted violation occurs on a single-family residential parcel, or any other parcel or contiguous parcels with a total of not more than 4 acres of turf.

(*ii*) The violation or attempted violation is committed by the property owner or lessee, a member of his or her family, or a person who resides on the property.

(8) The director may bring an action to enjoin the violation or threatened violation of this part or a rule promulgated under this part in a court of competent jurisdiction of the county in which the violation occurs or is about to occur.

(9) The attorney general may file a civil action in which the court may impose on any person who violates or attempts to violate this part or a rule promulgated under this part, other than section 8512b or 8512f, a civil fine of not more than $5,000.00 for each violation or attempted violation. In addition, the attorney general may bring an action in circuit court to recover the reasonable costs of the investigation from any person who violated this part or attempted to violate this part. Money recovered under this subsection shall be forwarded to the state treasurer for deposit into the fund.

(10) In defense of an action filed under this section for a violation or attempted violation of this part, in addition to any other lawful defense, a person may present evidence as an affirmative defense that, at the time of the alleged violation or attempted violation, he or she was in compliance with this part and rules promulgated under this part.

(11) A person who violates this part is liable for all damages sustained by a purchaser of a product sold in violation of this part. In an enforcement action, a court, in addition to other sanctions provided by law, may order restitution to a party injured by the purchase of a product sold in violation of this part.

(12) A civil action filed pursuant to this part is subject to applicable provisions of the revised judicature act of 1961, 1961 PA 236, MCL 600.101 to 600.9947.

History: Add. 2006, Act 503, Eff. Mar. 30, 2007;—Am. 2010, Act 299, Imd. Eff. Dec. 16, 2010.

324.8521 Penalties and sanctions; exceptions.

Sec. 8521. The penalties and sanctions provided for violations of this part do not apply to any of the

following:

(a) A commercial carrier while lawfully engaged in transporting a commercial fertilizer within this state, if the carrier, upon request, permits the director to copy all records showing the transactions in and movement of the commercial fertilizer.

(b) The shipment or movement of any commercial fertilizer considered to be in violation of this part, for the specific purposes of disposal or storage when conducted under the approval of the director.

(c) Public officials of this state and the federal government while engaged in the performance of their official duties in administering this part or rules promulgated under this part.

PART 87
GROUNDWATER AND FRESHWATER PROTECTION

324.8701 Meanings of words and phrases.

Sec. 8701. For purposes of this part, the words and phrases defined in sections 8702 to 8705 have the meanings ascribed to them in those sections.

History: 1994, Act 451, Eff. Mar. 30, 1995.

Popular name: Act 451

Popular name: NREPA

324.8702 Definitions; A to D.

Sec. 8702. (1) "Activity plan" means a plan for a specific location that identifies all environmental risks and includes a time frame for implementation of conservation practices to address the environmental risks.

(2) "Agronomic rate" means either of the following:

(a) For pesticides, the application of pesticide contaminated materials in such a manner as not to exceed legal labeled rates.

(b) For fertilizers, the application of fertilizer contaminated materials at rates not to exceed those recommended by the Michigan State University Extension, taking all available sources of nutrients into account.

(3) "Analyte" or "analytes" means the material or materials that an analysis is designed to detect either qualitatively or quantitatively.

(4) "Conservation plan" means that term as it is defined in part 82.

(5) "Conservation practices" means that term as it is defined in part 82.

(6) "Confirmation mechanism" means a scientific process for the verification of detection of analytes in groundwater utilizing at least 2 separate water samples collected at time intervals of greater than 14 days from the same groundwater sampling point and analyzed by peer reviewed and authenticated laboratory methodologies.

(7) "Contaminant" means any pesticide or fertilizer originated chemical, radionuclide, ion, synthetic organic compound, microorganism, or other waste that does not occur naturally or that naturally occurs at a lower concentration than detected.

(8) "Contamination" means the direct or indirect introduction into the environment of any contaminant caused in whole or in part by human activity.

(9) "Council" means the environmental assurance advisory council created in section 8708.

(10) "Demonstration project" means a project designed to illustrate the implementation and impact of alternate conservation practices.

(11) "Department" means the department of agriculture and rural development.

(12) "Director" means the director of the department or his or her designee.

History: 1994, Act 451, Eff. Mar. 30, 1995;—Am. 2011, Act 2, Imd. Eff. Mar. 9, 2011;—Am. 2015, Act 118, Eff. Oct. 1, 2015.

Popular name: Act 451

Popular name: NREPA

324.8703 Definitions; E to M.

Sec. 8703. (1) "Envelope monitoring" means monitoring of groundwater in areas adjacent to properties where groundwater is contaminated to determine the concentration and spatial distribution of the contaminant in the aquifer.

(2) "Farm" means that term as it is defined in section 2 of the Michigan right to farm act, 1981 PA 93, MCL 286.472.

(3) "Farmer" means a person who owns or operates a farm.

(4) "Fertilizer" means a fertilizer as defined in part 85.

(5) "Fund" means the freshwater protection fund created in section 8716.

(6) "General screening" means monitoring of groundwater for the purpose of determining the presence and concentration of analytes.

(7) "Groundwater" means underground water within the zone of saturation.

(8) "MAEAP" or "Michigan agriculture environmental assurance program" means the Michigan agriculture environmental assurance program provided for in section 8710.

(9) "MAEAP standards" means all of the following as adopted by the commission of agriculture and rural development for the purpose of implementing the Michigan agriculture environmental assurance program:

(a) Conservation practices.

(b) Site-specific nutrient management plan requirements.

(c) Emergency protocols.

(d) Completed environmental risk and benefit assessments.

(e) United States Department of Agriculture Natural Resources Conservation Service practice standards.

(f) Generally accepted agricultural and management practices developed under the right to farm act, 1981 PA 93, MCL 286.471 to 286.474.

(g) Other standards considered appropriate by the director.

(10) "MAEAP-verified farm" means a farm determined by the department as meeting applicable MAEAP standards through an on-site evaluation.

(11) "Maximum contaminant level" means that term as it is defined in title XIV of the public health service act, chapter 373, 88 Stat. 1660, and regulations promulgated under that act.

(12) "Method detection limit" means the minimum concentration of a substance that can be measured and reported with 99% confidence that the analyte concentration is greater than 0 and is determined from analysis of a sample in a given matrix that contains the analyte.

(13) "Monitoring" means sampling and analysis to determine the levels of pesticides or their breakdown products; fertilizers or their residues; or other analytes as determined by the director.

History: 1994, Act 451, Eff. Mar. 30, 1995;—Am. 1995, Act 61, Imd. Eff. May 24, 1995;—Am. 2011, Act 2, Imd. Eff. Mar. 9, 2011;—Am. 2013, Act 46, Imd. Eff. June 6, 2013;—Am. 2015, Act 118, Eff. Oct. 1, 2015.

Popular name: Act 451

Popular name: NREPA

324.8704 Definitions; O, P.

Sec. 8704. (1) "On-site evaluation" means a specific set of criteria used to voluntarily evaluate a farmer's property with regard to determination of potential environmental risks.

(2) "Pesticide" means that term as it is defined in part 83.

History: 1994, Act 451, Eff. Mar. 30, 1995;—Am. 2011, Act 2, Imd. Eff. Mar. 9, 2011;—Am. 2015, Act 118, Eff. Oct. 1, 2015.

Popular name: Act 451

Popular name: NREPA

324.8705 Definitions; R to W.

Sec. 8705. (1) "Registrant" means that term as defined in part 83.

(2) "Restricted use pesticide" means that term as defined in part 83.

(3) "Site-specific nutrient management plan" means a plan designed to assist farmers in achieving MAEAP standards that includes both of the following:

(a) Conservation practices and nutrient management activities that, when implemented as part of a conservation system, will help to ensure that both production and natural resources protection goals are achieved.

(b) Proposed actions to address soil erosion, manure, and organic by-products and their potential impact on

water quality.

(4) "State management plan" means a plan for the protection of groundwater as required by the United States Environmental Protection Agency's labeling requirements for pesticides and devices under 40 CFR part 156.

(5) "Technical assistance" means direct on-site assistance provided to individuals that is designed to achieve MAEAP standards.

(6) "Use" means the loading, mixing, applying, storing, transporting, or disposing of a pesticide or fertilizer.

(7) "Verification" means the on-site evaluation performed by the department in accordance with protocols adopted by the commission of agriculture and rural development to determine if MAEAP standards have been met.

(8) "Water monitoring" means monitoring of water in areas adjacent to properties to determine the concentration and spatial distribution of contaminants.

History: 1994, Act 451, Eff. Mar. 30, 1995;—Am. 2011, Act 2, Imd. Eff. Mar. 9, 2011;—Am. 2021, Act 123, Imd. Eff. Dec. 17, 2021.

Popular name: NREPA

324.8707 Conservation practices; on-site evaluations; review and evaluation.

Sec. 8707. (1) The director, in conjunction with Michigan State University Extension and Michigan State University AgBioResearch, and in cooperation with the United States Department of Agriculture Natural Resources Conservation Service, the department of environmental quality, and other professional and industry organizations, shall develop conservation practices for approval by the commission of agriculture and rural development and upon approval shall promote their implementation.

(2) The director, in conjunction with Michigan State University, the department of environmental quality, and other persons the director considers appropriate, shall develop protocols for voluntary on-site evaluations. The on-site evaluations shall be designed to do all of the following:

(a) Provide farmers with the ability to voluntarily determine the relative risk of current practices in relation to sources of contamination.

(b) Provide farmers with the ability to determine the degree to which farm operations are in accord with MAEAP standards and applicable law.

(c) Prioritize operational changes on farms to protect groundwater and surface waters from sources of contamination.

(d) Guide farmers to appropriate technical and educational materials.

(e) Provide farmers with the opportunity for verification.

(f) Provide landowners with the ability to voluntarily assess the value of managing areas of the land that are not utilized for traditional or production agriculture practices for environmental, ecological, and economic benefits.

(3) The director, in conjunction with the council, shall review and evaluate the effectiveness of conservation practices approved under subsection (1).

History: 1994, Act 451, Eff. Mar. 30, 1995;—Am. 2000, Act 100, Imd. Eff. May 19, 2000;—Am. 2011, Act 2, Imd. Eff. Mar. 9, 2011;—Am. 2013, Act 46, Imd. Eff. June 6, 2013;—Am. 2015, Act 118, Eff. Oct. 1, 2015.

Popular name: Act 451

Popular name: NREPA

324.8708 Environmental assurance advisory council.

Sec. 8708. (1) The director shall establish an environmental assurance advisory council composed of all of the following:

(a) The director of the department of agriculture and rural development.

(b) The director of the department of environment, Great Lakes, and energy.

(c) The director of the Michigan State University Extension.

(d) The director of the Michigan State University AgBioResearch.
(e) Representatives of all of the following as appointed by the director to serve terms of 3 years:
(*i*) The United States Department of Agriculture, Farm Service Agency.
(*ii*) The United States Department of Agriculture Natural Resources Conservation Service.
(*iii*) Conservation districts.
(*iv*) Farmers and other agricultural organizations.
(*v*) Nongovernmental conservation and environmental organizations.
(*vi*) Regulated agricultural industries.
(*vii*) A private consulting forester.
(*viii*) A member of the forest products industry.
(*ix*) A member of the logging profession.
(*x*) Other individuals as determined by the director.
(*xi*) A member representing each regional environmental assurance team established under section 8709.
(2) The council shall be co-chaired by the representative from Michigan State University Extension and a representative from 1 of the farmers and other agricultural organizations.
(3) The council shall advise the director on topics including, but not limited to, the following:
(a) MAEAP standards.
(b) On-site evaluations for verification of specific aspects of a farming operation.
(c) Water quality and environmental monitoring.
(d) Protocols for verification and revocation of verification.
(e) MAEAP activities.
(f) Interagency coordination of conservation programs.
(g) The use of money in the clean water fund created in section 8807 and other funding sources to promote MAEAP and activities to encourage more MAEAP-verified farms.
(h) Options to increase assistance to assist small- and medium-sized farms in achieving MAEAP standards.
(i) The creation of subcommittees as needed to address emerging and ongoing issues.
(j) On-site evaluations of potential environmental, ecological, and economic benefits that can be realized by managing areas of the land that are not utilized for traditional or production agriculture practices.
(4) The council shall do all of the following:
(a) Annually provide recommendations to the director on MAEAP standards and protocols for verification and revocation of verification for consideration by the commission of agriculture and rural development.
(b) Annually submit a report to the department that outlines activities, accomplishments, and emerging issues. The department shall share this report with the agriculture community.
(c) Provide recommendations to the director on the creation of a tiered recognition program for farms working toward MAEAP verification. To qualify for the tiered recognition program, farmers must have completed educational programs, conducted appropriate farm assessments, and implemented conservation practices as approved by the director. The tiers may be used to recognize a farm's movement toward MAEAP verification.
(d) Beginning April 1, 2022, provide biannually, or at the request of the director, recommendations to the director and the legislature on incentives and program modifications to increase participation in MAEAP.
(e) Annually provide recommendations to the director on funding for research projects that address impediments to verification and improve MAEAP practice standards.

History: 1994, Act 451, Eff. Mar. 30, 1995;—Am. 2011, Act 2, Imd. Eff. Mar. 9, 2011;—Am. 2013, Act 46, Imd. Eff. June 6, 2013;—Am. 2015, Act 118, Eff. Oct. 1, 2015;—Am. 2021, Act 123, Imd. Eff. Dec. 17, 2021.

Compiler's note: For abolishment of the groundwater advisory council and transfer of its powers and duties to the department of agriculture, see E.R.O. No. 2007-5, compiled at MCL 324.99907.

324.8709 Environmental assurance teams.

Sec. 8709. (1) The director may establish regional environmental assurance teams composed of departmental, educational, and technical assistance personnel, and other persons as determined necessary by the director, or the team, or both for implementation of programs developed under this part.
(2) The environmental assurance teams established under subsection (1) are responsible for implementation of programs developed under this part, including, but not limited to, all of the following:
(a) Providing access to educational opportunities including direct educational assistance and consulting programs; demonstration projects; educational programs; and tours, workshops, and conferences.
(b) Providing access to technical assistance related to any of the following:

(*i*) On-site evaluation of practices that may impact natural resources.

(*ii*) The development and implementation of conservation plans.

(*iii*) The development and implementation of activity plans for persons making conservation practice changes.

(*iv*) On-site evaluation of potential environmental, ecological, and economic benefits that can be realized by managing areas of the land that are not utilized for traditional or production agriculture practices.

(c) Evaluating, as available, grants to persons implementing activity plans and conservation practices required to achieve MAEAP standards.

History: 1994, Act 451, Eff. Mar. 30, 1995;—Am. 2011, Act 2, Imd. Eff. Mar. 9, 2011;—Am. 2013, Act 46, Imd. Eff. June 6, 2013.

Popular name: Act 451

Popular name: NREPA

324.8710 Michigan agriculture environmental assurance program.

Sec. 8710. (1) The director, in consultation with the council, shall implement a Michigan agriculture environmental assurance program designed to promote natural resources conservation through education, technical assistance, and verification. The MAEAP shall be a voluntary program that is available to farms throughout the state.

(2) A farmer who desires to have his or her farm MAEAP-verified shall do all of the following:

(a) Complete educational requirements authorized by the department.

(b) Develop and implement 1 or more conservation plans as approved by the director.

(c) Upon completion of subdivisions (a) and (b), contact the department to arrange for an on-site evaluation.

(3) If the department conducts an on-site evaluation and determines that a farm is meeting MAEAP standards, the department shall issue a MAEAP verification. A MAEAP verification that is in effect on September 30, 2015 is valid for 5 years from the original issue date. Beginning October 1, 2015, a new MAEAP verification or reverification is valid for 5 years.

(4) A farm is eligible for reverification if the department determines it is meeting MAEAP standards through an on-site evaluation conducted by the department or its designee.

(5) The department shall provide MAEAP verification signs to each MAEAP-verified farm.

(6) A farm that allows its verification to lapse or whose verification is revoked under subsection (7) shall forfeit its verification sign and all other benefits that are provided to MAEAP-verified farms under this act.

(7) The director may revoke verification of a MAEAP-verified farm if any of the following apply:

(a) The department, in consultation with the department of environmental quality, determines with scientific evidence provided by water quality data that the MAEAP-verified farm caused an exceedance of water quality standards as a result of nonconformance with MAEAP standards.

(b) The MAEAP-verified farm fails to conform to MAEAP standards as a result of gross negligence.

(c) The MAEAP-verified farm fails to comply with protocols for verification as approved by the commission of agriculture and rural development.

(d) Upon advice from the interagency technical review panel provided for in subsection (11), the director determines that the MAEAP-verified farm is responsible for a pattern of repeated violations of environmental laws, rules, regulations, permit conditions, settlement agreements, orders of consent, or judicial orders that were due to separate and distinct events.

(8) A farmer is not liable for groundwater contamination on a MAEAP-verified farm for activities on the MAEAP-verified farm unless he or she was grossly negligent or in violation of state or federal law or failed to comply with the MAEAP standards. This part does not modify or limit any obligation, responsibility, or liability imposed by any other provision of state law.

(9) The department shall establish a MAEAP grants program. Grants issued under the MAEAP grants program are limited to availability of funds collected pursuant to this part. Grants shall be available for all of the following:

(a) Technical assistance.

(b) Promotion of the MAEAP.

(c) Educational programs related to the MAEAP.

(d) Demonstration projects to implement conservation practices.

(e) Removal of potential sources of contamination.

(f) Other purposes considered appropriate by the director.

(10) Following review of the proposed tiered recognition program submitted to the director by the council under section 8708, the director shall approve and implement a tiered recognition program. As part of the

tiered recognition program, the department shall provide a certificate of progress to a farm participating in MAEAP recognizing each time a new tier is achieved. The certificate of progress shall summarize conservation practices implemented by the farm and the environmental impacts of the implemented conservation practices. The certificate of progress shall recognize the farm for its achievement and encourage the farm to complete the remaining conservation practices necessary for verification. A certificate of progress is valid for 5 years from the date of mailing. Upon written confirmation by the farmer and the MAEAP technician updating any new conservation practices and confirming that all previous applicable conservation practices are still being implemented, the department shall reissue a certificate of progress for additional 5-year periods, as appropriate, until the farm becomes MAEAP-verified in the applicable system or the farmer ceases implementation of the conservation practices. Information collected under this section is not subject to the freedom of information act, 1976 PA 442, MCL 15.231 to 15.246.

(11) The department and the department of environmental quality shall enter into a memorandum of understanding to formalize a commitment to promote the MAEAP and to clarify the application of state and federal environmental laws to farms. In addition, the memorandum of understanding shall provide for all of the following:

(a) An ongoing interagency technical review panel for MAEAP-verified farms that discharge in violation of state or federal law to determine enforcement action.

(b) Preference for funding for nonpoint source pollution – funds for farms seeking MAEAP verification.

(c) Considerations for reverification of a farm with revoked MAEAP verification status.

(d) Integration of the MAEAP into pollution prevention activities of both agencies.

(e) Clarification of the consultation process in part 88 to ensure that the department of agriculture and rural development has meaningful input into the establishment of the grants program and the issuance of grants.

(12) Beginning December 1, 2016 and every December 1 thereafter, the department shall publish a report on MAEAP that includes, but is not limited to, all of the following:

(a) County and statewide totals for the previous fiscal year of all of the following:

(*i*) Conservation practices implemented.

(*ii*) Environmental impacts of practices implemented.

(*iii*) Number of new verifications and reverifications.

(*iv*) Number of unique farms verified.

(*v*) Number of farms in tiered recognition system.

(*vi*) Total area and percentage of this state's farmland involved.

(b) County and statewide program to-date totals of all of the following:

(*i*) Conservation practices implemented.

(*ii*) Environmental impacts of practices implemented.

(*iii*) Number of new verifications and reverifications.

(*iv*) Number of unique farms verified.

(*v*) Number of farms in tiered recognition system.

(*vi*) Total area and percentage of this state's farmland involved.

(c) A summary of educational and MAEAP verification standards changes for each system tool and an overview of the reasons for the changes.

(d) A summary of each system subcommittee's work beyond the standards changes, including identification of ongoing and emerging issues.

(13) The department shall make available a consent form for completion by farmers implementing conservation practices that includes both of the following:

(a) Permission for the department to associate the farmer's name, farm location, and mailing address with conservation practices implemented on that farm.

(b) A statement by the farmer that conservation practices being implemented on the farm are for the purpose of working toward MAEAP verification.

(14) The department shall provide for the consent forms described in subsection (13) to be authenticated. The department may use a completed consent form in the recognition program described in subsection (10). Information collected under this subsection is not subject to the freedom of information act, 1976 PA 442, MCL 15.231 to 15.246.

History: 1994, Act 451, Eff. Mar. 30, 1995;—Am. 2011, Act 2, Imd. Eff. Mar. 9, 2011;—Am. 2015, Act 118, Eff. Oct. 1, 2015.

324.8711 Designation of pesticide as restricted use; establishment of groundwater resource

protection levels.

Sec. 8711. (1) Pesticides containing ingredients that have been confirmed in groundwater at a level above their groundwater resource response level or pesticides for which a state management plan is required shall be registered as restricted use pesticides pursuant to part 83. The director, by rule promulgated pursuant to part 83, shall establish criteria for designating a pesticide a restricted use pesticide due to groundwater concerns.

(2) The director of the department of public health shall establish groundwater resource protection levels and promulgate groundwater resource protection levels for all pesticides that do not have a federally established maximum contaminant level or a health advisory level and for which monitoring occurs.

History: 1994, Act 451, Eff. Mar. 30, 1995.

Popular name: Act 451

Popular name: NREPA

324.8712 Program to track restricted use pesticides to county of application; additional information required; confidentiality.

Sec. 8712. (1) The director shall establish and implement a program to track restricted use pesticides to their county of application.

(2) The director may require additional information for more refined tracking in specific areas determined through groundwater impact potential estimation to be highly vulnerable to groundwater contamination for those pesticides in which the United States environmental protection agency has required a state management plan.

(3) Information collected in subsection (2) is confidential business information and is not subject to the freedom of information act, Act No. 442 of the Public Acts of 1976, being sections 15.231 to 15.246 of the Michigan Compiled Laws.

History: 1994, Act 451, Eff. Mar. 30, 1995.

Popular name: Act 451

Popular name: NREPA

324.8713 Water quality monitoring program.

Sec. 8713. (1) The director, in conjunction with the department of environmental quality and the department of community health, shall develop and establish priorities, procedures, and protocols for the implementation of a water quality monitoring program to do all of the following:

(a) Provide general screening of groundwater or surface water, or both.

(b) Determine the relative risk of groundwater contamination at different locations.

(c) Perform envelope monitoring.

(2) The director shall, in a timely manner, notify affected well owners of their monitoring results from the monitoring conducted pursuant to this section, including the method detection limits and associated water resource protection levels.

(3) The monitoring program conducted pursuant to this section may provide for modifications of sampling density and analytes to reflect regional groundwater impact potential.

(4) The monitoring conducted pursuant to this section shall be conducted utilizing generally accepted scientific practices.

(5) The department shall establish a method detection limit goal for monitoring conducted pursuant to this section set at 10% of a compound's groundwater resource response level.

(6) Agencies conducting monitoring for pesticides or fertilizers pursuant to this section shall notify the director, on forms provided by or in a format approved by the director, of the location, procedure, and concentration of all pesticide detections or nitrate concentrations in excess of 10 parts per million. Information received by the director shall be evaluated based upon accepted protocols and procedures established under this part.

(7) The director shall establish by rule laboratory confirmation mechanisms used under this part.

(8) The director shall establish by rule risk assessment protocols for the development of groundwater resource protection levels.

History: 1994, Act 451, Eff. Mar. 30, 1995;—Am. 2011, Act 2, Imd. Eff. Mar. 9, 2011.

Popular name: Act 451

Popular name: NREPA

324.8713a Surface water quality monitoring program.

Sec. 8713a. (1) The director, in consultation with the council, may develop and establish priorities,

procedures, and protocols for the implementation of a surface water quality monitoring program to do both of the following:

(a) Promote voluntary water quality monitoring by farms.

(b) Monitor and benchmark the effectiveness of conservation practices and MAEAP standards in cooperation with participating farmers.

(2) Water quality information collected under this section by the department in cooperation with farmers shall be aggregated and made available to the commission of agriculture and rural development. Specific locations or persons involved in water quality information collection are exempt from disclosure under the freedom of information act, 1976 PA 442, MCL 15.231 to 15.246.

History: Add. 2011, Act 2, Imd. Eff. Mar. 9, 2011;—Am. 2015, Act 118, Eff. Oct. 1, 2015.

Popular name: Act 451

Popular name: NREPA

324.8714 Confirmation of adverse impact on groundwater; powers and authority of director.

Sec. 8714. (1) Upon confirmation of an adverse impact on groundwater, the director may, upon reasonable notice, require a person to furnish any information that the person may have relating to the identification, nature, and quantity of pesticides and fertilizers that are or have been used on a particular site and to current or past production practices that may have impacted groundwater quality. This information shall be treated as confidential business information and is not subject to the freedom of information act, 1976 PA 442, MCL 15.231 to 15.246.

(2) The director may, upon written request, authorize persons to land-apply materials contaminated with pesticides or fertilizers at agronomic rates. This authorization shall prescribe appropriate operational control activities to protect the application location and shall identify both the location of remediation and the location or locations where such a land application will take place.

History: 1994, Act 451, Eff. Mar. 30, 1995;—Am. 2011, Act 2, Imd. Eff. Mar. 9, 2011.

Popular name: Act 451

Popular name: NREPA

***** *324.8715 THIS SECTION IS REPEALED BY ACT 123 OF 2021 EFFECTIVE DECEMBER 31, 2025* *****

324.8715 Fees; repeal of section.

Sec. 8715. (1) In addition to the fees provided for in part 83, a registrant shall pay an annual water quality protection fee for each product to be registered. The water quality protection fee is $270.00 per product. The water quality protection fee is due in the office of the director before July 1.

(2) A registrant shall pay an additional late fee of $100.00 for each pesticide if the pesticide registration is a renewal registration and the water quality protection fee is received by the department after June 30.

(3) A person required to pay a specialty fertilizer or soil conditioner registration fee under section 8505 shall pay an additional $100.00 water quality protection fee for each brand and product name of each grade registered.

(4) All fertilizer manufacturers or distributors licensed under part 85, except specialty fertilizer and soil conditioner registrants, shall pay the following:

(a) Until December 31, 2015, a water quality protection fee of 1-1/2 cents per percent of nitrogen in the fertilizer for each ton of fertilizer sold.

(b) Beginning January 1, 2016, $.0005 per pound of fertilizer sold.

(5) The fees collected under this part, including any interest or dividends earned, must be transmitted to the state treasurer, who shall credit the money received to the fund.

(6) Upon the expenditure or appropriation of money raised in this section for any purpose other than those specifically listed in this part, authorization to collect fees in this section must be suspended until the money expended or appropriated for purposes other than those listed in this part are returned to the fund.

(7) The department may audit, or may contract for audits of records that are the basis for fees levied under this section.

(8) This section is repealed December 31, 2025.

History: 1994, Act 451, Eff. Mar. 30, 1995;—Am. 1995, Act 61, Imd. Eff. May 24, 1995;—Am. 2000, Act 100, Imd. Eff. May 19, 2000;—Am. 2008, Act 18, Imd. Eff. Feb. 29, 2008;—Am. 2011, Act 2, Imd. Eff. Mar. 9, 2011;—Am. 2015, Act 118, Eff. Oct. 1, 2015;—Am. 2021, Act 123, Imd. Eff. Dec. 17, 2021.

Popular name: Act 451

Popular name: NREPA

324.8716 Freshwater protection fund.

Sec. 8716. (1) The freshwater protection fund is created within the state treasury.

(2) The state treasurer may receive money or other assets from any source for deposit into the fund, including general fund general purpose appropriations, gifts, grants, and bequests. The director shall annually seek matching general fund general purpose appropriations in amounts equal to the water quality protection fees collected under section 8715 that are deposited into the fund under this part. The state treasurer shall direct the investment of the fund. The state treasurer shall credit to the fund interest and earnings from fund investments.

(3) Money in the fund at the close of the fiscal year remains in the fund and does not lapse to the general fund.

(4) The department is the administrator of the fund for auditing purposes.

(5) The department shall expend money from the fund, upon appropriation, only for 1 or more of the following purposes:

(a) Direct assistance.

(b) Indirect assistance.

(c) Emergency response and removal of potential sources of water contamination. Expenditures under this subdivision must not exceed $15,000.00 per location.

(d) Natural resources protection.

(e) Administrative costs. Expenditures under this subdivision must not exceed 20% of the annual appropriations from the fund.

(6) The department shall establish criteria and procedures for approving proposed expenditures from the fund.

(7) Notwithstanding section 8715, if at the close of any fiscal year the amount of money in the fund exceeds $5,000,000.00, the department shall not collect water quality protection fees for the following year. After the water quality protection fees have been suspended under this subsection, the fees must only be reinstated if, at the close of any succeeding fiscal year, the amount of money in the fund is less than $2,000,000.00.

(8) The department of treasury shall, before November 1 of each year, notify the department of the balance in the fund at the close of the preceding fiscal year.

(9) As used in this section:

(a) "Administrative costs" includes, but is not limited to, costs incurred during any of the following:

(*i*) Groundwater monitoring for pesticides and fertilizers.

(*ii*) Development and enforcement of natural resources protection rules.

(*iii*) Coordination of programs under this part with the United States Environmental Protection Agency and other state programs with environmental protection responsibilities.

(*iv*) Coordination of programs under this part with the United States Department of Agriculture Natural Resources Conservation Service and state programs with nonpoint source pollution prevention and conservation practice responsibilities.

(*v*) Management of pesticide sales information.

(b) "Direct assistance" includes, but is not limited to, programs that will provide for any of the following:

(*i*) Provision of alternate noncommunity water supplies.

(*ii*) Closure of wells that may impact groundwater, such as abandoned, improperly constructed, or drainage wells.

(*iii*) The environmentally sound disposal or recycling of pesticide containers.

(*iv*) Pesticide disposal programs.

(*v*) Programs devoted to integrated natural resources conservation that encourage the judicious use of pesticides and fertilizers and other agricultural inputs and practices that are protective of water quality through targeted systems approach to management decisions.

(*vi*) Incentive and cost share programs to assist farmers in achieving MAEAP standards.

(*vii*) Incentive and cost share programs for MAEAP-verified farms with potential sources of contamination on their property.

(*viii*) Monitoring of private well water for pesticides, fertilizers, and other contaminants.

(*ix*) Removal of soils and waters contaminated by pesticides and fertilizers and the land application of those materials at agronomic rates.

(*x*) MAEAP grants under section 8710.

(*xi*) Programs that enhance investment of private and federal funds in conservation.

(*xii*) Verification.

(*xiii*) Other programs established under this part.

(c) "Indirect assistance" includes, but is not limited to, programs that will provide for any of the following:

(*i*) Public education and demonstration programs on pesticide container recycling and environmentally sound disposal methods.

(*ii*) Educational programs.

(*iii*) Technical assistance programs.

(*iv*) The promotion and implementation of on-site evaluation systems, conservation practices, and the MAEAP.

(*v*) Research programs.

History: 1994, Act 451, Eff. Mar. 30, 1995;—Am. 2003, Act 163, Imd. Eff. Aug. 12, 2003;—Am. 2007, Act 174, Imd. Eff. Dec. 21, 2007;—Am. 2011, Act 2, Imd. Eff. Mar. 9, 2011;—Am. 2015, Act 118, Eff. Oct. 1, 2015;—Am. 2021, Act 123, Imd. Eff. Dec. 17, 2021.

PART 88
WATER POLLUTION PREVENTION AND MONITORING

324.8801 Definitions.

Sec. 8801. As used in this part:

(a) "Department" means the department of environmental quality.

(b) "Director" means the director of the department.

(c) "Fund" means the clean water fund created in section 8807.

(d) "Grant" means a nonpoint source pollution prevention and control grant or a wellhead protection grant under this part.

(e) "Local unit of government" means a county, city, village, or township, or an agency of a county, city, village, or township; the office of a county drain commissioner; a soil conservation district established under part 93; a watershed council; a local health department as defined in section 1105 of the public health code, 1978 PA 368, MCL 333.1105; or an authority or any other public body created by or pursuant to state law.

(f) "MAEAP" means the Michigan agriculture environmental assurance program as that term is defined in part 87.

(g) "MAEAP-verified farm" means that term as it is defined in part 87.

(h) "Nonpoint source pollution" means water pollution from diffuse sources, including runoff from precipitation or snowmelt contaminated through contact with pollutants in the soil or on other surfaces and either infiltrating into the groundwater or being discharged to surface waters, or runoff or wind causing erosion of soil into surface waters.

History: Add. 1998, Act 287, Eff. Dec. 1, 1998;—Am. 2011, Act 1, Imd. Eff. Mar. 9, 2011.

Popular name: Act 451

Popular name: NREPA

324.8802 Nonpoint source pollution prevention and control grants; wellhead protection grants.

Sec. 8802. (1) The department, in consultation with the department of agriculture and rural development, shall establish a grants program to provide grants for nonpoint source pollution prevention and control projects and wellhead protection projects. The grants program shall provide grants to local units of government or entities that are exempt from taxation under section 501(c)(3) of the internal revenue code.

(2) The nonpoint source pollution prevention and control grants issued under this part shall be provided for projects that do 1 or more of the following:

(a) Implement the physical improvement portion of watershed plans that are approved by the department.

(b) Reduce specific nonpoint source pollution as identified by the department.

(c) Promote MAEAP verification.

(3) The wellhead protection grants issued under this part shall be provided for projects that are consistent with a wellhead protection plan approved by the department and that do any of the following:

(a) Plug abandoned wells.

(b) Provide for the purchase of land or the purchase of rights in land to protect aquifer recharge areas.

(c) Implement the physical improvement portion of the wellhead protection plan.

(4) For any grant issued under this part, a local unit of government shall contribute at least 25% of the project's total cost from other public or private funding sources. The department may approve in-kind services to meet all or a portion of the match requirement under this subsection. In addition, the department may accept as the match requirement under this subsection a contract between the grant applicant and the department that provides for maintenance of the project or practices that are funded under terms acceptable to the department. The contract shall require maintenance of the project or practices throughout the period of time in which the state is paying off the bonds that were issued pursuant to the clean Michigan initiative act to implement this part.

(5) In issuing grants under this section, the department, in consultation with the department of agriculture and rural development, shall select projects that, to the extent practicable, provide maximum benefit to the state in protecting public health and the environment and contributing to economic development.

History: Add. 1998, Act 287, Eff. Dec. 1, 1998;—Am. 2011, Act 1, Imd. Eff. Mar. 9, 2011.

Popular name: Act 451

Popular name: NREPA

324.8803 Grant awards; criteria for project selection.

Sec. 8803. In selecting projects for a grant award, the department shall consider the following as they relate to a project:

(a) The expectation for long-term water quality improvement.

(b) The expectation for long-term protection of high quality waters.

(c) The consistency of the project with remedial action plans and other regional water quality or watershed management plans approved by the department.

(d) The placement of the watershed on the list of impaired waters pursuant to section 303(d) of title III of the federal water pollution control act, chapter 758, 86 Stat. 846, 33 U.S.C. 1313.

(e) Commitments for financial and technical assistance from the partners in the project.

(f) Financial and other resource contributions, including in-kind services, by project participants in excess of that required in section 8802(4).

(g) The length of time the applicant has committed to maintain the physical improvements.

(h) The commitment to provide monitoring to document improvement in water quality or the reduction of pollutant loads.

(i) Whether the project provides benefits to sources of drinking water.

(j) Other information the department considers relevant.

History: Add. 1998, Act 287, Eff. Dec. 1, 1998.

Popular name: Act 451

Popular name: NREPA

324.8804 Grant applications.

Sec. 8804. A local unit of government that wishes to apply for a grant shall submit a written grant application to the department in a manner prescribed by the department and containing the information required by the department. The grant application shall also include all of the following:

(a) A detailed description of the project for which the grant is sought.

(b) An explanation of how the project is consistent with an approved watershed plan, if applicable.

(c) A description of the total cost of the project and the source of the local government's contribution to the project.

History: Add. 1998, Act 287, Eff. Dec. 1, 1998.

Popular name: Act 451

Popular name: NREPA

324.8805 Issuance of grants.

Sec. 8805. Upon receipt of a grant application pursuant to section 8804, the department, in consultation with the department of agriculture and rural development, shall consider the projects proposed to be funded and the extent that money is available for grants under this part, and shall issue grants for projects that the department determines will assist in the prevention or control of pollution from nonpoint sources or will

provide for wellhead protection.

History: Add. 1998, Act 287, Eff. Dec. 1, 1998;—Am. 2011, Act 1, Imd. Eff. Mar. 9, 2011.

Popular name: Act 451

Popular name: NREPA

324.8806 Administration of part.

Sec. 8806. Grants made under this part are subject to the applicable requirements of part 196. The department, in consultation with the department of agriculture and rural development, shall administer this part in compliance with the applicable requirements of part 196, including the reporting requirements to the legislature of the grants provided under this part.

History: Add. 1998, Act 287, Eff. Dec. 1, 1998;—Am. 2011, Act 1, Imd. Eff. Mar. 9, 2011.

Popular name: Act 451

Popular name: NREPA

324.8807 Clean water fund.

Sec. 8807. (1) The clean water fund is created within the state treasury.

(2) The state treasurer may receive money or other assets from any source for deposit into the fund. The state treasurer shall direct the investment of the fund. The state treasurer shall credit to the fund interest and earnings from fund investments.

(3) Money in the fund at the close of the fiscal year shall remain in the fund and shall not lapse to the general fund.

(4) Except as otherwise provided in this section, the department, in consultation with the department of agriculture and rural development, shall expend money in the fund, upon appropriation, for any of the following:

(a) To implement the programs described in the department's document entitled "A Strategic Environmental Quality Monitoring Program for Michigan's Surface Waters", dated January 1997. In implementing these programs, the department may contract with any person.

(b) Not more than $100,000.00 of the total annual appropriations from the fund to monitor and benchmark the effectiveness of conservation practices and MAEAP standards in cooperation with participating farmers.

(c) Promotion of MAEAP and activities to encourage more MAEAP-verified farms.

(d) Water pollution control activities.

(e) Wellhead protection activities.

(f) Storm water treatment projects and activities.

(5) Money in the fund shall not be expended for combined sewer overflow corrections.

(6) Money in the fund shall not be expended until rules are promulgated under section 8808.

History: Add. 1998, Act 287, Eff. Dec. 1, 1998;—Am. 2011, Act 1, Imd. Eff. Mar. 9, 2011;—Am. 2015, Act 118, Eff. Oct. 1, 2015.

Popular name: Act 451

Popular name: NREPA

324.8808 Rules.

Sec. 8808. The department shall promulgate rules to implement this part including rules to establish a grant program or loan program, or both, for expenditure of money in the fund.

History: Add. 1998, Act 287, Eff. Dec. 1, 1998.

Popular name: Act 451

Popular name: NREPA

Administrative rules: R 324.8801 et seq. and R 324.8901 et seq. of the Michigan Administrative Code.

PART 89
LITTERING

324.8901 Definitions.

Sec. 8901. As used in this part:

(a) "Litter" means any of the following:

(*i*) Rubbish, refuse, waste material, garbage, offal, paper, glass, cans, bottles, trash, debris, or other foreign substances.

(*ii*) A vehicle that is considered abandoned under section 252a of the Michigan vehicle code, 1949 PA 300, MCL 257.252a.

(*iii*) An abandoned vessel as defined in section 80130f.

(*iv*) An ORV that is considered abandoned under section 80130f as made applicable in section 81151.

(*v*) A snowmobile that is considered abandoned under section 80130f as made applicable in section 82161.

(b) "Public or private property or water" includes, but is not limited to, any of the following:

(*i*) The right-of-way of a road or highway, a body of water or watercourse, or the shore or beach of a body of water or watercourse, including the ice above the water.

(*ii*) A park, playground, building, refuge, or conservation or recreation area.

(*iii*) Residential or farm properties or timberlands.

(c) "Vehicle" means a motor vehicle registered or required to be registered under the Michigan vehicle code, 1949 PA 300, MCL 257.1 to 257.923.

(d) "Vessel" means a vessel registered under part 801.

History: 1994, Act 451, Eff. Mar. 30, 1995;—Am. 2004, Act 494, Imd. Eff. Dec. 29, 2004;—Am. 2014, Act 549, Eff. Apr. 16, 2015.

Popular name: Act 451

Popular name: Littering

Popular name: NREPA

324.8902 Littering property or water prohibited; removal of injurious substances dropped on highway as result of accident.

Sec. 8902. (1) A person shall not knowingly, without the consent of the public authority having supervision of public property or the owner of private property, dump, deposit, place, throw, or leave, or cause or permit the dumping, depositing, placing, throwing, or leaving of, litter on public or private property or water other than property designated and set aside for such purposes.

(2) A person who removes a vehicle that is wrecked or damaged in an accident on a highway, road, or street shall remove all glass and other injurious substances dropped on the highway, road, or street as a result of the accident.

History: 1994, Act 451, Eff. Mar. 30, 1995.

Popular name: Act 451

Popular name: Littering

Popular name: NREPA

324.8903 Causing litter or object to fall or be thrown into path of or to hit vehicle; violation as misdemeanor; penalty.

Sec. 8903. (1) A person shall not knowingly cause litter or any object to fall or to be thrown into the path of or to hit a vehicle traveling upon a highway.

(2) A person who violates this section is guilty of a misdemeanor, punishable by imprisonment for not more than 1 year or a fine of not more than $500.00, or both.

History: 1994, Act 451, Eff. Mar. 30, 1995.

Popular name: Act 451

Popular name: Littering

Popular name: NREPA

324.8904 Presumptions.

Sec. 8904. (1) Except as provided in subsection (3) involving litter from a leased vehicle or leased vessel, in a proceeding for a violation of this part involving litter from a motor vehicle or vessel, proof that the particular vehicle or vessel described in the citation, complaint, or warrant was used in the violation, together with proof that the defendant named in the citation, complaint, or warrant was the registered owner of the vehicle or vessel at the time of the violation, gives rise to a rebuttable presumption that the registered owner of the vehicle or vessel was the driver of the vehicle or vessel at the time of the violation.

(2) There is a rebuttable presumption that the driver of a vehicle or vessel is responsible for litter that is thrown, dumped, deposited, placed, or left from the vehicle or vessel on public or private property or water.

(3) In a proceeding for a violation of this part involving litter from a leased motor vehicle or leased vessel, proof that the particular vehicle or vessel described in the citation, complaint, or warrant was used in the violation, together with proof that the defendant named in the citation, complaint, or warrant was the lessee of the vehicle or vessel at the time of the violation, gives rise to a rebuttable presumption that the lessee of the vehicle or vessel was the driver of the vehicle or vessel at the time of the violation.

(4) In a proceeding for a violation of this part involving litter consisting of an abandoned vehicle, proof that the particular vehicle described in the citation, complaint, or warrant was abandoned, and that the

defendant named in the citation, complaint, or warrant was the titled owner or lessee of the vehicle at the time it was abandoned, gives rise to a rebuttable presumption that the defendant abandoned the vehicle.

324.8905 Violation involving litter produced at health facility, agency, or laboratory as misdemeanor; violation involving infectious waste, pathological waste, or sharps as felony; penalty; second or subsequent violation under subsection (2); definitions.

Sec. 8905. (1) A person who violates this part where the violation involves litter that is produced at a health facility or agency as defined in section 20106 of the public health code, Act No. 368 of the Public Acts of 1978, being section 333.20106 of the Michigan Compiled Laws, or at a laboratory described in section 20507 of Act No. 368 of the Public Acts of 1978, being section 333.20507 of the Michigan Compiled Laws, is guilty of a misdemeanor, punishable by imprisonment for not more than 6 months or a fine of not more than $1,000.00, or both.

(2) Except as provided in subsection (3), a person who violates this part where the violation involves litter that is infectious waste, pathological waste, or sharps is guilty of a felony punishable by imprisonment for not more than 2 years or by a fine of not more than $5,000.00, or both.

(3) For a second or subsequent violation under subsection (2), the person shall be punished by imprisonment for not less than 1 year or more than 5 years and a fine of not more than $10,000.00.

(4) As used in this section:

(a) "Infectious waste" means waste that contains varying amounts of microorganisms that have a potential for causing serious illness.

(b) "Pathological waste" means body organs, tissues, parts, and fluids removed during surgery or autopsy, whether or not they are infectious.

(c) "Sharps" means discarded hypodermic needles, syringes and scalpel blades, whether or not they are infectious.

324.8905a Violation as state civil infraction; civil fine; default remedies; exception.

Sec. 8905a. (1) A person who violates this part, if the amount of the litter is less than 1 cubic foot in volume, is responsible for a state civil infraction and is subject to a civil fine of not more than $800.00.

(2) A person who violates this part, if the amount of the litter is 1 cubic foot or more but less than 3 cubic feet in volume, is responsible for a state civil infraction and is subject to a civil fine of not more than $1,500.00.

(3) Except as provided in subsection (4), a person who violates this part, if the amount of the litter is 3 cubic feet or more in volume, is responsible for a state civil infraction and is subject to a civil fine of not more than $2,500.00. A person found to have committed a violation described in this subsection in a subsequent proceeding is subject to a civil fine of not more than $5,000.00.

(4) A person who violates this part, if the litter is described in section 8901(a)(*ii*) to (*v*), is responsible for a state civil infraction and is subject to a civil fine of not less than $500.00 or more than $2,500.00. A person found to have committed a violation described in this subsection in a subsequent proceeding is subject to a civil fine of not less than $1,000.00 or more than $5,000.00. However, the court shall not order the payment of a fine unless the vehicle has been disposed of under section 252g of the Michigan vehicle code, 1949 PA 300, MCL 257.252g, the abandoned vessel has been disposed of under section 80130k, the ORV that is considered abandoned has been disposed of under section 80130k as made applicable in section 81151, or the snowmobile that is considered abandoned has been disposed of under section 80130k as made applicable in section 82161.

(5) A default in the payment of a civil fine or costs ordered under this part or an installment of the fine or

costs may be remedied by any means authorized under the revised judicature act of 1961, 1961 PA 236, MCL 600.101 to 600.9947.

(6) This section does not apply to a violation of section 8903 or 8905.

****** 324.8905a THIS AMENDED SECTION IS EFFECTIVE 91 DAYS AFTER ADJOURNMENT OF THE 2024 REGULAR SESSION SINE DIE ******

324.8905a.amended Violation as state civil infraction; civil fine; misdemeanor; penal fine; applicability to employer or employing agency; enhanced penal fine; removal or reimbursement orders; default remedies; exception.

Sec. 8905a. (1) A person who violates this part, if the amount of the litter is less than 1 cubic foot in volume, is responsible for a state civil infraction and is subject to a civil fine of not more than $800.00.

(2) A person who violates this part, if the amount of the litter is 1 cubic foot or more but less than 3 cubic feet in volume, is responsible for a state civil infraction and is subject to a civil fine of not more than $1,500.00.

(3) A person who commits a first violation of this part, if the amount of litter is 3 cubic feet or more but less than 5 cubic yards, is guilty of a misdemeanor punishable by a penal fine of not more than $2,500.00.

(4) A person who commits a second violation of this part described in subsection (3) is guilty of a misdemeanor punishable by a penal fine of not more than $5,000.00. For each subsequent violation of this part described in subsection (3) that follows a conviction for a second violation under this subsection, the penal fine must be increased by $2,500.00.

(5) A person who commits a first violation of this part, if the amount of litter is 5 cubic yards or more, is guilty of a misdemeanor punishable by a penal fine of not more than $5,000.00.

(6) A person who commits a second violation of this part described in subsection (5) is guilty of a misdemeanor punishable by a penal fine of not more than $10,000.00. For each subsequent violation of this part described in subsection (5) that follows a conviction for a second violation under this subsection, the penal fine must be increased by $5,000.00.

(7) Subsections (3) to (6) apply to a person and a person's employer or employing agency if the violation of subsection (3), (4), (5), or (6) is committed by a person at the direction of or with the knowledge of the person's employer or employing agency.

(8) Except as otherwise provided in this subsection, as part of its judgment of sentence upon the conviction of a person under subsections (3) to (6), the court shall order a person to remove the litter and remediate any damage caused to the property as a result of the violation. If the violation was committed on railroad property, the court shall order reimbursement to the railroad for the costs of the removal of the litter and any necessary damage remediation.

(9) If a prosecuting attorney intends to seek an enhanced penal fine under subsection (4) or (6), the prosecuting attorney shall include on the complaint and information a statement listing the prior conviction or convictions. The existence of the defendant's prior conviction or convictions must be determined by the court, without a jury, at sentencing or at a separate hearing for that purpose before sentencing. The existence of a prior conviction may be established by any evidence relevant for that purpose, including, but not limited to, 1 or more of the following:

(a) A copy of the judgment of conviction.

(b) A transcript of a prior trial, plea-taking, or sentencing.

(c) Information contained in a presentence report.

(d) The defendant's statement.

(10) In addition to, or in lieu of, a state civil infraction or a criminal conviction under subsections (1) to (6), the court may order an individual who violates this part under subsections (1) to (6) to reimburse a local community group, or village or township, or municipal, county, or state department that has or will perform the cleanup and remediation required as a result of the violation of subsections (1) to (6) for the expense incurred by that entity related to the violation under subsections (1) to (6).

(11) A city, village, or township attorney, a prosecuting attorney for the county, or the attorney general

may bring an action seeking reimbursement for expenses incurred for the expense to clean up litter and remediate property damage as provided in subsection (10).

(12) Reimbursement ordered under subsection (10) or (11) must not exceed actual cleanup and remediation costs. The funds collected as part of an order for reimbursement under subsection (10) or (11) may be used in partnership by a local community group, or village or township, or municipal, county, or state department with the owner of the property for the cleanup and remediation required as a result of the violation of subsections (1) to (6).

(13) A person who violates this part, if the litter is described in section 8901(a)(*ii*) to (*v*), is responsible for a state civil infraction and is subject to a civil fine of not less than $500.00 or more than $2,500.00. A person found to have committed a violation described in this subsection in a subsequent proceeding is subject to a civil fine of not less than $1,000.00 or more than $5,000.00. However, the court shall not order the payment of a fine unless the vehicle has been disposed of under section 252g of the Michigan vehicle code, 1949 PA 300, MCL 257.252g, the abandoned vessel has been disposed of under section 80130k, the ORV that is considered abandoned has been disposed of under section 80130k as made applicable in section 81151, or the snowmobile that is considered abandoned has been disposed of under section 80130k as made applicable in section 82161.

(14) A default in the payment of a civil fine or costs ordered under this part or an installment of the fine or costs may be remedied by any means authorized under the revised judicature act of 1961, 1961 PA 236, MCL 600.101 to 600.9947.

(15) This section does not apply to a violation of section 8903 or 8905.

(16) In addition to any penal or civil fine ordered for a violation of subsections (1) to (6) a property owner has a civil cause of action for damages for the reasonable and necessary costs of cleanup and remediation of the property.

History: Add. 1998, Act 15, Imd. Eff. Mar. 9, 1998;—Am. 2004, Act 494, Imd. Eff. Dec. 29, 2004;—Am. 2014, Act 549, Eff. Apr. 16, 2015;—Am. 2024, Act 6, Eff. (sine die).

324.8905b Additional penalties or sanctions; community service.

Sec. 8905b. (1) In addition to any other penalty or sanction provided in this part for a criminal or civil action brought under this part, the court may require the defendant to pay either or both of the following:

(a) The cost of removing all litter which is the subject of the violation and the cost of damages to any land, water, wildlife, vegetation, or other natural resource or to any facility damaged by the violation of this part. Money collected under this subdivision shall be distributed to the governmental entity bringing the enforcement action.

(b) The reasonable expense of impoundment under section 8905c. Money collected under this subdivision shall be distributed to the governmental entity that impounded the vehicle involved in the violation of this part.

(2) In addition to any other penalty or sanction provided for in this part, the court shall impose, under the supervision of the court, community service in the form of litter gathering labor, including, but not limited to, litter connected with the particular violation.

History: Add. 1998, Act 15, Imd. Eff. Mar. 9, 1998.

Compiler's note: Former MCL 324.8905b, which pertained to payment of additional costs and expenses, was repealed by Act 111 of 1995, Eff. Dec. 31, 1997.

324.8905c Impoundment of vehicles; lien; forfeiture of bond; foreclosure sale; notice; distribution of proceeds.

Sec. 8905c. (1) A peace officer may seize and impound a vehicle operated in the commission of a violation of this part if the operator of the vehicle has previously been convicted for a violation of this part. Upon impoundment, the vehicle is subject to a lien, subordinate to a prior lien of record, in the amount of any fine, costs, and damages that the defendant may be ordered to pay under this part. The defendant or a person with an ownership interest in the vehicle may post with the court a cash or surety bond in the amount of $750.00. If

such a bond is posted, the vehicle shall be released from impoundment. The vehicle shall also be released, and the lien shall be discharged, upon a judicial determination that the defendant is not responsible for the violation of this part or upon payment of the fine, costs, and damages. Additionally, if the defendant is determined to be not responsible for the violation of this part, the court shall assess against the governmental entity bringing the action costs, payable to the defendant, for any damages that the defendant has sustained due to the impoundment of the vehicle.

(2) If the court determines that the defendant is responsible for the violation of this part and the defendant defaults in the payment of any fine, costs, or damages, or any installment, as ordered pursuant to this part, any bond posted under subsection (1) shall be forfeited and applied to the fine, costs, damages, or installment. The court shall certify any remaining unpaid amount to the attorney for the governmental entity bringing the action. The attorney for the governmental entity may enforce the lien by a foreclosure sale. The foreclosure sale shall be conducted in the manner provided and subject to the same rights as apply in the case of execution sales under sections 6031, 6032, 6041, 6042, and 6044 to 6047 of the revised judicature act of 1961, 1961 PA 236, MCL 600.6031, 600.6032, 600.6041, 600.6042, and 600.6044 to 600.6047.

(3) Not less than 21 days before the foreclosure sale under subsection (2), the attorney for the governmental entity bringing the action shall by certified mail send written notice of the time and place of the foreclosure sale to each person with a known ownership interest in or lien of record on the vehicle. In addition, not less than 10 days before the foreclosure sale, the attorney shall twice publish notice of the time and place of the foreclosure sale in a newspaper of general circulation in the county in which the vehicle was seized. The proceeds of the foreclosure sale shall be distributed in the following order of priority:

(a) To discharge any lien on the vehicle that was recorded prior to the creation of the lien under subsection (1).

(b) To the clerk of the court for the payment of the fine, costs, and damages, that the defendant was ordered to pay.

(c) To discharge any lien on the vehicle that was recorded after the creation of the lien under subsection (1).

(d) To the owner of the vehicle.

SOIL CONSERVATION, EROSION, AND SEDIMENTATION CONTROL

PART 91
SOIL EROSION AND SEDIMENTATION CONTROL

324.9101 Definitions; A to W.

Sec. 9101. (1) "Agricultural practices" means all land farming operations except the plowing or tilling of land for the purpose of crop production or the harvesting of crops.

(2) "Authorized public agency" means a state agency or an agency of a local unit of government authorized under section 9110 to implement soil erosion and sedimentation control procedures with regard to earth changes undertaken by it.

(3) "Conservation district" means a conservation district authorized under part 93.

(4) "Consultant" means either of the following:

(a) An individual who has a current certificate of training under section 9123.

(b) A person who employs 1 or more individuals who have current certificates of training under section 9123.

(5) "County agency" means an officer, board, commission, department, or other entity of county government.

(6) "County enforcing agency" means a county agency or a conservation district designated by a county board of commissioners under section 9105.

(7) "County program" or "county's program" means a soil erosion and sedimentation control program established under section 9105.

(8) "Department" means the department of environmental quality.

(9) "Earth change" means a human-made change in the natural cover or topography of land, including cut and fill activities, which may result in or contribute to soil erosion or sedimentation of the waters of the state. Earth change does not include the practice of plowing and tilling soil for the purpose of crop production.

(10) "Gardening" means activities necessary to the growing of plants for personal use, consumption, or enjoyment.

(11) "Local ordinance" means an ordinance enacted by a local unit of government under this part providing for soil erosion and sedimentation control.

(12) "Municipal enforcing agency" means an agency designated by a municipality under section 9106 to enforce a local ordinance.

(13) "Municipality" means any of the following:

(a) A city.

(b) A village.

(c) A charter township.

(d) A general law township that is located in a county with a population of 200,000 or more.

(14) "Rules" means the rules promulgated pursuant to the administrative procedures act of 1969, 1969 PA 306, MCL 24.201 to 24.328.

(15) "Seawall maintenance" means an earth change activity landward of the seawall.

(16) "Sediment" means solid particulate matter, including both mineral and organic matter, that is in suspension in water, is being transported, or has been removed from its site of origin by the actions of wind, water, or gravity and has been deposited elsewhere.

(17) "Soil erosion" means the wearing away of land by the action of wind, water, gravity, or a combination of wind, water, or gravity.

(18) "State agency" means a principal state department or a state public university.

(19) "Violation of this part" or "violates this part" means a violation of this part, the rules promulgated under this part, a permit issued under this part, or a local ordinance enacted under this part.

(20) "Waters of the state" means the Great Lakes and their connecting waters, inland lakes and streams as defined in rules promulgated under this part, and wetlands regulated under part 303.

324.9104 Rules; availability of information.

Sec. 9104. (1) The department, with the assistance of the department of agriculture, shall promulgate rules for a unified soil erosion and sedimentation control program, including provisions for the review and approval of site plans, land use plans, or permits relating to soil erosion control and sedimentation control. The

department shall notify and make copies of proposed rules available to county enforcing agencies, municipal enforcing agencies, and authorized public agencies for review and comment before promulgation.

(2) The department shall make available to county enforcing agencies, municipal enforcing agencies, and authorized public agencies educational information on soil erosion and sedimentation control techniques and the benefits of implementing soil erosion and sedimentation control measures. County enforcing agencies and municipal enforcing agencies shall distribute this information to persons receiving permits under a county program or a local ordinance and to other interested persons.

Administrative rules: R 323.1701 et seq. of the Michigan Administrative Code.

324.9105 Administration and enforcement of rules; resolution; ordinance; interlocal agreement; review; notice of results; informal meeting; probation; consultant; inspection fees; rescission of order, stipulation, or probation.

Sec. 9105. (1) Subject to subsection (6), a county is responsible for the administration and enforcement of this part and the rules promulgated under this part throughout the county except as follows:

(a) Within a municipality that has assumed the responsibility for soil erosion and sedimentation control under section 9106.

(b) With regard to earth changes of authorized public agencies.

(2) Subject to subsection (3), the county board of commissioners of each county, by resolution, shall designate a county agency, or a conservation district upon the concurrence of the conservation district, as the county enforcing agency responsible for administration and enforcement of this part and the rules promulgated under this part in the name of the county. The resolution may set forth a schedule of fees for inspections, plan reviews, and permits and may set forth other matters relating to the administration and enforcement of the county program and this part and the rules promulgated under this part.

(3) In lieu of or in addition to a resolution provided for in subsection (2), the county board of commissioners of a county may provide by ordinance for soil erosion and sedimentation control in the county. An ordinance adopted under this subsection may be more restrictive than, but shall not make lawful that which is unlawful under, this part and the rules promulgated under this part. If an ordinance adopted under this subsection is more restrictive than this part and the rules promulgated under this part, the county enforcing agency shall notify a person receiving a permit under the ordinance that the ordinance is more restrictive than this part and the rules promulgated under this part. The ordinance shall incorporate by reference the rules promulgated under this part that do not conflict with a more restrictive ordinance and may set forth such other matters as the county board of commissioners considers necessary or desirable. The ordinance may provide penalties for a violation of the ordinance that are consistent with section 9121.

(4) A copy of a resolution or ordinance adopted under this section and all subsequent amendments to the resolution or ordinance shall be forwarded to the department for the department's review and approval. The department shall forward a copy to the conservation district for that county for review and comment.

(5) Two or more counties may provide for joint enforcement and administration of this part and the rules promulgated under this part by entering into an interlocal agreement pursuant to the urban cooperation act of 1967, 1967 (Ex Sess) PA 7, MCL 124.501 to 124.512.

(6) The department shall conduct a review of a county's program every 5 years. The review shall be conducted at least 6 months before the expiration of each succeeding 5-year period. The department shall approve a county's program if all of the following conditions are met:

(a) The county has passed a resolution or enacted an ordinance as provided in this section.

(b) The individuals with decision-making authority who are responsible for administering the county program have current certificates of training under section 9123.

(c) The county has effectively administered and enforced the county program in the past 5 years or has implemented changes in its administration or enforcement procedures that the department determines will result in the county effectively administering and enforcing the county program. In determining whether the county has met the requirement of this subdivision, the department shall consider all of the following:

(*i*) Whether a mechanism is in place to provide funding to administer the county's program.

(*ii*) Whether the county has conducted adequate inspections to assure minimization of soil erosion and off-site sedimentation.

(*iii*) The effectiveness of the county's past compliance and enforcement efforts.

(*iv*) The adequacy and effectiveness of the applications and soil erosion and sedimentation control plans

being accepted by the county.

(*v*) The adequacy and effectiveness of the permits issued by the county and the inspections being performed by the county.

(*vi*) The conditions at construction sites under the jurisdiction of the county as documented by departmental inspections.

(7) Following a review under subsection (6), the department shall notify the county of the results of its review and whether the department proposes to approve or disapprove the county's program. Within 30 days of receipt of the notice under this subsection, a county may request and the department shall hold an informal meeting to discuss the review and the proposed action by the department.

(8) Following the meeting under subsection (7), if requested, and consideration of the review under subsection (6), if the department does not approve a county's program, the department shall enter an order, stipulation, or consent agreement under section 9112(7) placing the county on probation. In addition, at any time that the department determines that a county that was previously approved by the department under subsection (6) is not satisfactorily administering and enforcing the county's program, the department shall enter into an order, stipulation, or consent agreement under section 9112(7) placing the county on probation. During the 6-month period after a county is placed on probation, the department shall consult with the county on how the county could change its administration of the county program in a manner that would result in its approval.

(9) Within 6 months after a county has been placed on probation under subsection (8), the county may notify the department that it intends to hire a consultant to administer the county's program. If, within 60 days after notifying the department, the county hires a consultant that is acceptable to the department, then within 1 year after the county hires the consultant, the department shall conduct a review of the county's program to determine whether or not the county program can be approved.

(10) If any of the following occur, the department shall hire a consultant to administer the county's program:

(a) The county does not notify the department of its intent to hire a consultant under subsection (9).

(b) The county does not hire a consultant that is acceptable to the department within 60 days after notifying the department of its intent to hire a consultant under subsection (9).

(c) The county remains unapproved following the department's review under subsection (9).

(11) Upon hiring a consultant under subsection (10), the department may establish a schedule of fees for inspections, review of soil erosion and sedimentation control plans, and permits for the county's program that will provide sufficient revenues to pay for the cost of the contract with the consultant, or the department may bill the county for the cost of the contract with the consultant. As used in this subsection, "cost of the contract" means the actual cost of a contract with a consultant plus the documented costs to the department in administering the contract, but not to exceed 10% of the actual cost of the contract.

(12) At any time that a county is on probation as provided for in this section, the county may request the department to conduct a review of the county's program. If, upon such review, the county has implemented appropriate changes to the county's program, the department shall approve the county's program. If the department approves a county's program under this subsection, the department shall rescind its order, stipulation, or consent agreement that placed the county on probation.

History: Add. 1995, Act 60, Imd. Eff. May 24, 1995;—Am. 2000, Act 504, Imd. Eff. Jan. 11, 2001;—Am. 2005, Act 55, Imd. Eff. June 30, 2005.

Popular name: Act 451

Popular name: NREPA

Administrative rules: R 323.1701 et seq. of the Michigan Administrative Code.

324.9106 Ordinances; written interlocal agreement.

Sec. 9106. (1) Subject to subsection (4), a municipality by ordinance may provide for soil erosion and sedimentation control on public and private earth changes within its boundaries except that a township ordinance is not applicable within a village that has in effect such an ordinance. An ordinance may be more restrictive than, but shall not make lawful that which is unlawful under, this part and the rules promulgated under this part. If an ordinance adopted under this section is more restrictive than this part and the rules promulgated under this part, the municipal enforcing agency shall notify a person receiving a permit under the ordinance that the ordinance is more restrictive than this part and the rules promulgated under this part. The ordinance shall incorporate by reference the rules promulgated under this part that do not conflict with a more restrictive ordinance, shall designate a municipal enforcing agency responsible for administration and enforcement of the ordinance, and may set forth such other matters as the legislative body considers necessary or desirable. The ordinance shall be applicable and shall be enforced with regard to all private and public

earth changes within the municipality except earth changes by an authorized public agency. The municipality may consult with a conservation district for assistance or advice in the preparation of the ordinance. The ordinance may provide penalties for a violation of the ordinance that are consistent with section 9121.

(2) An ordinance related to soil erosion and sedimentation control that is not approved by the department as conforming to the minimum requirements of this part and the rules promulgated under this part has no force or effect. A municipality shall submit a copy of its proposed ordinance or of a proposed amendment to its ordinance to the department for approval before adoption. The department shall forward a copy to the county enforcing agency of the county in which the municipality is located and the appropriate conservation district for review and comment. Within 90 days after the department receives an existing ordinance, proposed ordinance, or amendment, the department shall notify the clerk of the municipality of its approval or disapproval along with recommendations for revision if the ordinance, proposed ordinance, or amendment does not conform to the minimum requirements of this part or the rules promulgated under this part. If the department does not notify the clerk of the local unit within the 90-day period, the ordinance, proposed ordinance, or amendment is considered to have been approved by the department.

(3) Two or more municipalities may provide for joint administration and enforcement of this part and the rules promulgated under this part by entering into a written interlocal agreement pursuant to the urban cooperation act of 1967, 1967 (Ex Sess) PA 7, MCL 124.501 to 124.512. However, if all of the municipalities are not located, in whole or in part, in the same county, the agreement does not take effect unless the department approves the agreement in writing. The department shall approve the agreement if the department determines that the agreement will promote the effective administration and enforcement of this part and rules promulgated under this part.

(4) A municipality shall not administer and enforce this part or the rules promulgated under this part or a local ordinance unless the department has approved the municipality. An approval under this section is valid for 5 years, after which the department shall review the municipality for reapproval. At least 6 months before the expiration of each succeeding 5-year approval period, the department shall complete a review of the municipality for reapproval. The department shall approve a municipality if all of the following conditions are met:

(a) The municipality has enacted an ordinance as provided in this section that is at least as restrictive as this part and the rules promulgated under this part.

(b) The individuals with decision-making authority who are responsible for administering the soil erosion and sedimentation control program for the municipality have current certificates of training under section 9123.

(c) The municipality has submitted evidence of its ability to effectively administer and enforce a soil erosion and sedimentation control program. In determining whether the municipality has met the requirements of this subdivision, the department shall consider all of the following:

(*i*) Whether a mechanism is in place to provide funding to administer the municipality's soil erosion and sedimentation control program.

(*ii*) The adequacy of the documents proposed for use by the municipality including, but not limited to, application forms, soil erosion and sedimentation control plan requirements, permit forms, and inspection reports.

(*iii*) If the municipality has previously administered a soil erosion and sedimentation control program, whether the municipality effectively administered and enforced the program in the past or has implemented changes in its administration or enforcement procedures that the department determines will result in the municipality effectively administering and enforcing a soil erosion and sedimentation control program in compliance with this part and the rules promulgated under this part. In determining whether the municipality has met the requirement of this subparagraph, the department shall consider all of the following:

(A) Whether the municipality has had adequate funding to administer the municipality's soil erosion and sedimentation control program.

(B) Whether the municipality has conducted adequate inspections to assure minimization of soil erosion and off-site sedimentation.

(C) The effectiveness of the municipality's past compliance and enforcement efforts.

(D) The adequacy and effectiveness of the applications and soil erosion and sedimentation control plans being accepted by the municipality.

(E) The adequacy and effectiveness of the permits issued by the municipality and the inspections being performed by the municipality.

(F) The conditions at construction sites under the jurisdiction of the municipality as documented by departmental inspections.

(5) If the department determines that a municipality is not approved under subsection (4) or that a

municipality that was previously approved under subsection (4) is not satisfactorily administering and enforcing this part and the rules promulgated under this part, the department shall enter an order, stipulation, or consent agreement under section 9112(7) denying the municipality authority or revoking the municipality's authority to administer a soil erosion and sedimentation control program. Upon entry of this order, stipulation, or consent agreement, the county program for the county in which the municipality is located becomes operative within the municipality.

(6) A municipality that elects to rescind its ordinance shall notify the department. Upon rescission of its ordinance, the county program for the county in which the municipality is located becomes operative within the municipality.

(7) A municipality that rescinds its ordinance or is not approved by the department to administer the program shall retain jurisdiction over projects under permit at the time of the rescission or disapproval. The municipality shall retain jurisdiction until the projects are completed and stabilized or the county agrees to assume jurisdiction over the permitted earth changes.

324.9107 Notice of violation.

Sec. 9107. If a local unit of government has notice that a violation of this part has occurred within the boundaries of that local unit of government, including but not limited to a violation attributable to an earth change by an authorized public agency, the local unit of government shall notify the appropriate county enforcing agency and municipal enforcing agency and the department of the violation.

324.9108 Permit; deposit as condition for issuance.

Sec. 9108. As a condition for the issuance of a permit, the county enforcing agency or municipal enforcing agency may require the applicant to deposit with the clerk of the county or municipality in the form of cash, a certified check, or an irrevocable bank letter of credit, whichever the applicant selects, or a surety bond acceptable to the legislative body of the county or municipality or to the county enforcing agency or municipal enforcing agency, in an amount sufficient to assure the installation and completion of such protective or corrective measures as may be required by the county enforcing agency or municipal enforcing agency.

324.9109 Agreement between public agency or county or municipal enforcing agency and conservation district; purpose; reviews and evaluations of agency's programs or procedures; agreement between person engaged in agricultural practices and conservation district; notification; enforcement.

Sec. 9109. (1) An authorized public agency, county enforcing agency, or municipal enforcing agency may enter into an agreement with a conservation district for assistance and advice in overseeing and reviewing compliance with soil erosion and sedimentation control procedures and in reviewing existing or proposed earth changes, earth change plans, or site plans with regard to technical matters pertaining to soil erosion and sedimentation control. In addition to or in the absence of such agreements, conservation districts may perform periodic reviews and evaluations of the authorized public agency's, county enforcing agency's, or municipal enforcing agency's programs or procedures pursuant to standards and specifications developed in cooperation with the respective districts and as approved by the department. These reviews and evaluations shall be submitted to the department for appropriate action.

(2) A person engaged in agricultural practices may enter into an agreement with the appropriate conservation district to pursue agricultural practices in accordance with and subject to this part, the rules promulgated under this part, and any applicable local ordinance. If a person enters into an agreement with a conservation district, the conservation district shall notify the county enforcing agency or municipal enforcing agency or the department in writing of the agreement. Upon entering into the agreement under this subsection,

a person is not subject to permits required under this part, but is required to develop project specific soil erosion and sedimentation control plans and is subject to the remedies provided for in this part for violations of this part.

Popular name: NREPA

324.9110 Designation as authorized public agency; application; submission of procedures; variance; approval.

Sec. 9110. (1) Subject to subsection (4), a state agency or an agency of a local unit of government may apply to the department for designation as an authorized public agency by submitting to the department the soil erosion and sedimentation control procedures governing all earth changes normally undertaken by the agency. If the applicant is an agency of a local unit of government, the department shall submit the procedures to the county enforcing agency and the appropriate conservation district for review. The county enforcing agency and the conservation district shall submit their comments on the procedures to the department within 60 days. If the applicant is a state agency, the department shall submit the procedures to the department of agriculture for review, and the department of agriculture shall submit its comments on the procedures to the department within 60 days.

(2) Subject to subsection (4), if the department finds that the soil erosion and sedimentation control procedures of the state agency or the agency of the local unit of government meet the requirements of this part and rules promulgated under this part, the department shall designate the agency as an authorized public agency.

(3) Subject to subsection (4), after approval of the procedures and designation as an authorized public agency pursuant to subsection (2), all earth changes maintained or undertaken by the authorized public agency shall be undertaken pursuant to the approved procedures. If determined necessary by the department and upon request of an authorized public agency, the department may grant a variance from the provisions of this subsection.

(4) A state agency or an agency of a local unit of government shall not administer and enforce this part and the rules promulgated under this part as an authorized public agency unless the department has approved the agency under this section. An approval under this section is valid for 5 years, after which the department shall review the agency for reapproval. At least 6 months before the expiration of each succeeding 5-year period, the department shall complete a review of the authorized public agency for reapproval. The department shall approve a state agency or an agency of a local unit of government if all of the following conditions are met:

(a) The agency has adopted soil erosion and sedimentation control procedures that are at least as restrictive as this part and the rules promulgated under this part.

(b) The individuals with decision-making authority who are responsible for administering the soil erosion and sedimentation control procedures have current certificates of training under section 9123.

(c) The agency has submitted evidence of its ability to effectively administer soil erosion and sedimentation control procedures. In determining whether the agency has met the requirement of this subdivision, the department shall consider all of the following:

(*i*) Funding to administer the agency's soil erosion and sedimentation control program.

(*ii*) The agency's plans for inspections to assure minimization of soil erosion and off-site sedimentation.

(*iii*) The adequacy of the agency's soil erosion and sedimentation control procedures.

(*iv*) If the agency has previously administered soil erosion and sedimentation control procedures, the agency has effectively administered these procedures or has implemented changes in their administration that the department determines will result in the agency effectively administering the soil erosion and sedimentation control procedures. In determining whether the agency has met the requirement of this subparagraph, the department shall consider all of the following:

(A) Whether the agency has had adequate funding to administer the agency's soil erosion and sedimentation control program.

(B) Whether the agency has conducted adequate inspections to assure minimization of soil erosion and off-site sedimentation.

(C) The effectiveness of the agency's past compliance and enforcement efforts.

(D) The adequacy of the agency's soil erosion and sedimentation control plans and procedures as required by rule.

(E) The conditions at construction sites under the jurisdiction of the agency as documented by departmental inspections.

(5) If the department determines that a state agency or an agency of a local unit of government is not approved under subsection (4) or that a state agency or an agency of a local unit of government that was previously approved under subsection (4) is not satisfactorily administering and enforcing this part and the rules promulgated under this part, the department shall enter an order, stipulation, or consent agreement under section 9112(7) denying or revoking the designation of the state agency or agency of a local unit of government as an authorized public agency.

324.9112 Earth change; permit required; effect of property transfer; violation; notice; hearing; answer; evidence; stipulation or consent order; final order of determination.

Sec. 9112. (1) A person shall not maintain or undertake an earth change governed by this part, the rules promulgated under this part, or an applicable local ordinance, except in accordance with this part and the rules promulgated under this part or with the applicable local ordinance, and except as authorized by a permit issued by the appropriate county enforcing agency or municipal enforcing agency pursuant to part 13.

(2) The owner of property that is subject to a permit under this part is responsible for compliance with the terms of the permit that apply to that property.

(3) Except as provided in subsection (4), if property subject to a permit under this part is transferred, both of the following are transferred with the property:

(a) The permit, including the permit obligations and conditions.

(b) Responsibility for any violations of the permit that exist on the date the property is transferred.

(4) If property is subject to a permit under this part and a parcel of the property, but not the entire property, is transferred, both of the following are transferred with the parcel:

(a) The permit obligations and conditions with respect to that parcel, but not the permit itself.

(b) Responsibility for any violations of the permit with respect to that parcel that exist on the date the parcel is transferred.

(5) If property subject to a permit under this part is proposed to be transferred, the transferor shall notify the transferee of the permit in writing on a form developed by the department and provided by the county enforcing agency or municipal enforcing agency. The notice shall inform the transferee of the requirements of subsection (2) and, as applicable, subsection (3) or (4). The notice shall include a copy of the permit. The transferor and transferee shall sign the notice, and the transferor shall submit the signed notice to the county enforcing agency or municipal enforcing agency before the property is transferred.

(6) A county enforcing agency or municipal enforcing agency may charge a fee for the transfer of a permit under subsection (3) or (4). The fee shall not exceed the administrative costs of transferring the permit. Fees collected under this subsection shall only be used for the enforcement and administration of this part by the enforcing agency.

(7) If in the opinion of the department a person, including an authorized public agency, violates this part, the rules promulgated under this part, or an applicable local ordinance, or a county enforcing agency or municipal enforcing agency fails to enforce this part, the rules promulgated under this part, or an applicable local ordinance, the department may notify the alleged offender in writing of its determination. If the department places a county on probation under section 9105, a municipality is not approved under section 9106, or a state agency or agency of a local unit of government is not approved under section 9110, or if the department determines that a municipal enforcing agency or authorized public agency is not satisfactorily administering and enforcing this part and rules promulgated under this part, the department shall notify the county, municipality, state agency, or agency of a local unit of government in writing of its determination or action. The notice shall contain, in addition to a statement of the specific violation or failure that the department believes to exist, a proposed order, stipulation for agreement, or other action that the department considers appropriate to assure timely correction of the violation or failure. The notice shall set a date for a hearing not less than 4 nor more than 8 weeks from the date of the notice of determination. Extensions of the date of the hearing may be granted by the department or on request. At the hearing, any interested party may appear, present witnesses, and submit evidence. A person who has been served with a notice of determination

may file a written answer to the notice of determination before the date set for hearing or at the hearing may appear and present oral or written testimony and evidence on the charges and proposed requirements of the department to assure correction of the violation or failure. If a person served with the notice of determination agrees with the proposed requirements of the department and notifies the department of that agreement before the date set for the hearing, disposition of the case may be made with the approval of the department by stipulation or consent agreement without further hearing. The final order of determination following the hearing, or the stipulation or consent order as authorized by this section and approved by the department, is conclusive unless reviewed in accordance with the administrative procedures act of 1969, 1969 PA 306, MCL 24.201 to 24.328, in the circuit court of Ingham county, or of the county in which the violation occurred, upon petition filed within 15 days after the service upon the person of the final order of determination.

324.9113 Injunction; inspection and investigation.

Sec. 9113. (1) Notwithstanding the existence or pursuit of any other remedy, the department or a county enforcing agency or municipal enforcing agency may maintain an action in its own name in a court of competent jurisdiction for an injunction or other process against a person to restrain or prevent violations of this part.

(2) At any reasonable time, an agent appointed by the department, a county enforcing agency, or a municipal enforcing agency may enter upon any private or public property for the purpose of inspecting and investigating conditions or practices that may be in violation of this part. However, an investigation or inspection under this subsection shall comply with the United States constitution and the state constitution of 1963.

History: Add. 1995, Act 60, Imd. Eff. May 24, 1995;—Am. 2000, Act 504, Imd. Eff. Jan. 11, 2001;—Am. 2005, Act 55, Imd. Eff. June 30, 2005.

324.9114 Additional rules.

Sec. 9114. In order to carry out their functions under this part, the department and the department of agriculture may promulgate rules in addition to those otherwise authorized in this part.

History: Add. 1995, Act 60, Imd. Eff. May 24, 1995.

Popular name: Act 451

Popular name: NREPA

Administrative rules: R 323.1701 et seq. of the Michigan Administrative Code.

324.9115 Logging, mining, or land plowing or tilling; permit exemption; "mining" defined.

Sec. 9115. (1) Subject to subsection (2), a person engaged in the logging industry, the mining industry, or the plowing or tilling of land for the purpose of crop production or the harvesting of crops is not required to obtain a permit under this part. However, all earth changes associated with the activities listed in this section shall conform to the same standards as if they required a permit under this part. The exemption from obtaining a permit under this subsection does not include either of the following:

(a) Access roads to and from the site where active mining or logging is taking place.

(b) Ancillary activities associated with logging and mining.

(2) This part does not apply to a metallic mineral mining activity that is regulated under a mining and reclamation plan under part 631 or 634 or a mining, reclamation, and environmental protection plan under part 632, if the plan contains soil erosion and sedimentation control provisions and is approved by the department.

(3) A person is not required to obtain a permit from a county enforcing agency or a municipal enforcing agency for earth changes associated with well locations, surface facilities, flowlines, or access roads relating to oil or gas exploration and development activities regulated under part 615 or mineral well exploration and development activities regulated under part 625, if the application for a permit to drill and operate contains a soil erosion and sedimentation control plan that is approved by the department under part 615 or 625. However, those earth changes shall conform to the same standards as required for a permit under this part. This subsection does not apply to a multisource commercial hazardous waste disposal well as defined in section 62506a.

(4) As used in this section, "mining" does not include the removal of clay, gravel, sand, peat, or topsoil.

History: Add. 1995, Act 60, Imd. Eff. May 24, 1995;—Am. 2000, Act 504, Imd. Eff. Jan. 11, 2001;—Am. 2011, Act 214, Imd. Eff. Nov. 8, 2011;—Am. 2017, Act 40, Eff. Aug. 21, 2017.

Popular name: Act 451

Popular name: NREPA

324.9115a Earth change activities not requiring permit; violations.

Sec. 9115a. (1) Notwithstanding any other provision of this part, a person is not required to obtain a permit from a county or municipal enforcing agency for earth changes associated with the following agricultural practices if the earth change activities do not result in or contribute to soil erosion or sedimentation of the waters of the state or a discharge of sediment off-site:

(a) The construction, maintenance, or removal of fences and fence lines.

(b) The removal of tree or shrub stumps or roots.

(c) The installation of drainage tile, irrigation, or electrical lines.

(d) The construction or maintenance of 1 or more ponds that meet all of the following:

(*i*) The earth change associated with the construction or maintenance is less than 5 acres.

(*ii*) The earth change associated with the construction or maintenance does not result in a discharge of storm water into the waters of the state.

(*iii*) The earth change associated with the construction or maintenance is not part of a larger plan of development. As used in this subparagraph, "larger plan of development" means a contiguous area where multiple separate and distinct construction activities are occurring under a single plan as identified in documentation or physical demarcation indicating where construction activities may occur.

(2) Notwithstanding any other provision of this part, a residential property owner who causes the following activities to be conducted on individual residential property owned and occupied by him or her is not required to obtain a permit under this part if the earth change activities do not result in or contribute to soil erosion or sedimentation of the waters of the state or a discharge of sediment off-site:

(a) An earth change of a minor nature that is stabilized within 24 hours of the initial earth disturbance.

(b) Gardening, if the natural elevation of the area is not raised.

(c) Post holes for fencing, decks, utility posts, mailboxes, or similar applications, if no additional grading or earth change occurs for use of the post holes.

(d) Removal of tree stumps, shrub stumps, or roots resulting in an earth change not to exceed 100 square feet.

(e) All of the following activities, if soil erosion and sedimentation controls are implemented, the earth change is stabilized within 24 hours of the initial earth disturbance, and soil erosion or sedimentation to adjacent properties or the waters of the state has not or will not reasonably occur:

(*i*) Planting of trees, shrubs, or other similar plants.

(*ii*) Seeding or reseeding of lawns of less than 1 acre if the seeded area is at least 100 feet from the waters of the state.

(*iii*) Seeding or reseeding of lawns closer than 100 feet from the waters of the state if the area to be seeded or reseeded does not exceed 100 square feet.

(*iv*) The temporary stockpiling of soil, sand, or gravel not greater than a total of 10 cubic yards on the property if the stockpiling occurs at least 100 feet from the waters of the state.

(*v*) Seawall maintenance that does not exceed 100 square feet.

(3) Exemptions provided in this section shall not be construed as exemptions from enforcement procedures under this part or the rules promulgated under this part if the exempted activities cause or result in a violation of this part or the rules promulgated under this part.

Popular name: Act 451

Popular name: NREPA

324.9117 Notice of determination.

Sec. 9117. If the county enforcing agency or municipal enforcing agency that is responsible for enforcing this part and the rules promulgated under this part determines that soil erosion or sedimentation of adjacent properties or the waters of the state has or will reasonably occur from land in violation of this part or the rules promulgated under this part or an applicable local ordinance, the county enforcing agency or municipal enforcing agency may seek to enforce a violation of this part by notifying the person who owns the land, by mail, with return receipt requested, of its determination. The notice shall contain a description of the violation and what must be done to remedy the violation and shall specify a time to comply with this part and the rules promulgated under this part or an applicable local ordinance.

History: Add. 1995, Act 60, Imd. Eff. May 24, 1995;—Am. 2000, Act 504, Imd. Eff. Jan. 11, 2001.

Popular name: Act 451

324.9119 Entry upon land; construction, implementation, and maintenance of soil erosion and sedimentation control measures; cost.

Sec. 9119. Except as otherwise provided in this section, not sooner than 5 days after notice of violation of this part has been mailed under section 9117, if the condition of the land, in the opinion of the county enforcing agency or municipal enforcing agency, may result in or contribute to soil erosion or sedimentation of adjacent properties or to the waters of the state, and if soil erosion and sedimentation control measures in conformance with this part and the rules promulgated under this part or an applicable local ordinance are not in place, the county enforcing agency or municipal enforcing agency, or a designee of either of these agencies, may enter upon the land and construct, implement, and maintain soil erosion and sedimentation control measures in conformance with this part and the rules promulgated under this part or an applicable local ordinance. However, the enforcing agency shall not expend more than $10,000.00 for the cost of the work, materials, labor, and administration without prior written notice in the notice provided in section 9117 for the person who owns the land that the expenditure of more than $10,000.00 may be made. If more than $10,000.00 is to be expended under this section, then the work shall not begin until at least 10 days after the notice of violation has been mailed.

History: Add. 1995, Act 60, Imd. Eff. May 24, 1995;—Am. 2000, Act 504, Imd. Eff. Jan. 11, 2001.

Popular name: NREPA

324.9120 Reimbursement of county or municipal enforcing agency; lien for expenses; priority; collection and treatment of lien.

Sec. 9120. (1) All expenses incurred by a county enforcing agency or a municipal enforcing agency under section 9119 to construct, implement, and maintain soil erosion and sedimentation control measures to bring land into conformance with this part and the rules promulgated under this part or an applicable local ordinance shall be reimbursed to the county enforcing agency or municipal enforcing agency by the person who owns the land.

(2) The county enforcing agency or municipal enforcing agency shall have a lien for the expenses incurred under section 9119 of bringing the land into conformance with this part and the rules promulgated under this part or an applicable local ordinance. However, with respect to single-family or multifamily residential property, the lien for such expenses shall have priority over all liens and encumbrances filed or recorded after the date of such expenditure. With respect to all other property, the lien for such expenses shall be collected and treated in the same manner as provided for property tax liens under the general property tax act, 1893 PA 206, MCL 211.1 to 211.157.

324.9121 Violations; penalties.

Sec. 9121. (1) A person who violates this part is responsible for either of the following:

(a) If the action is brought by a county enforcing agency or a municipal enforcing agency of a local unit of government that has enacted an ordinance under this part that provides a penalty for violations, the person is responsible for a municipal civil infraction and may be ordered to pay a civil fine of not more than $2,500.00.

(b) If the action is brought by the state or a county enforcing agency of a county that has not enacted an ordinance under this part, the person is responsible for a state civil infraction and may be ordered to pay a civil fine of not more than $2,500.00.

(2) A person who knowingly violates this part or knowingly makes a false statement in an application for a permit or in a soil erosion and sedimentation control plan is responsible for the payment of a civil fine of not more than $10,000.00 for each day of violation.

(3) A person who knowingly violates this part after receiving a notice of determination under section 9112 or 9117 is responsible for the payment of a civil fine of not less than $2,500.00 or more than $25,000.00 for each day of violation.

(4) Civil fines collected under subsections (2) and (3) shall be deposited as follows:

(a) If the state filed the action under this section, in the general fund of the state.

(b) If a county enforcing agency or municipal enforcing agency filed the action under this section, with the county or municipality that filed the action.

(c) If an action was filed jointly by the state and a county enforcing agency or municipal enforcing agency, the civil fines collected under this subsection shall be divided in proportion to each agency's involvement as mutually agreed upon by the agencies. All fines going to the department shall be deposited into the general fund of the state.

(5) A default in the payment of a civil fine or costs ordered under this section or an installment of the fine or costs may be remedied by any means authorized under the revised judicature act of 1961, 1961 PA 236, MCL 600.101 to 600.9948.

(6) In addition to a fine assessed under this section, a person who violates this part is liable to the state for damages for injury to, destruction of, or loss of natural resources resulting from the violation. The court may order a person who violates this part to restore the area or areas affected by the violation to their condition as existing immediately prior to the violation.

(7) This section applies to an authorized public agency, in addition to other persons. This section does not apply to a county enforcing agency or a municipal enforcing agency with respect to its administration and enforcement of this part and rules promulgated under this part.

324.9123 Training program; certificate; fees.

Sec. 9123. (1) Beginning 3 years after the effective date of the 2000 amendments to this section, each individual who is responsible for administering this part and the rules promulgated under this part or a local ordinance and who has decision-making authority for soil erosion and sedimentation control plan development or review, inspections, permit issuance, or enforcement shall be trained by the department. The department shall issue a certificate of training to individuals under this section if they do both of the following:

(a) Complete a soil erosion and sedimentation control training program sponsored by the department.

(b) Pass an examination on the subject matter covered in the training program under subdivision (a).

(2) A certificate of training under subsection (1) is valid for 5 years. For recertifications, the department may offer a refresher course or other update in lieu of the requirements of subsection (1)(a) and (b).

(3) The department may charge fees for administering the training program and the examination under this section that are not greater than the department's cost of administering the training program and the examination. All fees collected under this section shall be deposited into the soil erosion and sedimentation control training fund created in section 9123a.

324.9123a Soil erosion and sedimentation control training fund; creation; disposition of funds; lapse; expenditures.

Sec. 9123a. (1) The soil erosion and sedimentation control training fund is created within the state treasury.

(2) The state treasurer may receive money or other assets from any source for deposit into the soil erosion and sedimentation control training fund. The state treasurer shall direct the investment of the soil erosion and sedimentation control training fund. The state treasurer shall credit to the soil erosion and sedimentation control training fund interest and earnings from fund investments.

(3) Money in the soil erosion and sedimentation control training fund at the close of the fiscal year shall remain in the fund and shall not lapse to the general fund.

(4) The department shall expend money from the fund, upon appropriation, only to administer the soil erosion and sedimentation control training program and examination under section 9123.

PART 93
SOIL CONSERVATION DISTRICTS

324.9301 Definitions.

Sec. 9301. As used in this part:

(a) "Agency of this state" includes the government of this state and any subdivision, agency, or instrumentality, corporate or otherwise, of the government of this state.

(b) "Board" or "conservation district board" means the governing body of a conservation district.

(c) "Compliance assistance agent" means an individual who provides technical assistance to individuals, organizations, agencies, or others to aid them in complying with federal and state laws and local conservation ordinances.

(d) "Conservation species" means those plant species beneficial for conservation practices as included on the list prepared under section 9304a by the conservation species advisory panel.

(e) "Conservation species advisory panel" means the conservation species advisory panel created in section 9304a.

(f) "Department" means the department of agriculture and rural development.

(g) "Director" means 1 of the members of the conservation district board, elected or appointed in accordance with this part.

(h) "District" or "conservation district" means a governmental subdivision of this state, and a public body corporate and politic, organized in accordance with this part, for the purposes, with the powers, and subject to the restrictions set forth in this part.

(i) "Government" or "governmental" includes the government of this state, the government of the United States, and any subdivision, agency, or instrumentality, corporate or otherwise, of either of them.

(j) "Landowner" includes any person who holds title to or has contracted to purchase any land lying within a district organized under this part or former 1937 PA 297.

(k) "Person" means an individual, partnership, or corporation.

(*l*) "Plant rescue" means to physically move native conservation species of plants from 1 location in Michigan to another location in Michigan for the purpose of reestablishing the native conservation species.

(m) "Qualified forester" means that term as defined in section 51301.

(n) "Resident" means a person who is of legal age to vote and can demonstrate residency in the district with 1 piece of identification.

(o) "State" means this state.

(p) "United States" or "agencies of the United States" includes the United States of America, the natural

resources conservation service of the United States department of agriculture, and any other agency or instrumentality, corporate or otherwise, of the United States of America.

History: Add. 1995, Act 60, Imd. Eff. May 24, 1995;—Am. 1998, Act 463, Imd. Eff. Jan. 4, 1999;—Am. 2013, Act 45, Imd. Eff. June 6, 2013.

Popular name: Act 451

Popular name: NREPA

324.9302 Declaration of policy.

Sec. 9302. It is the policy of the legislature to provide for the conservation of the natural resources of the state, including soil, water, farmland, forestland, and other natural resources, and to provide for the control and prevention of soil erosion, and thereby to conserve the natural resources of this state, control floods, prevent impairment of dams and reservoirs, assist in maintaining the navigability of rivers and harbors, preserve wildlife, protect the tax base, protect public lands, and protect and promote the health, safety, and general welfare of the people of this state.

History: Add. 1995, Act 60, Imd. Eff. May 24, 1995;—Am. 1998, Act 463, Imd. Eff. Jan. 4, 1999;—Am. 2013, Act 45, Imd. Eff. June 6, 2013.

Popular name: Act 451

Popular name: NREPA

324.9303 Conducting business at public meeting; notice; availability of writings to public.

Sec. 9303. (1) The business that a conservation district board may perform shall be conducted at a public meeting of the board held in compliance with the open meetings act, 1976 PA 267, MCL 15.261 to 15.275. Public notice of the time, date, and place of the meeting shall be given in the manner required by the open meetings act, 1976 PA 267, MCL 15.261 to 15.275, in addition to any other notice prescribed in this part.

(2) A writing prepared, owned, used, in the possession of, or retained by a conservation district board in the performance of an official function shall be made available to the public in compliance with the freedom of information act, 1976 PA 442, MCL 15.231 to 15.246.

History: Add. 1995, Act 60, Imd. Eff. May 24, 1995;—Am. 1998, Act 463, Imd. Eff. Jan. 4, 1999.

324.9304 Additional duties and powers of department.

Sec. 9304. In addition to the other duties and powers conferred upon the department under this part, the department has the following duties and powers:

(a) To offer such assistance as may be appropriate to the directors of conservation districts in implementing any of their responsibilities under this part and as otherwise provided by law.

(b) To keep the directors of each of the districts informed of the activities and experience of all other districts and to facilitate cooperation and sharing of advice and experience between the districts.

(c) To approve and coordinate the programs of all conservation districts.

(d) To secure the cooperation and assistance of the United States and any of its agencies, and the state and any of its agencies, in the work of the districts, and to formulate policies and procedures as the department considers necessary for the extension of aid in any form from federal or state agencies to the districts.

(e) To disseminate information throughout the state concerning the activities and programs of the conservation districts and to encourage the formation of districts in areas where their organization is desirable.

(f) To review district budgets and financial information, including audit reports.

History: Add. 1995, Act 60, Imd. Eff. May 24, 1995;—Am. 1998, Act 463, Imd. Eff. Jan. 4, 1999;—Am. 2013, Act 45, Imd. Eff. June 6, 2013.

324.9304a Conservation species advisory panel; creation; membership; establishment of conservation species list.

Sec. 9304a. (1) The conservation species advisory panel is created within the department. The conservation species advisory panel shall consist of the following members selected by the director of the department and approved by the commission of agriculture:

(a) Two representatives of the department as follows:

(*i*) One individual from the pesticide and plant management division or its successor agency.

(*ii*) One individual from the environmental division or its successor agency.

(b) One individual representing the department of natural resources.
(c) One individual representing the natural resource conservation service.
(d) Two representatives from Michigan state university as follows:
(*i*) One individual from the department of horticulture or its successor department.
(*ii*) One individual from the department of forestry or its successor department.
(e) One individual representing conservation districts.
(f) One individual from a statewide organization representing nursery and landscaping interests in the state.
(g) One individual from a statewide organization representing seedling growers' interests in the state.

(2) By December 1 of each year, the conservation species advisory panel shall establish a list of conservation species for the following calendar year that may be propagated, planted, harvested, sold, or rescued as part of a plant rescue operation. However, conservation species on this list that are propagated, planted, or rescued during that calendar year may be sold, removed, or reestablished in subsequent years even if the species is removed from the list in a subsequent year.

Popular name: NREPA

324.9305 Boundaries; petition to change district's name.

Sec. 9305. (1) Boundaries of conservation districts shall include cities, townships, and incorporated villages.

(2) A conservation district's board may petition the department to change the district's name. The petition form shall be provided by the department. The department shall give due consideration to the petition and, if the request is determined to be needed and practical, shall approve the change in name and request the secretary of state to enter the new name in the secretary of state's official records of the district.

Popular name: Act 451

Popular name: NREPA

324.9307 Conservation district board; directors; chairperson; terms; annual meeting; election; notice; vacancies; certification; special election; quorum; expenses; employees; legal services; delegation of powers and duties; copies of documents; duties of board; eligibility for grant; duties of professional forester; rules; duties of conservation district; removal of director; designation and function of legislative representative.

Sec. 9307. (1) A conservation district board shall consist of 5 directors elected or appointed as provided in this part. The board shall designate a chairperson annually.

(2) Except as provided in subsection (6), the term of office of each director is 4 years. Except as otherwise provided in this section, all directors shall be elected at an annual meeting by residents of the district. The election shall be nonpartisan and the directors shall be elected by the residents of the district at large. To become a candidate for director, at least 60 days prior to the annual meeting, an individual shall file at the district office a petition signed by 5 residents of the district. A candidate must be a resident of the district. The annual meeting shall be held at a date determined by the board. Notice of the annual meeting shall be published in the official newspaper of record for the area in which the district is located at least 45 days prior to the date of the annual meeting. This notice shall include the date, time, and location of the annual meeting, an agenda of items to be considered at the meeting, and a list of all candidates for directors of the district. A resident of a district who is unable to attend the annual meeting may vote for the directors of the district by absentee ballot as follows:

(a) In person at the district office, during regular business hours of the district office, at any time after publication of the notice and prior to the annual meeting.

(b) By mail received at the district office at any time after publication of the notice and prior to the annual meeting.

(3) Following the annual meeting, director elections shall be certified by the department. A director shall hold office until a successor has been elected and qualified. Vacancies shall be filled by appointment by the

board until the next annual meeting.

(4) The department shall notify the district of its determination on election certification within 90 days after the election. If the department does not certify the director election, the board shall call a special election. The procedures for the special election shall be the same as those for an election at the annual meeting. However, if the board received notification that the department would not be able to certify the director elections from a special election at least 120 days before the next annual meeting, the vacancies shall be filled at the next annual meeting.

(5) A majority of the directors constitutes a quorum of the board, and the concurrence of a majority in any matter within their duties is required for the board's determination. A director is entitled to expenses, including traveling expenses necessarily incurred in the discharge of his or her duties. A director may be paid a per diem for time spent undertaking his or her duties as a director.

(6) If at any time the board has an insufficient number of directors to constitute a quorum, the department shall appoint directors to fill the vacancies on the board. The appointed directors shall serve until new directors are elected as provided for in this section at the next annual meeting and the election is certified by the department. However, new directors who are elected to fill vacancies shall serve for the remainder of the vacated terms.

(7) The board may employ a secretary, technical experts, and such other officers, agents, and employees, permanent and temporary, as the board may require, and shall determine their qualifications, duties, and compensation. Upon request of the board, the attorney general may, at his or her discretion, provide legal services to the district. The board may delegate to its chairperson, to 1 or more directors, or to 1 or more agents or employees any powers and duties that the board considers proper. The board shall furnish to the department, upon request, copies of ordinances, rules, regulations, orders, contracts, forms, and other documents that the board adopts or utilizes and any other information concerning the board's activities that the department may require in the performance of its duties under this part.

(8) The board shall do all of the following:

(a) Provide for the execution of surety bonds for all district employees and officers who are entrusted with funds or property.

(b) Provide for the keeping of a full and accurate record of all proceedings and of all resolutions, regulations, and orders issued or adopted.

(c) Determine the fiscal year of the district.

(9) To be eligible for a grant of $50,000.00 or more from the department, a district shall do all of the following:

(a) Annually submit to the department a budget setting forth the purpose and amount of the expenses expected to be incurred and the source and amount of revenue expected to be received during the ensuing fiscal year.

(b) Maintain accurate financial records of receipts and disbursements and uniform accounting in accordance with generally accepted accounting principles under procedures prescribed by the department.

(c) Provide for a biennial independent certified audit by a certified public accountant of the financial records, accounts, and procedures of the district. The audit report shall show profits and losses and the financial condition of the district.

(d) Agree to comply with subsection (10), and agree to return any grant funds received if subsection (10) is violated.

(10) A professional forester employed under a grant described in subsection (9) shall not use his or her position to do either or both of the following:

(a) Compete with a private sector business.

(b) Develop a client base for forestry consultation during hours when he or she is not employed by the district.

(11) The department may promulgate rules to implement subsection (9). However, rules promulgated under this subsection shall remain in effect not later than June 11, 2016.

(12) The board is responsible for the exercise of the powers and the performance of the duties of a conservation district under this part.

(13) Any director may be removed by the department upon notice and hearing for neglect of duty or malfeasance in office, but for no other reason.

(14) The board may invite the legislative body of any municipality or county located near the territory comprised within the district to designate a representative to advise and consult with the board on all questions of program and policy that may affect the property, water supply, or other interests of the municipality or county.

History: Add. 1995, Act 60, Imd. Eff. May 24, 1995;—Am. 1998, Act 463, Eff. June 1, 1999;—Am. 2002, Act 107, Imd. Eff. Mar. 27, 2002;—Am. 2004, Act 439, Imd. Eff. Dec. 21, 2004;—Am. 2013, Act 45, Imd. Eff. June 6, 2013;—Am. 2013, Act 114, Imd. Eff. Sept. 24, 2013.

Popular name: Act 451

Popular name: NREPA

324.9308 Powers of district and board generally; restrictions.

Sec. 9308. (1) A conservation district organized under this part constitutes a governmental subdivision of this state and a public body corporate and politic, exercising public powers, and a conservation district and the conservation district board has all of the following powers, in addition to powers otherwise granted in this part:

(a) To conduct surveys, investigations, and research relating to the conservation of farmland, forestland, and natural resources, to publish the results of the surveys, investigations, or research, and to disseminate that information upon obtaining the consent of the landowner or the necessary rights or interest in the lands. In order to avoid duplication of research activities, a district shall not initiate any research program except in cooperation with the government of this state or any of its agencies or with the United States.

(b) To conduct demonstrational projects within the district on lands owned or controlled by this state or any of its agencies, with the cooperation of the agency administering and having jurisdiction of the lands, and on any other lands within the district upon obtaining the consent of the owner of the lands or the necessary rights or interest in the lands, to demonstrate by example the means, methods, and measures by which farmland, forestland, and natural resources may be conserved and soil erosion in the form of soil blowing and soil washing may be prevented and controlled.

(c) To carry out preventive and control measures within the district including, but not limited to, engineering operations, methods of cultivation, the growing of vegetation, changes in use of land, and other measures to achieve purposes listed in declaration of policy, on lands owned or controlled by this state or any of its agencies, with the cooperation of the agency administering and having jurisdiction of the lands, and on any other lands within the district upon obtaining the consent of the landowners or the necessary rights or interests in the lands.

(d) To cooperate or enter into agreements with and, within the limits of appropriations made available to it by law, to furnish financial or other aid to any agency, governmental or otherwise, or any landowner within the district or his or her designated representative, in the conducting of erosion-control and prevention operations within the district, subject to conditions as the directors consider necessary to advance the purposes of this part.

(e) To obtain options upon and to acquire, by purchase, exchange, lease, gift, grant, bequest, devise, or otherwise, any property, real or personal, or rights or interests in property; to maintain, administer, and improve any properties acquired, to receive income from the properties, and to expend income in carrying out the purposes and provisions of this part; and to sell, lease, or otherwise dispose of any of its property or interests in property in furtherance of the purposes and provisions of this part.

(f) To make available, on the terms it prescribes, to landowners or their designated representatives within the district and to other conservation districts, agricultural and engineering machinery and equipment, fertilizer, seeds, and seedlings, and other material or equipment that will assist landowners or their designated representatives to carry on operations upon their lands for the conservation of farmland, forestland, and natural resources and for the prevention and control of soil erosion.

(g) To engage in plant rescue operations and to propagate, plant, harvest, and, subject to section 9304a, sell only conservation species. A conservation district that violates this subdivision is subject to a civil fine of not more than $100.00 per day of violation. An action to enforce this subdivision may be brought by the state or a county in the circuit court for the county in which the conservation district is located or in which the violation occurred.

(h) To provide technical assistance to other conservation districts.

(i) To construct, improve, and maintain structures as may be necessary or convenient for the performance of any of the operations authorized in this part.

(j) To develop comprehensive plans for the conservation of farmland, forestland, and natural resources and for the control and prevention of soil erosion within the district or other conservation districts. The plans shall specify, in such detail as is possible, the acts, procedures, performances, and avoidances that are necessary or desirable for the effectuation of the plans, including the specification of engineering operations, methods of cultivation, the growing of vegetation, cropping programs, tillage practices, and changes in use of land; and to publish the plans and information described in this subdivision and bring them to the attention of residents of the district.

(k) To take over, by purchase, lease, or otherwise, and to administer any farmland, forestland, or natural resource conservation project located within its boundaries undertaken by the United States or any of its agencies or by this state or any of its agencies; to manage, as agent of the United States or any of its agencies or of this state or any of its agencies, any farmland, forestland, or natural resource conservation project within its boundaries; to act as agent for the United States or any of its agencies or for this state or any of its agencies in connection with the acquisition, construction, operation, or administration of any farmland, forestland, or natural resource conservation project within its boundaries; to accept donations, gifts, and contributions in money, services, materials, or otherwise, from the United States or any of its agencies or from this state or any of its agencies, and to use or expend the money, services, materials, or other contributions in carrying on its operations; and to accept money, gifts, and donations from any other source not specified in this subdivision.

(*l*) To sue and be sued in the name of the district; to have a seal that is judicially noticed; to have perpetual succession unless terminated as provided in this part; to make and execute contracts and other instruments necessary or convenient to the exercise of its powers; and to make, and from time to time amend and repeal, rules and regulations in a manner that is not inconsistent with this part to carry into effect its purposes and powers.

(m) To borrow money for facilities or equipment for conservation purposes and pledge the assets of the district as collateral against loans. Any money borrowed shall be solely the obligation of the conservation district and not the obligation of the state or any other public entity in the state.

(n) As a condition to the extension of any benefit under this part to, or the performance of work upon, any lands not owned or controlled by this state or any of its agencies, the directors may require contributions in money, services, materials, or otherwise to any operation conferring the benefits, and may require landowners to enter into and perform agreements or covenants as to the permanent use of the lands that will tend to prevent or control erosion on those lands.

(o) To act as a compliance assistance agent for other federal, state, and county laws.

(p) To act as the enforcing agency for a county if designated under section 9105.

(q) To collaborate with the department in reviewing applications for exemption as qualified forest property under section 7jj of the general property tax act, 1893 PA 206, MCL 211.7jj[1].

(r) Subject to subsection (2), in cooperation with the department, to evaluate nonindustrial private forestlands.

(s) Subject to subsection (3), to provide landowners any of the following:

(*i*) Technical assistance regarding potential environmental, ecological, and economic benefits of forestry, wildlife habitat, and wetland development and restoration.

(*ii*) Contact information for qualified foresters.

(*iii*) Contact information for other forest resource professionals that may have voluntarily provided information to the department.

(2) Except as otherwise provided in this subsection, a conservation district shall not develop management plans for nonindustrial private forestlands. A district shall provide a landowner upon request with a list of qualified foresters to develop management plans. The list shall be developed and maintained by the department. If requested by a landowner, the conservation district shall post on its website notice that the landowner is seeking forest management plan preparation; timber harvesting, marketing, or thinning; or similar services. If, after the notice is posted for at least 30 days on the conservation district's website, a landowner is unable to identify a private forester willing to develop a forest management plan, the conservation district may, upon approval by the department, prepare a forest management plan for the landowner.

(3) The exercise of powers under subsection (1)(s) does not affect the regulatory authority of any state department.

(4) Unless authorized by the county board of commissioners of each county in which a conservation district is located, a conservation district shall not enforce state or federal laws.

(5) Unless otherwise specifically provided by law, provisions with respect to the acquisition, operation, or disposition of property by other public bodies are not applicable to a district organized under this part.

324.9310 Cooperation of state agencies; agreements.

Sec. 9310. (1) Agencies of this state that have jurisdiction over, or are charged with the administration of, any state owned lands, and agencies of any county or other governmental subdivision of the state that have jurisdiction over, or are charged with the administration of, any county owned or other publicly owned lands, lying within the boundaries of any conservation district, shall cooperate to the fullest extent with the district in the effectuation of programs and operations undertaken by the district under this part. Agents of the district shall be given free access to enter and perform work upon such publicly owned lands.

(2) A conservation district may cooperate with and enter into agreements with a county, township, municipality, or other subdivision of state government in implementing soil, water, forestland, and related land-use projects. A county, township, municipality, or other subdivision of state government through its governing body may cooperate with and enter into agreement with a conservation district in carrying out this part and may assist a district by providing it with such materials, equipment, money, personnel, and other services.

324.9312 Revision of boundaries; procedure.

Sec. 9312. (1) One or more conservation districts may petition the department for a revision in the boundaries of 1 or more conservation districts. The department shall not take action on the petition unless it is signed by a majority of the directors of each of the districts involved in the proposed revision. Within 30 days after receipt of a proper petition, the department shall cause notice of hearing to be given to the residents in the area or areas affected by the proposed revision as identified by the directors of a district and within 60 days hold a hearing to receive comments relative to the proposed change.

(2) The department shall determine if the proposed revision as petitioned for is desirable. If it finds in the affirmative, the department shall issue an order that states that the boundaries of the districts are to be moved, merged, consolidated, or separated at a date specified in the order and includes the name and the revision of the boundaries of the revised district or districts.

(3) Upon transmission of the order to the secretary of state, a certificate of due organization under seal of the state shall issue, if necessary, to the directors of the district as provided in this part. The revised district or districts shall have the same powers, duties, and functions as other districts organized under this part.

(4) The department shall appoint the first board of directors of the revised district, 1 of whom shall be appointed for a term of 1 year, 2 for a term of 2 years, and 2 for a term of 3 years. Thereafter, directors shall be elected as provided in section 9307.

(5) All assets, liabilities, records, documents, writings, or other property of whatever kind of the districts of which the consolidated district is composed shall become the property of the consolidated district, and all agreements made by, and obligations of, the former districts shall be binding upon and enforceable by the consolidated district. At the date specified in the department's order, the districts of which the consolidated district is composed shall cease to exist, and their powers and duties shall cease after that date. The consolidated district shall be governed by this part.

WATERCRAFT POLLUTION

PART 95

WATERCRAFT POLLUTION CONTROL

324.9501 Definitions.

Sec. 9501. As used in this part:

(a) "Approved holding tank" means a holding tank certified by the United States coast guard under part 159 of subchapter O of chapter I of title 33 of the code of federal regulations, 33 C.F.R. part 159.

(b) "Discharge" means spilling, leaking, pumping, pouring, emitting, emptying, or dumping.

(c) "Docking facility" means a public, private, or commercial marina, yacht club, dock, or wharf used for mooring, serving, or otherwise handling watercraft.

(d) "Litter" means rubbish, refuse, waste material, garbage, offal, paper, glass, cans, bottles, trash, debris, oil, or other foreign substances of every kind and description.

(e) "Marine sanitation device" means equipment designed for installation on board a watercraft or installed on board a watercraft to receive, retain, treat, or discharge sewage.

(f) "Oil" means oil of any kind or in any form, including petroleum, fuel oil, sludge, and oil refuse.

(g) "Police officer" means a police officer as defined in section 42 of the Michigan vehicle code, Act No. 300 of the Public Acts of 1949, being section 257.42 of the Michigan Compiled Laws, and a conservation officer.

(h) "Portable" means not permanently affixed to a watercraft and capable of being immediately removed from a watercraft.

(i) "Sewage" means human body wastes, treated or untreated.

(j) "Watercraft" means a contrivance used or capable of being used for navigation upon water, whether or not capable of self-propulsion, including foreign and domestic vessels engaged in commerce upon the waters of this state, passenger or other cargo-carrying vessels, and privately owned recreational watercraft.

(k) "Waters of this state" means waters within the territorial limits of this state including the waters of the Great Lakes that are under the jurisdiction of this state.

History: 1994, Act 451, Eff. Mar. 30, 1995.

Popular name: Act 451

Popular name: NREPA

324.9502 Prohibition of discharges into water.

Sec. 9502. (1) A person shall not place, throw, deposit, discharge, or cause to be discharged into or onto the waters of this state, any litter, sewage, oil, or other liquid or solid materials that render the water unsightly, noxious, or otherwise unwholesome so as to be detrimental to the public health or welfare or to the enjoyment of the water for recreational purposes.

(2) A person shall not discharge, dump, throw, or deposit garbage, litter, sewage, or oil from a recreational, domestic, or foreign watercraft used for pleasure or for the purpose of carrying passengers, cargo, or otherwise engaged in commerce on the waters of this state.

History: 1994, Act 451, Eff. Mar. 30, 1995.

Popular name: Act 451

Popular name: NREPA

324.9503 Pollution control devices as condition to mooring or operating watercraft; rendering bypass connection, pump, or other device incapable of discharging sewage; exempting certain watercraft by rule; inspection; sticker.

Sec. 9503. (1) Except as otherwise provided in this section, a person shall not moor or operate a watercraft, or permit the mooring or operation of his or her watercraft, on the waters of this state if the watercraft has a marine sanitation device, unless the marine sanitation device is equipped with 1 or more of the following pollution control devices:

(a) An approved holding tank that will retain all sewage produced on the watercraft for subsequent disposal at approved dockside or onshore collection and treatment facilities.

(b) An incinerating device that will reduce to ash all sewage produced on the watercraft. The ash shall be disposed of onshore in a manner that will preclude pollution.

(2) Except as otherwise provided in this section, a person shall not moor or operate a watercraft on the waters of this state if the watercraft has a marine sanitation device that is equipped with any type of bypass connection, pump, or other means of directly or indirectly discharging sewage into the waters of this state, unless the bypass connection, pump, or other device has been rendered incapable of directly or indirectly discharging sewage into the waters of this state. This subsection does not prohibit a properly installed discharge line used to empty a holding tank or retention device at an onshore sewage pump-out station, or prohibit the use of a portable marine sanitation device. A bypass connection, pump, or other device shall be rendered incapable of directly or indirectly discharging sewage into the waters of this state by 1 of the following methods:

(a) Removing a section of the pipe or tubing that allows discharge of sewage into the waters of this state, placing a cap over the pipe or tubing that remains attached to the marine sanitation device, and placing a seal approved by the department over the cap in a manner that precludes reattaching the pipe or tubing without breaking the seal. To comply with the requirements of this subsection, the seal must be unbroken at the time an inspection occurs.

(b) Closing a valve that will prevent all discharge of sewage into the waters of the state, and placing a seal approved by the department over the valve handle in a manner that precludes reopening the valve without breaking the seal. To comply with the requirements of this subsection, the seal must be unbroken at the time an inspection occurs.

(3) The department, by rule, may exempt certain oceangoing watercraft from the requirements of this section.

(4) If the department conducts an inspection to determine whether a watercraft is in compliance with this section and finds that the watercraft is in compliance, the department shall place a sticker on the watercraft that lists the date that the watercraft was inspected. The department shall not inspect a watercraft for compliance with this section more than once per year except upon probable cause.

History: 1994, Act 451, Eff. Mar. 30, 1995.

Popular name: Act 451

Popular name: NREPA

324.9504 Pump-out facilities.

Sec. 9504. (1) Except as otherwise provided in this section, all docking facilities shall provide pump-out facilities approved by the department of public health for marine sanitation device holding tanks on the watercraft. All pump-out facility plans and installations shall be approved by the department of public health or its authorized representative.

(2) An existing docking facility that would otherwise be required by this section to have pump-out facilities is not required to have those facilities if it has a contract to use, and does use, the pump-out facilities of a docking facility in the vicinity. A contract between docking facilities under this subsection shall be approved by the department. This subsection does not apply to any docking facility that is constructed after May 1, 1990, or whose capacity is expanded by a cumulative amount exceeding 25%, or more than 15 slips, whichever is less, of the capacity existing on May 1, 1990.

(3) A docking facility that is constructed after May 1, 1990 or whose capacity is expanded by a cumulative amount exceeding 25%, or more than 15 slips, whichever is less, of the capacity existing on May 1, 1990 shall provide pump-out facilities as required by this part.

(4) A docking facility that has a capacity of 15 watercraft or less is exempt from the requirement of subsection (1).

(5) A docking facility holding only small watercraft of a type not equipped with a marine sanitation device is exempt from the requirements of subsection (1).

History: 1994, Act 451, Eff. Mar. 30, 1995.

Popular name: Act 451

Popular name: NREPA

324.9505 Discharge of oil prohibited; removal of oil from waters, shorelines, or beaches.

Sec. 9505. (1) A person shall not discharge or permit the discharge of oil from a watercraft or a docking facility into or onto the waters of this state.

(2) The owner or operator of a watercraft who, whether directly or through any person concerned in the operation, navigation, or management of the watercraft, discharges, permits, or causes or contributes to the discharge of oil into or onto the waters of this state or adjoining shorelines or beaches shall immediately remove the oil from the waters, shorelines, or beaches. If the state removes the oil that was discharged from the watercraft, the owner or operator, or both, are liable to the state for the full amount of the costs reasonably

incurred for its removal. The state may bring action against the owner or operator, or both, to recover such costs in any court of competent jurisdiction.

History: 1994, Act 451, Eff. Mar. 30, 1995.

Popular name: Act 451

Popular name: NREPA

324.9506 Inspection of watercraft, marinas and docks; facilities required.

Sec. 9506. All watercraft moored, operated, or located upon the waters of this state are subject to inspection by the department, or any peace, conservation, or police officer for the purpose of determining if the watercraft is equipped in compliance with the requirements of this part. The department may inspect marinas and other waterside facilities used by watercraft for launching, docking, or mooring purposes to determine if they are equipped with trash receptacles, sewage disposal equipment, or both. Commercial docks and wharfs designed for receiving and loading cargo or freight, or both, from commercial watercraft shall furnish facilities, if determined necessary, as prescribed by the department, to accommodate discharge of sewage from heads and galleys and for deposit of litter, garbage, trash, or bilge waters from the watercraft that utilize the docks or wharfs.

History: 1994, Act 451, Eff. Mar. 30, 1995.

Popular name: Act 451

Popular name: NREPA

324.9507 State rights reserves; prohibition of local regulations.

Sec. 9507. The state fully reserves to itself the exclusive right to establish requirements with reference to the disposal or discharge of sewage, litter, and oil from all watercraft. In order to assure statewide uniformity, the regulation by any political subdivision of the state of waste disposal from watercraft is prohibited.

History: 1994, Act 451, Eff. Mar. 30, 1995.

Popular name: Act 451

Popular name: NREPA

324.9508 Rules.

Sec. 9508. (1) The department may promulgate rules that are necessary or convenient to implement this part.

(2) The department of public health may promulgate rules necessary for the regulation of docking facility water supplies and sewage systems, pump-out facilities, and dockside sanitary facilities.

(3) Before promulgating a rule under this section, the department or the department of public health shall appoint and consult with an advisory committee that is representative of the major interests affected by the proposed rule.

History: 1994, Act 451, Eff. Mar. 30, 1995.

Popular name: Act 451

Popular name: NREPA

324.9510 Violation of part or rules as misdemeanor; penalty.

Sec. 9510. A person who violates this part or the rules promulgated under this part is guilty of a misdemeanor punishable by imprisonment for not more than 92 days or a fine of not more than $500.00, or both.

History: 1994, Act 451, Eff. Mar. 30, 1995.

Popular name: Act 451

CHAPTER 3
WASTE MANAGEMENT

PART 111
HAZARDOUS WASTE MANAGEMENT

324.11101 Meanings of words and phrases.

Sec. 11101. For the purposes of this part, the words and phrases defined in sections 11102 to 11104 have the meanings ascribed to them in those sections.

History: 1994, Act 451, Eff. Mar. 30, 1995.

Compiler's note: For transfer of authority, powers, duties, functions, and responsibilities of the Waste Management Division to the Director of the Michigan Department of Environmental Quality, see E.R.O. No. 1995-16, compiled at MCL 324.99901 of the Michigan Compiled Laws.

Popular name: Act 451

Popular name: Hazardous Waste Act

Popular name: NREPA

324.11102 Definitions; C to F.

Sec. 11102. (1) "Contaminant" means any of the following:

(a) Hazardous waste as defined in R 299.9203 of the Michigan administrative code.

(b) Any hazardous waste or hazardous constituent listed in 40 CFR part 261, appendix VIII or 40 CFR part 264, appendix IX.

(2) "Corrective action" means an action determined by the department to be necessary to protect the public health, safety, or welfare, or the environment, and includes, but is not limited to, investigation, evaluation, cleanup, removal, remediation, monitoring, containment, isolation, treatment, storage, management, temporary relocation of people, and provision of alternative water supplies, or any corrective action allowed under the solid waste disposal act or regulations promulgated pursuant to that act.

(3) "Designated facility" means a hazardous waste treatment, storage, or disposal facility that has received a permit or has interim status under the solid waste disposal act or has a permit from a state authorized under section 3006 of subtitle C of the solid waste disposal act, 42 USC 6926, and which, if located in this state, has an operating license issued under this part, has a legally binding agreement with the department that authorizes operation, or is subject to the requirements of section 11123(8).

(4) "Disposal" means the discharge, deposit, injection, dumping, spilling, leaking, or placing of a hazardous waste into or on land or water in a manner that the hazardous waste or a constituent of the hazardous waste may enter the environment, be emitted into the air, or be discharged into water, including groundwater.

(5) "Disposal facility" means a facility or a part of a facility where managed hazardous waste, as defined by rule, is intentionally placed into or on any land or water and at which hazardous waste will remain after closure.

(6) "Failure mode assessment" means an analysis of the potential major methods by which safe handling of hazardous wastes may fail at a treatment, storage, or disposal facility.

History: 1994, Act 451, Eff. Mar. 30, 1995;—Am. 2010, Act 357, Imd. Eff. Dec. 22, 2010.

Compiler's note: For transfer of authority, powers, duties, functions, and responsibilities of the Waste Management Division to the Director of the Michigan Department of Environmental Quality, see E.R.O. No. 1995-16, compiled at MCL 324.99901 of the Michigan Compiled Laws.

Popular name: Act 451

Popular name: Hazardous Waste Act

Popular name: NREPA

324.11103 Definitions; G to O.

Sec. 11103. (1) "Generation" means the act or process of producing hazardous waste.

(2) "Generator" means any person, by site, whose act or process produces hazardous waste as identified or listed pursuant to section 11128 or whose act first causes a hazardous waste to become subject to regulation under this part.

(3) "Hazardous waste" means waste or a combination of waste and other discarded material including solid, liquid, semisolid, or contained gaseous material that because of its quantity, quality, concentration, or physical, chemical, or infectious characteristics may cause or significantly contribute to an increase in mortality or an increase in serious irreversible illness or serious incapacitating but reversible illness, or may pose a substantial present or potential hazard to human health or the environment if improperly treated, stored, transported, disposed of, or otherwise managed. Hazardous waste does not include material that is solid or dissolved material in domestic sewage discharge, solid or dissolved material in an irrigation return flow discharge, industrial discharge that is a point source subject to permits under section 402 of title IV of the federal water pollution control act, chapter 758, 86 Stat. 880, 33 U.S.C. 1342, or is a source, special nuclear, or by-product material as defined by the atomic energy act of 1954, chapter 1073, 68 Stat. 919.

(4) "Hazardous waste management" means the systematic control of the collection, source separation, storage, transportation, processing, treatment, recovery, recycling, and disposal of hazardous waste.

(5) "Landfill" means a disposal facility or part of a facility where hazardous waste is placed in or on land and which is not a pile, a land treatment facility, a surface impoundment, an injection well, a salt dome

formation, a salt bed formation, or an underground mine or cave.

(6) "Land treatment facility" means a treatment facility or part of a treatment facility at which hazardous waste is applied onto or incorporated into the soil surface. If waste will remain after closure, a facility described in this subsection is a disposal facility.

(7) "Limited storage facility" means a storage facility that meets all of the following conditions:

(a) Has a maximum storage capacity that does not exceed 25,000 gallons of hazardous waste.

(b) Storage occurs only in tanks or containers.

(c) Has not more than 200 containers on site that have a capacity of 55 gallons or less.

(d) Does not store hazardous waste on site for more than 90 days.

(e) Does not receive hazardous waste from a treatment, storage, or disposal facility.

(8) "Manifest" means a form approved by the department used for identifying the quantity, composition, origin, routing, and destination of hazardous waste during its transportation from the point of generation to the point of disposal, treatment, or storage.

(9) "Manifest system" means the system used for identifying the quantity, composition, origin, routing, and destination of hazardous waste during its transportation from the point of generation to the point of disposal, treatment, or storage.

(10) "Mechanism" means a letter of credit, a financial test that demonstrates the financial strength of the company owning a treatment, storage, or disposal facility or a parent company guaranteeing financial assurance for a subsidiary, or an insurance policy that will provide funds for closure or postclosure care of a treatment, storage, or disposal facility.

(11) "Municipal solid waste incinerator" means an incinerator that is owned or operated by any person, and that meets all of the following requirements:

(a) The incinerator receives solid waste from off site and burns only household waste from single and multiple dwellings, hotels, motels, and other residential sources, or burns this household waste together with solid waste from commercial, institutional, municipal, county, or industrial sources that, if disposed of, would not be required to be placed in a disposal facility licensed under this part.

(b) The incinerator has established contractual requirements or other notification or inspection procedures sufficient to assure that the incinerator receives and burns only waste referred to in subdivision (a).

(c) The incinerator meets the requirements of this part and the rules promulgated under this part.

(d) The incinerator is not an industrial furnace as defined in 40 C.F.R. 260.10.

(12) "Municipal solid waste incinerator ash" means the substances remaining after combustion in a municipal solid waste incinerator.

(13) "Municipality" means a city, village, township, or Indian tribe.

(14) "On site" means on the same or geographically contiguous property that may be divided by a public or private right-of-way if the entrance and exit between the pieces of property are at a crossroads intersection and access is by crossing rather than going along the right-of-way. On site property includes noncontiguous pieces of property owned by the same person but connected by a right-of-way that the owner controls and to which the public does not have access.

History: 1994, Act 451, Eff. Mar. 30, 1995.

Compiler's note: For transfer of authority, powers, duties, functions, and responsibilities of the Waste Management Division to the Director of the Michigan Department of Environmental Quality, see E.R.O. No. 1995-16, compiled at MCL 324.99901 of the Michigan Compiled Laws.

Popular name: Act 451

Popular name: Hazardous Waste Act

Popular name: NREPA

324.11104 Definitions; O to V.

Sec. 11104. (1) "Operator" means the person responsible for the overall operation of a disposal, treatment, or storage facility with approval of the department either by contract or license.

(2) "Site identification number" means a number that is assigned by the United States Environmental Protection Agency or the United States Environmental Protection Agency's designee to each generator, each transporter, and each treatment, storage, or disposal facility. If the generator or transporter or the treatment, storage, or disposal facility manages wastes that are hazardous under this part and the rules promulgated under this part but are not hazardous under the solid waste disposal act, site identification number means an equivalent number that is assigned by the department.

(3) "Solid waste" means that term as it is defined in part 115.

(4) "Storage" means the holding of hazardous waste for a temporary period at the end of which the hazardous waste is treated, disposed of, or stored elsewhere.

(5) "Storage facility" means a facility or part of a facility where managed hazardous waste, as defined by rule, is subject to storage. A generator who accumulates managed hazardous waste, as defined by rule, on site in containers or tanks for less than 91 days or a period of time prescribed by rule is not a storage facility.

(6) "Surface impoundment" or "impoundment" means a treatment, storage, or disposal facility or part of a treatment, storage, or disposal facility that is a natural topographic depression, human-made excavation, or diked area formed primarily of earthen materials, although it may be lined with human-made materials, that is designed to hold an accumulation of liquid wastes or wastes containing free liquids, and that is not an injection well. Surface impoundments include, but are not limited to, holding, storage, settling, and aeration pits, ponds, and lagoons.

(7) "Technologically enhanced naturally occurring radioactive material" or "TENORM" means naturally occurring radioactive material whose radionuclide concentrations have been increased as a result of human practices. TENORM does not include any of the following:

(a) Source material, as defined in section 11 of the atomic energy act of 1954, 42 USC 2014, and its progeny in equilibrium.

(b) Material with concentrations of radium-226, radium-228, and lead-210 each less than 5 picocuries per gram.

(8) "The solid waste disposal act" means title II of Public Law 89-272.

(9) "Transporter" means a person engaged in the off-site transportation of hazardous waste by air, rail, highway, or water.

(10) "Treatment" means any method, technique, or process, including neutralization, designed to change the physical, chemical, or biological character or composition of any hazardous waste, to neutralize the waste, to recover energy or material resources from the waste, or to render the waste nonhazardous or less hazardous, safer to transport, store, or dispose of, amenable to recovery, amenable to storage, or reduced in volume. Treatment includes any activity or processing designed to change the physical form or chemical composition of hazardous waste so as to render it nonhazardous.

(11) "Treatment facility" means a facility or part of a facility where managed hazardous waste, as defined by rule, is subject to treatment.

(12) "Updated plan" means the updated state hazardous waste management plan prepared under section 11110.

(13) "Vehicle" means a transport vehicle as defined in 49 CFR 171.8.

History: 1994, Act 451, Eff. Mar. 30, 1995;—Am. 1998, Act 139, Eff. Sept. 1, 1998;—Am. 2001, Act 165, Imd. Eff. Nov. 7, 2001;—Am. 2018, Act 688, Eff. Mar. 28, 2019.

Compiler's note: For transfer of authority, powers, duties, functions, and responsibilities of the Waste Management Division to the Director of the Michigan Department of Environmental Quality, see E.R.O. No. 1995-16, compiled at MCL 324.99901 of the Michigan Compiled Laws.

Popular name: Act 451

Popular name: Hazardous Waste Act

Popular name: NREPA

324.11105 Generation, disposition, storage, treatment, or transportation of hazardous waste.

Sec. 11105. A person shall not generate, dispose, store, treat, or transport hazardous waste in this state without complying with the requirements of this part.

History: 1994, Act 451, Eff. Mar. 30, 1995.

Compiler's note: For transfer of authority, powers, duties, functions, and responsibilities of the Waste Management Division to the Director of the Michigan Department of Environmental Quality, see E.R.O. No. 1995-16, compiled MCL 324.99901 of the Michigan Compiled Laws.

Popular name: NREPA

324.11106 Municipal solid waste incinerator ash; regulation.

Sec. 11106. The generation, transportation, treatment, storage, disposal, reuse, and recycling of municipal

solid waste incinerator ash is regulated under part 115, and not under this part.

History: 1994, Act 451, Eff. Mar. 30, 1995.

Compiler's note: For transfer of authority, powers, duties, functions, and responsibilities of the Waste Management Division to the Director of the Michigan Department of Environmental Quality, see E.R.O. No. 1995-16, compiled at MCL 324.99901 of the Michigan Compiled Laws.

Popular name: Act 451

Popular name: Hazardous Waste Act

Popular name: NREPA

324.11107 Methods of hazardous waste management; assistance.

Sec. 11107. The department, in the conduct of its duties as prescribed under this part, shall assist in encouraging, developing, and implementing methods of hazardous waste management that are environmentally sound, that maximize the utilization of valuable resources, that encourage resource conservation, including source separation, recycling, and waste reduction, and that are consistent with the plan to be provided by the department pursuant to section 12103(1)(d) of the public health code, 1978 PA 368, MCL 333.12103. In addition, the department, in the conduct of its duties as prescribed by this part, shall assist in implementing the policy of this state to minimize the placement of untreated hazardous waste in disposal facilities.

History: 1994, Act 451, Eff. Mar. 30, 1995;—Am. 2010, Act 357, Imd. Eff. Dec. 22, 2010.

Compiler's note: For transfer of authority, powers, duties, functions, and responsibilities of the Waste Management Division to the Director of the Michigan Department of Environmental Quality, see E.R.O. No. 1995-16, compiled at MCL 324.99901 of the Michigan Compiled Laws.

Popular name: Act 451

Popular name: Hazardous Waste Act

Popular name: NREPA

324.11108 Landfill or solidification facility; payment of fee by owner or operator; certain hazardous waste exempt from fees; certification; evaluating accuracy of generator fee exemption certifications; enforcement action; forwarding fee revenue and completed form; reduction in hazardous waste generated or disposed; refund; disposition of fees; environmental pollution prevention fund.

Sec. 11108. (1) Except as otherwise provided in this section, each owner or operator of a landfill shall pay to the department a fee assessed on hazardous waste disposed of in the landfill. The fee shall be based on the quantity of hazardous waste specified on the manifest or monthly operating report and shall be $10.00 per ton, $10.00 per cubic yard, or 1/2 cent per pound depending on the unit of measure used by the owner or operator to calculate the fee. The fee for fractional quantities of hazardous waste shall be proportional. If the hazardous waste is required to be listed on a manifest and the owner or operator of the landfill determines that the hazardous waste quantity on the manifest is not accurate, the owner or operator shall correct the hazardous waste quantity on all manifest copies accompanying the shipment, note the reason for the change in the discrepancy indication space on the manifest, and assess the fee in accordance with the corrected hazardous waste quantity. Payment shall be made within 30 days after the close of each quarter. The landfill owner or operator shall assess off-site generators the fee. The fee for hazardous waste that is generated and disposed of on the site of a landfill owner or operator shall be paid by that owner or operator.

(2) Except as otherwise provided in this section, each owner or operator of a solidification facility licensed pursuant to section 11123 shall pay to the department a fee assessed on hazardous waste received at the solidification facility. The fee shall be based on the quantity of hazardous waste specified on the manifest or monthly operating report and shall be $10.00 per ton, $10.00 per cubic yard, 4 cents per gallon, or 1/2 cent per pound depending on the unit of measure used by the owner or operator to calculate the fee. The fee for fractional quantities of hazardous waste shall be proportional. If the hazardous waste is required to be listed on a manifest and the owner or operator of the solidification facility determines that the hazardous waste quantity on the manifest is not accurate, the owner or operator shall correct the hazardous waste quantity on all manifest copies accompanying the shipment, note the reason for the change in the discrepancy indication space on the manifest, and assess the fee in accordance with the corrected hazardous waste quantity. Payment shall be made within 30 days after the close of each quarter. The solidification facility owner or operator shall assess off-site generators the fee. The fee for hazardous waste that is generated and solidified on the site of a solidification owner or operator shall be paid by that owner or operator.

(3) The following hazardous waste is exempt from the fees provided for in this section:

(a) Ash that results from the incineration of hazardous waste or the incineration of solid waste as defined in

part 115.

(b) Hazardous waste exempted by rule because of its character or the treatment it has received.

(c) Hazardous waste that is removed as part of a site cleanup activity at the expense of this state or the federal government.

(d) Solidified hazardous waste produced by a solidification facility licensed pursuant to section 11123 and destined for land disposal.

(e) Hazardous waste generated pursuant to a 1-time closure or site cleanup activity in this state if the closure or cleanup activity has been authorized in writing by the department. Hazardous waste resulting from the cleanup of inadvertent releases which occur after March 30, 1988 is not exempt from the fees.

(f) Primary and secondary wastewater treatment solids from a wastewater treatment plant that includes an aggressive biological treatment facility as defined in 42 USC 6925.

(g) Emission control dust or sludge from the primary production of steel in electric furnaces.

(4) An owner or operator of a landfill or solidification facility shall assess or pay the fee described in this section unless the generator provides a signed written certification indicating that the hazardous waste is exempt from the fee. If the hazardous waste that is exempt from the fee is required to be listed on a manifest, the certification shall contain the manifest number of the shipment and the specific fee exemption for which the hazardous waste qualifies. If the hazardous waste that is exempt from the fee is not required to be listed on a manifest, the certification shall provide the volume of exempt hazardous waste, the waste code or waste codes of the exempt waste, the date of disposal or solidification, and the specific fee exemption for which the hazardous waste qualifies. The owner or operator of the landfill or solidification facility shall retain this certification for 4 years from the date of receipt.

(5) The department or a health department certified pursuant to section 11145 shall evaluate the accuracy of generator fee exemption certifications and shall take enforcement action against a generator who files a false certification. In addition, the department shall take enforcement action to collect fees that are not paid as required by this section.

(6) The landfill owner or operator and the solidification facility owner or operator shall forward to the department the fee revenue due under this section with a completed form that is provided or approved by the department. The owner or operator shall certify that all information provided in the form is accurate. The form shall include the following information:

(a) The volume of hazardous waste subject to a fee.

(b) The name of each generator who was assessed a fee, the generator's identification number, manifest numbers, hazardous waste volumes, and the amount of the fee assessed.

(7) A generator is eligible for a refund from this state of fees paid under this section if the generator documents to the department, on a form provided by the department, a reduction in the amount of hazardous waste generated as a result of a process change, or a reduction in the amount of hazardous waste disposed of in a landfill, either directly or following solidification at a solidification facility, as a result of a process change or the generator's increased use of source separation, input substitution, process reformulation, recycling, treatment, or an exchange of hazardous waste that results in a utilization of that hazardous waste. The refund shall be in the amount of $10.00 per ton, $10.00 per cubic yard, 4 cents per gallon, or 1/2 cent per pound of reduction in the amount of hazardous waste generated or disposed of in a landfill. A generator is not eligible to receive a refund for that portion of a reduction in the amount of hazardous waste generated that is attributable to a decrease in the generator's level of production of the products that resulted in the generation of the hazardous waste.

(8) A generator seeking a refund under subsection (7) shall calculate the refund due by comparing hazardous waste generation, treatment, and disposal activity in the calendar year immediately preceding the date of filing with hazardous waste generation, treatment, and disposal activity in the calendar year 2 years prior to the date of filing. To be eligible for a refund, a generator shall file a request with the department by June 30 of the year following the year for which the refund is being claimed. A refund shall not exceed the total fees paid by the generator to the landfill operator or owner and the solidification facility operator or owner. A form submitted by the generator as provided for in subsection (7) shall be certified by the generator or the generator's authorized agent.

(9) The department shall maintain information regarding the landfill disposal fees received and refunds provided under this section.

(10) The fees collected under this section shall be forwarded to the state treasurer and deposited in the environmental pollution prevention fund created in section 11130. Any balance in the waste reduction fund on October 1, 2013 shall not lapse to the general fund but shall be transferred to the environmental pollution prevention fund and the waste reduction fund shall be closed. Money from the environmental pollution prevention fund shall be expended, upon appropriation, only for 1 or more of the following purposes:

(a) To pay refunds to generators under this section.

(b) To fund programs created under this part, part 143, part 145, or the hazardous materials transportation act, 1998 PA 138, MCL 29.471 to 29.480.

(c) Not more than $500,000.00 to implement section 3103a.

(d) To fund the permit to install program established under section 5505.

324.11109 Fee for disposal of TENORM in landfill; enforcement; completed form; TENORM account in the environmental pollution prevention fund; creation; investment; expenditures.

Sec. 11109. (1) The owner or operator of a landfill shall pay to the department a fee assessed on TENORM disposed of in the landfill. The fee is $5.00 per ton, based on the quantity of TENORM specified on the monthly operating report. The fee for fractional tons of TENORM shall be proportional. The fee shall be paid within 30 days after the end of each calendar year quarter.

(2) The department shall take enforcement action to collect fees that are not paid as required by this section.

(3) The landfill owner or operator shall forward to the department the fee revenue due under this section with a completed form that is provided or approved by the department. The owner or operator shall certify that all information provided in the form is accurate. The form shall specify the volume of TENORM disposed of at the landfill during the preceding calendar quarter and the amount of fee revenue being forwarded to the department.

(4) The department shall maintain information regarding the fees collected under this section.

(5) The TENORM account is created within the environmental pollution prevention fund created in section 11130. The department shall forward fees collected under this section to the state treasurer for deposit in the TENORM account. The state treasurer may receive money or other assets from any other source for deposit into the account. The state treasurer shall direct the investment of the account. The state treasurer shall credit to the account interest and earnings from account investments. Money remaining in the account at the close of the fiscal year shall not lapse to the general fund.

(6) Money from the TENORM account shall be expended, upon appropriation, only for 1 or more of the following purposes:

(a) To pay refunds to generators under this section.

(b) To fund the department's regulation and oversight of the disposal of TENORM in this state.

(c) To provide grants to local units of government and landfill operators to obtain equipment to monitor TENORM radiation.

324.11110 State hazardous waste management plan; preparation; contents; studies; incentives; criteria; notice; news release; public hearings; comments; amendments.

Sec. 11110. (1) Not later than January 1, 1990, the department shall prepare an updated state hazardous waste management plan.

(2) The updated plan shall:

(a) Update the state hazardous waste management plan adopted by the commission on January 15, 1982.

(b) Be based upon location of generators, health and safety, economics of transporting, type of waste, and existing treatment, storage, or disposal facilities.

(c) Include information generated by the department of commerce and the department on hazardous waste capacity needs in the state.

(d) Include information provided by the office of waste reduction created in part 143.

(e) Plan for the availability of hazardous waste treatment or disposal facilities that have adequate capacity for the destruction, treatment, or secure disposition of all hazardous wastes that are reasonably expected to be generated within the state during the 20-year period after October 1, 1988, as is described in section

104(c)(9)(A) of title I of the comprehensive environmental response, compensation, and liability act of 1980, Public Law 96-510, 42 U.S.C. 9604.

(f) Plan for a reasonable geographic distribution of treatment, storage, and disposal facilities to meet existing and future needs, including proposing criteria for determining acceptable locations for these facilities. The criteria shall include a consideration of a location's geology, geography, demography, waste generation patterns, along with environmental factors, public health factors, and other relevant characteristics as determined by the department.

(g) Emphasize a shift away from the practice of landfilling hazardous waste and toward the in-plant reduction of hazardous waste and the recycling and treatment of hazardous waste.

(h) Include necessary legislative, administrative, and economic mechanisms, and a timetable to carry out the plan.

(3) The department shall instruct the office of waste reduction created in part 143 to complete studies as considered necessary for the completion of the updated plan. The studies may include:

(a) An inventory and evaluation of the sources of hazardous waste generation within this state or from other states, including the types, quantities, and chemical and physical characteristics of the hazardous waste.

(b) An inventory and evaluation of current hazardous waste management, minimization, or reduction practices and costs, including treatment, disposal, on-site recycling, reclamation, and other forms of source reduction within this state.

(c) A projection or determination of future hazardous waste management needs based on an evaluation of existing capacities, treatment or disposal capabilities, manufacturing activity, limitations, and constraints. Projection of needs shall consider the types and sizes of treatment, storage, or disposal facilities, general locations within the state, management control systems, and an identified need for a state owned treatment, storage, or disposal facility.

(d) An investigation and analysis of methods, incentives, or technologies for source reduction, reuse, recycling, or recovery of potentially hazardous waste and a strategy for encouraging the utilization or reduction of hazardous waste.

(e) An investigation and analysis of methods and incentives to encourage interstate and international cooperation in the management of hazardous waste.

(f) An estimate of the public and private cost of treating, storing, or disposing of hazardous waste.

(g) An investigation and analysis of alternate methods for treatment and disposal of hazardous waste.

(4) If the department finds in preparing the updated plan that there is a need for additional treatment or disposal facilities in the state, then the department shall identify incentives the state could offer that would encourage the construction and operation of additional treatment or disposal facilities in the state that are consistent with the updated plan. The department shall propose criteria which could be used in evaluating applicants for the incentives.

(5) Upon completion of the updated plan, the department shall publish a notice in a number of newspapers having major circulation within the state as determined by the department and shall issue a statewide news release announcing the availability of the updated plan for inspection or purchase at cost by interested persons. The announcement shall indicate where and how the updated plan may be obtained or reviewed and shall indicate that not less than 6 public hearings shall be conducted at varying locations in the state before formal adoption. The first public hearing shall not be held until 60 days have elapsed from the date of the notice announcing the availability of the updated plan. The remaining public hearings shall be held within 120 days after the first public hearing at approximately equal time intervals.

(6) After the public hearings, the department shall prepare a written summary of the comments received, provide comments on the major concerns raised, make amendments to the updated plan, and determine whether the updated plan should be adopted.

324.11111 State hazardous waste management plan; adoption or rejection; reason for rejection; return of plan; changing and reconsidering plan.

Sec. 11111. (1) The department, with the advice of the director of public health, shall adopt or reject the updated plan within 60 days.

(2) If the department rejects the updated plan, it shall indicate its reason for rejection and return the updated plan for further work.

(3) The department shall make the necessary changes and reconsider the updated plan within 30 days after receipt of the rejection.

324.11115 Permits and licenses for treatment, storage, or disposal facility; determination; exception.

Sec. 11115. After the updated plan is adopted, the department shall not issue a permit or license under this part for a treatment, storage, or disposal facility until the department has made a determination that the action is consistent with the updated plan. This section does not apply to a treatment, storage, or disposal facility granted a construction permit or a license under this part before the final adoption of the updated plan. However, such a facility shall be consistent with the state hazardous waste management plan adopted by the commission on January 15, 1982.

324.11115a Facility subject to corrective action requirements; release of contaminant from waste management unit or release of hazardous waste from facility; determination by department; consent order; license, permit, or order; contents.

Sec. 11115a. (1) Beginning on June 4, 1992, the owner or operator, or both, of a facility specified in this subsection is subject to the corrective action requirements specified in this part and the rules promulgated under this part for all releases of a contaminant from any waste management unit at the facility, regardless of when the contaminant may have been placed in or released from the waste management unit. This requirement applies to a facility for which the owner or operator, or both, is applying for or has been issued a license under this part.

(2) Beginning on June 4, 1992, if the department, on the basis of any information, determines that there is or has been a release of a contaminant from any waste management unit at the facility, the department may order, or may enter a consent order with an owner or operator, or both, of a facility specified in subsection (1), requiring corrective action at the facility. A license, permit, or order issued or entered pursuant to this subsection shall contain all of the following:

(a) Schedules of compliance for corrective action if corrective action cannot be completed before the issuance of the license, permit, or order.

(b) Assurances of financial responsibility for completing the corrective action.

(c) Requirements that corrective action be taken beyond the facility boundary if the release of a contaminant has or may have migrated or otherwise has or may have been emitted beyond the facility boundary, unless the owner or operator of the facility demonstrates to the satisfaction of the department that,

despite the owner's or operator's best efforts, the owner or operator was unable to obtain the necessary permission to undertake this corrective action.

(3) Beginning on June 4, 1992, the owner or operator, or both, of a facility specified in this subsection and not in subsection (1) is subject to the corrective action requirements specified in this part and the rules promulgated under this part for all releases of a hazardous waste from the facility, regardless of when the hazardous waste may have been placed in or released from the facility. This requirement applies to a facility for which the owner or operator, or both, is or was subject to the interim status requirements defined in the solid waste disposal act, except for those facilities that have received formal written approval of the withdrawal of their United States environmental protection agency part A hazardous waste permit application from the department or the United States environmental protection agency.

(4) Beginning on June 4, 1992, if the department, on the basis of any information, determines that there is or has been a release of a hazardous waste, the department may order, or may enter a consent order with, an owner or operator, or both, of a facility specified in subsection (3), requiring corrective action at the facility. An order issued or entered pursuant to this subsection shall contain both of the following:

(a) Schedules of compliance for corrective action.

(b) Assurances of financial responsibility for completing the corrective action.

324.11116-324.11118 Repealed. 2010, Act 357, Imd. Eff. Dec. 22, 2010.

Compiler's note: The repealed sections pertained to requirements for applications for construction permits.

324.11118a Multisource commercial hazardous waste disposal well; definition; maintenance of treatment and storage facility; operating license required; business plan; applicability of subsection (3).

Sec. 11118a. (1) As used in this section, "multisource commercial hazardous waste disposal well" has the meaning ascribed to that term in section 62506a.

(2) A multisource commercial hazardous waste disposal well shall maintain on site a treatment facility and a storage facility that have obtained an operating license under section 11123.

(3) Subject to subsection (4), in addition to the information required under section 11123, the owner or operator of a proposed treatment and storage facility with a multisource commercial hazardous waste disposal well shall provide to the department in an application for an operating license a business plan for the well operations. The business plan shall contain all of the following information:

(a) The type, estimated quantities, and expected potential sources of wastes to be disposed of in the well.

(b) A feasibility study on the viability of the disposal well operations.

(c) Additional business plan information required by the department and related solely to the requirements of subdivisions (a) and (b).

(d) Any additional business plan information if the department and applicant agree that such additional information should be submitted.

(4) Subsection (3) applies only to a person who submits an application for an operating license, other than a renewal operating license, after the effective date of the 2010 amendatory act that added this subsection.

324.11119, 324.11120 Repealed. 2010, Act 357, Imd. Eff. Dec. 22, 2010.

Compiler's note: The repealed sections pertained to duties of department upon receipt of construction permit application and notification of affected municipalities and counties.

324.11121 Effect of local ordinance, permit requirement, or other requirement.

Sec. 11121. A local ordinance, permit requirement, or other requirement does not prohibit the construction of a treatment, storage, or disposal facility, except as otherwise provided in section 11123.

History: 1994, Act 451, Eff. Mar. 30, 1995;—Am. 2010, Act 357, Imd. Eff. Dec. 22, 2010.

Popular name: Act 451

Popular name: Hazardous Waste Act

Popular name: NREPA

324.11122 Repealed. 2010, Act 357, Imd. Eff. Dec. 22, 2010.

Compiler's note: The repealed section pertained to establishment of limited storage facility.

324.11123 Operating license; contents of applications; schedule for submitting operating license application; time period for submitting complete operating license application; conditions for operating storage facility until application approved or denied; placement on department-organized mailing list; fee.

Sec. 11123. (1) Unless a person is complying with subsection (8) or a rule promulgated under section 11127(4), a person shall not establish, construct, conduct, manage, maintain, or operate a treatment, storage, or disposal facility within this state without an operating license from the department.

(2) An application for an operating license for a proposed treatment, storage, or disposal facility or the expansion, enlargement, or alteration of a treatment, storage, or disposal facility beyond its original authorized design capacity or beyond the area specified in an existing operating license, original construction permit, or other authorization shall be submitted on a form provided by the department and contain all of the following:

(a) The name and residence of the applicant.

(b) The location of the proposed treatment, storage, or disposal facility project.

(c) A copy of an actual published notice that the applicant published at least 30 days before submittal of the application in a newspaper having major circulation in the municipality and the immediate vicinity of the proposed treatment, storage, or disposal facility project. The notice shall contain a map indicating the location of the proposed treatment, storage, or disposal facility project and information on the nature and size of the proposed facility. In addition, as provided by the department, the notice shall contain a description of the application review process, the location where the complete application may be reviewed, and an explanation of how copies of the complete application may be obtained.

(d) A written summary of the comments received at the public preapplication meeting required by rule and the applicant's response to the comments, including any revisions to the application.

(e) A determination of existing hydrogeological characteristics specified in a hydrogeological report and monitoring program consistent with rules promulgated under this part.

(f) An environmental assessment. The environmental assessment shall include, at a minimum, an evaluation of the proposed facility's impact on the air, water, and other natural resources of this state, and also shall contain an environmental failure mode assessment.

(g) The procedures for closure and postclosure monitoring.

(h) An engineering plan.

(i) Other information specified by rule or by federal regulation issued under the solid waste disposal act.

(j) An application fee. The application fee shall be deposited in the environmental pollution prevention fund created in section 11130. Pursuant to procedures established by rule, the application fee shall be $25,000.00 plus all of the following, as applicable:

(*i*)	For a landfill, surface impoundment, land treatment, or waste pile facility	$	9,000.00
(*ii*)	For an incinerator or treatment facility other than a treatment facility described in subparagraph (*i*)	$	7,200.00
(*iii*)	For a storage facility, other than storage that is associated with treatment or disposal activities that may be regulated under a single license	$	500.00

(k) Except as otherwise provided in this subdivision, a disclosure statement that includes all of the following:

(*i*) The full name and business address of all of the following:

(A) The applicant.

(B) The 5 persons holding the largest shares of the equity in or debt liability of the proposed facility. The department may waive all or any portion of this requirement for an applicant that is a corporation with publicly traded stock.

(C) The operator. If a waiver is obtained under sub-subparagraph (B), detailed information regarding the proposed operator shall be included in the disclosure statement.

(D) If known, the 3 employees of the operator who will have the most responsibility for the day-to-day operation of the facility, including their previous experience with other hazardous waste treatment, storage, or disposal facilities.

(E) Any other partnership, corporation, association, or other legal entity if any person required to be listed under sub-subparagraphs (A) to (D) has at any time had 25% or more of the equity in or debt liability of that legal entity. The department may waive all or any portion of this requirement for an applicant that is a corporation with publicly traded stock.

(*ii*) For each person required to be listed under this subdivision, a list of all convictions for criminal violations of any statute enacted by a federal, state, Canadian, or Canadian provincial agency if the statute is an environmental statute, if the violation was a misdemeanor committed in furtherance of obtaining an operating license under this part not more than 5 years before the application is filed, or if the violation was a felony committed in furtherance of obtaining an operating license under this part not more than 10 years before the application is filed. If debt liability is held by a chartered lending institution, information required in this subparagraph and subparagraphs (*iii*) and (*iv*) is not required from that institution. The department shall submit to the legislature a report on the 2014 act that amended this subparagraph, including the number of permits denied as a result of that act and whether this subparagraph should be further amended. The report shall cover the 5-year period after the effective date of that act and shall be submitted within 60 days after the expiration of that 5-year period. The report may be submitted electronically.

(*iii*) A list of all environmental permits or licenses issued by a federal, state, local, Canadian, or Canadian provincial agency held by each person required to be listed under this subdivision that were permanently revoked because of noncompliance.

(*iv*) A list of all activities at property owned or operated by each person required to be listed under this subdivision that resulted in a threat or potential threat to the environment and for which public funds were used to finance an activity to mitigate the threat or potential threat to the environment, except if the public funds expended to facilitate the mitigation of environmental contamination were voluntarily and expeditiously recovered from the applicant or other listed person without litigation.

(*l*) A demonstration that the applicant has considered each of the following:

(*i*) The risk and impact of accident during the transportation of hazardous waste to the treatment, storage, or disposal facility.

(*ii*) The risk and impact of fires or explosions from improper treatment, storage, and disposal methods at the treatment, storage, or disposal facility.

(*iii*) The impact on the municipality where the proposed treatment, storage, or disposal facility is to be located in terms of health, safety, cost, and consistency with local planning and existing development, including proximity to housing, schools, and public facilities.

(*iv*) The nature of the probable environmental impact, including the specification of the predictable adverse effects on each of the following:

(A) The natural environment and ecology.

(B) Public health and safety.

(C) Scenic, historic, cultural, and recreational values.

(D) Water and air quality and wildlife.

(m) A summary of measures evaluated to mitigate the impacts identified in subdivision (*l*) and a detailed description of the measures to be implemented by the applicant.

(n) A schedule for submittal of all of the following postconstruction documentation:

(*i*) Any changes in, or additions to, the previously submitted disclosure information, or a certification that the disclosure listings previously submitted continue to be correct, following completion of construction of the treatment, storage, or disposal facility.

(*ii*) A certification under the seal of a licensed professional engineer verifying that the construction of the treatment, storage, or disposal facility has proceeded according to the plans approved by the department and, if applicable, the approved construction permit, including as-built plans.

(*iii*) A certification of the treatment, storage, or disposal facility's capability of treating, storing, or disposing of hazardous waste in compliance with this part.

(*iv*) Proof of financial assurance as required by rule.

(3) If any information required to be included in the disclosure statement under subsection (2)(k) changes

or is supplemented after the filing of the statement, the applicant or licensee shall provide that information to the department in writing not later than 30 days after the change or addition.

(4) Notwithstanding any other provision of law, the department may deny an application for an operating license if there are any listings pursuant to subsection (2)(k)(*ii*), (*iii*), or (*iv*) as originally disclosed or as supplemented.

(5) The application for an operating license for a proposed limited storage facility, which is subject to the requirements pertaining to storage facilities, shall be submitted on a form provided by the department and contain all of the following:

(a) The name and residence of the applicant.

(b) The location of the proposed facility.

(c) A determination of existing hydrogeological characteristics specified in a hydrogeological report and monitoring program consistent with rules promulgated under this part.

(d) An environmental assessment. The environmental assessment shall include, at a minimum, an evaluation of the proposed facility's impact on the air, water, and other natural resources of this state, and also shall contain an environmental failure mode assessment.

(e) The procedures for closure.

(f) An engineering plan.

(g) Proof of financial responsibility.

(h) A resolution or other formal determination of the governing body of each municipality in which the proposed limited storage facility would be located indicating that the limited storage facility is compatible with the zoning ordinance of that municipality, if any. However, in the absence of a resolution or other formal determination, the application shall include a copy of a registered letter sent to the municipality at least 60 days before the application submittal, indicating the intent to construct a limited storage facility, and requesting a formal determination on whether the proposed facility is compatible with the zoning ordinance of that municipality, if any, in effect on the date the letter is received, and indicating that failure to pass a resolution or make a formal determination within 60 days of receipt of the letter means that the proposed facility is to be considered compatible with any applicable zoning ordinance. If, within 60 days of receiving a registered letter, a municipality does not make a formal determination concerning whether a proposed limited storage facility is compatible with a zoning ordinance of that municipality as in effect on the date the letter is received, the limited storage facility is considered compatible with any zoning ordinance of that municipality, and incompatibility with a zoning ordinance of that municipality is not a basis for the department to deny the license.

(i) An application fee of $500.00. The application fee shall be deposited in the environmental pollution prevention fund created in section 11130.

(j) Other information specified by rule or by federal regulation issued under the solid waste disposal act.

(6) The application for an operating license for a treatment, storage, or disposal facility other than a facility identified in subsection (2) or (5) shall be made on a form provided by the department and include all of the following:

(a) The name and residence of the applicant.

(b) The location of the existing treatment, storage, or disposal facility.

(c) Other information considered necessary by the department or specified in this section, by rule, or by federal regulation issued under the solid waste disposal act.

(d) Proof of financial responsibility. An applicant for an operating license for a treatment, storage, or disposal facility that is a surface impoundment, landfill, or land treatment facility shall demonstrate financial responsibility for claims arising from nonsudden and accidental occurrences relating to the operation of the facility that cause injury to persons or property.

(e) A fee of $500.00. The fee shall be deposited in the environmental pollution prevention fund created in section 11130.

(7) The department shall establish a schedule for requiring each person subject to subsection (8) to submit an operating license application. The department may adjust this schedule as necessary. Each person subject to subsection (8) shall submit a complete operating license application within 180 days of the date requested to do so by the department.

(8) A person who owns or operates a treatment, storage, or disposal facility that is in existence on the effective date of an amendment of this part or of a rule promulgated under this part that renders all or portions of the facility subject to the operating license requirements of this section may continue to operate the facility or portions of the facility that are subject to the operating license requirements until an operating license application is approved or denied if all of the following conditions have been met:

(a) A complete operating license application is submitted within 180 days of the date requested by the

department under subsection (7).

(b) The person is in compliance with all rules promulgated under this part and with all other state laws.

(c) The person qualifies for interim status as defined in the solid waste disposal act, is in compliance with interim status standards established by federal regulation under subtitle C of the solid waste disposal act, 42 USC 6921 to 6939e, and has not had interim status terminated.

(9) A person may request to be placed on a department-organized mailing list to be kept informed of any rules, plans, operating license applications, contested case hearings, public hearings, or other information or procedures relating to the administration of this part. The department may charge a fee to cover the cost of the materials.

324.11124 Inspection of site; determination of compliance; filing and review of inspection report.

Sec. 11124. (1) Following the construction of the proposed treatment, storage, or disposal facility or the expansion, enlargement, or alteration of a treatment, storage, or disposal facility beyond its original authorized design capacity or beyond the area specified in an existing operating license, original construction permit, or other authorization, and the receipt of the postconstruction documentation required under section 11123, the department shall inspect the site and determine if the proposed treatment, storage, or disposal facility complies with this part, the rules promulgated under this part, and the stipulations included in the approved treatment, storage, or disposal facility operating license. An inspection report shall be filed in writing by the department before issuing final authorization to manage, maintain, and operate the treatment, storage, or disposal facility and shall be made available for public review.

(2) Upon receipt of an operating license application meeting the requirements of section 11123(6), the department shall inspect the site and determine if the treatment, storage, or disposal facility complies with this part and the rules promulgated under this part. An inspection report shall be filed in writing by the department before issuing an operating license.

History: 1994, Act 451, Eff. Mar. 30, 1995;—Am. 2010, Act 357, Imd. Eff. Dec. 22, 2010.

Popular name: Act 451

Popular name: Hazardous Waste Act

Popular name: NREPA

324.11125 Duties of department upon receipt of operating license application; establishment of operating license condition; final decision on operating license application; public hearing; notice; time; extension of deadline; stipulations; operation not prohibited by local ordinance, permit, or other requirement; changes or additions to disclosure statement; denial of application; modification or revocation of operating license; conditions; postconstruction documentation.

Sec. 11125. (1) Upon receipt of an operating license application that complies with the requirements of section 11123(2), the department shall do all of the following:

(a) Notify the municipality and county in which the treatment, storage, or disposal facility is located or proposed to be located; a local soil erosion and sedimentation control agency appointed pursuant to part 91; each division within the department that has responsibility in land, air, or water management; a regional planning agency established by executive directive of the governor; and other appropriate agencies. The notice shall describe the procedure by which the license may be approved or denied.

(b) Review the plans of the proposed treatment, storage, or disposal facility to determine if the proposed operation complies with this part and the rules promulgated under this part. The review shall be made within the department. The review shall include, but need not be limited to, a review of air quality, water quality, waste management, hydrogeology, and the applicant's disclosure statement. A written and signed review by each person within the department reviewing the application and plans shall be received and filed in the department's license application records before an operating license is issued or denied by the department.

(c) Integrate the relevant provisions of all permits that the applicant is required to obtain from the department to construct the proposed treatment, storage, or disposal facility into the operating license required

by this part.

(d) Consider the mitigation measures proposed to be implemented as identified in section 11123(2)(m).

(e) Hold a public hearing not more than 60 days after receipt of the application.

(2) The department may establish operating license conditions specifically applicable to the treatment, storage, or disposal facility and operation at that site to mitigate adverse impacts.

(3) The department shall provide notice and an opportunity for a public hearing before making a final decision on an operating license application.

(4) The department shall make a final decision on an operating license application within 140 days after the department receives a complete application. However, if the state's hazardous waste management program is authorized by the United States environmental protection agency under section 3006 of subtitle C of the solid waste disposal act, 42 USC 6926, the department may extend the deadline beyond the limitation provided in this section in order to fulfill the public participation requirements of the solid waste disposal act. The operating license may contain stipulations specifically applicable to site and operation.

(5) A local ordinance, permit, or other requirement shall not prohibit the operation of a licensed treatment, storage, or disposal facility.

(6) If any information required to be included in the disclosure statement required under section 11123 changes or is supplemented after the filing of the statement, the applicant or licensee shall provide that information to the department in writing within 30 days after the change or addition.

(7) The department may deny an operating license application submitted pursuant to section 11123 if any information described in section 11123(2)(k)(*ii*) to (*iv*) was not disclosed as required in section 11123(2) or this section.

(8) The department shall provide notice of the final decision to persons on the organized mailing list for the facility.

(9) Following the construction of a new, expanded, enlarged, or altered treatment, storage, or disposal facility, the department shall review all information required to be submitted by the operating license. If the department finds that the owner or operator has deviated from the specific conditions established in the operating license, the department shall determine if cause exists for modification or revocation of the operating license, in accordance with provisions established by rule. At a minimum, the postconstruction documentation shall include all of the following:

(a) Updated disclosure information or a certification as described in section 11123(2)(n)(*i*).

(b) A certification of construction as described in section 11123(2)(n)(*ii*). The department shall require additional certification periodically during the operation or in order to verify proper closure of the site.

(c) A certification of capability signed and sealed by a licensed professional engineer as described in section 11123(2)(n)(*iii*).

(d) Information regarding any deviations from the specific conditions in the operating license.

(e) Proof of financial responsibility.

324.11126 Coordinating and integrating provisions of act; extent.

Sec. 11126. The department shall coordinate and integrate the provisions of this part for purposes of administration and enforcement with appropriate state and federal law including the clean air act, chapter 360, 69 Stat. 322, 42 U.S.C. 7401 to 7431, 7470 to 7479, 7491 to 7492, 7501 to 7509a, 7511 to 7515, 7521 to 7525, 7541 to 7545, 7547 to 7550, 7552 to 7554, 7571 to 7574, 7581 to 7590, 7601 to 7612, 7614 to 7617, 7619 to 7622, 7624 to 7627, 7641 to 7642, 7651 to 7651o, 7661 to 7661f, and 7671 to 7671q; the federal water pollution control act, chapter 758, 86 Stat. 816, 33 U.S.C. 1251 to 1252, 1253 to 1254, 1255 to 1257, 1258 to 1263, 1265 to 1270, 1281, 1282 to 1293, 1294 to 1299, 1311 to 1313, 1314 to 1326, 1328 to 1330, 1341 to 1345, 1361 to 1377, and 1381 to 1387; title XIV of the public health service act, chapter 373, 88 Stat. 1660; the toxic substances control act, Public Law 94-469, 15 U.S.C. 2601 to 2629, 2641 to 2656, 2661 to 2671, and 2681 to 2692; the resource conservation and recovery act of 1976, 42 U.S.C. 6901 to 6987; parts 31, 55, 115, and 121; the safe drinking water act, 1976 PA 399, MCL 325.1001 to 325.1023; the fire prevention code, 1941 PA 207, MCL 29.1 to 29.34; and the hazardous materials transportation act. The coordination and integration shall be effected only to the extent that it can be done in a manner consistent with the goals and policies of this part.

324.11126a Fee schedule; report.

Sec. 11126a. By September 1, 1998, the department shall submit a report to the legislature that recommends a fee schedule to implement this part.

History: Add. 1998, Act 139, Eff. Sept. 1, 1998.

Popular name: Act 451

Popular name: Hazardous Waste Act

Popular name: NREPA

324.11127 Rules generally; exemption; effect of amendment to part or rules, or changes in definitions.

Sec. 11127. (1) The department shall submit to the legislature, after consultation with the department of public health, rules necessary to implement and administer this part. The rules required to be submitted by this subsection shall include, but not be limited to, requirements for generators, transporters, and treatment, storage, and disposal facilities.

(2) The department may promulgate rules that exempt certain hazardous wastes and certain treatment, storage, or disposal facilities from all or portions of the requirements of this part as necessary to obtain or maintain authorization from the United States environmental protection agency under the solid waste disposal act, or upon a determination by the department that a hazardous waste or a treatment, storage, or disposal facility is adequately regulated under other state or federal law and that scientific data supports a conclusion that an exemption will not result in an impairment of the department's ability to protect the public health and the environment. However, an exemption granted pursuant to this subsection shall not result in a level of regulation less stringent than that required under the solid waste disposal act.

(3) If an amendment to this part or the rules promulgated under this part subjects a person to a new or different licensing requirement of this part, the department shall promulgate rules to facilitate orderly and reasonable compliance by that person.

(4) Changes in the definition of hazardous waste contained in section 11103 and the definition of treatment contained in section 11104 effected by the 1982 amendatory act that amended former Act No. 64 of the Public Acts of 1979 do not eliminate any exemption provided to any hazardous waste or to any treatment, storage, or disposal facility under administrative rules promulgated under former Act No. 64 of the Public Acts of 1979 before March 30, 1983. However, these exemptions may be modified or eliminated by administrative rules promulgated after March 30, 1983 under former Act No. 64 of the Public Acts of 1979 or under this part in order that the state may obtain authorization from the United States environmental protection agency under the solid waste disposal act, or to provide adequate protection to the public health or the environment.

History: 1994, Act 451, Eff. Mar. 30, 1995.

Popular name: Act 451

Popular name: Hazardous Waste Act

Popular name: NREPA

Administrative rules: R 299.9101 et seq. of the Michigan Administrative Code.

324.11128 Rules listing hazardous waste and other criteria; revision; removing certain materials from list; public hearings; construction of part, rules, and list.

Sec. 11128. (1) The department shall submit to the legislature proposed rules listing hazardous waste and other criteria as required by this part. The rules shall state the criteria for identifying the characteristics of hazardous waste and for listing the types of hazardous waste, taking into account toxicity, persistence, degradability in nature, potential for accumulation in tissue, and other related factors including flammability, corrosiveness, and other hazardous characteristics. The department shall revise by rule the criteria and listing as necessary. A rule promulgated for the purpose of removing from the list those materials removed from the federal list of regulated materials or removing from management as a hazardous waste those wastes that have been exempted from management under the solid waste disposal act are not required to meet the requirements of sections 41, 42, and 45(2) of the administrative procedures act of 1969, Act No. 306 of the Public Acts of 1969, being sections 24.241, 24.242, and 24.245 of the Michigan Compiled Laws.

(2) Before the department establishes the list, the department shall hold not less than 3 public hearings in different municipalities in the state. To ensure consistency between federal and state requirements, this part,

the rules promulgated by the department, and the list shall be construed to conform as closely as possible to requirements established under the solid waste disposal act.

History: 1994, Act 451, Eff. Mar. 30, 1995.

Popular name: Act 451

Popular name: Hazardous Waste Act

Popular name: NREPA

Administrative rules: R 299.9101 et seq. of the Michigan Administrative Code.

324.11129 Information as public record; confidential information; notice of request for information; demonstration by person regulated; granting or denying request; certain data not confidential; release of confidential information.

Sec. 11129. (1) Except as provided in subsections (2) and (3), information obtained by the department under this part is a public record subject to disclosure as provided in the freedom of information act, 1976 PA 442, MCL 15.231 to 15.246.

(2) A person regulated under this part may designate a record, permit application, other information, or a portion of a record, permit application, or other information furnished to or obtained by the department or its agents as being only for the confidential use of the department. The department shall notify the regulated person of a request for public records under section 5 of the freedom of information act, 1976 PA 442, MCL 15.235, whose scope includes information designated as confidential. The person regulated under this part has 30 days after the receipt of the notice to demonstrate to the department that the information designated as confidential should not be disclosed because the information is a trade secret or secret process or is production, commercial, or financial information the disclosure of which would jeopardize the competitive position of the person from whom the information was obtained and make available information not otherwise publicly available. The department shall grant the request for the information unless the person regulated under this part makes a satisfactory demonstration to the department that the information should not be disclosed. If there is a dispute between the owner or operator of a treatment, storage, or disposal facility and the person requesting information under the freedom of information act, 1976 PA 442, MCL 15.231 to 15.246, the director of the department shall make the decision to grant or deny the request. When the department makes a decision to grant a request, the information requested shall not be released until 3 days have elapsed after the decision is made.

(3) Data on the quantity or composition of hazardous waste generated, transported, treated, stored, or disposed of; air and water emission factors, rates and characterizations; emissions during malfunctions of equipment required under this part on treatment, storage, or disposal facilities; or the efficiency of air and water pollution control devices is not rendered as confidential information by this section.

(4) The department may release any information obtained under this part, including a record, permit application, or other information considered confidential pursuant to subsection (1), to the United States environmental protection agency, the United States agency for toxic substance disease registry, or other agency authorized to receive information, including confidential information, under the solid waste disposal act.

324.11130 Environmental pollution prevention fund; creation; receipt and disposition of assets; investment; administration.

Sec. 11130. (1) The environmental pollution prevention fund is created in the state treasury.

(2) The state treasurer may receive money or other assets from any source for deposit into the environmental pollution prevention fund or into an account within the environmental pollution prevention fund. The state treasurer shall direct the investment of the environmental pollution prevention fund. The state treasurer shall credit to each account within the environmental pollution prevention fund interest and earnings from account investments.

(3) Money remaining in the environmental pollution prevention fund and in any account within the environmental pollution prevention fund at the close of the fiscal year shall not lapse to the general fund. The department shall be the administrator of the fund for auditing purposes.

History: 1994, Act 451, Eff. Mar. 30, 1995;—Am. 1998, Act 139, Eff. Sept. 1, 1998;—Am. 2001, Act 165, Imd. Eff. Nov. 7, 2001;—Am. 2013, Act 73, Eff. Oct. 1, 2013.

Administrative rules: R 299.9101 et seq. of the Michigan Administrative Code.

324.11132 Disposal of certain technologically enhanced naturally occurring radioactive material (TENORM) in landfill prohibited; request for renewal or modification of operating license for disposal of TENORM; requirements; monitoring program; report; maintenance of records.

Sec. 11132. (1) Except as otherwise provided in this section, a person shall not deliver to a landfill in this state for disposal and the owner or operator of a landfill shall not permit disposal in the landfill of TENORM with any of the following:

(a) A concentration of radium-226 more than 50 picocuries per gram.

(b) A concentration of radium-228 more than 50 picocuries per gram.

(c) A concentration of lead-210 more than 260 picocuries per gram.

(2) Except as otherwise specified in the landfill operating license, the owner or operator of a landfill shall not permit a delivery of TENORM for disposal at the landfill unless the generator has provided the following information in writing to the owner or operator of the landfill:

(a) The concentrations of radium-226, radium-228, lead-210, and any other radionuclide identified using gamma spectroscopy, or an equivalent analytical method, in the TENORM based on techniques for representative sampling and waste characterization approved by the department.

(b) An estimate of the total mass of the TENORM.

(c) An estimate of the total radium-226 activity, the total radium-228 activity, and the total lead-210 activity of the TENORM.

(d) The proposed date of delivery.

(3) The department may test TENORM proposed to be delivered to a landfill.

(4) If requested by the owner or operator of a landfill in an application for the renewal of or a major modification to an operating license, the department may authorize with conditions and limits in the operating license the disposal of TENORM with concentrations of radium-226 more than 50 picocuries per gram, radium-228 more than 50 picocuries per gram, or lead-210 more than 260 picocuries per gram, or any combination thereof, but not more than 500 picocuries per gram for each radionuclide. An operating license under this part with such an authorization constitutes a license from the state's radiation control authority under part 135 of the public health code, 1978 PA 368, MCL 333.13501 to 333.13537, if the conditions and procedures for issuance of the operating license under this part are sufficient to satisfy the licensing requirements of part 135 of the public health code, 1978 PA 368, MCL 333.13501 to 333.13537.

(5) A request under subsection (4) shall include all of the following:

(a) A radiation safety program that addresses all of the following:

(*i*) Personnel radiation protection.

(*ii*) Worker training.

(*iii*) Radiation surveys.

(*iv*) Radiation instrument calibration.

(*v*) Receipt and disposal of radioactive material.

(*vi*) Emergency procedures.

(*vii*) Record keeping.

(b) A report evaluating the risks of exposure to residual radioactivity through all relevant pathways using a generally accepted industry model such as the Argonne National Laboratory RESRAD family of codes or, if approved by the department, another model. The report shall evaluate potential radiation doses to site workers and members of the public during site operation and after site closure. The report shall use reasonable scenarios to evaluate the dose to members of the public.

(c) A description of any steps necessary to ensure the annual dose to members of the public during landfill operation and after site closure will be less than 25 millirem.

(d) A description of an environmental monitoring program under subsection (6).

(6) If TENORM is disposed at a landfill, the operator of the landfill shall conduct a monitoring program that complies with all of the following:

(a) Radiological monitoring of site workers and at the landfill property boundary are conducted as specified in the license.

(b) Radium-226, radium-228, and lead-210 are included among the parameters analyzed in leachate and groundwater at the frequency specified in the license.

(c) Penetrating radiation, radioactivity in air, and radon in air are measured as specified in the operating license if the landfill is used to dispose of TENORM with a concentration of radium-226 more than 50 picocuries per gram, radium-228 more than 50 picocuries per gram, or lead-210 more than 260 picocuries per gram.

(d) Results of all monitoring required under this subsection are included in the environmental monitoring reports required under rules promulgated under this part and the facility operating license.

(7) The owner or operator of a landfill shall submit to the department by March 15 each year a report that summarizes the information obtained under subsection (2) for all TENORM disposed at the landfill during the previous calendar year.

(8) The owner or operator of a landfill shall do both of the following:

(a) Ensure that all TENORM is deposited at least 10 feet below the bottom of the future landfill cap.

(b) Maintain records of the location and elevation of TENORM disposed of at the landfill.

History: Add. 2018, Act 688, Eff. Mar. 28, 2019.

Compiler's note: Former MCL 324.11132, which pertained to requirements for hazardous waste transporter business license, was repealed by Act 139 of 1998, Eff. Sept. 1, 1998.

Popular name: Hazardous Waste Act

Popular name: NREPA

324.11132a Transporter; duties; inspection; establishment of standards and requirements by rule.

Sec. 11132a. (1) A transporter shall do all of the following:

(a) Obtain and utilize an environmental protection agency identification number in accordance with the rules promulgated under this part.

(b) If transporting by highway, register and be permitted in accordance with the hazardous materials transportation act and carry a copy of the registration and permit on the vehicle for inspection by the department, the department of state police, a peace officer, or a representative of the United States environmental protection agency.

(c) Comply with the transfer facility operating and financial responsibility requirements as required by the rules promulgated under this part.

(d) Comply with the consolidation and commingling requirements as required by the rules promulgated under this part.

(e) Comply with the vehicle requirements as required by the rules promulgated under this part.

(f) Utilize, complete, and retain a manifest for each shipment of hazardous waste as required by this part and the rules promulgated under this part.

(g) Keep all records readily available for review and inspection by the department, the department of state police, a peace officer, or a representative of the United States environmental protection agency.

(h) Retain all records as required by the rules promulgated under this part for a period of 3 years. The retention period required by this subdivision is automatically extended during the course of any unresolved enforcement action regarding the regulated activity or as required by the department.

(i) Comply with the reporting requirements as required by the rules promulgated under this part.

(j) Comply with the import and export requirements as required by the rules promulgated under this part.

(k) Comply with the requirements regarding hazardous waste discharges as required by the rules promulgated under this part.

(*l*) Comply with the land disposal restriction requirements as required by the rules promulgated under this part.

(m) Comply with the universal waste requirements as required by the rules promulgated under this part.

(n) Keep the outside of all vehicles and accessory equipment free of hazardous waste or hazardous waste constituents.

(2) The department may conduct an inspection to verify that the equipment, location, and methods of a transporter are adequate to effectuate service under this part and the rules promulgated under this part. The department shall establish, by rule, the inspection standards and requirements.

324.11135 Manifest; submission of copy to department; certification; specified destination; determining status of specified waste; exception report; retention period for copy of manifest; extension.

Sec. 11135. (1) A hazardous waste generator shall provide a separate manifest to the transporter for each load of hazardous waste transported to property that is not on the site where it was generated.

(2) A person that fails to provide timely and accurate information or a complete form as provided for in this section is in violation of this part.

(3) A generator shall include on the manifest details as specified by the department and shall at least include a sufficient qualitative and quantitative analysis and a physical description of the hazardous waste to evaluate toxicity and methods of transportation, storage, and disposal. The manifest must include safety precautions as necessary for each load of hazardous waste. The generator shall submit to the department a copy of the manifest within 10 days after the end of the month for each load of hazardous waste transported within that month.

(4) A generator shall certify that the information contained on a manifest prepared by the generator is accurate.

(5) The specified destination of each load of hazardous waste identified on the manifest must be a designated facility.

(6) If a generator does not receive a copy of the manifest with the handwritten signature of the owner or operator of the designated facility within 35 days after the date on which the hazardous waste was accepted by the initial transporter, the generator shall contact the transporter to determine the status of the hazardous waste. If the generator is unable to determine the status of the hazardous waste upon contacting the transporter, the generator shall contact the owner or operator of the designated facility to which the hazardous waste was to be transported to determine the status of the hazardous waste.

(7) A generator shall submit an exception report to the department if the generator has not received a copy of the manifest with the handwritten signature of the owner or operator of the designated facility within 45 days after the date on which the hazardous waste was accepted by the initial transporter. The exception report must include all of the following:

(a) A legible copy of the manifest.

(b) A cover letter signed by the generator or the generator's authorized representative explaining the efforts taken to locate the hazardous waste and the results of those efforts.

(8) A generator shall keep a copy of each manifest signed and dated by the initial transporter for 3 years or until the generator receives a signed and dated copy from the owner or operator of the designated facility that received the hazardous waste. The generator shall keep the copy of the manifest signed and dated by the owner or operator of the designated facility for 3 years. The retention periods required by this subsection are automatically extended during the course of any unresolved enforcement action regarding the regulated activity or as required by the department.

324.11136 Certifying acceptance of waste for transportation; delivery of hazardous waste and manifest; period for keeping copy of manifest; review and inspection of manifest; extension of retention period.

Sec. 11136. (1) The hazardous waste transporter shall certify acceptance of waste for transportation and shall deliver the hazardous waste and accompanying manifest only to the destination specified by the generator on the manifest.

(2) The hazardous waste transporter shall keep a copy of the manifest for a period of 3 years and shall make it readily available for review and inspection by the department, the director of public health, an authorized representative of the director of public health, a peace officer, or a representative of the United States environmental protection agency. The retention period required by this subsection shall be automatically extended during the course of any unresolved enforcement action regarding the regulated activity or as required by the department.

324.11137 Accepting delivery of hazardous waste; condition; duties of owner or operator.

Sec. 11137. The treatment, storage, or disposal facility owner or operator shall accept delivery of hazardous waste only if delivery is accompanied by a manifest properly certified by both the generator and the transporter and the treatment, storage, or disposal facility is the destination indicated on the manifest. The treatment, storage, or disposal facility owner or operator also shall do all of the following:

(a) Certify on the manifest receipt of the hazardous waste and return a signed copy of the manifest to the department within a period of 10 days after the end of the month for all hazardous waste received within that month.

(b) Return a signed copy of the manifest to the generator.

(c) Keep permanent records pursuant to the rules promulgated by the department.

(d) Compile a periodic report of hazardous waste treated, stored, or disposed of as required by the department under rules promulgated by the department.

(e) Retain a copy of each manifest and report described in this section for a period of 3 years and make each copy readily available for review and inspection by the department, the director of public health or a designated representative of the director of public health, a peace officer, or a representative of the United States environmental protection agency. The retention period required by this subdivision is automatically extended during the course of any unresolved enforcement action regarding the regulated activity or as required by the department.

Administrative rules: R 299.9101 et seq. of the Michigan Administrative Code.

324.11138 Generator of hazardous waste; duties; records; report.

Sec. 11138. (1) A generator of hazardous waste shall do all of the following:

(a) Compile and maintain information and records regarding the quantities of hazardous waste generated, characteristics and composition of the hazardous waste, and the disposition of hazardous waste generated.

(b) Utilize proper labeling and containerization of hazardous waste as required by the department.

(c) Provide for the transport of hazardous waste only by a transporter permitted under the hazardous materials transportation act.

(d) Utilize and retain a manifest for each shipment of hazardous waste transported to property that is not on site as required by section 11135 and assure that the treatment, storage, or disposal facility to which the waste is transported is a designated facility.

(e) Provide the information on the manifest as required under section 11135(1) to each person transporting, treating, storing, or disposing of hazardous waste.

(f) Keep all records readily available for review and inspection by the department, the department of state police, a peace officer, or a representative of the United States environmental protection agency.

(g) Retain all records for a period of 3 years. The retention period required by this subdivision is automatically extended during the course of any unresolved enforcement action regarding the regulated activity or as required by the department.

(h) Compile and submit a periodic report of hazardous waste generated, stored, transferred, treated, disposed of, or transported for treatment, storage, or disposal as required by the department.

(2) A generator who also operates a treatment, storage, or disposal facility shall keep records of all hazardous waste produced and treated, stored, or disposed. The generator shall submit a report to the department within a period of 10 days after the end of each month for all waste produced and treated, stored, or disposed.

324.11139 Condition of obtaining operating license for disposal facility; condition of obtaining operating license for landfill.

Sec. 11139. (1) As a condition of obtaining an operating license for a disposal facility pursuant to section 11123, the applicant shall demonstrate to the department that the owner of the property has recorded on the deed to the property or some other document that is normally examined during a title search a notice that will notify in perpetuity any potential purchaser of the following:

(a) That the property has been used to manage hazardous wastes.

(b) That the use of the land should not disturb the final cover, liners, components of any containment system, or the function of the monitoring systems on or in the property.

(c) That the survey plat and records of type, location, and quantity of hazardous waste on or in the property have been filed with the local zoning or land use authority as required by the rules promulgated under this part.

(2) As a condition of obtaining an operating license for a landfill pursuant to section 11123, the applicant shall demonstrate to the department that an instrument imposing a restrictive covenant upon the land involved has been executed by all of the owners of the tract of land upon which the landfill is to be located. The instrument imposing the restrictive covenant shall be filed for record by the department in the office of the register of deeds in the county in which the disposal facility is located. The covenant shall state that the land has been or may be used as a landfill for disposal of hazardous waste and that neither the property owners, agents, or employees, nor any of their heirs, successors, lessees, or assignees shall engage in filling, grading, excavating, building, drilling, or mining on the property following completion of the landfill without authorization of the department. In giving authorization, the department shall consider, at a minimum, the original design, type of operation, hazardous waste deposited, and the state of decomposition of the fill. Before authorizing any activity that would disturb the integrity of the final cover of a landfill, the department must find either that the disturbance of the final cover is necessary to the proposed use of the property and will not increase the potential hazard to human health or the environment or that disturbance of the final cover is necessary to reduce a threat to human health or the environment.

324.11140 Closure and postclosure monitoring and maintenance plan; submission; contents; rules.

Sec. 11140. (1) The owner or operator of a treatment, storage, or disposal facility shall submit a closure plan to the department as part of the application for an operating license under section 11123. In addition, the owner or operator of a disposal facility shall submit a postclosure monitoring and maintenance plan to the department as part of the application. At a minimum, the closure plan shall include a description of how the facility shall be closed, possible uses of the land after closure, anticipated time until closure, estimated time for closure, and each anticipated partial closure. Those facilities described in section 11123(6) and (8) shall

submit a closure and, if required by rule, a postclosure plan with their operating license application.

(2) The department shall promulgate rules regarding notification before closure of a treatment, storage, or disposal facility, length of time permitted for closure, removal and decontamination of equipment, security, groundwater and leachate monitoring system, sampling analysis and reporting requirements, and any other pertinent requirements.

324.11141 Cost of closing and postclosure monitoring and maintenance of facility; methods of assurance; amount; periodic adjustment; violation.

Sec. 11141. An owner or operator of a treatment, storage, or disposal facility shall file, as a part of the application for a license to operate, a surety bond or other suitable instrument or mechanism or establish a secured trust fund, as approved by the department, to cover the cost of closing the treatment, storage, or disposal facility after its capacity is reached or operations have otherwise terminated. In addition, the owner or operator of a disposal facility shall also file a surety bond or other suitable instrument or mechanism or establish a secured trust fund, approved by the department, to cover the cost of postclosure monitoring and maintenance of the facility. An owner or operator may use a combination of bonds, instruments, mechanisms, or funds, as approved by the department, to satisfy the requirements of this section. The bond, instrument, mechanism, or fund, or combination of these methods of assurance, shall be in an amount equal to a reasonable estimate of the cost required to adequately close the facility, based on the level of operations proposed in the operating license application, and, with respect to a disposal facility, to monitor and maintain the site for a period of at least 30 years. The bond, instrument, mechanism, or fund, or the combination of these methods of assurance, shall be adjusted periodically as determined by rule to account for inflation or changes in the permitted level of operations. Failure to maintain the bond, instrument, mechanism, or fund, or combination of these methods of assurance, constitutes a violation of this part.

Administrative rules: R 299.9101 et seq. of the Michigan Administrative Code.

324.11143 Hazardous waste service fund; creation; financing; uses of fund; administration; expenditures; expenses; rules.

Sec. 11143. (1) There is created within the state treasury a hazardous waste service fund of not less than $1,000,000.00 to be financed by appropriations for the following uses:

(a) For hazardous waste emergencies as defined by rule.

(b) For use in ensuring the closure and post closure monitoring and maintenance of treatment, storage, or disposal facilities.

(2) The department shall administer the fund and authorize expenditures upon a finding of actual or potential environmental damage caused by hazardous waste or when the owner or operator of the treatment, storage, or disposal facility is not fulfilling his or her obligation in regard to closure or postclosure monitoring and maintenance of the site and the surety bond, instrument, mechanism, or secured trust fund maintained by the owner or operator of a treatment, storage, or disposal facility as required by section 11141 is inadequate or is no longer in effect.

(3) After an expenditure from the fund, the department immediately shall request the attorney general to begin proceedings to recover any expenditure from the fund from the person responsible for the hazardous waste emergency or the owner or operator of a treatment, storage, or disposal facility who is not fulfilling his or her obligation in regard to closure or postclosure monitoring and maintenance of a facility. If the owner of the property refuses to pay expenses incurred, the expenses shall be assessed against the property and shall be collected and treated in the same manner as taxes assessed under the laws of the state.

(4) The department shall promulgate rules to define a hazardous waste emergency and to establish the method of payment from the fund.

324.11144 Inspection; filing report for licensed facility; complaint or allegation; record; investigation; report; notice of violation or emergency situation.

Sec. 11144. (1) The department shall inspect and file a written report not less than 4 times per year for each licensed treatment, storage, and disposal facility.

(2) A person may register with the department a complaint or allegation of improper action or violation of this part, a rule, or a condition of the license to operate a treatment, storage, or disposal facility.

(3) Upon receipt of a complaint or allegation from a municipality, the department shall make a record of the complaint and shall order an inspection of the treatment, storage, or disposal facility, or other location of alleged violation to investigate the complaint or allegation within not more than 5 business days after receipt of the complaint or allegation. If a complaint or allegation is of a highly serious nature, as determined by the department, the facility or the location of the alleged violation shall be inspected as quickly as possible.

(4) Following an investigation of a complaint or allegation under subsection (3), the department shall make a written report to the municipality within 15 days.

(5) A person who has knowledge that hazardous waste is being treated, disposed of, or stored in violation of this part shall notify the department. A person who has knowledge that an emergency situation exists shall notify the department and the department of community health.

324.11145 Administration and enforcement of part by certified health department; certification procedures; rescission of certification; annual grant; costs; rules.

Sec. 11145. (1) The department may certify a city, county, or district health department to administer and enforce portions of this part but only to an extent consistent with obtaining and maintaining authorization of the state's hazardous waste management program pursuant to sections 3006 to 3009 of subtitle C of the solid waste disposal act, title II of Public Law 89-272, 42 U.S.C. 6926 to 6929. Certification procedures shall be established by the department by rule. The department may rescind certification upon the request of the certified city, county, or district health department, or after reasonable notice and hearing, if the department finds that a certified health department is not administering and enforcing this part as required.

(2) In order for a certified health department to carry out the responsibilities authorized under this part, an annual grant shall be appropriated by the legislature from the general fund of the state to provide financial assistance to each certified health department. A certified health department shall be eligible to receive 100% of its reasonable costs as determined by the department based on criteria established by rule. The department shall promulgate rules for distribution of the appropriated funds.

324.11146 Request for information and records; purpose; court authorization; inspection; samples; probable cause as to violation; search and seizure; forfeiture.

Sec. 11146. (1) Any person who generates, stores, treats, transports, disposes of, or otherwise handles or has handled hazardous waste shall furnish information relating to the hazardous wastes or permit access to and copying of all records relating to the hazardous wastes, or both, if the information and records are required to be kept under this part or the rules promulgated under this part, upon a request of the department, made for the purpose of developing a rule or enforcing or administering this part or a rule promulgated under this part. This subsection does not limit the department's authority to pursue appropriate court authorization in order to obtain information pertaining to enforcement actions under this part.

(2) The department may enter at reasonable times any treatment, storage, or disposal facility or other place where hazardous wastes are or have been generated, stored, treated, disposed of, or transported from and may inspect the facility or other place and obtain from any person samples of the hazardous wastes and samples of the containers or labeling of the wastes for the purpose of developing a rule or enforcing or administering this

part or a rule promulgated under this part.

(3) If the department or a law enforcement official has probable cause to believe that a person is violating this part or a rule promulgated under this part, the department or law enforcement official may search without a warrant a vehicle or equipment that is possessed, used, or operated by that person. The department or a law enforcement official may seize a vehicle, equipment, or other property used or operated in a manner or for a purpose contrary to this part or a rule promulgated under this part. A vehicle, equipment, or other property used in violation of this part or a rule promulgated under this part is subject to seizure and forfeiture as provided in chapter 47 of the revised judicature act of 1961, 1961 PA 236, MCL 600.4701 to 600.4709.

324.11148 Imminent and substantial hazard to health; endangering or causing damage to public health or environment; actions by director; determination.

Sec. 11148. (1) Subject to subsection (2), upon receipt of information that the storage, transportation, treatment, or disposal of hazardous waste may present an imminent and substantial hazard to the health of persons or to the natural resources, or is endangering or causing damage to public health or the environment, the department, after consultation with the director of public health or a designated representative of the director of public health, shall take 1 or more of the following actions:

(a) Issue an order directing the owner or operator of the treatment, storage, or disposal facility, the generator, the transporter, or the custodian of the hazardous waste that constitutes the hazard, to take the steps necessary to prevent the act or eliminate the practice that constitutes the hazard. The order may include permanent or temporary cessation of the operation of a treatment, storage, or disposal facility, generator, or transporter. An order issued under this subdivision may be issued without prior notice or hearing and shall be complied with immediately. An order issued under this subdivision shall not remain in effect more than 7 days without affording the owner or operator or custodian an opportunity for a hearing. In issuing an order calling for corrective action, the department shall specify the precise nature of the corrective action necessary and the specific time limits for performing the corrective action. If corrective action is not completed within the time limit specified and pursuant to the department's requirements, the department shall issue a cease and desist order against the owner or operator of the treatment, storage, or disposal facility, generator, or transporter and initiate action to revoke the operating license and take appropriate action.

(b) Request that the attorney general commence an action to enjoin the act or practice and obtain injunctive relief upon a showing by the department that a person has engaged in the prohibited act or practice.

(c) Revoke a permit, license, or construction permit after reasonable notice and hearing pursuant to the administrative procedures act of 1969, 1969 PA 306, MCL 24.201 to 24.328, if the department finds that a treatment, storage, or disposal facility is not, or has not been, constructed or operated pursuant to the approved plans or this part and the rules promulgated under this part, or the conditions of a license or construction permit.

(2) A determination of an instance of imminent and substantial hazard to the health of persons shall be made by the director of community health.

324.11150 Order of noncompliance; order suspending or restricting license of facility.

Sec. 11150. (1) Upon receipt and verification of information that a licensed storage, treatment, or disposal facility does not have or has not maintained a suitable instrument or mechanism required under section 11141, or that the hazardous waste at the licensed facility exceeds the maximum quantities allowed under the storage, treatment, or disposal facility's license issued under this part, the department may issue an order of noncompliance directing the owner or operator of the storage, treatment, or disposal facility to take steps to eliminate the act or practice that results in a violation listed in this section. An order issued pursuant to this section shall specify the corrective action necessary and may order a licensed facility that has exceeded the maximum quantities of hazardous waste allowed under the terms of the facility's license to cease receiving hazardous waste. The order shall specify the time limit in which corrective action must be completed. If a licensed storage, treatment, or disposal facility comes into compliance with this part following the issuance of an order of noncompliance, the department shall send written verification of compliance to the owner or operator of the facility.

(2) An order of noncompliance issued pursuant to subsection (1) that requires a licensed facility to reduce the quantity of hazardous waste on site and to cease receiving hazardous waste shall not remain in effect for more than 7 days without affording the owner or operator an opportunity for a hearing. If the order remains in effect following the hearing, or if the owner or operator of the facility waives his or her right to a hearing, the owner or operator shall cooperate with the department in developing and implementing a compliance plan to reduce the amount of hazardous waste at the facility. If the department determines that the owner or operator has failed to make reasonable and continuous efforts to comply with the order of noncompliance and the resulting compliance plan, the department may issue an order suspending or restricting the facility's license pursuant to the administrative procedures act of 1969, Act No. 306 of the Public Acts of 1969, being sections 24.201 to 24.328 of the Michigan Compiled Laws. An order provided for in this subsection that suspends or restricts a license following the licensed facility's failure to comply with an order of noncompliance provided for in this section shall not remain in effect for more than 7 days without affording the owner or operator of the facility an opportunity for a hearing to contest the suspension or restriction.

(3) If the owner or operator of a storage, treatment, or disposal facility receives an order of noncompliance issued pursuant to subsection (1) for failing to maintain a suitable instrument or mechanism required under section 11141 and does not make reasonable efforts to comply with the order of noncompliance, the department may issue an order suspending or restricting the facility's license pursuant to Act No. 306 of the Public Acts of 1969. An order provided for in this subsection that suspends or restricts a license following the licensed facility's failure to comply with an order of noncompliance provided for in this section shall not remain in effect for more than 7 days without affording the owner or operator of the facility an opportunity for a hearing to contest the suspension or restriction.

(4) Upon receipt and verification that a storage, treatment, or disposal facility has not maintained a suitable instrument or mechanism required under section 11141 or that hazardous waste at a licensed facility exceeds the maximum quantities allowed under the facility's license and the owner or operator of the facility has previously been issued an order of noncompliance under this section, the department may do either of the following:

(a) Issue a second or subsequent order of noncompliance and proceed in the manner provided for in subsection (2) or (3).

(b) Initiate an action to suspend or restrict the facility's license or permit pursuant to Act No. 306 of the Public Acts of 1969, without first issuing an order of noncompliance.

History: 1994, Act 451, Eff. Mar. 30, 1995.

324.11151 Violation of permit, license, rule, or part; order requiring compliance; civil action; jurisdiction; imposition, collection, and disposition of fine; conduct constituting misdemeanor; penalty; state of mind and knowledge; affirmative defense; preponderance of evidence; definition; action for damages and costs; disposition and use of damages and costs collected; awarding costs of litigation; intervention.

Sec. 11151. (1) If the department finds that a person is in violation of a permit, license, rule promulgated under this part, or requirement of this part including a corrective action requirement of this part, the department may issue an order requiring the person to comply with the permit, license, rule, or requirement of this part including a corrective action requirement of this part. The attorney general or a person may commence a civil action against a person, the department, or a health department certified under section 11145 for appropriate relief, including injunctive relief for a violation of this part including a corrective action requirement of this part, or a rule promulgated under this part. An action under this subsection may be brought in the circuit court for the county of Ingham or for the county in which the defendant is located, resides, or is doing business. The court has jurisdiction to restrain the violation and to require compliance. In addition to any other relief granted under this subsection, the court may impose a civil fine of not more than $25,000.00 for each instance of violation and, if the violation is continuous, for each day of continued noncompliance. A fine collected under this subsection shall be deposited in the general fund of the state.

(2) A person who transports, treats, stores, disposes, or generates hazardous waste in violation of this part, or contrary to a permit, license, order, or rule issued or promulgated under this part, or who makes a false statement, representation, or certification in an application for, or form pertaining to, a permit, license, or order or in a notice or report required by the terms and conditions of an issued permit, license, or order, or a person who violates section 11144(5), is guilty of a misdemeanor punishable by a fine of not more than $25,000.00 for each instance of violation and, if the violation is continuous, for each day of violation, or imprisonment for not more than 1 year, or both. If the conviction is for a violation committed after a first conviction of the person under this subsection, the person is guilty of a misdemeanor punishable by a fine of not more than $50,000.00 for each instance of violation and, if the violation is continuous, for each day of violation, or by imprisonment for not more than 2 years, or both. Additionally, a person who is convicted of a violation under this subsection shall be ordered to pay all costs of corrective action associated with the violation.

(3) Any person who knowingly stores, treats, transports, or disposes of any hazardous waste in violation of subsection (2) and who knows at that time that he or she thereby places another person in imminent danger of death or serious bodily injury, and if his or her conduct in the circumstances manifests an unjustified and inexcusable disregard for human life, or if his or her conduct in the circumstances manifests an extreme indifference for human life, upon conviction, is subject to a fine of not more than $250,000.00 or imprisonment for not more than 2 years, or both, except that any person whose actions constitute an extreme indifference for human life, upon conviction, is subject to a fine of not more than $250,000.00 or imprisonment for not more than 5 years, or both. A defendant that is not an individual and not a governmental entity, upon conviction, is subject to a fine of not more than $1,000,000.00. Additionally, a person who is convicted of a violation under this subsection shall be ordered to pay all costs of corrective action associated with the violation.

(4) For the purposes of subsection (3), a person's state of mind is knowing with respect to:

(a) His or her conduct, if he or she is aware of the nature of his or her conduct.

(b) An existing circumstance, if he or she is aware or believes that the circumstance exists.

(c) A result of his or her conduct, if he or she is aware or believes that his or her conduct is substantially certain to cause danger of death or serious bodily injury.

(5) For purposes of subsection (3), in determining whether a defendant who is an individual knew that his or her conduct placed another person in imminent danger of death or serious bodily injury, both of the following apply:

(a) The person is responsible only for actual awareness or actual belief that he or she possessed.

(b) Knowledge possessed by a person other than the defendant but not by the defendant himself or herself may not be attributed to the defendant. However, in proving the defendant's possession of actual knowledge, circumstantial evidence may be used, including evidence that the defendant took affirmative steps to shield himself or herself from relevant information.

(6) It is an affirmative defense to a prosecution under this part that the conduct charged was consented to by the person endangered and that the danger and conduct charged were reasonably foreseeable hazards of either of the following:

(a) An occupation, a business, or a profession.

(b) Medical treatment or professionally approved methods and the other person had been made aware of the risks involved prior to giving consent.

(7) The defendant may establish an affirmative defense under subsection (6) by a preponderance of the evidence.

(8) For purposes of subsection (3), "serious bodily injury" means each of the following:

(a) Bodily injury that involves a substantial risk of death.

(b) Unconsciousness.

(c) Extreme physical pain.

(d) Protracted and obvious disfigurement.

(e) Protracted loss or impairment of the function of a bodily member, organ, or mental faculty.

(9) In addition to a fine, the attorney general may bring an action in a court of competent jurisdiction to recover the full value of the damage done to the natural resources of this state and the costs of surveillance and enforcement by the state resulting from the violation. The damages and cost collected under this subsection shall be deposited in the general fund if the damages or costs result from impairment or destruction of the fish, wildlife, or other natural resources of the state and shall be used to restore, rehabilitate, or mitigate the damage to those resources in the affected area, and for the specific resource to which the damages occurred.

(10) The court, in issuing a final order in an action brought under this part, may award costs of litigation, including reasonable attorney and expert witness fees to a party, if the court determines that the award is appropriate.

(11) A person who has an interest that is or may be affected by a civil or administrative action commenced under this part has a right to intervene in that action.

Popular name: Act 451

Popular name: Hazardous Waste Act

Popular name: NREPA

324.11153 Site identification number; user charges; violations; maintenance of information; summary of findings; report; definitions.

Sec. 11153. (1) A generator, transporter, or treatment, storage, or disposal facility shall obtain and utilize a site identification number assigned by the United States Environmental Protection Agency or the department. Until October 1, 2025, the department shall assess a site identification number user charge of $50.00 for each site identification number it issues. The department shall not issue a site identification number under this subsection unless the site identification number user charge and the tax identification number for the person applying for the site identification number have been received by the department.

(2) Until October 1, 2025, the department shall annually assess hazardous waste management program user charges as follows:

(a) A generator shall pay a handler user charge that is the highest of the following applicable fees:

(*i*) A generator that generates more than 100 kilograms but less than 1,000 kilograms of hazardous waste in any month during the calendar year shall pay to the department an annual handler user charge of $100.00.

(*ii*) A generator that generates 1,000 kilograms or more of hazardous waste in any month during the calendar year and that generates less than 900,000 kilograms during the calendar year shall pay to the department an annual handler user charge of $400.00.

(*iii*) A generator that generates 1,000 kilograms or more of hazardous waste in any month during the calendar year and that generates 900,000 kilograms or more of hazardous waste during the calendar year shall pay to the department an annual handler user charge of $1,000.00.

(b) An owner or operator of a treatment, storage, or disposal facility for which an operating license is required under section 11123 or for which an operating license is issued under section 11125 shall pay to the department an annual handler user charge of $2,000.00.

(c) A used oil processor or rerefiner, a used oil burner, or a used oil fuel marketer as defined in the rules promulgated under this part shall pay to the department an annual handler user charge of $100.00.

(3) A handler shall pay the handler user charge specified in subsection (2)(a) to (c) for each of the activities conducted during the previous calendar year.

(4) Handler user charges must be paid using a form provided by the department. The handler shall certify that the information on the form is accurate. The department shall send forms to the handlers by March 30 of each year. A handler shall return the completed forms and the appropriate payment to the department by April 30 of each year.

(5) A handler that fails to provide timely and accurate information, a complete form, or the appropriate handler user charge is in violation of this part and is subject to both of the following:

(a) Payment of the handler user charge and an administrative fine of 5% of the amount owed for each month that the payment is delinquent. Any payments received after the fifteenth of the month after the due date are delinquent for that month. However, the administrative fine must not exceed 25% of the total amount owed.

(b) Beginning 5 months after the date payment of the handler user charge is due, if the amount owed under subdivision (a) is not paid in full, at the request of the department, an action by the attorney general for the collection of the amount owed under subdivision (a) and the actual cost to the department in attempting to collect the amount owed under subdivision (a).

(6) The department shall maintain information regarding the site identification number user charges and the handler user charges collected under this section as necessary to satisfy the reporting requirements of subsection (8).

(7) The site identification number user charges and the handler user charges collected under this section and any amounts collected under subsection (5) for a violation of this section must be forwarded to the state treasurer and deposited in the environmental pollution prevention fund created in section 11130.

(8) The department shall evaluate the effectiveness and adequacy of the site identification number user charges and the handler user charges collected under this section relative to the overall revenue needs of the hazardous waste management program administered under this part. Not later than April 1 of each even-numbered year, the department shall submit to the legislature a report summarizing the department's findings under this subsection.

(9) As used in this section:

(a) "Handler" means the person required to pay the handler user charge.

(b) "Handler user charge" means an annual hazardous waste management program user charge provided for in subsection (2).

PART 113
LANDFILL MAINTENANCE TRUST FUND

324.11301 Definitions.

Sec. 11301. As used in this part:

(a) "Fund" means the landfill maintenance trust fund created in section 11302 .

(b) "Response activity" means response activity as defined in part 201.

History: 1994, Act 451, Eff. Mar. 30, 1995.

Compiler's note: For transfer of authority, powers, duties, functions, and responsibilities of the Waste Management Division to the Director of the Michigan Department of Environmental Quality, see E.R.O. No. 1995-16, compiled MCL 324.99901 of the Michigan Compiled Laws.

Popular name: Act 451

Popular name: NREPA

324.11302 Landfill maintenance trust fund; creation; separate fund; revenue.

Sec. 11302. (1) There is hereby created the landfill maintenance trust fund. The fund shall be established as a separate fund in the department of treasury.

(2) The fund shall receive as revenue money from any source not to exceed $500,000.00, as appropriated by the legislature.

History: 1994, Act 451, Eff. Mar. 30, 1995.

Compiler's note: For transfer of authority, powers, duties, functions, and responsibilities of the Waste Management Division to the Director of the Michigan Department of Environmental Quality, see E.R.O. No. 1995-16, compiled at MCL 324.99901 of the Michigan Compiled Laws.

Popular name: Act 451

Popular name: NREPA

324.11303 Expenditure of interest and earnings of fund; manner of maintaining corpus of fund.

Sec. 11303. (1) The interest and earnings of the fund shall be expended by the department to monitor the effectiveness of response activity and to provide necessary long-term maintenance only at those landfills that are sites of polybrominated biphenyls contamination where the department has undertaken response activity through the use of funds appropriated by the state from a judicially approved settlement.

(2) The corpus of the fund shall be maintained by the state treasurer in a manner that will provide for future disbursements to the department to ensure that the sites described in subsection (1) are properly monitored and maintained for as long as considered necessary by the department to assure the protection of the public health, safety, welfare, and the environment.

History: 1994, Act 451, Eff. Mar. 30, 1995.

Popular name: Act 451

Popular name: NREPA

324.11304 Investment of fund.

Sec. 11304. The state treasurer shall direct the investment of the fund in the same manner as surplus funds are invested.

History: 1994, Act 451, Eff. Mar. 30, 1995.

Popular name: Act 451

Popular name: NREPA

PART 115
SOLID WASTE MANAGEMENT

SUBPART 1
GENERAL AND DEFINITIONS

324.11501 Meanings of words and phrases.

Sec. 11501. For purposes of this part, the words and phrases defined in sections 11502 to 11506 have the meanings ascribed to them in those sections.

History: 1994, Act 451, Eff. Mar. 30, 1995.

Compiler's note: For transfer of authority, powers, duties, functions, and responsibilities of the Waste Management Division to the Director of the Michigan Department of Environmental Quality, see E.R.O. No. 1995-16, compiled at MCL 324.99903 of the Michigan Compiled Laws.

Popular name: Act 451

Popular name: NREPA

Popular name: Solid Waste Act

324.11502 Definitions; A to C.

Sec. 11502. (1) "Agreement" means a written contract.

(2) "Agronomic rate" means a rate that meets both of the following requirements:

(a) Is generally recognized by the agricultural community or is calculated for a particular area of land to improve the physical nature of soil, such as structure, tilth, water retention, pH, or porosity, or to provide macronutrients or micronutrients in an amount not materially in excess of that needed by the crop, forest, or vegetation grown on the land.

(b) Takes into account and minimizes runoff of beneficial use by-products to surface water or neighboring

properties, the percolation of excess nutrients beyond the root zone, and the liberation of metals from the soil into groundwater.

(3) "Anaerobic digester" means a facility that uses microorganisms to break down biodegradable material in the absence of oxygen, producing methane and an organic product.

(4) "Animal bedding" means a mixture of manure and wood chips, sawdust, shredded paper or cardboard, hay, straw, or other similar fibrous materials normally used for bedding animals.

(5) "Ashes" means the residue from the burning of wood, scrap wood, tires, biomass, wastewater sludge, fossil fuels including coal or coke, or other combustible materials.

(6) "Benchmark recycling standards" means all of the following requirements:

(a) By January 1, 2026, at least 90% of single-family dwellings in urban areas as identified by the most recent federal decennial census and, by January 1, 2028, at least 90% of single-family dwellings in municipalities with more than 5,000 residents have access to curbside recycling that meets all of the following criteria:

(*i*) One or more recyclable materials, as determined by the county's material management plan, that are typically collected through curbside recycling programs, are collected at least twice per month.

(*ii*) If recyclable materials are not collected separately, the mixed load is delivered to a solid waste processing and transfer facility and the recyclable materials are separated from material to be sent to a solid waste disposal area.

(*iii*) Recyclable materials collected are delivered to a materials recovery facility that complies with part 115 or are managed appropriately at an out-of-state recycling facility.

(*iv*) The curbside recycling is provided by the municipality or the resident has access to curbside recycling by the resident's chosen hauler.

(b) By January 1, 2032, the following additional criteria:

(*i*) In counties with a population of less than 100,000, there is at least 1 drop-off location for each 10,000 residents without access to curbside recycling at their dwelling, and the drop-off location is available at least 24 hours per month.

(*ii*) In counties with a population of 100,000 or more, there is at least 1 drop-off location for each 50,000 residents without access to curbside recycling at their dwelling, and the drop-off location is available at least 24 hours per month.

(7) "Beneficial use 1" means use as aggregate, road material, or building material that in ultimate use is or will be bonded or encapsulated by cement, limes, or asphalt.

(8) "Beneficial use 2" means use as any of the following:

(a) Construction fill at nonresidential property that meets all of the following requirements:

(*i*) Is placed at least 4 feet above the seasonal groundwater table.

(*ii*) Does not come into contact with a surface water body.

(*iii*) Is covered by concrete, asphalt pavement, or other material approved by the department.

(*iv*) Does not exceed 4 feet in thickness, except for areas where exceedances are incidental to variations in the existing topography. This subparagraph does not apply to construction fill placed underneath a building or other structure.

(b) Road base or soil stabilizer that does not exceed 4 feet in thickness except for areas where exceedances are incidental to variations in existing topography, is placed at least 4 feet above the seasonal groundwater table, does not come into contact with a surface water body, and is covered by concrete, asphalt pavement, or other material approved by the department.

(c) Road shoulder material that does not exceed 4 feet in thickness except for areas where exceedances are incidental to variations in existing topography, is placed at least 4 feet above the seasonal groundwater table, does not come into contact with a surface water body, is sloped, and is covered by asphalt pavement, concrete, 6 inches of gravel, or other material approved by the department.

(9) "Beneficial use 3" means applied to land as a fertilizer or soil conditioner under part 85 or a liming material under 1955 PA 162, MCL 290.531 to 290.538, if all of the following requirements are met:

(a) The material is applied at an agronomic rate consistent with GAAMPS.

(b) The use, placement, or storage at the location of use does not do any of the following:

(*i*) Violate part 55 or create a nuisance.

(*ii*) Cause groundwater to no longer be fit for 1 or more protected uses as defined in R 323.2202 of the MAC.

(*iii*) Cause a violation of a part 31 surface water quality standard.

(10) "Beneficial use 4" means any of the following uses:

(a) To stabilize, neutralize, solidify, or otherwise treat waste for ultimate disposal at a facility licensed under this part or part 111.

(b) To treat wastewater, wastewater treatment sludge, or wastewater sludge in compliance with part 31 or the federal water pollution control act, 33 USC 1251 to 1388, at a private or publicly owned wastewater treatment plant.

(c) To stabilize, neutralize, solidify, cap, or otherwise remediate hazardous substances or contaminants as part of a response activity in compliance with part 201, part 213, or the comprehensive environmental response, compensation and liability act of 1980, 42 USC 9601 to 9657, or a corrective action in compliance with part 111 or the solid waste disposal act, 42 USC 6901 to 6992k.

(d) As construction material at a landfill licensed under this part.

(e) As alternate daily cover at a licensed landfill in compliance with an operational plan approved pursuant to R 299.4429 of the MAC.

(11) "Beneficial use 5" means blended with inert materials or with compost and used to manufacture soil.

(12) "Beneficial use by-product" means the following materials if the materials are stored for beneficial use or are used beneficially as specified and the requirements of section 11551(1) are met:

(a) Coal bottom ash or wood ash used for beneficial use 3 or wood ash or coal ash, except for segregated flue gas desulfurization material, used for beneficial use 1, 2, or 4.

(b) Pulp and paper mill ash used for beneficial use 1, 2, 3, or 4.

(c) Mixed wood ash used for beneficial use 1, 2, 3, or 4.

(d) Cement kiln dust used as a flue gas scrubbing reagent or for beneficial use 1, 2, 3, or 4.

(e) Lime kiln dust used as a flue gas scrubbing reagent or for beneficial use 1, 2, 3, or 4.

(f) Stamp sands used for beneficial use 1 or 2.

(g) Foundry sand from ferrous or aluminum foundries used for beneficial use 1, 2, 3, 4, or 5.

(h) Pulp and paper mill material, other than the following, used for beneficial use 3:

(*i*) Rejects, from screens, cleaners, and mills dispersion equipment, containing more than de minimis amounts of plastic.

(*ii*) Scrap paper.

(i) Spent media from sandblasting, with uncontaminated sand, newly manufactured, unpainted steel used for beneficial use 1 or 2.

(j) Dewatered concrete grinding slurry from public transportation agency road projects used for beneficial use 1, 2, 3, or 4.

(k) Lime softening residuals from the treatment and conditioning of water for domestic use or from a community water supply used for beneficial use 3 or 4.

(*l*) Soil washed or otherwise removed from sugar beets that is used for beneficial use 3.

(m) Segregated flue gas desulfurization material used for beneficial use 1 or 3.

(n) Materials and uses approved by the department under section 11553(3) or (4). Approval of materials and uses by the department under section 11553(3) or (4) does not require the use of those materials by any governmental entity or any other person.

(13) "Beverage container" means an airtight metal, glass, paper, or plastic container, or a container composed of a combination of these materials, which, at the time of sale, contains 1 gallon or less of any of the following:

(a) A soft drink, soda water, carbonated natural or mineral water, or other nonalcoholic carbonated drink.

(b) A beer, ale, or other malt drink of whatever alcoholic content.

(c) A mixed wine drink or a mixed spirit drink.

(14) "Biosolids" means a solid, semisolid, or liquid that has been treated to meet the requirements of R 323.2414 of the MAC. Biosolids include, but are not limited to, scum or solids removed in a primary, secondary, or advanced wastewater treatment process and a derivative of the removed scum or solids.

(15) "Bond" means a financial instrument guaranteeing performance, including a surety bond from a surety company authorized to transact business in this state, a certificate of deposit, a cash bond, an irrevocable letter of credit, an insurance policy, a trust fund, an escrow account, or a combination of any of these instruments in favor of the department.

(16) "Captive facility" means a landfill or coal ash impoundment that accepts for disposal, and accepted for disposal during the previous calendar year, only nonhazardous industrial waste generated only by the owner of the landfill or coal ash impoundment.

(17) "Captive type III landfill" means a type III landfill that meets either of the following requirements:

(a) Accepts for disposal only nonhazardous industrial waste generated only by the owner of the landfill.

(b) Is a nonhazardous industrial waste landfill described in section 11525(4)(a), (b), or (c).

(18) "Cement kiln dust" means particulate matter collected in air emission control devices serving Portland cement kilns.

(19) "Certificate of deposit" means a certificate of deposit that meets all of the following requirements:

(a) Is negotiable.

(b) Is held by a bank or other financial institution regulated and examined by a state or federal agency.

(c) Is fully insured by an agency of the United States government.

(d) Is in the sole name of the department.

(e) Has a maturity date of not less than 1 year.

(f) Is renewed not later than 60 days before the maturity date.

(20) "Certified health department" means a city, county, or district department of health certified under section 11507a.

(21) "Chemical recycling" means a manufacturing process for the conversion of source separated post-use polymers into basic raw materials, feedstocks, chemicals, and other products through processes that include pyrolysis (catalytic and noncatalytic), gasification, depolymerization, hydrogenation, solvolysis, and other similar chemical technologies. The recycled products produced include, but are not limited to, monomers, oligomers, plastics, plastic and chemical feedstocks, basic and unfinished chemicals, waxes, lubricants, coatings, and adhesives. For the purposes of part 115, chemical recycling does not include incineration of plastics, waste-to-energy processes, or activities performed at a facility excluded from the definition of materials management facility by section 11504(25). Products sold as fuel are not recycled products. For purposes of part 115, chemical recycling is not solid waste management, solid waste processing, waste diversion, resource recovery, municipal solid waste incineration or combustion, the conversion of waste to energy, or identification, separation, or sorting of recyclable materials through mechanical processes.

(22) "Chemical recycling facility" means a manufacturing facility that receives, stores, and, using chemical recycling, converts post-use polymers. A chemical recycling facility is a manufacturing facility subject to applicable requirements of this act and rules promulgated under this act concerning air, water, waste, and land use or any other applicable regulation. A chemical recycling facility is not a solid waste processing plant, solid waste transfer facility, waste diversion center, resource recovery facility, or municipal solid waste incinerator.

(23) "Class 1 compostable material" means any of the following:

(a) Yard waste.

(b) Wood.

(c) Food waste.

(d) Paper products.

(e) Manure or animal bedding.

(f) Anaerobic digester digestate that does not contain free liquids.

(g) Compostable products.

(h) Dead animals unless infectious or managed under 1982 PA 239, MCL 287.651 to 287.683.

(i) Spent grain from breweries.

(j) Paunch.

(k) Food processing residuals.

(*l*) Aquatic plants.

(m) Any other material, including, but not limited to, fat, oil, or grease, that the department classifies as class 1 compostable material under section 11562 or that is approved as part of a large composting facility operations plan.

(n) A mixture of any of these materials.

(24) "Class 1 composting facility" means a composting facility where only class 1 compostable material is composted.

(25) "Class 2 compostable material" means mixed municipal solid waste, biosolids, state or federal controlled substances, and all other compostable material that is not listed or approved as a class 1 compostable material.

(26) "Class 2 composting facility" means a composting facility where class 2 compostable material or a combination of class 2 compostable material and class 1 compostable material is composted.

(27) "Coal ash", subject to subsection (28), means any of the following:

(a) Material recovered from systems for the control of air pollution from, or the noncombusted residue remaining after, the combustion of coal or coal coke, including, but not limited to, coal bottom ash, fly ash, boiler slag, flue gas desulfurization materials, or fluidized-bed combustion ash.

(b) Residuals removed from coal ash impoundments.

(28) For beneficial use 2, coal ash does not include coal fly ash except for the following if used at nonresidential property:

(a) Class C fly ash under ASTM C618-12A, "Standard Specification for Coal Fly Ash and Raw or Calcined Natural Pozzolan for Use in Concrete", by ASTM International.

(b) Class F fly ash under ASTM C618-12A, if that fly ash forms a pozzolanic-stabilized mixture by being blended with lime, Portland cement, or cement kiln dust.

(c) A combination of class C fly ash and class F fly ash under ASTM C618-12A if that combination forms a pozzolanic-stabilized mixture by being blended with lime, Portland cement, or cement kiln dust and is used as a road base, soil stabilizer, or road shoulder material under beneficial use 2.

(29) "Coal ash impoundment" means a natural topographic depression, man-made excavation, or diked area that is designed to hold and, after October 14, 2015, accepted an accumulation of coal ash and liquids or other materials approved by the department for treatment, storage, or disposal and did not receive department approval of its closure. A coal ash impoundment in existence before October 14, 2015 that receives waste after December 28, 2018, and that does not have a permit pursuant to part 31, is considered an open dump beginning December 28, 2020 unless the owner or operator has completed closure of the coal ash impoundment under section 11519b or obtained an operating license for the coal ash impoundment. Coal ash impoundment includes an existing coal ash impoundment.

(30) "Coal ash landfill" means a landfill that is used for the disposal of coal ash and may also be used for the disposal of inert materials and construction material used for purposes of meeting the definition of beneficial use 4, or other materials approved by the department.

(31) "Coal bottom ash" means ash particles from the combustion of coal that are too large to be carried in flue gases and that collect on furnace walls or at the bottom of the furnace.

(32) "Collection center" means a tract of land, building, unit, or appurtenance or combination thereof that is used to collect junk motor vehicles and farm implements under section 11530.

(33) "Commercial waste", subject to subsection (34), means solid waste generated by nonmanufacturing activities, including, but not limited to, solid waste from any of the following:

(a) Stores.

(b) Offices.

(c) Restaurants.

(d) Warehouses.

(e) Multifamily dwellings.

(f) Hotels and motels.

(g) Bunkhouses.

(h) Ranger stations.

(i) Crew quarters.

(j) Campgrounds.

(k) Picnic grounds.

(*l*) Day use recreation areas.

(m) Hospitals.

(n) Schools.

(34) Commercial waste does not include household waste, hazardous waste, or industrial waste.

(35) "Compost additive" means any of the following materials if added to finished compost to improve the quality of the finished compost:

(a) Products designed to enhance finished compost.

(b) Sugar beet limes.

(c) Wood ash.

(d) Drywall.

(e) Synthetic gypsum.

(f) Other materials approved by the department.

(36) "Compostable material" means organic material that can be converted to finished compost. Compostable material comprises class 1 compostable material and class 2 compostable material.

(37) "Compostable products" means utensils, food service containers, and other packaging and products that are certified by the Biodegradable Products Institute or an equivalent, recognized, third-party, independent verification body, as meeting either of the following requirements:

(a) ASTM D6400, "Standard Specification for Labeling of Plastics Designed to Be Aerobically Composted in Municipal or Industrial Facilities", by ASTM International.

(b) ASTM D6868, "Standard Specification for Labeling of End Items that Incorporate Plastics and Polymers as Coatings or Additives with Paper and Other Substrates Designed to Be Aerobically Composted in Municipal or Industrial Facilities", by ASTM International.

(38) "Composting" means a process of biological decomposition of class 1 compostable material or class 2 compostable material that meets the following requirements:

(a) Is carried out as provided in either of the following:

(*i*) In a system using vermiculture.

(*ii*) Under controlled aerobic conditions using mechanical handling techniques such as physical turning, windrowing, or aeration or using other management techniques approved by the department. For the purposes of this subparagraph, aerobic conditions may include the presence of insignificant anaerobic zones within the composting material.

(b) Stabilizes the organic fraction into a material that can be stored, handled, and used easily, safely, and in an environmentally acceptable manner.

(39) "Composting facility" means a facility where composting occurs. However, composting facility does not include a site where only composting described in section 11555(1)(a), (b), or (e) occurs.

(40) "Consistency review" means evaluation of the administrative and technical components of an application for a permit or license or evaluation of operating conditions in the course of inspection, for the purpose of determining consistency with the requirements of part 115 and approved plans and specifications.

(41) "Corrective action" means the investigation, assessment, cleanup, removal, containment, isolation, treatment, or monitoring of constituents, as defined in a materials management facility's approved hydrogeological monitoring plan, released into the environment from a materials management facility, or the taking of other actions related to the release as may be necessary to prevent, minimize, or mitigate injury to the public health, safety, or welfare, the environment, or natural resources that is consistent with subtitle D of the solid waste disposal act, 42 USC 6941 to 6949a, and regulations promulgated thereunder.

(42) "County approval agency" or "CAA" means the county board of commissioners, the municipalities in the county, or the regional planning agency, whichever submits a notice of intent to prepare a materials management plan under section 11571.

(43) "County board of commissioners" means the county board of commissioners or the elected county executive, as appropriate.

(44) "Custodial care" includes all of the following:

(a) Preventing deep-rooted vegetation from establishing on the final cover.

(b) Repairing erosion damage on the final cover.

(c) Maintaining stormwater controls.

(d) Maintaining limited access to the site.

History: 1994, Act 451, Eff. Mar. 30, 1995;—Am. 1996, Act 359, Imd. Eff. July 1, 1996;—Am. 2004, Act 35, Imd. Eff. Mar. 19, 2004;—Am. 2007, Act 212, Eff. Mar. 26, 2008;—Am. 2014, Act 178, Eff. Sept. 16, 2014;—Am. 2018, Act 640, Imd. Eff. Dec. 28, 2018;—Am. 2022, Act 243, Eff. Mar. 29, 2023.

Popular name: Act 451

Popular name: NREPA

Popular name: Solid Waste Act

324.11503 Definitions; D to G.

Sec. 11503. (1) "De minimis" refers to a small amount of material or number of items, as applicable, incidentally commingled with inert material for beneficial use by-products or with source separated material or incidentally disposed of with other solid waste.

(2) "Department", subject to section 11554, means the department of environment, Great Lakes, and energy.

(3) "Depolymerization" means a manufacturing process in which post-use polymers are broken into smaller molecules such as monomers and oligomers or raw, intermediate, or final products, plastic and chemical feedstocks, basic and unfinished chemicals, waxes, lubricants, or coatings.

(4) "Designated planning agency" or "DPA" means the planning agency designated under section 11571(10). Designated planning agency does not mean a regional planning agency unless the county approval agency identifies the regional planning agency as the DPA.

(5) "Director" means the director of the department.

(6) "Discharge" includes, but is not limited to, spilling, leaking, pumping, pouring, emitting, emptying, discharging, injecting, escaping, leaching, dumping, or disposing of a substance into the environment that is or may become injurious to the environment, natural resources, or the public health, safety, or welfare.

(7) "Disposal area", subject to section 11555(6), means 1 or more of the following that accepts solid waste at a location as defined by the boundary identified in its construction permit, in engineering plans approved by the department, or in a notification or registration:

(a) A solid waste processing and transfer facility.

(b) A municipal solid waste incinerator.

(c) A landfill.

(d) A coal ash impoundment.

(e) Any other solid waste handling or disposal facility utilized in the disposal of solid waste, as determined by the department.

(8) "Diverted waste" means waste that meets all of the following requirements:

(a) Is generated by households, businesses, or governmental entities.

(b) Can lawfully be disposed of at a licensed landfill or municipal solid waste incinerator.

(c) Is separated from other waste.

(d) Is 1 or more of the following:

(*i*) Hazardous material.

(*ii*) Liquid waste.

(*iii*) Pharmaceuticals.

(*iv*) Electronics.

(*v*) Batteries.

(*vi*) Light bulbs.

(*vii*) Pesticides.

(*viii*) Thermostats, switches, thermometers, or other devices that contain elemental mercury.

(*ix*) Sharps.

(*x*) Other waste approved by the department that can be readily separated from solid waste for diversion to preferred methods of management and disposal.

(9) "Enforceable mechanism" means a legal method that authorizes this state, a county, a municipality, or another person to take action to guarantee compliance with a materials management plan. Enforceable mechanisms include agreements, laws, ordinances, rules, and regulations.

(10) "EPA" means the United States Environmental Protection Agency.

(11) "Escrow account" means an account that is managed by a bank or other financial institution whose account operations are regulated and examined by a federal or state agency and that complies with section 11523b.

(12) "Existing coal ash impoundment" means a coal ash impoundment that received coal ash before December 28, 2018, and that, as of that date, had not initiated elements of closure that include dewatering, stabilizing residuals, or placement of an engineered cover or otherwise closed pursuant to its part 31 permit or pursuant to R 299.4309 of the MAC and, therefore, is capable of receiving coal ash in the future. A coal ash impoundment that has initiated closure is considered an open dump unless the owner or operator has completed closure of the coal ash impoundment under section 11519b or obtained an operating license for the coal ash impoundment by December 28, 2020.

(13) "Existing coal ash landfill" means a coal ash landfill to which either of the following applies:

(a) The landfill received coal ash both before and after October 19, 2015.

(b) Construction of the landfill commenced before October 19, 2015, and the landfill received coal ash on or after October 19, 2015. For the purposes of this subdivision, construction of a landfill commenced before October 19, 2015 if both of the following requirements were met before that date:

(*i*) The owner or operator obtained the federal, state, and local approvals or permits necessary to begin physical construction.

(*ii*) A continuous, on-site physical construction program began.

(14) "Existing disposal area" means any of the following:

(a) A disposal area that has in effect a construction permit under this part.

(b) A disposal area that had engineering plans approved by the director before January 11, 1979.

(c) An industrial waste landfill that was authorized to operate by the director or by court order before October 9, 1993.

(d) An industrial waste pile that was located at the site of generation on October 9, 1993.

(e) An existing coal ash impoundment.

(15) "Existing landfill unit" or "existing unit" means any landfill unit that received solid waste on or before October 9, 1993.

(16) "Farm" means that term as defined in section 2 of the Michigan right to farm act, 1981 PA 93, MCL 286.472.

(17) "Farm operation" means that term as defined in section 2 of the Michigan right to farm act, 1981 PA 93, MCL 286.472.

(18) "Fats, oils, or greases" means organic polar compounds that meet all of the following requirements:

(a) Contain multiple carbon chain triglyceride molecules.

(b) Are derived from animal or plant sources.

(c) Are generated at food manufacturing and food service establishments.

(d) Are generated by-products from food preparation activities.

(19) "Financial assurance" means the mechanisms used to demonstrate that the funds necessary to meet the cost of closure, postclosure maintenance and monitoring, and corrective action will be available to the department whenever they are needed for those purposes.

(20) "Financial test" means a corporate or local government financial test or guarantee approved under subtitle D of the solid waste disposal act, 42 USC 6941 to 6949a and regulations promulgated thereunder. An owner or operator may use a single financial test for more than 1 facility. Information submitted to the department to document compliance with the financial test shall include a list showing the name and address of each facility and the amount of funds assured by the financial test for each facility. For purposes of the financial test, the owner or operator shall aggregate the sum of the closure, postclosure, and corrective action costs it seeks to assure with any other environmental obligations assured by a financial test under state or federal law.

(21) "Finished compost" means organic matter that meets all of the following requirements:

(a) Has undergone biological decomposition and has been stabilized to a degree that is beneficial to plant growth without creating a nuisance.

(b) Is used or sold for use as a soil amendment, fertilizer, topsoil blend, growing medium amendment, or other similar use.

(c) With any compost additives, does not contain more than 1%, by weight, of foreign matter that will remain on a 4-millimeter screen or more than a de minimis amount of viable weed seeds.

(22) "Flue gas desulfurization material" means the material recovered from air pollution control systems that capture sulfur dioxide from the combustion of wood, coal, or fossil fuels, or other combustible materials, if the other combustible materials constitute less than 50% by weight of the total material combusted and the department determines in writing that the other combustible materials do not materially affect the character of the residue. Flue gas desulfurization material includes synthetic gypsum.

(23) "Food processing residuals" means any of the following:

(a) Residuals of fruits, vegetables, aquatic plants, or field crops, including such residuals generated by a brewery or distillery.

(b) Otherwise unusable parts of fruits, vegetables, aquatic plants, or field crops from the processing thereof.

(c) Otherwise unusable food products that do not meet size, quality, or other product specifications and that were intended for human or animal consumption.

(24) "Food waste" means an accumulation of animal or vegetable matter that was used or intended for human or animal food or that results from the preparation, use, cooking, dealing in, or storing of animal or vegetable matter for human or animal food if the accumulation is or is intended to be discarded. Food waste does not include fats, oils, or greases.

(25) "Foreign matter" means organic and inorganic constituents, other than sticks and stones, that will not readily decompose during composting and do not aid in producing compost, including glass, textiles, rubber, metal, ceramics, noncompostable plastic, and painted, laminated, or treated wood.

(26) "Foundry sand" means silica sand used in the metal casting process, including binding material or carbonaceous additives, from ferrous or nonferrous foundries.

(27) "Functional stability" means the stage at which a landfill does not pose a significant risk to the environment, natural resources, or the public health, safety, or welfare at a point of exposure, in the absence of active control systems.

(28) "GAAMPS" means generally accepted agricultural and management practices under the Michigan right to farm act, 1981 PA 93, MCL 286.471 to 286.474.

(29) "Gasification" means a manufacturing process in which post-use polymers are heated in an oxygen-controlled atmosphere and converted to syngas (carbon monoxide (CO) and hydrogen (H2)) and the syngas is converted into valuable raw materials or intermediate or final products, including, but not limited to, plastic monomers, chemicals, waxes, lubricants, coatings, and plastic and chemical feedstocks.

(30) "General permit" means a permit that does both of the following:

(a) Covers a category of activities that the department determines will not negatively impact public health, safety, or welfare and will not have more than minimal short-term adverse impacts on the environment or natural resources.

(b) Includes requirements for a site plan, an operations plan, a facility final closure plan, and financial assurance.

(31) "General use compost" means finished compost that is produced from 1 of the following:

(a) Class 1 compostable material.

(b) Class 2 compostable material, including any combination of class 1 compostable material and class 2 compostable material, that meets the requirements listed in section 11553(5).

History: 1994, Act 451, Eff. Mar. 30, 1995;—Am. 1996, Act 359, Imd. Eff. July 1, 1996;—Am. 1998, Act 466, Imd. Eff. Jan. 4, 1999;—Am. 2007, Act 212, Eff. Mar. 26, 2008;—Am. 2014, Act 24, Imd. Eff. Mar. 4, 2014;—Am. 2014, Act 178, Eff. Sept. 16, 2014;—Am. 2018, Act 640, Imd. Eff. Dec. 28, 2018;—Am. 2020, Act 85, Imd. Eff. May 15, 2020;—Am. 2022, Act 243, Eff. Mar. 29, 2023.

Popular name: Act 451

Popular name: NREPA

Popular name: Solid Waste Act

324.11504 Definitions; H to P.

Sec. 11504. (1) "Hauler" means a person who owns or operates a managed materials transporting unit.

(2) "Host community approval" means an agreement, resolution, letter, or other document indicating that the governing body of the municipality where the materials management facility is proposed to be located has reviewed and approved the development of that specific facility.

(3) "Household waste" means solid waste that is generated from single-family dwellings. Household waste does not include commercial waste, industrial waste, hazardous waste, or construction and demolition waste.

(4) "Hydrogenation" means the chemical reaction between molecular hydrogen and an element or compound, ordinarily in the presence of a catalyst.

(5) "Industrial waste" means solid waste that is generated by manufacturing or industrial processes at an industrial site and that is not a hazardous waste regulated under part 111.

(6) "Industrial waste landfill" means a landfill that is used for the disposal of any of the following, as applicable:

(a) Industrial waste that has been characterized for hazard and that has been determined to be nonhazardous under part 111.

(b) If the landfill is an existing disposal area, nonhazardous solid waste that originates from an industrial site.

(7) "Inert material" means any of the following:

(a) Rock.

(b) Trees, stumps, and other similar land-clearing debris, if all of the following conditions are met:

(*i*) The debris is buried on the site of origin or another site, with the approval of the owner of the site.

(*ii*) The debris is not buried in a wetland or floodplain.

(*iii*) The debris is placed at least 3 feet above the groundwater table as observed at the time of placement.

(*iv*) The placement of the debris does not violate federal, state, or local law or create a nuisance.

(c) Uncontaminated excavated soil or dredged sediment. Excavated soil or dredged sediment is considered uncontaminated if it does not contain more than de minimis amounts of solid waste and any of the following apply:

(*i*) The soil or sediment is not contaminated by a hazardous substance as a result of human activity. Soil or sediment that naturally contains elevated levels of hazardous substances above unrestricted residential or any other part 201 generic soil cleanup criteria is not considered contaminated for purposes of this subdivision. A soil or sediment analysis is not required under this subparagraph if, based on past land use, there is no reason to believe that the soil or sediment is contaminated.

(*ii*) For any hazardous substance that could reasonably be expected to be present as a result of past land use and human activity, the soil or sediment does not exceed the background concentration, as that term is defined in section 20101.

(*iii*) For any hazardous substance that could reasonably be expected to be present as a result of past land use and human activity, the soil or sediment falls below part 201 generic residential soil direct contact cleanup criteria and hazardous substances in leachate from the soil or sediment, using, at the option of the generator, EPA method 1311, "Toxicity Characteristic Leaching Procedure", EPA method 1312, "Synthetic Precipitation Leaching Procedure", or any other leaching protocol approved by the department, fall below part 201 generic residential health based groundwater drinking water values or criteria, and the soil or sediment would not cause a violation of any surface water quality standard established under part 31 at the area of placement, disposal, or use.

(d) Excavated soil from a site of environmental contamination, corrective action, or response activity if the soil is not a listed hazardous waste under part 111 and if hazardous substances in the soil do not exceed generic soil cleanup criteria for unrestricted residential use as defined in section 20101 or background concentration as defined in section 20101, as applicable.

(e) Construction brick, masonry, pavement, or broken concrete that is reused for fill, rip rap, slope stabilization, or other construction, if all of the following conditions are met:

(*i*) The use of the material does not violate section 3108, part 301, or part 303.

(*ii*) The material is not materially contaminated. Typical surface oil staining on pavement or concrete from

driveways, roadways, or parking lots is not material contamination. Material covered in whole or in part with paint that contains more than 0.5% lead is materially contaminated.

(*iii*) The material does not include exposed reinforcing bars.

(f) Portland cement clinker produced by a cement kiln using wood, fossil fuels, or solid waste as a fuel or feedstock, but not including cement kiln dust generated in the process.

(g) Asphalt pavement or concrete pavement that meets all of the following requirements:

(*i*) Has been removed from a public right-of-way.

(*ii*) Has been stockpiled or crushed for reuse as aggregate material.

(*iii*) Does not include exposed reinforcement bars.

(h) Cuttings, drilling materials, and fluids used to drill or complete a well installed pursuant to part 127 of the public health code, 1978 PA 368, MCL 333.12701 to 333.12771, if the location of the well is not a facility under part 201.

(i) Any material determined by the department under section 11553(5) or (6) to be an inert material, either for general use or for a particular use.

(8) "Innovative technology facility" means a materials management facility that converts solid waste into energy or a usable product and that is not a materials recovery facility, a composting facility, or an anaerobic digester.

(9) "Insurance" means insurance that conforms to the requirements of 40 CFR 258.74(d) and is provided by an insurer that has a certificate of authority from the director of insurance and financial services to sell this line of coverage. An applicant for an operating license or general permit shall submit evidence of the required coverage by submitting both of the following to the department:

(a) A certificate of insurance that uses wording approved by the department.

(b) A certified true and complete copy of the insurance policy.

(10) "Landfill" means a type II landfill or type III landfill.

(11) "Landfill care fund" means a landfill care fund required by section 11525d(2).

(12) "Landfill care fund bond" means a surety bond, an irrevocable letter of credit, or a combination of these instruments in favor of the department used to establish a landfill care fund.

(13) "Large", in reference to a composting facility, means a composting facility to which both of the following apply:

(a) The site at any time contains more than 500 cubic yards of compostable material.

(b) The site does not qualify as a small or medium composting facility.

(14) "Lateral expansion" means a horizontal expansion of the solid waste boundary of any of the following:

(a) A landfill, other than a coal ash landfill, if the expansion is beyond the limit established in a construction permit or engineering plans approved by the department or a certified health department before January 11, 1979.

(b) A coal ash landfill, if either of the following applies:

(*i*) The expansion is beyond the limit established in a construction permit issued after December 28, 2018.

(*ii*) The expansion is made after October 19, 2015, and is a horizontal expansion of the outermost boundary, as defined by a construction certification or operating license, of an existing coal ash landfill.

(c) A coal ash impoundment, if the expansion is beyond the limit established in a construction permit or the horizontal limits of coal ash in place on or before October 14, 2015.

(15) "Letter of credit" means an irrevocable letter of credit that complies with 40 CFR 258.74(c).

(16) "License" means an operating license.

(17) "Lime kiln dust" means particulate matter collected in air emission control devices serving lime kilns.

(18) "Local health officer" means a local health officer as defined in section 1105 of the public health code, 1978 PA 368, MCL 333.1105, to which the department delegates certain duties under part 115.

(19) "Low-hazard industrial waste" means industrial material that has a low potential for groundwater contamination when managed in compliance with part 115. All of the following materials are low-hazard industrial wastes:

(a) Coal ash and wood ash.

(b) Cement kiln dust.

(c) Pulp and paper mill material.

(d) Scrap wood.

(e) Sludge from the treatment and conditioning of water for domestic use.

(f) Residue from the thermal treatment of petroleum contaminated soil, media, or debris.

(g) Sludge from the treatment and conditioning of water from a community water supply.

(h) Foundry sand.

(i) Mixed wood ash, scrap wood ash, and pulp and paper mill ash.
(j) Street cleanings.
(k) Asphalt shingles.
(*l*) New construction or production scrap drywall.
(m) Chipped or shredded tires.
(n) Copper slag.
(o) Copper stamp sands.
(p) Dredge material from nonremedial activities.
(q) Flue gas desulfurization material.
(r) Dewatered grinding slurry generated from public transportation agency road projects.
(s) Any material determined by the department under section 11553(7) to be a low-hazard industrial waste.

(20) "Low-hazard-potential coal ash impoundment" means a coal ash impoundment that is a diked surface impoundment, the failure or mis-operation of which is expected to result in no loss of human life and low economic or environmental losses principally limited to the impoundment owner's property.

(21) "MAC" means the Michigan Administrative Code.

(22) "Managed material" means solid waste, diverted waste, or recyclable material. Managed material does not include a material or product that contains iron, steel, or nonferrous metals and that is directed to or received by a scrap processor as defined in section 3 of the scrap metal regulatory act, 2008 PA 429, MCL 445.423, or by a reuser of these metals.

(23) "Managed materials transporting unit" means a container, which may be an integral part of a truck or other piece of equipment, used for the transportation of managed materials.

(24) "Materials management facility" or, unless the context implies a different meaning, "facility" means any of the following, subject to subsection (25):
(a) A disposal area.
(b) A materials utilization facility.
(c) A waste diversion center.

(25) Materials management facility or facility does not include a person, utilizing machinery and equipment and operating from a fixed location, whose principal business is the processing and manufacturing of iron, steel, or nonferrous metals into prepared grades of products suitable for consumption, reuse, or additional processing.

(26) "Materials management goals" means goals identified in the MMP pursuant to section 11578(1)(a).

(27) "Materials management plan" or "MMP" means a plan required under section 11571.

(28) "Materials recovery facility", subject to subsection (29), means a facility that meets both of the following requirements:
(a) Receives primarily source separated material and sorts, bales, or processes the source separated material for reuse, recycling, or utilization as a raw material or new product.
(b) On an annual basis, does not receive an amount of solid waste equal to or more than 15% of the total weight of material received by the facility unless the materials recovery facility is making reasonable effort and has an education program to reduce the amount of solid waste. Material disposed of as a result of recycling market fluctuations is not included in the 15% calculation.

(29) Materials recovery facility does not include any of the following:
(a) A retail, commercial, or industrial establishment that bales for off-site shipment managed material that it generates.
(b) A retail establishment that collects returnable beverage containers under 1976 IL 1, MCL 445.571 to 445.576.
(c) A beverage distributor, or its agent, that manages returnable beverage containers under 1976 IL 1, MCL 445.571 to 445.576.
(d) A facility or area used for reuse, recycling, or storage of recyclable materials solely generated by an industrial facility.
(e) A facility that is an end user or secondary processor and that uses as fuel or otherwise, processes, or stores material generated by industrial facilities.
(f) A facility that primarily manages material that was previously sorted or processed.
(g) An anaerobic digester.

(30) "Materials utilization" means recycling, composting, or converting material into energy rather than disposing of the material.

(31) "Materials utilization facility" means a facility that is any of the following:
(a) A materials recovery facility.
(b) A composting facility.

(c) An anaerobic digester, except at a manufacturing facility that generates its own feedstock.

(d) An innovative technology facility.

(32) "Medical waste" means that term as it is defined in section 13805 of the public health code, 1978 PA 368, MCL 333.13805.

(33) "Medium", in reference to a composting facility, means a composting facility to which all of the following apply:

(a) The site at any time contains more than 500 cubic yards of compostable material.

(b) The site does not qualify as a small composting facility.

(c) The site does not at any time contain more than 10,000 cubic yards of compostable material.

(d) The site does not at any time contain more than 10% by volume of class 1 compostable material other than yard waste.

(e) Unless approved by the department, the site does not at any time on any acre contain more than 5,000 cubic yards of compostable material, finished product, compost additives, or screening rejects.

(34) "Mixed wood ash" means the material recovered from air pollution control systems for, or the noncombusted residue remaining after, the combustion of any combination of wood, scrap wood, railroad ties, or tires, if railroad ties composed less than 35% by weight of the total combusted material and tires composed less than 10% by weight of the total combusted material.

(35) "Municipal solid waste" means household waste, commercial waste, waste generated by other nonindustrial locations, waste that has characteristics similar to that generated at a household or commercial business, or any combination thereof. Municipal solid waste does not include municipal wastewater treatment sludges, industrial process wastes, automobile bodies, combustion ash, or construction and demolition debris.

(36) "Municipal solid waste incinerator" means an incinerator that is owned or operated by any person, and that meets all of the following requirements:

(a) The incinerator receives solid waste from off site and burns only waste from single-family and multifamily dwellings, hotels, motels, and other residential sources, or such waste together with solid waste from commercial, institutional, municipal, county, or industrial sources that, if disposed of, would not be required to be placed in a disposal facility licensed under part 111.

(b) The incinerator has established contractual requirements or other notification or inspection procedures sufficient to ensure that the incinerator receives and burns only waste referred to in subdivision (a).

(c) The incinerator meets the requirements of part 115.

(d) The incinerator is not an industrial furnace as defined in 40 CFR 260.10.

(e) The incinerator is not an incinerator that receives and burns only medical waste or only waste produced at 1 or more hospitals.

(37) "Municipal solid waste incinerator ash" means the substances remaining after combustion in a municipal solid waste incinerator.

(38) "Municipal solid waste recycling rate" means the amount of municipal solid waste recycled or composted, divided by the amount of municipal solid waste recycled, composted, landfilled, or incinerated.

(39) "New coal ash impoundment" means a coal ash impoundment that first receives coal ash after December 28, 2018.

(40) "New disposal area" means a disposal area that requires a construction permit under this part and includes all of the following:

(a) A disposal area, other than an existing disposal area, that is proposed for construction.

(b) For a landfill, a lateral expansion, vertical expansion, or other expansion that results in an increase in the landfill's design capacity.

(c) A new coal ash impoundment, or a lateral expansion of a coal ash impoundment beyond the placement of waste as of October 14, 2015.

(d) For a disposal area other than a landfill or coal ash impoundment, an enlargement in capacity beyond that indicated in the construction permit or in engineering plans approved before January 11, 1979.

(e) For any existing disposal area, an alteration of the disposal area to a different disposal area type than was specified in the previous construction permit application or in engineering plans that were approved by the director or his or her designee before January 11, 1979.

(41) "Nonresidential property" means property not used or intended to be used for any of the following:

(a) A child day care center.

(b) An elementary school.

(c) An elder care and assisted living center.

(d) A nursing home.

(e) A single-family or multifamily dwelling unless the dwelling is part of a mixed use development and all dwelling units and associated outdoor residential use areas are located above the ground floor.

(42) "Operate" includes, but is not limited to, conducting, managing, and maintaining.

(43) "Part 115" means this part and rules promulgated under this part.

(44) "Perpetual care fund" means a trust fund, escrow account, or perpetual care fund bond required by section 11525(2).

(45) "Perpetual care fund bond" means a surety bond, an irrevocable letter of credit, or a combination of these instruments in favor of the department used to establish a perpetual care fund.

(46) "Planning area" means the geographic area to which a materials management plan applies.

(47) "Planning committee" means a committee appointed under section 11572.

(48) "Post-use polymer" means a plastic to which all of the following apply:

(a) It has been source separated.

(b) It has been sorted from solid waste and other regulated waste but may contain residual amounts of solid waste.

(c) It is not mixed with solid waste or hazardous waste on-site or during conversion at a chemical recycling facility.

(d) It is converted at a chemical recycling facility or, subject to applicable speculative accumulation time frames, stored at a chemical recycling facility before conversion.

(49) "Preexisting unit" means a landfill unit that is or was licensed under part 115 but has not received waste after October 9, 1993.

(50) "Pulp and paper mill ash" means the material recovered from air pollution control systems for, or the noncombusted residue remaining after, the combustion of any combination of coal, wood, pulp and paper mill material, wood or biomass fuel pellets, scrap wood, railroad ties, or tires, in a boiler, power plant, or furnace at a pulp and paper mill, if railroad ties composed less than 35% by weight of the total combusted material and tires composed less than 10% by weight of the total combusted material.

(51) "Pulp and paper mill material" means all of the following materials if generated at a facility that produces pulp or paper:

(a) Wastewater treatment sludge, including wood fibers, minerals, and microbial biomass.

(b) Rejects from screens, cleaners, and mills.

(c) Bark, wood fiber, and chips.

(d) Scrap paper.

(e) Causticizing residues, including lime mud and grit and green liquor dregs.

(f) Any material that the department determines has characteristics that are similar to any of the materials listed in subdivisions (a) to (e).

(52) "Pyrolysis" means a manufacturing process in which post-use polymers are heated in the absence of oxygen until melted and thermally decomposed, and then are cooled, condensed, and converted into valuable raw materials and intermediate and final products, including, but not limited to, plastic monomers, chemicals, waxes, lubricants, and plastic and chemical feedstocks that have economic utility as raw materials and products.

History: 1994, Act 451, Eff. Mar. 30, 1995;—Am. 1996, Act 359, Imd. Eff. July 1, 1996;—Am. 2013, Act 250, Imd. Eff. Dec. 26, 2013;—Am. 2014, Act 178, Eff. Sept. 16, 2014;—Am. 2018, Act 640, Imd. Eff. Dec. 28, 2018;—Am. 2020, Act 85, Imd. Eff. May 15, 2020;—Am. 2022, Act 244, Eff. Mar. 29, 2023.

Popular name: Act 451

Popular name: NREPA

Popular name: Solid Waste Act

324.11505 Definitions; R, S.

Sec. 11505. (1) "RDDP" means a research, development, and demonstration project for a new or existing type II landfill unit or for a lateral expansion of a type II landfill unit.

(2) "Recyclable materials" means glass, metal, plastics, paper products, wood, rubber, textiles, food waste, yard clippings, and other materials that may be recycled or composted.

(3) "Recycling" means any process applied to materials that are no longer being used and that would have otherwise been disposed as waste, for the purpose of converting the materials into raw materials or intermediate or new products.

(4) "Regional planning agency" means the regional solid waste planning agency designated by the governor pursuant to section 4006 of subtitle D of the solid waste disposal act, 42 USC 6946.

(5) "Resource recovery facility" means machinery, equipment, structures, or any parts or accessories of machinery, equipment, or structures, installed or acquired for the primary purpose of recovering materials or energy from the waste stream.

(6) "Response activity" means an activity that is necessary to protect the environment, natural resources, or

the public health, safety, or welfare, and includes, but is not limited to, evaluation, cleanup, removal, containment, isolation, treatment, monitoring, maintenance, replacement of water supplies, and temporary relocation of people.

(7) "Restricted use compost" means compost that is produced from class 2 compostable material, including any combination of class 1 compostable material and class 2 compostable material, that is not approved as inert under section 11553(5).

(8) "Reuse" means to remanufacture, use again, use in a different manner, or use after reclamation.

(9) "Rubbish" means nonputrescible solid waste, excluding ashes, consisting of both combustible and noncombustible waste, including paper, cardboard, metal containers, yard waste, wood, glass, bedding, crockery, demolished building materials, or litter of any kind that may be a detriment to the environment, natural resources, or the public health, safety, or welfare.

(10) "Salvaging" means the lawful and controlled removal of reusable materials from solid waste.

(11) "Scrap wood" means wood or wood product that is 1 or more of the following:

(a) Plywood, particle board, pressed board, oriented strand board, fiberboard, resonated wood, or any other wood or wood product mixed with glue, resins, or filler.

(b) Wood or wood product treated with creosote or pentachlorophenol.

(c) Any wood or wood product designated as scrap wood in rules promulgated by the department.

(12) "Sharps" means that term as defined in section 13807 of the public health code, 1978 PA 368, MCL 333.13807.

(13) "Slag" means the nonmetallic product resulting from melting or smelting operations for iron or steel.

(14) "Small", in reference to a composting facility, means a composting facility to which both of the following apply:

(a) The site at any time contains more than 500 cubic yards of compostable material but does not at any time contain 1,000 or more cubic yards of compostable material.

(b) The site does not at any time contain 5% or more by volume of class 1 compostable material other than yard waste.

History: 1994, Act 451, Eff. Mar. 30, 1995;—Am. 2007, Act 212, Eff. Mar. 26, 2008;—Am. 2014, Act 24, Imd. Eff. Mar. 4, 2014;—Am. 2014, Act 178, Eff. Sept. 16, 2014;—Am. 2018, Act 640, Imd. Eff. Dec. 28, 2018;—Am. 2022, Act 244, Eff. Mar. 29, 2023.

Popular name: Act 451

Popular name: NREPA

Popular name: Solid Waste Act

324.11506 Definitions; S to Y.

Sec. 11506. (1) "Solid waste" means food waste, rubbish, ashes, incinerator ash, incinerator residue, street cleanings, municipal and industrial sludges, solid commercial waste, solid industrial waste, and animal waste. However, solid waste does not include any of the following:

(a) Human body waste.

(b) Medical waste.

(c) Manure or animal bedding generated in the production of livestock and poultry, if managed in compliance with the appropriate GAAMPS.

(d) Liquid waste.

(e) Scrap metal, as defined in section 3 of the scrap metal regulatory act, 2008 PA 429, MCL 445.423, directed to a scrap processor as defined in that section or to a reuser of scrap metal.

(f) Slag or slag products directed to a slag processor or to a reuser of slag or slag products.

(g) Sludges and ashes managed as recycled or nondetrimental materials appropriate for agricultural or silvicultural use pursuant to a plan approved by the department.

(h) The following materials that are used as animal feed, or are applied on, or are composted and applied on, farmland or forestland for an agricultural or silvicultural purpose at an agronomic rate consistent with GAAMPS:

(*i*) Food processing residuals and food waste.

(*ii*) Precipitated calcium carbonate from sugar beet processing.

(*iii*) Wood ashes resulting solely from a source that burns only wood that is untreated and inert.

(*iv*) Lime from kraft pulping processes generated before bleaching.

(*v*) Aquatic plants.

(i) Materials approved for emergency disposal by the department.

(j) Source separated materials.

(k) Coal ash, when used under any of the following circumstances:

(*i*) As a component of concrete, grout, mortar, or casting molds, if the coal ash does not have more than 6% unburned carbon.

(*ii*) As a raw material in asphalt for road construction, if the coal ash does not have more than 12% unburned carbon and passes Michigan test method for water asphalt preferential test, MTM 101, as set forth in the state transportation department's manual for the Michigan test methods (MTM).

(*iii*) As aggregate, road material, or building material that in ultimate use is or will be stabilized or bonded by cement, limes, or asphalt, or itself act as a bonding agent. To be considered to act as a bonding agent, the coal ash must have at least 10% available lime.

(*iv*) As a road base or construction fill that is placed at least 4 feet above the seasonal groundwater table and covered with asphalt, concrete, or other material approved by the department.

(*l*) Inert material.

(m) Soil that is washed or otherwise removed from sugar beets, has not more than 55% moisture content, and is registered as a soil conditioner under part 85. Any testing required to become registered under part 85 is the responsibility of the generator.

(n) Soil that is relocated under section 20120c.

(o) Diverted waste that is managed through a waste diversion center.

(p) Beneficial use by-products.

(q) Coal bottom ash, if substantially free of fly ash or economizer ash, when used as cold weather road abrasive.

(r) Stamp sands when used as cold weather road abrasive in the Upper Peninsula by any of the following:

(*i*) A public road agency.

(*ii*) Any other person pursuant to a plan approved by a public road agency.

(s) Any material that is reclaimed or reused in the process that generated it.

(t) Any secondary material that, as specified in or determined pursuant to 40 CFR part 241, is not a solid waste when combusted.

(u) Post-use polymers.

(v) Other wastes regulated by statute.

(2) "Solid waste management fund" means the solid waste management fund created in section 11550.

(3) "Solid waste processing and transfer facility" means a tract of land, a building or unit and any appurtenances of a building or unit, a container, or any combination of these that is used or intended for use in the handling, storage, transfer, or processing of solid waste, and is not located at the site of generation or the site of disposal of the solid waste.

(4) "Solvolysis" means a manufacturing process in which post-use polymers are purified with the aid of solvents, while heated at low temperatures or pressurized, or both, to make useful products while allowing additives and contaminants to be removed. The products of solvolysis include, but are not limited to, monomers, intermediates, and valuable chemicals and raw materials. Solvolysis includes, but is not limited to, the following:

(a) Hydrolysis.

(b) Aminolysis.

(c) Ammonolysis.

(d) Methanolysis.

(e) Glycolysis.

(5) "Source reduction" means any practice that reduces or eliminates the generation of waste at the source.

(6) "Source separated material" means any of the following materials if separated at the source of generation or at a materials management facility that complies with part 115 and if not speculatively accumulated:

(a) Glass, metal, wood, paper products, plastics, rubber, textiles, food waste, electronics, latex paint, yard waste, or any other material approved by the department that is used for conversion into raw materials or intermediate or new products. For the purposes of this subdivision, raw materials or intermediate or new products include, but are not limited to, compost, biogas from anaerobic digestion, synthesis gas from gasification or pyrolysis, or other fuel. This subdivision does not prohibit material from being classified as a renewable energy resource as defined in section 11 of the clean and renewable energy and energy waste reduction act, 2008 PA 295, MCL 460.1011.

(b) Scrap wood and railroad ties used to fuel an industrial boiler, kiln, power plant, or furnace, subject to part 55, for production of new wood products, or for other uses approved by the department.

(c) Chipped or whole tires used to fuel an industrial boiler, kiln, power plant, or furnace, subject to part 55, or for other uses approved by the department. This subdivision does not prohibit material from being classified as a renewable energy resource as defined in section 11 of the clean and renewable energy and

energy waste reduction act, 2008 PA 295, MCL 460.1011.

(d) Recovered paint solids if used to fuel an industrial boiler, kiln, power plant, gasification plant, or furnace, subject to part 55; if bonded with cement or asphalt; or if used for other uses approved by the department.

(e) Gypsum drywall generated from the production of wallboard used for stock returned to the production process or for other uses approved by the department.

(f) Flue gas desulfurization gypsum used for production of cement or wallboard or other uses approved by the department.

(g) Asphalt shingles that meet both of the following requirements:

(*i*) Do not contain asbestos, rolled roofing, wood, nails, or tar paper.

(*ii*) Are used as described in any of the following:

(A) As a component in hot mix asphalt, warm mix asphalt, or cold patch asphalt.

(B) To fuel an industrial boiler, kiln, power plant, or furnace, subject to part 55.

(C) Mixed with recycled asphalt pavement at a maximum of 1 to 1 ratio by volume to produce a base that is covered by concrete or asphalt paving.

(D) Other uses approved by the department.

(h) Municipal solid waste incinerator ash that meets criteria specified by the department and that is used as daily cover at a disposal facility licensed pursuant to part 115.

(i) Utility poles or pole segments reused as poles, posts, or similar uses approved by the department in writing.

(j) Railroad ties reused in landscaping, embankments, or similar uses approved by the department in writing.

(k) Any materials and uses approved by the department under section 11553(8).

(*l*) Leaves that are ground or mixed with ground wood and sold as mulch for landscaping purposes if the volumes so managed are reported to the department in the manner provided in section 11560.

(m) Any material determined by the department in writing before September 16, 2014 to be a source separated material.

(n) Yard waste that is land applied on a farm in a manner consistent with GAAMPS.

(o) Yard waste, class 1 compostable material, and class 2 compostable material that are delivered to an anaerobic digester authorized by the department under part 115 to receive the material.

(p) Recyclable materials.

(7) "Stamp sands" means finely grained crushed rock resulting from mining, milling, or smelting of copper ore and includes native substances contained within the crushed rock and any ancillary material associated with the crushed rock.

(8) "Treated wood" means wood or wood product that has been treated with 1 or more of the following:

(a) Chromated copper arsenate (CCA).

(b) Ammoniacal copper quat (ACQ).

(c) Ammoniacal copper zinc arsenate (ACZA).

(d) Any other chemical designated in rules promulgated by the department.

(9) "Trust fund" means a fund held by a trustee who has the authority to act as a trustee and whose trust operations are regulated and examined by a federal or state agency.

(10) "Type I public water supply", "type IIa public water supply", "type IIb public water supply", and "type III public water supply" mean those terms, respectively, as described in R 325.10502 of the MAC.

(11) "Type II landfill" means a landfill that receives household waste or municipal solid waste incinerator ash, or both, and that may also receive other types of solid waste, such as any of the following:

(a) Construction and demolition waste.

(b) Sewage sludge.

(c) Commercial waste.

(d) Nonhazardous sludge.

(e) Hazardous waste from conditionally exempt small quantity generators.

(f) Industrial waste.

(12) "Type III landfill" means a landfill that is not a type II landfill or hazardous waste landfill. Type III landfill includes all of the following:

(a) A construction and demolition waste landfill.

(b) An industrial waste landfill.

(c) A low hazard industrial waste landfill.

(d) A surface impoundment authorized as an industrial waste landfill.

(e) A landfill that accepts only waste other than household waste, municipal solid waste incinerator ash, or

hazardous waste from conditionally exempt small quantity generators.

(f) A coal ash landfill.

(g) Any coal ash impoundment, including, but not limited to, the following:

(*i*) An existing coal ash impoundment that is closed as a landfill pursuant to R 299.4309 of the MAC.

(*ii*) An existing coal ash impoundment where coal ash will remain after closure and that will be closed as a landfill pursuant to R 299.4309 of the MAC.

(13) "Vermiculture" means the controlled and managed process by which live worms degrade organic materials into worm castings or worm humus.

(14) "Waste diversion center" means property or a building, or a portion of property or a building, designated for the purpose of receiving or collecting diverted wastes and not used for residential purposes.

(15) "Wood" means trees, branches and associated leaves, bark, lumber, pallets, wood chips, sawdust, or other wood or wood product but does not include scrap wood, treated wood, painted wood or painted wood product, or any wood or wood product that has been contaminated during manufacture or use.

(16) "Wood ash" means any type of ash or slag resulting from the burning of wood.

(17) "Yard waste" means leaves, grass clippings, vegetable or other garden debris, shrubbery, or brush or tree trimmings, less than 4 feet in length and 2 inches in diameter, that can be converted to compost. Yard waste does not include stumps, agricultural wastes, animal waste, roots, sewage sludge, Christmas trees or wreaths, food waste, or screened finished compost made from yard waste.

History: 1994, Act 451, Eff. Mar. 30, 1995;—Am. 1995, Act 65, Imd. Eff. May 31, 1995;—Am. 1996, Act 392, Imd. Eff. Oct. 3, 1996;—Am. 1998, Act 466, Imd. Eff. Jan. 4, 1999;—Am. 2007, Act 212, Eff. Mar. 26, 2008;—Am. 2010, Act 345, Imd. Eff. Dec. 21, 2010;—Am. 2012, Act 446, Imd. Eff. Dec. 27, 2012;—Am. 2014, Act 24, Imd. Eff. Mar. 4, 2014;—Am. 2014, Act 178, Eff. Popular name: Act 451

Popular name: NREPA

Popular name: Solid Waste Act

324.11507 Recycling and reuse of materials; optimizing recycling opportunities; policies, practices, and benchmark recycling standards; development of methods for disposal of solid waste; construction and administration of Part 115; disposal, storage, or transportation of solid waste; compliance with Part 115.

Sec. 11507. (1) Optimizing recycling opportunities, including electronics recycling opportunities, and the reuse of materials are a principal objective of this state's solid waste management plan. Recycling and reuse of materials, including the reuse of materials from electronic devices, are in the best interest of the environment, natural resources, and the public health, safety, and welfare. This state should develop policies, practices, and goals that promote recycling and reuse of materials, waste reduction, and pollution prevention and that, to the extent practical, minimize the use of landfilling and municipal solid waste incineration as methods for disposal of waste. Policies and practices that promote recycling and reuse of materials, including materials from electronic devices, result in conservation of raw materials and landfill space and avoid the contamination of soil and groundwater from heavy metals and other pollutants.

(2) It is the goal of this state to achieve through the benchmark recycling standards a 45% municipal solid waste recycling rate and, as an interim step, by 2029, a 30% municipal solid waste recycling rate.

(3) The department and a local health officer shall assist in developing and encouraging methods for the disposal of solid waste that are environmentally sound, that maximize the utilization of valuable resources, and that encourage resource conservation including source reduction and source separation.

(4) Part 115 shall be construed and administered to encourage and facilitate all persons to engage in source separation of material from solid waste, and other environmentally sound measures to prevent materials from entering the waste stream or to remove materials from the waste stream.

(5) A person shall not dispose, store, or transport solid waste in this state unless the person complies with part 115.

(6) Part 115 is intended to encourage the continuation of the private sector in materials management, disposal, and transportation in compliance with part 115. Part 115 is not intended to prohibit salvaging.

324.11507a Solid waste management program; certification; grounds for rescission of

certification.

Sec. 11507a. Under rules promulgated by the department, the department may certify a city, county, or district health department to perform a solid waste management program or designated activities as prescribed in part 115. The department may rescind certification under either of the following circumstances:

(a) Upon request of the certified health department.

(b) After reasonable notice and an opportunity for a hearing if the department finds that the certified health department is not performing the program or designated activities as required.

History: Add. 1996, Act 359, Imd. Eff. July 1, 1996;—Am. 2003, Act 153, Eff. Oct. 1, 2003;—Am. 2004, Act 39, Imd. Eff. Mar. 29, 2004;—Am. 2022, Act 244, Eff. Mar. 29, 2023.

Popular name: Act 451

Popular name: NREPA

Popular name: Solid Waste Act

324.11508 Operation of materials management facility; requirements; registration application.

Sec. 11508. (1) A person shall not operate a materials management facility unless all of the following requirements are met:

(a) The owner or operator has complied with any applicable requirement of part 115 to notify the department, register with the department, obtain an approval from the department under a general permit, or obtain a construction permit and operating license from the department.

(b) The operation is in compliance with the terms of any registration, general permit, construction permit, or operating license issued for the materials management facility under part 115.

(c) Subject to subsection (2)(a) to (c), the facility is consistent with the MMP. This subdivision does not apply to a disposal area described in section 11509(1)(b) or 11513(1).

(2) The department shall deny an application for a registration, for approval under a general permit, or for a construction permit or operating license for a materials management facility unless the department has, under section 11575(9), approved an MMP for the planning area where the facility is located or proposed to be located and the facility is consistent with the MMP, as determined under section 11585. However, all of the following apply:

(a) Before an MMP is initially approved by the department under section 11575(9), the department may issue a construction permit for a solid waste processing and transfer facility or an approval under a general permit or a registration for a materials utilization facility if the county approval agency and the legislative body of the municipality in which the facility is or is proposed to be located have each notified the department in writing that they approve the issuance.

(b) Proposed landfill expansions shall follow the siting process of the existing solid waste management plan until an MMP for the planning area is approved by the department.

(c) Before an MMP for the planning area has been approved by the department, materials utilization facilities that are required to provide a notification or registration to the department under part 115 may be sited under local zoning ordinances.

(3) A notification or application under part 115 for a construction permit, operating license, approval under a general permit, or registration required to operate a materials management facility; a notice of intent to prepare a materials management plan; a bond; a risk pooling financial mechanism; evidence of financial assurance; a request for the reduction of the amount of a financial assurance mechanism; an agreement governing the operation of a perpetual care fund trust fund or escrow account; an application for a grant or loan; or a report or other information required to be submitted to the department under part 115 shall meet all of the following requirements:

(a) Be on a form and in a medium provided or approved by the department.

(b) Contain relevant information required by the department.

(c) If an application, be accompanied by any applicable application fee provided for by this part.

History: 1994, Act 451, Eff. Mar. 30, 1995;—Am. 2022, Act 244, Eff. Mar. 29, 2023.

SUBPART 2
DISPOSAL AREAS

324.11509 Construction permit for establishment of disposal area; application; engineering plan; construction permit application fees; resubmission of application with additional information and fee; modification or renewal of permit; single permit multiple types of disposal areas; disposition of fees; approval of new type II landfill; restrictions; "contiguous" defined.

Sec. 11509. (1) This section and sections 11510 to 11512 apply to disposal areas other than the following:

(a) A solid waste processing and transfer facility described in section 11513(1) or (2).

(b) An incinerator that does not comply with the construction permit and operating license requirements of this subpart, as allowed under section 11540.

(2) A person shall not establish a disposal area except as authorized by a construction permit issued by the department pursuant to part 13. A person proposing the establishment of a disposal area shall submit the application for a construction permit to the appropriate local health officer. However, if the disposal area is located in a county or city that does not have a certified health department, the application shall be submitted directly to the department. An application for a construction permit shall be accompanied by engineering plans.

(3) An application for a construction permit for a landfill shall be accompanied by an application fee in the following amount:

(a) For a new landfill, the following:

(*i*) For a type II landfill, $3,000.00.

(*ii*) Except as provided in subparagraph (*iii*), for an industrial waste landfill, $2,000.00.

(*iii*) For a type III landfill limited to low hazard industrial waste, $1,500.00.

(b) For a lateral expansion of a landfill, the following:

(*i*) For a type II landfill, $2,000.00.

(*ii*) Except as provided in subparagraph (*iii*), for an industrial waste landfill, $1,500.00.

(*iii*) For a type III landfill limited to low hazard industrial waste, construction and demolition waste, or other nonindustrial waste, $1,000.00.

(c) For a vertical expansion of an existing landfill, the following:

(*i*) For a type II landfill, $1,500.00.

(*ii*) Except as provided in subparagraph (*iii*), for an industrial waste landfill, $1,000.00.

(*iii*) For an industrial waste landfill limited to low hazard industrial waste, construction and demolition waste, or other nonindustrial waste, $500.00.

(d) For a new coal ash impoundment, $1,000.00.

(e) For a lateral or vertical expansion of a coal ash impoundment, $750.00.

(4) An application for a construction permit for a disposal area that is not a landfill shall be accompanied by an application fee in the following amount:

(a) For a new disposal area for municipal solid waste, or a combination of municipal solid waste and waste listed in subdivision (b), $2,000.00.

(b) For a new disposal area for industrial waste, or construction and demolition waste, $1,000.00.

(c) For the expansion of an existing disposal area for any type of waste, $500.00.

(5) If an application is returned to the applicant as administratively incomplete, the applicant may, within 1 year after the application is returned, resubmit the application, together with the additional information as needed to address the reasons for being incomplete, without paying an additional application fee. If a permit is denied or an application is withdrawn, an applicant for a construction permit, within 1 year after the permit denial or application withdrawal, may resubmit the application, together with the additional information as needed to address the reasons for denial or withdrawal, without paying an additional application fee.

(6) Subject to section 11510(2)(d), an application for a modification to a construction permit or for renewal of a construction permit that has expired shall be accompanied by a fee of $500.00.

(7) A person may apply for a single permit to construct more than 1 type of disposal area at the same facility. A person who applies to permit more than 1 type of disposal area at the same facility shall pay a fee equal to the sum of the applicable fees listed in this section for each type of disposal area.

(8) The department shall deposit permit application fees collected under this section in the solid waste staff account of the solid waste management fund.

(9) The department shall not approve an application for a construction permit for a new type II landfill that is not contiguous to an already permitted type II landfill or for a new municipal solid waste incinerator unless the approval is requested by the county board of commissioners and the department determines that the landfill or incinerator is needed for the planning area. The county board of commissioners' request shall include a demonstration that materials utilization options have been exhausted. The department's

determination of need shall be based on public health, solid waste disposal capacity, and economic issues that would arise without the new site.

(10) As used in this section, "contiguous" means either of the following:

(a) On the same property. The property may be divided by either of the following:

(*i*) The boundary of a local unit of government.

(*ii*) A public or private right-of-way if access to and from the right-of-way for each piece of the property is opposite the access for the other piece of the property so that movement between the 2 pieces of the property is by crossing the right-of-way.

(b) On 2 or more properties owned by the same person if the properties are connected by a right-of-way that the owner controls and to which the public does not have access.

History: 1994, Act 451, Eff. Mar. 30, 1995;—Am. 1996, Act 358, Eff. Oct. 1, 1996;—Am. 2004, Act 325, Imd. Eff. Sept. 10, 2004;—Am. 2018, Act 640, Imd. Eff. Dec. 28, 2018;—Am. 2022, Act 245, Eff. Mar. 29, 2023.

324.11510 Advisory analysis of proposed disposal area; duties of department upon receipt of construction permit application.

Sec. 11510. (1) Before submitting a construction permit application under section 11509 for a new disposal area, a person shall request a local health officer or the department to provide an advisory analysis of the proposed disposal area. Beginning 15 days after the request, and notwithstanding an analysis result, the person may file an application for a construction permit.

(2) Upon receipt of a construction permit application, the department shall do all of the following:

(a) Immediately notify the clerk of the municipality in which the disposal area is located or proposed to be located, the local soil erosion and sedimentation control agency under part 93, each division within the department and the department of natural resources that has responsibilities in land, air, or water management, the regional planning agency, and the designated planning agency for the planning area.

(b) Publish a notice in a newspaper or by electronic media having major circulation or viewership in the vicinity of the proposed disposal area. The notice shall contain all of the following:

(*i*) A map indicating the location of the proposed disposal area.

(*ii*) A description of the proposed disposal area.

(*iii*) The location where the complete application package may be reviewed and where copies may be obtained.

(c) Indicate in the notices under subdivisions (a) and (b) that the department will hold a public hearing in the area of the proposed disposal area if a written request is submitted by the applicant, a municipality, or a designated planning agency within 30 days after the date of publication of the notice, or by a petition submitted to the department containing a number of signatures equal to not less than 10% of the number of registered voters of the municipality where the proposed disposal area is to be located who voted in the last gubernatorial election. The petition shall be validated by the clerk of the municipality. The department shall hold the public hearing after the department makes a preliminary review of the application and all pertinent data and before a construction permit is issued or denied.

(d) Conduct a consistency review of the proposed disposal area, including the site, plans, and application, to determine if they comply with part 115. The review shall be conducted by persons qualified in hydrogeology and, if the disposal area is a landfill, landfill engineering. The department shall not issue a construction permit unless the persons conducting the review acknowledge that the application package complies with the requirements of part 115. The construction permit may contain a stipulation specifically applicable to the site and operation. An expansion of the area of a disposal area, an enlargement in capacity of a disposal area, a change in the solid waste boundary, or an alteration of a disposal area to a different type of disposal area than had been specified in the previous construction permit application constitutes a new proposal for which a new construction permit, rather than a modification of a construction permit, is required. The upgrading of a disposal area type required by the department to comply with part 115 or to comply with a consent order does not require a new construction permit.

(e) Notify the Michigan aeronautics commission if the disposal area is a landfill that is a new site or a lateral expansion or vertical expansion of an existing unit proposed to be located within 5 miles of a runway or a proposed runway extension contained in a plan approved by the Michigan aeronautics commission of an airport licensed and regulated by the Michigan aeronautics commission. The department shall make a copy of the application available to the Michigan aeronautics commission. If, not more than 60 days after receiving

notification from the department, the Michigan aeronautics commission informs the department that operation of the proposed disposal area would present a potential hazard to air navigation and presents the basis for its findings, the department may either recommend appropriate changes in the location, construction, or operation of the proposed disposal area or deny the application for a construction permit. The department shall give an applicant an opportunity to rebut a finding of the Michigan aeronautics commission that the operation of a proposed disposal area would present a potential hazard to air navigation.

(3) The Michigan aeronautics commission shall notify the department and the owner or operator of a landfill if the Michigan aeronautics commission is considering approving a plan that would provide for a runway or the extension of a runway within 5 miles of the landfill.

324.11511 Construction permit; approval or denial of issuance; expiration; renewal; fee.

Sec. 11511. (1) The department shall notify the clerk of the municipality in which the disposal area is proposed to be located and the applicant of its approval or denial of an application for a construction permit under section 11509 within 10 days after the final decision is made.

(2) A construction permit expires 1 year after the date of issuance, unless development under the construction permit is initiated within that year. A construction permit that has expired may be renewed upon payment of a permit renewal fee of $500.00 and submission of any additional relevant information the department may require.

324.11511a Coal ash landfill, coal ash impoundment, or lateral expansion of landfill or impoundment; standard and location requirements; construction permit; detection monitoring program.

Sec. 11511a. (1) A new coal ash landfill, a new coal ash impoundment, or a new lateral expansion of a coal ash landfill or coal ash impoundment shall comply with the requirements of R 299.4304, R 299.4305, and R 299.4307 to R 299.4317 of the MAC, except that the minimum design standard for a new coal ash landfill, a new coal ash impoundment, or a new lateral expansion of a coal ash landfill or coal ash impoundment pursuant to R 299.4307(4) of the MAC is solely R 299.4307(4)(b) of the MAC and not R 299.4307(4)(a), (c), or (d) of the MAC.

(2) A new coal ash landfill, a new coal ash impoundment, or a new lateral expansion of a coal ash landfill or coal ash impoundment shall comply with the location requirements of R 299.4411 to R 299.4413 and R 299.4415 to R 299.4418 of the MAC, except that a new coal ash landfill or coal ash impoundment or a new lateral expansion of a coal ash landfill or coal ash impoundment shall maintain a permanent minimum clearance from the bottom of the primary liner of not less than 5 feet to the natural groundwater level.

(3) The department shall not issue a construction permit for a new coal ash landfill or new coal ash impoundment or a new lateral expansion of a coal ash landfill or coal ash impoundment unless all of the following apply:

(a) The landfill, impoundment, or expansion, respectively, complies with subsections (1) and (2), as applicable.

(b) The landfill, impoundment, or expansion, respectively, complies with R 299.4306 of the MAC.

(c) The owner or operator has provided to the department a detection monitoring program in a hydrogeological monitoring plan that complies with R 299.4440 to R 299.4445 and R 299.4905 to R 299.4908 of the MAC, as applicable. However, R 299.4440(3) and R 299.4440(6) of the MAC do not apply to coal ash impoundments or coal ash landfills. The waiver described in R 299.4440(2) of the MAC is not available to coal ash impoundments or coal ash landfills. Groundwater sampling related to coal ash impoundments or coal ash landfills shall not be field filtered. The constituents monitored in the detection monitoring program shall include all of the following:

(*i*) Boron.

(*ii*) Calcium.
(*iii*) Chloride.
(*iv*) Fluoride.
(*v*) Iron.
(*vi*) pH.
(*vii*) Sulfate.
(*viii*) Total dissolved solids.

(d) The landfill, impoundment, or expansion, respectively, complies with 1 of the following, if applicable:

(*i*) Section 11519b(2) and (4).

(*ii*) A schedule, approved by the department, of remedial measures, including a sequence of actions or operations, that leads to compliance with part 115 within a reasonable time period but not later than December 28, 2020.

(4) The constituents listed in this section shall be analyzed by methods identified in "Standard Methods for the Examination of Water and Wastewater, 20th Edition," (jointly published by the American Public Health Association, the American Water Works Association, and the Water Environment Federation) or "Test Methods for Evaluating Solid Waste, Physical/Chemical Methods," EPA publication SW-846, Third Edition, Final Updates I (1993), II (1995), IIA (1994), IIB (1995), III (1997), IIIA (1999), IIIB (2005), IV (2008), and V (2015) or by other methods approved by the director or his or her designee.

History: Add. 2018, Act 640, Imd. Eff. Dec. 28, 2018;—Am. 2022, Act 245, Eff. Mar. 29, 2023.

Compiler's note: Former MCL 324.11511a, which pertained to permit to construct, modify, or expand landfill, was repealed by Act 38 of 2004, Eff. Jan 1, 2006.

Popular name: NREPA

Popular name: Solid Waste Act

324.11511b RDDP; research, development, and demonstration project.

Sec. 11511b. (1) A person may submit to the department a project abstract for an RDDP. If, based on the project abstract, the department determines that the RDDP will provide beneficial data on alternative landfill design, construction, or operating methods, the person may apply for a construction permit under section 11509, including the renewal or modification of a construction permit, authorizing the person to establish the RDDP.

(2) An RDDP is subject to the same requirements, including, but not limited to, permitting, construction, licensing, operation, closure, postclosure, financial assurance, fees, and sanctions as apply to other type II landfills or landfill units under part 115, except as provided in this section.

(3) An extension of the processing period for an RDDP construction permit is not subject to the limitations under section 1307.

(4) An application for an RDDP construction permit shall include, in addition to the applicable information required in other type II landfill construction permit applications, all of the following:

(a) A description of the RDDP goals.

(b) Details of the design, construction, and operation of the RDDP as necessary to ensure protection of the environment, natural resources, and the public health, safety, and welfare. The design shall be at least as protective of the environment, natural resources, and the public health, safety, and welfare as other designs that are required under part 115.

(c) A list and discussion of the types of waste that will be disposed of, excluded, or added, including the types and amount of liquids that will be added under subsection (5) and how the addition will benefit the RDDP.

(d) A list and discussion of the types of compliance monitoring and operational monitoring that will be performed.

(e) Specific means to address potential nuisance conditions, including, but not limited to, odors and health concerns as a result of human contact.

(5) The department may authorize the addition of liquids, including, but not limited to, septage waste or other liquid waste, to solid waste in an RDDP if the applicant has demonstrated that the addition is necessary to accelerate or enhance the biostabilization of the solid waste and is not merely a means of disposal of the liquids. If an RDDP is intended to accelerate or enhance biostabilization of solid waste, the construction permit application shall include, in addition to the information required under subsection (4), all of the following:

(a) An evaluation of the potential for a decreased slope stability of the waste caused by any of the

following:

(*i*) Increased presence of liquids.

(*ii*) Accelerated degradation of the waste.

(*iii*) Increased gas pressure buildup.

(*iv*) Other relevant factors.

(b) An operations management plan that incorporates all of the following:

(*i*) A description of and the proportion and expected quantity of all components that are needed to accelerate or enhance biostabilization of the solid waste.

(*ii*) A description of any solid or liquid waste that may be detrimental to the biostabilization of the solid waste intended to be disposed of or to the RDDP goals.

(*iii*) An explanation of how the detrimental waste described in subparagraph (*ii*) will be prevented from being disposed of in cells approved for the RDDP.

(c) Parameters, such as moisture content, stability, gas production, and settlement, that will be used by the department to determine the beginning of the postclosure period for the RDDP under subsection (10).

(d) Information to ensure that the requirements of subsection (6) will be met.

(6) An RDDP shall meet all of the following requirements:

(a) Ensure that added liquids are evenly distributed and that side slope breakout of liquids is prevented.

(b) Ensure that daily cover practices or disposal of low permeability solid wastes does not adversely affect the free movement of liquids and gases within the waste mass.

(c) Include all of the following:

(*i*) A means to monitor the moisture content and temperature of the waste.

(*ii*) A leachate collection system of adequate size for the anticipated increased liquid production rates. The design's factor of safety shall take into account the anticipated increased operational temperatures and other factors as appropriate.

(*iii*) A means to monitor the depth of leachate on the liner.

(*iv*) An active gas collection and control system. The system shall be of adequate size for the anticipated methane production rates and to control odors. The system must be operational before the addition of any material to accelerate or enhance biostabilization of the solid waste.

(7) The owner or operator of an RDDP for which a construction permit has been issued shall submit a report to the department at least once every 12 months on the progress of the RDDP in achieving its goals. The report shall include a summary of all monitoring and testing results, as well as any other operating information specified by the permit or in a subsequent permit modification or operating condition.

(8) A permit for an RDDP shall specify the term of the permit, which shall not exceed 3 years. However, the owner or operator of an RDDP may apply for and the department may grant an extension of the term of the permit, subject to all of the following requirements:

(a) The application to extend the term of the permit must be received by the department at least 90 days before the expiration of the permit.

(b) The application shall include a detailed assessment of the RDDP showing the progress of the RDDP in achieving its goals, a list of problems with the RDDP and progress toward resolving those problems, and other information that the department determines is necessary to accomplish the purposes of part 115.

(c) If the department fails to make a final decision within 90 days after receipt of an administratively complete application for an extension of the term of a permit, the term of the permit is extended for 3 years.

(d) An individual extension shall not exceed 3 years, and the total term of the permit with all extensions shall not exceed 21 years.

(9) If the department determines that the overall goals of an RDDP, including, but not limited to, protection of the environment, natural resources, and the public health, safety, and welfare, are not being achieved, the department may order immediate termination of all or part of the operations of the RDDP or may order other corrective measures.

(10) The postclosure period for a facility authorized as an RDDP begins when the department determines that the unit or portion of the unit where the RDDP was authorized has reached a condition similar to the condition that non-RDDP landfills would reach before postclosure. The parameters, such as moisture content, stability, gas production, and settlement, to attain this condition shall be specified in the permit. The landfill care fund shall be maintained for the period after final closure of the landfill as specified under section 11523(1)(a).

(11) The department may authorize the conversion of an RDDP to a full-scale operation if the owner or operator of the RDDP demonstrates to the satisfaction of the department that the goals of the RDDP have been met and the authorization does not constitute a less stringent permitting requirement than is required under subtitle D of the solid waste disposal act, 42 USC 6941 to 6949a, and regulations promulgated

thereunder.

History: Add. 2005, Act 236, Imd. Eff. Nov. 22, 2005;—Am. 2011, Act 215, Imd. Eff. Nov. 10, 2011;—Am. 2016, Act 437, Eff. Apr. 4, 2017;—Am. 2022, Act 245, Eff. Mar. 29, 2023.

Popular name: Act 451

Popular name: NREPA

Popular name: Solid Waste Act

324.11512 Disposal of solid waste at licensed disposal area; license required to conduct, manage, maintain, or operate disposal area; application; contents; fee; certification; resubmitting application; additional information or corrections; operation of incinerator without operating license; additional fees; operation of coal ash landfill and coal ash impoundment; application; fees; public notice and meeting; hydrogeologic monitoring program; annual report.

Sec. 11512. (1) This section applies to disposal areas as provided in section 11509(1).

(2) A person shall not dispose of solid waste at a disposal area unless the disposal area is licensed under this section. However, a person authorized by state law or rules promulgated by the department to do so may dispose of the solid waste at the site of generation. Waste placement in existing landfill units shall be consistent with past operating practices or modified practices to ensure good management.

(3) Except as otherwise provided in this section, a person shall not conduct, manage, maintain, or operate a disposal area except as authorized by an operating license issued by the department pursuant to part 13. The owner or operator of the disposal area shall submit a license application to the department through a certified health department. Existing coal ash impoundments are exempt from the licensing requirements of this part through December 28, 2020. If the disposal area is located in a county or city that does not have a certified health department, the application shall be made directly to the department. A person authorized by part 115 to operate more than 1 type of disposal area at the same facility may apply for a single license.

(4) An applicant for a license for a type II or type III landfill shall submit evidence of financial assurance that meets the requirements of section 11523a, the maximum waste slope in the active portion, an estimate of remaining permitted capacity, and documentation of the amount of waste received at the disposal area during the previous license period or expected to be received, whichever is greater.

(5) An application for a license for a disposal area other than an existing coal ash impoundment shall include a certification under the seal of a licensed professional engineer verifying that the construction of the disposal area has proceeded according to the approved plans. An applicant for a license for an existing coal ash impoundment shall submit with the application documentation in the applicant's possession or control regarding the construction of the impoundment. If construction of a portion of a landfill is not complete, the owner or operator shall submit additional construction certification of that portion of the landfill under section 11516(3).

(6) An applicant for an operating license, within 6 months after a license denial, may resubmit the application, together with additional information or corrections as are necessary to address the reason for denial, without being required to pay an additional application fee.

(7) To conduct tests and assess operational capabilities, the owner or operator of a municipal solid waste incinerator that is designed to burn at a temperature in excess of 2500 degrees Fahrenheit may operate the incinerator without an operating license, upon notice to the department, for a period not to exceed 60 days.

(8) The application for a type II landfill operating license shall be accompanied by the following fee for the 5-year term of the operating license, subject to subsection (9):

(a) Landfills receiving less than 100 tons per day, $500.00.

(b) Landfills receiving 100 tons per day or more, but less than 250 tons per day, $1,500.00.

(c) Landfills receiving 250 tons per day or more, but less than 500 tons per day, $4,000.00.

(d) Landfills receiving 500 tons per day or more, but less than 1,000 tons per day, $6,500.00.

(e) Landfills receiving 1,000 tons per day or more, but less than 1,500 tons per day, $12,500.00.

(f) Landfills receiving 1,500 tons per day or more, but less than 3,000 tons per day, $22,500.00.

(g) Landfills receiving more than 3,000 tons per day, $33,000.00.

(9) Type II landfill application fees shall be based on the average amount of waste in tons projected to be received daily during the license period. Application fees for license renewals shall be based on the average amount of waste received daily in the previous calendar year based on a 365-day calendar year. Application fees shall be adjusted in the following circumstances:

(a) If a landfill accepts more than the amount of waste on which the application fee was based, a supplemental fee equal to the difference shall be submitted with the next license application.

(b) If a landfill accepts less than the amount of waste on which the application fee was based, the department shall credit the applicant an amount equal to the difference with the next license application.

(c) A landfill used exclusively for municipal solid waste incinerator ash that measures waste by volume rather than weight shall pay a fee based on 1 cubic yard per ton.

(10) The operating license application for a type III landfill shall be accompanied by a fee of $5,000.00.

(11) An application for an operating license for a coal ash landfill shall be accompanied by a fee of $13,000.00. By the anniversary of the issuance of the operating license, while the operating license remains in effect, the coal ash landfill owner or operator shall pay the department a fee of $13,000.00. If the anniversary of the issuance of the operating license falls on a legal holiday, the annual fee shall be paid by the next business day.

(12) An application for an operating license by a coal ash impoundment shall be accompanied by a fee of $13,000.00. On the anniversary of the issuance of the operating license, while the operating license remains in effect, the coal ash impoundment owner or operator shall pay the department a fee of $13,000.00. If the anniversary of the issuance of the operating license falls on a legal holiday, the annual fee shall be paid on the next business day.

(13) The department shall deposit the fees collected under subsections (11) and (12) in the coal ash care fund created in section 11550.

(14) Upon receipt of a license application for either a coal ash impoundment or a coal ash landfill, the department shall do all of the following:

(a) Immediately send notice to the clerk of the municipality where the disposal area is located and the designated regional solid waste management planning agency.

(b) Publish a notice in a newspaper having major circulation in the vicinity of the disposal area.

(15) The notices under subsection (14) shall meet all of the following requirements:

(a) Include a map indicating the location of the disposal area and a description of the disposal area.

(b) Specify the location where the complete application package may be reviewed and where copies may be obtained.

(c) Indicate that the department will accept comments for 45 days after the date of publication of the notice.

(d) Indicate that the department shall hold a public meeting in the area of the disposal area if, within 15 days after the date of publication of the notice, any of the following occur:

(*i*) A written request for a public meeting is submitted to the department by the applicant or a municipality.

(*ii*) The department determines that there is a significant public interest in or known public controversy over the application or that for any other reason a public meeting is appropriate.

(16) A public meeting referred to in subsection (15)(d) shall be held after the department makes a preliminary review of the application and all pertinent data and before an operating license is issued or denied. During its review, the department shall consider input provided at the public meeting.

(17) If an application is returned to the applicant as administratively incomplete, the department shall refund the entire fee. An applicant for a license, within 12 months after a license denial or withdrawal of a license application, may resubmit the application with the additional information as needed to address the reasons for denial, without being required to pay an additional application fee.

(18) The operating license application for a solid waste processing and transfer facility that manages more than 200 cubic yards at any time, or other disposal area that is not a landfill or surface impoundment shall be accompanied by a fee of $1,000.00.

(19) Except as provided in subsection (13), the department shall deposit operating license application fees collected under this section in the perpetual care account of the solid waste management fund.

(20) A person who applies for an operating license for more than 1 type of disposal area at the same facility shall pay a fee equal to the sum of the applicable application fees listed in this section.

(21) The department shall not license a landfill or coal ash impoundment unless the landfill or coal ash impoundment has an approved hydrogeologic monitoring program and the owner or operator has provided the department with the monitoring results. The department shall use this information in conjunction with other information required by part 115 to determine a course of action regarding licensing of the facility consistent with section 4005 of subtitle D of the solid waste disposal act, 42 USC 6945, and with part 115. In deciding a course of action, the department shall consider, at a minimum, the environment, natural resources, the public health, safety, and welfare, and other public or private alternatives. If a landfill or coal ash impoundment violates part 115, the department may do any of the following:

(a) Revoke the landfill's or coal ash impoundment's license.

(b) If the disposal area is a coal ash impoundment that has not been previously licensed under this part, deny a license.

(c) Issue a timetable or schedule of corrective action, including a sequence of actions or operations, that leads to compliance with part 115 within a reasonable time period but not more than 1 year.

(22) A type II landfill does not require a separate solid waste processing and transfer facility permit or license to solidify industrial waste sludges on-site if that activity meets all of the following requirements:

(a) Occurs in containers or tanks as specified in part 121.

(b) Complies with part 55.

(c) Is approved by the department as part of the facility's operations plan.

(23) An existing industrial waste landfill may accept any of the following:

(a) Industrial waste.

(b) Solid waste that originates from an industrial site and is not a hazardous waste regulated under part 111.

(24) The owner or operator of a landfill shall annually submit a report to the department and the county and municipality in which the landfill is located that specifies the tonnage and type of solid waste received by the landfill during the year itemized, to the extent possible, by county, state, or country of origin and the amount of remaining disposal capacity at the landfill. Remaining disposal capacity shall be calculated as the permitted capacity less waste in place for any area that has been constructed and is not yet closed plus the permitted capacity for each area that has a permit for construction under part 115 but has not yet been constructed. The report shall be submitted within 45 days after the end of each state fiscal year. By January 31 of each year, the department shall submit to the legislature a report summarizing the information obtained under this subsection.

(25) The owner or operator of a licensed processing and transfer facility, within 45 days after the end of each state fiscal year, shall submit to the department on a form and in a medium provided by the department, a report on the amount of materials managed at the facility during that state fiscal year.

Popular name: NREPA

Popular name: Solid Waste Act

324.11512a Issuance of license for coal ash landfill or a coal ash impoundment; requirements.

Sec. 11512a. (1) The department shall not issue a license to a coal ash landfill or a coal ash impoundment unless the applicant has provided to the department both of the following:

(a) An approved hydrogeological monitoring program that does both of the following:

(*i*) Complies with R 299.4440 to R 299.4445, if applicable, and R 299.4905 to R 299.4908 of the part 115 rules.

(*ii*) Includes a detection monitoring program that meets the requirements of section 11511a(3).

(b) All reports and other information required under 40 CFR 257.90 for the preceding 5 years, as applicable. Based on this information, the department shall determine whether any additional licensing requirements are necessary for the coal ash landfill or coal ash impoundment. Any report or other information available on the applicant's website or already submitted to the department is not required to be provided with the application.

(2) The department shall not issue a license to a coal ash landfill unless the applicant has provided to the department a run-on and run-off control system plan that complies with 40 CFR 257.81(c)(1) and was prepared and certified by a professional engineer pursuant to R 299.4910(9) of the part 115 rules. This plan shall be revised every 5 years in compliance with 40 CFR 257.81(c)(4).

(3) The department shall not issue a license to a coal ash impoundment unless the applicant has provided to the department an inflow design flood control system plan that complies with 40 CFR 257.82(c)(1) and was prepared and certified by a professional engineer pursuant to R 299.4910(9) of the part 115 rules. This plan shall be revised every 5 years in compliance with 40 CFR 257.82(c)(4).

(4) The department shall not issue a license to a coal ash landfill or a coal ash impoundment unless that landfill or impoundment complies with section 11511a(3) and, if applicable, section 11519b(4) or a schedule, approved by the department, of remedial measures, including a sequence of actions or operations, that leads to compliance with this part within a reasonable time period but not more than 2 years after the effective date of the amendatory act that added this subsection.

(5) The department shall not issue a license for a coal ash impoundment that is not a low-hazard-potential coal ash impoundment unless the applicant has provided to the department an emergency action plan that

complies with 40 CFR 257.74(a)(3) and was prepared and certified by a professional engineer pursuant to R 299.4910(9) of the part 115 rules.

Popular name: Solid Waste Act

324.11512b Active gas collection and control system; prevention of the migration of explosive gases; system requirements; compliance with gas migration monitoring plan; alternative gas venting.

Sec. 11512b. (1) A landfill that accepts waste with the potential to generate gas must be designed to prevent the migration of explosive gases generated by the waste.

(2) A landfill that accepts municipal solid waste must be designed with an active gas collection and control system. Except as otherwise provided for in this section or approved by the department, the active gas collection and control system shall include all of the following features:

(a) Vertical gas extraction wells that meet all of the following requirements:

(*i*) Are installed throughout the landfill with a maximum radius of influence of 150 feet per well and lesser radii for wells located near the perimeter of the landfill. The radii of influence of adjacent wells shall overlap. Alternate well spacings may be used for portions of a site or the entire site if approved by the department after a site-specific demonstration.

(*ii*) Have target depths of at least 75% of the waste depth at the well location. However, the wells should not extend closer than 10 feet above the leachate collection system.

(*iii*) Are constructed of pipe that meets all of the following requirements:

(A) Is at least 6 inches in diameter.

(B) Is manufactured from polyvinylchloride, high-density polyethylene, chlorinated polyvinyl chloride, or an alternate material approved by the department.

(C) Is designed to convey projected amounts of gas; withstand installation, static, and settlement forces; and withstand planned overburden and traffic loads.

(D) When constructed, is slotted or otherwise perforated and is screened in the lower 2/3 to 3/4 of its length in the borehole. The department may approve alternative perforated screened length requirements based on waste thickness or other factors.

(*iv*) Has boreholes that meet all of the following requirements:

(A) Are 36 inches in diameter. The department may approve alternate diameter boreholes as part of a design prepared by a licensed professional engineer and approved by the department.

(B) Are backfilled around the perforated pipe with 3/4- to 3- inch washed stone or an alternate material if approved by the department after a site-specific demonstration.

(C) The top 10 feet are sealed in a manner approved by the department.

(b) Horizontal gas extraction wells that are properly sloped to drain accumulated liquids and designed to withstand expected overburden pressures.

(c) A flow control valve and sampling access port on each gas extraction well.

(d) A gas header system that meets all of the following requirements:

(*i*) The entire gas header system is designed with a loop to allow alternative flow paths for the gas as soon as practicable during both the interim and final development phases of construction.

(*ii*) The slope on the header pipe over the waste mass is at least 2% wherever possible. The slope outside of the waste mass shall allow efficient removal of condensate and prevents sags.

(*iii*) The header and lateral pipes meet both of the following requirements:

(A) Are manufactured from polyethylene or another material approved by the department.

(B) Are designed to convey projected amounts of gas and liquids; withstand installation, static, and settlement forces; and withstand planned overburden and traffic loads.

(e) A blower, header, and laterals designed so that a vacuum of at least 10 inches of water column is available at the well located furthest from the blower. An available header vacuum of less than 10 inches of water column at the well located furthest from the blower complies with this subdivision if the owner or operator of the landfill demonstrates to the department that the available vacuum is adequate to meet performance criteria.

(f) A drip leg or equivalent installed immediately before the blower to separate condensate from gas while preserving the suction at the wells when under maximum operating vacuum.

(g) An approved secondary containment method for condensate and liquid transfer piping if the piping is

located outside of the limits of the waste and installed after the effective date of the amendatory act that added this section.

(h) The ability to collect and manage all condensate, measure volumes of liquid removed from the gas extraction wells, and collect samples of landfill gas.

(i) A control device to which collected landfill gas is routed that meets all of the following requirements:

(*i*) Operates at all times gas is routed to it.

(*ii*) Is designed and operated to meet the requirements of part 55 or the new source performance standards under 40 CFR part 60.

(*iii*) Operates backup blower or control equipment required under subdivision (j).

(j) Available backup equipment to effectively control landfill gas emissions during an equipment breakdown.

(k) The active gas collection and control system shall not be inoperable or unable to maintain a vacuum required by subdivision (e) for more than 5 consecutive days.

(3) A landfill that has a potential to generate gas shall have and comply with a gas migration monitoring plan. The plan shall include at least 1 gas monitoring probe on each side of the landfill. The plan shall be based on all of the following factors:

(a) Soil conditions.

(b) Hydrogeologic conditions surrounding the landfill.

(c) Hydraulic conditions surrounding the landfill.

(d) The location of landfill structures and property boundaries.

(4) A landfill that accepts industrial waste or other nonmunicipal solid waste with the potential to generate gas and that does not utilize an active gas collection and control system shall be designed with a system that allows gas venting from the entire landfill surface. The owner or operator of the landfill shall perform an analysis to determine the spacing needed between gas venting trenches for an effective system. The system shall be designed with a continuous layer, which may be utilized as part of the infiltration layer that protects the final cover liner from the waste and minimizes the effect of settlement. The continuous layer shall meet all of the following requirements:

(a) Be located below the capping layer.

(b) Allow surficial venting from the waste final surface.

(c) Consist of at least 1 foot of granular soil with hydraulic conductivity of at least 1.0x10-3 cm/sec and a series of flexible, perforated pipes connected to a series of outlets or an alternative design approved by the department as providing equivalent performance.

324.11512d Installation of monitoring port; sampling of gas extractions for effectiveness; surface monitoring design plan; submission and retention of records.

Sec. 11512d. (1) The owner or operator of a landfill with an active gas collection and control system or a venting system shall install monitoring ports and conduct monitoring as specified by the department to determine the effectiveness of the system.

(2) The owner or operator of a landfill with an active gas collection and control system shall sample each gas extraction well for nitrogen or oxygen and for methane, pressure, temperature, liquid level, and, if existing wellheads allow flow measurement, flow. The owner or operator shall monitor gas flow to the control device, methane content at the control device, and other parameters as specified in an approved monitoring plan.

(3) The owner or operator of a landfill shall sample each gas extraction well monthly for the parameters, other than liquid level, listed in subsection (2). Except as provided in this subsection, the liquid level in each well shall be monitored at least semi-annually. If for 2 consecutive monitoring events the liquid level in a well exceeds 50% but does not exceed 75% of the screened interval length, the owner or operator shall submit to the department for review a liquids removal evaluation and corrective action report for the well, unless the well has a functional, operated liquid pump. If the liquid level in a well exceeds 75% of the screened interval length during a monitoring event, then the liquid level monitoring frequency for that well shall be increased to quarterly. If the liquid level in a well exceeds 75% of the screened interval length for 2 consecutive monitoring events, the owner or operator of the landfill shall install a liquids pump, unless the department approves an alternative corrective action plan. If the liquid level in a well did not exceed 50% for the immediately preceding 2 consecutive monitoring events, the owner or operator may petition the department

for a decreased monitoring frequency. However, decreased monitoring shall be conducted at least annually. For the purposes of the petition, the 2 consecutive monitoring events may include monitoring conducted before the effective date of the amendatory act that added this section.

(4) The owner or operator of a landfill required to have an active landfill gas collection and control system shall operate the system so that the methane concentration is 500 parts per million or less above background at the surface of the landfill.

(5) Not later than 180 days after initial waste receipt in a portion of a landfill, the owner or operator of the landfill shall commence surface monitoring for methane at all of the following locations:

(a) Where visual observations, such as of distressed vegetation or cracks or seeps in the cover, indicate elevated concentrations of landfill gas.

(b) At each penetration of daily, interim, or final landfill cover.

(c) Around the perimeter of the active gas collection and control system.

(d) Along a pattern that traverses the landfill at no more than 30-meter intervals, unless the owner or operator establishes an alternative traversing pattern that is approved by the department after a site-specific demonstration.

(6) The owner or operator of a landfill shall conduct monitoring under subsection (5) in compliance with a surface monitoring design plan approved by the department that includes a topographical map showing the monitoring route and the rationale for any site-specific deviations from the 30-meter intervals under subsection (5)(d). The department may approve a surface monitoring design plan that excludes steep slopes or other dangerous areas from the surface monitoring.

(7) The owner or operator of a landfill shall do all of the following:

(a) Submit gas monitoring results to the department upon request.

(b) Prepare field records of all monitoring activities under this section in sufficient detail to document whether the sampling plan has been complied with.

(c) Retain the field records required under subdivision (b) in an operating record at the landfill or in an alternative location approved by the department until the end of the long-term care period for the landfill.

(d) Make the field records available for department inspection on request.

324.11512f Type II landfill; revised engineering plans; compliance requirements; report.

Sec. 11512f. (1) The owner or operator of a type II landfill shall submit to the department revised engineering plans and reports required by this section in compliance with the following schedule:

(a) If, on the effective date of the amendatory act that added this section, the landfill has an active gas collection and control system and is subject to monthly wellhead monitoring pursuant to the new source performance standards under 40 CFR part 60, the owner or operator shall submit revised engineering plans that incorporate the approved new source performance standard plans within 90 days after the effective date of the amendatory act that added this section. The revised plans need not require upgrading of the initial active gas collection and control system in previously constructed areas unless it is necessary to correct surface emissions of methane at concentrations exceeding 500 parts per million above background that cannot be corrected within 1 quarterly monitoring period by following the procedures of 40 CFR 60.765(c)(4)(i) to (iv), to correct a nuisance odor violation, or to maintain vacuum requirements at the wellhead located farthest from the blower. The design requirements of section 11512b(2) apply to lateral extensions, lateral expansions, and all new units at the facility.

(b) If, on the effective date of the amendatory act that added this section, the landfill has an active gas collection and control system and is not subject to monthly wellhead monitoring pursuant to the new source performance standards under 40 CFR part 60, the owner or operator shall submit revised plans within 1 year after the effective date of the amendatory act that added this section. The revised plans need not require upgrading of the initial system in previously constructed areas unless it is necessary to correct surface emissions exceeding 500 parts per million of methane above background that cannot be corrected within 1 quarterly monitoring period by following the procedures of 40 CFR 60.765(c)(4)(i) to (iv), to correct a nuisance odor violation, or to maintain vacuum requirements at the well located furthest from the blower. The design requirements of section 11512b(2) apply to lateral extensions and all new units at the landfill.

(c) If, on the effective date of the amendatory act that added this section, the landfill does not have an active gas collection and control system, the owner or operator shall submit revised plans for an active gas

collection and control system within 1 year after detecting surface methane emissions at concentrations exceeding 500 parts per million above background that cannot be corrected within 1 quarterly monitoring period by following the procedures of 40 CFR 60.765(c)(4)(i) to (iv) or within 1 year after the department documents a nuisance odor violation, unless an extension of the deadline is approved by the department. The revised plans need not include upgrading of the initial system in all previously constructed areas. The revised plans shall address the areas causing the surface emissions exceedance or nuisance odor violation plus all future lateral extensions at the landfill. The design requirements of section 11512b(2) apply to the proposed active gas collection and control system. Construction of the system shall be completed within 180 days after the department approves the revised engineering plans, unless an extension is approved by the department.

(d) If the landfill is a new unit or lateral expansion, the owner or operator must submit engineering plans and reports for an active gas collection and control system before the department issues a solid waste disposal area construction permit.

(2) The design plans and engineering reports for a type II landfill required by part 115 shall be sufficient to demonstrate compliance with 40 CFR 60.759. The engineering reports shall include a monitoring plan that is sufficient to demonstrate compliance with section 11512d. The department shall incorporate the design plans and engineering reports into the landfill's solid waste disposal area construction permit and solid waste disposal area operating license.

(3) Within 45 days after the end of each state fiscal year, the owner or operator of a type II landfill shall update engineering plans to show the as-built location of all active gas collection and control system components, unless no changes have been made. The update shall include plan views and details for any changes proposed but not previously approved. The plan views shall include proposed wells and collection headers to collect landfill gas from the landfill in future final stages as well as as-built locations for all components above grade and currently functioning below grade.

(4) The owner or operator of a type II landfill shall submit plans to the department before beginning an active gas collection and control system expansion project. Repairs, changes, or installations are not considered to be an expansion project if they are minor and necessary for proper maintenance of the existing active gas collection and control system. The plans shall identify gas extraction well locations, include a schedule of extraction well depths, and identify gas well pump locations, compressed air and pump force main locations, header and lateral vacuum pipe locations, condensate drip leg and sump locations, and any other relevant infrastructure, as well as construction details for these items. If, during construction, conditions require that any of the approved or proposed extraction well locations deviate more than 50 feet from the proposed location or more than 25% from the proposed depth, the owner or operator shall submit to the department 1 of the following:

(a) A statement from a licensed professional engineer that the gas wells installed will provide adequate control of landfill gas emissions and meet the intent of the design.

(b) A schedule for installing additional gas collectors to meet the design requirements included with the approved engineering plans.

(5) Within 180 days after completion of construction of portions of the active gas collection and control system, the owner or operator shall submit to the department a documentation report by a construction quality assurance officer or other department-approved designee of the landfill owner or operator that the construction complies with part 115 and the engineering plans approved by the department. All of the following information shall accompany the documentation report:

(a) A daily activity log, containing all of the information required by R 299.4921(3) of the MAC.

(b) Landfill gas well logs that include all of the following:

(*i*) Observations of the depth, composition, degree of decay, temperature, and moisture content of the waste.

(*ii*) Details of the construction of the well including borehole size and depth, pipe size and type, perforated length, aggregates utilized, soils utilized, and the location and types of seals utilized.

(c) An as-built engineering plan view of the active gas collection and control system with the location of existing wells and headers and the location of newly installed wells, headers, and other active gas collection and control system infrastructure.

324.11512h Schedule for operating and monitoring an active gas collection and control

system; surface emission scans.

Sec. 11512h. (1) The owner or operator of a type II landfill shall begin operating and monitoring an active gas collection and control system in compliance with the following schedule:

(a) If the landfill is described in section 11512f(1)(a), within 90 days after the date of approval of the revised engineering plans.

(b) If the landfill is described in section 11512f(1)(b), within 1 year after the effective date of the amendatory act that added this section.

(2) The owner or operator of a type II landfill without an active gas collection and control system shall begin surface emission scans within 1 year after the effective date of the amendatory act that added this section.

(3) The owner or operator of a type II landfill shall install an active gas collection and control system in compliance with the following schedule:

(a) If the landfill is a new unit, a lateral expansion, or a lateral extension and if the approved design plan includes an active gas collection and control system, the initial active gas collection and control system must be installed before waste is accepted. An initial active gas collection and control system may include horizontal collectors installed directly above the leachate collection system or vacuum applied to the leachate collection risers, or both. The initial active gas collection and control system shall be operated upon detection of landfill gas pressure in a landfill cell, as determined by any of the following:

(*i*) Surface emission scans detecting methane at concentrations exceeding 500 parts per million above background that cannot be corrected within 1 quarterly period by following the procedures of 40 CFR 60.765(c)(4)(i) to (iv).

(*ii*) Positive pressure in leachate collection riser pipes.

(*iii*) Nuisance odors.

(*iv*) Visual evidence of gas emissions, such as stressed vegetation or gas bubbling through the cover.

(b) If, on the effective date of the amendatory act that added this section, the landfill has an active gas collection and control system and is not subject to monthly wellhead monitoring, gas extraction wells at locations as shown in the approved engineering plans shall be installed as soon as practicable, but not later than 180 days after engineering plan approval, unless an extension is approved by the department.

(c) If the landfill does not have an active gas collection and control system, gas extraction wells at locations as shown in the approved engineering plans shall be installed as soon as practicable, but not later than 180 days after engineering plan approval, unless an extension is approved by the department.

(4) After waste placement and operation of the initial collection devices, if a location is identified to have methane emissions at concentrations exceeding 500 parts per million above background, the owner or operator of the landfill shall comply with 40 CFR 60.765(c)(4)(i) to (iv). If a location is identified to have methane emissions at concentrations exceeding 500 parts per million above background 3 times within a quarterly monitoring period, the owner or operator shall, within 120 days, install additional extraction devices in compliance with the approved engineering plans. The department may approve an alternative remedy or deadline.

324.11513 Operation of solid waste processing and transfer facility; notification and reporting requirements; registration application; applicability to existing operations.

Sec. 11513. (1) Subject to subsection (4), unless the person has notified the department, a person shall not operate a solid waste processing and transfer facility that does not at any time have on-site more than 50 cubic yards of solid waste and that is not designed to accept waste from vehicles with mechanical compaction devices. Notification shall be given upon initial operation and, subsequently, within 45 days after the end of each state fiscal year. The subsequent notices shall report the amount of solid waste managed at the facility during the preceding state fiscal year.

(2) Subject to subsection (4), unless the person has registered the facility with the department, a person shall not operate a solid waste processing and transfer facility that at any time has on-site more than 50 cubic yards and does not at any time have on-site more than 200 cubic yards of solid waste and that is not designed to accept waste from vehicles with mechanical compaction devices. The term of a registration is 5 years. The person shall submit an application to renew a registration at least 90 days before the expiration of the current registration. An application for registration under this subsection shall contain the name and mailing address

of the applicant, the location of the proposed or existing solid waste processing and transfer facility, and other information required by part 115. The application shall be accompanied by a fee of $750.00. In addition, within 45 days after the end of each state fiscal year, the person shall submit to the department a report on the amount of materials managed at the facility during that state fiscal year.

(3) An application for registration submitted under subsection (2) shall be accompanied by an operations plan and site map. The department shall review operations and the operations plan for existing solid waste disposal areas to ensure compliance with operating requirements. If the department determines that an existing solid waste disposal area is noncompliant, the department may issue a schedule of remedial measures that will lead to compliance within a reasonable period of time not to exceed 1 year from the determination of deficiency.

(4) For a disposal area in operation before the effective date of the amendatory act that added this subsection, both of the following apply:

(a) Except as provided in subdivision (b), the disposal area shall follow its existing licensing renewal schedule.

(b) For a disposal area described in subsection (1) or (2), the operator shall submit to the department the notification or application for registration required under those subsections within 1 year after the effective date of the amendatory act that added this subsection.

324.11514 Materials prohibited from disposal in landfill; disposal of yard clippings; notice of prohibitions; report.

Sec. 11514. (1) A person shall not knowingly deliver to a landfill for disposal, or, if the person is an owner or operator of a landfill, knowingly allow disposal in the landfill of, any of the following:

(a) Medical waste, unless that medical waste has been decontaminated or is not required to be decontaminated but is packaged in the manner required under part 138 of the public health code, 1978 PA 368, MCL 333.13801 to 333.13832.

(b) More than a de minimis amount of open, empty, or otherwise used beverage containers.

(c) More than a de minimis number of whole motor vehicle tires.

(d) More than a de minimis amount of yard waste, unless it meets the requirements of section 11555(1)(j).

(2) A person shall not deliver to a landfill for disposal, or, if the person is an owner or operator of a landfill, allow disposal in the landfill of, any of the following:

(a) Used oil as defined in section 16701.

(b) A lead acid battery as defined in section 17101.

(c) Low-level radioactive waste as defined in section 2 of the low-level radioactive waste authority act, 1987 PA 204, MCL 333.26202.

(d) Regulated hazardous waste as defined in R 299.4104 of the MAC.

(e) Bulk or noncontainerized liquid waste or waste that contains free liquids, unless the waste is 1 of the following:

(*i*) Household waste other than septage waste.

(*ii*) Leachate or gas condensate that is approved for recirculation.

(*iii*) Septage waste or other liquids approved for beneficial addition under section 11511b.

(f) Sewage.

(g) PCBs as defined in 40 CFR 761.3.

(h) Asbestos waste, unless the landfill complies with 40 CFR 61.154.

(3) A person shall not knowingly deliver to a municipal solid waste incinerator for disposal, or, if the person is an owner or operator of a municipal solid waste incinerator, knowingly allow disposal in the incinerator of, more than a de minimis amount of yard waste, unless the requirements of section 11555(1)(j) are met.

(4) The department shall post, and a hauler that disposes of solid waste in a municipal solid waste incinerator shall provide its customers with, notice of the prohibitions of subsection (3) in the same manner as provided in section 11527a.

(5) If the department determines that a safe, sanitary, and feasible alternative does not exist for the disposal in a landfill or municipal solid waste incinerator of any items described in subsection (1) or (3), respectively, the department shall submit a report setting forth that determination and the basis for the determination to the

standing committees of the senate and house of representatives with primary responsibility for solid waste issues.

324.11514b Disposal of certain technologically enhanced naturally occurring radioactive material (TENORM) in type II landfill prohibited; annual report; disposal requirements; TENORM defined.

Sec. 11514b. (1) A person shall not deliver to a type II landfill in this state for disposal and the owner or operator of a type II landfill shall not permit disposal in the landfill of technologically enhanced naturally occurring radioactive material with any of the following:

(a) A concentration of radium-226 more than 50 picocuries per gram.

(b) A concentration of radium-228 more than 50 picocuries per gram.

(c) A concentration of lead-210 more than 260 picocuries per gram.

(2) The owner or operator of a type II landfill shall not permit a delivery of TENORM for disposal at the landfill unless the generator has provided the following information in writing to the owner or operator of the landfill:

(a) The concentrations of radium-226, radium-228, lead-210, and any other radionuclide identified using gamma spectroscopy, or an equivalent analytical method, in the TENORM based on techniques for representative sampling and waste characterization approved by the department.

(b) An estimate of the total mass of the TENORM.

(c) An estimate of the total radium-226 activity, the total radium-228 activity, and the total lead-210 activity of the TENORM.

(d) The proposed date of delivery.

(3) The department may test TENORM proposed to be delivered to a landfill.

(4) Within 45 days after the end of each state fiscal year, the owner or operator of a type II landfill shall submit to the department an annual report that summarizes the information obtained under subsection (2) for all TENORM disposed at the landfill during the previous state fiscal year.

(5) The owner or operator of a type II landfill that disposes of TENORM with a concentration of radium-226 more than 25 picocuries per gram, a concentration of radium-228 more than 25 picocuries per gram, or a concentration of lead-210 more than 25 picocuries per gram shall do all of the following:

(a) Ensure that all TENORM is deposited at least 10 feet below the bottom of the future landfill cap.

(b) Maintain records of the location and elevation of TENORM disposed of at the landfill.

(c) Conduct a monitoring program that complies with all of the following:

(*i*) Radiological monitoring of site workers and at the landfill property boundary are conducted as specified in the license.

(*ii*) Radium-226, radium-228, and lead-210 are included among the parameters analyzed in leachate and groundwater at the frequency specified in the license.

(*iii*) Results of all monitoring required under this subsection are included in the environmental monitoring reports required under rules promulgated under this part and the facility operating license.

(6) As used in this section, "technologically enhanced naturally occurring radioactive material" or "TENORM" means naturally occurring radioactive material whose radionuclide concentrations have been increased as a result of human practices. TENORM does not include any of the following:

(a) Source material, as defined in section 11 of the atomic energy act of 1954, 42 USC 2014, and its progeny in equilibrium.

(b) Material with concentrations of radium-226, radium-228, and lead-210 each less than 5 picocuries per gram.

324.11515 Inspection of site; compliance with part 115 as condition of eligibility for permit, license, or registration; written inspection report; authorized representative defined.

Sec. 11515. (1) The department or an authorized representative of the department may inspect and investigate conditions relating to the generation, storage, processing, transportation, management, or disposal of solid waste or any material regulated under part 115. In conducting an inspection or investigation, the department or its authorized representative may, at reasonable times and after presenting credentials and stating its authority and purpose, do any of the following:

(a) Enter any property.

(b) Have access to and copy any information or records that are required to be maintained pursuant to part 115 or an order issued under part 115.

(c) Inspect any facility, equipment, including monitoring and pollution control equipment, practices, or operations regulated or required under part 115 or an order issued under part 115.

(d) Sample, test, or monitor substances or parameters for the purpose of determining compliance with part 115 or an order issued under part 115.

(2) Upon receipt of an application for a permit, license, approval under a general permit, or registration under part 115, the department or an authorized representative of the department shall inspect the materials management facility, property, site, or proposed operation to determine eligibility for the permit, license, approval under a general permit, or registration. Before issuing a permit, license, approval under a general permit, or registration, the department shall file a written inspection report.

(3) If the department or an authorized representative of the department is refused entry or access under subsection (1) or (2), the attorney general, on behalf of this state, may do either of the following:

(a) Petition the court of appropriate jurisdiction for a warrant authorizing entry or access to property, information or records or authorizing sampling, testing, or monitoring pursuant to this section.

(b) Commence a civil action to compel compliance with a request for entry or access to property, information, or records or to sample, test, or monitor pursuant to this section.

(4) The department or an authorized representative may receive and initiate complaints of an alleged violation of part 115 and take action with respect to the complaint as provided in part 115.

(5) As used in this section, "authorized representative" means any of the following:

(a) A full- or part-time employee of another state department or agency acting pursuant to law or to which the department delegates certain duties under part 115.

(b) A local health officer.

(c) For the purpose of sampling, testing, or monitoring under subsection (1)(d), a contractor retained by the state or a local health officer.

History: 1994, Act 451, Eff. Mar. 30, 1995;—Am. 2018, Act 640, Imd. Eff. Dec. 28, 2018;—Am. 2022, Act 245, Eff. Mar. 29, 2023.

Popular name: Act 451

Popular name: NREPA

Popular name: Solid Waste Act

324.11516 Final decision on license application; expiration and renewal of operating license; issuance of license as authority to accept waste for disposal; final exterior landfill slope requirements.

Sec. 11516. (1) Before making a final decision on an operating license application under section 111512, the department shall review the application for consistency with the requirements of part 115. The department shall notify the clerk of the municipality in which the disposal area is located and the applicant of its approval or denial of a license application within 10 days after the final decision is made.

(2) An operating license expires 5 years after the date of issuance. An operating license may be renewed before expiration upon payment of a renewal application fee specified in section 11512 if the licensee is in compliance with part 115.

(3) Issuance of an operating license by the department authorizes the licensee to accept waste for disposal in certified portions of the disposal area for which a bond was established under section 11523 and, for type II landfills, for which financial assurance was demonstrated under section 11523a. If the construction of a portion of a landfill licensed under this section is not complete by the time the license application is submitted, the owner or operator of the landfill shall submit a certification under the seal of a licensed professional engineer verifying that the construction of that portion of the landfill has proceeded according to the approved plans at least 60 days before the anticipated date of waste disposal in that portion of the landfill. If the department does not deny the certification within 60 days of receipt, the owner or operator may accept waste for disposal in the certified portion. In the case of a denial, the department shall issue a written statement of the reasons why the construction or certification is not consistent with part 115 or the approved plans.

(4) The final exterior landfill slopes approved by the department, including the slope of the top of waste beneath the final cover, shall not be steeper than 25% except where necessary for either of the following:

(a) To install berms for erosion control.

(b) To vertically transition the side slope back to permitted final waste grades upslope from an area that has received final cover and has settled below permitted grades. The department may approve the transition slope if it does not exceed 33% and the owner or operator demonstrates, through revised engineering plans and analyses, that the steeper slope will not result in increased erosion or reduced stability in either the interim or final cover conditions. The landfill owner or operator shall provide enhanced soil erosion protection to the top surface of the transition slope to ensure interim and long-term erosion control and stability equivalent to a 25% side slope.

History: 1994, Act 451, Eff. Mar. 30, 1995;—Am. 1996, Act 358, Eff. Oct. 1, 1996;—Am. 2003, Act 153, Eff. Oct. 1, 2003;—Am. 2004, Act 325, Imd. Eff. Sept. 10, 2004;—Am. 2018, Act 640, Imd. Eff. Dec. 28, 2018;—Am. 2022, Act 245, Eff. Mar. 29, 2023.

Compiler's note: In subsection (1), the reference to "section 111512" evidently should be to "section 11512".

Popular name: Solid Waste Act

324.11517 Approval of closure certification and postclosure plan; modification of postclosure care period; release from postclosure care; duties of owner or operator.

Sec. 11517. (1) After the department approves the closure certification for a landfill unit under section 11523a, the owner or operator shall conduct postclosure care of that unit in compliance with a postclosure plan approved by the department and shall maintain financial assurance in compliance with part 115 including any additional financial assurance required based on an extension of the postclosure care period under subsection (3). The postclosure plan may include monitoring and maintenance provisions not otherwise required by part 115 if designed to achieve and demonstrate functional stability, such as monitoring settlement. Postclosure care shall be conducted for 30 years, except as provided under subsection (2) or (3), and consist of at least all of the following conducted as required by part 115:

(a) Maintaining the integrity and effectiveness of any final cover, including making repairs to the cover as necessary to correct the effects of settlement, subsidence, erosion, or other events, and preventing run-on and run-off from eroding or otherwise damaging the final cover.

(b) Maintaining and operating the leachate collection system, if any. The department may waive the requirements of this subdivision if the owner or operator demonstrates that leachate no longer poses a threat to the environment, natural resources, or the public health, safety, or welfare.

(c) Monitoring the groundwater and maintaining the groundwater monitoring system, if any.

(d) Maintaining and operating the gas monitoring and collection system, if any.

(2) The department, by written notification to the landfill owner or operator, shall shorten the postclosure care period specified under subsection (1) if the landfill owner or operator submits to the department, and the department approves, a petition certified by a licensed professional engineer and a qualified groundwater scientist that demonstrates all of the following:

(a) The landfill's closure certification was approved by the department under section 11523a.

(b) The owner or operator has complied with postclosure care maintenance and monitoring requirements for at least 15 years.

(c) The landfill has achieved functional stability, including, but not limited to, meeting all of the following requirements:

(*i*) There has been no release from the landfill into groundwater or surface water requiring ongoing corrective action.

(*ii*) There is no ongoing subsidence or significant past subsidence of waste in the unit that may result in ponding or erosion that would significantly increase infiltration through or cause damage to the final cover.

(*iii*) The landfill does not produce more than minimal amounts of combustible gases.

(*iv*) Combustible gases from the landfill have not been detected at or beyond the landfill's property boundary or in facility structures.

(*v*) The landfill does not produce nuisance odors requiring control.

(*vi*) Leachate and gas collection and control system condensate generation has ceased, leachate and condensate quality meets criteria for acceptable surface water or groundwater discharge, or leachate and condensate can be discharged through existing leachate and condensate handling facilities, such as sewers connected to a publicly owned treatment works.

(*vii*) The final exterior landfill slopes are as approved by the department under section 11516(4).

(d) Any other conditions necessary, as determined by the department, to protect the environment, natural resources, or the public health, safety, or welfare are met.

(3) The department shall extend the postclosure care period specified in subsection (1) for a landfill unit if any of the following apply:

(a) The owner or operator did not close the landfill unit as required by part 115.

(b) The final cover of the landfill unit has not been maintained and has significant ponding, erosion, or detrimental vegetation present.

(c) Groundwater monitoring has not been conducted in compliance with the approved monitoring plan or groundwater affected by the landfill unit exceeds criteria established under part 201.

(d) There is ongoing differential settlement of waste, as evidenced by significant ponding of water on the landfill cover.

(e) Gas monitoring has detected combustible landfill gases at or beyond the landfill boundary or in a facility structure above applicable criteria or gas from the unit continues to be generated at a rate that produces nuisance odors.

(f) Leachate or gas collection and control system condensate continues to be generated by the landfill unit in quantities or quality that may threaten groundwater or surface water.

(4) The owner or operator of a landfill unit that has been released from postclosure care of the unit shall do all of the following with respect to the landfill unit:

(a) Exercise custodial care by undertaking any activity necessary to maintain the effectiveness of the final cover, prevent the unauthorized discharge of leachate, prevent impacts to the surface or groundwater, mitigate the fire and explosion hazards due to combustible gases, and manage the landfill unit in a manner that protects environment, natural resources, and the public health, safety, and welfare.

(b) Comply with any land use or resource use restrictions established for the landfill unit.

History: 1994, Act 451, Eff. Mar. 30, 1995;—Am. 1996, Act 358, Eff. Oct. 1, 1996;—Am. 2022, Act 245, Eff. Mar. 29, 2023.

324.11518 Landfill and coal ash impoundment; instrument imposing restrictive covenant on land; filing; contents of covenant; authorization; exemption; construction of part 115.

Sec. 11518. (1) When a landfill cell is first licensed, an instrument that imposes a restrictive covenant upon the land involved shall be executed by all of the owners of the land and the department. If the land is owned by this state, the state administrative board shall execute the covenant on behalf of this state. The department or a local health officer shall file the instrument imposing the restrictive covenant for record in the office of the register of deeds of the county, or counties, in which the land is located. The covenant shall state that the land described in the covenant will be used as a landfill and that neither the property owners, their servants, agents, or employees, nor any of their heirs, successors, lessees, or assigns shall, without authorization from the department, engage in filling, grading, excavating, drilling, or mining on the property during the first 50 years following approval by the department of the landfill's closure certification under section 11523a. In giving authorization, the department shall consider the original design, type of operation, material deposited, and the stage of decomposition of the fill. The department may grant an exemption from this section if the land involved is federally owned or if agreements existing between the landowner and the licensee on January 11, 1979 are not renegotiable.

(2) Part 115 does not prohibit the department from conveying, leasing, or permitting the use of state land for a disposal area or a resource recovery facility as provided by applicable state law.

(3) When a disposal area that is a coal ash impoundment is first licensed under this part, an instrument that imposes a restrictive covenant upon the land involved shall be executed by all of the owners of the land and the department. If the land is owned by this state, the state administrative board shall execute the covenant on behalf of this state. The department or a local health officer shall file the instrument imposing the restrictive covenant for record in the office of the register of deeds of the county, or counties, the land is located. The covenant shall state that the land described in the covenant will be used as a coal ash impoundment and that neither the property owners, their servants, agents, or employees, nor any of their heirs, successors, lessees, or assigns shall, without authorization from the department, engage in filling, grading, excavating, drilling, or mining on the property during the first 50 years following completion of the impoundment. In giving authorization, the department shall consider the original design, type of operation, material deposited, and any removal of the materials as part of the closure of the impoundment.

(4) An industrial waste landfill may accept industrial waste of different types and from different

generators, but shall not accept hazardous waste generated by conditionally exempt small quantity generators.

324.11519 Specifying reasons for denial of permit, operating license, or registration; cease and desist order; grounds for order revoking, suspending, or restricting permit, license, or registration; contested case hearing; violation or inconsistency; summary suspension of permit or license; judicial review.

Sec. 11519. (1) The department shall specify, in writing, the reasons for denial of an application for a permit, an operating license, an approval under a general permit, or a registration, including the sections of part 115 that may be violated by granting the application and the manner in which the violation may occur.

(2) If a materials management facility is established, constructed, or operated in violation of the conditions of a permit, license, approval under a general permit, or registration, in violation of part 115 or an order issued under part 115, or in a manner not consistent with an MMP, all of the following apply:

(a) A local health officer or the department may issue a cease and desist order specifying a schedule of closure or remedial action in compliance with part 115 or may enter a consent agreement specifying a schedule of closure or remedial action under part 115.

(b) The department may issue a final order revoking, suspending, or restricting the permit, license, approval under a general permit, or registration or a notification after a contested case hearing as provided in the administrative procedures act of 1969, 1969 PA 306, MCL 24.201 to 24.328.

(c) The department may issue an order summarily suspending the permit, license, approval under a general permit, or registration or a notification, if the department determines that the violation or inconsistency constitutes an emergency or poses an imminent risk of injury to the environment, natural resources, or the public health, safety, or welfare. Summary suspension may be ordered effective on the date specified in the order or upon service of a certified copy of the order on the owner or operator, whichever is later, and remains effective during the proceedings. The proceedings shall be commenced within 7 days after the issuance of the order and shall be promptly determined.

(3) A final order issued pursuant to this section is subject to judicial review as provided in the administrative procedures act of 1969, 1969 PA 306, MCL 24.201 to 24.328.

324.11519a Duties of owner or operator of a coal ash impoundment or a coal ash landfill; compliance with federal regulations; assessment.

Sec. 11519a. (1) The owner or operator of an existing coal ash impoundment or a coal ash impoundment licensed under this part shall do all of the following:

(a) Comply with R 299.4311 of the part 115 rules.

(b) Ensure that the impoundment is not in violation of part 31 or part 55 and does not create a nuisance.

(c) Comply with the requirements of 40 CFR 257.83, as applicable. The inspection report required by 40 CFR 257.83(b)(2) shall be certified by a professional engineer pursuant to R 299.4910(9) of the part 115 rules.

(d) Comply with the requirements of 40 CFR 257.74(a)(2). The hazard potential classification assessment reports shall be certified by a professional engineer pursuant to R 299.4910(9) of the part 115 rules. This assessment shall be revised every 5 years pursuant to 40 CFR 257.74(f)(2).

(e) Maintain in the operating record a history of construction that complies with 40 CFR 257.74(c)(1)(*i*) to (*xi*).

(f) Comply with 40 CFR 257.74(d). The periodic structural stability assessment reports shall be certified by a professional engineer pursuant to R 299.4910(9) of the part 115 rules. This assessment shall be revised every 5 years pursuant to 40 CFR 257.74(f)(2).

(g) Comply with 40 CFR 257.74(e). The periodic safety factor assessment reports shall be certified by a professional engineer pursuant to R 299.4910(9) of the part 115 rules. This assessment shall be revised every 5 years pursuant to 40 CFR 257.74(f)(2).

(h) Implement the detection monitoring program required in sections 11511a(3) and 11512a(1)(a).

(i) Comply with requirements of 40 CFR 257.82, as applicable. The inflow design flood control plan shall be certified by a professional engineer pursuant to R 299.4910(9) of the part 115 rules. This plan shall be revised at least every 5 years pursuant to 40 CFR 257.82(c)(4).

(2) The owner or operator of an existing coal ash landfill or coal ash impoundment or a coal ash landfill or impoundment licensed under this part shall do all of the following:

(a) Maintain a fugitive dust control plan that complies with 40 CFR 257.80(b) and is certified by a registered professional engineer pursuant to R 299.4910(9) of the part 115 rules. An annual fugitive dust control report shall be prepared and completed in compliance with 40 CFR 257.80(c).

(b) Maintain an up-to-date operating record in compliance with 40 CFR 257.105.

(c) Maintain an up-to-date publicly accessible internet site in compliance with 40 CFR 257.107.

(3) The owner or operator of an existing coal ash landfill or a coal ash landfill licensed under this part shall comply with both of the following:

(a) The requirements of 40 CFR 257.84, as applicable. The inspection report required by 40 CFR 257.84(b)(2) shall be certified by a professional engineer pursuant to R 299.4910(9) of the part 115 rules.

(b) The requirements of 40 CFR 257.81, as applicable. The run-on and run-off control system plan shall be certified by a professional engineer pursuant to R 299.4910(9) of the part 115 rules. This plan shall be revised every 5 years pursuant to 40 CFR 257.81(c)(4).

(4) Within 1 year after the effective date of the amendatory act that added this subsection, the owner or operator of an existing coal ash landfill or existing coal ash impoundment shall assess whether the landfill or impoundment is located in an unstable area as defined in R 299.4409 of the part 115 rules. If the owner or operator determines that the landfill, the impoundment, or a unit thereof is located in an unstable area, the owner or operator shall cease placing coal ash into the landfill, impoundment, or unit and proceed to close the landfill, impoundment, or unit in compliance with this part and the rules promulgated under this part.

324.11519b Placement of coal ash and associated liquids; assessment monitoring program; response action plan; closure of facility.

Sec. 11519b. (1) Placement of coal ash and associated liquids into an existing coal ash impoundment or coal ash impoundment licensed under this part is permitted and shall be conducted consistent with section 11519a and this section.

(2) If the detection monitoring required in sections 11511a(3), 11512a(1), and 11519a(1)(h) confirms a statistically significant increase over background for 1 or more of the constituents listed in section 11511a(3), the owner and operator of a coal ash landfill or coal ash impoundment shall comply with R 299.4440 and 299.4441 of the MAC, including, as applicable, conducting assessment monitoring and preparation of a response action plan in compliance with R 299.4442 of the MAC. The constituents to be monitored in the assessment monitoring program shall include those listed in section 11511a(3) and all of the following:

(a) Antimony.
(b) Arsenic.
(c) Barium.
(d) Beryllium.
(e) Cadmium.
(f) Chromium.
(g) Cobalt.
(h) Copper.
(i) Lead.
(j) Lithium.
(k) Nickel.
(*l*) Mercury.
(m) Molybdenum.
(n) Selenium.
(o) Silver.
(p) Thallium.
(q) Vanadium.
(r) Zinc.

(s) Radium 226 and 228 combined.

(3) The constituents listed in this section shall be analyzed by methods identified in "Standard Methods for the Examination of Water and Wastewater, 20th edition", (jointly published by the American Public Health Association, the American Water Works Association, and the Water Environment Federation) or "Test Methods for Evaluating Solid Waste, Physical/Chemical Methods," EPA publication SW-846, Third Edition, Final Updates I (1993), II (1995), IIA (1994), IIB (1995), III (1997), IIIA (1999), IIIB (2005), IV (2008), and V (2015) or by other methods approved by the director or his or her designee.

(4) If the owner or operator of a coal ash landfill or coal ash impoundment is obligated to prepare a response action plan, the owner or operator shall comply with R 299.4442 to R 299.4445 of the MAC, as applicable.

(5) The owner or operator of a coal ash landfill shall place landfill cover materials that are described in R 299.4304 of the MAC, over the entire surface of each portion of the final lift not more than 6 months after the final placement of coal ash within the landfill or landfill unit.

(6) The owner or operator of a coal ash impoundment shall begin to implement closure as described in R 299.4309(7) of the MAC not more than 6 months after the final placement of coal ash within the impoundment and shall diligently pursue the closure. The closure shall be completed in compliance with 40 CFR 257.102(f)(1) and (2).

(7) A coal ash impoundment or coal ash landfill may be closed as a type III landfill pursuant to the applicable rules or by removal of the coal ash from the coal ash impoundment or coal ash landfill as described in part 115.

(8) If a coal ash impoundment is closed by December 28, 2020, and the department accepts the certification of the closure, the owner is not required to provide financial assurance under section 11523 or pay into a perpetual care fund under section 11525.

(9) Closure by removal of coal ash under subsection (7) is complete when either of the following requirements are met:

(a) The owner or operator certifies compliance with the requirements of 40 CFR 257.102(c).

(b) The owner or operator certifies that testing confirms that constituent concentrations remaining in the coal ash impoundment or landfill unit and any concentrations of soil or groundwater affected by releases therefrom do not exceed the lesser of the applicable standards adopted by the department pursuant to section 20120a or the groundwater protection standards established pursuant to 40 CFR 257.95(h) and the department accepts the certification, or, if the constituent concentrations do exceed those standards, the department has approved a remedy consistent with R 299.4444 and R 299.4445 of the MAC.

(10) Upon completion of the closure by removal under subsection (9), all of the following apply:

(a) The financial assurance under section 11523 and perpetual care fund under section 11525 shall be terminated.

(b) The owner or operator is not required to provide financial assurance or contribute to a perpetual care fund.

(c) Any claim to the assurance or fund by the department is terminated and released. The termination and release do not impair the department's authority to require, whether upon completion of closure under subsection (9)(b) or subsequently, financial assurance for corrective action as provided under this act.

324.11519c Groundwater contamination in unlined coal ash impound; owner or operator duties; "unlined coal ash impoundment" defined.

Sec. 11519c. (1) If assessment monitoring of an unlined coal ash impoundment confirms the presence of groundwater contamination in excess of maximum contaminant levels in effect as provided in section 6 of the safe drinking water act, 1976 PA 399, MCL 325.1006, or a groundwater protection standard established under 40 CFR 257.95(h), the owner or operator of the coal ash impoundment shall do all of the following:

(a) Notify the department of the confirmation within 14 days.

(b) Cease acceptance of coal ash at the impoundment within 180 days after the confirmation.

(c) Begin to implement closure as described in R 299.4309(7) of the part 115 rules not more than 180 days after such confirmation and diligently pursue the closure. The closure shall be completed in compliance with 40 CFR 257.102(c), with 40 CFR 257.102(f)(1) and (2), or with 40 CFR 257.103.

(d) Prepare a response action plan in compliance with R 299.4442 of the part 115 rules and submit the

response action plan to the department for review and approval. Upon receipt of department approval, the owner or operator shall implement and diligently pursue the response action plan and shall comply with R 299.4443 to 299.4445 of the part 115 rules.

(2) For purposes of this section, "unlined coal ash impoundment" means a coal ash impoundment without a liner as described in 40 CFR 257.70(b) or another construction or system in place that is determined by the department to be as protective as a liner as described in 40 CFR 257.70(b).

324.11520 Disposition of fees; special fund; disposition of solid waste on private property.

Sec. 11520. (1) Fees collected by a health officer under this part shall be deposited with the city or county treasurer. The treasurer shall deposit the fees in a special fund designated for use in implementing this part. If an ordinance or charter provision prohibits such a special fund, the fees shall be deposited and used in compliance with the ordinance or charter provision.

(2) Part 115 does not prohibit an individual from disposing of solid waste from the individual's own household upon the individual's own land if the disposal does not create a nuisance or hazard to health. Solid waste accumulated as a part of an improvement or the planting of privately owned farmland may be disposed of on the property if the method used is not injurious to human life or property and does not create a nuisance.

SUBPART 3 WASTE DIVERSION CENTERS

SUBPART 3
WASTE DIVERSION CENTERS

324.11521b Operator of waste diversion center; duties; requirements; rejection of diverted waste.

Sec. 11521b. (1) The operator of a waste diversion center shall comply with all of the following requirements:

(a) On an annual basis, not receive an amount of solid waste equal to or greater than 15%, by weight, of the diverted waste received by the facility.

(b) Ensure that personnel operating the waste diversion center are knowledgeable about the safe management of the types of diverted waste that are accepted at the waste diversion center.

(c) Manage the diverted waste in a manner that prevents the release of any diverted waste or component of diverted waste to the environment.

(d) Not store diverted waste overnight at the waste diversion center except in a secure location and with containment that is adequate to prevent any release of diverted waste.

(e) Within 1 year after diverted waste is collected by the waste diversion center, transfer that diverted waste to another waste diversion center, a recycling facility, or a disposal facility that meets the requirement of section 11508(1)(a), for processing, recycling, or disposal.

(f) Not process diverted waste except to the extent necessary for the safe and efficient transportation of the diverted waste.

(g) Record the types and quantities of diverted waste collected, the period of storage, and where the diverted waste was transferred, processed, recycled, or disposed of. The operator shall maintain the records for at least 3 years and shall make the records available to the department upon request.

(h) Allow access to the waste diversion center only when a responsible individual is on duty.

(i) As appropriate for the type of diverted waste, protect the area where the diverted waste is accumulated

from weather, fire, physical damage, and vandals.

(j) Keep the waste diversion center clean and free of litter and operate in a manner that does not create a nuisance or hazard to the environment, natural resources, or the public health, safety, or welfare.

(k) If the primary function of an entity is to serve as a waste diversion center, notify the department of the waste diversion center. Notification shall be given upon initial operation and subsequently within 45 days after the end of each state fiscal year. The subsequent notices shall report the amount of solid waste diverted at the facility during the preceding state fiscal year. The notification requirement applies to both of the following:

(*i*) For the initial notification, entities that anticipate collecting more than 50 tons of diverted or recyclable materials in the state fiscal year in which the notification is given.

(*ii*) For subsequent notifications, entities that collected more than 50 tons of diverted or recyclable materials in the preceding state fiscal year.

(2) The operator of a waste diversion center may reject any diverted waste.

SUBPART 4
FINANCIAL ASSURANCE

324.11523 Financial assurance; bond requirements; interest; termination; noncompliance with closure and postclosure monitoring and maintenance requirements; expiration or cancellation notice; effect of bankruptcy action; alternate financial assurance; risk pooling financial mechanism.

Sec. 11523. (1) The department shall not issue a license to operate a disposal area until the applicant has filed, as a part of the application for a license, evidence of the following financial assurance, as applicable:

(a) Subject to section 11523b, financial assurance for a landfill described in this subdivision shall be a bond in an amount equal to $20,000.00 per acre of licensed landfill within the solid waste boundary. However, the total amount of the bond shall not be less than $20,000.00 or more than $2,000,000.00. Each bond shall provide assurance for the maintenance of the landfill site or a portion thereof for a period of 30 years beginning when the department approved a closure certification as described in section 11523a(5)(b) for the landfill or portion thereof, respectively. In addition to this bond, the owner or operator of a landfill described in this subdivision shall maintain a perpetual care fund. All of the following landfills are subject to this subdivision, unless the owner or operator of the landfill, by written notice to the department, elects to provide financial assurance under subdivision (b):

(*i*) A preexisting unit at a type II landfill.

(*ii*) A type II landfill that stopped receiving waste and was certified as closed before April 9, 1997.

(*iii*) A type III landfill that stopped receiving waste before the effective date of the amendatory act that added this subparagraph.

(*iv*) A type III landfill that received waste on or after the effective date of the amendatory act that added this subparagraph. However, beginning 2 years after the effective date of the amendatory act that added this subparagraph, upon the issuance of a new license for such a landfill, the landfill is not subject to this subdivision but is subject to subdivision (b).

(b) Financial assurance for a type II or type III landfill that is an existing unit not subject to subdivision (a) or a new unit or for a landfill, otherwise subject to subdivision (a), whose owner or operator elects to be subject to this subdivision shall be a bond in an amount equal to the cost, in current dollars, of hiring a third party to conduct closure, postclosure maintenance and monitoring, and, if necessary, corrective action. A license application for a type II landfill that is subject to this subdivision shall demonstrate financial assurance in compliance with section 11523a. A license application for a type III landfill shall demonstrate financial assurance in compliance with section 11523a if the application is filed on or after the date 2 years after the

effective date of the amendatory act that added subsection (2).

(c) Financial assurance for an existing coal ash impoundment shall be a bond in an amount equal to $20,000.00 per acre within the impoundment boundary. However, the total amount of the bond shall not be less than $20,000.00 or more than $1,000,000.00. The bond shall provide assurance for the maintenance of the coal ash impoundment or a portion thereof for a period of 30 years after the coal ash impoundment or any approved portion is completed. In addition to the bond, the owner or operator of an existing coal ash impoundment shall maintain a perpetual care fund. For applications for a license to operate submitted to the department after December 28, 2020, an applicant that demonstrates that it meets the requirements of R 299.9709 of the MAC may utilize the financial test under that rule for an amount not exceeding 95% of the closure, postclosure, and corrective action cost estimate.

(d) Financial assurance established for a licensed solid waste processing and transfer facility or incinerator shall be a bond in the amount of $20,000.00. The financial assurance shall be maintained in effect for 2 years after the disposal area is closed.

(2) The department shall not issue an approval under a general permit for a materials utilization facility unless the applicant has filed, as a part of the application for the approval, evidence of the following financial assurance, as applicable:

(a) Financial assurance established for a materials recovery facility or anaerobic digester that requires a general permit shall be a bond in the amount of $20,000.00. The bond shall be maintained in effect until the facility has ceased accepting material, all managed material has been removed from the site, and the facility's closure certification has been approved by the department as described in section 11525b(4)(a).

(b) Financial assurance established for a composting facility with a general permit shall be a bond in the amount of $20,000.00. The financial assurance shall be maintained in effect until the facility has ceased accepting compostable materials, any finished or partially finished compost has been removed from the site, and the facility's closure certification has been approved by the department as described in section 11525b(4)(a).

(c) An innovative technology facility shall submit to the department a detailed written estimate, in current dollars, of the cost for the owner or operator to hire a third party to close the facility, including the cost to dispose of any remaining waste material, or otherwise contain and control any remaining waste residues. The department shall approve, approve with modifications, or disapprove the closure cost estimate in writing. The financial assurance shall be a bond in the amount of the approved closure cost estimate. The bond shall be maintained in effect until the facility has ceased accepting material, all managed material has been removed from the site, and the facility's closure certification has been approved by the department as described in section 11525b(4)(a).

(3) An owner or operator of a materials management facility who elects to post cash as a bond shall accrue interest on that bond quarterly at the annual rate of 6%, except that the interest rate payable to an owner or operator shall not exceed the rate of interest accrued on the state common cash fund for the quarter in which an accrual is determined. Interest shall be paid to the owner or operator upon release of the bond by the department. Any interest greater than 6% shall be deposited in the state treasury to the credit of the general fund. An owner or operator who uses a certificate of deposit as a bond shall receive any accrued interest on that certificate of deposit upon release of the bond by the department.

(4) An owner or operator of a disposal area that is not a landfill may, beginning 2 years after closure of the disposal area, request that the department terminate the bond required under this section. Within 60 days after the request is made, the department shall approve or deny the request in writing. The department shall approve the request if all waste and waste residues have been removed from the disposal area and closure has been certified by a licensed professional engineer and approved by the department.

(5) If the owner or operator violates the closure and postclosure monitoring and maintenance requirements of part 115, the department may utilize a bond required under this section for the closure and postclosure monitoring and maintenance of a disposal area to the extent necessary to correct the violations. At least 7 days before utilizing the bond, the department shall issue a notice of violation or other order that alleges violation of part 115 and shall provide the owner or operator an opportunity for a hearing. This subsection does not apply to a perpetual care fund.

(6) The terms of a surety bond, irrevocable letter of credit, insurance policy, or perpetual care fund bond shall require the issuing institution to notify both the department and the owner or operator at least 120 days before the expiration date or cancellation of the bond. If the owner or operator does not extend the effective date of the bond, or establish alternate financial assurance within 90 days after receipt of an expiration or cancellation notice from the issuing institution, both of the following apply:

(a) The department may draw on the bond.

(b) In the case of a perpetual care fund bond, the issuing institution shall deposit the proceeds into the

standby trust fund or escrow account unless the department agrees to the expiration or cancellation of the perpetual care fund bond.

(7) The department shall not issue a construction permit or a new license to operate a disposal area to an applicant that is the subject of a bankruptcy action commenced under title 11 of the United States Code, 11 USC 101 to 1532, or any successor statute.

(8) An owner or operator of a landfill that utilizes a financial test as financial assurance for the landfill may utilize a financial test for other types of materials management facilities that are located on the permitted landfill site.

(9) The department may utilize a bond required under this section for a facility subject to approval under a general permit for bringing the facility into compliance with part 115, including, but not limited to, removing managed material from the facility, cleanup at the facility, and fire suppression or other emergency response at the facility, including reimbursement to any local unit of government that incurred emergency response costs. Not less than 7 days before utilizing the bond, the department shall issue a notice of violation or order that alleges violation of part 115 and shall provide the owner or operator an opportunity for a hearing.

(10) Before closure of a landfill, if money is disbursed from the perpetual care fund, the department may require a corresponding increase in the amount of a required bond if necessary to meet the requirements of this section.

(11) If an owner or operator of a disposal area fulfills the financial assurance requirements of part 115 by obtaining a bond, including, but not limited to, a perpetual care fund bond, and the surety company, insurer, trustee, bank, or financial or other institution that issued or holds the bond becomes the subject of a bankruptcy action commenced under title 11 of the United States Code, 11 USC 101 to 1532, or any successor statute or has its authority to issue or hold the bond suspended or revoked, the owner or operator shall, within 60 days after receiving notice of that event, establish alternate financial assurance under part 115.

(12) Owners or operators may demonstrate all or a portion of required financial assurance for 2 or more materials management facilities that are not landfills with a risk pooling financial mechanism approved by the department that meets all of the following requirements:

(a) The mechanism is administered by a surety company, insurer, surety, bank, or other financial institution that has authority to issue such a mechanism and is regulated and examined by a state or federal agency.

(b) The mechanism is irrevocable and renews automatically unless, not less than 120 days before the automatic renewal date, the insurer, surety, bank, or other financial institution notifies the department and the owners or operators of the covered facilities that the mechanism will not be renewed, and the department agrees in writing to termination of the mechanism.

(c) The amount of financial assurance available for any single covered facility is not less than would be available for that facility if it was covered alone under a bond.

(d) The addition or deletion of facilities covered under the mechanism requires written agreement of the director.

(13) The department shall access and use funds under a mechanism approved under subsection (12) subject to the provisions for bonds under subsection (9).

History: 1994, Act 451, Eff. Mar. 30, 1995;—Am. 1996, Act 359, Imd. Eff. July 1, 1996;—Am. 2013, Act 250, Imd. Eff. Dec. 26, 2013;—Am. 2018, Act 640, Imd. Eff. Dec. 28, 2018;—Am. 2022, Act 246, Eff. Mar. 29, 2023.

Popular name: Act 451

Popular name: NREPA

Popular name: Solid Waste Act

324.11523a Operation of landfill subject to MCL 324.11523(1)(b).

Sec. 11523a. (1) The department shall not issue a license to operate a landfill that is subject to section 11523(1)(b) unless the applicant demonstrates that the combination of the landfill care fund and the financial capability of the applicant as evidenced by a financial test provides financial assurance in an amount not less than that required by this section. An applicant may utilize a financial test for an amount not more than 70% of the closure, postclosure, and corrective action cost estimate. For applications for a license to operate submitted on or after the date 2 years after the effective date of the amendatory act that added subsection (3)(c), an applicant may utilize a financial test for an amount more than 70% but not more than 95% of the closure, postclosure, and corrective action cost estimate if the owner or operator demonstrates that the owner or operator passes a financial test under and otherwise meets the requirements of R 299.9709 of the MAC.

(2) An applicant may demonstrate compliance with this section by submitting to the department evidence that the applicant has financial assurance for any existing unit or new unit in an amount equal to or more than the sum of the following standardized costs:

(a) A standard closure cost estimate. The standard closure cost estimate shall be based upon the sum of the following costs in 2018 dollars, adjusted for inflation and partial closures, if any, as specified in subsections (4) and (5):

(*i*) A base cost of $40,000.00 per acre to construct a compacted soil final cover using on-site material.

(*ii*) A supplemental cost of $40,000.00 per acre, to install a synthetic cover liner, if required by rules under this part.

(*iii*) A supplemental cost of $10,000.00 per acre, if low permeability soil must be transported from off-site to construct the final cover or if a bentonite geocomposite liner is used instead of low permeability soil in a composite cover.

(*iv*) A supplemental cost of $9,000.00 per acre, to construct a passive gas collection system in the final cover or a supplemental cost of $15,000.00 per acre for an active gas collection and control system, for those areas without a gas collection and control system already installed.

(b) A standard postclosure cost estimate. The standard postclosure cost estimate shall be based upon the sum of the following costs, adjusted for inflation as specified in section 11525(3):

(*i*) A final cover maintenance cost of $400.00 per acre per year.

(*ii*) A leachate disposal cost of $400.00 per acre per year.

(*iii*) A leachate transportation cost of $4,000.00 per acre per year, if leachate is required to be transported off-site for treatment.

(*iv*) An active gas collection and control system maintenance cost of $900.00 per acre per year for active gas collection and control systems subject to the requirements of standards of performance for new stationary sources, 40 CFR part 60.

(*v*) An active gas collection and control system maintenance cost of $500.00 per acre per year for landfills not subject to the requirements of standards of performance for new stationary sources, 40 CFR part 60.

(*vi*) A passive gas collection system maintenance cost of $35.00 per acre per year.

(*vii*) A groundwater monitoring cost of $2,000.00 per monitoring well per year.

(*viii*) A gas monitoring cost of $200.00 per monitoring point per year, for monitoring points used to detect landfill gas at or beyond the facility property boundary.

(c) A corrective action cost estimate, if any. The corrective action cost estimate shall be a detailed written estimate, in current dollars, of the cost of hiring a third party to perform corrective action in compliance with part 115.

(3) Instead of using some or all of the standardized costs specified in subsection (2), an applicant may use the site-specific costs of closure or postclosure maintenance and monitoring. A site-specific cost estimate shall be a written estimate, in current dollars, of the cost of hiring a third party to perform the activity. For the purposes of this subsection, a parent corporation or a subsidiary of the owner or operator is not a third party. Site-specific cost estimates shall comply with the following, as applicable:

(a) For closure, be based on the cost to close the largest area of the landfill requiring a final cover at any time during the active life, when the extent and manner of its operation would make closure the most expensive, in compliance with the approved closure plan. The closure cost estimate shall not incorporate any salvage value from the sale of structures, land, equipment, or other assets associated with the facility at the time of final closure.

(b) For postclosure, be based on the cost at any given time to conduct postclosure maintenance and monitoring in compliance with the approved postclosure plan for the next 30 years of the postclosure period, or for the remainder of the postclosure period if the remainder is less than 30 years. However, the applicant shall submit to the department an estimate of the postclosure maintenance and monitoring cost for the entire postclosure period.

(c) For costs for operation and maintenance of an on-site wastewater treatment facility managing leachate at a landfill that are substituted for the standardized leachate disposal and transportation costs of this section, be based on an engineering evaluation of total wastewater flow and include utilities, staffing, and incidental costs to maintain and ensure compliance with all applicable permits.

(4) The owner or operator of a landfill subject to this section shall, during the active life of the landfill and during the postclosure care period, annually adjust the financial assurance cost estimates and corresponding amount of financial assurance for inflation. The standard closure cost estimate and corrective action cost estimate shall be adjusted for inflation by multiplying the cost estimate by an inflation factor derived from the most recent United States Department of the Interior, Bureau of Reclamation Composite Index published by the United States Department of Commerce or another index that is more representative of the costs of closure and postclosure monitoring and maintenance as approved by the department. The owner or operator shall document the adjustment on a form consistent with part 115 as provided or approved by the department and shall place the documentation in the operating record of the facility.

(5) The owner or operator of a landfill subject to this section may request that the department authorize a reduction in the approved cost estimates and corresponding financial assurance for the landfill. Within 60 days after receiving the financial assurance reduction request under this subdivision, the department shall approve or deny the request in writing. A denial shall state the reasons for the denial. A financial assurance reduction request shall certify completion of any of the following activities:

(a) Partial closure of the landfill. The current closure cost estimate for partially closed portions of a landfill unit may be reduced by 80%, if the maximum waste slope on the unclosed portions of the unit does not exceed 25%. The percentage of the cost estimate reduction approved by the department for the partially closed portion shall be reduced 1% for every 1% increase in the slope of waste over 25% in the active portion. An owner or operator requesting a reduction in financial assurance for partial closure shall submit with the request a certification under the seal of a licensed professional engineer of both of the following:

(*i*) That a portion of the licensed landfill unit has reached final grades and has had a final cover installed in compliance with the approved closure plan and part 115.

(*ii*) The maximum slope of waste in the active portion of the landfill unit at the time of partial closure.

(b) Final closure of the landfill. An owner or operator requesting a cost estimate reduction for final closure shall submit with the request a certification under the seal of a licensed professional engineer that closure of that landfill unit has been fully completed in compliance with the approved closure plan for the landfill. Within 60 days of receiving a certification under this subdivision, the department shall perform a consistency review of the submitted certification and do 1 of the following:

(*i*) Approve the certification and notify the owner or operator that the closure cost estimate may be reduced to zero.

(*ii*) Disapprove the certification and provide the owner or operator with a detailed written statement of the reasons the department has determined that closure certification has not been conducted in compliance with part 115 or an approved closure plan.

(c) Postclosure maintenance and monitoring. A landfill owner or operator may request a reduction in the postclosure cost estimate and corresponding financial assurance for 1 year or more of postclosure maintenance and monitoring if final closure of a landfill unit has been completed and the landfill has been monitored and maintained in compliance with the approved postclosure plan. Within 60 days after receiving a cost estimate reduction request, the department shall grant written approval or issue a written denial stating the reason for denial. If the department grants the request, the owner or operator may reduce the postclosure cost estimate to reflect the number of years remaining in the postclosure period. The department shall deny the request if the owner or operator has not performed the specific tasks consistent with part 115 and an approved postclosure plan. The department shall not grant a request under this subdivision to reduce the postclosure cost estimate and the corresponding financial assurance to below the maximum required perpetual care fund amount specified in section 11525(3) unless the owner or operator has demonstrated within the past 5-year period that the landfill is on target to achieve functional stability as described in section 11517 within the time remaining in the postclosure period.

(6) The owner or operator of a landfill subject to this section may request a reduction in the amount of 1 or more of the financial assurance mechanisms in place. If the combined value of the remaining financial assurance mechanisms equals the amount required under this section, the department shall approve the request.

324.11523b Trust fund or escrow account.

Sec. 11523b. (1) The owner or operator of a landfill or coal ash impoundment may establish a trust fund or escrow account to fulfill the requirements of sections 11523 and 11523a.

(2) All earnings and interest from a trust fund or escrow account shall be credited to the fund or account. However, the custodian may be compensated for reasonable fees and costs for the custodian's responsibilities as custodian. The custodian shall ensure the filing of all required tax returns for which the trust fund or escrow account is liable and shall disburse funds from earnings to pay taxes owed by the trust fund or escrow account, without permission of the department.

(3) The custodian shall annually, 30 days preceding the anniversary date of establishment of the fund, furnish to the owner or operator and to the department a statement confirming the value of the fund or account

as of the end of the month immediately preceding the submittal of the report.

(4) The owner or operator may request that the department authorize the release of funds from a trust fund or escrow account. The department shall grant the request if the owner or operator demonstrates that the value of the fund or account exceeds the owner's or operator's financial assurance obligation. A payment or disbursement from the fund or account shall not be made without the prior written approval of the department.

(5) The owner or operator shall receive all interest or earnings from a trust fund or escrow account upon its termination.

(6) If an owner or operator of a disposal area fulfills the financial assurance requirements of part 115 by establishing a trust fund or escrow account and the custodian has its authority to act as a custodian suspended or revoked, the owner or operator shall, within 60 days after receiving notice of the suspension or revocation, establish alternative financial assurance under part 115.

(7) As used in this section, "custodian" means the trustee of a trust fund or escrow agent of an escrow account.

History: Add. 1996, Act 359, Imd. Eff. July 1, 1996;—Am. 2018, Act 640, Imd. Eff. Dec. 28, 2018;—Am. 2022, Act 246, Eff. Mar. 29, 2023.

324.11524 Repealed. 2013, Act 250, Imd. Eff. Dec. 26, 2013.

Compiler's note: The repealed section pertained to request for reduction in amount of financial assurance.

Popular name: Act 451

Popular name: NREPA

Popular name: Solid Waste Act

324.11525 Perpetual care fund; applicability.

Sec. 11525. (1) This section does not apply to a landfill unless the landfill is subject to section 11523(1)(a).

(2) The owner or operator of a landfill or coal ash impoundment shall establish and maintain a perpetual care fund for a period of 30 years after final closure of the landfill or coal ash impoundment as specified in this section. A perpetual care fund may be established as a trust fund, an escrow account, or a perpetual care fund bond and may be used to demonstrate financial assurance for a landfill or coal ash impoundment.

(3) Except as otherwise provided in this section, the owner or operator of a landfill shall increase the amount of the perpetual care fund 75 cents for each ton or portion of a ton of solid waste, other than materials described in subsection (4), that is disposed of in the landfill until the fund reaches the maximum required fund amount. As of July 1, 2018, the maximum required fund amount for a landfill or coal ash impoundment is $2,257,000.00. The department shall annually adjust this amount for inflation by multiplying the amount by an inflation factor derived from the most recent United States Department of the Interior, Bureau of Reclamation Composite Index published by the United States Department of Commerce or another index more representative of the costs of closure and postclosure monitoring and maintenance as approved by the department. The department shall round the resulting amount to the nearest thousand dollars. Increases to the amount of a perpetual care fund required under this subsection shall be calculated based on solid waste disposed of in the landfill as of the end of the state fiscal year and shall be made within 30 days after the end of each state fiscal year.

(4) The owner or operator of a landfill or coal ash impoundment shall increase the amount of the perpetual care fund 7.5 cents for each ton or portion of a ton of the following that are disposed of after December 28, 2018 until the fund reaches the maximum required fund amount under subsection (3):

(a) Coal ash, wood ash, cement kiln dust, or a combination thereof that is disposed of in the landfill or coal ash impoundment if the disposal area is used only for the disposal of these materials or these materials are permanently segregated in the disposal area.

(b) Wastewater treatment sludge or sediments from wood pulp or paper producing industries that is disposed of in a landfill if the landfill is used only for the disposal of these materials or these materials are permanently segregated in the landfill.

(c) Foundry sand or other material that is approved by the department for use as daily cover at a landfill if it is an operating landfill, foundry sand that is disposed of in a landfill if the landfill is used only for the disposal of foundry sand, or foundry sand that is permanently segregated in a landfill.

(5) The owner or operator of a landfill that is used only for the disposal of a mixture of 2 or more of the materials described in subsection (4)(a) to (c) or in which a mixture of 2 or more of these materials are permanently segregated shall increase the amount of the perpetual care fund 7.5 cents for each ton or portion

of a ton of these materials that are disposed of in the landfill.

(6) The amount of a perpetual care fund is not required to be increased for materials that are regulated under part 631.

(7) The owner or operator of a landfill may increase the amount of the perpetual care fund above the amount otherwise required by this section at his or her discretion.

(8) The custodian of a perpetual care fund trust fund or escrow account shall be a bank or other financial institution that has the authority to act as a custodian and whose account operations are regulated and examined by a federal or state agency. Until the perpetual care fund trust fund or escrow account reaches the maximum required fund amount, the custodian of the perpetual care fund trust fund or escrow account shall credit any interest and earnings of the perpetual care fund trust fund or escrow account to the perpetual care fund trust fund or escrow account. After the perpetual care fund trust fund or escrow account reaches the maximum required fund amount, any interest and earnings shall be distributed as directed by the owner or operator. The custodian may be compensated from the fund for reasonable fees and costs incurred in discharging the custodian's responsibilities. The custodian of a perpetual care fund trust fund or escrow account shall make an accounting to the department within 30 days following the close of each state fiscal year.

(9) The custodian of a perpetual care fund shall not disburse any funds to the owner or operator of a landfill or coal ash impoundment for the purposes of the perpetual care fund except upon the prior written approval of the department. However, the custodian shall ensure the filing of all required tax returns for which the perpetual care fund is liable and shall disburse funds to pay taxes owed by the perpetual care fund without permission of the department. The owner or operator of the landfill or coal ash impoundment shall provide notice of requests for disbursement and the department's denials and approvals to the custodian of the perpetual care fund. The owner or operator of a landfill or coal ash impoundment may request disbursement of funds from a perpetual care fund if the amount of money in the fund exceeds the maximum required fund amount under subsection (3), unless a disbursement for that reason has been approved by the department within the preceding 180 days. The department shall approve the disbursement if the total amount of financial assurance maintained meets the requirements of section 11523(1)(a) or (c), as applicable.

(10) If the owner or operator of a landfill or coal ash impoundment fails to conduct closure, postclosure monitoring and maintenance, or corrective action as necessary to protect the environment, natural resources, or the public health, safety, or welfare, or fails to request the disbursement of money from a perpetual care fund when necessary to protect the environment, natural resources, or the public health, safety, or welfare, or fails to pay the solid waste management program administration fee or the surcharge required under section 11525a, then the department may draw on the perpetual care fund and may expend the money for closure, postclosure monitoring and maintenance, and corrective action or for payment of the fee or surcharge, as necessary. The department may also draw on a perpetual care fund for administrative costs associated with actions taken under this subsection.

(11) Upon approval by the department of a request to terminate financial assurance for a landfill or coal ash impoundment under section 11525b, any money in the perpetual care fund for that landfill or coal ash impoundment shall be disbursed by the custodian to the owner of the landfill or coal ash impoundment unless an agreement between the owner and the operator provides otherwise.

(12) The owner of a landfill or coal ash impoundment shall provide notice to the custodian of the perpetual care fund for that landfill or coal ash impoundment if there is a change of ownership of the landfill. The custodian shall maintain records of ownership of a landfill or coal ash impoundment during the period of existence of the perpetual care fund.

(13) This section does not relieve an owner or operator of a landfill or coal ash impoundment of any liability that the owner or operator may have under part 115 or as otherwise provided by law.

(14) This section does not create a cause of action at law or in equity against a custodian of a perpetual care fund other than for errors or omissions related to investments, accountings, disbursements, filings of required tax returns, and maintenance of records required by this section or the applicable perpetual care fund.

(15) A perpetual care fund that is established as a trust fund or escrow account may be replaced with a perpetual care fund that is established as a perpetual care fund bond that complies with this section. Upon such replacement, the department shall authorize the custodian of the trust fund or escrow account to disburse the money in the trust fund or escrow account to the owner of the landfill or coal ash impoundment unless an agreement between the owner and operator specifies otherwise.

(16) An owner or operator of a landfill or coal ash impoundment that uses a perpetual care fund bond to satisfy the requirements of this section shall also establish a standby trust fund or escrow account. All payments made under the terms of the perpetual care fund bond shall be deposited by the custodian directly into the standby trust fund or escrow account in compliance with instructions from the department. The

standby trust fund or escrow account must meet the requirements for a trust fund or escrow account established as a perpetual care fund under subsection (2), except that until the standby trust fund or escrow account is funded pursuant to the requirements of this subsection, the following are not required:

(a) Payments into the standby trust fund or escrow account as specified in subsection (3).

(b) Annual accountings as required in subsection (8).

(17) As used in this section, "custodian" means the trustee or escrow agent of any of the following:

(a) A perpetual care fund that is established as a trust fund or escrow account.

(b) A standby trust fund or escrow account for a perpetual care fund bond.

History: 1994, Act 451, Eff. Mar. 30, 1995;—Am. 1996, Act 359, Imd. Eff. July 1, 1996;—Am. 1996, Act 506, Imd. Eff. Jan. 9, 1997;—Am. 2003, Act 153, Eff. Oct. 1, 2003;—Am. 2013, Act 250, Imd. Eff. Dec. 26, 2013;—Am. 2018, Act 640, Imd. Eff. Dec. 28, 2018;—Am. 2022, Act 246, Eff. Mar. 29, 2023.

Popular name: NREPA

Popular name: Solid Waste Act

324.11525a Owner or operator of landfill or coal ash impoundment; surcharge; payment of surcharge; deposit.

Sec. 11525a. (1) The owner or operator of a landfill or coal ash impoundment shall pay a surcharge as follows:

(a) Except as provided in subdivision (b), for a landfill or coal ash impoundment that is not a captive facility, 36 cents for each ton or portion of a ton of solid waste or municipal solid waste incinerator ash that is disposed of in the landfill or coal ash impoundment before October 1, 2027.

(b) For a landfill or coal ash impoundment that is not a captive facility, 12 cents per ton or portion of a ton of foundry sand, slag from metal melting, baghouse dust, furnace refractory brick, pulp and paper mill material, paper mill ash, wood ash, coal bottom ash, mixed wood ash, fly ash, flue gas desulfurization sludge, contaminated soil, cement kiln dust, lime kiln dust, and other industrial waste that weighs at least 1 ton per cubic yard, as determined by the generator.

(c) For a type III landfill or coal ash impoundment that is a captive facility and annually receives the following amount of waste, the following annual corresponding surcharge for each state fiscal year, based on the amount of waste received during that fiscal year:

(*i*) 100,000 or more tons of waste, $3,000.00.

(*ii*) 75,000 or more but less than 100,000 tons of waste, $2,500.00.

(*iii*) 50,000 or more but less than 75,000 tons of waste, $2,000.00.

(*iv*) 25,000 or more but less than 50,000 tons of waste, $1,000.00.

(*v*) Less than 25,000 tons of waste, $500.00.

(2) Within 30 days after the end of each quarter of a state fiscal year, the owner or operator of a landfill or coal ash impoundment that is not a captive facility shall pay the surcharge under subsection (1)(a) for waste received during that quarter of the state fiscal year. Within 30 days after the end of a state fiscal year, the owner or operator of a type III landfill or coal ash impoundment that is a captive facility shall pay the surcharge under subsection (1)(b) for waste received during that state fiscal year.

(3) If the owner or operator of a landfill or coal ash impoundment is required to pay the surcharge under subsection (1), the owner or operator shall pass through and collect the surcharge from any person that generated the solid waste or arranged for its delivery to the hauler or solid waste processing and transfer facility, notwithstanding the provisions of any agreement to the contrary or the absence of any agreement.

(4) Surcharges collected under this section must be forwarded to the state treasurer for deposit in the solid waste staff account of the solid waste management fund.

324.11525b Continuous financial assurance coverage required; request for termination of financial assurance requirements.

Sec. 11525b. (1) The owner or operator of a materials utilization facility for which financial assurance is

required under section 11523 or of a disposal area shall provide continuous financial assurance coverage until released from these requirements by the department as provided in part 115.

(2) Upon transfer of a materials utilization facility for which financial assurance is required under section 11523 or of a disposal area, the former owner or operator shall continue to maintain financial assurance until the financial assurance is replaced by the new owner or operator or until the materials utilization facility or disposal area is released from the financial assurance obligation at the end of the postclosure period.

(3) If the owner or operator of a landfill or coal ash impoundment has completed postclosure maintenance and monitoring in compliance with part 115 and the approved postclosure plan, the owner or operator may request that financial assurance required by sections 11523 and 11523a be terminated. The person requesting termination of financial assurance shall submit to the department a statement that the landfill or coal ash impoundment has been monitored and maintained in compliance with part 115 and the approved postclosure plan for the postclosure period specified in section 11523 and shall certify that the landfill or coal ash impoundment is not subject to corrective action under section 11512(21). Within 60 days after receiving a statement under this subsection, the department shall perform a consistency review of the submitted statement and do 1 of the following:

(a) Approve the statement, notify the owner or operator that the owner or operator is no longer required to maintain financial assurance, return or release all financial assurance mechanisms, and, if the perpetual care fund was established as a trust fund or escrow account, notify the custodian of the perpetual care fund to disburse money from the fund as provided in section 11525(11).

(b) Disapprove the statement and provide the owner or operator with a detailed written explanation of the reasons why the department has determined that postclosure maintenance and monitoring and corrective action, if any, have not been conducted in compliance with part 115 or the approved postclosure plan.

(4) The owner or operator of a materials utilization facility required to provide financial assurance under section 11523(2) may request that the financial assurance be terminated. The person requesting termination of financial assurance shall submit to the department a statement that the facility has been maintained in compliance with part 115 and that all managed material has been removed from the facility. Within 60 days after receiving a statement under this subsection, the department shall perform a consistency review of the statement and do 1 of the following:

(a) Approve the statement, notify the owner or operator that the owner or operator is no longer required to maintain financial assurance, and return or release all financial assurance mechanisms.

(b) Disapprove the statement and provide the owner or operator with a detailed written explanation of the reasons why the department has determined that all managed material has not been removed from the facility or that the facility has not been maintained in compliance with part 115.

History: Add. 1996, Act 358, Eff. Oct. 1, 1996;—Am. 2013, Act 250, Imd. Eff. Dec. 26, 2013;—Am. 2018, Act 640, Imd. Eff. Dec. 28, 2018;—Am. 2022, Act 246, Eff. Mar. 29, 2023.

324.11525d Landfill care fund; applicability; liability under part 115; cause of action.

Sec. 11525d. (1) This section applies only to landfills subject to section 11523(1)(b).

(2) The owner or operator of a landfill shall establish and maintain a landfill care fund as specified in this section. A landfill care fund may be established as a trust fund, an escrow account, or a landfill care fund bond and may be used to demonstrate financial assurance for landfills under section 11523a.

(3) The owner or operator of a landfill may increase the amount of the landfill care fund above the amount otherwise required by this section at the owner's or operator's discretion.

(4) The custodian of a landfill care fund trust fund or escrow account shall be a bank or other financial institution that has the authority to act as a custodian and whose account operations are regulated and examined by a federal or state agency. Any interest and earnings on the fund shall be distributed as directed by the owner or operator of the landfill. The custodian may be compensated from the fund for reasonable fees and costs incurred for the custodian's responsibilities as custodian. The custodian of a landfill care fund trust fund or escrow account shall make an accounting to the department within 30 days following the close of each state fiscal year.

(5) The custodian of a landfill care fund trust fund or escrow account shall not disburse any funds to the owner or operator of a landfill for the purposes of the landfill care fund and the issuer or holder of a landfill care fund bond shall not reduce the amount of the bond except upon the prior written approval of the department. However, the custodian shall ensure the filing of all required tax returns for which the landfill

care fund is liable and shall disburse funds to pay taxes owed by the landfill care fund, without permission of the department. The owner or operator of the landfill shall provide notice of requests for disbursement from a landfill care fund trust fund or escrow account or reduction of a landfill care fund bond and the department's denials and approvals to the custodian of the landfill care fund trust fund or escrow account or the issuer or holder of the landfill care fund bond. Requests for disbursement from a landfill care fund trust fund or escrow account or a reduction of a landfill care fund bond shall be submitted not more frequently than semiannually. The owner or operator of a landfill may request disbursement of funds from a landfill care fund trust fund or escrow account or a reduction of a landfill care fund bond. The department shall approve the request if the total amount of financial assurance maintained meets the requirements of section 11523a.

(6) If the owner or operator of a landfill fails to conduct closure, postclosure monitoring and maintenance, or corrective action as necessary to protect the environment, natural resources, or public health, safety, or welfare, or fails to request the disbursement of money from a landfill care fund when necessary to protect the environment, natural resources, or the public health, safety, or welfare, or fails to pay the surcharge required under section 11525a, the department may draw on the landfill care fund and may expend the money for closure, postclosure monitoring and maintenance, and corrective action, as necessary. The department may also draw on a landfill care fund for administrative costs associated with actions taken under this subsection.

(7) Upon approval by the department of a request to terminate financial assurance for a landfill under section 11525b, any money in the landfill care fund for that landfill shall be disbursed by the custodian to the owner of the landfill unless an agreement between the owner and the operator of the landfill provides otherwise.

(8) The owner of a landfill shall provide notice to the custodian of the landfill care fund for that landfill if there is a change of ownership of the landfill. The custodian shall maintain records of ownership of a landfill during the period of existence of the landfill care fund.

(9) This section does not relieve an owner or operator of a landfill of any liability the owner or operator may have under part 115 or as otherwise provided by law.

(10) This section does not create a cause of action at law or in equity against a custodian of a landfill care fund other than for errors or omissions related to investments, accountings, disbursements, filings of required tax returns, and maintenance of records required by this section or the applicable landfill care fund.

(11) A perpetual care fund and any other bond that is utilized by a landfill to demonstrate financial assurance under part 115 and that is in existence on the effective date of the amendatory act that added this section is considered a landfill care fund under this section for purposes of demonstrating compliance with section 11523a until the issuance of a new license for the landfill on or after the date 2 years after the effective date of the amendatory act that added this section. A landfill owner or operator may replace a perpetual care fund or a bond with a landfill care fund that complies with this section at any time without a license modification and without the issuance of a new license. Upon such replacement, the department shall authorize the custodian of a perpetual care fund trust fund or escrow account to disburse the money in the trust fund or escrow account to the owner of the landfill unless an agreement between the owner and operator of the landfill specifies otherwise.

(12) An owner or operator of a landfill that uses a landfill care fund bond to satisfy the requirements of this section shall also establish a standby trust fund or escrow account. All payments made under the terms of the landfill care fund bond shall be deposited by the custodian directly into the standby trust fund or escrow account in compliance with instructions from the department. The standby trust fund or escrow account shall meet the requirements for a trust fund or escrow account established as a landfill care fund under subsection (2), except that, until the standby trust fund or escrow account is funded pursuant to the requirements of this subsection, annual accountings of the standby trust fund or escrow account are not required.

(13) As used in this section, "custodian" means the trustee or escrow agent of any of the following:

(a) A landfill care fund that is established as a trust fund or escrow account.

(b) A standby trust fund or escrow account for a landfill care fund bond.

324.11525f Establishment and approval of other bonds.

Sec. 11525f. If the owner or operator of a materials management facility is required to establish a bond under another state statute or a federal statute, the owner or operator may request the department to approve that bond as meeting the requirements of part 115. The department shall so approve the bond if the bond

provides equivalent funds and access by the department as other financial instruments under part 115.

SUBPART 5
MISCELLANEOUS

324.11526 Inspection of managed materials transporting unit; determination; administration; inspections.

Sec. 11526. (1) The department, a local health officer, or a law enforcement officer of competent jurisdiction may inspect a managed materials transporting unit that is being used to transport managed materials along a public road to determine any of the following:

(a) If the managed materials transporting unit is designed, maintained, and operated in a manner to prevent littering.

(b) If the owner or operator of the managed materials transporting unit is performing in compliance with part 115.

(2) To protect the environment, natural resources, and the public health, safety, and welfare from items and substances being illegally disposed of in landfills in this state, the department shall do all of the following:

(a) Ensure that each materials management facility is in full compliance with part 115.

(b) Provide for the inspection, for compliance with part 115, of each licensed disposal area at least 4 times annually and each materials utilization facility that is approved under a general permit or registered under part 115 at least once annually. Each inspection shall be conducted by the department or a health officer. The department or the health officer shall do both of the following:

(*i*) Prepare a written inspection report.

(*ii*) Submit a copy of the inspection report to the municipality in which the licensed disposal area is located if the municipality arranges with the department or the health officer to pay the cost of duplicating and mailing the reports.

(c) Ensure that all persons disposing of solid waste are doing so in compliance with part 115.

(3) The department and the department of state police may conduct random inspections of waste being transported to a materials management facility in this state. Inspections under this subsection may be conducted during transportation or at the materials management facility.

(4) An inspection described in this section may also be conducted upon receipt of a complaint or as the department determines to be necessary to ensure compliance with part 115.

324.11526a Solid waste generated out of state; acceptance by owner or operator of landfill prohibited; exceptions; disposal capacity.

Sec. 11526a. (1) The owner or operator of a landfill shall not accept for disposal in this state solid waste, including, but not limited to, municipal solid waste incinerator ash, that was generated outside of this state unless 1 or more of the following conditions are met:

(a) The solid waste is composed of a uniform type of item, material, or substance, other than municipal solid waste incinerator ash, that meets the requirements for disposal in a landfill under part 115.

(b) The solid waste was received through a facility that has documented that it has removed from the solid waste being delivered to the landfill those items that are prohibited from disposal in a landfill.

(c) The country, state, province, or local jurisdiction in which the solid waste was generated is approved by the department for inclusion on the list compiled by the department under section 11526b.

(2) Notwithstanding any other provision of part 115, if there is sufficient disposal capacity for a planning area's disposal needs in or within 130 miles of the planning area, the department is not required to issue a construction permit for a new landfill or municipal solid waste incinerator in the planning area.

324.11526b Compliance with MCL 324.11526b required; notice requirements; compilation of list; documentation.

Sec. 11526b. (1) Not later than October 1, 2004, the department shall do all of the following:

(a) Notify each state, the country of Canada, and each province in Canada that landfills in this state will not accept for disposal solid waste that does not comply with section 11526a.

(b) Compile a list of countries, states, provinces, and local jurisdictions that prohibit from disposal in a landfill the items prohibited from disposal in a landfill located in this state or that prevent from disposal in a landfill the items prohibited from disposal in a landfill located in this state through enforceable solid waste disposal requirements that are comparable to this part.

(c) Prepare and provide to each landfill in the state a copy of a list of the countries, states, provinces, and local jurisdictions compiled under subdivision (b).

(2) The department shall include a country, state, province, or local jurisdiction on the list described in subsection (1) if the country, state, province, or local jurisdiction, or another person, provides the department with documentation that the country, state, province, or local jurisdiction prohibits from disposal in a landfill the items prohibited from disposal in a landfill located in this state or that it prevents from disposal in a landfill the items prohibited from disposal in a landfill located in this state through enforceable solid waste disposal requirements that are comparable to this part. Such documentation shall include all pertinent statutes, administrative regulations, and ordinances.

324.11526c Order restricting or prohibiting solid waste transportation or disposal in this state.

Sec. 11526c. (1) The director may issue an order restricting or prohibiting the transportation or disposal in this state of solid waste originating within or outside of this state if both of the following apply:

(a) The director, after consultation with appropriate officials, has determined that the transportation or disposal of the solid waste poses a substantial threat to the public health or safety or to the environment.

(b) The director determines that the restriction or prohibition on the transportation or disposal of the solid waste is necessary to minimize or eliminate the substantial threat to public health or safety or to the environment.

(2) At least 30 days before the director issues an order under subsection (1), the department shall post the proposed order and its effective date on its website with information on how a member of the public can comment on the proposed order and shall provide a copy of the proposed order to the members of the standing committees of the senate and house of representatives that consider legislation pertaining to public health or the environment. Before issuing the order, the director shall consider comments received on the proposed order. The department shall post the final order on its website beginning not later than the final order's effective date. This subsection does not apply in an emergency situation described in subsection (3).

(3) In an emergency situation posing an imminent and substantial threat to public health or safety or to the environment, the director, before issuing an order under subsection (1), shall provide a copy of the proposed order to the members of the standing committees of the senate and house of representatives that consider legislation pertaining to public health or the environment and publicize the proposed order in any manner appropriate to help ensure that interested parties are provided notice of the proposed order and its effective date. The department shall post the final order on its website as soon as practicable.

(4) An order issued pursuant to this section shall expire 60 days after it takes effect, unless the order provides for an earlier expiration date.

(5) Subsections (2) and (3) do not apply to the reissuance of an order if the reissued order takes effect upon the expiration of the identical order it replaces. However, the department shall post the reissued order on its website beginning not later than the reissued order's effective date.

(6) A person may seek judicial review of an order issued under this section as provided in section 631 of the revised judicature act of 1961, 1961 PA 236, MCL 600.631.

(7) The director shall rescind an order issued under this section when the director determines that the threat upon which the order was based no longer exists.

324.11526e Disposal of municipal solid waste generated outside of United States; applicability of subsections (1) and (2).

Sec. 11526e. (1) Subject to subsection (3), a person shall not deliver for disposal, in a landfill or incinerator in this state, municipal solid waste, including, but not limited to, municipal solid waste incinerator ash, that was generated outside of the United States.

(2) Subject to subsection (3), the owner or operator of a landfill or incinerator in this state shall not accept for disposal municipal solid waste, including, but not limited to, municipal solid waste incinerator ash, that was generated outside of the United States.

(3) Subsections (1) and (2) apply notwithstanding any other provision of this part. However, subsections (1) and (2) do not apply unless congress enacts legislation under clause 3 of section 8 of article I of the constitution of the United States authorizing such prohibitions. Subsections (1) and (2) do not apply until 90 days after the effective date of such federal legislation or 90 days after the effective date of the amendatory act that added this section, whichever is later.

324.11530 Collection center for junk motor vehicles and farm implements; competitive bidding; bonds; "collect" defined.

Sec. 11530. (1) A municipality or county may establish and operate a collection center for junk motor vehicles and farm implements.

(2) A municipality or county may collect junk motor vehicles and farm implements and dispose of them through its collection center through the process of competitive bidding.

(3) A municipality or county may issue bonds as necessary pursuant to Act No. 342 of the Public Acts of 1969, being sections 141.151 to 141.153 of the Michigan Compiled Laws, to finance the cost of constructing or operating facilities to collect junk motor vehicles or farm implements. The bonds shall be general obligation bonds and shall be backed by the full faith and credit of the municipality or county.

(4) As used in this section, "collect" means to obtain a vehicle pursuant to section 252 of the Michigan vehicle code, Act No. 300 of the Public Acts of 1949, being section 257.252 of the Michigan Compiled Laws, or to obtain a vehicle or farm implement and its title pursuant to a transfer from the owner.

Popular name: NREPA

Popular name: Solid Waste Act

324.11531 Solid waste removal; frequency; disposal; ordinance.

Sec. 11531. (1) A municipality or county shall ensure that all solid waste is removed from the site of generation frequently enough to protect the environment, natural resources, and the public health, safety, and welfare and is delivered to a materials management facility that meets the requirements of section 11508(1)(a), except waste that is permitted by state law or rules promulgated by the department to be disposed of at the site of generation.

(2) An ordinance adopted before February 8, 1988 by a county or municipality incidental to the financing of a publicly owned disposal area or areas under construction that directs that all or part of the solid waste generated in that county or municipality be directed to the disposal area or areas is an acceptable means of compliance with subsection (1), notwithstanding that the ordinance, in the case of a county, has not been approved by the governor. This subsection does not validate or invalidate an ordinance adopted on or after February 8, 1988 as an acceptable means of compliance with subsection (1).

324.11532 Impact fees; agreement; collection, payment, and disposition; reduction; use of revenue; trust fund; board of trustees; membership and terms; expenditures from trust fund.

Sec. 11532. (1) Except as provided in subsection (2), a municipality may impose an impact fee of not more than 30 cents per ton on solid waste, including municipal solid waste incinerator ash, that is disposed of in a landfill located within the municipality that is utilized by the public and utilized to dispose of solid waste collected from 2 or more persons. However, if the landfill is located within a village, the impact fee shall be imposed only by the township pursuant to an agreement with the village. An impact fee shall be assessed uniformly on all wastes accepted for disposal.

(2) A municipality may enter into an agreement with the owner or operator of a landfill to establish a

higher impact fee than that provided for in subsection (1).

(3) The impact fees imposed under this section shall be collected by the owner or operator of a landfill and shall be paid to the municipality quarterly by the thirtieth day after the end of each calendar quarter. However, the impact fees allowed to be assessed to each landfill under this section shall be reduced by any amount of revenue paid to or available to the municipality from the landfill under the terms of any preexisting agreements, special use permit conditions, court settlement agreement conditions, and trusts.

(4) Unless a trust fund is established by a municipality pursuant to subsection (5), the revenue collected by a municipality pursuant to subsection (1) shall be deposited in its general fund. Subject to subsection (8), the revenue shall be used for any purpose that promotes the public health, safety, or welfare of the citizens of the municipality.

(5) A municipality may establish a trust fund to receive revenue collected pursuant to this section. The trust fund shall be administered by a board of trustees. The board of trustees shall consist of the following members:

(a) The chief elected official of the municipality.

(b) A resident of the municipality appointed by the governing body of the municipality.

(c) An individual approved by the owners or operators of the landfills within the municipality and appointed by the governing body of the municipality.

(6) Individuals appointed to serve on the board of trustees under subsection (5)(b) and (c) shall serve for terms of 2 years.

(7) Subject to subsection (8), money in a trust fund under subsection (5) may be expended, pursuant to a majority vote of the board of trustees, for any purpose that promotes the public health, safety, or welfare of the citizens of the municipality.

(8) Revenue collected pursuant to this section shall not be used to bring or support a lawsuit or other legal action against a landfill owner or operator that is collecting an impact fee under subsection (3) unless the owner or operator of the landfill has instituted a lawsuit or other legal action against the municipality.

SUBPART 6
INCINERATORS AND OPEN BURNING

324.11539 Open burning of yard waste or leaves; prohibition; effect of local ordinance and part 55; open burning of household waste, materials; application of subpart 7; violations and penalties; open burning of certain storage bins; disposal of unserviceable flag.

Sec. 11539. (1) The open burning of yard waste or leaves is prohibited in any municipality having a population of 7,500 or more, unless specifically authorized by local ordinance. Within 30 days after adoption of such an ordinance, the clerk of the municipality shall notify the department of its adoption.

(2) Subsection (1) does not permit a county or municipality to authorize open burning of yard waste or leaves by an ordinance that is prohibited under part 55 or rules promulgated under part 55.

(3) A person shall not conduct open burning of household waste that contains plastic, rubber, foam, chemically treated wood, textiles, electronics, chemicals, or hazardous materials.

(4) Subpart 7 does not apply to an individual who violates subsection (3) by open burning of waste from that individual's household. The individual is responsible for a state civil infraction and is subject to the following:

(a) For a first offense within a 3-year period, a warning by the judge or magistrate.

(b) For a second offense within a 3-year period, a civil fine of not more than $75.00.

(c) For a third offense within a 3-year period, a civil fine of not more than $150.00.

(d) For a fourth or subsequent offense within a 3-year period, a civil fine of not more than $300.00.

(5) Notwithstanding section 5512, the department shall not promulgate or enforce a rule that extends the prohibition under subsection (3) to materials not listed in subsection (3).

(6) Part 115, part 55, or rules promulgated under part 55 do not prohibit a person from conducting open burning of wooden fruit or vegetable storage bins constructed from untreated lumber if all of the following requirements are met:

(a) The burning is conducted for disease or pest control.

(b) The burning is not conducted at any of the following locations:

(*i*) Within a priority I area as listed in table 33 or a priority II area as listed in table 34 of R 336.1331 of the MAC.

(*ii*) In a city or village.

(*iii*) Within 1,400 feet outside the boundary of a city or village.

(7) Subsections (5) and (6) do not authorize open burning that is prohibited by a local ordinance.

(8) A congressionally chartered patriotic organization that disposes of an unserviceable flag of the United States by burning that flag is not subject to regulation or sanction for violating state law or a local ordinance pertaining to open burning.

324.11540 Incinerator operator or owner; compliance with permit and license requirements of subpart 2.

Sec. 11540. (1) The owner or operator of an incinerator may, but is not required to, comply with the disposal area construction permit and operating license requirements of subpart 2 if both of the following conditions are met:

(a) Solid waste to be incinerated is managed in a properly enclosed area in a manner that prevents fugitive dust, litter, leachate generation, precipitation runoff, or any release of solid waste to the air, soil, surface water, or groundwater.

(b) The incinerator has a permit issued under part 55.

(2) An incinerator that, as authorized by subsection (1), does not comply with the construction permit and operating license requirements of subpart 2 is subject to the planning provisions of part 115 and must be included in the county materials management plan for the county in which the incinerator is located.

324.11540a Repealed. 2010, Act 345, Eff. Mar. 1, 2011.

Compiler's note: The repealed section pertained to promulgation of rules affecting inert material before March 1, 2011.

Popular name: Act 451

Popular name: NREPA

Popular name: Solid Waste Act

324.11541 Municipal solid waste incinerator; materials management plan; implementation schedule.

Sec. 11541. (1) Within 9 months after the completion of construction of a municipal solid waste incinerator, the owner or operator shall submit a plan to the department for a program that, to the extent practicable, reduces the incineration of noncombustible materials and dangerous combustible materials and their hazardous by-products at the incinerator. The plan shall include an implementation schedule. Within 30 days after receiving the plan, the department shall approve or disapprove the plan and notify the owner or operator in writing. In reviewing the plan, the department shall consider the current materials management plan for the planning area where the incinerator is located and available markets, disposal alternatives, and collection practices for the managed materials. If the department disapproves a plan, the notice shall specify the reasons for disapproval. If the department disapproves the plan, the owner or operator shall, within 30 days after receipt of the department's disapproval, submit a revised plan that addresses all of the reasons for disapproval specified by the department. The department shall approve or disapprove the revised plan within 30 days after receiving the revised plan and notify the owner or operator in writing. If the department disapproves the revised plan, the notice shall specify the reasons for disapproval. If the department disapproves the revised plan, the department may continue with the approval process under this subsection or take appropriate enforcement action.

(2) Not later than 6 months after the approval of the plan by the department under subsection (1), the owner or operator shall implement the plan in compliance with the implementation schedule. The operation of a municipal solid waste incinerator without an approved plan under this section subjects the owner or operator, or both, to the sanctions provided by this part.

History: 1994, Act 451, Eff. Mar. 30, 1995;—Am. 1996, Act 358, Eff. Oct. 1, 1996;—Am. 2022, Act 247, Eff. Mar. 29, 2023.

324.11542 Municipal solid waste incinerator ash; disposal.

Sec. 11542. (1) Except as provided in subsection (5) and except for municipal solid waste incinerator ash that is described and used as provided in section 11506(6)(h), municipal solid waste incinerator ash shall be disposed of in 1 of the following:

(a) A landfill that meets all of the following requirements:

(*i*) The landfill is in compliance with this part and the rules promulgated under this part.

(*ii*) The landfill is used exclusively for the disposal of municipal solid waste incinerator ash.

(*iii*) The landfill design includes all of the following in descending order according to their placement in the landfill:

(A) A leachate collection system.

(B) A synthetic liner at least 60 mils thick.

(C) A compacted clay liner of 5 feet or more with a maximum hydraulic conductivity of 1 x 10^{-7}

centimeters per second.

(D) A leak detection and leachate collection system.

(E) A compacted clay liner at least 3 feet thick with a maximum hydraulic conductivity of 1 x 10^{-7} centimeters per second or a synthetic liner at least 40 mils thick.

(b) A landfill that meets all of the following requirements:

(*i*) The landfill is in compliance with this part and the rules promulgated under this part.

(*ii*) The landfill is used exclusively for the disposal of municipal solid waste incinerator ash.

(*iii*) The landfill design includes all of the following in descending order according to their placement in the landfill:

(A) A leachate collection system.

(B) A composite liner, as defined in R 299.4102 of the part 115 rules.

(C) A leak detection and leachate collection system.

(D) A second composite liner.

(*iv*) If contaminants that may threaten the public health, safety, or welfare, or the environment are found in the leachate collection system described in subparagraph (*iii*)(C), the owner or operator of the landfill shall determine the source and nature of the contaminants and make repairs, to the extent practicable, that will prevent the contaminants from entering the leachate collection system. If the department determines that the source of the contaminants is caused by a design failure of the landfill, the department, notwithstanding an approved construction permit or operating license, may require landfill cells at that landfill that will be used for the disposal of municipal solid waste incinerator ash, which are under construction or will be constructed in the future at the landfill, to be constructed in conformance with improved design standards approved by the department. However, this subparagraph does not require the removal of liners or leak detection and leachate collection systems that are already in place in a landfill cell under construction.

(c) A landfill that is a monitorable unit, as defined in R 299.4104 of the part 115 rules, and that meets all of the following requirements:

(*i*) The landfill is in compliance with this part and the rules promulgated under this part.

(*ii*) The landfill is used exclusively for the disposal of municipal solid waste incinerator ash.

(*iii*) The landfill design includes all of the following in descending order according to their placement in the landfill:

(A) A leachate collection system.

(B) A synthetic liner at least 60 mils thick.

(C) Immediately below the synthetic liner, either 2 feet of compacted clay with a maximum hydraulic conductivity of 1 x 10^{-7} centimeters per second or a bentonite geocomposite liner, as specified in R 299.4914 of the part 115 rules.

(D) At least 10 feet of either natural or compacted clay with a maximum hydraulic conductivity of 1 x 10^{-7} centimeters per second, or equivalent.

(d) A landfill with a design approved by the department that will prevent the migration of any hazardous constituent into the groundwater or surface water at least as effectively as the design requirements of subdivisions (a) to (c).

(e) A type II landfill, as described in R 299.4105 of the part 115 rules if both of the following conditions apply:

(*i*) The ash was generated by a municipal solid waste incinerator that is designed to burn at a temperature in excess of 2500 degrees Fahrenheit.

(*ii*) The ash from any individual municipal solid waste incinerator is disposed of pursuant to this subdivision for a period not to exceed 60 days.

(2) Except as provided in subsection (3), a landfill that is constructed pursuant to the design described in subsection (1) shall be capped following its closure by all of the following in descending order:

(a) Six inches of top soil with a vegetative cover.

(b) Two feet of soil to protect against animal burrowing, temperature, erosion, and rooted vegetation.

(c) An infiltration collection system.

(d) A synthetic liner at least 30 mils thick.

(e) Two feet of compacted clay with a maximum hydraulic conductivity of 1 x 10^{-7} centimeters per second.

(3) A landfill that receives municipal solid waste incinerator ash under this section may be capped with a design approved by the department that will prevent the migration of any hazardous constituent into the groundwater or surface water at least as effectively as the design requirements of subsection (2).

(4) If leachate is collected from a landfill under this section, the leachate shall be monitored and tested in accordance with this part and the rules promulgated under this part.

(5) As an alternative to disposal described in subsection (1), the owner or operator of a municipal solid

waste incinerator may process municipal solid waste incinerator ash through mechanical or chemical methods, or both, to substantially diminish the toxicity of the ash or its constituents or limit the leachability of the ash or its constituents to minimize threats to human health and the environment, if processing is performed on the site of the municipal solid waste incinerator or at the site of a landfill described in subsection (1), if the process has been approved by the department as provided by rule, and if the ash is tested after processing in accordance with a protocol approved by the department as provided by rule. The department shall approve the process and testing protocol under this subsection only if the process and testing protocol will protect human health and the environment. In making this determination, the department shall consider all potential pathways of human and environmental exposure, including both short-term and long-term, to constituents of the ash that may be released during the reuse or recycling of the ash. The department shall consider requiring methods to determine the leaching, total chemical analysis, respirability, and toxicity of reused or recycled ash. A leaching procedure shall include testing under both acidic and native conditions. If municipal solid waste incinerator ash is processed in accordance with the requirements of this subsection and the processed ash satisfies the testing protocol approved by the department as provided by rule, the ash may be disposed of in a municipal solid waste landfill, as defined by R 299.4104 of the part 115 rules, licensed under this part or may be used in any manner approved by the department. If municipal solid waste incinerator ash is processed as provided in this subsection, but does not comply with the testing protocol approved by the department as provided by rule, the ash shall be disposed of in accordance with subsection (1).

(6) The disposal of municipal solid waste incinerator ash within a landfill that is in compliance with subsection (1) does not constitute a new proposal for which a new construction permit is required under section 11509, if a construction permit has previously been issued under section 11509 for the landfill and the owner or operator of the landfill submits 6 copies of an operating license amendment application to the department for approval pursuant to part 13. The operating license amendment application shall include revised plans and specifications for all facility modifications including a leachate disposal plan, an erosion control plan, and a dust control plan which shall be part of the operating license amendment. The dust control plan shall contain sufficient detail to ensure that dust emissions are controlled by available control technologies that reduce dust emissions by a reasonably achievable amount to the extent necessary to protect human health and the environment. The dust control plan shall provide for the ash to be wet during all times that the ash is exposed to the atmosphere at the landfill or otherwise to be covered by daily cover material; for dust emissions to be controlled during dumping, grading, loading, and bulk transporting of the ash at the landfill; and for dust emissions from access roads within the landfill to be controlled. With the exception of a landfill that is in existence on June 12, 1989 that the department determines is otherwise in compliance with this section, the owner or operator of the landfill shall obtain the operating license amendment prior to initiating construction. Prior to operation, the owner or operator of a landfill shall submit to the department certification from a licensed professional engineer that the landfill has been constructed in accordance with the approved plan and specifications. When the copies are submitted to the department, the owner or operator of the landfill shall send a copy of the operating license amendment application to the municipality where the landfill is located. At least 30 days prior to making a final decision on the operating license amendment, the department shall hold at least 1 public meeting in the vicinity of the landfill to receive public comments. Prior to a public meeting, the department shall publish notice of the meeting in a newspaper serving the local area.

(7) The owner or operator of a municipal solid waste incinerator or a disposal area that receives municipal solid waste incinerator ash shall allow the department access to the facility for the purpose of supervising the collection of samples or obtaining samples of ash to test or to monitor air quality at the facility.

(8) As used in subsection (1), "landfill" means a landfill or a specific portion of a landfill.

324.11543 Municipal solid waste incinerator ash; transportation.

Sec. 11543. (1) If municipal solid waste incinerator ash is transported, it shall be transported in compliance with section 720 of the Michigan vehicle code, Act No. 300 of the Public Acts of 1949, being section 257.720 of the Michigan Compiled Laws.

(2) If municipal solid waste incinerator ash is transported by rail, it shall be transported in covered, leakproof railroad cars.

(3) The outside of all vehicles and accessory equipment used to transport municipal solid waste incinerator ash shall be kept free of the ash.

324.11544 List of laboratories capable of performing test provided for in MCL 324.11542; compilation; publication; definitive testing; fraudulent or careless testing.

Sec. 11544. (1) The department shall compile a list of approved laboratories that are capable of performing the test provided for in section 11542.

(2) The department shall publish the list compiled under subsection (1) on or before July 1, 1989, and shall after that date make the list available to any person upon request.

(3) Except as provided in subsection (4), a test conducted by an approved laboratory from the list compiled under subsection (1) is definitive for purposes of this part.

(4) If the department has reason to believe that test results provided by an approved laboratory are fraudulent or that a test was carelessly performed, the department may conduct its own test or may have an additional test performed at the department's expense.

SUBPART 7
ENFORCEMENT

324.11546 Action for appropriate relief; penalties for violation or noncompliance; restoration; return; civil action.

Sec. 11546. (1) The department or a local health officer may request that the attorney general bring an action in the name of the people of this state, or a municipality or county may bring an action based on facts arising within its boundaries, for any appropriate relief, including injunctive relief, for a violation of part 115.

(2) In addition to any other relief provided by this section, the court may impose on any person who violates part 115 a civil fine as follows:

(a) Except as provided in subdivision (b), not more than $10,000.00 for each day of violation.

(b) For a second or subsequent violation, not more than $25,000.00 for each day of violation.

(3) In addition to any other relief provided by this section, the court may order a person who violates part 115 to restore, or to pay to this state an amount equal to the cost of restoring, the natural resources of this state affected by the violation to their original condition before the violation, and to pay to this state the costs of surveillance and enforcement incurred by this state as a result of the violation.

(4) In addition to any other relief provided by this section, the court shall order a person who violates section 11526e to return, or to pay to this state an amount equal to the cost of returning, the solid waste that is the subject of the violation to the country in which that waste was generated.

(5) Part 115 does not preclude any person from commencing a civil action based on facts that may constitute a violation of part 115.

History: 1994, Act 451, Eff. Mar. 30, 1995;—Am. 2004, Act 41, Imd. Eff. Mar. 29, 2004;—Am. 2006, Act 56, Imd. Eff. Mar. 13, 2006;—Am. 2022, Act 247, Eff. Mar. 29, 2023.

324.11549 Violation as misdemeanor; violation as felony; penalty; separate offenses.

Sec. 11549. (1) A person who violates part 115 is guilty of a misdemeanor punishable by a fine of not more than $1,000.00 for each violation and costs of prosecution and, if in default of payment of fine and costs, imprisonment for not more than 6 months.

(2) A person who knowingly violates section 11526e is guilty of a felony punishable by imprisonment for not more than 2 years or a fine of not more than $5,000.00, or both.

(3) Each day upon which a violation described in this section occurs is a separate offense.

SUBPART 8

FUNDS AND GRANTS

324.11550 Solid waste management fund; creation; deposit of money into fund; establishment of solid waste staff account and perpetual care account; expenditures; grants and loans for recycling programs; report; coal ash care fund; creation; deposit of money; expenditures.

Sec. 11550. (1) The solid waste management fund is created within the state treasury. The state treasurer may receive money from any source for deposit into the fund. The state treasurer shall direct the investment of the fund. The state treasurer shall credit to the fund interest and earnings from fund investments. The department shall be the administrator of the fund for auditing purposes.

(2) Money in the solid waste management fund at the close of the fiscal year shall remain in the fund and shall not lapse to the general fund.

(3) The state treasurer shall establish, within the solid waste management fund, a solid waste staff account and a perpetual care account.

(4) Subject to subsection (5), money shall be expended from the solid waste staff account, upon appropriation, only for the following purposes:

(a) Preparing generally applicable guidance regarding the materials management facility program or its implementation or enforcement.

(b) Reviewing and acting on any notification, registration, application for approval under a general permit, application for a permit or license, permit or license revision, or permit or license renewal under part 115, including the cost of public notice and public hearings.

(c) Providing an advisory analysis under section 11510(1).

(d) General administrative costs of running the permit, license, registration, and notification program under part 115, including permit, license, registration, and notification tracking and data entry.

(e) Inspection of materials management facilities and open dumps.

(f) Implementing and enforcing the conditions of any permit, license, approval under a general permit, registration, or order under part 115.

(g) Groundwater monitoring audits at disposal areas that are or have been licensed under this part or at any other materials management facility that requires groundwater monitoring because of a release or suspected release.

(h) Reviewing and acting upon corrective action plans for materials management facilities, if required under part 115.

(i) Review of certifications of closure under part 115.

(j) Postclosure maintenance and monitoring inspections and review under part 115.

(k) Review of bonds and financial assurance documentation at materials management facilities, if required under part 115.

(*l*) Materials management planning.

(m) Materials utilization education and outreach.

(n) Development of a materials utilization and recycled materials market directory.

(o) Administration of grants and loans under part 115 for planning, market development and recycling infrastructure, outreach, and education.

(p) Up to 1 full-time equivalent employee for the Michigan economic development corporation to address recycled materials market development.

(5) Money shall be expended from the perpetual care account, upon appropriation, only for the following activities at materials management facilities for which the requirements of section 11508(1)(a) are or were met and for which fees have been collected and deposited into the perpetual care account:

(a) To conduct postclosure maintenance and monitoring if the owner or operator is no longer required to do so.

(b) To conduct closure, postclosure maintenance and monitoring, and necessary corrective action if the owner or operator has failed to do so. Money shall be expended from the account only after funds from any other financial assurance mechanisms held by the owner or operator have been expended and the department has made reasonable efforts to obtain funding from other sources.

(6) Subject to appropriations, the department shall provide grants for the following purposes:

(a) The recycling markets program established under subsection (7).

(b) The local recycling innovation program established under subsection (8).

(c) The recycling access and voluntary participation program established under subsection (9).

(7) The department shall establish a recycling markets program. The program shall provide grants or loans for acquiring equipment or technology, for research and development, or for associated activities to provide for new or increased use of recycled materials or to support the development of recycling markets. Local units of government and nonprofit and for-profit entities are eligible for funding under the program. The funding is not limited to entities in counties with approved materials management plans. In addition to any other reporting requirements established by the department, grant recipients under the program shall provide information on the materials managed.

(8) The department shall establish a local recycling innovation program. The program shall provide grants or loans for developing local recycling infrastructure, for recycling education campaigns for residents and businesses, technology, or other activities that result in increasing recycling access, quality, or participation, for reducing waste, or for sustainable materials management. Local units of government and nonprofit and for-profit entities are eligible for funding under the program. The funding is not limited to entities in counties with approved materials management plans. In addition to any other reporting requirements established by the department, grant recipients under the program shall provide the department information on the materials managed.

(9) The department shall establish a recycling access and voluntary participation program. The program shall provide grants or loans to assist local units of government in implementing best materials utilization practices or identifying ways to innovate and to collaborate with other local units and the private sector. To be eligible for a grant, a local unit of government must be a county that meets, or a municipality located within a county that meets, both of the following requirements:

(a) Has a materials management plan.

(b) Has documented progress toward meeting or has met its benchmark recycling standards and ultimately the municipal solid waste recycling rate goal under section 11507.

(10) The department shall publish and make available to grant and loan applicants criteria upon which the grants and loans will be made.

(11) By March 1 annually, the department shall prepare and submit to the governor, the legislature, the chairs of the standing committees of the senate and house of representatives with primary responsibility for issues related to natural resources and the environment, and the chairs of the subcommittees of the senate and house appropriations committees with primary responsibility for appropriations to the department a report that details the activities of the previous fiscal year funded by the staff account of the solid waste management fund. This report shall include, at a minimum, all of the following as they apply to the department:

(a) The number of full-time equated positions performing solid waste management authorization, compliance, and enforcement activities.

(b) All of the following information related to the construction permit applications received under section 11509:

(*i*) The number of applications received by the department, reported as the number of applications determined to be administratively incomplete and the number determined to be administratively complete.

(*ii*) The number of applications determined to be administratively complete for which a final action was taken by the department. The number of final actions shall be reported as the number of applications

approved, the number of applications denied, and the number of applications withdrawn by the applicant.

(*iii*) The percentage and number of applications determined to be administratively complete for which a final decision was made within the period required by part 13.

(c) All of the following information related to the operating license applications received under section 11512:

(*i*) The number of applications received by the department, reported as the number of applications determined to be administratively incomplete and the number determined to be administratively complete.

(*ii*) The number of applications determined to be administratively complete for which a final action was taken by the department. The number of final actions shall be reported as the number of applications approved, the number of applications denied, and the number of applications withdrawn by the applicant.

(*iii*) The percentage and number of applications determined to be administratively complete for which a final decision was made within the period required by part 13.

(d) The number of inspections conducted at licensed disposal areas as required by section 11519 and the number of inspections conducted at materials utilization facilities as required by section 11526.

(e) The number of letters of warning sent to licensed disposal areas.

(f) The number of contested case hearings and civil actions initiated and completed, the number of voluntary consent orders and administrative orders entered or issued, and the amount of fines and penalties collected through such actions or orders.

(g) For each enforcement action that includes a penalty, a description of the corrective actions required by the enforcement action.

(h) The number of solid waste complaints received, investigated, resolved, and not resolved by the department.

(i) The amount of revenue in the staff account of the solid waste management fund and the amount of revenue in the coal ash care fund at the end of the fiscal year.

(12) The coal ash care fund is created within the state treasury. The state treasurer may receive money from any source for deposit into the fund. The state treasurer shall direct the investment of the fund. The state treasurer shall credit to the fund interest and earnings from fund investments.

(13) Money shall be expended from the coal ash care fund, upon appropriation, only for the following purposes relating to coal ash impoundments and coal ash landfills:

(a) Preparing generally applicable guidance regarding the solid waste permit and license program or its implementation or enforcement.

(b) Reviewing and acting on any application for a permit or license, permit or license revision, or permit or license renewal, including the cost of public notice and public hearings.

(c) Performing an advisory analysis under section 11510(1).

(d) General administrative costs of running the permit and license program, including permit and license tracking and data entry.

(e) Inspection of licensed disposal areas and open dumps.

(f) Implementing and enforcing the conditions of any permit or license.

(g) Groundwater monitoring audits at disposal areas that are or have been licensed under this part.

(h) Reviewing and acting upon corrective action plans for disposal areas that are or have been licensed under this part.

(i) Review of certifications of closure.

(j) Postclosure maintenance and monitoring inspections and review.

(k) Review of bonds and financial assurance documentation at disposal areas that are or have been licensed under this part.

SUBPART 9

BENEFICIAL USE BY-PRODUCTS

324.11551 Beneficial use by-product; qualification; requirements; analysis of representative sample by initial generator; determination; storage and use; beneficial uses 1 and 2 at and along roadways; registration or licensure under MCL 290.531 to 290.538; submission of

information; open dumping; notice to prospective transferee.

Sec. 11551. (1) Except for a material that the department approves as a beneficial use by-product under section 11553(3) or (4), to qualify as a beneficial use by-product, a material or the use of the material, as applicable, shall meet all of the following requirements:

(a) The material is not a part 111 hazardous waste or mixed with a hazardous waste.

(b) The material is not stored at the site of generation or use for more than 3 years, or the amount that is transferred off site for use during a 3-year period equals at least 75% by weight or volume of the amount of that material stored on site for beneficial use at the beginning of the 3-year period.

(c) The material is stored in a manner that maintains its usefulness, controls wind dispersal, and prevents loss of the material beyond the storage area.

(d) The material is stored in a manner that does not cause groundwater to no longer be fit for 1 or more protected uses, does not cause a violation of a part 31 surface water quality standard, and otherwise does not violate part 31.

(e) The material is transported in a manner that prevents accidental leakage, spillage, or wind dispersal.

(f) The use of the material is for a legitimate beneficial purpose other than a means to discard the material and the material is used according to generally accepted engineering, industrial, or commercial standards for that use.

(g) For beneficial use 2, the material, if specified below, meets the following environmental standards using, at the option of the generator of the by-product, EPA method 1311, 1312, or ASTM test method 3987:

Constituent-maximum leachate mg/l	Coal ash or wood ash	Pulp and paper mill ash, mixed wood ash	Foundry sand	Cement kiln dust, lime kiln dust	Water softening limes, dewatered grinding sludge	Stamp sand	Spent media from sand blasting
Arsenic – 0.2	X	X	X	X	X		
Boron – 10	X						
Cadmium – 0.1	X	X		X	X		
Chromium – 2.0	X						X
Lead – 0.08	X	X	X	X	X		
Mercury – 0.04	X	X		X	X		
Copper – 20		X			X	X	
Nickel – 2.0		X	X		X		X
Selenium – 1.0	X				X		
Thallium – 0.04	X			X			
Zinc – 48	X	X			X		

(h) For beneficial use 3, the material or use of the material, as applicable, meets all of the following requirements:

(*i*) The material is coal bottom ash, wood ash, pulp and paper mill material, pulp and paper mill ash, mixed wood ash, foundry sand from ferrous or aluminum foundries, cement kiln dust, lime kiln dust, lime water softening residuals, flue gas desulfurization gypsum, soil washed or otherwise removed from sugar beets, or dewatered concrete grinding slurry from public transportation agency road projects.

(*ii*) The amount of any constituent listed below applied to an area of land over any period of time does not exceed the following:

CONSTITUENT	CUMULATIVE LOAD POUNDS PER ACRE
Arsenic	37

Cadmium	35
Copper	1,335
Lead	267
Mercury	15
Nickel	374
Selenium	89
Zinc	2,492

(*iii*) If the department of agriculture and rural development determines, based on peer-reviewed scientific literature, that any other constituent is subject to a cumulative loading requirement, the amount of that constituent applied to an area of land over any period of time does not exceed that cumulative loading requirement. The cumulative load for that constituent shall be calculated as follows: constituent concentration (mg/kg dry weight) x conversion factor of 0.002 (concentration to pounds per dry ton) x the material application rate in dry tons per acre.

(i) For beneficial use 5, the material is foundry sand from ferrous or aluminum foundries and representative sampling of the foundry sand using either a totals analysis, a leachate analysis (using EPA method 1311, EPA method 1312, ASTM method 3987, or other leaching protocol approved by the department), or any combination of the 2 types of analyses demonstrates that none of the following maximum concentrations are exceeded:

CONSTITUENT	TOTALS ANALYSIS MG/KG	LEACHATE ANALYSIS MG/L
Antimony	4.3	0.006
Cobalt	0.8	0.04
Copper	5,800	1
Iron	23,185	2.0
Lead	700	0.004
Manganese	1,299	0.86
Molybdenum	5	0.073
Nickel	100	0.1
Thallium	2.3	0.002
Vanadium	72	0.0045
Zinc	2,400	2.4
Benzene	0.1	0.005
Formaldehyde	26	1.3
Phenol	88	4.4
Trichloroethylene	0.1	0.005

(2) The determination whether a material meets the requirements of subsection (1)(a) or (g) shall be based on the analysis of a representative sample of the material by the initial generator. The initial generator shall maintain records of the test results for not less than 10 years after the date the material was sent off site and make the records available to the department upon request. The generator shall resample and analyze the material when raw materials or processes change in a way that could reasonably be expected to materially affect analysis results.

(3) Except as otherwise provided in this act, storage and use of beneficial use by-products shall comply with all other applicable provisions of this act.

(4) The storage of a material for beneficial use 3 that complies with regulation no. 641, commercial fertilizer bulk storage, R 285.641.1 to R 285.641.18 of the Michigan administrative code, shall be considered to comply with the storage requirements of this part.

(5) A person that actively manages and reuses a beneficial use by-product that has already been used in compliance with this part may rely on analytical data from the prior use.

(6) All of the following apply to beneficial uses 1 and 2 at and along roadways:

(a) Routine repair and replacement of roadways constructed using beneficial use materials does not constitute generation of beneficial use by-products triggering the requirements of this section if the beneficial use by-products remain or are reused at the same roadway and are used in a manner that meets the definition of beneficial use 1 or beneficial use 2, as appropriate. If the beneficial use by-products will be reused at some place other than the same roadway, then the requirements applicable to generators of beneficial use by-products must be met, except as follows:

(*i*) As set forth in subsection (5).

(*ii*) The requirements of section 11552 apply only if the category of beneficial use will change.

(b) For beneficial use 2, the requirement that beneficial use materials be covered by concrete, asphalt, or 6 inches of gravel applies at the time of placement and use. The development of potholes, shoulder erosion, or similar deterioration does not result in a violation of this part.

(c) If road materials containing beneficial use by-products are ground, reheated, or melted for reuse, the requirements of part 55 must be met.

(d) This part does not prohibit the state transportation department from seeking additional data or information for road building materials or from requiring that road building materials meet state transportation department specifications and standards.

(7) For beneficial use 3, the material that is offered for sale or use shall be annually registered or licensed under part 85 or 1955 PA 162, MCL 290.531 to 290.538. In addition to the information required under part 85 or 1955 PA 162, MCL 290.531 to 290.538, the following information shall be submitted to the department of agriculture and rural development with the license or registration application:

(a) Directions for use to ensure that the material is applied at an agronomic rate that has been reviewed by a certified crop advisor.

(b) A laboratory analysis report that contains all of the following:

(*i*) Sampling results that demonstrate that the material does not pose harm to human health or the environment. One method by which this demonstration can be made is by sampling results that comply with both of the following:

(A) The levels established pursuant to the association of American plant food control officials' statement of uniform interpretation and policy #25, as follows:

(I) A fertilizer with a phosphorus or micronutrient guarantee shall apply the policy in its entirety.

(II) A fertilizer with only a nitrogen, potassium, or secondary nutrient guarantee shall use the micronutrients column in the policy and apply a multiplier of 1 to determine the maximum allowable concentration of each metal.

(III) A soil conditioner or liming material shall use the micronutrients column in the policy and apply a multiplier of 1 to determine the maximum allowable concentration of each metal.

(B) The part 201 generic residential soil direct contact cleanup criteria for volatile organic compounds (as determined by U.S. EPA method 8260), semivolatile organic compounds (as determined by U.S. EPA method 8270c), and dioxins (as determined by U.S. EPA method 1613b). Results for dioxins shall be reported on a dry weight basis, and total dioxin equivalence shall be calculated and reported utilizing the U.S. EPA toxic equivalency factors (U.S. EPA/100/R10/005).

(*ii*) For a fertilizer, all of the following used by a certified crop advisor to determine an agronomic rate consistent with generally accepted agricultural and management practices:

(A) A demonstration that the material contains the minimum percentage of each plant nutrient guaranteed or claimed to be present.

(B) The percentage of dry solids, nitrogen, ammonium nitrogen, nitrate nitrogen, phosphorus, and potassium in the material.

(C) The levels of calcium, magnesium, acidity or basicity measured by pH, sulfur, chromium, copper, silver, chlorine, and boron.

(*iii*) For a soil conditioner or a liming material, all of the following used by a certified crop advisor to determine an agronomic rate consistent with generally accepted agricultural and management practices:

(A) The percentage of dry solids in the material.

(B) The levels of calcium, magnesium, acidity or basicity measured by pH, sulfur, chromium, copper, silver, chlorine, and boron.

(*iv*) For a soil conditioner, scientifically acceptable data that give reasonable assurance that the material will improve the physical nature of the soil by altering the soil structure by making soil nutrients more available or otherwise enhancing the soil media resulting in beneficial crop response or other plant growth.

(*v*) For a liming material, scientifically acceptable data demonstrating that the material will correct soil acidity.

(8) When a material is licensed or registered as described in subsection (7), the laboratory analysis report

and the scientifically acceptable data submitted with a prior application may be resubmitted for a subsequent application unless the raw materials or processes used to generate the material change in a way that could reasonably be expected to materially affect the laboratory analysis report or scientifically acceptable data.

(9) This part does not authorize open dumping prohibited by the solid waste disposal act, 42 USC 6901 to 6992k.

(10) If an owner of property has knowledge that a material has been used on the property for beneficial use 2, before transferring the property, the owner shall provide notice to a prospective transferee that the material was used for beneficial use 2, including the date and location of the use, if known. If a contractor, consultant, or agent of an owner of property uses a material on the property for beneficial use 2, the contractor, consultant, or agent shall provide notice to the owner that the material was used for beneficial use 2, including the date and location of the use.

Popular name: Solid Waste Act

324.11551a Beneficial use by-product not required.

Sec. 11551a. This part does not require the use of any beneficial use by-product, including, but not limited to, the uses and beneficial use by-products identified in sections 11502 to 11506, by any governmental entity or any other person.

History: Add. 2014, Act 178, Eff. Sept. 16, 2014.

Popular name: Act 451

Popular name: NREPA

Popular name: Solid Waste Act

324.11552 Notice; report; confidentiality.

Sec. 11552. (1) Written notice shall be submitted to the department before a beneficial use by-product is used for beneficial use 2 as construction fill at a particular site for the first time, if the amount used will exceed 5,000 cubic yards. The generator of the beneficial use by-product shall submit the notice unless the generator transfers material to a broker, in which case the broker shall submit the notice.

(2) By October 30 of each year, any generator or broker of more than 1,000 cubic yards of material used as beneficial use by-products for beneficial use 1, 2, or 4 in the immediately preceding period of October 1 to September 30 or any person that uses or reuses more than 1,000 cubic yards of a source separated material in that period shall submit a report to the department containing all of the following information, as applicable:

(a) The business name, address, telephone number, and name of a contact person for the generator, broker, or other person.

(b) The types and approximate amounts of beneficial use by-products generated, brokered, and stored during that period.

(c) The approximate amount of beneficial use by-products shipped off site during that period and the uses and conditions of use.

(d) The amount of source separated materials used or reused.

(3) A generator or broker may designate the information required in the report under subsection (2)(b) and (c) as confidential business information. If the scope of a request for public records under section 5 of the freedom of information act, 1976 PA 442, MCL 15.235, includes information designated by the generator or broker as confidential, the department shall promptly notify the generator or broker of the request, including the date the request was received by the department and, pursuant to that section, shall issue a notice extending for 10 business days the period during which the department shall respond to the request. The department shall grant the request for the information unless, within 12 business days after the date the request was received by the department, the generator or broker demonstrates to the satisfaction of the department that the information designated as confidential should not be disclosed because the information constitutes a trade secret or secret process or is production or commercial information the disclosure of which would jeopardize the competitive position of the generator or broker. If there is a dispute over the release of information between the generator or broker and the person requesting the information, the director shall grant or deny the request. The department shall notify the generator or broker of a decision to grant the request at least 2 days before the release of the requested information.

Popular name: Act 451

Popular name: NREPA

Popular name: Solid Waste Act

324.11553 Promoting and fostering use of wastes and by-products for recycling or beneficial purposes; approval of material, use, or material and use; request; approval or denial by department; determination made prior to September 16, 2014; applicability to material used under part 115.

Sec. 11553. (1) Consistent with the requirements of part 115, the department shall apply this section so as to promote and foster the use of wastes and by-products for recycling or beneficial purposes.

(2) Any person may request the department, consistent with the definitions and other terms of part 115, to approve a material, a use, or a material and use as a source separated material; a beneficial use by-product for beneficial use 1, 2, 4, or 5; an inert material; a low-hazard industrial waste; nondetrimental material managed for agricultural or silvicultural use; or another material, use, or material and use that can be approved under part 115. Among other things, a person may request the department to approve a use that does not meet the definition of beneficial use 2 under section 11502(8)(a) because the property is not nonresidential property or under section 11502(8)(a), (b), or (c) because the material exceeds 4 feet in thickness. A request under this subsection shall be in writing and contain a description of the material including the process generating it; results of analyses of representative samples of the material for any hazardous substances that the person has knowledge or reason to believe could be present in the material, based on its source, its composition, or the process that generated it; and, if applicable, a description of the proposed use. The analysis and sampling of the material under this subsection shall be consistent with the methods identified in "Standard Methods for the Examination of Water and Wastewater, 20th Edition," (jointly published by the American Public Health Association, the American Water Works Association, and the Water Environment Federation) or "Test Methods for Evaluating Solid Waste, Physical/Chemical Methods," EPA publication SW-846, Third Edition, Final Updates I (1993), II (1995), IIA (1994), IIB (1995), III (1997), IIIA (1999), IIIB (2005), IV (2008), AND V (2015); 1 or more peer-reviewed standards developed by a national or international organization, such as ASTM International; or 1 or more standards or methods approved by the department or the EPA. The department shall approve or deny the request in writing within 150 days after the request is received, unless the parties agree to an extension. If the department determines that the request does not include sufficient information, the department shall, not more than 60 days after receipt of the request, notify the requester. The notice shall specify the additional information that is required. The 150-day period is tolled until the requestor submits the information specified in the notice. If the department approves a request under this subsection, the approval shall include the following statement: "This approval does not require any use of any beneficial use by-product by a governmental entity or any other person." The department may impose conditions and other requirements consistent with the purposes of part 115 on a material, a use, or a material and use approved under this section that are reasonably necessary for the use. If a request is approved with conditions or other requirements, the approval shall specifically state the conditions or other requirements. If the request is denied, the denial shall, to the extent practical, state with specificity all of the reasons for denial. If the department fails to approve or deny the request within the 150-day period, the request is considered approved. A person requesting approval under this subsection may seek review of any final department decision pursuant to section 631 of the revised judicature act of 1961, 1961 PA 236, MCL 600.631.

(3) The department shall approve a material for a specified use as a beneficial use by-product if all of the following requirements are met:

(a) The material is an industrial or commercial material that is or has the potential to be generated in high volumes.

(b) The proposed use serves a legitimate beneficial purpose other than providing a means to discard the material.

(c) A market exists for the material or there is a reasonable potential for the creation of a new market for the material if it is approved as a beneficial use by-product.

(d) The material and use meet all federal and state consumer protection and product safety laws and regulations.

(e) The material meets all of the following requirements:

(*i*) Any hazardous substances in the material do not pose a direct contact health hazard to humans.

(*ii*) The material does not leach, decompose, or dissolve to form a leachate that exceeds either of the following:

(A) Part 201 generic residential groundwater drinking water criteria.

(B) Surface water quality standards established under part 31.

(*iii*) The material does not produce emissions that violate part 55 or that create a nuisance.

(4) The department may approve a material for a specified use as a beneficial use by-product or as restricted use compost if the material meets the requirements of subsection (3)(a), (b), (c), and (d) but fails to meet the requirements of subsection (3)(e) and if the department determines that the material and use are protective of the environment, natural resources, and the public health, safety, and welfare. In making the determination, the department shall consider the potential for exposure and risk to the environment, natural resources, and the public health, safety, and welfare given the nature of the material, its proposed use, and the environmental fate and transport of any hazardous substances in the material in soil, groundwater, or other relevant media.

(5) The department shall approve a material as inert or as general use compost if all of the following requirements are met:

(a) The material is proposed to be used for a legitimate purpose other than a means to dispose of the material.

(b) Substances in the material do not pose a direct contact health hazard to humans.

(c) The material does not leach, decompose, or dissolve in water or other liquids likely to be found at the area of placement, disposal, or use to form a leachate that exceeds either of the following:

(*i*) Part 201 generic residential groundwater drinking water criteria.

(*ii*) Surface water quality standards established under part 31.

(d) The material does not produce emissions that violate part 55 or that create a nuisance.

(6) The department may approve a material as inert if the material meets the requirements of subsection (5)(a) but fails to meet the requirements of subsection (5)(b), (c), or (d) and if the department determines that the material is protective of the environment, natural resources, and the public health, safety, and welfare. In making the determination, the department shall consider the potential for exposure and risk to the environment, natural resources, and the public health, safety, and welfare given the nature of the material, its proposed use, and the environmental fate and transport of any hazardous substances in the material in soil, groundwater, or other relevant media.

(7) The department shall approve a material as a low-hazard industrial waste if hazardous substances in representative samples of the material do not leach, using, at the option of the generator, EPA method 1311, "Toxicity Characteristic Leaching Procedure", EPA method 1312, "Synthetic Precipitation Leaching Procedure", or any other method approved by the department that more accurately simulates mobility, above the higher of the following:

(a) One-tenth the hazardous waste toxicity characteristic threshold as set forth in rules promulgated under part 111.

(b) Ten times the generic residential groundwater drinking water cleanup criteria as set forth in rules promulgated under part 201.

(8) The department shall approve a material as a source separated material if the person who seeks the designation demonstrates that the material can be recycled or converted into raw materials or new products by being returned to the original process from which it was generated, by use or reuse as an ingredient in an industrial process to make a product, or by use or reuse as an effective substitute for a commercial product. To qualify as a source separated material, the material, product, or reuse must meet all federal and state consumer protection and product safety laws and regulations and must not create a nuisance. If a material will be applied to or placed on land, or will be used to produce products that are applied to or placed on land, the material must qualify as an inert material or beneficial use by-product.

(9) Any written determination by the department made before September 16, 2014, designating a material as an inert material, an inert material appropriate for general reuse, an inert material appropriate for reuse at a specific location, an inert material appropriate for specific reuse instead of virgin material, a source separated material, a low-hazard industrial waste, or a non-solid-waste material remains in effect according to its terms or until forfeited in writing by the person who received the determination. Upon termination, expiration, or forfeiture of the written determination, the current requirements of part 115 control. The amendments made to this part by 2014 PA 178 do not rescind, invalidate, limit, or modify any such prior determination in any way.

(10) Notwithstanding any other provision of part 115, a person in possession of material that is designated or approved for beneficial use or as inert material or in possession of material from an industrial facility that is designated or approved as source separated material is not subject to regulation as a materials management facility if the person manages and uses the material as provided in part 115 for that material.

SUBPART 10
MATERIALS UTILIZATION FACILITIES

324.11555 Management of compostable materials; temporary accumulation of yard waste; composting on a farm; composting facility; location requirements; list of composting facilities.

Sec. 11555. (1) Compostable material shall be managed by 1 of the following means:

(a) Composted on the property where the compostable material is generated.

(b) If yard waste, temporarily accumulated subject to subsection (2).

(c) Composted at a class 1 composting facility where the quantity of compostable material does not at any time exceed 500 cubic yards and does not create a nuisance.

(d) Composted at a small composting facility for which notification has been given under section 11568(3), if applicable.

(e) Composted on a farm as described by subsection (3).

(f) Composted at a medium composting facility registered under section 11568(3), if applicable.

(g) Composted at any of the following that has received approval under a general permit under section 11568(3), if applicable:

(*i*) A large composting facility.

(*ii*) A small or medium class 1 composting facility that meets the requirements of subsection (4) and where the total volume of class 1 compostable material other than yard waste exceeds 10% of the total volume of compostable material on-site, unless otherwise approved by the department.

(*iii*) A class 2 composting facility.

(h) Decomposed in a controlled manner using a closed container to create and maintain anaerobic conditions if in compliance with part 55 and otherwise approved by the department under part 115.

(i) Composted by a type II landfill if the following requirements are met:

(*i*) The landfill reports annually the number of cubic yards of compost managed.

(*ii*) The composting and use meet the following requirements:

(A) Take place on property described in the landfill construction permit.

(B) Are described in and consistent with the landfill operations plans.

(C) Are otherwise in compliance with this act.

(*iii*) Yard waste or unfinished compost is not used as daily cover.

(j) Disposed of in a landfill or an incinerator. This subdivision applies to yard waste only if all of the following requirements, as applicable, are met:

(*i*) The yard waste is any of the following:

(A) Diseased or infested.

(B) Plants that are prohibited species or restricted species, as defined in part 413, and that were collected through an eradication or control program.

(C) A state or federal controlled substance.

(D) Contaminated, with hazardous material as determined by the department.

(*ii*) The yard waste includes no more than a de minimis amount of yard waste other than that described in subparagraph (*i*).

(*iii*) For yard waste described in subparagraph (*i*)(A), (B), or (C), if the yard waste is composted, use of the compost may contribute to the spread of the disease or infestation or of viable invasive plant or controlled substance seeds or other propagules.

(2) A person may temporarily accumulate yard waste under subsection (1)(b) at a site not designed for composting if all of the following requirements are met:

(a) The accumulation does not create a nuisance or result in a violation of this act.

(b) The yard waste is not mixed with other compostable material.

(c) No more than 1,000 cubic yards are placed on-site unless a greater volume is approved by the department.

(d) Yard waste placed on-site on or after April 1 but before December 1 is moved to another location and managed as provided in subsection (1) within 30 days after being placed on-site. The department may approve a longer time period based on a demonstration that additional time is necessary.

(e) Yard waste placed on-site on or after December 1 but before the next April 1 is moved to another location and managed as provided in subsection (1) by the next April 1 after the yard waste is placed on-site.

(f) The owner or operator of the site maintains and makes available to the department records necessary to demonstrate that the requirements of this subsection are met.

(g) The owner or operator of the site annually notifies the department that it is a temporary yard waste accumulation site.

(3) A person may compost class 1 compostable material on a farm under subsection (1)(e) if all of the following requirements are met:

(a) All the compost is used on the farm.

(b) The composting does not result in a violation of this act and is done in compliance with GAAMPS.

(c) Any of the following apply:

(*i*) Only class 1 compostable material that is generated on the farm and does not contain paper products, dead animals, or compostable products is composted.

(*ii*) There is not more than 5,000 cubic yards of class 1 compostable material on the farm at any time.

(*iii*) All of the following requirements are met:

(A) The farm operation accepts class 1 compostable material only to assist in management of waste material generated by the farm operation or to supply the nutrient needs of the farm as determined by a certified crop advisor, Michigan agriculture environmental assurance program technician, comprehensive nutrient management plan writer, licensed professional engineer, or staff of the department of agriculture and rural development who administer the Michigan right to farm act, 1981 PA 93, MCL 286.471 to 286.474.

(B) The farm operation does not accept compostable material generated at a location other than the farm for monetary or other valuable consideration.

(C) The owner or operator of the farm registers with the department of agriculture and rural development and certifies that the farm operation meets and will continue to meet the requirements of sub-subparagraphs (A) and (B).

(4) The owner or operator of a composting facility that is subject to a requirement for notification, registration, or approval under a general permit under section 11568(3) shall meet the following requirements, as applicable:

(a) Composting and management of the site occurs in a manner that meets all of the following requirements:

(*i*) Does not result in an accumulation of compostable material for a period of over 3 state fiscal years unless the site has the capacity to compost the compostable material and the owner or operator of the site can demonstrate, beginning with the third full state fiscal year after commencement of operation and each state fiscal year thereafter, unless a longer time is approved by the department, that the amount of compostable material and compost that is transferred off-site in a state fiscal year is not less than 75% by weight or volume, accounting for natural volume reduction, of the amount of compostable material and compost that was on-site at the beginning of the state fiscal year.

(*ii*) Results in finished compost with not more than 1%, by weight, of foreign matter that will remain on a 4-millimeter screen.

(*iii*) If yard waste is collected in bags other than paper bags or compostable bags meeting ASTM D6400 "Standard Specification for Compostable Plastics", by ASTM International, debags the yard waste by the end of each business day.

(*iv*) Prevents the pooling of water by maintaining proper slopes and grades.

(*v*) Operates in compliance with parts 31 and 55.

(*vi*) Does not attract or harbor rodents or other vectors.

(b) The owner or operator maintains, and makes available to the department, all of the following records:

(*i*) Records identifying the volume of compostable material accepted by the facility each month, the volume of compostable material and of compost transferred off-site each month, and the volume of compostable material on-site on October 1 each year.

(*ii*) Records demonstrating that the composting is performed in a manner that prevents nuisances and minimizes anaerobic conditions. Unless otherwise provided by the department, these records shall include carbon-to-nitrogen ratios, the amount of leaves and the amount of grass in tons or cubic yards, temperature readings, moisture content readings, and lab analysis of finished compost products.

(c) If the site is a small composting facility, the site is operated in compliance with the following location conditions:

(*i*) If the site was in operation on December 1, 2007, the management or storage of compost, compostable material, and residuals does not expand from its location on that date to an area that is within the following distance from any of the following features:

(A) 50 feet from a property line.

(B) 200 feet from a residence.

(C) 100 feet from a body of surface water, including a lake, stream, or wetland.

(*ii*) If the site begins operation after December 1, 2007, the management and storage of compost, compostable material, and residuals occur at least the following distance from each of the following features:

(A) 50 feet from a property line.

(B) 200 feet from a residence.

(C) 100 feet from a body of surface water, including a lake, stream, or wetland.

(D) 2,000 feet from a type I or type IIa water supply well.

(E) 800 feet from a type IIb or type III water supply well.

(F) 500 feet from a church or other house of worship, hospital, nursing home, licensed day care center, or school, other than a home school.

(G) 4 feet above groundwater.

(5) A local unit of government may impose location requirements that are more restrictive than those in subsection (4)(c)(*i*) and (*ii*). However, the local requirements shall not be so restrictive that a facility that meets the requirements of the siting process in the materials management plan cannot be established.

(6) A site at which compostable material is managed in compliance with this section, other than a site described in subsection (1)(i) or (j), is not a disposal area.

(7) The department shall maintain and post on its website a list of composting facilities for which notification has been given, which are registered, or which are approved under a general permit under section 11568(3). Except as provided in section 11514, a hauler shall not deliver yard waste to a site that is not on the list. A contract between a local unit of government and a hauler for curbside pick-up of yard waste or collection of yard waste from a drop-off location shall require the delivery of the yard waste to a site on the list.

History: Add. 2022, Act 249, Eff. Mar. 29, 2023.

Popular name: Act 451

Popular name: NREPA

Popular name: Solid Waste Act

324.11556 Class 1 and 2 compostable materials; composting of dead animals.

Sec. 11556. (1) A person who composts class 1 compostable material shall do so at 1 of the following:

(a) A composting facility as described in section 11555(1)(c).

(b) A small or medium class 1 composting facility that meets the requirements of section 11555(4) and where the total volume of class 1 compostable material other than yard waste is equally distributed and does not exceed 5% for a small composting facility, or 10% for a medium composting facility, of the total volume of compostable material on-site or a greater percentage if approved by the department.

(c) A composting facility described in section 11555(1)(g).

(2) Class 1 compostable material is considered to be source separated for conversion into compost if the class 1 compostable material is composted at a site that is described in and meets the requirements of section 11555(4) or section 11557(2).

(3) Composting of class 2 compostable material shall be done at a class 2 composting facility. Class 2 compostable material is considered to be source separated for conversion into compost if the class 2 compostable material is composted at a class 2 composting facility.

(4) Composting of dead animals using bulking agents as defined in section 3 of 1982 PA 239, MCL 287.653, is subject to part 115 if the composting occurs at any of the following:

(a) A farm that maintains more than 5,000 cubic yards of bulking agents from a source other than the farm.

(b) A slaughtering facility that, for composting purposes, maintains on-site more than 5,000 cubic yards of bulking agents as defined in section 3 of 1982 PA 239, MCL 287.653.

(c) A facility that manages dead animals from more than 1 farm or slaughtering facility.

324.11557 Location of composting facilities; notification requirements near airport.

Sec. 11557. (1) The location at a medium or large composting facility, or a class 1 or class 2 composting facility, where class 1 and class 2 compostable material, finished compost, and residuals were managed and stored on the effective date of the amendatory act that added this section shall not be expanded to an area that is within the following distance from any of the following features:

(a) 100 feet from a property line.

(b) 300 feet from a residence.

(c) 200 feet from a body of surface water, including a lake, stream, or wetland.

(2) If a medium or large composting facility or a class 1 or 2 composting facility begins operation after the effective date of the amendatory act that added this section, the management and storage of class 1 and class 2 compostable material, compost, and residuals shall not occur in a wetland or floodplain, or in an area that is within the following distance from any of the following features:

(a) 100 feet from a property line.

(b) 300 feet from a residence.

(c) 200 feet from a body of surface water, including a lake, stream, or wetland.

(d) 2,000 feet from a type I or type IIa water supply well.

(e) 800 feet from a type IIb or type III water supply well.

(f) 4 feet above groundwater.

(g) 500 feet from a church or other house of worship, a hospital, a nursing home, a licensed day care center, or a school, other than a home school.

(3) Not later than 90 days after the establishment of a new class 1 or class 2 composting facility or the expansion of the location at a class 1 or class 2 composting facility where compostable material, finished compost, and residuals were managed and stored on the effective date of the amendatory act that added this section, the owner or operator of the composting facility shall, if the composting facility is located within 5 miles of the end of an airport runway that is used by turbojet or piston type aircraft, notify in writing the affected airport and the Federal Aviation Administration.

324.11558 Large class 1 composting facilities; owner or operator responsibilities; separation of class 2 compostable materials.

Sec. 11558. (1) The owner or operator of a large class 1 composting facility shall submit to the department the following items:

(a) A site map.

(b) An operations plan.

(c) An odor management plan.

(d) A training plan.

(e) A fire prevention plan.

(f) A facility closure plan.

(2) The owner or operator of a large class 1 composting facility shall ensure that all of the following requirements are met:

(a) Finished compost is tested in compliance with section 11564.

(b) The compostable material is not stored in a manner constituting speculative accumulation. The owner or operator of the large composting facility shall maintain and make available to the department records to demonstrate compliance with this requirement.

(c) Composting does not result in standing water or attract or harbor rodents or other vectors.

(d) Unless approved by the department, the composting operations do not result in more than the following volume on any acre:

(*i*) 5,000 cubic yards of compostable material, finished compost, compost additives, or screening rejects or any combination thereof.

(*ii*) 10,000 cubic yards of compostable material if the site is using forced air static pile composting.

(e) The composting facility complies with wellhead protection programs.

(3) Class 2 compostable material shall be separated out from other solid waste and maintained separately until used to produce compost, unless otherwise authorized by the department.

324.11560 Annual report.

Sec. 11560. The owner or operator of a composting facility that is required to notify or register under part 115 or that is approved under a general permit shall, within 45 days after the end of each state fiscal year, report to the department all of the following information for that fiscal year:

(a) The amount of compostable material brought to the site, by county of origin.

(b) The amount of finished compost removed from the site.

(c) The amount of unfinished compostable material removed from the site.

(d) The volume of residuals removed from the site.

(e) The total amount of compostable material, compost, and residuals on-site at the end of the fiscal year.

324.11561 Characterization of finished compost; use of compost; approval by department.

Sec. 11561. (1) A person shall not use compost produced from class 2 compostable material unless the department approves the class 2 compostable material as appropriate for the use under part 115.

(2) A person shall not compost solid waste unless the person has filed a petition under R 299.4118a of the MAC and obtained approval from the department. To characterize the finished compost, the petitioner shall include all of the following information in the petition, in addition to the information required in R 299.4118a of the MAC:

(a) The type of waste and its potential for creating a nuisance or environmental contamination.

(b) The time required for compost to reach maturity, as determined by a reduction of organic matter content during composting. Organic matter content shall be determined by measuring the volatile residues content using a method that is approved by the department or EPA method 160.4, contained in "Methods for Chemical Analysis of Water and Waste", EPA-600, Revision 8, July 2014, Update V.

(c) The foreign matter content of finished compost. The foreign matter content shall be determined as follows:

(*i*) A weighed sample of the finished compost is sifted through a 4.0-millimeter screen.

(*ii*) The foreign matter remaining on the screen is separated and weighed.

(*iii*) The weight of the separated foreign matter is divided by the weight of the finished compost.

(*iv*) The quotient under subparagraph (*iii*) is multiplied by 100.

(d) Particle size, as determined by sieve analysis.

(3) The department shall approve a material for use as compostable material if the person who proposes the use demonstrates all of the following:

(a) The material has or will be converted to compost under controlled conditions at a class 2 composting facility.

(b) The material will not be a source of environmental contamination or cause a nuisance.

(c) The end user will be given written instructions on the proper use of the finished compost.

History: Add. 2022, Act 249, Eff. Mar. 29, 2023.

Popular name: Act 451

Popular name: Solid Waste Act

324.11562 Petition for classification; pilot composting project; testing parameters.

Sec. 11562. (1) A person may petition the department to do any of the following:

(a) Classify a solid waste, a class 2 compostable material, or a combination of class 1 compostable material and class 2 compostable material, as a class 1 compostable material.

(b) Classify compost produced from solid waste, class 2 compostable material, or a combination of class 1 compostable material and class 2 compostable material, as general use compost.

(2) A petition under subsection (1) shall meet the requirements of R 299.4118a of the MAC. If authorized by the department in writing, a person may conduct a pilot composting project to support a petition under subsection (1).

(3) In granting a petition under subsection (1), the department shall specify which parameters listed in section 11565 shall be tested under subsection (4). The department's decision shall be based on both of the following:

(a) The difference between the concentration of a given parameter in the compost and the criteria for that parameter described in section 11553(5)(c)(*i*).

(b) The variability of the results among the samples.

(4) If a material is classified as a class 1 compostable material by the department based on the petition under subsection (1), the operator shall test compost produced from the class 1 compostable material when both of the following apply:

(a) There is a significant change in the process that generated the compost.

(b) The change has the potential to alter the classification of the finished compost as general use compost under section 11553(5).

(5) If any finished compost produced from class 2 compostable material that has been classified as a general use compost fails to meet the requirements for a general use compost under section 11553(5), both of the following apply:

(a) The finished compost is reclassified as a restricted use compost.

(b) The owner or operator of the composting facility shall notify the department within 10 business days after receipt of information that the finished compost no longer meets the requirements to be classified as general use compost, and shall do 1 of the following with the finished compost:

(*i*) Dispose of the remaining finished compost at a properly licensed landfill.

(*ii*) Stockpile the finished compost on-site until the generator re-petitions the department and the department reclassifies the compost as provided in this section.

(*iii*) Use the finished compost for a specified use if approved for that specified use under section 11553(4).

(6) If finished compost produced by a composing facility is restricted use compost, the owner or operator of the composting facility shall do the following, as applicable:

(a) Retest the finished compost annually, or biennially if the department has determined that the test results demonstrate insignificant variability over a 2-year period, using the procedures specified in R 299.4118a of the MAC. The owner or operator shall submit the test results to the department. The department shall specify a more frequent schedule for testing if the characteristics of the material vary significantly.

(b) If the owner or operator of the composting facility receives information that test results show a significant increase in any parameter or a significant decrease in pH from previous test results, notify the department within 10 business days and do any of the following with the finished compost:

(*i*) Dispose of the finished compost at a properly licensed landfill.

(*ii*) Stockpile the finished compost on-site until the generator re-petitions the department and the department reclassifies the compost under this section.

(*iii*) Use the finished compost for a use specified by the department under section 11553(3).

324.11563 Sale of general use compost; labeling requirements; management of restricted use compost.

Sec. 11563. (1) General use compost offered for sale shall be accompanied by a label, in the case of bagged compost, or an information sheet in the case of bulk sales. The label or information sheet shall contain all of the following information:

(a) The name and generator of the compost.

(b) The feedstock and bulking agents used to produce the compost.

(c) Use instructions, including application rates and any restrictions on use.

(d) If the compost is marketed as a fertilizer, micronutrient, or soil conditioner, the label shall list the applicable parameters under section 11565 and comply with the requirements of part 85, if applicable.

(e) If the compost is marketed as a liming material, the label shall list the applicable parameters under section 11565 and shall include a statement indicating that the generator of the compost is in compliance with the applicable requirements of 1955 PA 162, MCL 290.531 to 290.538. The label shall specify the generator's liming license number.

(f) A statement indicating how the user of the compost can obtain the results of all testing, including test

parameters and concentration levels.

(2) Restricted use compost shall be managed as provided in any of the following:

(a) Disposed of at a properly licensed landfill.

(b) Stockpiled on-site until the generator petitions the department under section 11562 and the department reclassifies the compost as provided in that section.

(c) Used for a use specified by the department under section 11553(3).

(d) If offered for sale, accompanied by a label, in the case of bagged compost, or an information sheet in the case of bulk sales. The label or information sheet shall contain both of the following:

(*i*) The information required by subsection (1).

(*ii*) A statement that the compost has been approved for use by this state and further indicating how the user of the compost may obtain the results of all testing including test parameters, concentration levels, and the applicable standards.

(3) The department may impose conditions for use of restricted use compost to ensure the protection of the environment, natural resources, or the public health, safety, or welfare.

324.11564 Testing of finished compost; compliance.

Sec. 11564. (1) The following sites shall test their finished compost in compliance with the US Composting Council's Seal of Testing Assurance, unless the department has approved an alternate procedure:

(a) Class 1 composting facilities that produce over 2,000 cubic yards of finished compost per year. The finished compost shall be analyzed for the parameters listed in section 11565.

(b) Class 2 composting facilities. The finished compost shall be analyzed for the parameters listed in section 11565 and, if the compost is produced from class 2 compostable material, other parameters identified in the facility's general permit.

(2) All sites not listed in subsection (1) shall test at least 1 sample of finished compost per 4,000 cubic yards or 2,000 tons per year for the parameters listed in section 11565, unless the department has approved an alternate procedure.

324.11567 Creation of soil-like product; blending requirements; gypsum drywall.

Sec. 11567. (1) A person may blend low-hazard industrial waste or compost additives with general use compost or compost produced from yard waste to create a soil-like product if all of the following conditions are met, as applicable:

(a) The blending occurs at a class 1 or class 2 composting facility.

(b) The mixture meets the requirements of section 11553(5) or other requirements approved by the department.

(c) If the blending is with general use compost, the blending occurs within 30 days after the low-hazard industrial waste or compost additives are collected at the class 1 or class 2 composting facility.

(2) Gypsum drywall may be added to finished compost if the gypsum drywall constitutes less than 50% of the compost by weight and is less than 1/4 inch in diameter.

Popular name: Solid Waste Act

324.11568 Materials utilization facility; reporting and compliance requirements; anaerobic digester; application; approval; fees.

Sec. 11568. (1) The operator of a materials utilization facility shall comply with all of the following:

(a) The operator shall operate the facility in a manner that does not create a nuisance or a hazard to the environment, natural resources, or the public health, safety, or welfare and shall keep the facility clean and free of litter.

(b) The operator shall comply with this act, including parts 31 and 55, and not create a facility as defined in section 20101.

(c) Unless exempted, the operator shall record the types and quantities in tons, or cubic yards for composting facilities, of material collected, the period of storage, the planning area of origin of the material, and where the material is transferred, processed, recycled, or disposed. The operator shall report to the department this information for each state fiscal year within 45 days after the end of the state fiscal year.

(d) On an annual basis, the weight of solid waste residuals shall be less than 15% of the total weight of material received unless the requirements of subdivision (b) of the definition of materials recovery facility in section 11504 are met.

(e) The facility shall be operated by personnel who are knowledgeable about the safe management of the types of material that are accepted and utilized.

(f) The operator shall limit access to the facility to a time when a responsible individual is on duty.

(g) The operator shall not store material overnight at the facility except in a secure location and with adequate containment to prevent any release of material.

(h) Within 1 year after material is collected by the facility, the material shall be transported from the facility for use in production of ultimate end use products or disposal. This subdivision does not apply to a composting facility.

(i) The material shall be protected, as appropriate for the type of material, from weather, fire, physical damage, and vandalism.

(j) Operations shall not attract or harbor rodents or other vectors.

(k) If salvaging is permitted, salvaged material shall be removed from the site at the end of each business day or salvaging shall be confined to a storage area that is approved by the department.

(*l*) Handling and processing equipment that is of adequate size, quantity, and operating condition shall be available as needed to ensure proper management of the facility. If the handling or processing equipment is inoperable for more than 72 hours, an alternative method that is approved by the department shall be used to manage the material.

(m) Solid waste shall not be burned at the facility.

(2) The operator of a materials recovery facility, including an electronic waste processor not required to report under part 173, shall comply with both of the following:

(a) Beginning 1 year after the effective date of the amendatory act that added this section, a person shall not operate a materials recovery facility that sorts, bales, or processes more than 100 tons of material per year and does not have more than 100 tons of managed material on-site at any time unless the owner or operator has registered the materials recovery facility with the department. The application for registration shall be accompanied by a fee of $750.00. The term of the registration is 5 years.

(b) Beginning 2 years after the effective date of the amendatory act that added this section, a person shall not operate a materials recovery facility that has more than 100 tons of managed material on-site at any time unless the owner or operator has obtained approval of the materials recovery facility under a general permit, subject to subsections (6) to (9).

(3) The operator of a composting facility shall comply with all of the following:

(a) Beginning 1 year after the effective date of the amendatory act that added this section, a person shall not operate a small class 1 composting facility unless the owner or operator has notified the department. Notification shall be given upon initial operation and, subsequently, within 45 days after the end of each state fiscal year. The subsequent notices shall report the amount of compostable material managed at the facility during the state fiscal year.

(b) Beginning 1 year after the effective date of the amendatory act that added this section, a person shall not operate a medium class 1 composting facility unless the owner or operator has registered with the department. The application for registration shall be accompanied by a fee of $750.00. The term of the registration is 5 years.

(c) Beginning 2 years after the effective date of the amendatory act that added this section, a person shall not operate a class 2 composting facility or a large class 1 composting facility unless approved by the department under a general permit, subject to subsections (6) to (9).

(4) The operator of an anaerobic digester shall comply with all of the following:

(a) Beginning 1 year after the effective date of the amendatory act that added this section, a person shall not operate an anaerobic digester if the anaerobic digester manages source separated material generated on-site and if not more than 20% of the material managed is generated off-site unless the owner or operator has notified the department. Notification shall be given upon initial operation and, subsequently, within 45 days after the end of each state fiscal year. The subsequent notices shall report the amount of material managed at the anaerobic digester during the state fiscal year.

(b) Beginning 1 year after the effective date of the amendatory act that added this section, a person shall not operate an anaerobic digester if the anaerobic digester manages source separated material generated on-site and if more than 20% of the material managed is generated off-site unless the owner or operator has registered the anaerobic digester with the department. The application for registration shall be accompanied by a fee of $750.00. The term of the registration is 5 years.

(c) Beginning 2 years after the effective date of the amendatory act that added this section, a person shall not operate an anaerobic digester that manages only source separated material, manures, bedding, or crop residuals that are generated off-site unless approved by the department under a general permit, subject to subsections (6) to (9).

(d) Liquid digestate that is generated by the anaerobic digester shall be managed by 1 or more of the following:

(*i*) On-site treatment and discharge by a facility that is permitted under part 31 or is otherwise approved by the department.

(*ii*) Discharge, by sewer or pipeline, to an off-site publicly owned treatment works or other facility that is permitted under part 31 or is otherwise approved by the department.

(*iii*) Discharge, by pumping and hauling, to an off-site publicly owned treatment works or other facility that is permitted under part 31 or is otherwise approved by the department.

(*iv*) Covered storage, as approved by the department, on-site for not less than 180 days followed by land application under R 299.4111 of the MAC.

(5) Beginning 2 years after the effective date of the amendatory act that added this section, a person shall not operate an innovative technology facility unless approved by the department under a general permit, subject to subsections (6) to (9).

(6) If the owner or operator of a materials utilization facility in operation on the effective date of the amendatory act that added this section is required to obtain approval under a general permit and submits a complete application for approval by the deadline for obtaining approval, the owner or operator is considered to be in compliance with the approval requirement pending the department's approval or denial of the

application.

(7) An application for approval under a general permit under this section shall be accompanied by a fee of $1,000.00. The department shall approve or deny the application within 90 days after receiving a complete application. If the application is denied, within 6 months after the denial, the applicant may resubmit the application together with additional information or corrections necessary to address the reason for denial, without paying an additional application fee.

(8) The term of approval under a general permit under this section is 5 years, except that the term of approval under an innovative technology general permit is 2 years.

(9) An approval under a general permit under this section may be renewed upon the submittal of a timely and sufficient application. To be considered timely and sufficient for purposes of section 91 of the administrative procedures act of 1969, 1969 PA 306, MCL 24.291, an application for renewal of a general permit approval shall meet both of the following requirements:

(a) Contain the information as required by the applicable general permit application.

(b) Be received by the department not later than 90 days before the expiration of the preceding authorization.

(10) Fees collected under this subpart shall be deposited in the perpetual care account established under section 11550.

324.11569 Materials utilization facilities; site map and operations plan; final closure plan; notification requirements.

Sec. 11569. (1) With a registration or an application for approval under a general permit required under section 11568, the owner or operator of a materials utilization facility shall submit a site map and operations plan for the materials utilization facility. With an application for approval under a general permit, the owner or operator shall submit a final closure plan. Pending registration or authorization under a general permit of a materials utilization facility in operation on the effective date of the amendatory act that added this section, the department shall review the operating requirements for the facility. If the department determines upon review that the operating requirements do not comply with part 115, the department shall issue a schedule of remedial measures that will lead to compliance within a reasonable period of time not to exceed 1 year from the determination of noncompliance.

(2) If an increase in the volume or change in the type of material managed by a materials utilization facility triggers a requirement for notification, registration, or approval under a general permit, the owner or operator of the facility shall submit the notification, complete application for registration, or complete application for approval under a general permit within 90 days.

SUBPART 11
MATERIALS MANAGEMENT PLANS

324.11571 Approved materials management plan (MMP); county approval; notification of intent; requirements; time period; county approval agency (CAA); duties; electronic mail.

Sec. 11571. (1) The department shall ensure that each county has an approved materials management plan. The approved solid waste management plan in effect on the effective date of the amendatory act that added this section remains in effect until a materials management plan has been approved for the planning area under this subpart. Before a materials management plan is approved for a county pursuant to section 11575, a solid waste management plan may be amended pursuant to the procedures that applied under section 11533 and former sections 11534 to 11537a immediately before the effective date of the amendatory act that added this section.

(2) The planning area of a single MMP may include 2 or more counties if the county boards of commissioners of those counties agree to the joint exercise of the powers and performance of the duties under this subpart of the county boards of commissioners and of the county approval agencies. In addition, if the

department is responsible for preparing the MMP for 2 or more counties under section 11575, the department may include those counties in the planning area of a single MMP and may exercise its powers and perform its duties under this subpart for those counties jointly.

(3) Multicounty MMPs are subject to the same procedure for approval as single-county MMPs, and each county board of commissioners shall take formal action on a multicounty MMP as appropriate. A multicounty MMP shall include a process to ensure that the requirements of section 11578 are met.

(4) All of the municipalities of a county shall be included in the planning area of a single MMP. However, a municipality located in 2 counties that are not in the same planning area may request that the entire municipality be included in the planning area for 1 of those counties and excluded from the planning area of the other county. A municipality that is adjacent to a county boundary may request that it be included in the planning area of the MMP for the adjacent county. A request under this subsection shall be submitted to and is subject to the approval of the county board of commissioners of each of the affected counties.

(5) Within 180 days after the effective date of the amendatory act that added this section, the department shall, in writing, request the county board of commissioners of each county to submit to the department a notice of intent to prepare an MMP. Within 180 days after the request is delivered, the county board of commissioners shall submit the notice of intent. If the county board of commissioners declines to prepare an MMP, all of the following apply:

(a) The county board of commissioners shall notify the municipalities in the county and the regional planning agency for the county of its decision.

(b) All the municipalities in the county, acting jointly, or the regional planning agency may, within the remaining balance of the 180-day time period applicable to the county board of commissioners, submit to the department a notice of intent to prepare an MMP.

(c) Upon request of the municipalities or regional planning agency, the department may extend the deadline under subdivision (b) to allow the municipalities and regional planning agency an opportunity to determine which will submit the notice of intent.

(6) If a notice of intent is not submitted to the department by the applicable deadline under subsection (5), the department may prepare an MMP for the county, subject to section 11575(11).

(7) A notice of intent under subsection (5) shall meet the following requirements, as applicable:

(a) State that the county board of commissioners, all the municipalities in the county, acting jointly, or the regional planning agency for the county, whichever submits the notice of intent, will prepare an MMP and will be the county approval agency.

(b) For a county with a population of less than 250,000, be accompanied by both of the following:

(*i*) Documentation that the county approval agency consulted with each adjacent county regarding the option of preparing a multicounty MMP pursuant to the urban cooperation act of 1967, 1967 (Ex Sess) PA 7, MCL 124.501 to 124.512.

(*ii*) Documentation of the outcome of the consultations, including a copy of any interlocal agreement identifying the process for creating a multicounty MMP.

(c) For a county with a population of 250,000 or more, be accompanied by both of the following:

(*i*) Documentation that the county approval agency submitted to the county board of commissioners of each adjacent county a request to respond within 30 days indicating the adjacent county's interest in the option of preparing a multicounty MMP pursuant to the urban cooperation act of 1967, 1967 (Ex Sess) PA 7, MCL 124.501 to 124.512.

(*ii*) Documentation of the outcome of the request, including a copy of any interlocal agreement identifying the process for creating a multicounty MMP.

(8) The submittal of a notice of intent under subsection (5) commences the running of a 3-year deadline for municipal approval of the MMP and submission of the MMP to the department under section 11575.

(9) Not more than 30 days after the submission of a notice of intent to the department under subsection (5), the CAA shall do all of the following:

(a) Submit a copy of the notice of intent to the legislative body of each municipality located within the planning area.

(b) Publish the notice of intent in a newspaper or by electronic media having major circulation or viewership in the planning area.

(c) Request publication of the notice of intent on websites of local units of government in the planning area and other multimedia outlets as appropriate.

(10) The CAA shall also do all of the following:

(a) Within 120 days after submitting the notice of intent, designate a planning agency and an individual within the DPA who shall serve as the DPA's contact person for the purposes of this subpart.

(b) Appoint a planning committee under section 11572.

(c) Oversee the creation and implementation of the DPA's work program under section 11587(4).

(d) Upon request of the department, submit a report on progress in the preparation of the MMP.

(11) All submittals and notices under this section and sections 11572 to 11576 shall be in writing. A written notice may be given by electronic mail if the recipient has indicated that the recipient will receive notice by electronic mail and has specified the electronic mail address to which the notice is to be sent.

324.11572 Planning committee; membership; terms.

Sec. 11572. (1) Within 180 days after the CAA submits a notice of intent to the department under section 11571, the CAA shall appoint a planning committee. The planning committee is a permanent body. Initial planning committee members shall be appointed for 5-year terms. Their immediate successors shall be appointed for 2-, 3-, 4-, or 5-year terms such that, as nearly as possible, the same number are appointed for each term length. Subsequently, members shall be appointed for terms of 5 years. A member may be reappointed.

(2) If a vacancy occurs on the planning committee, the CAA shall make an appointment for the unexpired term in the same manner as the original appointment. The CAA may remove a member of the planning committee for incompetence, dereliction of duty, or malfeasance, misfeasance, or nonfeasance in office.

(3) The first meeting of the planning committee shall be called by the designated planning agency. At the first meeting, the planning committee shall elect from among its members a chairperson and other officers as it considers necessary or appropriate. A majority of the members of the planning committee constitute a quorum for the transaction of business at a meeting of the planning committee. For the purposes of determining the quorum, the number of members of the planning committee is the number as established under subsection (4), excluding any unfilled vacancies created in the past 90 days. The affirmative vote of a majority of the number of members of the planning committee as established under subsection (4) is required for official action of the planning committee. A planning committee shall adopt procedures for the conduct of its business.

(4) A planning committee shall consist of the following members:

(a) A representative of a solid waste disposal facility operator that provides service in the planning area.

(b) A representative of a hauler that provides service in the planning area.

(c) A representative of a materials recovery facility operator that provides service in the planning area.

(d) A representative of a composting facility or anaerobic digester operator that provides service in the planning area.

(e) A representative of a waste diversion, reuse, or reduction facility operator that provides service in the planning area.

(f) A representative of an environmental interest group that has members residing in the planning area.

(g) An elected official of the county.

(h) An elected official of a township in the planning area.

(i) An elected official of a city or village in the planning area.

(j) A representative of a business that generates a managed material in the planning area.

(k) A representative of the regional planning agency whose territory includes the planning area.

(*l*) Any additional members appointed under subsections (5) or (6) or section 11578(3), as applicable.

(5) The CAA may appoint to the planning committee as an additional regular member 1 representative that does business in or resides in an adjacent municipality outside the planning area.

(6) CAAs preparing a multicounty MMP under section 11571 shall appoint a single planning committee. For each county, both of the following additional members may be appointed to the planning committee:

(a) An elected official of the county or a municipality in the planning area.

(b) A representative from a business that generates managed materials within the planning area.

(7) If the CAA has difficulty finding qualified individuals to serve on the planning committee, the department may approve a reduction in the number of members of the planning committee. However, at a minimum, the planning committee shall include all of the following members:

(a) A representative of the solid waste disposal industry that provides service in the planning area.

(b) A representative of a materials utilization facility that provides service in the planning area.

(c) Two individuals, each of whom is either a member of an environmental interest group who resides in the planning area or a representative of the regional planning agency.

(d) An elected official of the county.
(e) An elected official of a township in the planning area.
(f) An elected official of a city or village in the planning area.

324.11573 Planning committee; responsibilities.

Sec. 11573. In addition to its other responsibilities under part 115, the planning committee shall do all of the following:

(a) Direct the DPA in the preparation of the MMP.
(b) Review and approve the DPA's work program under section 11587(4).
(c) Identify relevant local materials management policies and priorities.
(d) Ensure coordination in the preparation of the MMP.
(e) Advise counties and municipalities with respect to the MMP.
(f) Ensure that the DPA is fulfilling the requirements of part 115 as to both the content of the MMP and public participation. The planning committee shall notify the DPA of any deficiencies. If the deficiencies are not addressed by the DPA to the planning committee's satisfaction, the planning committee shall notify the CAA. If the deficiencies are not addressed by the CAA to the planning committee's satisfaction, the planning committee shall notify the department. The department shall address the deficiencies and may prepare the MMP under section 11575(11).

Popular name: Solid Waste Act

324.11574 Designated planning agency (DPA); responsibilities; copies; revisions; formal action.

Sec. 11574. (1) In addition to its other responsibilities under part 115, a DPA shall do all of the following:

(a) Serve as the primary government resource in the planning area for information about the MMP and the MMP development process.
(b) Under the direction of the planning committee, prepare an MMP.
(c) During the preparation of an MMP, solicit the advice of and consult with all of the following:
(*i*) Periodically, the municipalities, appropriate organizations, and the private sector, including materials management facility operators, in the planning area.
(*ii*) The appropriate county or regional planning agency.
(*iii*) Counties adjacent to the planning area and municipalities in those counties.
(d) Not less than 10 days before each public meeting at which the DPA will discuss the MMP, give notice of the meeting to the chief elected official of each municipality within the planning area and any other person within the planning area that requests notice. The notice shall indicate as precisely as possible the subject matter being discussed.
(e) Obtain written approval of the MMP from the planning committee.
(f) Submit a copy of the MMP as approved by the planning committee to all of the following with a notice specifying the end of the public comment period under subdivision (h):
(*i*) The department.
(*ii*) The legislative body of each municipality within the planning area.
(*iii*) The legislative body of each county or municipality adjacent to the planning area that has requested the opportunity to review the MMP.
(*iv*) The regional planning agency for each county included in the planning area.
(g) Publish a notice in a newspaper or by electronic media having major circulation or viewership in the planning area. The notice shall indicate a location where copies of the proposed MMP are available for public inspection or copying at cost, specify the end of the public comment period under subdivision (h), and solicit public comment. Notice posted in electronic media shall remain posted until the end of the public comment period.
(h) Receive public comments on the MMP for not less than 60 days after the publication of the notice under subdivision (g).

(i) During the public comment period under subdivision (h), conduct a public hearing on the MMP. Not less than 30 days before the hearing, the planning committee shall publish a notice of the hearing in a newspaper or by electronic media having major circulation or viewership in the planning area. Notice posted in electronic media shall remain posted until the end of the public hearing. The notice shall indicate a location where copies of the proposed MMP are available for public inspection or copying at cost and shall indicate the time and place of the public hearing. The same notice may be used to satisfy the requirements of this subdivision and subdivision (g). The planning committee shall submit to the department proof of publication of notice under this subdivision and subdivision (g).

(j) Submit to the planning committee a summary of the comments received during the public comment period.

(2) The DPA, or the department if the department prepares an MMP, shall use a standard format in preparing the MMP. The department shall prepare the standard format and provide a copy of the standard format to each DPA that the department knows will prepare an MMP. The department shall provide the standard format to any other person upon request.

(3) The planning committee shall consider the comment summary received from the DPA under subsection (1)(j) and may direct the DPA to revise the MMP. The DPA shall revise the MMP as directed by the planning committee. Not more than 30 days after the end of the public comment period, the DPA shall submit the proposed MMP, as revised, if applicable, to the planning committee.

(4) Not more than 30 days after the MMP is submitted to the planning committee under subsection (3), the planning committee shall take formal action on the MMP and, if the planning committee approves the MMP in compliance with section 11572(3), the DPA shall submit the MMP to the CAA.

History: Add. 2022, Act 250, Eff. Mar. 29, 2023.

Popular name: Act 451

Popular name: NREPA

Popular name: Solid Waste Act

324.11575 Approval or rejection of materials management plan; deadline and extension; implementation of final plan.

Sec. 11575. (1) Not more than 60 days after the MMP is submitted to the CAA under section 11574(4), the CAA shall approve or reject the MMP and notify the planning committee. A notice that the CAA rejects the MMP shall state the specific reasons for the rejection.

(2) Not more than 30 days after notice of the rejection of the MMP is sent under subsection (1), the planning committee may revise the MMP and submit the revised MMP to the CAA. After a revised MMP is timely submitted to the CAA under this subsection or the 30-day period expires and a revised MMP is not submitted, the CAA shall approve or reject the revised MMP or original MMP, respectively, and notify the planning committee.

(3) If the CAA rejects the MMP under subsection (2), the CAA shall prepare and approve an MMP, subject to the continued running of the 3-year period under section 11571(8).

(4) Not more than 10 business days after the CAA approves an MMP under subsection (1), (2), or (3), the DPA shall submit a copy of the MMP to the legislative body of each municipality located within the planning area.

(5) Not more than 120 days after the MMP is submitted to the legislative body of a municipality, the legislative body may approve or reject the MMP. The legislative body shall notify the DPA of an approval or rejection.

(6) Within 30 days after the deadline for municipal notification to the DPA under subsection (5), the DPA shall notify the department which municipalities timely approved the MMP, which timely rejected the MMP, and which did not timely notify the DPA of approval or rejection. The notice shall be accompanied by a copy of the MMP. If the MMP is not approved by at least 2/3 of the municipalities that timely notify the DPA of their approval or rejection under subsection (5), then the department shall proceed under subsection (7) or (9). If the MMP is approved by at least 2/3 of the municipalities that timely notify the DPA of their approval or rejection under subsection (5), then subsection (9) applies.

(7) The department may approve an extension of a deadline under subsections (2) to (6) if the extension is requested by the entity subject to the deadline within a reasonable time after the issues giving rise to the need for an extension arise.

(8) If the MMP is neither approved nor rejected by a deadline established in this subpart, subject to any extension under subsection (7), the MMP is considered automatically approved at that step in the approval process, and the approval process shall continue at the next step. This subsection does not apply to failure of

an individual municipality to approve or disapprove the MMP under subsection (5).

(9) Within 180 days after the MMP is submitted to the department under subsection (6), the department shall approve or reject the MMP. The department shall approve the MMP if the MMP complies with part 115. If the department approves the MMP, the MMP is final. If the department rejects the MMP, subsection (11) applies.

(10) Before approving or rejecting an MMP under subsection (9), the department may return the MMP to the CAA with a written request for modifications necessary for approval under subsection (9) or to clarify the MMP. If the department returns the MMP for modifications, the running of the 180-day period under subsection (9) is tolled for 90 days or until the CAA responds to the department's request, whichever occurs first. If the CAA does not approve the modifications requested by the department, subsection (11) applies.

(11) Subject to subsection (9), if a CAA does not prepare an MMP or the MMP does not timely obtain an approval required by part 115, the department may prepare and approve an MMP for the county. An MMP prepared and approved by the department is final. Once the MMP is final, the county shall implement the MMP.

Popular name: Solid Waste Act

324.11576 Amending a materials management plan; procedures; permissible changes without amendment.

Sec. 11576. (1) Amendments to an MMP shall be made only as provided in subsection (2), (3), or (4).

(2) The department shall initiate the adoption of 1 or more amendments to MMPs if the department determines that the guidance provided by legislation, by this state's solid waste policy, or by reports and initiatives of the department has significantly changed the required contents of MMPs. The procedure for adopting an amendment to the MMP under this subsection is the same as the procedure for adoption of an initial MMP.

(3) The CAA may initiate 1 or more amendments to an MMP by filing a notice of intent with the department. Except as provided in subsection (4), the procedure for adopting an amendment to the MMP under this subsection is the same as the procedure for adoption of an initial MMP except as follows:

(a) The county submits a notice of intent on its own initiative rather than in response to a request from the department under section 11571.

(b) If the CAA rejects a revised amendment under section 11575(2), the amendment process terminates.

(c) Section 11575(11) does not apply. Instead, if any required approval is not timely granted, the amendment process terminates and the amendments are not adopted.

(4) If, after a notice of intent is filed under subsection (3), the department determines that the amendment will increase materials utilization or the recovery of managed material and complies with part 115, the department may authorize the CAA to amend the MMP. To amend the MMP, the CAA shall do all of the following:

(a) Submit a copy of the amendment to all of the following with a notice specifying the end of the public comment period under subdivision (c):

(*i*) The department.

(*ii*) The legislative body of each municipality within the planning area.

(*iii*) The legislative body of each county or municipality adjacent to the planning area that requested the opportunity to review the MMP under section 11574(1)(f).

(*iv*) The regional planning agency for each county included in the planning area.

(b) Publish a notice in a newspaper or by electronic media having major circulation or viewership in the planning area. The notice shall indicate a location where copies of the amendment are available for public inspection or copying at cost, specify the end of the public comment period under subdivision (c), and solicit public comment. Notice posted in electronic media shall remain posted until the end of the public comment period.

(c) Receive public comments on the amendment for not less than 30 days after the publication of the notice under subdivision (b).

(d) If timely requested, conduct a public meeting on the amendment during the public comment period under subdivision (c). Not less than 15 days before the public meeting, the planning committee shall publish a notice of the meeting in a newspaper or by electronic media having major circulation or viewership in the planning area. Notice posted in electronic media shall remain posted until the end of the public meeting. The

notice shall indicate a location where copies of the proposed amendment are available for public inspection or copying at cost and shall indicate the time and place of the public meeting. The same notice may be used to satisfy the requirements of this subdivision and subdivision (b). The planning committee shall submit to the department proof of notice publication under this subdivision and subdivision (b).

(e) Prepare and consider a summary of the comments received during the public comment period. The CAA may revise the amendment in response to the public comments.

(f) Submit the amendment to the department in writing. The department shall provide the CAA with written approval of the submitted amendment.

(5) A county shall keep its MMP current. The following changes do not require an amendment if made in a supplement to the MMP provided for by the department under section 11574(2) for the purpose of changes not requiring an amendment:

(a) Transportation infrastructure.

(b) Population density.

(c) Materials management facility inventory.

(d) Local ordinances, to the extent that the ordinances regulate noise, litter, odor, dust, and other site nuisances at a materials management facility, in addition to landscaping, screening, other ancillary construction details, and hours of operation at a materials utilization facility; do not regulate the development or other operational aspects of a materials management facility or the location of a disposal area; and are not more stringent than the requirements of part 115.

(6) Changes made without amendment under subsection (5) shall be incorporated in the next amendment made under subsection (2) or (3).

(7) By every fifth anniversary date of the approval of the initial MMP, the CAA shall do both of the following:

(a) Obtain from the planning committee an MMP review. The CAA shall timely direct the planning committee to prepare and submit the review. The purpose of the review is to ensure that the MMP complies with part 115 and to evaluate the progress that has been made in meeting the MMP's materials management goals, including the benchmark recycling standards.

(b) After considering the MMP review under subdivision (a), submit to the department 1 of the following, as appropriate:

(*i*) A notice of intent to prepare an MMP amendment.

(*ii*) A statement indicating that an amendment is not needed to advance the materials management goals.

(8) The department may review an MMP periodically and determine if any amendments are necessary to comply with part 115. If the department determines that an amendment to a specific MMP is necessary, all of the following apply:

(a) The department, after notice and opportunity for a public hearing held pursuant to the administrative procedures act of 1969, 1969 PA 306, MCL 24.201 to 24.328, may withdraw approval of the MMP or the noncompliant portion of the MMP.

(b) The department shall establish a schedule for compliance with part 115.

(c) If the planning area does not amend its MMP within the schedule established under subdivision (b), the department shall amend the MMP to address the deficiencies.

324.11577 Materials management plan goals.

Sec. 11577. The goals of an MMP are all of the following:

(a) To prevent adverse effects on the environment, natural resources, or the public health, safety, or welfare resulting from improper collection, processing, recovery, or disposal of managed materials, including protection of surface water and groundwater, air, and land.

(b) To ensure managed materials are sustainably managed to achieve benefits to the economy, communities, and the environment.

(c) To ensure that all managed material generated in the planning area is collected and recovered, processed, or disposed at materials management facilities that comply with state statutes and rules or managed appropriately at out-of-state facilities.

History: Add. 2022, Act 250, Eff. Mar. 29, 2023.

Popular name: Act 451

Popular name: NREPA

Popular name: Solid Waste Act

324.11578 Materials management plan requirements.

Sec. 11578. (1) An MMP shall meet all of the following requirements:

(a) Include measurable, objective, and specific goals for the planning area for solid waste diversion from disposal areas, including, but not limited to, the municipal solid waste recycling rate goal under section 11507, the benchmark recycling standards, and the material utilization and reduction activities identified by the MMP.

(b) Include an implementation strategy for the county to demonstrate progress toward or meet the materials management goals by the time of the 5-year MMP review under section 11576(7). The implementation strategy shall include, but is not limited to, all of the following:

(*i*) How progress will be made to reduce the amount of organic material being disposed of, through food waste reduction, composting, and anaerobic digestion.

(*ii*) How progress will be made to reduce the amount of recyclable materials being disposed of, through increased recycling, including expanding convenient access and recycling at single and multifamily dwellings, businesses, and institutions.

(*iii*) A process whereby each of a planning area's materials utilization facilities are evaluated based on information contained in reports submitted to the department on an annual basis.

(*iv*) A description of the resources needed for meeting the materials management goals and how the development of necessary materials utilization facilities and activities will be promoted.

(*v*) A description of how the benchmark recycling standards will be met.

(*vi*) A timetable for implementation.

(c) Identify by type and tonnage all managed material generated in the planning area, to determine the planning area's managed material capacity need and all managed material that is included in the planning area's materials management goals. Amounts of material may be estimated using a formula provided by the department.

(d) Require that a proposed materials management facility meet the requirements of part 115 and be consistent with the materials management goals.

(e) To the extent practicable, identify and evaluate current and planned materials management infrastructure and systems that contribute or will contribute to meeting the goal under section 11577(c) and other options to meet that goal.

(f) Include an inventory of the names and addresses of all of the following, subject to subdivision (g):

(*i*) Existing disposal areas.

(*ii*) Materials utilization facilities that meet both of the following requirements:

(A) Are in operation on the effective date of the amendatory act that added this section.

(B) On the effective date of the amendatory act that added this section, comply with part 115 or, within 1 year after that date, are in the process of becoming compliant.

(*iii*) Waste diversion centers for which notification has been given to the department under section 11521b.

(g) Include a materials management facility in the inventory under subdivision (f) only if the owner or operator of the facility has submitted to the county a written acknowledgment indicating that the owner or operator is aware of the proposed inclusion of the facility in the MMP relative to the materials capacity needs identified in subdivision (c) and that the facility has the indicated capacity to manage the materials identified under subdivision (h). The MMP shall include a statement that the owner or operator of each facility listed in the MMP has submitted such an acknowledgment to the county. If the submitted acknowledgments do not document sufficient capacity for disposal or utilization of the identified managed materials to reach the MMP's materials management capacity requirements, including the materials management goals, the MMP shall identify specific strategies, including a schedule and approach to develop and fund capacity.

(h) Describe the facilities inventoried pursuant to subdivision (f), including a summary of the deficiencies, if any, of the facilities in meeting current materials management needs. The description shall, at a minimum, include all of the following information:

(*i*) The facility latitude and longitude.

(*ii*) The estimated facility acreage.

(*iii*) A description of the materials managed.

(*iv*) The processes for handling materials at the facility.

(*v*) The total authorized capacity of the facility.

(i) Ensure that the materials management facilities that are identified as necessary to be sited can be developed in compliance with state law pertaining to protection of the public health and the environment,

considering the available land in the planning area and the technical feasibility of, and economic costs associated with, the facilities.

(j) Include an enforceable mechanism to meet the goal of section 11577(c) and otherwise implement the MMP, and identify the party responsible to ensure compliance with part 115. The MMP may contain a mechanism for the county and municipalities in the planning area to assist the department and the department of state police in conducting the inspection program established in section 11526(2) and (3). This subdivision does not preclude the private sector's participation in providing materials management services consistent with the MMP for the planning area.

(k) Calculate the municipal solid waste recycling rate for the planning area.

(*l*) Describe the materials management transportation infrastructure.

(m) Include current and projected population densities and identify population centers and centers of managed material generation in the planning area, using a formula provided by the department, to demonstrate that the capacity required for managed material is met.

(n) Describe the mechanisms by which municipalities in the planning area will ensure convenient recycling access, such as 1 or more of the following:

(*i*) Assignment of the responsibility to the county or an authority.

(*ii*) A franchise agreement.

(*iii*) An intergovernmental agreement.

(*iv*) Municipal service.

(*v*) Licensing under an ordinance.

(*vi*) A public-private partnership.

(o) Specify a recommended minimum level of recycling service that incorporates the access requirements of the benchmark recycling standards. The county or a municipality within the planning area may, through an appropriate enforceable mechanism, require haulers operating in its jurisdiction to provide the recommended level or a different minimum level of recycling service.

(p) Identify the DPA and the entity or entities responsible for each of the following and document the appropriateness of the DPA and other identified entities to carry out their respective responsibilities:

(*i*) Implementing the access requirements of the benchmark recycling standards.

(*ii*) Identifying the materials utilization framework and the achievement of the materials management goals.

(*iii*) Otherwise monitoring, implementing, and enforcing the MMP and providing any required reports to the department.

(*iv*) Administering the funding mechanisms identified in section 11581 that will be used to implement the MMP.

(*v*) Ensuring compliance with part 115.

This state may serve as a responsible party under this subdivision on behalf of a municipality if the municipality is under a financial consent order or in receivership.

(q) With respect to education and outreach for residents and businesses in the planning area, do both of the following:

(*i*) Provide a strategic plan that identifies roles, responsibilities, funding sources, and methods for persons providing the education and outreach services.

(*ii*) Describe the county or regional role in providing continuing recycling education. The recycling education shall include, but is not limited to, providing a recycling guide, in hard copy at select public locations and electronically on a cell phone-friendly website. The recycling guide shall do all of the following:

(A) Identify recycling locations.

(B) Identify recyclable materials.

(C) Explain how to prepare recyclable materials for collection.

(D) Describe other best practices.

(E) Include a listed telephone number for additional information.

(r) Include a siting process under section 11579 and a copy of any ordinance, law, rule, or regulation of a municipality, county, or governmental authority within the planning area that applies to the siting process.

(s) Take into consideration the MMPs of counties adjacent to the planning area as they relate to the planning area's needs.

(t) Document all opportunities for participation and involvement of the public, all affected agencies and parties, and the private sector in the preparation of the MMP.

(2) An MMP may include management plans for debris from environmental damage, for debris from disasters, or for other materials, such as construction or demolition waste, not otherwise required to be

covered by an MMP. A management plan for debris from disasters in an MMP may include recommendations for incorporation of disaster debris management plans into municipal, county, or regional emergency management plans.

(3) If a solid waste landfill is proposed to be developed in the planning area within 2 miles of a municipality that is located adjacent to the planning area, or if a solid waste processing and transfer facility or materials utilization facility is proposed to be developed in the planning area within 1 mile of such a municipality, both of the following apply:

(a) The CAA shall notify the legislative body of the adjacent municipality of the proposed development in writing. The notice shall include a copy of this subsection.

(b) The planning committee shall provide the adjacent municipality an opportunity to comment on the proposed development.

324.11579 Materials management plan; siting process; exception.

Sec. 11579. (1) An MMP shall include a siting process with a set of minimum criteria for the purposes of section 11585(3).

(2) A materials utilization facility need not be sited if the CAA or DPA demonstrates to the department that the planning area has available capacity sufficient to address the managed materials identified by the MMP as being generated in the planning area.

(3) The siting process shall not include siting criteria that are more restrictive than state law if a materials utilization facility could not be developed anywhere in the planning area under those criteria.

324.11580 Preparation of materials management plan by the department; requirements.

Sec. 11580. (1) In addition to the other requirements of part 115, if the county board of commissioners, municipalities, and regional planning agency do not timely submit a notice of intent to prepare an MMP and the department prepares an MMP as authorized under section 11571, the MMP prepared by the department shall comply with all of the following:

(a) Automatically find all materials utilization facilities or solid waste processing and transfer facilities that are exempt from permit and license requirements, that comply with local zoning requirements, and that are identified in the MMP to be consistent with the MMP.

(b) Not allow approval of additional solid waste landfill disposal capacity unless the county board of commissioners has made the demonstration required under section 11509(9).

(c) Require all haulers serving the planning area to provide recycling access consistent with the access requirements of the benchmark recycling standards.

(2) If the department prepares an MMP, the MMP need not contain a requirement for a proposed materials management facility to meet additional siting criteria or obtain host community approval under section 11585(3)(c).

324.11581 Implementation of materials management plan; funding mechanisms.

Sec. 11581. (1) In addition to the materials management planning grants under section 11587, a municipality or county may fund the implementation of an MMP through any of the following methods, if applicable and to the extent authorized by the mechanism:

(a) A millage under 1917 PA 298, MCL 123.261.

(b) A municipal utility service fee.

(c) Special assessments under 1957 PA 185, MCL 123.731 to 123.786; 1954 PA 188, MCL 41.721 to 41.738; or the township and village public improvement and public service act, 1923 PA 116, MCL 41.411 to

41.419.

(d) A service provider franchise agreement.

(e) Hauler licensing fees.

(f) A voter-approved millage.

(g) A general fund appropriation.

(h) Supplemental fees for service.

(i) A surcharge under section 8a of the urban cooperation act of 1967, 1967 (Ex Sess) PA 7, MCL 124.508a.

(j) A landfill surcharge.

(k) A flow control fee structure.

(*l*) Any other lawful mechanism.

(2) Appropriate uses for funding described in subsection (1) may include, but are not limited to, the following:

(a) Recycling programs.

(b) Organic materials management.

(c) Education and outreach regarding recycling and materials utilization.

(d) Relevant market development.

(e) Materials reduction and reuse initiatives.

History: Add. 2022, Act 250, Eff. Mar. 29, 2023.

324.11582 County approval agency; certification of materials management goals; eligibility for assistance.

Sec. 11582. (1) The CAA shall certify to the department the CAA's progress toward meeting all components of its materials management goals. The first certification shall be submitted by the first June 30 that is more than 2 years after the department's approval of the initial MMP or MMP amendment. Subsequent certifications shall be submitted by June 30 every 2 years after the first certification.

(2) If a county does not make progress toward meeting its benchmark recycling standards and ultimately the municipal solid waste recycling rate goal under section 11507, the county is ineligible for assistance from the recycling access and voluntary participation program under section 11550(9) until both of the following requirements are met:

(a) The county adopts an ordinance or other enforceable mechanism to ensure that any solid waste hauler providing curbside solid waste hauling service also offers curbside recycling service to dwellings of 4 or fewer units in the planning area.

(b) Any remaining deficiencies in a county's progress toward meeting its materials management goals are addressed.

324.11583 Enforceability of certain local and state laws.

Sec. 11583. An ordinance, law, rule, regulation, policy, or practice of a municipality, county, or governmental authority created by statute is not enforceable if any of the following apply:

(a) It conflicts with part 115.

(b) It prohibits or regulates the location or development of a materials management facility and is not part of or not consistent with the materials management plan for the county.

(c) It violates section 207 of the Michigan zoning enabling act, 2006 PA 110, MCL 125.3207, with respect to a materials management facility.

History: Add. 2022, Act 250, Eff. Mar. 29, 2023.

Popular name: Act 451

Popular name: NREPA

Popular name: Solid Waste Act

324.11584 Flow of solid waste or managed material; control requirements; departmental

duties; database.

Sec. 11584. (1) A county, municipality, authority, or regional planning agency that owns or operates a materials management facility may adopt requirements controlling the flow of solid waste or managed material to the materials management facility, to the extent allowed by the interstate commerce clause, clause 3 of section 8 of article I of the Constitution of the United States.

(2) The county board of commissioners may ensure that the necessary materials management authorizations or fees or any other regulatory ordinances or agreements needed to achieve the materials management goals are in effect.

(3) The department shall do all of the following:

(a) Maintain a database for materials management facilities to report to the department information, as determined by the department, required under part 115.

(b) Provide materials management facilities with instructions necessary to add information to the database.

(c) Provide CAAs access to information in the database.

Popular name: Act 451

Popular name: NREPA

Popular name: Solid Waste Act

324.11585 Disposal area or materials utilization facility; consistency with materials management plan; captive type III landfill; independent evaluation; coal ash.

Sec. 11585. (1) If a disposal area that does not require a license or permit under part 115 or a materials utilization facility is proposed to be located in a local unit of government that has a zoning ordinance, the disposal area or materials utilization facility is consistent with the MMP if it complies with the zoning ordinance and the owner or operator of the proposed disposal area or materials utilization facility presents documentation to the department and the CAA from the local unit of government exercising zoning authority demonstrating that the disposal area complies with local zoning.

(2) A disposal area or materials utilization facility is automatically consistent with the MMP if the specific facility or type of facility is identified in the MMP as being automatically consistent.

(3) A materials management facility that is not automatically consistent with the MMP is considered consistent if, as determined by the CAA or other entity specified by the MMP and by the department, all of the following requirements are met:

(a) The MMP authorizes that type of materials management facility to be sited by following the siting procedure and meeting the minimum siting criteria included in the MMP under section 11579, or the facility is a captive type III landfill and both of the following apply:

(*i*) The landfill accepts only waste generated by the owner or operator of the landfill.

(*ii*) The landfill met local land use requirements when initially sited.

(b) The materials management facility follows the siting procedure and meets minimum siting criteria in the MMP.

(c) The materials management facility meets either of the following requirements:

(*i*) Has host community approval.

(*ii*) Meets any supplemental siting criteria in the MMP for materials management facilities that do not have host community approval.

(4) The CAA or other entity specified by the MMP shall promptly notify the owner or operator of the materials management facility in writing of its determination under subsection (3) whether the materials management facility is consistent with the MMP.

(5) The department shall determine whether a materials management facility is consistent with the MMP through an independent evaluation as part of the review process for an application for a registration, for approval under a general permit, or for a construction permit or operating license. The applicant for a permit for a materials management facility shall include in the application documentation of the facility's consistency with the MMP.

(6) A landfill, other than a captive type III landfill, or a municipal solid waste incinerator need not be sited if the CAA demonstrates to the department through its materials management plan that the planning area has at least 66 months of available solid waste disposal capacity.

(7) A captive facility that is an existing coal ash landfill or existing coal ash impoundment is considered consistent with and included in the MMP if the disposal area continues to accept waste generated only by the owner of the disposal area and meets either or both of the following requirements:

(a) Was issued a construction permit and licensed for operation under this part.

(b) Met local land use law requirements when initially sited or constructed.

(8) A coal ash impoundment permitted, licensed, or otherwise in existence on the date of approval of the solid waste management plan for the planning area where the coal ash impoundment is located shall be considered to be consistent with the plan and included in the plan.

324.11586 State solid waste management plan.

Sec. 11586. (1) The state solid waste management plan consists of the state solid waste plan and all MMPs approved by the department.

(2) The department shall consult and assist in the preparation and implementation of MMPs.

(3) The department may undertake or contract for studies or reports necessary or useful in the preparation of the state solid waste management plan.

(4) The department shall promote policies that encourage resource recovery and establishment of materials utilization facilities.

324.11587 Materials management planning grant program.

Sec. 11587. (1) Subject to appropriations, a materials management planning grant program is established to provide grants, to be known as materials management planning grants, to county boards of commissioners for the use of CAAs. If a county board of commissioners is not the CAA, the county board of commissioners shall make awarded grant money available to the CAA within 60 days after receipt. The department may promulgate rules for the implementation of the grant program. Grant funds shall be awarded pursuant to a grant agreement. If the department prepares the MMP, grant funds appropriated for local planning may be used by the department for MMP preparation.

(2) Grants shall be used for administrative costs for preparing, implementing, and maintaining an MMP, including, but not limited to, the following:

(a) Development of a work program as described in subsection (4)(b) and R 299.4704 and R 299.4705 of the MAC, including a prior work program.

(b) Developing an initial MMP and amending the MMP.

(c) Ensuring public participation.

(d) Determining whether new materials management facilities are consistent with the MMP.

(e) Collecting and submitting data for the database utilized by the department for materials management facility reporting purposes, and evaluating data in the database for the planning area.

(f) Recycling education and outreach.

(g) Recycling and materials utilization programs.

(h) Preparation of required reports to the department.

(i) MMP implementation.

(j) Efforts to obtain support for the MMP and planning process from local units of government.

(3) Materials management planning grants shall cover 100% of eligible costs up to the authorized maximum amount as specified by rule.

(4) Materials management planning grants shall be awarded annually. To be eligible for grants in the first 3 years of the grant program, the CAA must do both of the following:

(a) Submit a notice of intent to prepare an MMP under section 11571.

(b) Within 180 days after submitting the notice of intent to prepare an MMP, submit to and obtain department approval of a work program for preparing the MMP. The work program shall be prepared by the DPA and reviewed and approved by the planning committee. The work program shall describe the activities for developing and implementing the MMP and associated costs to be covered by the county and the grant.

(5) In each of the first 3 years of the grant program, the amount of a grant shall equal the sum of the following:

(a) $60,000.00 for each county in the planning area.

(b) An additional $10,000.00 for each county in the planning area if the planning area includes more than 1

county.

(c) Fifty cents for each resident of the planning area, up to 600,000 residents.

(6) To be eligible for grants in the fourth and subsequent years of the grant program, the county must have an approved work program under subsection (4) or an approved MMP. In the fourth and subsequent years of the grant program, the amount of a grant to the CAA shall equal the sum of the following, as applicable:

(a) $60,000.00 for each county in the planning area.

(b) An additional $10,000.00 for each county in the planning area if the planning area includes more than 1 county and the CAAs were responsible for preparing the MMP.

(7) A grantee under this section shall keep records, subject to audit, documenting use of the grant for MMP development and implementation.

(8) For the purpose of determining the number of counties in a planning area under this section, the inclusion or exclusion of a municipality under section 11571(4) shall not be considered.

PART 117
SEPTAGE WASTE SERVICERS

324.11701 Definitions.

Sec. 11701. As used in this part:

(a) "Agricultural land" means land on which a food crop, a feed crop, or a fiber crop is grown, including land used or suitable for use as a range or pasture; a sod farm; or a Christmas tree farm.

(b) "Certified health department" means a city, county, or district department of health certified under section 11716.

(c) "Cesspool" means a cavity in the ground that receives waste to be partially absorbed directly or indirectly by the surrounding soil.

(d) "Department" means the department of environmental quality or its authorized agent.

(e) "Director" means the director of the department of environmental quality or his or her designee.

(f) "Domestic septage" means liquid or solid material removed from a septic tank, cesspool, portable toilet, type III marine sanitation device, or similar storage or treatment works that receives only domestic sewage. Domestic septage does not include liquid or solid material removed from a septic tank, cesspool, or similar facility that receives either commercial wastewater or industrial wastewater and does not include grease removed from a grease interceptor, grease trap, or other appurtenance used to retain grease or other fatty substances contained in restaurant waste.

(g) "Domestic sewage" means waste and wastewater from humans or household operations.

(h) "Domestic treatment plant septage" means biosolids generated during the treatment of domestic sewage in a treatment works and transported to a receiving facility or managed in accordance with a residuals management program approved by the department.

(i) "Farm operation" means that term as defined in section 2 of the Michigan right to farm act, 1981 PA 93, MCL 286.472.

(j) "Food establishment septage" means material pumped from a grease interceptor, grease trap, or other appurtenance used to retain grease or other fatty substances contained in restaurant wastes and that is blended into a uniform mixture, consisting of not more than 1 part of that restaurant-derived material per 3 parts of domestic septage prior to land application or is disposed of at a receiving facility.

(k) "Fund" means the septage waste program fund created in section 11717.

(*l*) "Governmental unit" means a county, township, municipality, or regional authority.

(m) "Incorporation" means the mechanical mixing of surface-applied septage waste with the soil.

(n) "Injection" means the pressurized placement of septage waste below the surface of soil.

(o) "Operating plan" means a plan developed by a receiving facility for receiving septage waste that specifies at least all of the following:

(*i*) Categories of septage waste that the receiving facility will receive.

(*ii*) The receiving facility's service area.

(*iii*) The hours of operation for receiving septage waste.

(*iv*) Any other conditions for receiving septage waste established by the receiving facility.

(p) "Pathogen" means a disease-causing agent. Pathogen includes, but is not limited to, certain bacteria, protozoa, viruses, and viable helminth ova.

(q) "Peace officer" means a sheriff or sheriff's deputy, a village or township marshal, an officer of the police department of any city, village, or township, any officer of the Michigan state police, any peace officer who is trained and licensed or certified under the Michigan commission on law enforcement standards act, 1965 PA 203, MCL 28.601 to 28.615, or any conservation officer appointed by the department or the department of natural resources under section 1606.

(r) "Portable toilet" means a receptacle for human waste temporarily in a location for human use.

(s) "Receiving facility" means a structure that is designed to receive septage waste for treatment at a wastewater treatment plant or at a research, development, and demonstration project authorized under section 11511b to which the structure is directly connected, and that is available for that purpose as provided for in an ordinance of the local unit of government where the structure is located or in an operating plan. Receiving facility does not include either of the following:

(*i*) A septic tank.

(*ii*) A structure or a wastewater treatment plant where the disposal of septage waste is prohibited by order of the department under section 11708 or 11715b.

(t) "Receiving facility service area" or "service area" means the territory for which a receiving facility has the capacity and is available to receive and treat septage waste, except that the geographic service area of a receiving facility shall not extend more than 25 radial miles from the receiving facility.

(u) "Sanitary sewer cleanout septage" means sanitary sewage or cleanout residue removed from a separate sanitary sewer collection system that is not land applied and that is transported by a vehicle licensed under this part elsewhere within the same system or to a receiving facility that is approved by the department.

(v) "Septage waste" means the fluid mixture of untreated and partially treated sewage solids, liquids, and sludge of human or domestic origin that is removed from a wastewater system. Septage waste consists only of food establishment septage, domestic septage, domestic treatment plant septage, or sanitary sewer cleanout septage, or any combination of these.

(w) "Septage waste servicing license" means a septage waste servicing license as provided for under sections 11703 and 11706.

(x) "Septage waste vehicle" means a vehicle that is self-propelled or towed and that includes a tank used to transport septage waste. Septage waste vehicle does not include an implement of husbandry as defined in section 21 of the Michigan vehicle code, 1949 PA 300, MCL 257.21.

(y) "Septage waste vehicle license" means a septage waste vehicle license as provided for under sections 11704 and 11706.

(z) "Septic tank" means a septic toilet, chemical closet, or other enclosure used for the decomposition of domestic sewage.

(aa) "Service" or "servicing" means cleaning, removing, transporting, or disposing, by application to land or otherwise, of septage waste.

(bb) "Site" means a location or locations on a parcel or tract, as those terms are defined in section 102 of the land division act, 1967 PA 288, MCL 560.102, proposed or used for the disposal of septage waste on land.

(cc) "Site permit" means a permit issued under section 11709 authorizing the application of septage waste to a site.

(dd) "Storage facility" means a structure that receives septage waste for storage but not for treatment.

(ee) "Tank" means an enclosed container placed on a septage waste vehicle to carry or transport septage waste.

(ff) "Type I public water supply", "type IIa public water supply", "type IIb public water supply", and "type III public water supply" mean those terms, respectively, as described in R 325.10502 of the Michigan Administrative Code.

(gg) "Type III marine sanitation device" means that term as defined in 33 CFR 159.3.

History: 1994, Act 451, Eff. Mar. 30, 1995;—Am. 2004, Act 381, Imd. Eff. Oct. 12, 2004;—Am. 2005, Act 199, Eff. Nov. 22, 2005;—Am. 2016, Act 294, Eff. Jan. 2, 2017;—Am. 2018, Act 271, Eff. Sept. 27, 2018.

Compiler's note: For transfer of authority, powers, duties, functions, and responsibilities of the Waste Management Division to the Director of the Michigan Department of Environmental Quality, see E.R.O. No. 1995-16, compiled at MCL 324.99901 of the Michigan Compiled Laws.

Popular name: NREPA

324.11702 Septage waste licensing; requirement.

Sec. 11702. (1) A person shall not engage in servicing or contract to engage in servicing except as authorized by a septage waste servicing license and a septage waste vehicle license issued by the department pursuant to part 13. A person shall not contract for another person to engage in servicing unless the person

who is to perform the servicing has a septage waste servicing license and a septage waste vehicle license.

(2) The septage waste servicing license and septage waste vehicle license requirements provided in this part are not applicable to a publicly owned receiving facility subject to a permit issued under part 31 or section 11511b.

History: 1994, Act 451, Eff. Mar. 30, 1995;—Am. 2004, Act 381, Imd. Eff. Oct. 12, 2004;—Am. 2005, Act 199, Eff. Nov. 22, 2005.

Popular name: Act 451

Popular name: NREPA

324.11703 Septage waste servicing license; application; eligibility; records.

Sec. 11703. (1) An application for a septage waste servicing license shall include all of the following:

(a) The applicant's name and mailing address.

(b) The location or locations where the business is operated, if the applicant is engaged in the business of servicing.

(c) Written approval from all receiving facilities where the applicant plans to dispose of septage waste.

(d) The locations of the sites where the applicant plans to apply septage waste to land and, for each proposed site, either proof that the applicant owns the proposed site or written approval from the site owner.

(e) A written plan for disposal of septage waste obtained in the winter, if the disposal will be by a method other than delivery to a receiving facility or, subject to section 11711, application to land.

(f) Written proof of satisfaction of the continuing education requirements of subsection (2), if applicable.

(g) Any additional information pertinent to this part required by the department.

(h) Payment of the septage waste servicing license fee as provided in section 11717b.

(2) Beginning January 1, 2007, a person is not eligible for an initial servicing license unless the person has successfully completed not less than 10 hours of continuing education during the 2-year period before applying for the license. Beginning January 1, 2007 and until December 31, 2009, a person is not eligible to renew a servicing license unless the person has successfully completed not less than 10 hours of continuing education during the 2-year period preceding the issuance of the license. Beginning January 1, 2010, a person is not eligible to renew a servicing license unless the person has successfully completed not less than 30 hours of continuing education during the 5-year period preceding the issuance of the license.

(3) Before offering or conducting a course of study represented to meet the educational requirements of subsection (2), a person shall obtain approval from the department. The department may suspend or revoke the approval of a person to offer or conduct a course of study to meet the requirements of subsection (2) for a violation of this part or of the rules promulgated under this part.

(4) If an applicant or licensee is a corporation, partnership, or other legal entity, the applicant or licensee shall designate a responsible agent to fulfill the requirements of subsections (2) and (3). The responsible agent's name shall appear on any license or permit required under this part.

(5) A person engaged in servicing shall maintain at all times at his or her place of business a complete record of the amount of septage waste that the person has transported or disposed of, the location at which septage waste was disposed of, and any complaints received concerning disposal of the septage waste. The person shall also report this information to the department on an annual basis in a manner required by the department.

(6) A person engaged in servicing shall maintain records required under subsection (5) or 40 CFR part 503 for at least 5 years. A person engaged in servicing or an individual who actually applies septage waste to land, as applicable, shall display these records upon the request of the director, a peace officer, or an official of a certified health department.

History: 1994, Act 451, Eff. Mar. 30, 1995;—Am. 2004, Act 325, Imd. Eff. Sept. 10, 2004;—Am. 2004, Act 381, Imd. Eff. Oct. 12, 2004.

Popular name: Act 451

Popular name: NREPA

324.11704 Septage waste vehicle license; application; display; transportation of hazardous waste or liquid industrial by-product.

Sec. 11704. (1) An application for a septage waste vehicle license shall include all of the following:

(a) The model and year of the septage waste vehicle.

(b) The capacity of any tank used to remove or transport septage waste.

(c) The name of the insurance carrier for the septage waste vehicle.

(d) Whether the septage waste vehicle or any other vehicle owned by the person applying for the septage waste vehicle license will be used at any time during the license period for land application of septage waste.

(e) Any additional information pertinent to this part required by the department.

(f) A septage waste vehicle license fee as provided by section 11717b for each septage waste vehicle.

(2) A person who is issued a septage waste vehicle license shall carry a copy of that license at all times in each vehicle that is described in the license and display the license upon the request of the department, a peace officer, or an official of a certified health department.

(3) A septage waste vehicle shall not be used to transport hazardous waste regulated under part 111 or liquid industrial by-product regulated under part 121, without the express written permission of the department.

History: 1994, Act 451, Eff. Mar. 30, 1995;—Am. 2004, Act 325, Imd. Eff. Sept. 10, 2004;—Am. 2004, Act 381, Imd. Eff. Oct. 12, 2004;—Am. 2015, Act 224, Eff. Mar. 16, 2016.

Popular name: Act 451

Popular name: NREPA

324.11705 Septage waste vehicle, tank, and accessory equipment; requirements.

Sec. 11705. A tank upon a septage waste vehicle shall be closed in transit to prevent the release of septage waste and odor. The septage waste vehicle and accessory equipment shall be kept clean and maintained in a manner that prevents environmental damage or harm to the public health.

History: 1994, Act 451, Eff. Mar. 30, 1995;—Am. 2004, Act 381, Imd. Eff. Oct. 12, 2004.

Popular name: NREPA

324.11706 Review of applications; providing health department with copies of application materials; investigations; issuance of license; license nontransferable; duration of license.

Sec. 11706. (1) Upon receipt of an application for a septage waste servicing license or a septage waste vehicle license, the department shall review the application to ensure that it is complete. If the department determines that the application is incomplete, the department shall promptly notify the applicant of the deficiencies. If the department determines that the application is complete, the department shall promptly provide the appropriate certified health department with a copy of all application materials. Upon receipt of the application materials, a certified health department shall conduct investigations necessary to verify that the sites, the servicing methods, and the septage waste vehicles are in compliance with this part. If so, the department shall approve the application and issue the license applied for in that application. If a certified health department does not exist, the department may perform the functions of a certified health department as necessary.

(2) A septage waste servicing license is not transferable and is valid, unless suspended or revoked, for 5 years. A septage waste vehicle license is not transferable and is valid, unless suspended or revoked, for the same 5-year period as the licensee's septage waste servicing license.

History: 1994, Act 451, Eff. Mar. 30, 1995;—Am. 2004, Act 381, Imd. Eff. Oct. 12, 2004.

324.11707 Display on both sides of septage waste vehicle.

Sec. 11707. Each septage waste vehicle for which a septage waste vehicle license has been issued shall display on both sides of the septage waste vehicle in letters not less than 2 inches high the words "licensed septage hauler", the vehicle license number issued by the department, and a seal furnished by the department that designates the year the septage waste vehicle license was issued.

History: 1994, Act 451, Eff. Mar. 30, 1995;—Am. 2004, Act 381, Imd. Eff. Oct. 12, 2004.

Popular name: Act 451

Popular name: NREPA

324.11708 Disposal of septage waste at receiving facility; fee; order prohibiting operation of wastewater treatment plant.

Sec. 11708. (1) Subject to subsection (2), if a person is engaged in servicing in a receiving facility service area, that person shall dispose of the septage waste at that receiving facility or any other receiving facility within whose service area the person is engaged in servicing.

(2) Subsection (1) does not apply to a person engaged in servicing who owns a storage facility with a capacity of 50,000 gallons or more if the storage facility was constructed, or authorized by the department to be constructed, before the location where the person is engaged in servicing was included in a receiving facility service area under an operating plan approved under section 11715b.

(3) A receiving facility may charge a fee for receiving septage waste. The fee shall not exceed the actual costs of operating the receiving facility including the reasonable cost of doing business as defined by common accounting practices.

(4) The department may issue an order prohibiting the operation of a wastewater treatment plant or structure as a receiving facility because of excessive hydraulic or organic loading, odor problems, or other environmental or public health concerns.

(5) A person shall not dispose of septage waste at a wastewater treatment plant or structure if the operation of that wastewater treatment plant or structure as a receiving facility is prohibited by an order issued under subsection (4) or section 11715b.

History: 1994, Act 451, Eff. Mar. 30, 1995;—Am. 2004, Act 381, Imd. Eff. Oct. 12, 2004;—Am. 2014, Act 546, Eff. Apr. 16, 2015.

Popular name: Act 451

Popular name: NREPA

324.11709 Disposal of septage waste on land; permit required; additional information; notice; renewal; revocation of permit.

Sec. 11709.

(1) A person shall not dispose of septage waste on land except as authorized by a site permit for that site issued by the department pursuant to part 13. A person shall apply for a site permit using an application form provided by the department. The application shall include all of the following for each site:

(a) A map identifying the site from a county land atlas and plat book.

(b) The site location by latitude and longitude.

(c) The name and address of the land owner.

(d) The name and address of the manager of the land, if different than the owner.

(e) Results of a soil fertility test performed within 1 year before the date of the application for a site permit including analysis of a representative soil sample of each location constituting the site as determined by the bray P1 (bray and kurtz P1), or Mehlich 3 test, for which procedures are described in the publication entitled "Recommended chemical soil test procedures for the north central region". The department shall provide a copy of this publication to any person upon request at no cost. The applicant shall also provide test results from any additional test procedures that were performed on the soil.

(f) Other site specific information necessary to determine whether the septage waste disposal will comply with state and federal law.

(g) Payment of the site permit fee as provided under section 11717b.

(2) Upon receipt of an application under subsection (1), the department shall review the application to ensure that it is complete. If the department determines that the application is incomplete, it shall promptly notify the applicant of the deficiencies.

(3) An applicant for a site permit shall simultaneously send a notice of the application, including all the information required by subsection (1)(a) to (d), to all of the following:

(a) The certified health department having jurisdiction.

(b) The clerk of the city, village, or township where the site is located.

(c) Each person who owns a lot or parcel that is contiguous to the lot, parcel, or tract on which the proposed site is located or that would be contiguous except for the presence of a highway, road, or street.

(d) Each person who owns a lot or parcel that is within 150 feet of a location where septage waste is to be disposed of by injection or 800 feet of a location where septage waste is to be disposed of by surface application.

(4) If the department finds that the applicant is unable to provide notice as required in subsection (3), the department may waive the notice requirement or allow the applicant to use a substitute means of providing notice.

(5) The department shall issue a site permit if all the requirements of this part and federal law are met. Otherwise, the department shall deny the site permit.

(6) A site permit is not transferable and is valid, unless suspended or revoked, until the expiration of the permittee's septage waste servicing license. A site permit may be revoked by the department if the septage waste land application or site management is in violation of this part.

History: 1994, Act 451, Eff. Mar. 30, 1995;—Am. 2004, Act 325, Imd. Eff. Sept. 10, 2004;—Am. 2004, Act 381, Imd. Eff. Oct. 12, 2004.

Popular name: Act 451

Popular name: NREPA

324.11710 Requirements to which permit subject.

Sec. 11710. A site permit is subject to all of the following requirements:

(a) The septage waste disposed of shall be applied uniformly at agronomic rates.

(b) Not more than 1 person licensed under this part may use a site for the disposal of septage waste during any year.

(c) Septage waste may be disposed of by land application only if the horizontal distance from the applied septage waste and the features listed in subparagraphs (*i*) to (*ix*) equals or exceeds the following isolation distances:

		TYPE OF APPLICATION	
		SURFACE	INJECTION
(*i*)	Type I public water supply wells	2,000 feet	2,000 feet
(*ii*)	Type IIa public water supply wells	2,000 feet	2,000 feet
(*iii*)	Type IIb public water supply wells	800 feet	800 feet
(*iv*)	Type III public water supply wells	800 feet	150 feet
(*v*)	Private drinking water wells	800 feet	150 feet
(*vi*)	Other water wells	800 feet	150 feet
(*vii*)	Homes or commercial buildings	800 feet	150 feet
(*viii*)	Surface water	500 feet	150 feet
(*ix*)	Roads or property lines	200 feet	150 feet

(d) Septage waste disposed of by land application shall be disposed of either by surface application, subject to subdivision (g), or injection.

(e) If septage waste is applied to the surface of land, the slope of that land shall not exceed 6%. If septage waste is injected into land, the slope of that land shall not exceed 12%.

(f) Septage waste shall not be applied to land unless the water table is at least 30 inches below any applied septage waste.

(g) If septage waste is applied to the surface of the land, 1 of the following requirements is met:

(*i*) The septage waste shall be mechanically incorporated within 6 hours after application.

(*ii*) The septage waste shall have been treated to reduce pathogens prior to land disposal by aerobic or anaerobic digestion, lime stabilization, composting, air drying, or other process or method approved by the department and, if applied to fallow land, is mechanically incorporated within 48 hours after application, unless public access to the site is restricted for 12 months and no animals whose products are consumed by humans are allowed to graze on the site for at least 1 month following disposal.

(h) Septage waste shall be treated to reduce pathogens by composting, heat drying or treatment, thermophilic aerobic digestion, or other process or method approved by the department prior to disposal on lands where crops for direct human consumption are grown, if contact between the septage waste and the edible portion of the crop is possible.

(i) Vegetation shall be grown on a septage waste disposal site within 1 year after septage waste is disposed of on that site.

(j) Food establishment septage shall not be applied to land unless it has been combined with other septage waste in no greater than a 1 to 3 ratio and blended into a uniform mixture.

(k) The permittee shall not apply septage waste to a location on the site unless the permittee has conducted a soil fertility test of that location as described in section 11709 within 1 year before the date of the land application. The permittee shall not apply food establishment septage to a location on the site unless the permittee has conducted testing of soil in that location within 1 year before the date of application in accordance with requirements in 40 CFR 257.3 to 257.5 or a single test of mixed septage waste contained in a storage facility.

(*l*) Beginning 2 years after the effective date of the 2004 amendatory act that amended this section, before land application, domestic septage shall be screened through a screen of not greater than 1/2-inch mesh or through slats separated by a gap of not greater than 3/8 inch. Screenings shall be handled as solid waste under part 115. Instead of screening, the domestic septage may be processed through a sewage grinder designed to not pass solids larger than 1/2 inch in diameter.

324.11711 Surface application of septage waste to frozen ground; requirements.

Sec. 11711. Beginning 2 years after the effective date of the 2004 amendatory act that amended this section, a person shall not surface apply septage waste to frozen ground. Before that time, a person shall not

surface apply septage waste to frozen ground unless all of the following requirements are met:

(a) Melting snow or precipitation does not result in the runoff of septage waste from the site.

(b) The slope of the land is less than 2%.

(c) The pH of septage waste is raised to 12.0 (at 25 degrees Celsius) or higher by alkali addition and, without the addition of more alkali, remains at 12.0 or higher for 30 minutes. Other combinations of pH and temperature may be approved by the department.

(d) The septage waste is mechanically incorporated within 20 days following the end of the frozen ground conditions.

(e) The department approves the surface application and subsequent mechanical incorporation.

(f) Less than 10,000 gallons per acre are applied to the surface during the period that the septage waste cannot be mechanically incorporated due to frozen ground.

(g) The septage waste is applied in a manner that prevents the accumulation and ponding of the septage waste.

(h) Any other applicable requirement under this part or federal law is met.

324.11713 Inspection of disposal site.

Sec. 11713. (1) At any reasonable time, a representative of the department may enter in or upon any private or public property for the purpose of inspecting and investigating conditions relating to compliance with this part. However, an investigation or inspection under this subsection shall comply with the United States constitution, the state constitution of 1963, and this section.

(2) The department shall inspect septage waste vehicles at least annually.

(3) The department shall inspect a site at least annually.

(4) The department shall inspect a receiving facility within 1 year after that receiving facility begins operation and at least annually thereafter.

Popular name: NREPA

324.11715 Preemption; duty of governmental unit to make available public septage waste receiving facility; posting of surety.

Sec. 11715. (1) This part does not preempt an ordinance of a governmental unit that does any of the following:

(a) Prohibits the application of septage waste to land within that governmental unit.

(b) Otherwise imposes stricter requirements than this part. This subdivision applies only if all of the following requirements are met:

(*i*) The receiving facility was operating before the date 2 years after the effective date of the amendatory act that added this subdivision.

(*ii*) The receiving facility's effluent is discharged, either directly or through a sewer system, to a wastewater treatment plant that was operating before the effective date of the amendatory act that added this subdivision.

(*iii*) The receiving facility was constructed, or the receiving facility and a wastewater treatment plant of which the receiving facility is part were improved, at a cost of $6,000,000.00 or more.

(*iv*) There is outstanding indebtedness for the construction or improvement described in subparagraph (*iii*) consisting only of bonds that were also outstanding before the date 2 years after the effective date of the amendatory act that added this subdivision or of loans or bonds that were used to redeem or refund those bonds and that have a maturity or due date not later than 9 years after the maturity date of those bonds.

(2) If a governmental unit requires that all septage waste collected in that governmental unit be disposed of in a receiving facility or prohibits, or effectively prohibits, the application of septage waste to land within that governmental unit, the governmental unit shall make available a receiving facility that meets all of the following requirements:

(a) The receiving facility service area includes the entire governmental unit.

(b) The receiving facility can lawfully accept and has the capacity to accept all septage waste generated within that governmental unit that is not lawfully applied to land.

(c) If the receiving facility is not owned by that governmental unit, the receiving facility is required by contract to accept all septage waste generated within that governmental unit that is not lawfully applied to land.

(3) The owner or operator of a receiving facility may require the posting of a surety, including cash in an escrow account or a performance bond, not exceeding $25,000.00 to dispose of septage waste in the receiving facility.

History: 1994, Act 451, Eff. Mar. 30, 1995;—Am. 2004, Act 381, Imd. Eff. Oct. 12, 2004;—Am. 2012, Act 41, Imd. Eff. Mar. 6, 2012;—Am. 2014, Act 546, Eff. Apr. 16, 2015.

Popular name: Act 451

Popular name: NREPA

324.11715b Rules; requirements for receiving facilities and control of nuisance conditions; notice of operation; penalties for noncompliance.

Sec. 11715b. (1) The department shall promulgate rules establishing design and operating requirements for receiving facilities and the control of nuisance conditions.

(2) A person shall not commence construction of a receiving facility on or after the date on which rules are promulgated under subsection (1) unless the owner has a permit from the department authorizing the construction of the receiving facility. The application for a permit shall include a basis of design for the receiving facility, engineering plans for the receiving facility sealed by an engineer licensed to practice in Michigan, and any other information required by the department. If the proposed receiving facility will be part of a sewerage system whose construction is required to be permitted under part 41 or a research, development, and demonstration project whose construction and operation is required to be permitted under section 11511b, the permit issued under part 41 or part 115, respectively, satisfies the permitting requirement of this subsection.

(3) Subject to subsection (4), a person shall not operate a receiving facility contrary to an operating plan approved by the department.

(4) If the operation of a receiving facility commenced before October 12, 2004, subsection (3) applies to that receiving facility beginning October 12, 2005.

(5) Before submitting a proposed operating plan to the department for approval, a person shall do all of the following:

(a) Publish notice of the proposed operating plan in a newspaper of general circulation in the area where the receiving facility is located.

(b) If the person maintains a website, post notice of the proposed operating plan on its website.

(c) Submit notice of the proposed operating plan by first-class mail to the county health department and the legislative body of each city, village, and township located in whole or in part within the service area of the receiving facility.

(6) Notice of a proposed operating plan under subsection (5) shall contain all of the following:

(a) A statement that the receiving facility proposes to receive or, in the case of a receiving facility described in subsection (4), to continue to receive septage waste for treatment.

(b) A copy of the proposed operating plan or a statement where the operating plan is available for review during normal business hours.

(c) A request for written comments on the proposed operation of the receiving facility and the deadline for receipt of such comments, which shall be not less than 30 days after publication, posting, or mailing of the notice.

(7) After the deadline for receipt of comments under subsection (6), the person proposing to operate a receiving facility may modify the plan in response to any comments received and shall submit a summary of the comments and the current version of the proposed operating plan to the department for approval.

(8) The operator of a receiving facility may modify an approved operating plan if the modifications are approved by the department. Subsections (5) to (7) do not apply to the modification of the operating plan.

(9) If the owner or operator of a receiving facility violates this section or rules promulgated under this section, after providing an opportunity for a hearing, the department may order that a receiving facility cease operation as a receiving facility.

(10) The department shall post on its website both of the following:

(a) Approved operating plans, including any modifications under subsection (8).

(b) Notice of any orders under subsection (9).

(11) If construction of a receiving facility commenced before the date on which rules are promulgated under subsection (1), all of the following apply:

(a) Within 1 year after the date on which rules are promulgated under subsection (1), the owner of the receiving facility shall submit to the department and obtain department approval of a report prepared by a professional engineer licensed to practice in Michigan describing the receiving facility's state of compliance with the rules and proposing any modifications to the receiving facility necessary to comply with the rules.

(b) If, according to the report approved under subdivision (a), modifications to the receiving facility are necessary to comply with the rules promulgated under subsection (1), within 18 months after the report is approved under subdivision (a), the owner of the receiving facility shall submit to the department engineering plans for modifying the receiving facility and shall obtain a construction permit from the department for modifying the receiving facility.

(c) Within 3 years after the report is approved under subdivision (a), the owner of the receiving facility shall complete construction modifying the receiving facility so that it complies with those rules.

(12) After a hearing, the department may order that a receiving facility whose owner fails to comply with this section cease operating as a receiving facility.

324.11715d Advisory committee to make recommendations on septage waste storage facility management practices.

Sec. 11715d. (1) Within 60 days after the effective date of the amendatory act that added this section, the department shall convene an advisory committee to make recommendations on septage waste storage facility management practices, including, but not limited to, storage facility inspections. The advisory committee shall include at least all of the following:

(a) A storage facility operator.

(b) A receiving facility operator.

(c) A generator of septage waste.

(d) A representative of township government.

(e) A representative of an environmental protection organization.

(f) A licensed Michigan septage waste hauler.

(2) Within 18 months after the effective date of this section, the department shall establish generally accepted septage storage facility management practices and post the management practices on the department's website.

(3) A person shall not construct a septage waste storage facility without written approval from the department.

History: Add. 2004, Act 381, Imd. Eff. Oct. 12, 2004.

Compiler's note: For abolishment of the advisory committee on septage waste storage facility management practices and transfer of its powers and duties to the department of environmental quality, see E.R.O. No. 2007-20, compiled at MCL 324.99912.

324.11716 Certification of city, county, and district departments of health to carry out powers and duties.

Sec. 11716. (1) The department may certify a city, county, or district health department to carry out certain powers and duties of the department under this part.

(2) If a certified health department does not exist in a city, county, or district or does not fulfill its responsibilities under this part, the department may contract with qualified third parties to carry out certain responsibilities of the department under this part in that city, county, or district.

(3) The department and each certified health department or third party that will carry out powers or duties of the department under this part shall enter a memorandum of understanding or contract describing those powers and duties and providing for compensation to be paid by the department from the fund to the certified health department or third party.

History: 1994, Act 451, Eff. Mar. 30, 1995;—Am. 2004, Act 381, Imd. Eff. Oct. 12, 2004.

Popular name: Act 451

324.11717 Septage waste site contingency fund; creation; authorization of expenditures.

Sec. 11717. (1) There is created in the state treasury a septage waste site contingency fund. Interest earned by the septage waste contingency fund shall remain in the septage waste contingency fund unless expended as provided in subsection (2).

(2) The department shall expend money from the septage waste contingency fund, upon appropriation, only to defray costs of the continuing education courses under section 11703 that would otherwise be paid by persons taking the courses.

(3) The septage waste program fund is created within the state treasury.

(4) Fees and interest on fees collected under this part shall be deposited in the fund. In addition, promptly after the effective date of the 2004 amendatory act that amended this section, the state treasurer shall transfer to the septage waste program fund all the money in the septage waste compliance fund. The state treasurer may receive money or other assets from any other source for deposit into the fund. The state treasurer shall direct the investment of the fund. The state treasurer shall credit to the fund interest and earnings from fund investments.

(5) Money in the fund at the close of the fiscal year shall remain in the fund and shall not lapse to the general fund.

(6) The department shall expend money from the fund, upon appropriation, only for the enforcement and administration of this part, including, but not limited to, compensation to certified health departments or third parties carrying out certain powers and duties of the department under section 11716.

History: 1994, Act 451, Eff. Mar. 30, 1995;—Am. 2004, Act 381, Imd. Eff. Oct. 12, 2004.

324.11717b Fees for persons engaged in septage waste servicing.

Sec. 11717b. (1) The cost of administering this part shall be recovered by collecting fees from persons engaged in servicing. Fee categories and, subject to subsection (2), rates are as follows:

(a) The fee for a septage waste servicing license is $200.00 per year.

(b) The fee for a septage waste vehicle license is as follows:

(*i*) If none of the vehicles owned by the person applying for the septage waste vehicle license will be used at any time during the license period for disposal of septage waste by land application, $350.00 per year for each septage waste vehicle.

(*ii*) If any of the vehicles owned by the person applying for the septage waste vehicle license will be used at any time during the license period for disposal of septage waste by land application, $480.00 per year for each septage waste vehicle.

(c) The fee to replace an existing septage waste vehicle under a septage waste vehicle license with a different septage waste vehicle under the same ownership, if the annual fee for that year has been paid under subdivision (b), is as follows:

(*i*) $200.00 if the septage waste vehicle being replaced has been inspected for that year under section 11706.

(*ii*) $150.00 if the vehicle being replaced has not been inspected for that year.

(d) The fee for a site permit is $500.00. However, a person shall not be charged a fee to renew a site permit.

(2) If a fee under subsection (1) is paid for a license, permit, or approval but the application for the license or permit or the request for the approval is denied, the department shall promptly refund the fee.

(3) For each state fiscal year, a person possessing a septage waste servicing license and septage waste vehicle license as of January 1 of that fiscal year shall be assessed a septage waste servicing license fee and

septage waste vehicle license fee as specified in this section. The department shall notify those persons of their fee assessments by February 1 of that fiscal year. Payment shall be postmarked by March 15 of that fiscal year.

(4) The department shall assess interest on all fee payments received after the due date. The amount of interest shall equal 0.75% of the payment due, for each month or portion of a month the payment remains past due. The failure by a person to timely pay a fee imposed by this section is a violation of this part.

(5) If a person fails to pay a fee required under this section in full, plus any interest accrued, by October 1 of the year following the date of notification of the fee assessment, the department may issue an order that revokes the license or permit held by that person for which the fee was to be paid.

(6) Fees and interest collected under this section shall be deposited in the fund.

History: Add. 2004, Act 381, Imd. Eff. Oct. 12, 2004;—Am. 2008, Act 492, Imd. Eff. Jan. 13, 2009.

324.11718 Rules.

Sec. 11718. (1) The department shall promulgate rules that establish both of the following:

(a) Continuing education requirements under section 11703.

(b) Design and operating requirements for receiving facilities, as provided in section 11715b.

(2) The department may, in addition, promulgate rules that do 1 or more of the following:

(a) Add other materials and substances to the definition of septage waste.

(b) Add enclosures to the list of enclosures in the definition of domestic septage under section 11701 the servicing of which requires a septage waste servicing license under this part.

(c) Specify information required on an application for a septage waste servicing license, septage waste vehicle license, or site permit.

(d) Establish standards or procedures for a department order under section 11708 prohibiting the operation of a wastewater treatment plant or structure as a receiving facility.

(3) The department of environmental quality and the department of agriculture and rural development shall jointly promulgate rules establishing field sanitation and food safety standards for the purposes of section 11721.

History: 1994, Act 451, Eff. Mar. 30, 1995;—Am. 2004, Act 381, Imd. Eff. Oct. 12, 2004;—Am. 2018, Act 271, Eff. Sept. 27, 2018.

324.11719 Violation or false statement as misdemeanor; penalties.

Sec. 11719. (1) A person who violates section 11704, 11705, 11708, 11709, 11710, or 11711 is guilty of a misdemeanor punishable by imprisonment for not more than 90 days or a fine of not more than $5,000.00, or both. A peace officer may issue an appearance ticket to a person for a violation of any of these sections.

(2) A person who knowingly makes or causes to be made a false statement or entry in a license application or a record required in section 11703 is guilty of a felony punishable by imprisonment for not more than 2 years, or a fine of not less than $2,500.00 or more than $25,000.00, or both.

(3) A person who violates this part or a license or permit issued under this part, except as provided in subsections (1) and (2), is guilty of a misdemeanor punishable by imprisonment for not more than 30 days or a fine of not less than $1,000.00 and not more than $2,500.00, or both.

(4) Each day that a violation described in subsection (1), (2), or (3) continues constitutes a separate violation.

(5) Upon receipt of information that the servicing of septage waste regulated by this part presents an imminent or substantial threat to the public health, safety, welfare, or the environment, after consultation with the director or a designated representative of the department of community health, the department, or a peace officer if authorized by law, shall do 1 or more of the following:

(a) Pursuant to the administrative procedures act of 1969, 1969 PA 306, MCL 24.201 to 24.328, summarily suspend a license issued under this part and afford the holder of the license an opportunity for a hearing within 7 days.

(b) Request that the attorney general commence an action to enjoin the act or practice and obtain injunctive relief upon a showing that a person is or has removed, transported, or disposed of septage waste in a manner that is or may become injurious to the public health, safety, welfare, or the environment.

324.11720 Temporary variance from act.

Sec. 11720. (1) The director may grant a temporary variance from a requirement of this part added by the 2004 amendatory act that amended this part if all of the following requirements are met:

(a) The variance is requested in writing.

(b) The requirements of this part cannot otherwise be met.

(c) The variance will not create or increase the potential for a health hazard, nuisance condition, or pollution of surface water or groundwater.

(d) The activity or condition for which the variance is proposed will not violate any other part of this act.

(2) A variance granted under subsection (1) shall be in writing and shall be posted on the department's website.

324.11721 Farm operation exemption; requirements.

Sec. 11721. (1) A farm operation is exempt from this part as it applies to servicing portable toilets, to associated domestic septage management equipment such as trailers, pumps, and septage waste vehicles, and to associated storage facilities, if all of the following requirements are met:

(a) The portable toilets are used to comply with requirements listed in the publication under subsection (2).

(b) The management, pumping, and temporary storage of the domestic septage from the portable toilets by the farm operation does not result in a release of domestic septage into the environment.

(c) The portable toilets and associated septage management equipment are securely fastened to a vehicle or trailer in a manner that prevents a release while being moved by the farm operation on or across a public street, road, or highway.

(d) The farm operation does not move portable toilets that contain domestic septage on or across a limited access highway as defined in section 26 of the Michigan vehicle code, 1949 PA 300, MCL 257.26.

(e) The farm operation does not store domestic septage for more than 60 days or in a tank larger than 3,000 gallons.

(f) The farm operation utilizes the services of a person with a septage waste servicing license and septage waste vehicle license to dispose of the domestic septage from the portable toilets in a receiving facility.

(g) The farm operation does not move domestic septage on or across a public street, road, or highway in a tank larger than 450 gallons.

(2) The department of agriculture and rural development shall publish both of the following:

(a) A list of field sanitation, worker protection, and food safety requirements applicable to the exemption provided for in this section.

(b) A guide to recommend spill preparedness, spill mitigation, and spill response programs applicable to the exemption provided for in this section.

PART 119
WASTE MANAGEMENT AND RESOURCE RECOVERY FINANCE

324.11901 Definitions.

Sec. 11901. As used in this part:

(a) "Costs" means 1 or more of the following costs that may be chargeable to the waste management project as a capital cost under generally acceptable accounting principles:

(*i*) The cost or fair market value of the acquisition or construction of lands, property rights, utility extensions, disposal facilities, buildings, structures, fixtures, machinery, equipment, access roads, easements, and franchises.

(*ii*) Engineering, architectural, accounting, legal, organizational, marketing, financial, and other services.

(*iii*) Permits and licenses.

(*iv*) Interest on the financing of the waste management project during acquisition and construction and before the date of commencement of commercial operation of the waste management project, but for not more than 1 year after that date.

(*v*) Operating expenses of the waste management project before full earnings are achieved, but for not more than 1 year after that date.

(*vi*) A reasonable reserve for payment of principal and interest on an indebtedness to finance the cost of a waste management project.

(b) "Local authority" means an authority created under Act No. 179 of the Public Acts of 1947, being sections 123.301 to 123.310 of the Michigan Compiled Laws.

(c) "Municipality" means a county, city, township, village, or local authority, or a combination thereof.

(d) "Note" means a note issued by a municipality pursuant to this part.

(e) "Person" means an individual, firm, partnership, association, corporation, unincorporated joint venture, or trust, organized, permitted, or existing under the laws of this state or any other state, including a federal corporation, or a combination thereof, but excluding a municipality, special district having taxing powers, or other political subdivision of this state.

(f) "Revenue" means money or income received by a municipality as a result of activities authorized by this part, including loan repayments and interest on loan repayments; proceeds from the sale of real or personal property; interest payments on investments; rentals and other payments due and owing on account of an instrument, lease, contract, or agreement to which the municipality is a party; and gifts, grants, bestowals, or other moneys or payments to which a municipality is entitled under this part or other law.

(g) "Waste" means a discarded solid or semisolid material, including garbage, refuse, rubbish, ashes, liquid material, and other discarded materials generated by residential, commercial, agricultural, municipal, or industrial activities, including waste from sewage collected and treated in a municipal sewage system.

(h) "Waste management project" means 1 or more parts of a waste collection, transportation, disposal, or resource recovery system, including plants, works, systems, facility or transfer stations planned, designed, or financed under this part. Waste management project includes the extension or provision of utilities, steam generating and conveyance facilities, appurtenant machinery, equipment, and other capital facilities, other than off-site mobile vehicular equipment, if necessary for the operation of a project or portion of a project. Waste management project also includes necessary property rights, easements, interests, permits, and licenses.

324.11902 Powers of municipality generally.

Sec. 11902. A municipality may do any of the following:

(a) Acquire by gift, purchase, or lease, construct, improve, remodel, repair, maintain, and operate, individually or jointly with a municipality or person, a waste management project; acquire private or public property by purchase, lease, gift, or exchange; and acquire private property when necessary by condemnation for public purposes pursuant to Act No. 149 of the Public Acts of 1911, being sections 213.21 to 213.25 of the Michigan Compiled Laws, or other applicable law or charter.

(b) Impose rates, charges, and fees, and enter into contracts relative to the rates, charges, and fees with persons using a waste management project; and assign, convey, encumber, mortgage, pledge, or grant a security interest in the rates, charges, and fees or the right to impose rates, charges, and fees to a person or municipality for the purpose of securing a contract with a person or municipality or for the purpose of providing security or a source of payment for an indebtedness of a person or municipality, including bonds or notes, issued pursuant to the following acts, to finance the cost of a waste management project or in anticipation of revenues from a waste management project:

(*i*) The industrial development revenue bond act of 1963, Act No. 62 of the Public Acts of 1963, being sections 125.1251 to 125.1267 of the Michigan Compiled Laws.

(*ii*) The economic development corporation act, Act No. 338 of the Public Acts of 1974, being sections 125.1601 to 125.1636 of the Michigan Compiled Laws.

(*iii*) The Derezinski-Geerlings job development authority act, Act No. 301 of the Public Acts of 1975, being sections 125.1701 to 125.1770 of the Michigan Compiled Laws.

324.11903 Contracts for acquisition, construction, financing, and operation of waste management project or for use of services of project; bids or proposals; negotiations; validity of contracts; pledge of full faith and credit; methods of paying pledged share of

costs.

Sec. 11903. (1) A municipality may enter into a contract with a person or municipality, providing for the acquisition, construction, financing, and operation of a waste management project or for the use of the services of a project. Notwithstanding the requirements of its municipal charter or ordinances, the municipality, following the receipt from persons of bids or proposals for a contract referred to in this section, may negotiate with 1 or more persons who have submitted the bids or proposals, permit those persons to modify their bids or proposals, and enter into a contract with 1 or more of those persons on the basis of a bid or proposal as modified. A contract executed pursuant to this section, regardless of whether the bidding on the contract occurred before July 12, 1978, shall be valid and binding on the parties. The municipality is authorized, but is not required, to pledge its full faith and credit for the payment of the obligation in the manner and times specified in the contract.

(2) To pay its pledged share of the costs of a waste management project or to secure its contract for the use of project services, a contracting municipality may use or pledge 1 or more, or a combination, of the following methods of raising necessary funds:

(a) If the full faith and credit of the municipality is pledged, the levy of a tax on taxable property by a municipality having the power to tax, which tax may be imposed without limitation as to rate or amount and may be imposed in addition to other taxes that the municipality is authorized to levy, but for not more than a rate or amount that is sufficient to pay its share or secure its contract.

(b) The levy and collection of rates or charges to users and beneficiaries of the service furnished by the waste management project.

(c) From money received or to be received from the imposition of taxes by the state and returned to the municipality, unless the use of the money for that purpose is expressly prohibited by the state constitution of 1963.

(d) From any other funds which may be validly used for that purpose.

Popular name: Act 451

Popular name: NREPA

324.11904 Additional powers of municipality.

Sec. 11904. A municipality may do any of the following:

(a) Include in a contract with a municipality or person provisions to the effect that the municipality will require all residential waste subject to its jurisdiction and police power under applicable law or charter and collected within its limits, whether by a municipality or person operating under contract with the municipality, to be disposed of at the waste management project. If so included, the municipality shall enact legislation with appropriate penalties to make the requirement effective. However, a township, by resolution, may disapprove the collection of waste within the township boundaries by a county.

(b) Provide by contract with a municipality or person for the ownership of a waste management project after all indebtedness with respect to the project has been retired.

(c) Provide that rates or charges to users and beneficiaries of the service furnished by the waste management project shall be a lien on the premises for which the services have been provided, and that amounts delinquent for 3 months or more may be certified annually to the proper tax assessing officer or agency of the municipality, to be entered upon the next tax roll against the premises to which the services have been rendered. The charges shall be collected and the lien enforced in the same manner as provided for the collection of taxes assessed upon the tax roll and the enforcement of a lien for unpaid taxes. The time and manner of certification and other details in respect to the collection of the rates and charges and the enforcement of the lien shall be prescribed by the governing body of the municipality. The municipality may authorize a person or municipality to impose, levy, and collect rates or charges against users and beneficiaries of the service furnished by the waste management project. The municipality may agree with a municipality or person that the rates and charges shall be a lien on the premises serviced, and may further agree that the collection of the rates and charges imposed may be collected and the lien enforced in the same manner as provided in this subsection for the collection of rates and charges and the enforcement of a lien by the municipality.

Popular name: NREPA

324.11905 Contracts; provisions; remedies in case of default.

Sec. 11905. A contract by a municipality with a person or municipality may provide for any and all matters

relating to the acquisition, construction, financing, and operation of the waste management project as are considered necessary. The contract may provide for appropriate remedies in case of default, including the right of the contracting municipality to authorize the state treasurer or other official charged with the disbursement of unrestricted state funds returnable to the municipality under the state constitution of 1963 or other laws of this state to withhold and apply sufficient funds from those disbursements to make up a default or deficiency.

History: Add. 1995, Act 60, Imd. Eff. May 24, 1995.

Popular name: Act 451

Popular name: NREPA

324.11906 Resolution authorizing execution of contract; publication and contents of notice of adoption; effective date of contract; referendum; special election not included in statutory or charter limitation; verification of signatures on petition; rejection of signatures; determining number of registered electors.

Sec. 11906. (1) A municipality desiring to enter into a contract under section 11902 or 11903 shall authorize, by resolution of its governing body, the execution of the contract. After the adoption of the resolution, if the full faith and credit of the municipality is pledged, a notice of the adoption of the resolution shall be published in a newspaper of general circulation in the municipality. The notice shall state all of the following:

(a) That the governing body has adopted a resolution authorizing execution of the contract.

(b) The purpose and the expected cost of the contract to the municipality.

(c) The source of payment for the municipality's contractual obligation.

(d) The right of referendum on the contract.

(e) Other information the governing body determines to be necessary to adequately inform interested electors of the nature of the obligation.

(2) A contract pledging the full faith and credit may be executed and delivered by the municipality upon approval of its governing body without a vote of the electors on the contract, but the contract shall not become effective until the expiration of 45 days after the date of publication of the notice required by subsection (1). If, within the 45-day period, a petition requesting a referendum upon the contract, signed by not less than 5% or 15,000 of the registered electors residing within the limits of the municipality, whichever is less, is filed with the clerk of the municipality, the contract shall not become effective until approved by the vote of a majority of the electors of the municipality qualified to vote and voting at a general or special election.

(3) A special election called for pursuant to subsection (2) shall not be included in statutory or charter limitation as to the number of special elections to be called within a specified period of time. Signatures on the petition shall be verified by an elector under oath as the actual signatures of the electors whose names appear on the petition, and the clerk of the municipality shall have the same power to reject signatures as city clerks under section 25 of the home rule city act, Act No. 279 of the Public Acts of 1909, being section 117.25 of the Michigan Compiled Laws. The number of registered electors in a municipality shall be determined from the municipality's registration books.

PART 121

324.12101 Definitions; B to L.

Sec. 12101. As used in this part:

(a) "Biofuel" means any renewable liquid or gas fuel offered for sale as a fuel that is derived from recently living organisms or their metabolic by-products and meets applicable quality standards, including, but not limited to, ethanol, ethanol-blended fuel, biodiesel, and biodiesel blends.

(b) "Biogas" means a biofuel that is a gas.

(c) "Brine" means a liquid produced as a by-product of oil or natural gas production or exploration.

(d) "Container" means any portable device in which a liquid industrial by-product is stored, transported, treated, or otherwise handled.

(e) "Department" means the department of environmental quality.

(f) "Designated facility" means a treatment facility, storage facility, disposal facility, or reclamation facility that receives liquid industrial by-product from off-site.

(g) "Director" means the director of the department.

(h) "Discarded" means any of the following:

(*i*) Abandoned by being disposed of, burned, or incinerated; or accumulated, stored, or treated before, or instead of, being abandoned.

(*ii*) Accumulated, stored, or treated before being managed in 1 of the following ways:

(A) By being used or reused in a manner constituting disposal by being applied to or placed on land or by being used to produce products that are applied to or placed on land.

(B) By being burned to recover energy or used to produce a fuel.

(C) By reclamation.

(i) "Discharge" means the accidental or intentional spilling, leaking, pumping, releasing, pouring, emitting, emptying, or dumping of liquid industrial by-product into the land, air, or water.

(j) "Disposal" means the abandonment, discharge, deposit, injection, dumping, spilling, leaking, or placing of a liquid industrial by-product into or on land or water in such a manner that the liquid industrial by-product may enter the environment, or be emitted into the air, or discharged into surface water or groundwater.

(k) "Disposal facility" means a facility or a part of a facility at which liquid industrial by-product is disposed.

(*l*) "Facility" means all contiguous land and structures, other appurtenances, and improvements on land for treating, storing, disposing of, or reclamation of liquid industrial by-product.

(m) "Generator" means a person whose act or process produces liquid industrial by-product.

(n) "Liquid industrial by-product" or "by-product" means any material that is produced by, is incident to, or results from industrial, commercial, or governmental activity or any other activity or enterprise, that is determined to be liquid by method 9095 (paint filter liquids test) as described in "Test methods for evaluating solid wastes, physical/chemical methods," United States Environmental Protection Agency publication no. SW-846, and that is discarded. Liquid industrial by-product does not include any of the following:

(*i*) Hazardous waste regulated and required to be manifested under part 111.

(*ii*) Septage waste regulated under part 117.

(*iii*) Medical waste regulated under part 138 of the public health code, 1978 PA 368, MCL 333.13801 to 333.13832.

(*iv*) A discharge to the waters of the state in accordance with a permit, order, or rule under part 31.

(*v*) A liquid generated by a household.

(*vi*) A liquid regulated under 1982 PA 239, MCL 287.651 to 287.683.

(*vii*) Material managed in accordance with section 12102a.

History: 1994, Act 451, Eff. Mar. 30, 1995;—Am. 1995, Act 61, Imd. Eff. May 24, 1995;—Am. 1998, Act 140, Eff. Sept. 1, 1998;—Am. 2001, Act 165, Imd. Eff. Nov. 7, 2001;—Am. 2008, Act 8, Imd. Eff. Feb. 20, 2008;—Am. 2015, Act 224, Eff. Mar. 16, 2016.

Compiler's note: For transfer of authority, powers, duties, functions, and responsibilities of the Waste Management Division to the Director of the Michigan Department of Environmental Quality, see E.R.O. No. 1995-16, compiled at MCL 324.99903 of the Michigan Compiled Laws.

Popular name: Act 451

Popular name: NREPA

324.12102 Definitions; O to V.

Sec. 12102. As used in this part:

(a) "On-site" means on the same geographically contiguous property, which may be divided by a public or private right-of-way if access is by crossing rather than going along the right-of-way. On-site includes

noncontiguous pieces of property owned by the same person but connected by a right-of-way that the owner controls and to which the public does not have access.

(b) "Peace officer" means any law enforcement officer who is trained and licensed or certified under the Michigan commission on law enforcement standards act, 1965 PA 203, MCL 28.601 to 28.615, or an officer appointed by the director of the department of state police under section 6d of 1935 PA 59, MCL 28.6d.

(c) "Publicly owned treatment works" means any entity that treats municipal sewage or industrial waste or liquid industrial by-product that is owned by the state or a municipality, as that term is defined in 33 USC 1362. Publicly owned treatment works include sewers, pipes, or other conveyances only if they convey wastewater to a publicly owned treatment works providing treatment.

(d) "Reclamation" means either processing to recover a usable product or regeneration.

(e) "Reclamation facility" means a facility or part of a facility where liquid industrial by-product reclamation is conducted.

(f) "Shipping document" means a log, an invoice, a bill of lading, or other record, in either written or electronic form, that includes all of the following information:

(*i*) The name and address of the generator.

(*ii*) The name of the transporter.

(*iii*) The type and volume of liquid industrial by-product in the shipment.

(*iv*) The date the by-product was shipped off-site from the generator.

(*v*) The name, address, and site identification number of the designated facility.

(g) "Site identification number" means a number that is assigned by the United States Environmental Protection Agency or the department to a transporter or facility.

(h) "Storage" means the containment of liquid industrial by-product, on a temporary basis, in a manner that does not constitute disposal of the by-product.

(i) "Storage facility" means a facility or part of a facility where liquid industrial by-product is stored.

(j) "Surface impoundment" means a treatment facility, storage facility, or disposal facility or part of a treatment, storage, or disposal facility that is either a natural topographic depression, a human-made excavation, or a diked area formed primarily of earthen materials. A surface impoundment may be lined with human-made materials designed to hold an accumulation of liquid industrial by-product. Surface impoundments include, but are not limited to, holding, storage, settling, and aeration pits, ponds, and lagoons. Surface impoundment does not include an injection well.

(k) "Tank" means a stationary device designed to contain an accumulation of liquid industrial by-product that is constructed primarily of nonearthen materials such as wood, concrete, steel, or plastic to provide structural support.

(*l*) "Transportation" means the movement of liquid industrial by-product by air, rail, public or private roadway, or water.

(m) "Transporter" means a person engaged in the off-site transportation of liquid industrial by-product by air, rail, public roadway, or water.

(n) "Treatment" means any method, technique, or process, including neutralization, designed to change the physical, chemical, or biological character or composition of any liquid industrial by-product, to neutralize the by-product, or to render the by-product safer to transport, store, or dispose of, amenable to recovery, amenable to storage, or reduced in volume.

(o) "Treatment facility" means a facility or part of a facility at which liquid industrial by-product undergoes treatment.

(p) "Used oil" means any oil that has been refined from crude oil, or any synthetic oil, that has been used and that, as a result of the use, is contaminated by physical or chemical impurities.

(q) "Vehicle" means a transport vehicle as defined by 49 CFR 171.8.

History: 1994, Act 451, Eff. Mar. 30, 1995;—Am. 1995, Act 61, Imd. Eff. May 24, 1995;—Am. 1998, Act 140, Eff. Sept. 1, 1998;—Am. 2001, Act 165, Imd. Eff. Nov. 7, 2001;—Am. 2008, Act 8, Imd. Eff. Feb. 20, 2008;—Am. 2015, Act 224, Eff. Mar. 16, 2016;—Am. 2016, Act 294, Eff. Jan. 2, 2017.

Compiler's note: For transfer of authority, powers, duties, functions, and responsibilities of the Waste Management Division to the Director of the Michigan Department of Environmental Quality, see E.R.O. No. 1995-16, compiled at MCL 324.99903 of the Michigan Compiled Laws.

Popular name: Act 451

Popular name: NREPA

324.12102a Materials not specified as liquid industrial by-products.

Sec. 12102a. The following materials are not liquid industrial by-products when managed as specified:

(a) A material that is used or reused as an effective substitute for commercial products, used or reused as

an ingredient to make a product, or returned to the original process, if the material does not require reclamation prior to use or reuse, is not directly burned to recover energy or used to produce a fuel, and is not applied to the land or used in products applied to the land.

(b) A used oil that is directly burned to recover energy or used to produce a fuel if all of the following requirements are met:

(*i*) The material meets the used oil specifications of R 299.9809(1)(f) of the Michigan administrative code.

(*ii*) The material contains no greater than 2 ppm polychlorinated biphenyls.

(*iii*) The material has a minimum energy content of 17,000 BTU/lb.

(*iv*) The material is expressly authorized as a used oil fuel source, regulated under part 55, or, in another state, regulated under a similar air pollution control authority.

(c) A liquid fully contained inside a manufactured article, until the liquid is removed or the manufactured equipment is discarded, at which point it becomes subject to this part.

(d) A liquid by-product sample transported for testing to determine its characteristics or composition. The sample becomes subject to this part when discarded.

(e) A liquid that is not regulated under part 615 that is generated in the drilling, operation, maintenance, or closure of a well, or other drilling operation, including the installation of cathodic protection or directional drilling, if either of the following applies:

(*i*) The liquid is left in place at the point of generation in compliance with part 31, 201, or 213.

(*ii*) The liquid is transported off-site from a location that is not a known facility as defined in section 20101, and all of the following occur:

(A) The disposal complies with applicable provisions of part 31 or 115.

(B) The disposal is not to a surface water.

(C) The landowner of the disposal site has authorized the disposal.

(f) A liquid vegetable or animal fat oil that is transported directly to a producer of biofuels for the purpose of converting the oil to biofuel.

(g) An off-specification fuel, including a gasoline blendstock, that was generated in a pipeline as the interface material from the mixture of 2 adjacent fuel products and that will be processed, by blending or by distillation or other refining, to produce a fuel product or fuel products.

(h) An off-specification fuel, including a gasoline blendstock, that resulted from the commingling of off-specification fuel products or from phase separation in a gasoline and alcohol blend and that will be processed, by distillation or other refining, to produce fuel products.

(i) An off-specification fuel product transported directly to a distillation or refining facility to produce a fuel product or fuel products regulated pursuant to 40 CFR part 80.

(j) A liquid or a sludge and associated liquid authorized to be applied to land under part 31 or 115.

(k) A liquid residue remaining in a container after pouring, pumping, aspirating, or another practice commonly employed to remove liquids has been utilized, if not more than 1 inch of residue remains on the bottom, or, for containers less than or equal to 110 gallons in size, not more than 3% by weight of residue remains in the container, or, for containers greater than 110 gallons in size, not more than 0.3% by weight of residue remains in the container. The liquid residue becomes subject to this part when discarded.

(*l*) A residual amount of liquid remaining in a container and generated as a result of transportation of a solid waste in that container.

(m) A liquid brine authorized for use as dust and ice control regulated under parts 31 and 615.

(n) Food processing residuals as defined in section 11503, or site-separated material or source-separated material approved by the department under part 115, that, to produce biogas, will be decomposed in a controlled manner under anaerobic conditions using a closed system that complies with part 55.

(o) A liquid approved by the director for use as a biofuel in energy production in compliance with part 55 that is not speculatively accumulated and that is transported directly to the burner of the biofuel.

History: Add. 2008, Act 8, Imd. Eff. Feb. 20, 2008;—Am. 2008, Act 153, Imd. Eff. June 5, 2008;—Am. 2015, Act 224, Eff. Mar. 16, 2016.

Popular name: Act 451

Popular name: NREPA

324.12103 Generator; duties.

Sec. 12103. (1) A generator shall do all of the following:

(a) Characterize the liquid industrial by-product in accordance with this act and maintain records of the characterization.

(b) Maintain labeling or marking on containers and tanks of liquid industrial by-product to identify their contents.

(c) If transporting liquid industrial by-product, other than the generator's own by-product, by public roadway, engage, employ, or contract for the transportation only with a transporter registered and permitted under the hazardous materials transportation act, 1998 PA 138, MCL 29.471 to 29.480.

(d) Except as otherwise provided in this part, utilize and retain a separate shipping document for each shipment of liquid industrial by-product transported to a designated facility. The department may authorize the use of a consolidated shipping document for a single shipment of uniform types of by-product collected from multiple by-product pickups. If a consolidated shipping document is authorized by the department and utilized by a generator, a receipt shall be obtained from the transporter documenting the transporter's company name, the driver's signature, the date of pickup, the type and quantity of by-product accepted from the generator, the consolidated shipping document number, and the designated facility. A generator of brine may complete a single shipping document per transporter of brine, per disposal well, each month.

(e) Certify that, when the transporter picks up liquid industrial by-product, the liquid industrial by-product is fully and accurately described on the shipping document and in proper condition for transport and that the information contained on the shipping document is factual. This certification shall be by the generator or the generator's authorized representative.

(f) Provide to the transporter a copy of the shipping document to accompany the liquid industrial by-product to the designated facility.

(g) If the generator does not receive confirmation of acceptance of the liquid industrial by-product by the designated facility, attempt to obtain confirmation by contacting the designated facility and the transporter. If resolution cannot be achieved after contacting the designated facility and transporter, the generator shall notify the department.

(2) A generator that transports its own liquid industrial by-product or operates an on-site reclamation facility, treatment facility, or disposal facility shall keep records of all by-product produced and transported, reclaimed, treated, or disposed of at the facility.

(3) A generator shall retain all records required pursuant to this part for a period of at least 3 years, and shall make those records readily available for review and inspection by the department or a peace officer. The retention period required by this subsection is automatically extended during the course of any unresolved enforcement action regarding the regulated activity or as otherwise required by the department. Records required under this part may be retained in electronic format.

History: 1994, Act 451, Eff. Mar. 30, 1995;—Am. 1998, Act 140, Eff. Sept. 1, 1998;—Am. 2001, Act 165, Imd. Eff. Nov. 7, 2001;—Am. 2007, Act 75, Imd. Eff. Sept. 30, 2007;—Am. 2008, Act 8, Imd. Eff. Compiler's note: For transfer of authority, powers, duties, functions, and responsibilities of the Waste Management Division to the Director of the Michigan Department of Environmental Quality, see E.R.O. No. 1995-16, compiled at MCL 324.99903 of the Michigan Compiled Laws.

Popular name: Act 451

Popular name: NREPA

324.12104 Repealed. 1998, Act 140, Eff. Sept. 1, 1998.

Compiler's note: The repealed section pertained to licensing requirements for transportation of liquid industrial wastes.

Popular name: Act 451

Popular name: NREPA

324.12105 Registered and permitted transporter; requirements.

Sec. 12105. A transporter is subject to the registration and permitting requirements of the hazardous materials transportation act, 1998 PA 138, MCL 29.471 to 29.480. A transporter registered and permitted under that act and licensed under part 117 shall comply with all of the following:

(a) All registration and permitting requirements of the hazardous materials transportation act, 1998 PA 138, MCL 29.471 to 29.480, and licensing requirements of this part and part 117.

(b) Septage waste or liquid industrial by-product transported in a vehicle managed under part 117 and this part shall not be disposed of on land, unless specifically authorized by the department.

(c) Unless, under subdivision (b), the department specifically authorizes land application, in addition to the requirements of this part and part 117, the words "Land Application Prohibited", in a minimum of 2-inch letters, shall be affixed in a conspicuous location and visible on both sides of the vehicle if both of the following apply:

(*i*) The vehicle is licensed under part 117 to transport septage waste.

(*ii*) The vehicle is authorized under the hazardous materials transportation act, 1998 PA 138, MCL 29.471 to 29.480, to transport liquid industrial by-product.

History: 1994, Act 451, Eff. Mar. 30, 1995;—Am. 1998, Act 140, Eff. Sept. 1, 1998;—Am. 2008, Act 8, Imd. Eff. Feb. 20, 2008;—Am. 2015, Act 224, Eff. Mar. 16, 2016.

324.12106 Equipment, location, and methods of transporter; inspection by department.

Sec. 12106. The department may conduct an inspection to verify that the equipment, location, and methods of a transporter are adequate to effectuate service under this part.

History: 1994, Act 451, Eff. Mar. 30, 1995;—Am. 1998, Act 140, Eff. Sept. 1, 1998.

Popular name: Act 451

Popular name: NREPA

324.12107 Vehicles; copy of registration and permit to be carried; closing or covering of vehicles; cleaning and decontamination; applicability of subsection (3) to vehicle transporting brine.

Sec. 12107. (1) A vehicle used to transport liquid industrial by-product by public roadway shall carry a copy of the registration and permit issued in accordance with the hazardous materials transportation act, 1998 PA 138, MCL 29.471 to 29.480, and shall produce it upon request of the department or a peace officer. The registration and permit may be carried in electronic format.

(2) All vehicles and containers used to transport liquid industrial by-product shall be closed or covered to prevent the escape of by-product. The outside of all vehicles, containers, and accessory equipment shall be kept free of by-product and its residue.

(3) To avoid cross-contamination, all portions of a vehicle or equipment that have been in contact with liquid industrial by-product shall be cleaned and decontaminated before the transport of any products, incompatible by-product, hazardous waste regulated under part 111, or other material. Before the transport of by-product, all portions of a vehicle or equipment shall be cleaned and decontaminated, as necessary, of any hazardous waste regulated under part 111. A transporter who owns or legally controls a vehicle or equipment shall maintain as part of the transporter's records documentation that before its use for the transportation of any products, incompatible by-product, hazardous waste regulated under part 111, or other material, the vehicle or equipment was decontaminated. This subsection does not apply to a vehicle if brine was transported in the vehicle and the next load transported in the vehicle is brine for disposal or well drilling or production purposes, oil or other hydrocarbons produced from an oil or gas well, or water or other fluids to be used in activities regulated under part 615 or the rules, orders, or instructions under that part.

324.12109 Liquid industrial by-product transporter; delivery; retention of records; use of consolidated shipping document; issuance of site identification number.

Sec. 12109. (1) A liquid industrial by-product transporter shall provide the generator confirmation of acceptance of by-product for transportation and shall deliver the liquid industrial by-product only to the designated facility specified by the generator.

(2) The liquid industrial by-product transporter shall retain all records required under this part for at least 3 years, and shall make those records readily available for review and inspection by the department or a peace officer. The retention period required in this subsection is automatically extended during the course of any unresolved enforcement action regarding an activity regulated under this part or as required by the department. Records required under this part may be retained in electronic format.

(3) The department may authorize, for certain liquid industrial by-product streams, the use of a consolidated shipping document as authorized under section 12103(1)(d). If a consolidated shipping document is authorized by the department and utilized by a generator, the transporter shall give to the generator a receipt documenting the transporter's company name, the driver's signature, the date of pickup, the type and quantity of by-product removed, the consolidated shipping document number, and the designated

facility.

(4) A transporter shall obtain a site identification number assigned by the United States Environmental Protection Agency or the department. Until October 1, 2021, the department shall assess a site identification number user charge of $50.00 for each site identification number it issues. The department shall not issue a site identification number under this subsection unless the site identification number user charge and the tax identification number for the person applying for the site identification number have been received. Money collected under this subsection shall be forwarded to the state treasurer for deposit into the environmental pollution prevention fund created in section 11130.

History: 1994, Act 451, Eff. Mar. 30, 1995;—Am. 1998, Act 140, Eff. Sept. 1, 1998;—Am. 2001, Act 165, Imd. Eff. Nov. 7, 2001;—Am. 2007, Act 75, Imd. Eff. Sept. 30, 2007;—Am. 2011, Act 90, Imd. Eff. 324.12111 Incidents threatening public health, safety, and welfare, or environment; duties of generator, transporter, or owner or operator of facility; exemptions.

Sec. 12111. (1) If a fire, explosion, or discharge of liquid industrial by-product occurs that could threaten the public health, safety, and welfare, or the environment, or when a generator, transporter, or owner or operator of a designated facility first has knowledge that a spill of by-product has reached surface water or groundwater, the generator, transporter, or owner or operator of the designated facility shall take appropriate immediate action to protect the public health, safety, and welfare, and the environment, including notification of local authorities and the pollution emergency alerting system using the telephone number 800-292-4706, unless the incident is reported to this state under another state law.

(2) The generator, transporter, or owner or operator of a designated facility shall, within 30 days, prepare and maintain as part of his or her records a written report documenting the incident described in subsection (1) and the response action taken, including any supporting analytical data and cleanup activities. The report shall be provided to the department upon request. Both the initial notification, as appropriate, and the report shall include all of the following information:

(a) The name and telephone number of the person reporting the incident.

(b) The name, address, and telephone number of the generator, transporter, or designated facility, and the site identification number of the transporter or designated facility.

(c) The date, time, and type of incident.

(d) The name and quantity of liquid industrial by-product involved and discharged.

(e) The extent of injuries, if any.

(f) The estimated quantity and disposition of recovered materials that resulted from the incident, if any.

(g) An assessment of actual or potential hazards to human health or the environment.

(h) The response action taken.

(3) Incidents occurring in connection with activities regulated under part 615 or the rules, orders, or instructions under that part or regulated under part C of title XIV of the public health service act, 42 USC 300h to 300h-8, or the regulations promulgated under that act are exempt from the requirements of this section.

324.12112 Facility accepting liquid industrial by-product; duties of owner or operator; report.

Sec. 12112. (1) The owner or operator of a facility that accepts liquid industrial by-product shall accept delivery of by-product at the designated facility only if the facility is the destination indicated on the shipping document. The facility owner or operator shall do all of the following:

(a) Obtain a site identification number assigned by the United States Environmental Protection Agency or the department. Until October 1, 2021, the department shall assess a site identification number user charge of $50.00 for each site identification number it issues. The department shall not issue a site identification number

under this subdivision unless the site identification number user charge and the tax identification number for the person applying for the site identification number have been received. Money collected under this subdivision shall be forwarded to the state treasurer for deposit into the environmental pollution prevention fund created in section 11130.

(b) Provide the generator or the generator's authorized representative confirmation of the receipt of the liquid industrial by-product.

(c) Maintain records of the characterization of the liquid industrial by-product. Characterization shall be in accordance with the requirements of this act.

(2) All storage, treatment, and reclamation of liquid industrial by-product at the designated facility shall be in either containers or tanks or as otherwise specified in section 12113(5). Storage, treatment, or reclamation regulated under part 615 or the rules, orders, or instructions promulgated under that part, or regulated under part C of title XIV of the public health service act, 42 USC 300h to 300h-8, or the regulations promulgated under that part are exempt from this subsection.
