The cities, villages and townships shall continue to own, operate and maintain their own water distribution systems. It is the intent of this act to provide an equitable and reasonable method and means of financing and acquiring a central water supply and transmission system to supply potable water in sufficient quantities to local governmental units for distribution and sale to their own customers and users. The authority shall be limited to acquiring, owning and operating the central water supply and transmission system in the manner authorized by this act, either within or without the corporate limits of the authority.

From the date of the filing, the authority shall be deemed to be duly and legally incorporated under the provisions of this act if the total current state equalized valuation of such units of government so filing shall be \$200,000,000.00 or more. If the electors of 1 or more cities, villages or townships vote against becoming a part of the authority, such fact shall not defeat the incorporation if the incorporation was approved by the electors of any 2 or more remaining cities, villages or townships having a current state equalized valuation of \$200,000,000.00 or more; but the remaining cities, villages or townships shall constitute the boundaries of the authority, and a part thereof, if the legislative bodies of the remaining units of government, by resolution, approve the incorporation. In determining the voting strength of a commissioner from a village, such village shall be deemed to have a state equalized valuation equal to that proportion of the state equalized valuation of the whole township in which such village is located as the assessed valuation of such village, as determined by the township board of review, bears to the assessed valuation of the whole township in which such village is located, as last determined by the township board of review. In addition to such 1 vote, the commissioner from each city, village or township having a state equalized valuation in excess of \$40,000,000.00 shall have 1 cumulative and additional vote for each \$40,000,000.00 or any part thereof of state equalized valuation for the city, village or township he represents in excess of \$40,000,000.00.
