125.1253a Programs of water and air pollution control for industries and public utilities; water and air pollution control equipment; powers of municipality.

Sec. 3a. There exists in this state the continuing need for programs of water and air pollution control and solid waste disposal facilities for industries and public utilities in order to protect the public health, safety, and welfare of the residents of the state, and it is necessary to promote and encourage the acquisition, purchase, construction, reconstruction, enlarging, remodeling, improving, repairing, operation, and maintenance of adequate and proper water and air pollution control equipment and solid waste disposal facilities for industrial buildings and the facilities of public utilities now or hereafter located in this state. The authority and powers conferred by this act, including the powers conferred with respect to the acquisition, purchase, construction, reconstruction, enlarging, remodeling, improving, repairing, operation, and maintenance of pollution control facilities and the financing thereof whether by purchase, sale, lease, or otherwise, including pollution control

facilities heretofore acquired, under construction, placed in operation, or completed by any person, firm, corporation, or public utility, and the issuance of bonds for the purpose of refunding outstanding bonds, constitutes such a necessary program and serves a valid public purpose. A municipality may do any or all of the following:

(a) Construct, acquire by gift or purchase, reconstruct, improve, enlarge, maintain, remodel, repair, or operate and maintain any pollution control facilities or portion thereof within or without the municipality whether the pollution control facilities have been or are operating, are under construction, or are completed. The interest of the municipality in the pollution control facilities leased or sold to a public utility may be subject or may be made subject to a mortgage, lien, security interest, or encumbrance given or made by a public utility from which the municipality acquired its interest or which, under an agreement made pursuant to subdivision (c), has or may acquire an interest in the pollution control facilities.

(b) Issue revenue bonds under, subject to, and in accordance with this act to finance, in whole or in part, the costs of acquisition, purchase, construction, reconstruction, enlarging, remodeling, improving, or repair of pollution control facilities referred to in subdivision (a), or to refund outstanding bonds, or partly to finance, in whole or in part, the costs of acquisition, purchase, construction, reconstruction, enlarging, remodeling, improving or repair of pollution control facilities referred to in subdivision (a) and partly to refund outstanding bonds. The revenue bonds may be issued by a municipality to finance the costs of the acquisition, purchase, construction, reconstruction, enlarging, remodeling, improving, or repair of pollution control facilities located or to be located in 1 or more places within or without the municipality issuing the revenue bonds. Revenue bonds issued pursuant to this section may be issued solely for the acquisition, purchase, construction, reconstruction, enlarging, remodeling, improving, or repair of pollution control facilities referred to in subdivision (a), notwithstanding that the municipality does not own or propose to own the industrial buildings or public utility facilities, including lands or interests in lands therefor in or near to which the pollution control facilities are or are to be located.

(c) Enter into a lease, lease-purchase agreement, or installment sales contract with any person, firm, corporation, or public utility for the use or sale of pollution control facilities referred to in subdivision (a). The agreement shall provide that the rents to be charged for the use or the sums to be paid under the installment sales contract shall be fixed so as to produce income and revenues therefrom sufficient to pay promptly when due the interest upon and the principal of all bonds issued payable therefrom after provision has been made for the payment of operation and maintenance costs, if the costs of operation and maintenance are required to be paid under the agreement by the municipality. An agreement may provide for conveyance of the pollution control facilities to the lessee or purchaser under the agreement after provision has been made for the retirement in full of all bonds issued therefor under terms and conditions provided in the agreement or, with respect to pollution control facilities leased or sold to a public utility, at any time where the obligation of the lessee or purchaser to make the payments prescribed by the preceding sentence of this subdivision shall remain fixed as therein provided notwithstanding the conveyance. The agreement shall specify that the pollution control facilities shall remain in or near the industrial building or plant or facility of the person, firm, corporation, or public utility until provision has been made for the retirement in full of all bonds issued therefor unless the pollution control facilities are conveyed by the municipality as authorized by this subdivision or are replaced without cost to the municipality with machinery and equipment of at least equivalent value or utility. Where the pollution control facilities are sold pursuant to an installment sales contract, the terms "lease," "leased," "lessee," or words of similar import used in this act shall be construed respectively to mean "installment sales contract," "sold," "purchaser," or words of similar import as the context may require, and the term "rent" or words of similar import as used in this act shall be construed to mean "purchase installments" or words of similar import as the context may require.

(d) Mortgage or create security interest in any pollution control facilities referred to in subdivision (a), or in any lease, lease-purchase agreement, or installment sales contract referred to in subdivision (c), or in the rents, revenues, or sums to be paid thereunder, in favor of the holders of the revenue bonds issued therefor. A mortgage or security interest in pollution control facilities leased or sold to a public utility may be subject, or may be made subject, to a mortgage, lien, security interest, or encumbrance to which the interest of the municipality may be subject pursuant to the provisions of subdivision (a) or to a future mortgage, lien, security interest, or other encumbrance which may be created in any pollution control facilities by the lessee or purchaser.

(e) Sell and convey the pollution control facilities referred to in subdivision (a) owned by the municipality, including without limitation the sale and conveyance thereof subject to a mortgage or security interest referred to in subdivision (d) for such price and at such time as the governing body may determine. A sale or conveyance shall not be made in any manner as to impair the rights or interests of the holders of any revenue bonds previously issued therefor or the rights or interests of any lessee or the purchaser thereof under any

agreement with the municipality for the lease or purchase thereof.

Sec. 4. (1) For the purpose of defraying the cost of the industrial building, the site for the building, and industrial machinery and equipment, a municipality may borrow money and issue its negotiable bonds for that purpose. The bonds shall be serial bonds or term bonds or a combination of these and if serial bonds they shall be payable either semiannually or annually with the first maturity date not more than 5 years from the date of issuance. The last maturity date of the bonds, whether term or serial, shall be not more than 40 years from the date of issuance. A maturity date shall not fall due after the estimated period of usefulness of the industrial building, or, if the industrial machinery and equipment represent more than 2/3 of the total cost of the project, after the average estimated period of usefulness of said industrial machinery and equipment. The bonds shall bear a rate of interest as specified therein not to exceed the maximum rate permitted by the revised municipal finance act, 2001 PA 34, MCL 141.2101 to 141.2821, payable semiannually, except that the first coupon may be for any number of months not exceeding 10. The bonds and coupons shall be substantially in the form provided in the authorizing resolution and shall be executed in the manner prescribed in this act, which as to coupons may be by facsimile signature. The bonds and coupons shall be payable in lawful money of the United States, and shall be exempt from taxation by this state or by any taxing authority within this state. The principal and interest of the bonds shall be payable from the net revenues derived from the industrial building and site and industrial machinery and equipment, from the proceeds of the sale of bonds issued to refund outstanding bonds, from the investment earnings of the proceeds, or from any combination of these sources. A bond or coupon issued pursuant to this act shall not be a general obligation of the issuer nor constitute a debt of the issuer within the meaning of the constitutional or statutory limitation. Bonds may be made registerable as to principal or principal and interest under terms and conditions as may be determined by the governing body of the municipality.

(2) Bonds issued under this act are not subject to the revenue bond act of 1933, 1933 PA 94, MCL 141.101 to 141.140.

The mortgage or deed of trust may contain such

covenants and agreements to properly safeguard the bonds as may be provided for in the resolution authorizing the bonds but not inconsistent with this act and shall be executed in the manner provided in the resolution. Additional bonds may be issued to defray the cost of 1 or more of the following:
