

MANUFACTURING MILK LAW OF 2001 (EXCERPT)
Act 267 of 2001

288.736 Equipment; compliance with sanitary standards.

Sec. 176. A person shall ensure that all new equipment meets applicable sanitary standards. Equipment and utensils coming in contact with milk, dairy products, mix or frozen desserts, including sanitary pumps, piping, fittings, and connections, shall be constructed of stainless steel or other equally corrosion-resistant material. However, where the use of stainless steel is not practicable, or in old equipment, other metals properly coated or plated may be approved in writing by the director on a case-by-case basis. Nonmetallic parts having product contact surfaces shall be of material that meets sanitary standards.

History: 2001, Act 267, Eff. Feb. 8, 2002.
