

MODEL ROCKETS (EXCERPT)
Act 333 of 1965

259.785 Model rockets; location of launch site, standards.

Sec. 5. A model rocket may be launched, operated and flown only in a location, not otherwise restricted by law, which shall comply with the following minimum standards:

(a) A ground area shall be used containing at least 5,000 square yards and having a general rectangular shape with no side less than 50 yards in length.

(b) Flight areas shall be located in places that will not create a hazard to persons and property in the vicinity of the area.

(c) Flight areas shall not contain or be located adjacent to a high voltage power line, major highway, multi-story building or other obstacle.

History: 1965, Act 333, Imd. Eff. July 23, 1965.
