

NATURAL RESOURCES AND ENVIRONMENTAL PROTECTION ACT (EXCERPT)
Act 451 of 1994

324.30708 Maintenance of normal level; acquisition by gift, grant, purchase, or condemnation; contract for operation and maintenance of existing dam; dam in adjoining county; operation of pumps and wells.

Sec. 30708. (1) After the court determines the normal level of an inland lake in a proceeding initiated by the county, the delegated authority of any county or counties in which the inland lake is located shall provide for and maintain that normal level.

(2) A county may acquire, in the name of the county, by gift, grant, purchase, or condemnation proceedings, an existing dam that may affect the normal level of the inland lake, sites for dams, or rights in land needed or convenient in order to implement this part. A county may enter into a contract for operation and maintenance of an existing dam. The county may construct and maintain a dam that is determined by the delegated authority to be necessary for the purpose of maintaining the normal level. A dam may be acquired, constructed, or maintained in a county adjoining the county in which the lake is located.

(3) For the purpose of maintaining the normal level, a delegated authority may drill wells or pump water from another source to supply an inland lake with additional water, may lower the level of the lake by pumping water from the lake, and may purchase power to operate pumps, wells, or other devices installed as part of a normal level project.
