

NATURAL RESOURCES AND ENVIRONMENTAL PROTECTION ACT (EXCERPT)
Act 451 of 1994

324.30105 Pending applications; posting on website; public hearing; review of application; statement; final inspection and certification; notice of hearing; conditional permit in emergency; provisions applicable to minor project; issuance of general permits; minor project category; general permit for activities in drains; definitions.

Sec. 30105. (1) The department shall post on its website all of the following under this part:

- (a) A list of pending applications.
- (b) Public notices.
- (c) Public hearing schedules.

(2) The department may hold a public hearing on pending applications.

(3) Except as otherwise provided in this section, upon receiving an application, the department shall submit copies for review to the director of the department of community health or the local health department designated by the director of the department of community health, to the city, village, or township and the county where the project is to be located, to the local conservation district, to the watershed council established under part 311, if any, to the local port commission, if any, and to the persons required to be included in the application pursuant to section 30104. Each copy of the application shall be accompanied by a statement that unless a written request is filed with the department within 20 days after the submission for review, the department may grant the application without a public hearing where the project is located. The department may hold a public hearing upon the written request of the applicant or a riparian owner or a governmental unit or other person that is entitled to receive a copy of the application pursuant to this subsection.

(4) After completion of a project for which an application is approved, the department may cause a final inspection to be made and certify to the applicant that the applicant has complied with the department's permit requirements.

(5) At least 10 days' notice of a hearing to be held under this section shall be given by publication in a newspaper circulated in the county where the project is to be located, to the person requesting the hearing, and to the governmental units and other persons that are entitled to receive a copy of the application pursuant to subsection (3).

(6) In an emergency, the department may issue a conditional permit before the expiration of the 20-day period referred to in subsection (3).

(7) After providing notice and an opportunity for a public hearing, the department shall establish minor project categories of activities and projects that are similar in nature, have minimal adverse environmental effects when performed separately, and will have only minimal cumulative adverse effects on the environment. The department may act upon an application received pursuant to section 30104 for an activity or project within a minor project category without providing notices pursuant to subsection (3). The department shall develop a minor project category under this subsection for repair or replacement of a failed seawall. All other provisions of this part, except provisions applicable only to general permits, are applicable to a minor project.

(8) The department, after notice and an opportunity for a public hearing, shall issue general permits on a statewide basis or within a local unit of government for projects that are similar in nature, that will cause only minimal adverse environmental effects when performed separately, and that will only have minimal cumulative adverse effects on the environment. Before authorizing a specific project to proceed under a general permit, the department may provide notice pursuant to subsection (3) but shall not hold a public hearing and shall not typically require a site inspection. A general permit issued under this subsection shall not be valid for more than 5 years. Among the activities the department may consider for general permit eligibility under this subsection are the following:

(a) The removal of qualifying small dams.

(b) The maintenance or repair of an existing pipeline, if the pipeline is maintained or repaired in a manner to ensure that any adverse effects on the inland lake or stream will be minimized.

(9) The department may issue, deny, or impose conditions on project activities authorized under a minor project category or a general permit if the conditions are designed to remove an impairment to the inland lake or stream, to mitigate the effects of the project, or to otherwise improve water quality. The department may also establish a reasonable time when the proposed project is to be completed or terminated.

(10) If the department determines that activity in a proposed project, although within a minor project category or a general permit, is likely to cause more than minimal adverse environmental effects, the department may require that the application be processed according to subsection (3) and reviewed for

compliance with section 30106.

(11) The department shall develop by December 31, 2013 and maintain a general permit for activities in drains legally established pursuant to the drain code of 1956, 1956 PA 40, MCL 280.1 to 280.630. The general permit is subject to all of the following:

(a) The general permit shall cover installation and replacement of culverts, clear span bridges, and end sections; culvert extensions; drain realignments; installation of bank stabilization structures and grade stabilization structures; spoil placement; and other common drain activities that use best management practices.

(b) A drain commissioner or drainage board may submit an application for an authorization under the general permit on a countywide basis. The department of agriculture and rural development may submit an application for an authorization under the general permit on behalf of an intercounty drainage board on a drainage-district-wide basis.

(c) The department shall grant or deny an authorization under the general permit by March 1 if the drain commissioner or drainage board applies for the authorization by the preceding January 20. An authorization under the general permit is valid until March 30 of the year after the year in which the authorization is granted.

(d) By December 31 of each year, the drain commissioner or drainage board shall submit a report to the department that includes the names of the drains on which activities were performed under the general permit during that calendar year, the locations and nature of the activities, and plans and other documentation demonstrating that those activities met the general permit requirements.

(e) A drain commissioner or drainage board is not eligible to be granted a new authorization under the general permit if significant violations of the general permit under a previous authorization granted to that drain commissioner or drainage board have not been corrected.

(12) As used in this section:

(a) "Failed seawall" means a seawall that has deteriorated to the point that it no longer effectively breaks the force of waves or retains soil for the purpose of shore protection and meets either or both of the following:

(i) The seawall is currently breaking the force of waves and retaining soil across a minimum of 50% of its length and there is evidence of a previous seawall along the other 50% of its length.

(ii) The seawall was breaking the force of waves and retaining soil but was damaged by a single catastrophic event which occurred within the 2 years prior to the repair or replacement of the seawall.

(b) "Qualifying small dam" means a dam that meets all of the following conditions:

(i) The height of the dam is less than 2 feet.

(ii) The impoundment from the dam covers less than 2 acres.

(iii) The dam does not serve as the first dam upstream from the Great Lakes or their connecting waterways.

(iv) The dam is not serving as a sea lamprey barrier.

(v) There are no threatened or endangered species that have been identified in the area that will be affected by the project.

(vi) There are no known areas of contaminated sediments in the area that will be affected by the project.

(vii) The department has received written permission for the removal of the dam from all riparian property owners adjacent to the dam's impoundment.

History: Add. 1995, Act 59, Imd. Eff. May 24, 1995;—Am. 1995, Act 171, Imd. Eff. Oct. 9, 1995;—Am. 1999, Act 106, Imd. Eff. July 7, 1999;—Am. 2004, Act 325, Imd. Eff. Sept. 10, 2004;—Am. 2006, Act 275, Imd. Eff. July 7, 2006;—Am. 2006, Act 531, Imd. Eff. Dec. 29, 2006;—Am. 2009, Act 120, Eff. Nov. 6, 2009;—Am. 2013, Act 98, Imd. Eff. July 2, 2013;—Am. 2014, Act 351, Eff. Jan. 16, 2015.

Compiler's note: Enacting section 1 of Act 120 of 2009 provides:

"Enacting section 1. This amendatory act does not take effect unless both of the following requirements are met:

"(a) \$4,000,000.00 from the cleanup and redevelopment trust fund created in section 3e of 1976 IL 1, MCL 445.573e, and \$4,000,000.00 from the community pollution prevention fund created in section 3f of 1976 IL 1, MCL 445.573f, is appropriated by the legislature to the environmental protection fund created in section 503a of the natural resources and environmental protection act, 1994 PA 451, MCL 324.503a.

"(b) \$2,000,000.00 is appropriated by the legislature from the environmental protection fund to support the program under part 303 of the natural resources and environmental protection act, 1994 PA 451, MCL 324.30301 to 324.30329."
