

THE INSURANCE CODE OF 1956 (EXCERPT)
Act 218 of 1956

500.2472 Statistical plans; exchange of data, consultation.

Sec. 2472. (1) The commissioner shall promulgate reasonable rules and statistical plans, reasonably adapted to each of the rating systems on file with him, which may be modified from time to time and which shall be used thereafter to the extent applicable to its particular rating system or systems, by each insurer in the recording and reporting of its loss and countrywide expense experience, in order that the experience of all insurers may be made available at least annually in such form and detail as may be necessary to aid him in determining whether rating systems comply with the standards set forth in section 2403. Such rules and plans may also provide for the recording and reporting of expense experience items which are specially applicable to this state and are not susceptible of determination by a prorating of countrywide expense experience. In promulgating such rules and plans, the commissioner shall give due consideration to the rating systems on file with him and, in order that such rules and plans may be as uniform as is practicable among the several states, to the rules and to the form of the plans used for such rating systems in other states. No insurer shall be required to record or report its loss experience on a classification basis that is inconsistent with the rating system filed by it and no insurer shall be required to record or report its loss or expense experience on any basis or statistical plan that differs from that which is regularly employed and maintained in the usual course of such insurer's business, or to any rating organization or agency of which it is not a member or subscriber. The commissioner may designate 1 or more rating organizations or other agencies to assist him in gathering such experience and making compilations thereof, and such compilations shall be made available, subject to reasonable rules promulgated by the commissioner, to insurers and rating organizations.

(2) Reasonable rules and plans may be promulgated by the commissioner for the interchange of data necessary for the application of rating plans.

(3) In order to further uniform administration of rate regulatory laws, the commissioner and every insurer and rating organization may exchange information and experience data with insurance supervisory officials, insurers and rating organizations in other states and may consult with them with respect to rate making and the application of rating systems.
