

NATURAL RESOURCES AND ENVIRONMENTAL PROTECTION ACT (EXCERPT)
Act 451 of 1994

324.5527 Emergency; definition; affirmative defense; burden of proof.

Sec. 5527. (1) As used in this section, "emergency" means a situation arising from sudden and reasonably unforeseeable events beyond the control of the source, including acts of God, war, strike, riot, catastrophe, or other condition as to which negligence on the part of the person was not the proximate cause, that requires immediate corrective action to restore normal operation, and that causes the source to exceed a technology-based emission limitation contained in an operating permit issued pursuant to section 5506, a permit to install or permit to operate issued pursuant to section 5505, or any rule promulgated under this part due to unavoidable increases in emissions attributable to the situation. An emergency does not include acts of noncompliance caused by improperly designed equipment, lack of preventative maintenance, careless or improper operation, or operator error.

(2) An emergency constitutes an affirmative defense to an action brought for noncompliance with a technology-based emission limitation contained in an operating permit issued pursuant to section 5506, a permit to install or permit to operate issued pursuant to section 5505, or any rule promulgated under this part if the emergency is demonstrated through properly signed, contemporaneous operating logs, or other relevant evidence that establishes all of the following:

- (a) An emergency occurred and that the defendant can identify the cause or causes of the emergency.
- (b) The source was properly operated at the time of the emergency.
- (c) During the emergency the defendant took all reasonable steps to minimize levels of emissions that exceeded the emission standards, or other requirements in the permit.
- (d) The defendant submitted notice of the emergency to the department within 2 working days after the emission limitation was exceeded due to the emergency. This notice must contain a description of the emergency, any steps taken to mitigate emissions, and corrective actions taken.

(3) In any enforcement proceeding, the defendant seeking to establish the occurrence of an emergency has the burden of proof.
